	2. The Medical Expense and Perform	
70	Reporting System (MEPRS) code is a th	iree
	digit code which defines the summary	
	account and the subaccount within a	1
	functional category in the DoD medica	
	system. An example of this hierarchica	u
S	arrangement is as follows:	

## Outpatient Care (Functional Category) MEPRS Code

Medical Care (Summary Account) BA Internal Medicine (Subaccount) .... BAA

MEPRS codes are used to ensure that consistent expense and operating performance data is reported in the DoD military medical system.

For the period beginning October 1, 1995, the rates prescribed herein superseded those established by the Director of the Office of
