surrounds the fireworks barge during the event. Under this rule, the Captain of the Port may establish transit lanes along the east and west shorelines of Lake Union. If established, boaters will be allowed to transit north and south through the safety zone in these lanes. These lanes will remain open until 10 p.m. and then be closed until the conclusion of the fireworks display. This safety zone will be enforced by representatives of the Captain of the Port Puget Sound, Seattle, Washington. The Captain of the Port may be assisted by other federal agencies.

# Regulatory Evaluation

This rule is not a significant action under section 3(f) of Executive Order 12866 and does not require an assessment of potential costs and benefits under section 6(a)(3) of that order. It has been exempted from review by the Office of Management and Budget under that order. It is not significant under the regulatory policies and procedures of the Department of Transportation (DOT) (44 FR 11040; February 26, 1979). The Coast Guard expects the economic impact of this regulation to be so minimal that a full regulatory evaluation under paragraph 10e of the regulatory policies and procedures of DOT is unnecessary. The safety zone established by this regulation will encompass less than eight hundred square yards in the center of Lake Union. Entry into the safety zone will be restricted for less than three hours on the day of the event. These restrictions will have little effect on maritime commerce in the area.

### **Small Entities**

The impact on small entities is expected to be minimal. Therefore, the Coast Guard certifies under 5 U.S.C. 605(b) that this regulation will not have a significant economic impact on a substantial number of small entities.

## Collection of Information

This rule contains no collection of information requirements under the Paperwork Reduction Act (44 U.S.C. 3501 et seq.).

## Federalism

The Coast Guard has analyzed this action in accordance with the principles and criteria contained in Executive Order 12612 and has determined that this rule does not have sufficient federalism implications to warrant the preparation of a federalism assessment.

#### Environment

The Coast Guard considered the environmental impact of this rule and

concluded that, under paragraph 2.B.2 of Commandant Instruction M16475.1B (as revised by 59 FR 38654; July 29, 1994), this rule is categorically excluded from further environmental documentation. Appropriate environmental analysis of the Lake Union Fireworks Display will be conducted in conjunction with the marine event permitting process each year. Any environmental documentation required under the National Environmental Policy Act will be completed prior to the issuance of a marine event permit for this event.

### I. Background

## A. Scope of Covered Services

Title XIX of the Social Security Act (the Act) authorizes States to establish Medicaid programs to provide medical assistance to needy individuals. Section 1902(a)(10) of the Act describes the two broad classifications of most individuals to whom medical assistance may be provided: the categorically needy (section 1902(a)(10)(A)) and the medically needy (section 1902(a)(10)(C)). Section 1905 of the Act defines medical assistance as payment of part or all of the costs of specified services to eligible individuals.

Section 1905(a)(17) of the Act includes, as a service for which medical assistance may be available, nursemidwife services which the nursemidwife is authorized to provide under
