SUPPLEMENTARY INFORMATION:

I. Abstract

The Census Bureau plans to conduct a survey of environmental products and services. This data collection will provide a benchmark for measuring shipments of goods and the revenues for services that define an environmental industry. The survey forms will collect data on the value of products and services provided in 1995 for measuring, preventing, limiting or correcting environmental damage. The survey will also collect value of shipments and services which were exported. The survey results will be used to determine potential product and service classifications in the 1997 Economic Censuses. The survey results will also be used for monitoring and promoting the growth of the environmental industry.

II. Method of Collection

The Census Bureau will use mail out/mail back survey forms to collect the data. Companies will be asked to respond to the survey within 30 days of the initial mailing. Letters encouraging participation will be mailed to companies that have not responded by the designated time.

BILLING CODE 3510-07-P

Bureau of the Census

The Census Advisory Committee (CAC) on the African American Population; et al.; Notice of Public Meetings

Pursuant to the Federal Advisory Committee Act (P.L. 92-463 as amended by P.L. 94-409, P.L. 96-523, and P.L. 97-375), we are giving notice of a joint meeting followed by separate and jointly held (described below) meetings of the CAC on the African American Population, the CAC on the American Indian and Alaska Native Populations, the CAC on the Asian and Pacific Islander Populations, and the CAC on the Hispanic Population. The joint meeting will convene on December 11-13, 1995 at the Doubletree Hotel, 1515 Rhode Island Avenue, N.W., Washington, D.C. 20005.

Each of these Committees is composed of nine members appointed by the Secretary of Commerce. They provide an organized and continuing channel of communication between the communities they represent and the Bureau of the Census on its efforts to reduce the differential in the count for the 2000 census and on ways the census data can be disseminated to maximum usefulness to their communities and other users.

The Committees will draw on past experience with the 1990 census
