firearm injury, (2) examine the factors that influence patient recovery, and (3) document the use of post-acute services and barriers to receiving those services. The following data will be collected: (1) Patients will be interviewed in person prior to discharge and by phone at three months and nine months after discharge, and (2) the medical record will also be abstracted.

| Respondents                     | No. of re-<br>spond-<br>ents | No. of re-<br>sponses/<br>respond-<br>ent | Avg. bur-<br>den/re-<br>sponse (in<br>hrs.) |
|---------------------------------|------------------------------|---|---|
| Patients with firearms injuries | 320                          | 3   | 0.60  |

The total annual burden is 576. Send comments to Allison Eydt, Human Resources and Housing Branch, New Executive Office Building, Room 10235, Washington, DC 20503.

Dated: November 29, 1995.

Wilma G. Johnson,

Acting Associate Director for Policy Planning And Evaluation, Centers for Disease Control and Prevention (CDC).

## Proposed Data Collections Submitted for Public Comment and Recommendations

In compliance with the requirement of Section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995 for opportunity for public comment on proposed data collection projects, the Centers for Disease Control and Prevention (CDC) will publish periodic summaries of proposed projects. To request more information on the proposed projects or to obtain a copy of the data collection plans and instruments, call the CDC Reports Clearance Officer on (404) 639–3453.

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques for other forms of information technology. Send comments to Wilma Johnson, CDC Reports Clearance Officer, 1600 Clifton Road, MS–D24, Atlanta, GA 30333. Written comments should be received within 60 days of this notice.

## Proposed Projects

1. Resources and Services Database of the CDC National AIDS Clearinghouse (NAC)-(0920-0255)-Extension-This is a request to extend this project for three years. NAC will mail the Resource Organization Questionnaire along with a cover letter once an organization is identified as providing AIDS-related services. Each organization will also receive a stamped, self-addressed envelope for the return of the questionnaire. If there is no response a follow-up letter will be sent along with another questionnaire and return envelope. A telephone call will be made to those organizations who respond but whose responses need clarification. Approximately one third of the entire Resources and Services Database is verified each year. As part of this process, 40 percent of these organizations will receive a copy of their current database entry by mail, including a cover letter, a list of

instructions, and a stamped, selfaddressed envelope. The remaining 60 percent will receive a telephone call to review their record.

The Centers for Disease Control and Prevention (CDC) National AIDS Clearinghouse (NAC), is a critical member of the network of government agencies, community organizations, businesses, health professionals, educators, and human services providers that educate the American public about Acquired immunodeficiency syndrome (AIDS) and provide services for persons infected with human immunodeficiency virus (HIV). NAC's Resources and Services Database contains records of approximately 18,000 organizations and is the most comprehensive listing of AIDS resources and services available throughout the country.

NAC's reference staff rely on the Resources and Services Database to respond to more than 100,000 requests for information or referral each year. The Database is also the main information source for the CDC National AIDS Hotline which refers approximately 1.8 million callers from the general public each year to appropriate organizations for information, services, and treatment.

In its continuing efforts to maintain an up-to-date, comprehensive database, NAC is seeking renewal of approval of the survey instrument and proposed methods. The total cost to respondents is estimated at \$94,466.00.

| Respondents             | No. of<br>re-<br>spond-<br>ents | No. of<br>re-<br>sponses/<br>respond-<br>ent | Avg.<br>bur-<br>den/re-<br>sponse<br>(in<br>hrs.) | Total<br>burden<br>(in<br>hrs.) |
