SUPPLEMENTARY INFORMATION: The final decision permitting registration of 1080 LPC was signed by Lee M. Thomas, Assistant Administrator for Solid Waste and Emergency Response, on October 31, 1983 (FIFRA Docket 502). This final decision requires applicators of 1080 LPC to receive specific training and to comply with recordkeeping and reporting requirements beyond that of applicators of other restricted use pesticides. For these reasons EPA has required a distinct certification process for applicators of 1080 LPC. To meet the requirement Oregon has submitted an amendment to the existing Oregon certification plan. This amendment will establish a 1080 LPC subcategory under their existing regulatory pest control category.

Oregon will only be certifying employees of the U.S. Department of Agriculture, Animal Damage Control (ADC), as 1080 LPC applicators. Certification granted ADC employees will permit them to utilize 1080 LPC in performance of their official duties. ADC estimates that approximately 34 employees of ADC will seek certification under the 1080 LPC subcategory. The only registrant of 1080 LPC in Oregon is the ADC. Therefore, the ADC will be the source of 1080 LPC.

The proposed amendment to the Oregon certification plan contains a draft Memorandum of Agreement

between the Oregon Department of Agriculture (ODA) and the ADC addressing their respective roles and responsibilities. The ODA will oversee the activities of the ADC in its roles both as registrant and as employer/supervisor of 1080 LPC applicators. In addition to its responsibilities as registrant, the ADC will provide training and supervision to its 1080 LPC applicators. Certification and recertification will be based upon a written examination administered by the ODA.

Recertification will be required every 5 years.

EPA finds that the proposed amendment permitting certification of 1080 LPC applicators meets the criteria specified in the Final Decision of October 31, 1983 and will assure safe and effective use of 1080 LPC. Therefore, EPA announces its intention to approve the amendment to the Oregon certification plan permitting certification of 1080 LPC applicators.

Interested persons are invited to submit written comments on EPA's intention to approve this amendment to the Oregon certification plan. A record has been established for this action under docket number "OPP-42075" (including comments and data submitted electronically as described below). A public version of this record, including printed, paper versions of electronic comments, which does not include any information claimed as CBI, is available for inspection from 8 a.m. to 4 p.m., Monday through Friday, excluding legal holidays. The public record is located in U.S. Environmental Protection Agency, Region 10, 1200 Sixth Avenue, Eighth Floor, Seattle, WA.

Electronic comments can be sent directly to EPA at:
