

FACILITY NAME:	NPDES PERMIT NUMBER:	EPA ID NUMBER: <i>(for official use only)</i>	Form Approved OMB Number Approval Expires XX-XX-XX
PART 2: PERMIT APPLICATION INFORMATION			
<p>Complete this part of the permit application. The information provided in this part of the application is used by the EPA to determine if the facility is eligible for a permit. The information provided in this part of the application is also used by the EPA to determine if the facility is eligible for a permit. The information provided in this part of the application is also used by the EPA to determine if the facility is eligible for a permit.</p>			
APPLICATION OVERVIEW — SEWAGE SLUDGE USE OR DISPOSAL INFORMATION			
<p>Part 2 is divided into five sections (A-E). Section A pertains to all applicants. The requirements of Sections B, C, D, and E depend on your facility's sewage sludge use or disposal practices. The information provided in this part of the application is used by the EPA to determine if the facility is eligible for a permit. The information provided in this part of the application is also used by the EPA to determine if the facility is eligible for a permit.</p>			
1. SECTION A: GENERAL INFORMATION. Section A must be completed by all applicants.	4. SECTION D: SURFACE DISPOSAL Section D must be completed by applicants who own or operate a surface disposal site.		
2. SECTION B: GENERATION OF SEWAGE SLUDGE OR PREPARATION OF A MATERIAL DERIVED FROM SEWAGE SLUDGE. Section B must be completed by applicants who either: 1) Generate sewage sludge, or 2) Derive a material from sewage sludge.	5. SECTION E: INCINERATION Section E must be completed by applicants who own or operate a sewage sludge incinerator.		
3. SECTION C: LAND APPLICATION OF BULK SEWAGE SLUDGE. Section C must be completed by applicants who either: 1) Apply sewage to the land, or 2) Generate sewage sludge which is applied to the land by others. NOTE: Applicants who meet either or both of the two above criteria are exempted from this requirement if all sewage sludge from their facility falls into one of the following three categories: 1) The sewage sludge from this facility meets the ceiling and pollutant concentrations, Class A pathogen reduction requirements, and one of vector attraction reduction options 1-8, as identified in the instructions, or 2) The sewage sludge from this facility is placed in a bag or other container for sale or give-away for application to the land, or 3) The sewage sludge from this facility is sent to another facility for treatment or blending.
