Contact Person: Linda Martin (804) 737–6010.

*Project Title:* Texas—Achieving Change for Texans.

Description: Statewide, would implement requirement for a personal responsibility agreement which addresses issues such as child support cooperation, early medical screening for children, work requirements, drug and alcohol abuse, school attendance, and parenting skills training; would limit the caretaker exemption from employment services, disregard the earned income and resources from earnings of a child, set resource limits which promote independence from AFDC, eliminate work history and 100hour rules for otherwise eligible twoparent families. In Bexar County would time-limit AFDC benefits to 12, 24, and 36 months depending on education and job experience, with extensions of the time-limit based on severe personal hardship, or in cases where the State could not provide supportive services, or the where the local economy was in such state that the recipient could not reasonably be expected to find employment, if State funds are available to continue assistance. Transitional Medicaid and child care services would be provided to individuals who exhaust their time-limited cash benefits. In two metropolitan statistical areas establish Individual Development Accounts to promote the transition to independence from AFDC, through allowable account deductions for education, business startup costs and the like. In Fort Bend County would allow at recipient option, one-time AFDC cash emergency assistance payments of \$1,000 in lieu of ongoing regular AFDC payments with prohibition from applying for regular AFDC for a period of 12 months from date of receipt. In Dallas-Fort Worth would require electronic imaging (fingerprinting combined with photographic identification).

Date Received: 10/6/95.
Title: AFDC/Medicaid.
Current Status: Pending.
Contact Person: Kent Gummerman,
(512) 438–3743.

Project Title: Utah—Untitled. Description: Statewide, would

exclude the value of a vehicle for AFDC recipient families, including those also receiving Food Stamps. Would not apply to initial eligibility determination.

Date Received: 10/3/95.

Type: AFDC.

Current Status: Pending.

Contact Person: Bill Biggs, (801) 538–4337.

III. Listing of Approved Proposals since November 1, 1995

None.

IV. Requests for Copies of a Proposal

Requests for copies of an AFDC or combined AFDC/Medicaid proposal should be directed to the Administration for Children and Families (ACF) at the address listed above. Questions concerning the content of a proposal should be directed to the State contact listed for the proposal.

## Agency for Health Care Policy and Research

## Availability of Draft Clinical Practice Guideline on Smoking Cessation for Pre-Publication Review

**AGENCY:** Agency for Health Care Policy and Research.

**ACTION:** Notice.

**SUMMARY:** The Agency for Health Care Policy and Research (AHCPR) announces the availability of a draft AHCPR-sponsored clinical practice guideline on smoking cessation for prepublication review. This guideline is being produced by a multidisciplinary private-sector panel of experts convened by AHCPR. The expert panel will not respond to individual comments but will consider all comments in determining revisions to the guideline. Individuals interested in obtaining a copy of the draft guideline for review must agree not to disclose its content to the public prior to its publication by

**DATES:** Comments must be postmarked by January 4, 1996.

SUPPLEMENTARY INFORMATION: The Agency for Health Care Policy and Research is responsible for the development of clinical practice guidelines that may be used by physicians, other health care practitioners, educators, and consumers to assist in determining how diseases, disorders, and other health conditions can most effectively and appropriately be prevented, diagnosed, treated, and clinically managed. The AHCPR facilitates the development of guidelines by establishing private-sector panels who are responsible for their content.

A private-sector panel of health care experts and consumers was formed in May, 1994 to develop a clinical practice guideline to improve the effectiveness of smoking cessation activities. A public meeting was also held in November, 1994 for the panel to receive comments and information relevant to development of the guideline. The panel has reviewed and synthesized the literature on this topic and drafted a set of conclusions and recommendations based on the best available scientific data and expert judgment.

A draft of these conclusions and recommendations is now undergoing peer review by a substantial number of individuals and groups who are knowledgeable about smoking cessation programs and related activities. With this notice, the panel and AHCPR are also making the draft guideline available to any person who wishes to review and comment on it, so long as the person agrees to honor the confidentiality of this draft (as specified below).

After review of all comments received, the panel will revise the draft guideline and prepare the clinical practice guideline on smoking cessation.

Potential reviewers should note that AHCPR may disclose the names of the guideline reviewers at the same time the guideline is published. The AHCPR may also release the review comments after the guideline is published. However, the comments will not be attributed to specific reviewers.

## Confidentiality Statement for Reviewers

During the review process, and until published by AHCPR, the guideline is confidential. It may not be quoted, distributed, or copied without the prior written consent of the panel chair.

All requests for the draft guideline must include the following confidentiality statement signed by the requestor:

In order to protect the integrity of the panel's deliberative process and its final product, I agree that: I will not release, publicly present, publish, have published, or otherwise disseminate any portion of the draft Smoking Cessation guideline.
