

- *1995 work RVUs.* The work RVUs that appeared in the December 1994 rule are shown for each reviewed code.
- *Requested work RVUs.* This column identifies the work RVUs requested by commenters. We received more than one comment on some codes, and, in a few of these cases, the commenters requested different RVUs. The table lists the highest requested RVUs. For some codes, we received recommendations for an increase or decrease but no specific RVU recommendations.

- *1996 work RVUs.* This column contains the final RVUs for physician work.
- *Basis for decision.* This column indicates whether:
 - The recommendations of the refinement panel were the basis upon which we determined that the interim work RVUs published in the December 1994 final rule should be retained (indicator 1);

- A new value emerged from our analysis of the refinement panel ratings (indicator 2); or
- A new or retained value emerged from some other source (indicator 3). Codes with an indicator of 3 are discussed following Table 1, in section VI.B.1.c.
- New or retained values emerged through a combination of the panel ratings and code descriptor interpretation (indicator 4). Codes with an indicator of 4 are discussed following Table 1, in section VI.B.1.b.

b. Discussion of codes reviewed by the panel for which clarification of the description of the service is required.

For several of the codes reviewed by the refinement panel, it was necessary to reach agreement on the meaning of

the codes before individual ratings of work could be provided. In the following paragraphs, we summarize the
