

Commission's order and the CFTC's order approving non-proprietary XM provide for such result.

The CFTC has adopted new rules that provide for a different distributional framework for funds and property carried in a non-proprietary XM account.¹¹ The new revised rules continue the concept of subordination for the purpose of ensuring that the market professionals' securities included in a XM account will be subject to commodity broker liquidation rules but modify the method for property distribution in the event of the liquidation of the firm(s) carrying the non-proprietary XM account. Under the revised distributional scheme, FCMs will continue to make separate calculations for non-XM customers and XM market professionals, and funds deposited pursuant to those calculations will continue to be separately maintained. However, in the event of the failure of the firm(s) carrying the non-proprietary XM accounts, the respective shortfalls, if any, of the pools of funds would be determined as a percentage of the segregation requirement for each pool.

In the event of (i) No shortfall in either pool, (ii) an equal percentage of shortfall in both pools, (iii) a shortfall in the non-XM pool only, or (iv) a greater percentage of shortfall in the non-XM pool than in the XM pool, then the two pools of segregated funds would be combined and non-XM customers and XM market professionals would share pro rata in the combined pool. In the event of (i) a shortfall in the XM pool only or (ii) a greater percentage shortfall in the XM pool than in the non-XM pool, then the two pools of segregated funds would not be combined. Instead, XM market professionals will share pro rata in the pool of XM segregated funds while non-XM customers would share pro rata in the pool of non-XM segregated funds.

In order to implement the new distributional requirements, the clearing organizations operating non-proprietary XM programs must submit amended agreements to the respective regulatory authorities deleting the subordination requirement and substituting a reference to the CFTC's distribution rules. Accordingly, OCC is proposing to make those and other conforming changes¹²

to the agreements governing non-proprietary XM accounts for the XM program among OCC, CME, and ICC, the XM program between OCC and ICC, and the XM program between OCC and KCC.¹³

OCC believes the proposed rule change is consistent with the requirements of Section 17A of the Act and the rules and regulations thereunder because the rule proposal will facilitate the prompt and accurate clearance and settlement of securities transactions and will assure the safeguarding of securities and funds which are in the custody or control of the clearing agency or for which it is responsible.

(B) Self-Regulatory Organization's Statement on Burden on Competition

OCC does not believe that the proposed rule change will impact or impose a burden on competition.

(C) Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others
