Coast Guard

33 CFR Part 151

[CGD 89-014]

RIN 2115-AD23

Implementation of the Shore Protection Act of 1988

AGENCY: Coast Guard, DOT.
ACTION: Notice of withdrawal.

SUMMARY: In May 1989, the Coast Guard began rulemaking to incorporate into regulation certain elements of the Shore Protection Act. Its objective was to help prevent trash, medical debris, and other unsightly and potentially harmful materials from being deposited into the coastal waters of the United States as a result of sloppy waste-handling procedures. Because no additional regulations are needed, the Coast Guard is discontinuing rulemaking under docket number 89-014.

DATES: This discontinuance is effective on December 13, 1995.

FOR FURTHER INFORMATION CONTACT: Lieutenant Junior Grade L.V. Kabler, Project Manager, Office of Marine Safety, Security, and Environmental Protection (G-MRO-1), (202) 267-0423.

SUPPLEMENTARY INFORMATION: In a Federal Register document published May 24, 1989, (54 FR 22546) the Coast Guard contemplated, at some point in the future, establishing procedures for a regular permit and for suspension-and-revocation proceedings under the Shore Protection Act (33 U.S.C. 2601 *et seq.*). Because the Coast Guard has determined that the current procedures implementing the Act are satisfactory, it has decided to continue issuing conditional permits to vessels carrying waste in the coastal waters of the United States and to discontinue any further rulemaking under docket number 89-014. It will, at some point in the future, re-examine the necessity of further rulemaking and may, at that point, initiate a new rulemaking under a new docket number.

Dated: December 6, 1995.
Joseph J. Angelo,
Director for Standards.

Approval and Promulgation of Air Quality Implementation Plans; Pennsylvania; Approval of Stage II Vapor Recovery Requirements

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: EPA proposes to approve the State Implementation Plan (SIP) revision submitted by the Commonwealth of Pennsylvania for the purpose of approving supplemental provisions that would correct deficiencies in the Pennsylvania Stage II vapor recovery rule that were previously identified by EPA. In the Final Rules section of this Federal Register, EPA is approving the State's SIP revision as a direct final rule without prior proposal because the Agency views this as a noncontroversial SIP revision and anticipates no adverse comments. A detailed rationale for the approval is set forth in the direct final rule. If no adverse comments are received in response to this proposed rule, no further activity is contemplated in relation to this rule. If EPA receives adverse comments, the direct final rule will be withdrawn and all public comments received will be addressed in a subsequent final rule based on this proposed rule. EPA will not institute a second comment period on this action. Any parties interested in commenting on this action should do so at this time.

DATES: Comments must be received in writing by January 12, 1996.
