[ET Docket No. 93-198; FCC 94-345]

Preparation for International Telecommunication Union World Radio Conferences

AGENCY: Federal Communications Commission.

ACTION: Order; termination of proceeding.

SUMMARY: This Order terminates ET Docket No. 93-198, which the Commission initiated to seek public comment to help establish U.S. proposals and positions for the 1993 World Radiocommunication Conference (WRC-93). WRC-93 concluded in November, 1993. Accordingly, this proceeding is no longer necessary. Public input for future WRCs will be obtained in IC Docket No. 94-31.

ADDRESSES: Federal Communications Commission, 1919 M St. NW., Washington, DC 20554.

FOR FURTHER INFORMATION CONTACT:

Maura McGowan, Office of Engineering and Technology, (202) 739-0722.

SUPPLEMENTARY INFORMATION:

Order

Adopted: December 23, 1994.

Released: January 18, 1995.

By the Chief, Office of Engineering and Technology: 1. By this action, the Commission terminates its proceeding initiated to seek public comment regarding U.S. proposals and positions for the 1993 International Telecommunications Union (ITU) World Radio Conference (WRC-93).

2. The 1992 ITU Additional Plenipotentiary Conference (APP) adopted a major restructuring of the ITU. Part of the restructuring was a recommendation that World Radiocommunication Conferences (WRCs) normally convene every two years, and that a four year conference planning cycle be initiated. Thus, each WRC would consider current substantive issues, develop a recommended agenda for the next WRC in two years, and recommend a preliminary agenda for the following WRC in four years. The first of these regularly scheduled conferences, WRC-93, convened in Geneva on November 15, 1993.

3. In preparation for WRC-93, on June 24, 1993, we initiated the instant proceeding to seek public comment regarding U.S. proposals and positions in Notice of Inquiry, ET Docket No. 93-198, 58 Fed. Reg. 36630 (7/8/93). On September 17, 1993, the Commission and the National Telecommunication and Information Administration jointly
