

*Number of Respondents:*135.
*Estimated Time Per Response:*30 minutes.

*Total Annual Burden:*68 hours.

*Needs and Uses:*Section 73.1125 requires AM, FM or TV licensees to locate their main studio at any point within the station's principal community countours. If the station relocates its main studio from one point to another within the principal community contour or from a point outside the principal community contour to one within it, the licensee is required to notify the FCC. The data is used by FCC staff to assure that the station main studio is located within the principal community contour and serves to notify use of a change in the mailing address.

*OMB Approval Number:*3060-0160.

*Title:*73.158 Directional Antenna Monitoring Points.

*Form No.:*N/A.

*Type of Review:*Business or other for-profit.

*Number of Respondents:*80.

*Estimated Time Per Response:*4 hours.

*Total Annual Burden:*320 hours.

*Needs and Uses:*Section 73.158 requires a licensee of an AM station using a directional antenna system to file an informal application to modify their station license to specify a new location for the field monitoring point when circumstances occur which make the present location no longer accessible or unsuitable. Section 73.158 also requires the licensee to file a request for a corrected station license when the descriptive routing to reach any of the monitoring points as shown on the station license is no longer correct due to road or building construction or other changes. These filings provide up-to-date directions for use by the Complaints and Investigations Bureau's inspectors in accurately locating the monitoring points and obtaining field strength measurements relevant to the Commission's enforcement program aimed at keeping electromagnetic interference to a minimum.

*OMB Approval Number:*3060-0321.

*Title:*73.68 Sampling Systems for Antenna Monitoring.

*Form No.:*N/A.

*Type of Review:*Extension of a currently approved collection.

*Respondents:*Business or other for-profit.

*Number of Respondents:*100.

*Estimated Time Per Response:*2 hours.

*Total Annual Burden:*200 hours.

*Needs and Uses:*Section 73.68(b) requires that licensees of existing AM broadcast stations with antenna monitor sampling systems, meeting the

performance standards specified in the rules, may file informal requests for approval of their sampling systems. Section 73.68(d) requires that a request for modification of the station license be submitted to the FCC when the antenna sampling system is modified or components of the sampling system are replaced. The informal request for approval of sampling systems is used by FCC staff to maintain complete technical information regarding licensees to insure that the sampling system is in full compliance with the Commission's Rules and will not cause interference to other facilities, thus reducing the service provided to the public. The request for modification of station license is used to issue a new station license.

*OMB Approval Number:*3060-0387.

*Title:*Field Disturbance Sensors, Authorization and On-Site Verification (Section 15.201(d)).

*Form No.:*N/A.

*Type of Review:*Extension of existing collection.

*Respondents:*Businesses or other for-profit; Small businesses or organizations.

*Number of Respondents:*200.

*Estimated Time Per Response:*18 hours.

*Total Annual Burden:*3,600 hours.

Needs and Uses: To monitor non-licensed field disturbance sensors operating in the low VHF television bands, equipment testing is required at each installation. Data is retained by the holder of the equipment authorization issued by the Commission, and made available only at the request of the Commission.
