

with the purposes of the Act (15 U.S.C 78o-5(f)).

#### § 420.2 Definitions.

For the purposes of this part:

(a) "Aggregating entity" means a single entity (e.g., a parent company or affiliate) that is combined with other entities, as specified in paragraph (i) of this section, to form a reporting entity. In those cases where an entity has no affiliates, the aggregating entity is the same as the reporting entity.

(b) "Control" means having the authority to exercise investment discretion over the purchase, sale, retention or financing of specific Treasury securities. Only one entity should be considered to have investment discretion over a particular position.

(c) "Gross financing position" is the sum of the gross par amounts of a security issue received from financing transactions, including, but not limited to, reverse repurchase transactions, bonds borrowed, securities received in pledge, and collateralized credit extended. In calculating the gross financing position, a reporting entity may not net its positions against repurchase transactions, securities loaned, securities pledged or other deliveries of the security issue. However, a reporting entity may elect to reduce its gross financing position by the par amount of the security received in transactions: in which the counterparty retains the right to substitute securities; that are subject to third party custodial relationships; or that are hold-in-custody reverse repurchase agreements.

(d) "Large position threshold" means, with respect to a reportable position, the dollar par amount such position must equal or exceed in order for a reporting entity to be required to submit a large position report. The large position threshold will be announced by the Department and may vary with each notice of request to report large position information and with each specified Treasury security. However, under no circumstances will a large position threshold be less than \$2 billion.

(e) "Net fails position" is the net par amount of "fails to receive" less "fails to deliver" in the same security. The net fails position, as reported, may not be less than zero.

(f) "Net trading position" is the net sum of the following respective positions in the specific security issue:

- (1) Cash/immediate net settled positions;
- (2) Net when-issued positions;
- (3) Net forward positions, including next-day settling;

(4) Net futures contract positions that require delivery of the specific security; and

(5) Net holdings of STRIPS principal components of the security.

(g) "Recently-issued" means:

(1) With respect to Treasury securities that are issued quarterly or more frequently, the three most recent issues of the security (e.g., in early April, the January, February, and March 2-year notes).

(2) With respect to Treasury securities that are issued less frequently than quarterly, the two most recent issues of the security.

(3) With respect to a reopened security, the entire issue of a reopened security (older and newer portions) based on the date the reopened security is reissued by the Department (or scheduled to be reissued for when-issued securities).

(4) For all Treasury securities, a security announced to be issued or auctioned but unissued (when-issued), starting from the date of the issuance announcement. The most recent issue of the security is the one most recently announced.

(h) "Reportable position" is the sum of the net trading positions, gross financing positions and net fails positions in a specified issue of Treasury securities collectively controlled by a reporting entity.

(i) "Reporting entity" means any corporation, partnership, person or other entity and its affiliates. For the purposes of this definition, an affiliate is any: entity that is more than 50% owned, directly or indirectly, by the aggregating entity or by any other affiliate of the aggregating entity; person or entity that owns, directly or indirectly, more than 50% of the aggregating entity; person or entity that owns, directly or indirectly, more than 50% of any other affiliate of the aggregating entity; or entity, a majority of whose board of directors or a majority of whose general partners are directors or officers of the aggregating entity or any affiliate of the aggregating entity.

(1) Subject to the conditions prescribed in Appendix A, one or more aggregating entities, either separately or together with one or more other aggregating entities, may be recognized as a separate reporting entity. Any entity that previously has received recognition from the Treasury as a separate bidder in Treasury auctions pursuant to Appendix A of 31 CFR Part 356 is also recognized as a separate reporting entity without further action.

(2) Notwithstanding this definition, any persons or entities that intentionally act together with respect to the investing

in, retention of, or financing of, Treasury securities are considered, collectively, to be one reporting entity.

#### § 420.3 Reporting.

(a) A reporting entity is subject to the reporting requirements of this section only when its reportable position equals or exceeds the large position threshold specified by the Department for a specific Treasury security issue. The Department shall provide notice of such threshold by issuance of a press release and subsequent publication of the notice in the Federal Register. Such notice will identify the Treasury security issue to be reported; the date or dates (as of close of business) for which the large position information must be reported; and the applicable large position threshold for that issue. It is the responsibility of a reporting entity to take reasonable actions to be aware of such a notice.

(b) A reporting entity shall select one entity from among its aggregating entities (i.e., the designated filing entity) as the entity designated to compile and file a report on behalf of the reporting entity. The designated filing entity shall be responsible for filing any large position reports in response to a notice issued by the Department and for maintaining the additional records prescribed in the applicable paragraph of § 420.4.

(c) (1) In response to a notice issued under paragraph (a) of this section requesting large position information, a reporting entity with a reportable position that equals or exceeds the specified large position threshold stated in the notice shall compile and report the amounts of the reporting entity's reportable position, as follows:

- (i) net trading position comprising:
  - (A) cash/immediate net settled positions,
  - (B) net when-issued positions,
  - (C) net forward positions, including next-day settling,
  - (D) net futures contracts that require delivery of the specific security, and
  - (E) net holdings of STRIPS principal components of the security;

- (ii) gross financing position; and
- (iii) net fails position.

(2) The large position report should include the following two additional items as memoranda:

(i) A total that includes the amounts of securities delivered through repurchase agreements, securities loaned, securities pledged, and collateralized loans and other securities deliveries. This total should not be reflected in the gross financing position; and

(ii) If the reporting entity has elected to exercise the option available in
