#### EcoEléctrica, L.P.; Notice of Application

January 27, 1995.

Take notice that on October 25, 1994, EcoEléctrica, L.P. (EcoEléctrica), a Bermuda Limited Partnership, Scotiabank Plaza, Suite 902, 273 Ponce de Leon Avenue, Hato Rey, Puerto Rico 00918, filed in Docket No. CP95-35-000, an application pursuant to Section 3 of the Natural Gas Act for approval of a point of import for liquefied natural gas (LNG), all as more fully set forth in the application and subsequent supplemental filings which are on file with the Commission and open to public inspection.

Specifically, EcoEléctrica intends to construct and operate LNG facilities on a 36-acre site in Guayanilla Bay near Ponce, Puerto Rico. EcoEléctrica states that the "jurisdictional" facilities consist of a marine unloading facility, two LNG storage tanks with individual capacities of up to one million barrels, and a vaporization system. In addition, EcoEléctrica proposes to construct a "non-jurisdictional" cogeneration facility that will use the imported LNG for power generation. The electricity generated by EcoEléctrica's cogeneration facility will be purchased by the Puerto Rico Electric Power Authority (PREPA), the government-created public utility which supplies nearly all of the electric power consumed in Puerto Rico. PREPA has identified a need for additional electric generating capacity by the year 2000 to meet future demand growth, enhance system reliability and to diversify the fuel sources that generate electricity. A supply contract for the LNG has not been finalized; EcoEléctrica states that it will follow after the finalization of the power purchase agreement being negotiated with PREPA.

Any person desiring to be heard or to make any protest with reference to said application should on or before February 17, 1995, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a motion to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211).
