

for all laboratory analyses. Work Plans were developed as necessary by contractors which specified appropriate QA/QC measures for all cleanup activities. EPA reviewed and approved the QA/QC plans which, in general, were based on the protocols in the U.S. EPA, Region IV.

Consistent with EPA guidance, a five year review of this project is necessary to ensure continued protection of human health and the environment. The statutory review will be conducted according to the Office of Solid Waste and Emergency Response Directive 9355.7-02, "Structure and Components of the Five year Reviews".

The five-year period begins with the date of RA contract award which, for this project, is September 8, 1992. Therefore, the review should be completed prior to September 8, 1997.

In conclusion, EPA, with the concurrence of the State, has determined that all appropriate remedial actions at the Lewisburg Dump site under CERCLA have been completed. The site no longer poses a threat to human health or the environment. Therefore, EPA proposes to delete the site from the NPL and requests public comments on the proposal.

Dated: November 27, 1995.

Patrick M. Tobin,

Acting Regional Administrator, USEPA, Region IV.
