On August 24, 1995, as amended on October 17, 1995, USGen Power Services, L.P. (USGen) filed an application for authorization to sell power at market-based rates, and for certain waivers and authorizations. In particular, USGen requested that the Commission grant blanket approval under 18 CFR part 34 of all future issuances of securities and assumptions of liabilities by USGen. On December 13, 1995, the Commission issued an Order Accepting Market-Based Rates For Filing, Granting Waivers And Authorizations And Revising Policy Regarding Sales Of Power By Affiliated Power Marketers (Order), in the above-docketed proceeding.

(E) Absent a request to be heard within the period set forth in Ordering Paragraph (D) above, USGen is hereby authorized to issue securities and to assume obligations or liabilities as guarantor, endorser, surety or otherwise in respect of any security of another person; provided that such issue or assumption is for some lawful object within the corporate purposes of the applicant, compatible with the public interest, and reasonably necessary or appropriate for such purposes.

(G) The Commission reserves the right to modify this order to require a further showing that neither public nor private interests will be adversely affected by
