In addition, the petitioner shall provide a brief explanation of the bases of the contention and a concise statement of the alleged facts or expert opinion which support the contention and on which the petitioner intends to rely in proving the contention at the hearing. The petitioner must also provide references to those specific sources and documents of which the petitioner is aware and on which the petitioner intends to rely to establish those facts or expert opinion. The petitioner must also provide sufficient information to show that a genuine dispute exists with the licensee on a material issue of law or fact. Under the circumstances of this case, the Commission will consider a valid contention to satisfy the aspect requirement noted above.

If a hearing is held, the issue shall be whether an order approving the decommissioning plan should be issued. Thus, contentions shall be limited to matter relevant to the order under consideration. The contention must be one which, if proven, would entitle petitioner to relief. A petitioner who fails to file such a supplement which satisfies these requirements with respect to at least one contention will not be permitted to participate as a party. Those permitted to intervene become parties to the proceeding, subject to any limitations in the order granting leave to intervene.
