See 47 CFR 64.604(c)(4) (iii). Pursuant to Section 64.604(c)(4)(iii)(A), every carrier providing interstate telecommunications services must contribute to the TRS Fund on the basis of its relative share of gross interstate revenues. The types of interstate services for which contributions must be made include, but are not limited to, cellular telephone and paging, mobile radio, operator services, personal communication service (PCS), interstate access, alternative access and special access, packet-switched, WATS, 800, 900, message telephone service, interstate private line, telex, telegraph, video, satellite, international, interstate intraLATA and resale services. The FCC Form 431 has been revised to include PCS and mobile services. Also, where two carriers have merged during the year, the successor company should report total revenues for the year for both the predecessor and successor operations. However, the two carriers would continue to report separately if each maintained separate corporate identities and continued to operate. Additionally, the calculation of contribution rate changed for the 1995 filing year.
