BILLING CODE 7050-01-M

NATIONAL ARCHIVES AND RECORDS ADMINISTRATION

Records Schedules; Availability and Request for Comments

AGENCY: National Archives and Records Administration, Office of Records Administration.

ACTION: Notice of availability of proposed records schedules; request for comments.

SUMMARY: The National Archives and Records Administration (NARA) publishes notice at least once monthly of certain Federal agency requests for records disposition authority (records schedules). Records schedules identify records of sufficient value to warrant preservation in the National Archives of the United States. Schedules also authorize agencies after a specified period to dispose of records lacking administrative, legal, research, or other value. Notice is published for records schedules that (1) propose the destruction of records not previously authorized for disposal, or (2) reduce the retention period for records already authorized for disposal. NARA invites public comments on such schedules, as required by 44 U.S.C. 3303a(a).

DATES: Request for copies must be received in writing on or before February 12, 1996. Once the appraisal of the records is completed, NARA will send a copy of the schedule. The requester will be given 30 days to submit comments.

ADDRESSES: Address requests for single copies of schedules identified in this notice to the Records Appraisal and Disposition Division (NIR), National Archives and Records Administration, College Park, MD 20740. Requesters must cite the control number assigned to each schedule when requesting a copy. The control number appears in the parentheses immediately after the name of the requesting agency.

SUPPLEMENTARY INFORMATION: Each year U.S. Government agencies create billions of records on paper, film, magnetic tape, and other media. In order to control this accumulation, agency records managers prepare records schedules specifying when the agency

no longer needs the records and what happens to the records after this period. Some schedules are comprehensive and cover all the records of an agency or one of its major subdivisions. These comprehensive schedules provide for the eventual transfer to the National Archives of historically valuable records and authorize the disposal of all other records. Most schedules, however, cover records of only one office or program or a few series of records, and many are updates of previously approved schedules. Such schedules also may include records that are designated for permanent retention.

Destruction of records requires the approval of the Archivist of the United States. This approval is granted after a thorough study of the records that takes into account their administrative use by the agency of origin, the rights of the Government and of private persons directly affected by the Government's activities, and historical or other value.

This public notice identifies the Federal agencies and their subdivisions requesting disposition authority, includes the control number assigned to each schedule, and briefly describes the records proposed for disposal. The records schedule contains additional information about the records and their disposition. Further information about the disposition process will be furnished to each requester.

Schedules Pending:

1. Tennessee Valley Authority (N1-142-95-13). Facilities Services Organizations general correspondence files.

2. Tennessee Valley Authority (N1-142-95-17). Divisional correspondence files for the Purchasing function.

3. Tennessee Valley Authority (N1-142-96-1). Employee Transition Program employee history files.

4. Tennessee Valley Authority (N1-142-96-2). Succession planning program files.

5. Tennessee Valley Authority (N1-142-96-3). Energy and engineering project and procurement records.

Dated: December 18, 1995.

James W. Moore,

Assistant Archivist for Records Administration.

BILLING CODE 7515-01-M

NUCLEAR REGULATORY COMMISSION

[Docket No. 50-440]

Cleveland Electric Illuminating Co., et al.; Order Approving Transfer of License for Perry Nuclear Power Plant

I

Cleveland Electric Illuminating Company (CEI), Centerior Service Company (CSC), Duquesne Light Company, Ohio Edison Company (Ohio Edison), Pennsylvania Power Company, and Toledo Edison Company are the licensees of Perry Nuclear Power Plant, Unit No. 1 (PNPP Unit 1). CEI and CSC act as agents for themselves, and the other licensees and have exclusive responsibility for and control over the physical construction, operation, and maintenance of PNPP Unit 1 as reflected in Operating License No. NPF-58. The Nuclear Regulatory Commission (NRC) issued License No. NPF-58 on March 18, 1986, pursuant to Part 50 of Title 10 of the *Code of Federal Regulations* (10 CFR Part 50). Ohio Edison holds title to 17.42 percent of PNPP Unit 1 and leases another 12.58 percent of PNPP Unit 1 pursuant to the sale and leaseback transactions previously authorized by Amendment 2 to License No. NPF-58. The facility is located on the shore of Lake Erie in Lake County, Ohio, approximately 35 miles northeast of Cleveland, Ohio.

II

Under cover of a letter dated November 17, 1995, from Shaw, Pittman, Potts and Trowbridge, Ohio Edison submitted its request for approval of its intended transfer of its 17.42-percent ownership interest (less the ownership interest in the accompanying transmission facilities) to a newly formed wholly owned subsidiary, OES Nuclear Inc. (OES). The sale effecting the transfer would include a provision that would allow Ohio Edison to convert a steam purchase agreement to a lease to itself at some time in the future. The other licensees would remain the same and would not be affected by the proposed transfer. By letter dated November 22, 1995, CEI submitted a license amendment request to reflect the proposed change in Ohio Edison ownership. On December 11, 1995, a notice of proposed ownership transfer was published in the Federal Register (60 FR 63548).

The transfer of Facility Operating License No. NPF-58 is subject to the consent of the NRC as described by 10 CFR 50.80(a). Ohio Edison will remain as a licensee of PNPP Unit 1 and
