

the PHS Reports Clearance Office on 202-690-7100.

The following requests have been submitted for review since the list was last published on Friday, January 27.

1. Nominations for ATSDR Community Assistance Panels—0923-0007 (Extension, no change)—This information collection mechanism allows the Agency for Toxic Substances and Disease Registry (ATSDR) to assist local communities in the nomination of members of the community to become members of Community Assistance Panels. The panels provide for a two-way exchange of information between ATSDR and the concerned public regarding the public health activities planned for the area. Respondents: Individuals or households; Number of Respondents: 1350; Number of Responses per Respondent: 1; Average Burden per Response: 0.16 hour; Estimated Annual Burden: 225 hours. Send comments to James Scanlon, Office of the Assistant Secretary for Health, Room 737-F, Humphrey Building, 200 Independence Avenue SW., Washington, DC 20201.

2. AIDS Education and Training Centers Program: National Program and Service Record Reporting Form—0915-0154 (Revision)—Information will be obtained from AIDS Education and Training Centers to determine compliance with terms of cooperative agreements and specific project requirements. The National Program and Service Record Data Reporting Form will be used by ETCs to provide standardized reporting of project activities for Federal program monitoring. Respondents: Not-for-profit institutions; Number of Respondents: 17; Number of Responses per Respondent: 4; Average Burden per Response: 30.15 hours; Estimated Annual Burden: 2,050 hours. Send comments to James Scanlon, Office of the Assistant Secretary for Health, Room 737-F, Humphrey Building, 200 Independence Ave. SW., Washington, DC 20201.

3. National Donor Research and Education Study (REDS) 0925-0383 (Revision)—This is a mail survey of a random sample of blood donors from five Blood Centers participating in the REDS program. Data will be used to monitor the safety of the U.S. blood supply and facilitate development, evaluation and refinement of donor recruitment and education strategies. Seven additional items will be asked of a subset of respondents to guide development of the next major round of the survey. Respondents: Individuals or households. Send comments to James Scanlon, Office of the Assistant

Secretary for Health, Room 737-F, Humphrey Building, 200 Independence Ave. SW., Washington, DC 20201.

Title	Number of respondents	Number of responses per respondent	Average burden per response (hours)
Currently approved Additional burden—5 minutes more for a subset of 15,600 donors	72,000	1	.33
			1,295

Estimated total annual burden: 25,295 hours

4. Survey of Rural Hospitals on Telemedicine—New—This survey of rural hospitals will identify all rural telemedicine systems in the United States. The information will be used to design a followup study, which will provide baseline data on the systems, a minimum data set for future studies, and evaluation methodologies for future evaluations of these systems. Respondents: Business or other for-profit, Not-for-profit institutions; Number of Respondents: 2,400; Number of Responses per Respondent: 1; Average Burden per Response: .1 hour; Estimated Annual Burden: 250 hours. Send comments to Shannah Koss, Human Resources and Housing Branch, New Executive Office Building, Room 10235, Washington, DC 20503.

5. Survey of NIH Extramural Shared Instrumentation Activities 0925-0318 (Extension, no change)—It is generally accepted that the capabilities of expensive state-of-the art biomedical instruments can be made available to the largest number of researchers in the most cost-effective manner by awarding them on the condition that they be shared. This study will examine the extent to which such instruments are shared; and how fully they are utilized, by whom, and for what. Respondents: Not-for profit institutions, Business or other for-profit; Number of Respondents: 9,870; Number of Responses Per Respondent: 1; Average Burden per Response: .286 hour; Estimated Annual Burden: 2,819 hours. Send comments to James Scanlon, Office of the Assistant Secretary for Health, Room 737-F, Humphrey Building, 200 Independence Avenue, SW., Washington, DC 20201.

6. Study of Consequences of Being Accused of Scientific Misconduct—New—42 CFR Part 50 specifies certain treatment of accused individuals,

including restoration of reputation of those when allegations are not confirmed. This voluntary survey will provide background information to assure institutional compliance with regulation and other information. Respondents: Individuals or households; Number of Respondents: 112; Number of Responses per Respondent: 1; Average Burden per Response: .5 hour; Estimated Annual Burden: 56 hours. Send comments to Shannah Koss, Human Resources and Housing Branch, New Executive Office Building, Room 10235, Washington, DC 20503.

7. X-Ray Examination Program/Federal Mine Safety and Health Act 1977 (42 CFR Part 37)—0920-0020 (Reinstatement)—Information is utilized for early identification of incidence and/or treatment. Identification is followed by clinical management on miners' health, through appropriate notification of medical findings and applicable dust transfer rights. Public affected includes underground coal miners and operators, physicians and x-ray facilities. Respondents: Individuals or households, Business or other for-profit. Send comments to Shannah Koss, Human Resources and Housing Branch, New Executive Office Building, Room 10235, Washington, DC 20503.

Title	Number of respondents	Number of responses per respondent	Average burden per response (hours)
Roentgenographic Interpretation: 42 CFR 37.40(b) ...	20,000	1.05	.02
Miner Identification Title 42 CFR 37.20	10,000	1	.3
Coal Mine Operator Plan 42 CFR 37.4(a)	500	1	.33
Facility Certification 42 CFR 37.42(c) ...	100	20	.17
Interpreting Physical Certification 42 CFR 37.51(c) ...	300	1	.05

Estimated total annual Burden: 3,940 hours.
