

**FOR FURTHER INFORMATION CONTACT:** Ted Davis, Project Coordinator, at address above or telephone (503-947-2177).

**SUPPLEMENTARY INFORMATION:** The BLM will consider issues and concerns identified during the scoping process in the preparation of the draft EIS. The preliminary issues identified include potential impacts to traditional Native American uses of the area, archaeological sites, wildlife, visual quality, native plants, noxious weeds, and socio-economics. Those individuals, organizations, and agencies with a known interest in the proposal have been sent a scoping letter requesting comments on the proposal. Persons wishing to be added to the mailing list for this EIS may do so by contacting Ted Davis. At this time there is no formal scoping meeting planned, though one could be scheduled if there is sufficient interest.

The comment period on the draft EIS will last 60 days from the date the U.S. EPA Notice of Availability appears in the **Federal Register** and EIS is expected to be available for review in August 1995. Because of recent court rulings, it is very important that those interested in the proposed action participate during the scoping and draft EIS review processes, so that any substantive comments are provided at a time when the BLM can meaningfully consider them.

T. 7 S., R. 26 E., B.M., Blaine County  
Sec. 16: All.

The area described contains 640 acres, more or less.

**DATES:** The publication of this notice in the **Federal Register** will segregate the public lands described above to the extent that they will not be subject to appropriation under the public land laws, including the mining laws. As provided by the regulations of 43 CFR 2201.1(b), any subsequently tendered application, allowance of which is discretionary, shall not be accepted, shall not be considered as filed and shall be returned to the applicant. The segregative effect of this notice will terminate upon issuance of patent or in two years, whichever occurs first.

**ADDRESSES:** Detailed information concerning the exchange is available for review at the Burley District Office, 200 South Oakley Highway, Burley, Idaho 83318.

**SUPPLEMENTARY INFORMATION:** The purpose of the land exchange is to facilitate more efficient management of the public lands through consolidation of ownership and to benefit the public interest by obtaining important resource values. The public lands to be exchanged are isolated and difficult to manage parcels with limited resource values. The private lands being offered would significantly improve the land ownership pattern in the area and provide key access to a large block of public land. The exchange is consistent with the Bureau of Land Management land use plan for the area which is the Monument Resource Management Plan (approved February, 1986 and amended January, 1992). The public interest will be served by making this exchange.

The value of the lands to be exchanged has been determined through appraisal to be equal.

The exchange will be subject to:

1. All valid existing rights of record, including but not limited to, electric power distribution line rights-of-way, I-29552 and I-14412.

2. A reservation to the United States of a right-of-way for ditches and canals. For a period of 45 days from the date of publication of this notice in the **Federal Register**, interested parties may submit comments to the Snake River Area Manager at the above address. Objections will be reviewed by the State Director who may sustain, vacate, or modify this realty action. In the absence of any objections, this realty action will become the final determination of the Department of the Interior.
