

(c) Implement flow control management procedures.

4. For security purposes, the Administrator may issue NOTAMs during the effective period of this SFAR to cancel or modify provisions of this SFAR and NOTAMs issued pursuant to this SFAR if such action is consistent with the safe and efficient use of airspace and the safety and security of persons and property on the ground as affected by air traffic.

5. No person may operate an aircraft to or from an airport listed in this SFAR or NOTAM issued pursuant to this SFAR unless that person complies with the requirements of this SFAR and NOTAMs issued pursuant to this SFAR that are applicable to his/her operations.

#### *B. Slot Reservation System*

##### *1. General Description.*

Slot reservations for arrivals and departures at specified airports in the vicinity of the Olympic Games are required for the period July 17 through August 6, 1996. The FAA believes this action is necessary for the security of the venues, safe operation and management of aircraft operating to, within, and from these areas, and to prevent any unsafe congestion of sightseeing and other aircraft over the various venues.

##### *2. For purposes of the SFAR:*

Reservation slots may be reserved no sooner than 72 hours before your estimated time of arrival or departure. Be prepared to provide the following information: Arrival Reservations: destination airport, estimated time of arrival, call sign, direction of arrival to the Atlanta area and type aircraft; Departure Reservations: departure airport, estimated time of departure, call sign, destination airport, first fix after departure and type aircraft.

#### *C. Temporary Flight Restriction Areas*

The FAA proposes to establish TFR areas over the Olympic Village and competition sites. The establishment of TFR areas over the competition venues would result in the restriction of aircraft operations in these areas, however, access to these areas may be accommodated with an appropriate authorization from the designated using agency. ATC would retain the ability to manage aircraft through the TFR areas in accordance with normal traffic flows.

Operating restrictions within the airspace overlying competition venues are proposed for the period from 3 hours before to 3 hours after each event. The additional time that the restrictions are proposed to be imposed, before and after each event, would accommodate the observation and planning of ground traffic movement as well as the facilitation of the orderly movement of aircraft in and through the airspace above each event. Flight operations would be restricted within the airspace from the surface to approximately 2500 feet AGL to provide a safe environment.

At the following locations, flight is restricted during the times of designation:
