The Proposal

The FAA is considering an amendment to part 71 of the Federal Aviation Regulations (14 CFR part 71) to reduce the size of the Class D and Class E4 airspace at Louisville, KY. The VOR RWY 19 SIAP for the Louisville Bowman Field Airport has been cancelled. Therefore a portion of the Louisville Bowman Field Class D and Class E4 airspace currently designated northnortheast of the airport is no longer needed. Designations for Class D and Class E4 airspace are published in Paragraphs 5000 and 6004 respectively of FAA Order 7400.9B dated July 18, 1994 and effective September 16, 1994 which is incorporated by reference in CFR 71.1. The Class D and Class E4 airspace designations listed in this document would be published subsequently in the Order.

The FAA has determined that this proposed regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore, (1) is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule. when promulgated, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.
