[Airspace Docket No. 94–ASO–17]

Establishment and Alteration of Jet Routes

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This amendment establishes new jet routes and modifies existing jet routes in the Miami, FL, area. This action is necessary because of the commissioning of the Virginia Key, FL, Very High Frequency Omnidirectional Range and Distance Measuring Equipment (VOR/DME).

EFFECTIVE DATE: 0901 UTC, March 30, 1995.

SUPPLEMENTARY INFORMATION:**History**

On October 26, 1994, the FAA proposed to amend part 71 of the Federal Aviation Regulations (14 CFR part 71) to establish Jet Routes J–81 and

J–113, and to modify several existing jet routes in the Miami, FL, area (59 FR 53764).

Interested parties were invited to participate in this rulemaking proceeding by submitting written comments on the proposal to the FAA. No comments objecting to the proposal were received. Except for editorial changes, this amendment is the same as that proposed in the notice. Jet routes are published in paragraph 2004 of FAA Order 7400.9B dated July 18, 1994, and effective September 16, 1994, which is incorporated by reference in 14 CFR 71.1. The jet routes listed in this document will be published subsequently in the Order.

The Rule

This amendment to part 71 of the Federal Aviation Regulations establishes Jet Routes J–81 and J–113 and modifies existing jet routes in the Miami, FL, area. This action is necessary because of the commissioning of the new Virginia Key, FL, VOR/DME. Commissioning of the Virginia Key, FL, VOR/DME necessitated the realignment of existing routes. Two new jet routes are established to provide additional support for air traffic operations in the Miami area.

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore—(1) Is not a “significant regulatory action” under Executive Order 12866; (2) is not a “significant rule” under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

The original airspace docket was submitted to the Department of Defense and the Department of State in accordance with Executive Order 10854. The application of International Civil Aviation Organization (ICAO) International Standards and Recommended Practices will not be affected by this action.
