SUPPLEMENTARY INFORMATION:

Discussion

Existing rate schedules are supported by an August 1993 Repayment Study and other supporting data contained in FERC Docket EF94-3031-000. A repayment study prepared in January 1995 shows that the existing rates are adequate to meet repayment criteria. Approval of existing rate schedules JW-1-D and JW-2-B expires September 19, 1995. Southeastern is proposing to extend existing rate schedules for five years, to September 19, 2000. In developing the rate extension, Southeastern considered revenue requirements as determined by the January 1995 system repayment studies. The studies are available for examination at the Samuel Elbert Building, Elberton, Georgia 30635, as is the 1993 repayment study and the proposed Rate Schedules.

Issued in Elberton, Georgia, January 23, 1995.

Administrator.
