

and an address and telephone number at which the owner can be located. Although the Office can ask for additional information, failure to provide such information will not invalidate the notice of intent.

#### *Grace Period*

Reliance parties have a 12 month grace period after they have been notified either by publication in the **Federal Register** or by actual notice to sell off previously manufactured stock, to publicly perform or publicly display the work, or to authorize others to conduct these activities. Except for reliance parties who created derivative works, reliance parties must cease using the work after the 12-month grace period unless they reach a licensing agreement with the copyright owner for continued use of the restored work. Subsection (d)(3) of amended section 104A contains special rules with respect to derivative works based on underlying foreign works in which copyright has been restored such as a translation of a foreign language work or a motion picture based on a book or a play.

#### *Procedure for Notification*

The Copyright Office will publish final regulations establishing the procedures for filing notices of intent to enforce by October 1, 1995. Owners of restored copyrights in eligible countries may begin filing notices of intent to enforce restored copyrights on January 1, 1996.

#### *Registration of Restored Works*

The URAA also directs the Copyright Office to establish procedures permitting the owners of restored copyright to file applications to register a claim to copyright simultaneously with the notice of intent. The Office will also publish these procedures by October 1, 1995.

#### **V. Public Comment on Procedures for Notices of Intent to Enforce and Registration**

The restoration provisions are complex, and we have a number of questions about their implementation. To assist us in identifying all of the issues and to move the process forward, we are soliciting public comment, including comment from both potential owners of restored works and potential reliance parties. We will hold a public meeting in Room 414 of the James Madison Memorial Building of the Library of Congress, 101 Independence Ave. S.E. at 10:00 a.m. on March 20. Parties wishing to attend the meeting should notify the Acting General Counsel by March 10, 1995, by writing

to Copyright GC/I&R, P.O. Box 70400, Southwest Station, Washington, D.C. 20024, calling (202) 707-8380, or via telefax: (202) 707-8366. Their notification should give the party's name, an indication of association, an address and telefax number and, if possible, identify the issues he or she wish to address. Since the Office will be publishing a Notice of Proposed Rulemaking after the March 20 meeting, it will accept comments on the implementation procedures through April 18, 1995. Any party who wishes to receive the Notice of Proposed Rulemaking should let the Office know.

With respect to the issues, we are focusing on the notices of intent to enforce and the registration procedures. For example, one question is what additional information should be included in the notices of intent to enforce? What should be the extent of the indexing record? Should the notices be integrated into the online files of the Copyright Office and made available on the Internet? Can, and should, the Office publish in the **Federal Register** at shorter intervals than the four months specified in the statute? Finally, what should the filing fee be?

With respect to registration, should there be a new registration form for restored copyrights? With respect to the author, for purposes of registration, should the author be the author as defined in section 201 of the United States copyright law or the author as determined by the law of the source country? Should the application form require a designation of the source country? Who should be listed as the claimant—the author as determined by the law of the source country (or, if the work is a sound recording, the rightholder) or the individual or entity that owns all of the restored rights in the United States on the date the application is submitted? If the answer is other than the party that the rights vested in, should a transfer statement be required? How detailed should a transfer statement be, that is, should it, for example, include the date of the transfer? What should the fee for registration be? With respect to the deposit of copies and phonorecords, should the current practices apply or should new provisions be crafted?

Dated: February 3, 1995.
