

Legal Basis

The proposed actions are authorized under sections 4(i), 4(j) and 303(r) of the Communications Act 47 U.S.C. 154(i), 154(j), and 303(r).

Reporting, Recordkeeping and Other Compliance Requirements

The proposed revision of 47 CFR Part 17 would require certain antenna structure owners to register their structures and to comply with the Commission's painting and lighting requirements. Additionally, each owner would have to provide a copy of the Antenna Structure Registration to all tenant licensees and post the structure's Registration Number at the site. Further, the proposed rules eliminate the requirement for certain licensees and permittees to individually file with the Commission to amend structure height or painting and lighting specifications. Most licensees and permittees, however, would have to provide the Registration Number of the structure from which they intend to transmit when filing for a new, modified, or renewed authorization.

Federal Rules Which Overlap, Duplicate or Conflict With These Rules

None.

Description, Potential Impact, and Small Entities Involved

Any rule change requiring a small business antenna structure owner to file an application for Registration could affect a small business. However, the overall impact, if any, will be minimal because the proposed registration process will eliminate the need for many small business licensees and permittees on an antenna structure to file certain applications and notifications. The Commission will further examine the impact of any rule changes on small entities after evaluating the comments in this proceeding.

Any Significant Alternatives Minimizing the Impact on Small Entities Consistent With the Stated Objectives

None.
