Fee group

Total quantity of hazardous materials handled at any one time during the retotal quantity of hazardous materials handled at any one time during fee group the reporting year

Annual fee

Exemption: Every governmental agency shall comply with the reporting requirements established by the county administering agency relating to hazardous materials under the Act, but every governmental agency is exempt from the annual fee required to be paid under this Section 2.20.140.

(Ord. 90-0109 § 3.1990: Ord. 89-0055 § 1.1989: Ord. 87-0001 § 1 (part), 1987.)

# 2.20.150 Additional fees—Acutely hazardous substances.

Every handler of an acutely hazardous material, shall in addition to the fee specified in Section 2.20.140, be required to pay an annual fee to the county for the administration and enforcement of acutely hazardous materials registration, risk assessment, and risk mitigation in accordance with compliance under the Act. This fee shall be calculated as follows:

AHM Fee = Base Administrative Fee + RMPP Risk Factor Fee

Where:

The base administrative fee shall be charged each handler of one or more acutely hazardous materials or mixtures containing an acutely hazardous material handled in quantities equal to or greater than the threshold planning quantities specified in Section 25536 of the Act, as follows:

1–3 AHMs = \$50 4 or more AHMs = \$100

 $\Delta nd$ 

RMPP Risk Factor Fee = Rate Factor x Handler Risk Units

Where:

The county rate factor shall be calculated as the county RMPP program cost (the cost base for which is defined in Section 2.20.170), minus the total of the handler base administrative fees, divided by the total county risk units.

Rate Factor = County RMPP Program Cost— Total Base Admin. Fees+Total County Risk Units

The total county risk units is determined by adding the risk units for each AHM registered in the county. The number of risk units for each AHM is equal to the total reported daily maximum quantity in pounds divided by the assigned TPQ for that AHM. For the 1990–91 fiscal year, the county RMPP program cost is \$547,871, the total base administrative fees is \$38,650, the total county risk units is 885,629 and the rate factor is \$0.57498

And:

The handler risk units are determined by adding risk units for each AHM required to be registered by each handler.

Any "Third Party Technical Review" required by the administering agency shall be a cost paid by the handler.

Exemption:

Every governmental agency shall comply with the reporting requirements established by the county administering agency relating to AHMs under the Act, but every governmental agency is exempt from the annual fee required to be paid under this Section 2.20.150.

(Ord. 90-0190 § 4, 1990.)

#### 2.20.160 Late submission fee.

A late submission fee shall apply to the filing requirements of both the business plan and inventory and to the AHM registration requirements as follows:

Each handler submitting the required hazardous materials business plan or inventory documents after January 1st of each year or of each second year as specified in Section 2.20.130 and each AHM handler submitting the required AHM registration documents after January 1st of each year shall be levied a late submission fee commensurate to the additional administrative costs as determined by the administering agency and approved by the auditor-controller. Said late submission fee shall be \$230 for the 1990–91 fiscal year. (Ord. 90–0190 § 5. 1990.)

# 2.20.170 Fee schedule—Annual adjustment procedure.

Beginning with the 1991–92 fiscal year, the schedule of fees contained in Sections 2.20.140 through 2.20.160 inclusive shall be adjusted annually by the following procedure:

The annual adjustment shall be the result of computing the change in the annualized cost to the administering agency of administering the program, where "annualized cost" is defined as the program cost which includes applicable salary, employee benefits and overhead calculated from rates contained in the administering agency's rate package, as approved by the auditor-controller.

Program Cost=Hazmat Section Personnel Salaries+Employee Benefits+Overhead

The program cost is annually re-allocated among handlers based upon:

(A) Disclosure Unit—The number of handlers in each fee group and time involved in processing the required documents in each group.

(B) RMPP Unit—Total county risk units and each handlers risk units.

Where:

Disclosure unit is the unit assigned to administer the hazardous materials disclosure program (Section 2.20.140), and RMPP unit is the unit assigned to administer the AHM registration and risk management and prevention programs (Section 2.20.150). (Ord.  $90-0190 \ \S \ 6$ , 1990.)

TITLE 32

### § 4.108.

A permit shall be obtained from the bureau of fire prevention prior to engaging in the following activities, operations, practices or functions: \* \* \*

c.7. Compressed gases. To store, transport on site, dispense, use or handle at normal temperatures and pressures compressed gases in excess of the amounts listed in Table No. 4.108.A.

TABLE NO. 4.108–A.—PERMIT AMOUNTS FOR COMPRESSED GASES<sup>1</sup>

Type of gas	Amount
Corrosive	Any amount. 200 cubic feet.
Highly toxic	Any amount. 6,000 cubic feet. 500 cubic feet.
Pyrophoric	Any amount. Any amount. Any amount. Any amount.

<sup>1</sup> See Articles 74, 80 and 82 for additional requirements and exceptions.

## § 79.809.

(b) Storage Tanks. Class I, II or III liquids shall be transferred from a tank vehicle or tank car only into an approved atmospheric tank or approved portable tank.

(c) Time Limit. Tank vehicles and tank cars shall be unloaded as soon as possible after arrival at point of delivery and shall not be used as storage tanks. Tank cars shall be unloaded only on private sidings or railroad siding facilities equipped for transferring the liquid between tank cars and permanent storage tanks. Unless otherwise approved by the chief, a tank car shall not be allowed to remain on a siding at point of delivery for more than 24 hours while connected for transfer operations.

(f) Attendant. The operator or other competent person shall be in attendance at all times while a tank vehicle or tank car is discharging cargo. When practical, the tank vehicle or tank car shall be positioned such that the operating controls and the discharging end of the hoses are both in view of the operator or other competent person.

#### § 80.101.

(a) General. Prevention, control and mitigation of dangerous conditions related to storage, dispensing, use and handling of hazardous materials and information needed by emergency response personnel shall be in accordance with this article.

Exceptions: 1. Off-site hazardous materials transportation in accordance with DOT requirements. \* \* \*

(b) Material Classification. Hazardous materials are those chemicals or substances defined as such in Article 9. See Appendix VI–A for the classification of hazard categories and hazard evaluations.
