DEPARTMENT OF COMMERCE

Foreign-Trade Zones Board

[Docket 33–93]

Foreign-Trade Zone 92—Gulfport/Biloxi, MS; Application for Subzone; Chevron U.S.A. Products Company (Oil Refinery), Pascagoula, MS; Amendment of Application

Notice is hereby given that the application of the Gulfport/Biloxi Foreign-Trade Zone, Inc., grantee of FTZ 92, requesting special-purpose subzone status for the oil refinery of Chevron U.S.A. Products Company (Chevron), in Pascagoula, Mississippi (58 FR 41710, 8/5/93) has been amended to expand the scope of authority for activity to be conducted under zone procedures.

The original application indicated that Chevron would accept approval subject to the standard oil refinery restrictions (privileged foreign status on incoming foreign merchandise and full duties on fuel consumed). The amendment requests authority for the option to elect nonprivileged foreign status (NPF option) on foreign-sourced inputs used in the production of petrochemical feedstocks and refinery by-products, including the following: benzene, toluene, xylene, liquified petroleum gas, propane, butane, ethane, ethylene, propylene, butylene, butadiene, petroleum coke, asphalt, sulfur, sulfuric acid, distillates, fuel oils, kerosene.

The application remains otherwise unchanged.

The comment period is reopened until March 23, 1995.

Dated: February 10, 1995.

John J. Da Ponte, Jr.,

Executive Secretary.

Antidumping Duty Orders: Stainless Steel Bar from Brazil, India and Japan

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

EFFECTIVE DATE: February 21, 1995.

FOR FURTHER INFORMATION CONTACT: Irene Darzenta or James Terpstra, Office of Antidumping Investigations, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, N.W., Washington, D.C. 20230; telephone: (202) 482–3320 or (202) 482–6965, respectively.

Scope of Orders

The product covered by these orders is stainless steel bar (SSB). SSB means articles of stainless steel in straight lengths that have been either hot-rolled, forged, turned, cold-drawn, cold-rolled or otherwise cold-finished, or ground, having a uniform solid cross section along their whole length in the shape of circles, segments of circles, ovals, rectangles (including squares), triangles, hexagons, octagons or other convex polygons. SSB includes cold-finished SSBs that are turned or ground in straight lengths, whether produced from hot-rolled bar or from straightened and cut rod or wire, and reinforcing bars that have indentations, ribs, grooves, or other deformations produced during the rolling process.

Except as specified above, the term does not include stainless steel semi-finished products, cut length flat-rolled products (*i.e.,* cut length rolled products which if less than 4.75 mm in thickness have a width measuring at least 10 times the thickness, or if 4.75 mm or more in thickness having a width which exceeds 150 mm and measures at least twice the thickness), wire (*i.e.,* cold-formed products in coils, of any uniform solid cross section along their whole length, which do not conform to the definition of flat-rolled products), and angles, shapes and sections.

The SSB subject to these orders is currently classifiable under subheadings 7222.10.0005, 7222.10.0050, 7222.20.0005, 7222.20.0045, 7222.20.0075, and 7222.30.0000 of the Harmonized Tariff Schedule of the United States (HTSUS). Although the HTSUS subheadings are provided for convenience and customs purposes, our written description of the scope of these orders is dispositive.

Antidumping Duty Orders

In accordance with section 735(a) of the Tariff Act of 1930, as amended (''the Act''), on December 19, 1994, the Department of Commerce (''the Department'') made its final determinations that SSB from Brazil, India and Japan was being sold at less than fair value (59 FR 66914, 66915, 66930 (Brazil, India and Japan, respectively) December 28, 1994). On February 10, 1995, the International Trade Commission notified the Department of its final determinations, pursuant to section 735(b)(1)(A)(i) of the Act, that an industry in the United States is materially injured by reason of imports of the subject merchandise.

Therefore, all unliquidated entries of SSB from Brazil, India and Japan entered, or withdrawn from warehouse, for consumption on or after August 4, 1994, which is the date on which the Department published its notices of preliminary determination in the **Federal Register**, are liable for the assessment of antidumping duties.

In accordance with section 736(a)(1) of the Act, the Department will direct Customs officers to assess, upon further advice by the administering authority, antidumping duties equal to the amount by which the foreign market value of the merchandise exceeds the United States price for all relevant entries of SSB from Brazil, India and Japan. Customs officers must require, at the same time as importers would normally deposit estimated duties on this merchandise, a cash deposit equal to the estimated weighted-average antidumping duty margins as noted below. The ''All Others'' rate applies to all exporters of subject merchandise not specifically listed below.

The *ad valorem* weighted-average dumping margins are as follows:

Manufacturer/Producer/Exporter	Margin percentage (percent)
Brazil:	
Acos Villares, S.A.	19.43
All Others	19.43
India:	
Grand Foundry, Ltd.	3.87
Mukand, Ltd.	21.02
All Others	12.45
Japan:	
Aichi Steel Works, Ltd	61.47
Daido Steel Co., Ltd	61.47
Sanyo Special Steel Co., Ltd	61.47
All Others	61.47

This notice constitutes the antidumping duty orders with respect to SSB from Brazil, India and Japan, pursuant to section 736(a) of the Act. Interested parties may contact the
