12. A new § 1784.6-2 is added to read as follows:

**§ 1784.6-2 Resource advisory councils—optional features.**

(a) Resource advisory councils must be established consistent with any 1 of the 3 models in paragraphs (a)(1), (a)(2), and (a)(3) of this section. The model type and boundaries for resource advisory councils shall be established by the BLM State Director(s) in consultation with the Governors of the affected States and other interested parties.

*(1) Model A*

(i) *Council jurisdiction.* The geographic jurisdiction of a council shall coincide with BLM District or ecoregion boundaries. The Governor of the affected States or existing resource advisory councils may petition the Secretary to establish a resource advisory council for a specified Bureau of Land Management resource area. The councils will provide advice to the Bureau of Land Management official to whom they report regarding the preparation, amendment and implementation of land use plans. The councils will also assist in establishing other long-range plans and resource management priorities in an advisory capacity, including providing advice on the development of plans for range improvement or development programs.

(ii) *Membership.* Each council shall have 15 members, distributed equally among the 3 interest groups specified in § 1784.6-1(c).

(iii) *Quorum and voting requirements.* At least 3 council members from each of the 3 categories of interest from which appointments are made pursuant to

§ 1784.6-1(c) must be present to constitute an official meeting of the council. Formal recommendations shall require agreement of at least 3 council members from each of the 3 categories of interest from which appointments are made.

(iv) *Subgroups.* Local rangeland resource teams may be formed within the geographical area for which a resource advisory council provides advice, down to the level of a single allotment. These teams may be formed by a resource advisory council on its own motion or in response to a petition by local citizens. Rangeland resource teams will be formed for the purpose of providing local level input to the resource advisory council regarding issues pertaining to the administration of grazing on public land within the area for which the rangeland resource team is formed.

(A) Rangeland resource teams will consist of 5 members selected by the resource advisory council. Membership will include 2 persons holding Federal grazing permits or leases. Additional members will include 1 person representing the public-at-large, 1 person representing a nationally or regionally recognized environmental organization, and 1 person representing national, regional, or local wildlife or recreation interests. Persons selected by the council to represent the public-at-large, environmental, and wildlife or recreation interests may not hold Federal grazing permits or leases. At least 1 member must be selected from the membership of the resource advisory council.

(B) The resource advisory council will be required to select rangeland resource team members from nominees who qualify by virtue of their knowledge or experience of the lands, resources, and communities that fall within the area for which the team is formed. All nominations must be accompanied by letters of recommendation from the groups or interests to be represented.

(C) All members of rangeland resource teams will attend a course of instruction in the management of rangeland ecosystems that has been approved by the BLM State Director. Rangeland resource teams will have opportunities to raise any matter of concern with the resource advisory council and to request that BLM form a technical review team, as described below, to provide information and options to the council for their consideration.

(D) Technical review teams can be formed by the BLM authorized officer on the motion of BLM or in response to a request by the resource advisory council or a rangeland resource team.
