Universal log management and data unification

With HP ArcSight Logger you can improve everything from compliance and risk management to security intelligence to IT operations to efforts that prevent insider and advanced persistent threats. This universal log management solution collects machine data from any log-generating source and unifies the data for searching, indexing, reporting, analysis, and retention. And in the age of BYOD and mobility, it enables you to comprehensively manage an increasing volume of log data from an increasing number of sources.

Key features

- Collect logs from any log generating source through 300+ connectors from any device and in any format
- Unify the data across the IT through normalization and categorization, into a common event format (CEF registered)
- Search through millions of events using a text-based search tool on a simple interface
- Store years' worth of logs and events in an unified format through a high compression ratio at low cost
- Automate analysis, alerting, reporting, intelligence of logs and events for IT security, IT operations, IT GRC and log analytics

HP Enterprise Security case study: Heartland Payment Systems

Heartland Payment Systems, a leader in the transaction processing business, uses the ArcSight ETRM platform to enhance the correlation and consolidation of logs, ensure the constant improvement of threat detection and enable fraud detection across Heartland's internet facing payment gateways.

HP ArcSight Logger specifications (Software)

Model	Devices	Max log volume	Max search volume
L750MB	10	750 MB/day	500 GB
L5GB	50	5 GB/day	2.5 TB
L30GB	200	30 GB/day	8 TB
L80GB	500	80 GB/day	42 TB
L160GB	Unrestricted	160 GB/day	42 TB
L250GB	Unrestricted	250 GB/day	42 TB

Software Generic Spec

Supported OS:
Red Hat Enterprise Linux v6.2, 64-bit
Oracle Enterprise Linux, v6.1, 64-bit
CentOS, v6.2, 64-bit
Hyper-V on Windows Server 2008 R2, 64-bit
VMware Virtual Image

Recommended Minimum Hardware:
CPU: 1 or 2x Intel® Xeon® Quad Core or equivalent
Memory: 4–12 GB
Disk space: 4-12 GB

Storage:
Average compression of 10:1 (depending on the data type and source)

HP ArcSight Logger specifications (Appliance)

Model	L3500	L7500-SAN	L7500s	L7500x
Devices	200	Unrestricted	500	Unrestricted
Max EPS	2000	75000	5000	100000
Capacity (compressed)	8TB	50TB	42TB	
Hardware Spec	1x Intel Xeon, E5-2620 2.0GHz, 6-core Processor	2x Intel Xeon, 2648L, 1.8, GHZ 8-core Processor		
Memory	32 GB, 1600 MHz RAM	64 GB, 1600 MHz RAM		
Storage	800 GB (RAID 5)	External – SAN	4.2 TB (RAID 5)	
Host Bus Adapter	N/A	2 x 2-port 16 GB Emulex HBA	N/A	
Dimensions (DxWxH)	27.5" x 17.1" x 1.7"		29.5" x 17.1" x 1.7"	
Connector Management	Yes	N/A		

Generic Spec

Management:
Web browser, CLI, Web Services API

Supported OS:
Red Hat Enterprise Linux v6.2, 64-bit

Supported Sources:
Raw Syslog (TCP/UDP), Raw File based logs (FTP, SCP, SFTP)
Analysis optimized collection using HP ArcSight SmartConnectors
FlexConnector framework for legacy event sources
HP ArcSight CEF (Common Event Format), HP ArcSight ESM

Storage:
Average compression of 10:1 (dependent on data type and data source)

Power:
2 x 460W CS Platinum Power Supply

Ethernet Interfaces:
4 x 10/100/1000

Chassis: 1U

Centralized Security Management

HP ArcSight Management Center (ArcMC) is a centralized security management center that unifies management, configuration, and monitoring of HP ArcSight solution for large enterprises. HP ArcMC enables customers to manage large deployments of HP ArcSight Logger, SmartConnectors, FlexConnectors, and Connector Appliance through a single interface.

HP ArcMC enables you to focus on your business and security use cases as opposed to managing security tools and configurations. This saves you time, effort, and money whether you are a small to medium size business or a large enterprise.

Key benefits

- Centralized security management console for HP ArcSight log analytics solution
- Ease of deployment, management, and scalability
- Manage large deployments easily enabling high scalability
- Simplified change management through single console
- Maximizes security investment delivering quick time to value
