Submitting for the first time

To protect your identity, we're assigning you a unique code name.

Your code name is:

Click Generate if you would like to create a different code name.

Desired code name length: words

It is extremely important that you both remember this code and keep it secret. Memorize the code or write it down, but do not save it on your computer. After submitting documents, you will need to provide this code to log back in and check for responses. Also, this code is the only authentication needed to log in with your account: if you write it down, be sure to keep it hidden.

Once you've taken care of that:

Like all software, SecureDrop may contain security bugs. Use at your own risk.

Powered by SecureDrop 0.2.1.
