Edward Snowden was quoted in Forbes online, May 10, 2015:

<http://www.forbes.com/sites/runasandvik/2015/05/10/what-edward-snowden-said-at-the-nordic-media-festival/2/>

"What I did was that I worked in partnership with the journalists who received the material. As a condition of receiving the material they agreed, prior to publication, to run these stories by the government. Not for the government to censor them, but for the government to be able to look at these and go "look, this isn't going to get anybody killed, this isn't going to put a human agent behind enemy lines at risk" or something like that. "This isn't going to make Al Qaeda be able to bomb buildings." And I think the value of this model has been proven to be quite effective."

In response to this Snowden statement I request all records of journalists and/or their representatives contacting the National Security Agency, other US intelligence agencies and US Government departments about the release of Snowden-provided material, responses by NSA, other US intelligence agencies and US Government Departments to the journalists' and/or their representatives' contacts, any and all agreements and/or understandings between the journalists and/or their representatives and NSA and US intelligence agencies about the material to be released.

The response to this request will be published on the public education website Cryptome.org.

I agree to pay for the cost of this request.

Thank you.
