Lt. General Flynn & Mr. Shedd,

Yesterday afternoon, 5 February, DIA led an IRTF-2 briefing to the House Armed Services Subcommittee on Intelligence, Emerging Threats, and Capabilities (HASC-IETC). [REDACTED]

(b)(3):10 USC  
424

(b)(3):10 USC  
424

[REDACTED] represented DIA. Joint Staff briefers included Brig Gen Jim Marrs, Deputy Director, J2 and [REDACTED] Deputy Director of J6. NCIX [REDACTED] also attended. Subcommittee asked the brief focus on defense related matters and impacts.

(b)(6)

(b)(3):10 USC  
130b,(b)(6)

Chairman Thornberry led the briefing. Although the briefing was for the IETC subcommittee, Chairman Thornberry opened the briefing up to the entire HASC committee membership. Eleven other members attended the briefing, including HASC Chairman McKeon.

**Bottom Line:** HASC Members were most interested in information that could damage Edward Snowden's credibility in the press and in the court of public opinion.

Members from both sides (Reps. Nugent, Scott, Johnson, and Davis) repeatedly pressed the briefers for information from the report to be made releasable to the public. [REDACTED] explained the restrictions were to [REDACTED] but the members appeared unmoved by this argument.

(b)(3):50 USC  
3024(i)

(b)(3):10 USC  
424

Reps. Nugent and Gallego were interested in why Snowden had the access that he did and why intelligence information isn't protected by "need to know". Reps. Davis and Peters were also interested in the total cost of the compromise and any ongoing efforts to mitigate the leaks. Rep. Peters noted that the committee this data in advance of marking up the FY15 Defense bill.

Overall, HASC members were appreciative of the report and expressed repeatedly that this information needed to be shared at some level with the American public. Chairman Thornberry also noted that the committee expects a quarterly briefing by both DIA and Joint Staff.

**HASC Chairman McKeon and IETC Chairman Thornberry held a press availability following the briefing in which they again stressed their belief that Mr. Snowden is a "traitor" and not a "whistleblower."**

(b)(3):10 USC

[REDACTED] will provide a more detailed EXSUM. There were no due outs for DIA.

(b)(3):10 USC

(U) Summary: On 6 February 2014, [redacted] (former Chief, Information Review Task Force 2) and [redacted] (Chief, Information Review Task Force 2) provided a briefing to Professional Staff

(b)(3):10 USC

Members (PSMs) for the House Appropriations Committee Subcommittee on Defense (HAC-D) regarding the Snowden disclosures and the Information Review Task Force 2 (IRTF-2) initial report. PSMs in attendance included HAC-D intelligence staffers [redacted]

[redacted] Other HAC-D staff attended who generally focus on acquisitions and O&M for the services.

(b)(6)

(b)(6)

~~(S//NF)~~ Bottom Line: This briefing was the second briefing to HAC-D staff on materials compromised by NSA leaker Edward Snowden and the assessment of the impact. HAC-D has scheduled a briefing for members on 22 February.

(U) Due outs: IRTF-1 Report and recent Congressional testimony by DIA DR on the IRTF-2.

~~(S//NF)~~ Discussion: [redacted] opened the briefing by providing a short overview of the timeline of the disclosures by Edward Snowden.

potentially compromised by Edward Snowden. [redacted] successor as IRTF-2 Chief, [redacted] also participated.

(b)(3):10 USC 424

(U) Bottom Line: HAC-D PSMs were interested in the IRTF-2 report and noted the interest of subcommittee leadership and Members. They were particularly interested in the road ahead for the Joint Staff Mitigation Oversight Task Force (MOTF) and the costs of the mitigation efforts. Several of the PSMs appeared surprised and concerned at the extent of information that was potentially compromised by Edward Snowden.

(U) Due outs: The PSMs requested that IRTF-2 brief HAC-D Members on 26 February. Staff also requested a copy of IRTF-1 report as well as the DR's recent annual threat assessment testimony.

(b)(3):10 USC 424

(U) Discussion: [redacted] opened the discussion with a brief overview of the IRTF-2's origin, composition, and mission to assess the impact from the compromise of Department of Defense information. Many of the PSMs were interested in Edward Snowden's background, motivations, and tactics. Those questions were deferred to the [redacted] for future briefings. Staff were also interested in the potential impacts of information taken on future military action. [Redacted]

(U) Bottom Line: This briefing was a dry run and chance for the IRTF-2/MOTF briefers to discuss the material with staff before briefing HASC Members on 11 September. The staff expressed appreciation for the IRTF-2 assessments, and said that the first report was one of the most well-read documents by Members in recent years and that interest is still very high. However, the staff questioned why, if the second report was completed in June, it hasn't yet been passed to Congress. The staff also warned that Members would be frustrated if the MOTF could not show progress and provide specific examples of steps taken to mitigate damage done to capabilities, plans, and partnerships by the breach. They recommended focusing less on process and more on mitigation efforts and anticipated costs. SASC PSM

(b)(6)

(U) Due outs: No due outs for DIA, but HASC PSM [redacted] requested a copy of the IRTF-2's second report and urged USD(I) to expedite coordination in order to give Members a chance to read the report before the 11 September briefing. He also mentioned that it was hard to think of something that has happened in the world that is more deserving of a response and that can affect future funding. ## **DoD Unclassified Talking Points Related to the Compromise of Classified Information by a Former National Security Agency (NSA) Contractor**

1. A former NSA contractor downloaded nearly 1.7 million files from Intelligence Community (IC) systems. This is the single greatest quantitative potential compromise of secrets in U.S. history.
2. Much of the information compromised has the potential to gravely impact the National Security of the United States, to include the Department of Defense and its capabilities.
3. While most of the reporting to date in the press has centered on NSA's acquisition of foreign intelligence to protect the lives of our citizens and allies, the files cover sensitive topics well beyond the NSA collection. Disclosure of this information in the press and to adversaries has the potential to put Defense personnel in harm's way and jeopardize the success of DoD operations.
4. These unauthorized disclosures have tipped off our adversaries to intelligence sources and methods and negatively impacted our Allies who partner with us to fight terrorism, cyber crime, human and narcotics trafficking, and the proliferation of weapons of mass destruction. Such international cooperation involving the pooling of information, technology, and expertise is critical to preserve our security and that of our allies.
5. An Information Review Task Force 2 (IRTF-2) of the Department of Defense, led by the Defense Intelligence Agency and working in coordination with elements of the Intelligence Community, is conducting an assessment of the impact to the Department of Defense from the compromise of this information.

Lt. General Flynn & Mr. Shedd,

(b)(3):10 USC 424 This evening IRTF-2 Chief [redacted] and IRTF-2 Senior Analyst [redacted] briefed members of the (b)(3):10 USC 424 HPSCI on the IRTF-2 interim report. NCIX [redacted] also attended and spoke briefly during Q&A. (b)(6)

(b)(6) Chairman Rogers lead the brief with Rep. Langevin as acting Ranking Member (Ranking Member Ruppertsberger [redacted]) (b)(6) [redacted] Nine other members attended including Rep. Thornberry, Rep. Conoway and HAC-D Chairman Frelinghuysen.

(b)(3):10 USC 424 **Bottom Line:** HPSCI Members are very appreciative of the "excellent and timely" report by the IRTF-2 and spoke highly of the efforts of the Task Force. Chairman Rogers noted that there were other IC elements conducting reviews and that he looked forward to hearing from them on their initial assessments in the near future. [redacted] made an opening statement but most of the time was spent on Q&A with topics including the cost of mitigation, the risk to soldiers on the ground, defense vulnerabilities as a result of the compromise, and the scope of data secured by the Person of Interest (POI). There was particular interest in why the POI – who claims publicly to be seeking to reform NSA – acquired so many DOD files unrelated to NSA activities. [redacted] both explained that (b)(3):10 USC 424,(b)(6) he appeared to have acquired all files he could reach and that [redacted] could better address his collection methods and/or strategies. Chairman Rogers and Rep. Schiff raised the issue that most (b)(3):10 USC 424 documents were DOD related – which [redacted] confirmed – and both the congressmen stated they (b)(3):10 USC 424,(b)(3):50 USC 3024(i) believed this simple fact was both unclassified (based on other discussions, not IRTF-2) and was important for changing the narrative of the POI. Chairman Rogers and Mr. Montoya discussed assessments of the POI's motives and activities which are outside of DIA's lane in the road.

**As a final note, Chairman Rogers stated that this would be a topic of the ATA hearing and noted that General Flynn might be speaking much more than he would normally do at these hearings. I assess he is likely to ask you next Monday in closed session what he can discuss in the subsequent unclassified session.**

(U) INFORMATION REVIEW TASK FORCE-2 (IRTF-2)

(U) PURPOSE

(U//FOUO) Provide an opening statement for Former IRTF-2 Chief [redacted] as he briefs the Senate Select Committee on Intelligence (SSCI) on task force activities and initial assessment.

(b)(3):10 USC  
424

(U) Introduction

- (U) Chairman Feinstein, Vice Chairman Chambliss, committee members, thank you for this opportunity to talk about Department of Defense efforts to assess the impact of the single largest compromise of secrets in U.S. history.

(U) Background

- (U) As you all no doubt know, on 07 June 2013 the media began publishing classified information related to NSA operations. On 09 June 2013, we learned that a former NSA contractor was the source of this information when he was publically identified by the press. Since our assessment is separate from the criminal investigation, we identify him as the Person of Interest or POI.
- (U) On 10 July 2013, DIA was informed that Department of Defense information was included in the files taken by the POI. In response, DIA Director LTG Michael Flynn directed the standup of a DoD Task Force to tackle the compromise. Rather than start from scratch, key members of the task force that assessed the WikiLeaks compromise in 2010 were again brought together to form the nucleus of the "Information Review Task Force-2." Led by DIA, and working in coordination with the Office of the National Counterintelligence Executive and our Intelligence Community partners, the IRTF-2 includes representation from the military services, the combatant commands and Joint Chiefs of Staff.
- (U) On a given day, DoD has 200-250 people dedicated to the assessment. The chart on page 7 of our initial assessment report provides a breakdown of the numbers of IRTF-2 participants in each DoD Component. The chart on page 8 of our report provides a breakdown of the compromised data sets and the locations from where they were copied. Notably, as far as volume, over 900,000 files were taken from [redacted] Most of the DoD files were taken from [redacted] as well as [redacted]

Dear Chairman McKeon and Ranking Member Smith,

~~(S//NF)~~ We provide for your information the Department of Defense (DoD) Information Review Task Force 2 (IRTF-2) *Initial Assessment of Impacts Resulting from the Compromise of Classified Material by a Former National Security Agency (NSA) Contractor*. This report presents IRTF-2's initial assessment of impact to DoD from the compromise of classified files by a former NSA contractor.

(b)(1), 1.4 (c)

~~(U//FOUO)~~ Following notification from NSA in July 2013 of the DoD-wide scope of compromised data, the Defense Intelligence Agency (DIA) established the IRTF-2 to acquire, triage, analyze, and assess all DIA and DoD compromised information. The IRTF-2 is managed by DIA with close participation and input from the combatant commands (CCMDs) and Military Services. Many CCMDs and services have produced separate reports that focus in greater detail on the potential impact of the compromise. These are appended to this report. It should be noted Signals Intelligence equities are not addressed in this report. NSA is reviewing those separately.

Dear Chairman Frelinghuysen and Ranking Member Visclosky,

~~(S//NF)~~ We provide for your information the Department of Defense (DoD) Information Review Task Force 2 (IRTF-2) *Initial Assessment of Impacts Resulting from the Compromise of Classified Material by a Former National Security Agency (NSA) Contractor*. This report presents IRTF-2's initial assessment of impact to DoD from the compromise of classified files by a former NSA contractor.

(b)(1), 1-4 (e)

~~(U//FOUO)~~ Following notification from NSA in July 2013 of the DoD-wide scope of compromised data, the Defense Intelligence Agency (DIA) established the IRTF-2 to acquire, triage, analyze, and assess all DIA and DoD compromised information. The IRTF-2 is managed by DIA with close participation and input from the combatant commands (CCMDs) and Military Services. Many CCMDs and services have produced separate reports that focus in greater detail on the potential impact of the compromise. These are appended to this report. It should be noted Signals Intelligence equities are not addressed in this report. NSA is reviewing those separately.
