Hi Alex,  
the dongle and the RMI modem have just been sent, you'll get them in the next days. I'll send you the license file in the next days as well, the trial period will end at the end of february. Of course you already know it but it would be nice to be able to recap with all the guys (charlie, katy, marianne, rick) next year, and if possible with marianne before the trial ends, please keep us informed should you be able to drive the events that way :).  
thanx and bye! :)

Q

Guys,  
Just got out of the meeting with Marianne. They would like to have the dongle ASAP. It seems that Phoebe has been working with them and they know how to use it. So they don't want to wait till the 25th to start. They were actually hoping to get started this week since things are quite right now due to the holidays. They told me that January is very busy.  
SO, would you mind if they get the dongle now? they will agree to meet with you later if you like. As a matter of fact, as they said, it would give them the chance to come up with better questions. They will not commit to a meeting date now, they suggest we discuss this later.  
what do you say?
