

CRYPTOME

13 April 2010

See also five other US Army reports on the Reuters staff killing in Baghdad on July 12, 2010 which provide information not included in this first report published by Cryptome on 6 April 2010.

<http://cryptome.org/reuters-kill-02.zip> (7.5MB)

These other reports include the statements, interrogations and biographies of helicopter pilots and ground forces that go beyond what is in the first report in describing the overall battle scene and the attack on civilians.

All the reports should be read for an understanding of the attack as seen by the USG and its claims that the killing was legitimate. These summaries point to other sources of information not made public and indicate the need for full disclosure of comprehensive information that has not been provided by the USG.
