RE: CAUSE NUMBER 19631, MARGIE SCHOEDINGER VERSUS CITY OF SUGAR LAND, SUGAR LAND POLICE DEPARTMENT OFFICERS JONES, SIPE AND SGT SCHULTZ, IN THE COUNTY CIVIL COURT AT LAW NUMBER 2, FORT BEND COUNTY.

Dear Mr. Helfand:

Due to the difficulty incurred in my attempts to communicate my intentions to you on January 19, 2001, I had Mr. Schoedinger contact you to simply advise that the attached fax was being sent over to your office and to verbally confirm the contents of the fax. Instead of allowing this, you attempted to solicit an agreement out of Mr. Schoedinger that was definitely not in line with what we spoke of. You have to make a determination as to whether or not you intend to have useful dialogue with me or intend to continue to attempt to brow beat me into an agreement that is beneficial for your client.

I attempt in earnest to respond to the questions you put forth and hear all of your recommendations, but because I haven't responded in some manner that you are obviously looking for, you have become highly irritated with me, verbally abusive and very forcefully repetitive. I pray that the Lord moves you towards being more diplomatic in the future. You have to find a place in yourself where you can communicate with me within the bounds of reason. This is conducive to gaining a productive end result.

I cannot argue with you nor have the adversarial level of conversation you are trying to elicit. A conversation means we each get to speak our peace, then find common ground for resolving issues.

When you gave me legal advice on the 18th, and told me you wanted a response in 4 days, I attempted to explain that I would take the weekend to think about it. You gave me so many instructions as to what the law required I do, I needed time to sort them all out and do research. Just because you tell me I have to dismiss my claim does not mean I have to take your advice right then and there. If I don't give you the exact answer you want to hear, you talk over me and absolutely refuse to allow yourself to receive any information from me. You just continue to send your opinion, over and over again.

Initially you were very kind and yet when I tried to communicate to you that I would have to dig in deep and think very seriously about all the legal advice you had given me, you became very upset and changed the four day deadline we had already agreed upon to 24 hours, giving me your brain surgery metaphor, over and over again.

I am in the process of searching for an attorney who would be willing to provide me with legal guidance, while maintaining a Godly integrity in the handling of the case. It is a better thing to prevail under God's law by finding a good, Christian attorney, than risk losing the higher judgment of God.

Often those who are involved in the administration of secular law believe any course is justified in getting a winning result for their client. I fear if I hire a strictly secular attorney, he might engage in even one of the same activities towards your clients as you have engaged in towards me, and thus, God would not continue to take up my case under the terms of His law.

You have threatened me several times. Today you went so far as to say that you are hoping cooler heads would continue to prevail down at the city. What do you mean? Are you saying the Police Officers are going to somehow cause me further distress?

January 22, 2001

What happened to me on the 26th of October wounded my spirit. Those men tried to abduct me, threatened my physical person and verbally debased me, and then officers were laughing and talking with those men. They shook hands with those men as if they were gentlemen, but those men were not gentlemen.

There is a God and God is a part of all of us. It is why we should love one another without respect to physical attributes. I pray that this part of God prevails upon the minds and spirits of these officers so that they fear breaking God's law more than the results of a judgment under secular law. In this part of each of them, they each know that all I say regarding what occurred is the truth.

Now, because I am pursuing my rights under the law, I am being harassed and threatened. You say my life will be more difficult if I don't sign away my rights to pursue the Constitutional claim. Then so be it. I cannot change what anyone else will do. We each will answer for all we do. I will not sign away my claim, but I will pursue my case to the best of my ability, seek wise counsel or speak for myself if I cannot find it. This way I can be sure I have closure and be sure that the hand of God remains in all of this. Whatever secular justice may say, God still remains.

God Bless,

Margie Schaefer
