You're killing it! 🚀 Revenue for March is up **30%** compared to last month. That's mainly due to our launch in China. Also, we've improved our 7-Day retention to now 23%! Our 90-Day ROI slightly improved, too.

It's going great! 😎 Our revenue for March is up **30%** compared to last month. That's mainly due to our launch in China. We got some great follow up articles after being featured in techinasia.com on March 20. Currently, paid acquisitions are most effective on **Facebook**. I've included a drilldown per channel.

Channel	90-Day ROI
Facebook	33%
Twitter	5%
Chartboost	1%
Fyber	-8%
Heyzap	-40%
