Hip-Hop Hair-ay!

Here's a crash worth gaping at: Hairstyling recently collided with fashion and hip-hop in Manhattan, bringing together 1,000 major designers, celebrities, artists, and models at the second Collision USA Fashion Show. Professional hair tool manufacturer FHI Heat sponsored the event, where Georgia Hughes used various FHI Heat tools to achieve the fashion-forward looks on rapper Lil Mama along with 27 male and female models. For Phillip Wilson, global creative director for FHI Heat, crashing this fashion collision makes perfect sense: "FHI Heat strongly believes in supporting exciting events that educate and inspire the next generation of fashion designers, musicians and artists," he says.

Beauty Before Age

As Dermalogica knows, it's never too early to start a healthy skincare routine. At "You Glow Girl," a recent fundraising event held in Chicago, teenage girls who are active members of the nonprofit Step Up Women's Network (SUWN) learned to integrate vitamins A, C and E, as well as the essential trace element selenium into their diets to slow skin's aging process. The girls also shared personal inspirational stories and had the chance to network with more than 50 local professional women. Beth Bialko, SUWN board member and owner of Chicago-based Pella Para Salon, doled out Dermalogica products to the eager teens. Bialko enthuses, "We're very excited and proud that we could all come together for an upbeat evening that's all about building healthy girls and women from the inside out—healthy skin is part of that package!"

Knocked Off

Don't be fooled! The Federal Court, Central District of California, and the Honorable R. Gary Klausner have decreed that there's only one Moroccan oil company and brand name in the beauty market. In the landmark decision, Moroccan oil successfully defended its trademarked name against all other companies using similar company and product names that would cause confusion among consumers—in particular, beauty pros and their clients—with its swiftly growing product range.

The copycat concern began one year after Moroccan oil made its dramatic entry into the professional haircare market in 2007, when owners Ofer and Carmen Tal discovered that other wannabe Moroccan oil companies were riding on their coattails by introducing their own Moroccan oil products with such names as "Moroccan Oil," "Moroccan Gold Oil," and "Moroccan Miracle Oil." "There's no such thing as American oil, Brazilian oil, or Moroccan oil," declares Ofer. "These similar companies and product names were causing confusion among our customers who were ordering what they believed to be the true Moroccan oil and, instead, receiving Moroccan Miracle Oil or other similarly named brands. It was a bait-and-switch activity that had to be stopped."

"The Marilyn Brush is the 'must have' item in my kit, and I use it daily on the set. I find that The Marilyn Brush's hourglass shape and natural boar bristles create luxurious hair without having to add additional product. The Thermal Red is great because the ceramic barrel and shorter bristles reduce styling time, which is key when I'm on set. The Teasing Brush can literally change the appearance of a person's head by creating volume in certain areas. Actors regularly ask me for tips, and I usually just end up giving them a Marilyn Brush from my kit."

—Lori Rozman
Head Hairdresser

Desperate Housewives

"I love the long-lasting, sexy curls I create with my CHI Orbit styler. Because of the innovative and lightweight design, I am able to cut the time the cast spends in the trailer in half. I keep the manes I work on looking flawless and requiring little touch ups!"

—Rebecca George
Stylist

Two and a Half Men

"The actors use Privé's Styling Wax because it is very lightweight and it defines and separates the hair. The container is very compact and easy to carry in your set bag for quick touch-ups. I am also a fan of Privé's Grooming Crème because it adds texture and tames flyaways. The actors like the way it feels and always comment on the great scent."

—Pixie Schwartz
Department Head Hairstylist

Love Don't Let Me Down

"ARROJO Styling Crème is definitely my 'go-to-product' when I'm working on the set. It has to be one of the best all-purpose stylers I've ever used. It keeps everything in place during those long 15-hour shoots. I've used it on television shows like *Lipstick Jungle*, *How To Make It In America* and most recently on the set of the new feature film, *Love Don't Let Me Down*."

—Elizabeth Martinelli

Jersey Shore

On the set of MTV's *Jersey Shore* this summer, it was all about hook-ups, avoiding grenade launchers and getting hair to survive a night at the club or during a Boardwalk scuffle. Mike "The Situation" Sorrentino and Nicole "Snookie" Polizzi are big fans of Unite. "I love using the Unite LIQUA Versa-Gel on my hair," says The Situation. "It helps keep it fresh for the ladies." And Snookie, a.k.a. "Snickers," never needed to call in Bumpit backup. "I love using the Unite MAX Control to keep my pouf in place."

Gossip Girls

"Since *Gossip Girls* is a fashion-driven show, we are constantly changing the hair to go with different clothing changes. MoroccanOil Glimmer Shine Spray is our favorite product and we go through tons of it. We're addicted to the unique, luminous, natural-looking shine it creates!"

—Jennifer Johnson
Hair Department Head

Jennifer Lopez Lola Music Video

"For the Jennifer Lopez 'Lola' video, I used Oribe Impermeable for texture and Oribe Smooth Style Serum for separation and shine. Impermeable is perfect on set because you can use a ton of it and it doesn't build up. When you have to do the hair over and over again during the course of a shoot, it provides a lot of flexibility. When I wanted to detail the hair, I used Smooth Style Serum. It has light hold so I can direct and shift the hair into place. It's also good to add a little moisture to the hair since the lights on set are so bright. Smooth Style is ideal for that."

Laini Reeves, who styled Blunt's modern-meets-vintage waves for the Emmy Awards, took this approach:

STEP 1 Combine **Moroccanoil Intense Curl Cream** (\$37) and the original **Moroccanoil Treatment** (\$41) to control flyaways and provide hold.

STEP 2 Pin-curl hair in alternating patterns, then spritz with **Moroccanoil Glimmer Shine Spray** (\$26) and let air-dry.

STEP 3 Release pin-curls and rake fingers through hair, before pinning in place.

Look Farben sind schön. Aber manchmal präsentieren sich Haare, Nägel und Teint lieber im **NATURAL STYLE**

Easy Chic Ob sanfte Wellen oder über eine Rundbürste glatt geföhnt: Gesundes, glänzendes Haar ist für den natürlichen Look ein absolutes Muss.

1 Schutz und Glanz verleiht „Glimmer Shine Spray“ von Moroccanoil, um 24 Euro 2 Brillantes Finish: „Style & Shine Highgloss Spray“ von Douglas, um 10 Euro 3 Profi-Volumenschäum: „Fixateur Mousse“ von La Biosthétique, um 15 Euro 4 Effektive Warmluft-Lockenbürste: „Satin Hair 7 Airstyler“ von Braun, um 65 Euro

Ruhige Töne Diesen Winter glänzen die Nägel durch Understatement in Pastell. Für die perfekte Optik sollte zunächst ein pflegender Unterlack für die kurzen (!), mandelförmig gefeilten Nägel verwendet werden. Er schafft eine ideale Basis für die Farbe, die nun bis zur gewünschten Intensität aufgetragen werden kann. Als Finish ist ein Überlack unverzichtbar, da er die Farbe schützt und länger haltbar macht. 1 Nagelpflege: „Treatment Base Coat“ von Estée Lauder, um 20 Euro 2 Stärkt die Nägel: „Silicium Pastel Care“ von La Roche-Posay, um 11 Euro 3 Klassiker: „French Manicure Pen“ von Artdeco, um 10 Euro 4 Warmes Terrakotta: „Secret of Love Nr. 507“ von Anny, circa 10 Euro 5 Perlenglanz: „Pearl Drop Nr. 511“ von Chanel, um 23 Euro

Dezente Farbwahl Getreu dem Motto „Weniger ist mehr“ erfreuen Nudetöne wie Apricot oder Caramel Lippen und Lieder und harmonisieren ideal mit einem ebenmäßigen Teint. STRÄHNCHEN in allen Variationen setzen tolle Glanzlichter, lassen das Haar fülliger wirken und bringen die Farbe zum Strahlen

TIPPS VOM EXPERTEN

Helmut Eisele (o.), Inhaber des Salons „Hair by Eisele“ in Regensburg, weiß Rat: **Welche neuen Auftrage-techniken gibt es?** Mit der Balayage-Freihandtechnik lassen sich sehr natürliche Effekte erzielen. Einzelne Strähnen werden ohne Folie quasi aufgemalt. Mit gewebten Strähnen erzielt man ein sehr

einheitliches Bild. Das Einarbeiten verschiedenster Nuancen schafft ein schönes, changierendes Farbergebnis. **Was sind die Trendfarben bei Strähnen im Herbst?** Der Ombre-Trend, z. B. INOA Strähnen von L'Oréal Professionnel, wird auf uns zukommen. Dabei sind die Ansätze etwas dunkler als die Spitzen, so dass der Look sehr natürlich, wie von der Sonne gezauert, aussieht. Auch werden sich kühle Pastelltöne in changierenden Effekten noch stärker entwickeln.

Welche Strähnen passen zu braunem Haar? Ein warmes Beige mit einem Ascheton bringt tolle, unverwechselbare Farbspiele ins Haar. Mehr Infos unter www.eisele-hair.de, Tel. 09 41/5 84 06 35

Lo puedes usar como tratamiento precoloración y también para dar mantenimiento a extensiones de cabello, e incluso como protector solar. Французский пучок крайне универсален — его можно носить как с вечерним платьем, так и с джинсами. «Чтобы пучок получился более воздушным и естественным, я просто высушил волосы модели феном, затем начесал несколько прядей спереди и скрутил волосы в ракушку, — говорит Норман. — Главное, используйте шпильки не с гладкими, а волнистыми спицами — так укладка продержится дольше».

? Некоторые косметологи считают, что пользоваться термальной водой в самолете вредно, хотя в журналах пишут обратное. Где правда?

Термальная вода не только увлажняет кожу, но и обогащает ее минералами, поэтому эксперты советуют пользоваться ею в самолете, где воздух очень сухой. Другой вопрос, как это сделать правильно. «Сбрызните лицо небольшим количеством термальной воды, промокните салфеткой и сразу же наложите увлажняющий крем или маску», — рекомендует врач-дерматолог Екатерина Чепурина, медицинский директор марки La Roche-Posay. Вода отлично освежит кожу, насытит ее полезными компонентами и успокоит раздражение, а крем благодаря своей текстуре закрепит результат, не давая лицу обезвоживаться.

Кристина хочет знать:

? Какой макияж стоит сделать, чтобы хорошо получиться на фотографии? У визажистов наверняка есть профессиональные секреты.

«Свежесть лицу придадут легкий тональный крем со светоотражающими частичками, а также персиковые румяна на яблочках щек, — уверена визажист Фина Стайлс. «Глаза выделите не привычным черным карандашом (он выглядит грубовато), а бронзовым или фиолетовым, — советует ее коллега Ник Бароуз. — А губы покрасьте не ярким блеском, а бледно-розовой помадой».

? На второй день после мытья головы я обычно собираю волосы в конский хвост. Есть ли способ выглядеть с такой прической более элегантно?

«Это легко — особенно если у вас длинные волосы, — отвечает парикмахер Мара Росзак, которая работала с Милой Кунис, Диланой Крюгер и Зои Дешанель. — Отступите на пару сантиметров от линии роста волос, сделав прямой пробор, а остальные волосы начешите у корней и соберите в хвост на затылке. Затем возьмите свободные пряди ото лба и обмотайте ими основание хвоста, скрывая резинку. Закрепите прическу шпильками, после чего нанесите немного лака легкой фиксации или средства, придающего волосам блеск. Готово!»
