

Internal use and demo license additional terms and conditions

The following additional terms and conditions apply to Dropbox Business Internal Use Licenses (IULs) and demo licenses.

1. Internal use licenses (IULs) may only be used with a single team (e.g. all end-user accounts must have the same administrator) and may only be used in accordance with the use set out below. Licenses may not be mixed between demo and IUL teams.
2. Demo licenses may only be used with the sandbox team provided and in accordance with the use set out below. Please do not associate your company's production domain with the demo team. A partner may be issued more than one demo team. Demo licenses may not have all space and features of Dropbox Business.
3. All licenses are subject to Dropbox's then-current standard terms of service, privacy policy, and acceptable use policy available at dropbox.com/terms.
4. The partner will provide to Dropbox at no charge all reasonably requested assistance in Dropbox's effort to eliminate any fraud or abuse that may be associated with any demo licenses and IULs provided hereunder. If Dropbox finds any fraud or abuse associated with any demo license or IUL provided to partner, Dropbox may immediately terminate the partner's demo and IUL accounts.
5. Licenses added to a team after the team's initial provisioning will inherit the start date of the team.
