Policy Manual

CHIEF'S PREFACE

Preface

Pursuing the achievement of the Tigard Police Mission Statement, "to create the highest level of livability possible by working with our citizens to preserve and protect life, liberty and property" doesn't begin to capture the challenges and myriad tasks we must carry out in order to pursue that mission. Police personnel are charged with life and death decisions, with collecting and identifying criminal information and evidence which require special and sensitive handling, with exercising the necessary use of force, with depriving citizens of their freedom, and with treating victims with compassion and care, among many, many other things.

In order to guide our personnel through the extensive body of knowledge required to successfully carry out these extraordinary tasks and responsibilities, police departments across the country have developed Policy Manuals to assure the most safe, accurate, professional, and legal procedures are in place within their Police Department. The purpose of this Manual then, is to guide the employees of the Tigard Police Department in carrying out their assigned responsibilities. This Manual is our collective commitment as a Police Department to do our jobs in the most professional, ethical, and legal manner.

This Policy Manual is critically important to our overall success as a Police Department. The contents of the manual reflect how the Department conducts business by documenting rules and establishing guidelines for consistent, efficient, proper and best practices. These guidelines include the Law Enforcement Code of Ethics and the Tigard Police Department's Mission, Vision, Goals and Core Values. By closely following the directives herein, staff is enabled to provide reliable, effective, and unwavering service to our community.

It is critically important to the Department's success that this Manual be read, understood, and accepted by all personnel within the Department. Therefore, it is mandatory for every member of the Tigard Police Department to read, and to comply with, the policies established herein.

While our Department is obligated to adhere to the contents of this manual, it is understood that change is both constant and imminent. Whether this change occurs in the statutory mandates or the needs of the community we serve, we must always ensure our Policy Manual remains contemporary. To that end, each and every member of the Tigard Police Department must share in the responsibility of providing constant feedback and updates for consideration. We will then conduct a periodic update of the Manual in order to maintain the high standards that reflect the pride of each member of the Department. I often say that Law Enforcement is one of the most complex jobs in America. Successful accomplishment of this most complex of

jobs, not only helps us to accomplish our goals, but affords each of us a profound sense of accomplishment and pride in knowing that we are the keepers of the peace, the protectors of our community, and the defenders of America's freedoms.

Policy Manual

Criminal Justice Code of Ethics

As a criminal justice officer, my fundamental duty is to serve humankind; to safeguard lives and property; to protect all persons against deception, the weak against oppression or intimidation, and the peaceful against violence or disorder; and to respect the Constitutional rights of all people to liberty, equality and justice.

I will keep my private life unsullied as an example to all; maintain courageous calm in the face of danger, scorn, or ridicule; develop self-restraint; and be constantly mindful of the welfare of others. Honest in thought and deed in both my personal and official life, I will be exemplary in obeying the laws of the land and the regulations of my department. Whatever I see or hear of a confidential nature or that is confided to me in my official capacity will be kept ever secret unless revelation is necessary in the performance of my duty.

I will never act officiously or permit personal feelings, prejudices, animosities or friendships to influence my decisions. Without compromise and with relentlessness, I will uphold the laws affecting the duties of my profession courteously and appropriately without fear or favor, malice or ill will, never employing unnecessary force or violence, and never accepting gratuities.

I recognize my position as a symbol of public faith, and I accept it, as a public trust to be held so long as I am true to the ethics of The Criminal Justice System. I will constantly strive to achieve these objectives and ideals, dedicating myself before God to my chosen profession.

The Emergency Operations Plan can be activated in a number of ways. For the Police Department, the Chief of Police or the highest ranking official on duty may activate the Emergency Operations Plan in response to a major emergency.

206.2.1 RECALL OF PERSONNEL

In the event that the Emergency Operations Plan is activated, all employees of the Tigard Police Department are subject to immediate recall. Employees may also be subject to recall during extraordinary circumstances as deemed necessary by the Chief of Police or the authorized designee.

Failure to promptly respond to an order to report for duty may result in discipline.

206.3 LOCATION OF MANUALS

The manual for employees is available in Administration and the Patrol Lieutenant's office. All supervisors should familiarize themselves with the Emergency Management Plan and what roles police personnel will play when the plan is implemented.

206.4 BUILDING EVACUATION PLAN

In the event of a disaster or emergency which requires evacuation of the police building, all employees shall follow implemented evacuation plans and posted exit routes (OAR 437-002-0041). The posted exit routes shall include any special directions for physically impaired employees.

Training Policy

208.1 PURPOSE AND SCOPE

It is the policy of this department to administer a training program that will provide for the professional growth and continued development of its personnel. By doing so, the Department will ensure its personnel possess the knowledge and skills necessary to provide a professional level of service that meets the needs of the community.

208.2 PHILOSOPHY

The Department seeks to provide ongoing training and encourages all personnel to participate in advanced training and formal education on a continual basis. Training is provided within the confines of funding, requirements of a given assignment, staffing levels, and legal mandates. Whenever possible, the Department will use courses certified by the Oregon Department of Public Safety Standards and Training (DPSST).

208.3 OBJECTIVES

The objectives of the Training Program are to:

- (a) Enhance the level of law enforcement service to the public
- (b) Increase the technical expertise and overall effectiveness of our personnel
- (c) Provide for continued professional development of department personnel
- (d) Enhance the safety of officers and the community

208.4 TRAINING PLAN

A training plan will be developed and maintained by the Training Coordinator. It is the responsibility of the entire command staff to assist the Training Coordinator in maintaining, reviewing, and updating the training plan on an annual basis. The command staff will meet at least annually to schedule the upcoming year's training and to adjust the department's goals as needed. The plan will address the following areas:

- State Mandated Training
- Critical Issues Training
- Agency-specific training

208.5 TRAINING NEEDS ASSESSMENT

The Training Coordinator or his/her designee will conduct an annual training-needs assessment of the Department. The needs assessment will be reviewed by the command staff during the annual training plan development process. Upon approval by the staff, the needs assessment will form the basis for the training plan for the fiscal year.

208.6 TRAINING COMMITTEE

The Training Coordinator may establish a Training Committee, which will serve to assist with identifying training needs for the Department. The Training Committee may also be

Tigard Police Department

Policy Manual

Training Policy

tasked with the review a policy, a training regimen, or piece of equipment the department is considering/evaluating.

The Training Committee may be comprised of at least three members, with the senior ranking member of the committee acting as the chairperson. Members should be selected based on their abilities/experiences at post-incident evaluation and skills at assessing related training needs.

The Training Coordinator may remove or replace members of the committee at his/her discretion. The Training Committee may review certain incidents to determine whether training would likely improve future outcomes or reduce or prevent the recurrence of the undesirable issues related to the incident. Specific incidents the Training Committee should review include, but are not limited to:

- (a) Any incident involving the death or serious injury of an employee.
- (b) Incidents involving a high risk of death, serious injury or civil liability.
- (c) Incidents identified by a supervisor as appropriate to review to identify possible training needs.

The Training Committee should convene on a regular basis as determined by the Training Coordinator to review the identified incidents. The committee shall determine by consensus whether a training need exists and then submit written recommendations of its findings to the Training Coordinator. The recommendation should not identify specific facts of any incidents, such as identities of employees involved or the date, time and location of the incident, but should focus on the type of training being recommended.

The Training Coordinator will consider the recommendations of the committee and determine what training should be addressed, taking into consideration the mission of the Department and available resources.

208.7 TRAINING PROCEDURES

- (a) All employees assigned to attend training shall attend unless previously excused by their immediate supervisor. Excused absences from mandatory training should be limited to:
 - 1. Court appearances
 - 2. First choice vacation
 - 3. Sick leave
 - 4. Physical limitations preventing the employee's participation.
 - 5. Emergency situations
- (b) When an employee is unable to attend mandatory training, that employee shall:
 - 1. Notify his/her supervisor as soon as possible, but no later than at least one hour prior to the start of training.
 - 2. Document his/her absence in a memorandum to his/her supervisor.
 - 3. Make arrangements through his/her supervisor and the Training Coordinator to attend an alternate date.

208.8 TRAVEL AND TRAINING PRE-AUTHORIZATION REQUESTS

The department policy on travel and training requests follows the City of Tigard personnel policy # 47, "*Training and Education*", with the exception of the pre-authorization request

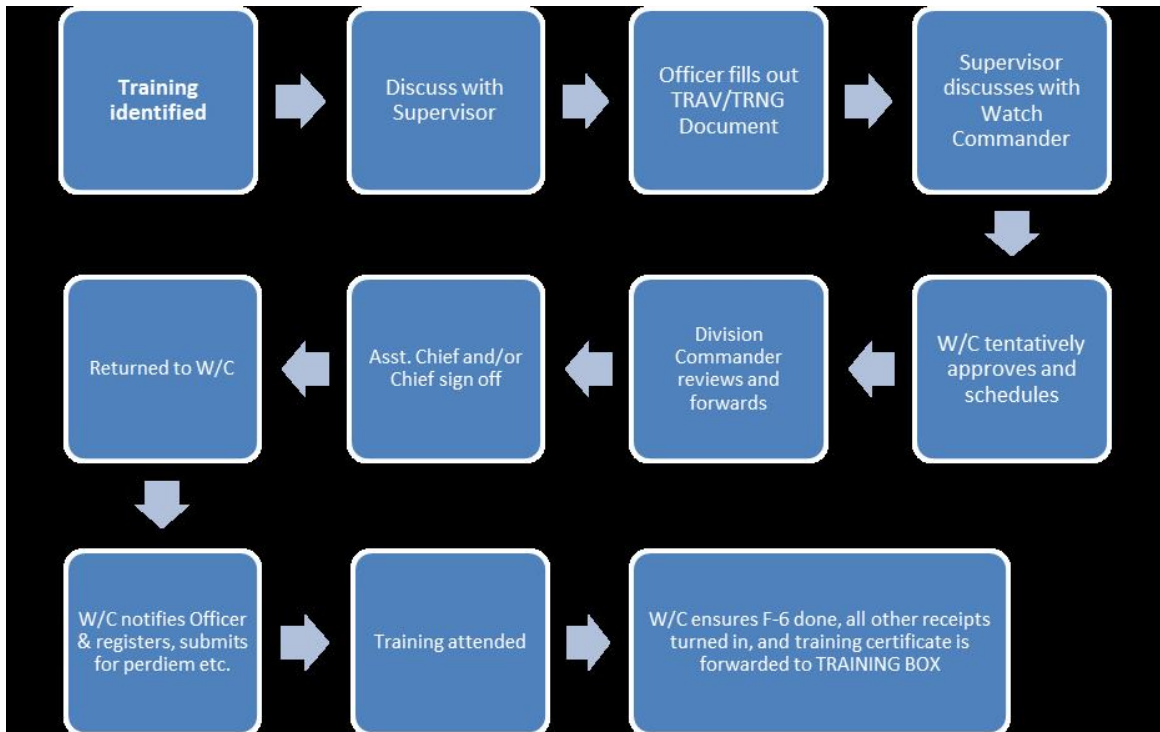

Tigard Police Department

Policy Manual

Training Policy

form used to receive approval for training through the chain of command, and to record training received for DPSST.

A flow chart has been prepared to guide the travel and training process for department members:

208.9 DAILY TRAINING BULLETINS

The Lexipol Daily Training Bulletins (DTBs) are contained in a web-accessed system that provides training on the Tigard Police Department policy manual and other important topics. Generally, one training bulletin is available for each day of the month. However, the number of DTBs may be adjusted by the Training Coordinator.

Personnel assigned to participate in DTBs shall only use login credentials assigned to them. Personnel should not share their password with others and should frequently change their password to protect the security of the system. After each session, employees should logoff the system to prevent unauthorized access. The content of the DTBs is copyrighted material and shall not be shared with others outside of this agency.

Employees who are assigned to participate in the DTB program should complete each DTB at the beginning of their shift or as otherwise directed by their supervisor. Employees should not allow uncompleted DTBs to build up over time. Personnel may be required to complete DTBs missed during extended absences (e.g., vacation, medical leave) upon returning to duty. Although the DTB system can be accessed from any Internet active computer, employees shall only take DTBs as part of their on-duty assignment unless directed otherwise by a supervisor.

Supervisors will be notified periodically by the Training Coordinator about the progress of the personnel under their command to ensure compliance with this policy.

Electronic Communication

209.1 PURPOSE AND SCOPE

It is the city's goal to enhance both external and internal communication through the use of various electronic communication tools. All electronic communication tools purchased by the city are the property of the City of Tigard. Employees should have no expectation of privacy in connection with the transmission, receipt, or storage of information in these electronic communication devices. Any personally owned electronic communication devices an employee uses for city business are also governed by this policy. The city follows the standards and practices set by the Oregon Government Standards and Practices Commission.

This Electronic Communication policy is part of the City of Tigard's citywide Personnel Rules, Policy #49.0.

Any digital information, whether obtained in the line of duty, training events, or under any other circumstance, using a digital camera, computer, personal communications device, recorders, and any other electronic device is the property of the City and cannot be used for personal reasons or for other outside purposes.

209.2 TELEPHONES/VOICE MAIL/CELLULAR TELEPHONES

Telephones/Voice Mail

The ability to make outgoing and receive incoming telephone calls is an essential element of the City of Tigard's ability to provide service to the public. The city's telephones and voice mail system are intended to be used only for official business. The city believes, however, there are occasions when employees may use telephones for personal purposes without such usage being at odds with the law. All calls, including any personal calls allowed by city policy are subject to tracking. This tracking may include the phone numbers of incoming and outgoing calls and text messages, as well as their duration.

It is normal practice by both public and private employers to permit employees to use business telephones to talk to family members, make medical appointments, schedule service technicians, confer with children's schools, and take care of any of a variety of other matters which can only be accomplished during "regular" work hours. The city believes it is less disruptive to permit employees to make such personal calls at their workstation than to require an employee to take a break or leave from work to take care of personal matters.

Personal telephone calls made during working hours from city telephones should, of course, be brief and infrequent. Personal long distance calls, even if the employee reimburses the city for the cost, may not be made on city telephones. If it is necessary for an employee to make personal long distance calls while at work, such calls must be made with the employee's personal calling card, by placing a collect call, or by calling from a pay phone. This section does not apply to wireless phones.

Cellular Telephones

The city provides cellular phones to their employees specifically to facilitate the carrying out of official business. The city's cellular phones are not for the convenience or personal use of employees. This policy also applies to all City of Tigard employees and their use of personal

Tigard Police Department

Policy Manual

Electronic Communication

cellular telephones during work hours. The two components of this section include: (a) use of city cellular phones and (b) use of personal cellular phones.

(a) Use of city Cellular Phones

The instances when an employee may use a city cellular phone for personal purposes are limited. An example of an occasion when an employee's personal use of a city cellular phone would not violate Oregon Government Standards and Practices Commission guidelines would be to contact a spouse or childcare provider to advise that the employee is going to be late getting home or picking up children for a reason directly related to official duties such as a meeting which ran later than expected or a last minute change of schedule. Another permitted personal use of a city cellular phone by an employee would be receiving an incoming call regarding a family emergency. Employee will not be required to reimburse the city when the cellular telephone call follows these guidelines; that is, the personal call is directly related to official duties.

A City employee cannot make a personal cellular call even if he or she intends to reimburse the city at a higher rate than that generally available to the public.

(b) Use of Personal Cellular Phones

It is the city's goal for employees to perform their duties in a productive manner without the interference of personal cellular telephone calls. Employees may not activate or use personal cellular telephones during normal work hours or in staff work areas. Use of personal cellular telephones is permitted during an employee's personal time (rest and meal periods as referenced in Citywide Personnel Policy No. 45.0 Job Attendance) and outside the workplace.

Exceptions may be made to this policy on a limited basis based on an employee's need and with approval of the department director. Employees requesting an exception to this policy must submit their request to their department director for approval.

Employees who violate any citywide personnel policy are subject to disciplinary action, up to and including termination.

209.2.1 PERSONAL CELLULAR PHONE, PDA AND SMARTPHONE STIPENDS

The City provides an allowance to certain non-represented positions, participation in which is voluntary. Upon approval employees will receive a specified amount of additional taxable income per month, as a stipend for the specific purpose of obtaining a personal cellular phone, PDA or Smartphone device and adequate service area coverage to be used for City business. However the device would not have the same restrictions on personal use since it is a personal device. The stipend amount will be set by the City Manager. The City stipend amount will be 60% of the current plan cost the City would pay for providing the cell phone service.

All personal smartphones and personal PDA's which contain sensitive city information or has applications that could access sensitive data should be locked and need to be unlocked using authentication or password to access the device. Most PDA's and smartphones have the ability to request a code before accessing the device, and this level of security should be enabled if there exists sensitive data on the device or the device could access sensitive data through an application. If possible the data should also be password protected in case the device is lost or stolen.

Tigard Police Department

Policy Manual

Electronic Communication

Employees will obtain written or email approval from the department director for the use of a personal cellular phone, PDA or Smartphone and the department director will send the approval to Payroll/Finance and the Information Technology (IT) Manager. Employees who wish to accept the stipend for a personal PDA or Smartphone with the intention of having remote access to their City account must obtain prior approval from the Information Technology Manager as to the make and model of the proposed device. The city may restrict the make and model of any PDA hardware and software which may connect to a city computer. If approved, the city will pay for maintain the license that allows access to the city's server. This license is the property of the city. Employees with data plans that support email access must keep city and personal email in separate applications and not combine their emails into one email box.

Information on the personal PDA or Smartphone may be public record and must be kept according to the city's retention schedule. The employee's personal PDA or Smartphone may be subject to verification that city information has been provided if so requested.

209.3 PERSONAL DIGITAL ASSISTANTS (PDA)

This policy applies to all employees who use either a personal PDA or a city purchased PDA when conducting city business. PDA's include wireless devices that may have phone and internet capability.

Department directors are responsible for determining if it is in the best interest of the city to equip an employee with a city funded PDA. The city recognizes the benefit of having a complete schedule, that includes both city and personal appointments. Therefore, posting and synchronizing of personal appointments between a city computer and a personal PDA is permitted in order to provide a complete view of an employee's schedule if the department director has authorized the use of a personal PDA.

Employees who wish to furnish their personal PDA, purchased with personal funds, are subject to this policy if they use their PDA to conduct city business. The city may restrict the make and model of any PDA hardware and software which may connect to a city computer.

Employees acknowledge that information on the PDA may be public record and must be kept according to the city's retention schedule and the employee's personal PDA may be subpoenaed to verify all city information has been provided if so requested.

Department directors will insure the "Request to Use Personal PDA" form is completed for any employee who requests usage of a PDA for city business.

In the event of a lost or broken PDA purchased with city funds, the department director will determine if the loss occurred as a result of employee negligence when deciding whether the city will purchase a replacement PDA. In the event of a lost or broken PDA purchased with personal funds, the city will follow Citywide Personnel Policy 55.0.

209.4 COMPUTERS/INTERNET/E-MAIL

This policy applies to all City of Tigard employees and their use of city computers, the electronic mail (e-mail) system and the Internet.

It is the city's goal to enhance both external and internal communication through the use of various electronic communication tools. All electronic communication tools purchased by the city are the property of the City of Tigard. Any personally owned electronic communication devices an employee uses for city business are also governed by this policy. Employees should have no expectation of privacy in connection with the transmission,

Tigard Police Department

Policy Manual

Electronic Communication

receipt, or storage of information in these electronic devices. Any individuals using this system are subject to monitoring and all individuals using the system without authority or in excess of their authority are subject to having all their activities on this system monitored, recorded and examined by an authorized person, including law enforcement, as system personnel deem appropriate. Any material so recorded may be disclosed as appropriate. The city may take action related to inappropriate use of its network, without prior notice, if an employee is determined to have generated, sent or received such material.

Information Sharing

Employees are not allowed to use a code, access a file, or retrieve any stored information, other than where authorized, unless there has been prior clearance by an authorized supervisor. City property or information that is confidential and/or proprietary cannot be shared with individuals outside the city without prior clearance from a department director. Any employee who leaves employment with the city is prohibited from taking or copying any city property or information unless specifically authorized in writing by their department director.

Personal Use

In general, employees may not use computers owned by the city for personal purposes. The City of Tigard's computer system is for authorized users only. There are some circumstances where the City believes the use of computers for personal purposes does not violate the Oregon Government Standards and Practices Commission guidelines. For example, an allowable use would be the preparation of application materials for a different position within the city or term papers for a city-sponsored class.

The personal use of city computers, with the exception of e-mail and the Internet, is permitted with the department director's approval:

- during an employee's lunch period,
- one hour before their normal work schedule begins,
- one hour after their normal work schedule ends, and
- the time between the end of the employee's "work shift" and the beginning of an evening meeting that the city requires the employee to attend.

Personal use of the e-mail system and the Internet is not allowed at any time except as described under Internet Access.

No personal use of city computers is allowed on an employee's day off unless the use is related to an educational purpose that is consistent with the city's policies and has been pre-approved by the employee's department director.

Personal use of the computer system may not interfere with the employee's work, another employee's work or have an undue impact on the network. Playing games on the city's computers is not allowed. Sending large attachments (greater than two megabytes) to multiple people, distributing hoaxes, and spamming are examples of e-mail usage that could affect employee time or system capacity.

Internet Access

The City has equipped their computers and some PDAs with access to the Internet in order to have access to information and to provide information to the public. Personal use of the Internet is only allowed a) with the department director's approval, or b) to access

Tigard Police Department

Policy Manual

Electronic Communication

city sponsored benefit sites or c) to schedule medical appointments for the employee or their immediate family. No access to any investment, deferred compensation or retirement benefit sites or accounts is allowed.

City equipment may not be used at any time to access inappropriate sites or to transmit or receive inappropriate information. Pornography, hate groups, and off shore gambling are examples of inappropriate sites and accessing these sites is a misuse of city property.

The city recognizes that occasionally, while in pursuit of valid city business, an employee may inadvertently follow an Internet link that leads to an inappropriate web page. If this occurs, it is not necessary for the employee to respond to the owner of the page, but the employee must immediately notify his or her supervisor of what happened. Copies of e-mail and accessed web pages remain in the system for a period of time and the city may retrieve e-mail and web site histories. It is for the employee's own protection that any anomalies are documented.

Information Technology Access Policy

Information technology includes but is not limited to all individual computers, computing and electronic communications devices and services, telecommunication devices, e-mail, networks, telephones (including cellular), voice mail, fax transmissions, video, multimedia, applications and instructional materials.

Access rights to information/data stored on city-owned equipment will be given on an as-needed basis. Only those rights needed to accomplish tasks related to their job function will be granted. Authorized users of the city's computer network include city employees and other individuals who are contracted to help support the city systems. Information/data and systems may only be used by authorized individuals to accomplish tasks related to their jobs. Any other use is strictly prohibited.

Data of a confidential nature must be protected and must not be disclosed without authorization. Unauthorized access, manipulation, disclosure, or secondary release of such data/information constitutes a security breach. Failure on the part of an employee to take reasonable care to prevent such access may be grounds for disciplinary action up to and including termination of employment.

City of Tigard Information Technology staff is granted access to information technology resources in order to facilitate their job activities. However, by using these resources, staff agrees to abide by all relevant City of Tigard policies and procedures, as well as all current federal, state, and local laws. These include but are not limited to personnel policies and procedures related to harassment, plagiarism, commercial use, security, unethical conduct, and laws prohibiting theft, copyright and licensing infringement, unlawful intrusions, and data privacy laws.

Information Technology staff is responsible for reviewing, understanding, and complying with all policies, procedures and laws related to access, acceptable use, and security of the City of Tigard information technology resources.

The City of Tigard recognizes the importance of preserving the privacy of users and data stored in information technology systems. Staff and 3rd party contractors must honor this principle by neither seeking to obtain unauthorized access to information technology systems, nor permitting or assisting any others in doing the same. Furthermore, staff and 3rd party contractors must not make or attempt to make any deliberate, unauthorized changes to data on an Information Technology system. Staff must not intercept or

Tigard Police Department

Policy Manual

Electronic Communication

attempt to intercept or access data communications not intended for that staff member, for example, by "promiscuous" network monitoring, running network sniffers, or otherwise tapping phone or network lines.

There may be occasions when users' information/data will need to be accessed without the users' permission, for example, accessing a user's email or data while they are absent and cannot be contacted. When these occasions arise the Information Technology staff member must obtain written permission from the Department director or City Manager prior to accessing the information/data. Staff must not conceal their identity when using Information Technology systems, except when the option of anonymous access is explicitly authorized. Staff are also prohibited from masquerading as or impersonating others or otherwise using a false identity.

Without specific authorization, staff may not remove or modify any City of Tigard owned or administered equipment or data from Information Technology systems.

Off Site Information Technology Equipment and Data Use Policy

Information technology equipment and data includes but is not limited to all individual computers, computing and telecommunications devices, telephones, all city records, and instructional materials.

Employees are required to obtain permission from their supervisor prior to taking computer equipment off site. Department directors are responsible for knowing who within their respective departments has possession of and the location of all information technology equipment taken off site.

If the equipment has been kept off site for more than one month, and the equipment has been used on the internet and/or files loaded or any external devices attached to the computer equipment, it shall not be reconnected to the city's network without first being examined by Information Technology staff.

Employees are responsible for taking reasonable precautions against theft or damage to the computer equipment. Data of a confidential nature must be protected and must not be disclosed without authorization. Confidential data or information should be transferred using a secure device that requires authentication to access. If possible, the data should also be encrypted. Unauthorized access, manipulation, disclosure, or secondary release of such data/information constitutes a security breach. Failure on the part of an employee to take reasonable care to prevent such access may be grounds for disciplinary action up to and including termination of employment.

Software installations are to be performed by Information Technology staff only. Only software owned by the city and approved by the Information Technology Division shall be installed on city computers. Installation of personal software on any city-owned equipment is expressly prohibited.

Computer equipment may not be used to download, copy, or store any copyrighted software, publications, music, video, or other content without permission from the copyright holder.

Any theft or damage to computer equipment is to be reported immediately to the Information Technology Division and your supervisor.

When computer equipment is returned to the city, the user is required to notify his supervisor, and to send a Help Desk ticket to Information Technology Division notifying them of the change of status of the computer equipment.

209.5 E-MAIL

E-mail is a communication tool provided to city employees to assist them in the performance of their job duties. Personal use of the city's e-mail system is not allowed.

The city's computers, email system and Internet connections may NOT be used to:

- Access a personal email account.
- Receive or send personal email.
- Visit social media sites (other than the city's sites).
- Perform personal business.
- Send email anonymously or without authorization.
- Support charitable, religious or political activities or causes (other than city-approved activities).
- Play games, stream music or stream personal videos.
- Download or install new programs, this requires departmental and IT approval.

City equipment may not be used at any time to access inappropriate sites or to transmit or receive inappropriate information. Pornography, offshore gambling and hate group sites are examples of inappropriate sites. Accessing these sites is a misuse of city property.

Use of Non-City (Personal) Computers/Tablets

Personal computer/tablet use is permitted only:

- During an employee's lunch period.
- During an employee's break period.

Non-city computers/tablets should be turned off during working hours except for lunch and break periods.

Employee Responsibility

If an employee receives an inappropriate e-mail, he or she must immediately respond to the sender with a copy of the city's warning message, found in I:\citywide\EMAIL WARNING.doc (Exhibit B). **A copy of the response, including the original sender's name and e-mail address, must be sent to the employee's supervisor.** This is to show the supervisor the employee made a good faith effort to dissuade the sender from sending inappropriate material. It also provides the employee protection if inappropriate materials are found in the employee's mailbox or hard drive.

If an employee receives a personal e-mail, he or she must immediately respond to the sender with a message notifying the sender the employee may not receive personal e-mail at the city. An example is available at I:\citywide\personal-mail.doc (Exhibit C).

Laws and Licenses Compliance

Users are required to comply with all software licenses, copyright laws, Oregon Government Standards and Practices Commission's guidelines, city policies, and state and federal laws when using the city's computers, sending or receiving e-mail or accessing or downloading information from the Internet.

Tigard Police Department

Policy Manual

Electronic Communication

Unauthorized duplication of copyrighted computer software violates the law and is contrary to the city's standards of conduct. Employees will not engage in nor make or use unauthorized software copies under any circumstances. Legally acquired software in sufficient quantities for all computers will be provided by the city's Information Technology Division to meet the legitimate software needs for city work. The city and its employees will comply with all license and purchase terms regulating the use of any software acquired or used.

Because copyright infringement is an unlawful act, the city will maintain strong internal controls to prevent the making or using of unauthorized software copies. Compliance with software licenses and copyright laws is required. Failure to comply with these standards shall be grounds for disciplinary action, up to and including termination.

System Security

All employees have a responsibility to take reasonable precautions to protect the city's computer system. Reasonable precautions include, but are not limited to, updating anti-virus software when requested by the Information Technology Division (IT) not allowing unauthorized access to the computer system, and safeguarding the employee's password.

If an employee becomes aware of a virus or the threat of a virus, the employee should immediately contact IT with the information. Information Technology will evaluate the risk and, if warranted, notify all employees of the precautions that need to be taken.

Email as a Public Record

Under Oregon's public records law, most electronic mail messages are clearly public records. The definition of public records in ORS 192.005(5) "includes, but is not limited to, a document, book, paper, photograph, file, sound recording, or machine readable electronic record, regardless of physical form or characteristics, made, received, filed or recorded in pursuance of law or in connection with the transaction of public business, whether or not confidential or restricted in use."

Under Oregon's public records law, most electronic mail messages created for business purposes are public records. Although some messages may not fall under the definition of public record, it is safest to assume all messages created could be considered public record. The only privacy an employee can expect is that afforded through disclosure exemptions. Email does not meet the definitions of public record may still have to be released as part of litigation. Since most messages are public records, the only privacy afforded government employees using government e-mail systems is minimal and an employee should have no expectation of privacy.

Public access and exemption from disclosure

E-mail is considered correspondence and like other forms of public records it must be made available to any member of the public upon request. Unless an e-mail message falls within one of the specific exemptions described in the public records statute, the e-mail record must be produced upon request. A person need not have a "legitimate" need for public records to be entitled to inspect them.

Please check with your supervisor, or the City Records Section, if you have a question on whether an electronic mail message should be provided to the public.

Retention and Disposition

Tigard Police Department

Policy Manual

Electronic Communication

The retention of records stored in electronic records systems, including e-mail systems, is governed by the city's retention schedule. If you have a question about the retention of a message, please contact staff in the City Records Section. There isn't one retention period that encompasses all email. Email is only a method of communication, so employees must evaluate each message to determine where it fits into the City's retention schedule. The City has adopted Oregon Administrative Rule 166-200, City General Records Retention Schedule. The schedule is available online at: <http://arcweb.sos.state.or.us/rules/OARS166/166200.html>.

Because copyright infringement is an unlawful act, the city will maintain strong internal controls to prevent the making or using of unauthorized software copies. Compliance with software licenses and copyright laws is required. Failure to comply with these standards shall be grounds for disciplinary action, up to and including termination.

An e-mail mailbox should not be used for long-term storage. If an e-mail falls within the definition of a public record it should be put into the appropriate file. Retention may be a paper file or in the city's information management system (Laserfiche). Printed messages should include any attachments and all header information, i.e. time and date, routing information, etc. It is the responsibility of the holder of the official record to make sure the file is updated. For example:

- An updated record's policy is e-mailed to all employees. It is the responsibility of the person sending the e-mail to keep the record copy.
- A citizen calls and leaves a detailed message regarding a pending file; the receptionist forwards the message through the email system. It is the responsibility of the person receiving the message to add the message to the file.
- E-mail related to a current project or issue may be retained on the system as a reference tool. Once the project is completed or the issue resolved the employee should verify all relevant e-mail is in the file and then delete the e-mail from their e-mail box.

E-mail is a form of correspondence and must be kept in accordance with state retention requirements. The retention schedule for electronic mail records incorporates several correspondence record series. Examples are:

Record Series	Retention Period	Action to take
Correspondence		
Ephemeral (junk mail)	Retain as needed	Read and delete
General	1 year	Read, print and delete
Financial	3 years	Read, print and delete
Policy and Historical	Permanent	Read, print and delete
Program	Retain for the same period as the program or functional records series to which it relates	Read, print and delete

Policy Compliance

Employees who violate any part of the *Computer Use, Electronic Mail and Internet Policy* may have e-mail access and Internet privileges suspended and may be subject to disciplinary action, up to and including termination of employment.

Exhibit C - Personal use of e-mail

"The City of Tigard does not permit personal use of their e-mail system. Please direct all your correspondence to my home e-mail address. Thank you."

Working on a Non-City Computer

Using a personal electronic device such as a PDA, iPhone or a network, to access city electronic communications and documents for work may make the personal electronic device subject to a records search. Personal electronic devices should not be used for working directly on city documents without the approval from your department director.

A thumb drive (also known as a flash drive, pen drive or memory stick) should not be used to transport electronic communications and documents for work on a personal electronic device as this may make the personal electronic device and thumb drive subject to a records search.

No personal thumb drives should be used on city computers without approval from IT. Sending electronic communications or documents to a personal email account or other online account may make the email account or other online account subject to records search.

Visual Private Network (VPN)

When using the city's VPN (a secure internet connection that connects outside computers to the city's network), no electronic work communication or documents should be downloaded to a personal device. If documents are downloaded to a personal device, this may subject the personal device to a records search. If work needs to be done on a local device outside of work, a city device should be borrowed after getting approval from your department director.

Even if an employee follows all city policies and does not download any documents to their device (personal computer, smartphone, PDA and any other electronic device) used to access the city's network or information, the employee's device might still be subject to a records search to confirm that no data was downloaded to the device.

Social Media (Facebook, Twitter, Texts or Other Social Networks)

City of Tigard employees must follow the city's personnel policies when posting to blogs, wikis or any other form of user generated media on behalf of the city. Information posted is public information.

Employees must obtain approval from their director to post to social websites on behalf of the city. Messages sent or received via social networking sites may fall under the public records law. Check with the city's records staff for records retention requirements.

Follow Copyright, Fair Use and Public Disclosure Laws

Employees may not provide or post confidential information. Permission must be obtained from the appropriate person or department before publishing information.

The Mayor Nicoli Memorial Fund

215.1 PURPOSE AND SCOPE

The purpose of this policy is to provide guidelines for the disbursement of funds to people in need, based on the below listed criteria and approval by the on-duty supervisor.

Private citizens fund this program, and it is titled *The Mayor Nicoli Memorial Fund*. When distributing funds, be sure to advise the recipient that the funds are from private donations to the *Mayor Nicoli Memorial Fund*.

215.2 PROCEDURE

Each patrol supervisor will be issued \$50 to disburse to people in need as a one-time assistance to him or her. This money may be used for such things as emergency gasoline, food, diapers, or other types of immediate needs that do not exceed \$50.

The fund is managed by the Chief's Confidential Executive Assistant. The fund manager will maintain a ledger identifying the initial balance, credits, debits, and cash on hand. The fund manager shall disburse funds to supervisors as prescribed above. The supervisor receiving the funds will acknowledge receipt by signing the ledger entry at the time of the disbursement.

When a supervisor disburses funds to a needy person, the individual receiving the funds will sign the supervisor's disbursement form acknowledging receipt. The supervisor shall note on the form the name of the person receiving the funds, the amount given, the date, and the general purpose of how the funds will be used.

Supervisors may replenish funds by contacting the fund manager. Supervisors will submit a monthly accounting of the funds to the fund manager. The Operations Division Commander will do a quarterly audit, and the Chief will audit the fund annually.

Questions regarding the administration of the program should be directed to your supervisor.

Staffing Levels

216.1 PURPOSE AND SCOPE

The purpose of this policy is to ensure that proper staffing is available for all shifts. The department intends to balance the employee's needs against the need to have flexibility and discretion in using personnel to meet operational needs. While personnel needs are important, the paramount concern is the department's need to meet operational requirements.

216.2 MINIMUM STAFFING LEVELS

Minimum staffing levels should result in the scheduling of at least three regular officers on duty during the morning and the graveyard shifts and four officers during the afternoon shift and on the graveyard shift on Fridays and Saturdays whenever possible. Patrol Lieutenants will ensure that at least one field supervisor is deployed during each watch, in addition to the Patrol Lieutenant.

216.2.1 SUPERVISION DEPLOYMENTS

In order to accommodate training and other unforeseen circumstances, an officer may be used as field supervisors in place of a field Sergeant.

With prior authorization from the Operations Division Commander, an officer may act as the Sergeant for a limited period of time.

If no decision is issued within 45 days, the person may seek review through the procedures set out in Oregon Revised Statutes 166.293(5).

Tigard Police Department

Policy Manual

or to the community at large, as a result of the applicant's mental or psychological state, as demonstrated by past pattern of behavior or participation in incidents involving unlawful violence or threats of unlawful violence.

218.5 ISSUED CONCEALED HANDGUN LICENSES

If the application for the license is approved, the Sheriff shall issue and mail or otherwise deliver to the applicant at the address shown on the application, within 45 days of the application, a wallet sized license bearing the photograph of the licensee. The license must be signed by the licensee and carried whenever the licensee carries a concealed handgun. Failure of a person who carries a concealed handgun also to carry a concealed handgun license is prima facie evidence that the person does not have such a license.

The Sheriff shall keep a record of all the licenses that are issued or renewed.

Unless revoked, an Oregon concealed handgun license is valid for a period of four years from the date on which it is issued.

218.5.1 LICENSE RESTRICTIONS

218.5.3 REVOCATION OF LICENSES

Any act or condition that would prevent the issuance of a license under ORS 166.291 as set out above, is cause for revoking a concealed handgun license.

A Sheriff may revoke a license by serving upon the licensee a notice of revocation. The notice must contain the grounds for the revocation and must be served either personally or by certified mail, restricted delivery. The notice and return of service shall be included in the file of the licensee. The revocation is effective upon the licensee's receipt of the notice.

Any peace officer or corrections officer may seize a concealed handgun license and return it to the issuing Sheriff when the license is held by a person who has been arrested or cited for a crime that can, or would otherwise disqualify the person from being issued a concealed handgun license. The issuing Sheriff shall hold the license for 30 days. If, after 30 days, the person is not charged with a crime the Sheriff shall return the license unless it is revoked.

A person whose license is revoked may seek review by following the procedure set forth in ORS 166.293.

218.5.4 LICENSE RENEWAL

A concealed handgun license is renewable by repeating the application process, except for the requirement to submit fingerprints and provide character references. An otherwise expired concealed handgun license continues to be valid for up to 45 days after the licensee applies for renewal if: the licensee applies for renewal before the original license expires; licensee has proof of the application for renewal; and the application for renewal has not been denied.

The Sheriff shall submit an annual report to the Department of State Police containing the number of concealed handgun licenses revoked during the reporting period and the reasons for the revocations.

Retired Peace Officer CCW Endorsements

220.1 PURPOSE AND SCOPE

The purpose of this policy is to outline the process and conditions associated with the issuance, revocation, and denial of a concealed weapon (CCW) endorsement for retired officers of this Department.

Oregon law authorizes honorably retired peace officers from Oregon or other states to carry a concealed weapon in Oregon. This provision does not authorize Oregon retired peace officers to carry concealed weapons in other states (Oregon Revised Statutes 166.260).

A "CCW Approved" endorsement is not required for an honorably retired officer to carry a concealed weapon in Oregon. The endorsement is, however, required for retired officers who wish to carry concealed weapons in other states in accordance with the provisions of 18 United States Code 926C and Policy Manual § 312.8. The Law Enforcement Officers Safety Act of 2004 exempts law enforcement officers from state laws prohibiting the carrying of concealed firearms. The law allows "qualified" law enforcement officers, current or retired, to carry a concealed firearm in any state without a concealed handgun permit. An officer must meet the federal minimum mandates to qualify to carry a concealed handgun out of state. The Tigard Police Department has adopted the Oregon Department of Public Safety Standards and Training program for implementation of this program to department personnel and retired police officers.

220.2 QUALIFIED RETIREES

Any full time sworn officer of this department who was authorized to, and did, carry a concealed firearm during the course and scope of their employment shall be issued an identification card with a "CCW Approved" endorsement upon honorable retirement. Under the Oregon Department of Public Safety Standards and Training guidelines, officers who meet the requirement will be issued a State Standard Firearms Qualification Card for retired officers who meet the minimum standards.

- (a) For the purpose of this policy, "Honorably retired" includes all peace officers who have qualified for, and accepted, a service or disability retirement; however, shall not include any officer who retires in lieu of termination. Additionally, "honorably retired" officers to be qualified must retire in good standing, prior to retirement had full arrest powers, has a non-forfeitable (vested) right to retirement benefits with employing agency, and during the prior 12 months met the state's firearms qualification.

220.3 MAINTAINING A CCW ENDORSEMENT

In order to maintain a "CCW Approved" endorsement on an identification card, the retired officer shall:

- (a) Qualify annually with the authorized firearm at a course approved by this department at the retired officer's expense. Upon verification by this department that all annual requirements have been met by an otherwise qualified retired officer, the "CCW Approved" endorsement shall be re-stamped and dated.

Tigard Police Department

Policy Manual

Retired Peace Officer CCW Endorsements

- (b) Remain subject to all department rules and policies as well as all federal, state, and local laws.
- (c) Only be authorized to carry a concealed firearm inspected and approved by the Department.
- (d) Only be authorized to carry a concealed firearm out of state which they have annually qualified for.

220.4 IDENTIFICATION CARD FORMAT

The identification card issued to any qualified and honorably retired officer shall be 2 x 3 inches and minimally contain the following:

- (a) Photograph of the retiree
- (b) Retiree's name, address and date of birth
- (c) Date of retirement
- (d) The Department name
- (e) A stamped endorsement "CCW Approved" along with the date by which the endorsement must be renewed (not more than one year) or, in the case in which a CCW endorsement has been denied or revoked, the identification card shall be stamped "No CCW Privilege". Retired officers who wish to carry a concealed weapon out of state will be required to carry the additional firearms qualification card as outlined by the Department of Public Safety Standards & Training (DPSST).

220.5 DENIAL OR REVOCATION OF CCW ENDORSEMENT

The CCW endorsement for any officer retired from this department may be denied or revoked only upon a showing of good cause.

Court Conflict Resolution

221.1 PURPOSE AND SCOPE

It is the purpose of this order to ensure that court conflicts be identified and resolved as soon as possible. The goal is to improve notification response to the agency that subpoenaed the Police Department employee through the implementation of a Court Coordinator, or if the Coordinator is unavailable, the appropriate on-duty supervisor. Conflict will be considered any court date set for a department member on a day where that member has another event scheduled. This will include, but not be limited to other court appearances, compassionate leave, family medical leave, training, sick day, vacation time, comp day and holiday time.

221.2 PROCEDURE

- A day shift supervisor will take over the listed responsibilities of the Court Coordinator
- Each supervisor assigned to day shift, swing shift, and graveyard will be required to update and maintain the computer generated shift schedule
- Upon receipt of subpoenas the Records Specialist will verify the court date listed on the subpoena with the listed Officers shift schedule maintained in the computer. Once verified, the Records Specialist will enter the subpoena information into the subpoena database.
- If a conflict is identified by the Records Specialist, they will be responsible for listing the conflict on the subpoena and placing subpoena in the officer's mailbox. The officer will then be responsible for notifying the Court Coordinator; or the shift supervisor if immediate action is required.
- The Court Coordinator will be responsible for contacting the subpoenaing agency, and advising them of the reason there is a conflict with that court date. This contact will be made by telephone, and written notice, or for DMV hearings, a T-Type will be sent. The written notice will be a fax form to the subpoenaing agency that requires a written return with acknowledgment of receipt and status of the subpoena.
- Should the Court Coordinator not be available to contact the subpoenaing agency within a reasonable time, the on-duty supervisor will assume the responsibility of contacting the subpoenaing agency by telephone and written notice.
- The Court Coordinator will contact the department member that was subpoenaed and advise of the current subpoena status.
- If the subpoena re-set is not granted, the department member is required to honor the subpoena for the date and time listed.
- The Court Coordinator will be responsible for maintaining all documents. This includes the subpoena, fax form or T-Types sent and received. These documents will be kept on file until the court dates have expired. Once the date has expired, the written documents will no longer be maintained. These files will be maintained in the Sergeant's Office.
- Supervisors of specialty assignments in the Services Division will be responsible for coordinating and making the appropriate notifications for all conflicts that arise within their effected units.

Tigard Police Department
Policy Manual

Chapter 3 - General Operations

Use of Force

300.1 PURPOSE AND SCOPE

This policy provides guidelines on the reasonable use of force. While there is no way to specify the exact amount or type of reasonable force to be applied in any situation, every member of this department is expected to use these guidelines to make such decisions in a professional, impartial and reasonable manner.

300.1.1 DEFINITIONS

Definitions related to this policy include:

Deadly force - Force reasonably anticipated and intended to create a substantial likelihood of causing death or very serious injury.

Force - The application of physical techniques or tactics, chemical agents or weapons to another person. It is not a use of force when a person allows him/herself to be searched, escorted, handcuffed or restrained.

300.2 POLICY

The use of force by law enforcement personnel is a matter of critical concern, both to the public and to the law enforcement community. Officers are involved on a daily basis in numerous and varied interactions and, when warranted, may use reasonable force in carrying out their duties.

Officers must have an understanding of, and true appreciation for, their authority and limitations. This is especially true with respect to overcoming resistance while engaged in the performance of law enforcement duties.

The Department recognizes and respects the value of all human life and dignity without prejudice to anyone. Vesting officers with the authority to use reasonable force and to protect the public welfare requires monitoring, evaluation and a careful balancing of all interests.

300.2.1 DUTY TO INTERCEDE

Any officer present and observing another officer using force that is clearly beyond that which is objectively reasonable under the circumstances shall, when in a position to do so, intercede to prevent the use of unreasonable force. An officer who observes another employee use force that exceeds the degree of force permitted by law should promptly report these observations to a supervisor.

300.3 USE OF FORCE

Officers shall use only that amount of force that reasonably appears necessary given the facts and circumstances perceived by the officer at the time of the event to accomplish a legitimate law enforcement purpose.

The reasonableness of force will be judged from the perspective of a reasonable officer on the scene at the time of the incident. Any evaluation of reasonableness must allow for the fact that officers are often forced to make split-second decisions about the amount of force

Tigard Police Department

Policy Manual

Use of Force

that reasonably appears necessary in a particular situation, with limited information and in circumstances that are tense, uncertain and rapidly evolving.

Given that no policy can realistically predict every possible situation an officer might encounter, officers are entrusted to use well-reasoned discretion in determining the appropriate use of force in each incident.

It is also recognized that circumstances may arise in which officers reasonably believe that it would be impractical or ineffective to use any of the tools, weapons or methods provided by the Department. Officers may find it more effective or reasonable to improvise their response to rapidly unfolding conditions that they are confronting. In such circumstances, the use of any improvised device or method must nonetheless be reasonable and utilized only to the degree that reasonably appears necessary to accomplish a legitimate law enforcement purpose.

While the ultimate objective of every law enforcement encounter is to avoid or minimize injury, nothing in this policy requires an officer to retreat or be exposed to possible physical injury before applying reasonable force.

300.3.1 USE OF FORCE TO EFFECT AN ARREST

An officer is justified in using force upon another person only when and to the extent that the officer reasonably believes it necessary (ORS 161.235):

- (a) To make an arrest or to prevent the escape from custody of an arrested person unless the officer knows that the arrest is unlawful; or
- (b) For self-defense or to defend a third person from what the officer reasonably believes to be the use or imminent use of force while making or attempting to make an arrest or while preventing or attempting to prevent an escape.

300.3.2 FACTORS USED TO DETERMINE THE REASONABLENESS OF FORCE

When determining whether to apply force and evaluating whether an officer has used reasonable force, a number of factors should be taken into consideration, as time and circumstances permit. These factors include, but are not limited to:

- (a) Immediacy and severity of the threat to officers or others.
- (b) The conduct of the individual being confronted, as reasonably perceived by the officer at the time.
- (c) Officer/subject factors (age, size, relative strength, skill level, injuries sustained, level of exhaustion or fatigue, the number of officers available vs. subjects).
- (d) The effects of drugs or alcohol.
- (e) Subject's mental state or capacity.
- (f) Proximity of weapons or dangerous improvised devices.
- (g) The degree to which the subject has been effectively restrained and his/her ability to resist despite being restrained.
- (h) The availability of other options and their possible effectiveness.
- (i) Seriousness of the suspected offense or reason for contact with the individual.
- (j) Training and experience of the officer.
- (k) Potential for injury to officers, suspects and others.
- (l) Whether the person appears to be resisting, attempting to evade arrest by flight or is attacking the officer.

Tigard Police Department

Policy Manual

Use of Force

- (m) The risk and reasonably foreseeable consequences of escape.
- (n) The apparent need for immediate control of the subject or a prompt resolution of the situation.
- (o) Whether the conduct of the individual being confronted no longer reasonably appears to pose an imminent threat to the officer or others.
- (p) Prior contacts with the subject or awareness of any propensity for violence.
- (q) Any other exigent circumstances.

300.3.3 PAIN COMPLIANCE TECHNIQUES

Pain compliance techniques may be effective in controlling a physically or actively resisting individual. Officers may only apply those pain compliance techniques for which they have successfully completed department-approved training. Officers utilizing any pain compliance technique should consider:

- (a) The degree to which the application of the technique may be controlled given the level of resistance.
- (b) Whether the person can comply with the direction or orders of the officer.
- (c) Whether the person has been given sufficient opportunity to comply.

The application of any pain compliance technique shall be discontinued once the officer determines that compliance has been achieved.

300.3.4 CAROTID CONTROL HOLD

The proper application of the carotid control hold may be effective in restraining a violent or combative individual. However, due to the potential for injury, the use of the carotid control hold is subject to the following:

- (a) The officer shall have successfully completed department-approved training in the use and application of the carotid control hold.
- (b) The carotid control hold may only be used when circumstances perceived by the officer at the time indicate that such application reasonably appears necessary to control a person in any of the following circumstances:
 - 1. The subject is violent or physically resisting.
 - 2. The subject, by words or actions, has demonstrated an intention to be violent and reasonably appears to have the potential to harm officers, him/herself or others.
- (c) The application of a carotid control hold on the following individuals should generally be avoided unless the totality of the circumstances indicates that other available options reasonably appear ineffective, or would present a greater danger to the officer, the subject or others, and the officer reasonably believes that the need to control the individual outweighs the risk of applying a carotid control hold:
 - 1. Females who are known to be pregnant
 - 2. Elderly individuals
 - 3. Obvious juveniles
- (d) Any individual who has had the carotid control hold applied, regardless of whether he/she was rendered unconscious, shall be promptly examined by paramedics or other qualified medical personnel and should be monitored until examined by paramedics or other appropriate medical personnel.

Tigard Police Department

Policy Manual

Use of Force

- (e) The officer shall inform any person receiving custody, or any person placed in a position of providing care, that the individual has been subjected to the carotid control hold and whether the subject lost consciousness as a result.
- (f) Any officer attempting or applying the carotid control hold shall promptly notify a supervisor of the use or attempted use of such hold.
- (g) The use or attempted use of the carotid control hold shall be thoroughly documented by the officer in any related reports.

300.4 DEADLY FORCE APPLICATIONS

Use of deadly force is justified in the following circumstances:

- (a) An officer may use deadly force to protect him/herself or others from what he/she reasonably believes would be an imminent threat of death or serious bodily injury.
- (b) An officer may use deadly force to stop a fleeing subject when the officer has probable cause to believe that the person has committed, or intends to commit, a felony involving the infliction or threatened infliction of serious bodily injury or death, and the officer reasonably believes that there is an imminent risk of serious bodily injury or death to any other person if the subject is not immediately apprehended. Under such circumstances, a verbal warning should precede the use of deadly force, where feasible.

Imminent does not mean immediate or instantaneous. An imminent danger may exist even if the suspect is not at that very moment pointing a weapon at someone. For example, an imminent danger may exist if an officer reasonably believes any of the following:

1. The person has a weapon or is attempting to access one and it is reasonable to believe the person intends to use it against the officer or another.
2. The person is capable of causing serious bodily injury or death without a weapon and it is reasonable to believe the person intends to do so.

300.4.1 SHOOTING AT OR FROM MOVING VEHICLES

Shots fired at or from a moving vehicle are rarely effective. Officers should move out of the path of an approaching vehicle instead of discharging their firearm at the vehicle or any of its occupants. An officer should only discharge a firearm at a moving vehicle or its occupants when the officer reasonably believes there are no other reasonable means available to avert the threat of the vehicle, or if deadly force other than the vehicle is directed at the officer or others.

Officers should not shoot at any part of a vehicle in an attempt to disable the vehicle.

300.5 REPORTING THE USE OF FORCE

Any use of force by a member of this department shall be documented promptly, completely and accurately in an appropriate report, depending on the nature of the incident. The officer should articulate the factors perceived and why he/she believed the use of force was reasonable under the circumstances. To collect data for purposes of training, resource allocation, analysis and related purposes, the Department may require the completion of additional report forms, as specified in department policy, procedure or law.

300.5.1 NOTIFICATION TO SUPERVISORS

Supervisory notification shall be made as soon as practicable following the application of force in any of the following circumstances:

Tigard Police Department

Policy Manual

Use of Force

- (a) The application caused a visible injury.
- (b) The application would lead a reasonable officer to conclude that the individual may have experienced more than momentary discomfort.
- (c) The individual subjected to the force complained of injury or continuing pain.
- (d) The individual indicates intent to pursue litigation.
- (e) Any application of the or control device.
- (f) Any application of a restraint device other than handcuffs, shackles or belly chains.
- (g) The individual subjected to the force was rendered unconscious.
- (h) An individual was struck or kicked.
- (i) An individual alleges any of the above has occurred.

300.6 MEDICAL CONSIDERATION

Prior to booking or release, medical assistance shall be obtained for any person who exhibits signs of physical distress, who has sustained visible injury, expresses a complaint of injury or continuing pain, or who was rendered unconscious. Any individual exhibiting signs of physical distress after an encounter should be continuously monitored until he/she can be medically assessed.

Based upon the officer's initial assessment of the nature and extent of the subject's injuries, medical assistance may consist of examination by fire personnel, paramedics, hospital staff or medical staff at the jail. If any such individual refuses medical attention, such a refusal shall be fully documented in related reports and, whenever practicable, should be witnessed by another officer and/or medical personnel. If a recording is made of the contact or an interview with the individual, any refusal should be included in the recording, if possible.

The on-scene supervisor, or if not available, the primary handling officer shall ensure that any person providing medical care or receiving custody of a person following any use of force is informed that the person was subjected to force. This notification shall include a description of the force used and any other circumstances the officer reasonably believes would be potential safety or medical risks to the subject (e.g., prolonged struggle, extreme agitation, impaired respiration).

Persons who exhibit extreme agitation, violent irrational behavior accompanied by profuse sweating, extraordinary strength beyond their physical characteristics and imperviousness to pain (sometimes called excited delirium), or who require a protracted physical encounter with multiple officers to be brought under control, may be at an increased risk of sudden death. Calls involving these persons should be considered medical emergencies. Officers who reasonably suspect a medical emergency should request medical assistance as soon as practicable and have medical personnel stage away if appropriate.

300.7 SUPERVISOR RESPONSIBILITY

When a supervisor is able to respond to an incident in which there has been a reported application of force, the supervisor is expected to:

- (a) Obtain the basic facts from the involved officers. Absent an allegation of misconduct or excessive force, this will be considered a routine contact in the normal course of duties.
- (b) Ensure that any injured parties are examined and treated.

Tigard Police Department

Policy Manual

Use of Force

- (c) When possible, separately obtain a recorded interview with the subject upon whom force was applied. If this interview is conducted without the person having voluntarily waived his/her *Miranda* rights, the following shall apply:
 - 1. The content of the interview should not be summarized or included in any related criminal charges.
 - 2. The fact that a recorded interview was conducted should be documented in a property or other report.
 - 3. The recording of the interview should be distinctly marked for retention until all potential for civil litigation has expired.
- (d) Once any initial medical assessment has been completed or first aid has been rendered, ensure that photographs have been taken of any areas involving visible injury or complaint of pain, as well as overall photographs of uninjured areas. These photographs should be retained until all potential for civil litigation has expired.
- (e) Identify any witnesses not already included in related reports.
- (f) Review and approve all related reports.
- (g) Determine if there is any indication that the subject may pursue civil litigation, the supervisor should complete and route a notification of a potential claim through the appropriate channels.
- (h) Evaluate the circumstances surrounding the incident and initiate an administrative investigation if there is a question of policy non-compliance or if for any reason further investigation may be appropriate.

In the event that a supervisor is unable to respond to the scene of an incident involving the reported application of force, the supervisor is still expected to complete as many of the above items as circumstances permit.

300.7.1 PATROL LIEUTENANT RESPONSIBILITY

The Patrol Lieutenant shall review each use of force by any personnel within his/her command to ensure compliance with this policy and to address any training issues.

Use of Force Review Boards

302.1 PURPOSE AND SCOPE

This policy establishes a process for the Tigard Police Department to review the use of force by its employees.

This review process shall be in addition to any other review or investigation that may be conducted by any outside or multi-agency entity having jurisdiction over the investigation or evaluation of the use of deadly force.

302.2 POLICY

The Tigard Police Department will objectively evaluate the use of force by its members to ensure that their authority is used lawfully, appropriately and is consistent with training and policy.

302.3 REMOVAL FROM LINE DUTY ASSIGNMENT

Generally, whenever an employee's actions or use of force in an official capacity, or while using department equipment, results in death or very serious injury to another, that employee will be placed in a temporary administrative assignment pending an administrative review. The Chief of Police may exercise discretion and choose not to place an employee in an administrative assignment in any case.

302.4 REVIEW BOARD

The Use of Force Review Board will be convened when the use of force by a member results in very serious injury or death to another.

The Use of Force Review Board will also investigate and review the circumstances surrounding every discharge of a firearm, whether the employee was on- or off-duty, excluding training or recreational use.

The Chief of Police may request the Use of Force Review Board to investigate the circumstances surrounding any use of force incident.

The Administration Division Commander will convene the Use of Force Review Board as necessary. It will be the responsibility of the Division Commander or supervisor of the involved employee to notify the Administration Division Commander of any incidents requiring board review. The involved employee's Division Commander or supervisor will also ensure that all relevant reports, documents and materials are available for consideration and review by the board.

302.4.1 COMPOSITION OF THE BOARD

The Administration Division Commander should select five Use of Force Review Board members from the following, as appropriate:

- Representatives of each division
- Commanding officer in the involved member's chain of command
- Training Coordinator
- Non-administrative supervisor

Tigard Police Department

Policy Manual

Use of Force Review Boards

- A peer officer
- A sworn peace officer from an outside law enforcement agency
- Department instructor for the type of weapon, device or technique used

The senior ranking command representative who is not in the same division as the involved employee will serve as chairperson.

302.4.2 RESPONSIBILITIES OF THE BOARD

The Use of Force Review Board is empowered to conduct an administrative review and inquiry into the circumstances of an incident.

The board members may request further investigation, request reports be submitted for the board's review, call persons to present information and request the involved employee to appear. The involved employee will be notified of the meeting of the board and may choose to have a representative through all phases of the review process.

The board does not have the authority to recommend discipline.

The Chief of Police will determine whether the board should delay its review until after completion of any criminal investigation, review by any prosecutorial body, filing of criminal charges, the decision not to file criminal charges or any other action. The board should be provided all relevant available material from these proceedings for its consideration.

The review shall be based upon those facts which were reasonably believed or known by the officer at the time of the incident, applying any legal requirements, department policies, procedures and approved training to those facts. Facts later discovered but unknown to the officer at the time shall neither justify nor call into question an officer's decision regarding the use of force.

Any questioning of the involved employee conducted by the board will be in accordance with the department's disciplinary procedures, the Personnel Complaints Policy, the current collective bargaining agreement and any applicable state or federal law.

The board shall make one of the following recommended findings:

- (a) The employee's actions were within department policy and procedure.
- (b) The employee's actions were in violation of department policy and procedure.

A recommended finding requires a majority vote of the board. The board may also recommend additional investigations or reviews, such as disciplinary investigations, training reviews to consider whether training should be developed or revised, and policy reviews, as may be appropriate. The board chairperson will submit the written recommendation to the Chief of Police.

The Chief of Police shall review the recommendation, make a final determination as to whether the employee's actions were within policy and procedure and will determine whether any additional actions, investigations or reviews are appropriate. The Chief of Police's final findings will be forwarded to the involved employee's Division Commander for review and appropriate action. If the Chief of Police concludes that discipline should be considered, a disciplinary process will be initiated.

At the conclusion of any additional reviews, copies of all relevant reports and information will be filed with the Chief of Police.

Handcuffing and Restraints

306.1 PURPOSE AND SCOPE

This policy provides guidelines for the use of handcuffs and other restraints during detentions and arrests.

306.2 POLICY

The Tigard Police Department authorizes the use of restraint devices in accordance with this policy, the Use of Force Policy and department training. Restraint devices shall not be used to punish, to display authority or as a show of force.

306.3 USE OF RESTRAINTS

Only members who have successfully completed Tigard Police Department-approved training on the use of restraint devices described in this policy are authorized to use these devices.

When deciding whether to use any restraint, officers should carefully balance officer safety concerns with factors that include, but are not limited to:

- The circumstances or crime leading to the arrest.
- The demeanor and behavior of the arrested person.
- The age and health of the person.
- Whether the person is known to be pregnant.
- Whether the person has a hearing or speaking disability. In such cases, consideration should be given, safety permitting, to handcuffing to the front in order to allow the person to sign or write notes.
- Whether the person has any other apparent disability.

306.3.1 RESTRAINT OF DETAINEES

Situations may arise where it may be reasonable to restrain an individual who may, after brief investigation, be released without arrest. Unless arrested, the use of restraints on detainees should continue only for as long as is reasonably necessary to assure the safety of officers and others. When deciding whether to remove restraints from a detainee, officers should continuously weigh the safety interests at hand against the continuing intrusion upon the detainee.

306.3.2 RESTRAINT OF PREGNANT PERSONS

Persons who are known to be pregnant should be restrained in the least restrictive manner that is effective for officer safety.

No person who is in labor shall be handcuffed or restrained except in extraordinary circumstances and only when a supervisor makes an individualized determination that such restraints are necessary to prevent escape or injury.

Tigard Police Department

Policy Manual

Handcuffing and Restraints

306.3.3 RESTRAINT OF JUVENILES

A juvenile under 14 years of age should not be restrained unless he/she is suspected of a dangerous felony or when the officer has a reasonable suspicion that the juvenile may resist, attempt escape, injure him/herself, injure the officer or damage property.

306.3.4 NOTIFICATIONS

Whenever an officer transports a person with the use of restraints other than handcuffs, the officer shall inform the jail staff upon arrival at the jail that restraints were used. This notification should include information regarding any other circumstances the officer reasonably believes would be potential safety concerns or medical risks to the subject (e.g., prolonged struggle, extreme agitation, impaired respiration) that may have occurred prior to, or during transportation to the jail.

306.4 APPLICATION OF HANDCUFFS OR PLASTIC CUFFS

Handcuffs, including temporary nylon or plastic cuffs, may be used only to restrain a person's hands to ensure officer safety.

Although recommended for most arrest situations, handcuffing is discretionary and not an absolute requirement of the Department. Officers should consider handcuffing any person they reasonably believe warrants that degree of restraint. However, officers should not conclude that in order to avoid risk every person should be handcuffed, regardless of the circumstances.

In most situations handcuffs should be applied with the hands behind the person's back. When feasible, handcuffs should be double-locked to prevent tightening, which may cause undue discomfort or injury to the hands or wrists.

In situations where one pair of handcuffs does not appear sufficient to restrain the individual or may cause unreasonable discomfort due to the person's size, officers should consider alternatives, such as using an additional set of handcuffs or multiple plastic cuffs.

Handcuffs should be removed as soon as it is reasonable or after the person has been searched and is safely confined within a detention facility.

306.5 APPLICATION OF SPIT HOODS/MASKS/SOCKS

Spit hoods/masks/socks are temporary protective devices designed to prevent the wearer from biting and/or transferring or transmitting fluids (saliva and mucous) to others.

Spit hoods may be placed upon persons in custody when the officer reasonably believes the person will bite or spit, either on a person or in an inappropriate place. They are generally used during application of a physical restraint, while the person is restrained, or during or after transport.

Officers utilizing spit hoods should ensure that the spit hood is fastened properly to allow for adequate ventilation and that the restrained person can breathe normally. Officers should provide assistance during the movement of restrained individuals due to the potential for impaired or distorted vision on the part of the individual. Officers should avoid comingling individuals wearing spit hoods with other detainees.

Spit hoods should not be used in situations where the restrained person is bleeding profusely from the area around the mouth or nose, or if there are indications that the person has a medical condition, such as difficulty breathing or vomiting. In such cases, prompt medical care should be obtained. If the person vomits while wearing a spit hood, the spit

Tigard Police Department

Policy Manual

Handcuffing and Restraints

hood should be promptly removed and discarded. Persons who have been sprayed with oleoresin capsicum (OC) spray should be thoroughly decontaminated including hair, head and clothing prior to application of a spit hood.

Those who have been placed in a spit hood should be continually monitored and shall not be left unattended until the spit hood is removed. Spit hoods shall be discarded after each use.

306.6 APPLICATION OF AUXILIARY RESTRAINT DEVICES

Auxiliary restraint devices include transport belts, waist or belly chains, transportation chains, leg irons and other similar devices. Auxiliary restraint devices are intended for use during long-term restraint or transportation. They provide additional security and safety without impeding breathing, while permitting adequate movement, comfort and mobility.

Only department-authorized devices may be used. Any person in auxiliary restraints should be monitored as reasonably appears necessary.

306.7 APPLICATION OF LEG RESTRAINT DEVICES

Leg restraints may be used to restrain the legs of a violent or potentially violent person when it is reasonable to do so during the course of detention, arrest or transportation. Only restraint devices approved by the department shall be used.

In determining whether to use the leg restraint, officers should consider:

- (a) Whether the officer or others could be exposed to injury due to the assaultive or resistant behavior of a suspect.
- (b) Whether it is reasonably necessary to protect the suspect from his/her own actions (e.g., hitting his/her head against the interior of the patrol unit, running away from the arresting officer while handcuffed, kicking at objects or officers).
- (c) Whether it is reasonably necessary to avoid damage to property (e.g., kicking at windows of the patrol unit).

306.7.1 GUIDELINES FOR USE OF LEG RESTRAINTS

When applying leg restraints the following guidelines should be followed:

- (a) If practicable, officers should notify a supervisor of the intent to apply the leg restraint device. In all cases, a supervisor shall be notified as soon as practicable after the application of the leg restraint device.
- (b) Once applied, absent a medical or other emergency, restraints should remain in place until the officer arrives at the jail or other facility or the person no longer reasonably appears to pose a threat.
- (c) Once secured, the person should be placed in a seated or upright position, secured with a seat belt, and shall not be placed on his/her stomach for an extended period, as this could reduce the person's ability to breathe.
- (d) The restrained person should be continually monitored by an officer while in the leg restraint. The officer should ensure that the person does not roll onto and remain on his/her stomach.
- (e) The officer should look for signs of labored breathing and take appropriate steps to relieve and minimize any obvious factors contributing to this condition.
- (f) When transported by ambulance/paramedic unit, the restrained person should be accompanied by an officer when requested by medical personnel. The transporting

Tigard Police Department

Policy Manual

Handcuffing and Restraints

officer should describe to medical personnel any unusual behaviors or other circumstances the officer reasonably believes would be potential safety or medical risks to the subject (e.g., prolonged struggle, extreme agitation, impaired respiration).

306.8 REQUIRED DOCUMENTATION

If an individual is restrained and released without an arrest, the officer shall document the details of the detention and the need for handcuffs or other restraints.

If an individual is arrested, the use of restraints other than handcuffs shall be documented in the related report. The officer should include, as appropriate:

- (a) The amount of time the suspect was restrained.
- (b) How the suspect was transported and the position of the suspect.
- (c) Observations of the suspect's behavior and any signs of physiological problems.
- (d) Any known or suspected drug use or other medical problems.

Control Devices and Techniques

308.1 PURPOSE AND SCOPE

This policy provides guidelines for the use and maintenance of control devices that are described in this policy.

308.2 POLICY

In order to control subjects who are violent or who demonstrate the intent to be violent, the Tigard Police Department authorizes officers to use control devices in accordance with the guidelines in this policy and the Use of Force Policy.

308.3 ISSUING, CARRYING AND USING CONTROL DEVICES

Control devices described in this policy may be carried and used by members of this department only if the device has been issued by the Department or approved by the Chief of Police or the authorized designee.

Only officers who have successfully completed department-approved training in the use of any control device are authorized to carry and use the device.

Control devices may be used when a decision has been made to control, restrain or arrest a subject who is violent or who demonstrates the intent to be violent, and the use of the device appears reasonable under the circumstances. When reasonable, a verbal warning and opportunity to comply should precede the use of these devices.

When using control devices, officers should carefully consider potential impact areas in order to minimize injuries and unintentional targets.

308.4 RESPONSIBILITIES

308.4.1 PATROL LIEUTENANT RESPONSIBILITIES

The Patrol Lieutenant may authorize the use of a control device by selected personnel or members of specialized units who have successfully completed the required training.

308.4.2 FIREARMS COORDINATOR RESPONSIBILITIES

The Firearms Coordinator shall control the inventory and issuance of all control devices and shall ensure that all damaged, inoperative, outdated or expended control devices or munitions are properly disposed of, repaired or replaced.

Every control device will be periodically inspected by the Firearms Coordinator or the designated instructor for a particular control device. The inspection shall be documented.

308.4.3 USER RESPONSIBILITIES

All normal maintenance, charging or cleaning shall remain the responsibility of personnel using the various devices.

Any damaged, inoperative, outdated or expended control devices or munitions, along with documentation explaining the cause of the damage, shall be returned to the Firearms Coordinator for disposition. Damage to City property forms shall also be prepared and

Tigard Police Department

Policy Manual

Control Devices and Techniques

forwarded through the chain of command, when appropriate, explaining the cause of damage.

308.5 BATON GUIDELINES

The need to immediately control a suspect must be weighed against the risk of causing serious injury. The head, neck, throat, spine, heart, kidneys and groin should not be intentionally targeted except when the officer reasonably believes the suspect poses an imminent threat of serious bodily injury or death to the officer or others.

When carrying a baton, uniformed personnel shall carry the baton in its authorized holder on the equipment belt. Plainclothes and non-field personnel may carry the baton as authorized and in accordance with the needs of their assignment or at the direction of their supervisor.

308.6 TEAR GAS GUIDELINES

Tear gas may be used for crowd control, crowd dispersal or against barricaded suspects based on the circumstances. Only the Patrol Lieutenant, Incident Commander or Crisis Response Unit Commander may authorize the delivery and use of tear gas, and only after evaluating all conditions known at the time and determining that such force reasonably appears justified and necessary.

When practicable, fire personnel should be alerted or summoned to the scene prior to the deployment of tear gas to control any fires and to assist in providing medical aid or gas evacuation if needed.

308.7 OLEORESIN CAPSICUM (OC) GUIDELINES

As with other control devices, oleoresin capsicum (OC) spray and pepper projectiles may be considered for use to bring under control an individual or groups of individuals who are engaging in, or are about to engage in violent behavior. Pepper projectiles and OC spray should not, however, be used against individuals or groups who merely fail to disperse or do not reasonably appear to present a risk to the safety of officers or the public.

308.7.1 OC SPRAY

Uniformed personnel carrying OC spray shall carry the device in its holster on the equipment belt. Plainclothes and non-field personnel may carry OC spray as authorized, in accordance with the needs of their assignment or at the direction of their supervisor.

308.7.2 PEPPER PROJECTILE SYSTEMS

Pepper projectiles are plastic spheres that are filled with a derivative of OC powder. Because the compressed gas launcher delivers the projectiles with enough force to burst the projectiles on impact and release the OC powder, the potential exists for the projectiles to inflict injury if they strike the head, neck, spine or groin. Therefore, personnel using a pepper projectile system should not intentionally target those areas, except when the officer reasonably believes the suspect poses an imminent threat of serious bodily injury or death to the officer or others.

Officers encountering a situation that warrants the use of a pepper projectile system shall notify a supervisor as soon as practicable. A supervisor shall respond to all pepper projectile system incidents where the suspect has been hit or exposed to the chemical agent. The supervisor shall ensure that all notifications and reports are completed as required by the Use of Force Policy.

Tigard Police Department

Policy Manual

Control Devices and Techniques

Each deployment of a pepper projectile system shall be documented. This includes situations where the launcher was directed toward the suspect, whether or not the launcher was used. Accidental discharges shall be promptly reported to a supervisor and documented on the appropriate report form. Only non-incident use of a pepper projectile system, such as training and product demonstrations, is exempt from the reporting requirement.

308.7.3 PATROL SUPERVISOR'S RESPONSIBILITIES

- (a) The Patrol Supervisor may authorize the use of a control device by selected personnel or members of specialized units provided the person(s) authorized has/have the required training. The request for a control device should be made through the Patrol Supervisor.
- (b) The Patrol Supervisor shall investigate and document the use of control devices as outlined in Policy Manual § 300.4 and 300.5.
- (c) The Patrol Supervisor shall ensure briefing training on the use of control devices is provided as needed.

308.7.4 TREATMENT FOR OC SPRAY EXPOSURE

Persons who have been sprayed with or otherwise affected by the use of OC should be promptly provided with clean water to cleanse the affected areas. Those persons who complain of further severe effects shall be examined by appropriate medical personnel.

308.7.5 PROGRAM COORDINATOR RESPONSIBILITIES

The Defensive Tactics Coordinator and the Firearms Coordinator or their designee shall control the inventory and shall issue all control devices respectively. All damaged, inoperative and/or expended control devices shall be returned to the responsible person for disposition, repair or replacement.

308.7.6 MAINTENANCE RESPONSIBILITY

All normal maintenance, charging or cleaning shall remain the responsibility of personnel using the various devices.

308.8 POST-APPLICATION NOTICE

Whenever tear gas or OC has been introduced into a residence, building interior, vehicle or other enclosed area, officers should provide the owners or available occupants with notice of the possible presence of residue that could result in irritation or injury if the area is not properly cleaned. Such notice should include advisement that clean up will be at the owner's expense. Information regarding the method of notice and the individuals notified should be included in related reports.

308.9 REPORTING USE OF CONTROL DEVICES AND TECHNIQUES

Any application of a control device and/or technique listed within this section shall be documented pursuant to Policy Manual § 300.4 and 300.5.

308.10 KINETIC ENERGY PROJECTILE GUIDELINES

This department is committed to reducing the potential for violent confrontations. Kinetic energy projectiles, when used properly, are less likely to result in death or serious physical injury and can be used in an attempt to de-escalate a potentially deadly situation.

Tigard Police Department

Policy Manual

Control Devices and Techniques

308.10.1 DEPLOYMENT AND USE

Only department-approved kinetic energy munitions shall be carried and deployed. Approved munitions may be used to compel an individual to cease his/her actions when such munitions present a reasonable option.

Officers are not required or compelled to use approved munitions in lieu of other reasonable tactics if the involved officer determines that deployment of these munitions cannot be done safely. The safety of hostages, innocent persons and officers takes priority over the safety of subjects engaged in criminal or suicidal behavior.

Circumstances appropriate for deployment include, but are not limited to, situations in which:

- (a) The suspect is armed with a weapon and the tactical circumstances allow for the safe application of approved munitions.
- (b) The suspect has made credible threats to harm him/herself or others.
- (c) The suspect is engaged in riotous behavior or is throwing rocks, bottles or other dangerous projectiles at people and/or officers.
- (d) There is probable cause to believe that the suspect has already committed a crime of violence and is refusing to comply with lawful orders.

308.10.2 DEPLOYMENT CONSIDERATIONS

Before discharging projectiles, the officer should consider such factors as:

- (a) Distance and angle to target.
- (b) Type of munitions employed.
- (c) Type and thickness of subject's clothing.
- (d) The subject's proximity to others.
- (e) The location of the subject.
- (f) Whether the subject's actions dictate the need for an immediate response and the use of control devices appears appropriate.

A verbal warning of the intended use of the device should precede its application, unless it would otherwise endanger the safety of officers or when it is not practicable due to the circumstances. The purpose of the warning is to give the individual a reasonable opportunity to voluntarily comply and to warn other officers and individuals that the device is being deployed.

Officers should keep in mind the manufacturer's recommendations and their training regarding effective distances and target areas. However, officers are not restricted solely to use according to manufacturer recommendations. Each situation must be evaluated on the totality of circumstances at the time of deployment.

The need to immediately incapacitate the subject must be weighed against the risk of causing serious injury or death. The head and neck should not be intentionally targeted, except when the officer reasonably believes the suspect poses an imminent threat of serious bodily injury or death to the officer or others.

308.10.3 SAFETY PROCEDURES

Shotguns specifically designated for use with kinetic energy projectiles will be specially marked in a manner that makes them readily identifiable as such.

Tigard Police Department

Policy Manual

Control Devices and Techniques

Officers will inspect the shotgun and projectiles at the beginning of each shift to ensure that the shotgun is in proper working order and the projectiles are of the approved type and appear to be free from defects.

When it is not in use, the shotgun will be unloaded and properly and securely stored in the vehicle. When deploying the kinetic energy projectile shotgun, the officer shall visually inspect the kinetic energy projectiles to ensure that conventional ammunition is not being loaded into the shotgun.

308.11 TRAINING FOR CONTROL DEVICES

The Training Coordinator shall ensure that all personnel who are authorized to carry a control device have been properly trained and certified to carry the specific control device and are retrained or recertified as necessary.

- (a) Proficiency training shall be monitored and documented by a certified, control-device weapons or tactics instructor.
- (b) All training and proficiency for control devices will be documented in the officer's training file.
- (c) Officers who fail to demonstrate proficiency with the control device or knowledge of this agency's Use of Force Policy will be provided remedial training. If an officer cannot demonstrate proficiency with a control device or knowledge of this agency's Use of Force Policy after remedial training, the officer will be restricted from carrying the control device and may be subject to discipline.

308.12 REPORTING USE OF CONTROL DEVICES AND TECHNIQUES

Any application of a control device or technique listed in this policy shall be documented in the related incident report and reported pursuant to the Use of Force Policy.

Taser Policy

309.1 PURPOSE AND SCOPE

This policy provides guidelines for the issuance and use of TASER® devices.

309.2 POLICY

The TASER device is intended to control a violent or potentially violent individual, while minimizing the risk of serious injury. The appropriate use of such a device should result in fewer serious injuries to officers and suspects.

309.2.1 DIRECTIVE SPECIFIC DEFINITIONS

The TASER cartridge - A device that contains two probes, connected to a light gauge wire that is propelled and attaches to the subject upon activation of the TASER.

Drive stun - The procedure of using the TASER with a spent cartridge or no cartridge to make physical contact with a subject and deliver energy.

Immediate cover - A member who stands ready to deploy additional control if needed. (e.g. the TASER is ineffective or it fails to function properly).

309.3 ISSUANCE AND CARRYING TASER DEVICES

Only members who have successfully completed department-approved training may be issued and carry the TASER device.

TASER devices are issued for use during a member's current assignment. Those leaving a particular assignment may be required to return the device to the department's inventory.

Officers shall only use the TASER device and cartridges that have been issued by the Department. Uniformed officers who have been issued the TASER device shall wear the device in an approved holster on their person. Non-uniformed officers may secure the TASER device in the driver's compartment of their vehicle.

Members carrying the TASER device should perform a spark test on the unit prior to every shift.

When carried while in uniform, officers shall carry the TASER device in a weak-side holster on the side opposite the duty weapon.

- (a) All TASER devices shall be clearly and distinctly marked to differentiate them from the duty weapon and any other device.
- (b) Whenever practicable, officers should carry two or more cartridges on their person when carrying the TASER device.
- (c) Officers shall be responsible for ensuring that their issued TASER device is properly maintained and in good working order.
- (d) Officers should not hold both a firearm and the TASER device at the same time.

Tigard Police Department

Policy Manual

Taser Policy

309.4 VERBAL AND VISUAL WARNINGS

A verbal warning of the intended use of the TASER device should precede its application, unless it would otherwise endanger the safety of officers or when it is not practicable due to the circumstances. The purpose of the warning is to:

- (a) Provide the individual with a reasonable opportunity to voluntarily comply.
- (b) Provide other officers and individuals with a warning that the TASER device may be deployed.

If, after a verbal warning, an individual is unwilling to voluntarily comply with an officer's lawful orders and it appears both reasonable and feasible under the circumstances, the officer may, but is not required to, display the electrical arc (provided that a cartridge has not been loaded into the device), or the laser in a further attempt to gain compliance prior to the application of the TASER device. The aiming laser should never be intentionally directed into the eyes of another as it may permanently impair his/her vision.

The fact that a verbal or other warning was given or the reasons it was not given shall be documented by the officer deploying the TASER device in the related report.

309.5 USE OF THE TASER DEVICE

The TASER device has limitations and restrictions requiring consideration before its use. The TASER device should only be used when its operator can safely approach the subject within the operational range of the device. Although the TASER device is generally effective in controlling most individuals, officers should be aware that the device may not achieve the intended results and be prepared with other options.

309.5.1 APPLICATION OF THE TASER DEVICE

The TASER device may be used in any of the following circumstances, when the circumstances perceived by the officer at the time indicate that such application is reasonably necessary to control a person:

- (a) The subject is violent or is physically resisting.
- (b) The subject has demonstrated, by words or action, an intention to be violent or to physically resist, and reasonably appears to present the potential to harm officers, him/herself or others.
- (c) Mere flight from a pursuing officer, without other known circumstances or factors, is not good cause for the use of the TASER device to apprehend an individual.
- (d) The Taser shall not be used on handcuffed suspects unless the subject is actively engaging in aggressive physical resistance. Members should obtain, when time permits, supervisory authorization before deploying the Taser on a handcuffed suspect. If used, a supervisor will be notified immediately. An exception may be utilized in place of other physical control procedures when a handcuffed subject refuses or physically resists being placed in a police vehicle. In this case, only a drive stun is authorized and when, if practical, a supervisor is notified and approves. The suspect should be warned and the Taser demonstrated with a spark test before any application. The suspect shall be given every opportunity to comply before being actually tazed.

309.5.2 SPECIAL DEPLOYMENT CONSIDERATIONS

The use of the TASER device on certain individuals should generally be avoided unless the totality of the circumstances indicates that other available options reasonably appear

Tigard Police Department

Policy Manual

Taser Policy

ineffective or would present a greater danger to the officer, the subject or others, and the officer reasonably believes that the need to control the individual outweighs the risk of using the device. This includes:

- (a) Individuals who are known to be pregnant.
- (b) Elderly individuals or obvious juveniles.
- (c) Individuals with obviously low body mass.
- (d) Individuals who are handcuffed or otherwise restrained.
- (e) Individuals who have been recently sprayed with a flammable chemical agent or who are otherwise in close proximity to any known combustible vapor or flammable material, including alcohol-based oleoresin capsicum (OC) spray.
- (f) Individuals whose position or activity may result in collateral injury (e.g., falls from height, operating vehicles).

Because the application of the TASER device in the drive-stun mode (i.e., direct contact without probes) relies primarily on pain compliance, the use of the drive-stun mode generally should be limited to supplementing the probe-mode to complete the circuit, or as a distraction technique to gain separation between officers and the subject, thereby giving officers time and distance to consider other force options or actions.

The TASER device shall not be used to psychologically torment, elicit statements or to punish any individual.

309.5.3 TARGETING CONSIDERATIONS

Reasonable efforts should be made to target lower center mass and avoid the head, neck, chest and groin. If the dynamics of a situation or officer safety do not permit the officer to limit the application of the TASER device probes to a precise target area, officers should monitor the condition of the subject if one or more probes strikes the head, neck, chest or groin until the subject is examined by paramedics or other medical personnel.

309.5.4 MULTIPLE APPLICATIONS OF THE TASER DEVICE

Officers should apply the TASER device for only one standard cycle and then evaluate the situation before applying any subsequent cycles. Multiple applications of the TASER device against a single individual are generally not recommended and should be avoided unless the officer reasonably believes that the need to control the individual outweighs the potentially increased risk posed by multiple applications.

If the first application of the TASER device appears to be ineffective in gaining control of an individual, the officer should consider certain factors before additional applications of the TASER device, including:

- (a) Whether the probes are making proper contact.
- (b) Whether the individual has the ability and has been given a reasonable opportunity to comply.
- (c) Whether verbal commands, other options or tactics may be more effective.

Officers should generally not intentionally apply more than one TASER device at a time against a single subject.

Tigard Police Department

Policy Manual

Taser Policy

309.5.5 DANGEROUS ANIMALS

The TASER device may be deployed against an animal as part of a plan to deal with a potentially dangerous animal, such as a dog, if the animal reasonably appears to pose an imminent threat to human safety and alternative methods are not reasonably available or would likely be ineffective.

309.5.6 OFF-DUTY CONSIDERATIONS

Officers are not authorized to carry department TASER devices while off-duty.

Officers shall ensure that TASER devices are secured while in their homes, vehicles or any other area under their control, in a manner that will keep the device inaccessible to others.

309.6 DOCUMENTATION

Officers shall document all TASER device discharges in the related arrest/crime report and the Force Data Collection report form. Notification shall also be made to a supervisor in compliance with the Use of Force Policy. Unintentional discharges, pointing the device at a person, laser activation and arcing the device will also be documented on the report form.

309.6.1 HANDHELD TASER DEVICE (X26, M26, X3) MEDICAL TREATMENT AND XREP MEDICAL TREATMENT

HANDHELD TASER DEVICE TREATMENT

When the handheld TASER device (X26, M26, X3) is deployed on a person, other than those listed above in required medical treatment categories, using:

Drive stun mode: Tualatin Valley Fire and Rescue personnel will not be summoned to the scene unless medical treatment is necessary.

Probe deployment mode: Only emergency room staff or other trained medical personnel may remove the TASER probes that are embedded in soft tissue areas such as the neck, face and groin.

If the probes are embedded in the skin in other parts of the body, they may be removed by officers using protective gloves and swabbing the skin with alcohol wipes.

If the probes are not embedded in the skin, Tualatin Valley Fire & Rescue will not be summoned unless other medical treatment is necessary (probes may be attached to clothing only).

XREP MEDICAL TREATMENT

When the XREP is deployed on a person, paramedics from Tualatin Valley Fire & Rescue or other medically trained personnel shall be summoned to the scene by a supervisor of an officer present at the scene.

- (a) If the person is cleared by medically trained personnel, an officer will transport the person to the nearest hospital to have the XREP removed from the person in accordance with established procedures.
- (b) If the person is transported to the hospital by medically trained personnel, the officer will follow the person to the hospital to ensure that XREP is removed in accordance with established procedures.

Tigard Police Department

Policy Manual

Taser Policy

- (c) The procedures for removal of the XREP will be found in the container with the XREP cartridges. The procedures will be updated in accordance with recommendation of TASER International by the TASER Coordinator as they become available.

309.7 RESPONSIBILITY, ACCOUNTABILITY AND CONTROL

Member Responsibilities

Members carrying the M-26 and X-26 TASER shall ensure that the M-26 and X-26 TASERS are operational by conducting a spark test at the beginning of each shift. Units failing the spark test will be retested after a battery change. If they still fail, they shall be taken out of service, appropriately marked and a memo or email sent to the TASER Coordinator detailing the problem and identifying the specific TASER by serial number or department tracking number. Members carrying the X-26 TASER will also check the battery level at the beginning of each shift and ensure that the battery charge meets or exceeds recommended levels of 20 percent remaining battery life. Batteries at or below 20 percent shall be turned into a TASER instructor or Coordinator for a replacement. Batteries that have been turned in shall be used for training purposes. Rechargeable batteries shall be placed back in the charger.

Supervisor Responsibilities

Supervisors shall ensure that all pertinent information is documented in the appropriate reports and that all appropriate evidence is collected, following the use of the TASER. The supervisor will also complete a Use of Force Review Report. The Use of Force Review Report will outline the circumstances that lead up to the TASER deployment along with steps taken after deployment. The Use of Force Review Report will indicate that the supervisor has reviewed all of the relevant police reports and that they are complete to include, but not be limited to the following information:

- (a) The cover member information.
- (b) Actions of the suspect(s) and member(s) before and after deployment.
- (c) The pre-deployment warnings

The supervisor will also make a recommendation on whether the deployment was within policy or not within policy. The Use of Force Review Report will be forwarded through channels to the Assistant Chief of Police.

Taser Coordinator Responsibilities

The TASER Coordinator is responsible for the following:

- (a) Procurement, maintenance and issuance of the TASERS and associated equipment.
- (b) The training, certification and recertification of members in the use of the TASER.

- (c) An annual review of the TASER program by January 1st of the following year. The review will include an analysis of all deployments, training and examination of the TASER policy. At the completion of the review, the TASER Coordinator will prepare a written document outlining the results and forward it to the Training Coordinator for submission to the Chief's office.
- (d) Ensure that each TASER is downloaded after any deployment outside of training.

309.8 SUPERVISOR RESPONSIBILITIES

When possible, supervisors should respond to calls when they reasonably believe there is a likelihood the TASER device may be used. A supervisor should respond to all incidents where the TASER device was activated.

A supervisor should review each incident where a person has been exposed to an activation of the TASER device. The device's onboard memory should be downloaded through the data port by a TASER Coordinator or their designee and saved with the related Use of Force Review. Photographs of probe sites should be taken and witnesses interviewed.

309.9 TRAINING

Personnel who are authorized to carry the TASER device shall be permitted to do so only after successfully completing the initial department-approved training. Any personnel who have not carried the TASER device as a part of their assignment for a period of six months or more shall be recertified by a department-approved TASER device instructor prior to again carrying or using the device.

Proficiency training for personnel who have been issued TASER devices should occur every year. A reassessment of an officer's knowledge and/or practical skill may be required at any time if deemed appropriate by the Training Coordinator. All training and proficiency for TASER devices will be documented in the officer's training file.

Command staff, supervisors and investigators should receive TASER device training as appropriate for the investigations they conduct and review.

Officers who do not carry TASER devices should receive training that is sufficient to familiarize them with the device and with working with officers who use the device.

The Training Coordinator is responsible for ensuring that all members who carry TASER devices have received initial and annual proficiency training. Periodic audits should be used for verification.

Application of TASER devices during training could result in injury to personnel and should not be mandatory for certification.

The Training Coordinator should ensure that all training includes:

- (a) A review of this policy.
- (b) A review of the Use of Force Policy.
- (c) Performing weak-hand draws or cross-draws to reduce the possibility of accidentally drawing and firing a firearm.
- (d) Target area considerations, to include techniques or options to reduce the accidental application of probes near the head, neck, chest and groin.
- (e) Handcuffing a subject during the application of the TASER device and transitioning to other force options.

Assign the Companion Officer to transport the involved officer to a neutral location. If the involved officer is transported to a hospital, assign a Companion Officer to accompany them. Under no circumstances should involved officers be allowed or required to operate a motor vehicle after being involved in a deadly force incident.

310.5.4 MEDIA RELATIONS

A press release shall be prepared by the Public Information Officer (or Watch Commander in the PIO's absence) with input and concurrence from the agency representative responsible for each phase of the investigation. This release will be available to the Division Commander(s) and Public Information Officer in the event of inquiries from the media.

It will be the policy of this department to not release the identities of involved officers absent their consent or as required by law. 2. Have received training in counseling and in providing emotional and moral support to public safety personnel or emergency services personnel who have been involved in emotionally traumatic incidents by reason of their employment.

Care should be taken to preserve the integrity of any physical evidence present on the officer's, equipment and clothing (e.g., blood, fingerprints) until investigators or lab personnel can properly retrieve it.

Detectives shall make reasonable accommodations to the officer's physical and emotional needs.

Each involved officer shall be given reasonable paid administrative leave following an officer-involved shooting. An officer who uses deadly force that results in the death of a person shall not be returned to a duty assignment that place him/her in a situation in which he/she has to use deadly force until at least 72 hours immediately following the incident (ORS 181.789). It shall be the responsibility of the Patrol Lieutenant to make schedule adjustments to accommodate such leave.

Tigard Police Department

Policy Manual

Officer-Involved Shooting

310.6 THE SHOOTING INCIDENT CRIMINAL INVESTIGATION

310.6.1 DETECTIVE PERSONNEL

Once notified of an officer-involved shooting, it shall be the responsibility of the Criminal Investigation Section supervisor to assign appropriate detective personnel to handle the investigation of related crimes in compliance with the Officer-Involved Shooting Checklist. Detectives will be assigned to work with the District Attorney's Office and may be assigned to separately handle the investigation of any related crimes not being investigated under the direction of the District Attorney's Office.

All related departmental reports except administrative and/or privileged reports will be forwarded to the designated detective supervisor for approval. Privileged reports shall be maintained exclusively by those personnel authorized such access. Administrative reports will be forwarded to the appropriate Division Commander.

Detective Unit

Investigative personnel arriving at an incident scene will report to the on-scene commander and:

- (a) Assume operational command of the scene, relieving the Patrol Supervisor in person after a briefing, and then notifying dispatch via radio so all assigned are aware. The Patrol Supervisor will then assist the Detective or Detective Supervisor as directed. A designated investigator will check the firearm of all officers who were present at the time of the incident to ensure that all discharged firearms are identified and collected, and to specifically document these weapons which were not fired.
- (b) Assist designated outside agency investigators with their investigation and interview of potential witnesses as directed by the on-scene commander.
- (c) Assist designated outside agency investigators, as requested, by securing evidence, that will by its nature, diminish in time. This evidence may include but is not limited to:
 - Blood samples from all involved parties
 - Urine samples from all involved parties
 - Photographs of the involved parties as they were dressed during the incident

310.6.2 CRIMINAL INVESTIGATION

It shall be the policy of this department to utilize the District Attorney's Office to provide guidance in a criminal investigation into the circumstances of any officer-involved shooting involving injury or death.

If available, detective personnel from this department may be assigned to "partner" with investigators from the interagency investigative team so as to not duplicate efforts in related criminal investigations.

Once public safety issues have been addressed, criminal investigators will be given the next opportunity to interview involved officers in order to provide them with an opportunity to give a voluntary statement. The following shall be considered for the involved officer:

- (a) Supervisors and Professional Standards Unit personnel should not participate directly in any voluntary interview of officers. This will not prohibit such personnel from monitoring such interviews or indirectly providing areas for inquiry.

Tigard Police Department

Policy Manual

Officer-Involved Shooting

- (b) If requested, any involved officer will be afforded the opportunity to consult individually with a representative of his/her choosing or an attorney, prior to speaking with criminal investigators. However, in order to maintain the integrity of each individual officer's statement, involved officers shall not consult or meet with a representative or attorney collectively or in groups prior to being interviewed.
- (c) Any voluntary statement provided by the officer(s) will be made available for inclusion in the administrative or other related investigations.
- (d) Absent consent from the involved officer or as required by law, no administratively coerced statement(s) will be provided to any criminal investigators.

310.6.3 REPORTS BY INVOLVED OFFICERS

In the event that suspects remain outstanding or subject to prosecution for related offenses, this department shall retain the authority to require involved officers to provide sufficient information for related criminal reports to facilitate the apprehension and prosecution of those individuals.

Due to the traumatic nature of incidents involving use of deadly force, the officer will not be required to give a formal statement of the incident prior to twenty-four (24) hours after the incident. The twenty-four (24) hour period will allow the officer time to prepare for the statement and to organize his/her thoughts for an accurate and complete report. The formal statement or report refers to a lengthy report of the entire incident.

While the involved officer may write the report, it is generally recommended that such reports be completed by assigned investigators who should interview involved officers as victims/witnesses. Since the purpose of these reports will be to facilitate criminal prosecution, statements of involved officers should focus on evidence to establish the elements of criminal activities by involved suspects. Care should be taken not to duplicate information provided by involved officers in other reports.

Nothing in this section shall be construed to deprive an involved officer of the right to consult with legal counsel prior to completing any such criminal report.

Reports related to the prosecution of criminal suspects will be processed according to normal procedures, but should also be included for reference in the investigation of the officer-involved shooting.

310.6.4 WITNESS IDENTIFICATION AND INTERVIEWS

Because potential witnesses to an officer-involved shooting or other major incident may be lost or the integrity of their statements compromised with the passage of time, a supervisor should take reasonable steps to promptly coordinate with criminal investigators to utilize available personnel for the following:

- (a) Identify all persons present at the scene and in the immediate area.
 - 1. When feasible, a recorded statement should be obtained from those persons who claim not to have witnessed the incident but who were present at the time it occurred.
 - 2. Any potential witness who is unwilling or unable to remain available for a formal interview should not be detained absent reasonable suspicion to detain or probable cause to arrest. Without detaining the individual for the sole purpose of identification, officers should attempt to identify the witness prior to his/her departure.

Tigard Police Department

Policy Manual

Officer-Involved Shooting

- (b) Witnesses who are willing to provide a formal interview should be asked to meet at a suitable location where criminal investigators may obtain a recorded statement. Such witnesses, if willing, may be transported by department personnel.
 - 1. A written, verbal or recorded statement of consent should be obtained prior to transporting a witness in a department vehicle. When the witness is a minor, consent should be obtained from the parent or guardian, if available, prior to transportation.
- (c) Available personnel should be assigned to promptly contact the suspect's family and associates to obtain any available and untainted background information about the suspect's activities and state of mind prior to contact with officers.

310.7 ADMINISTRATIVE INVESTIGATION

In addition to all other investigations associated with an officer-involved shooting, this department will conduct an internal administrative investigation to determine conformance with department policy. This investigation will be conducted under the supervision of the Professional Standards Unit and will be considered a confidential peace officer personnel file.

- (a) Any officer involved in a shooting may be administratively compelled to provide a blood sample for alcohol/drug screening. Absent consent from the officer, such compelled samples and the results of any such testing shall not be disclosed to any criminal investigative agency.
- (b) If any officer has voluntarily elected to provide a statement to criminal investigators, the assigned administrative investigator should review that statement before proceeding with any further interview of that involved officer.
 - 1. If a further interview of the officer is deemed necessary to determine policy compliance, care should be taken to limit the inquiry to new areas with minimal, if any, duplication of questions addressed in the voluntary statement. The involved officer shall be provided with a copy of his or her prior statement before proceeding with any subsequent interview(s).
- (c) In the event that an involved officer has elected to not provide criminal investigators with a voluntary statement, or if there are additional issues that were not covered in the criminal investigation, the assigned administrative investigator shall conduct an administrative interview to determine all relevant information.
 - 1. Although this interview should not be unreasonably delayed, care should be taken to ensure that the officer's physical and psychological needs have been addressed before commencing the interview.
 - 2. If requested, the officer shall have the opportunity to select an uninvolved representative to be present during the interview. However, in order to maintain the integrity of each individual officer's statement, involved officers shall not consult or meet with a representative or attorney collectively or in groups prior to being interviewed.
 - 3. Administrative interview(s) should be recorded by the investigator (the officer may also record the interview).
 - 4. The officer shall be informed of all constitutional *Miranda* rights and, assuming no voluntary waiver, will then be given an administrative order to provide full and truthful answers to all questions. The officer shall be informed, however, that the interview will be for administrative purposes only and that the statement cannot be used criminally (The *Garrity* admonishment).

Tigard Police Department

Policy Manual

Officer-Involved Shooting

5. The administrative interview shall be considered part of the officer's confidential personnel file.
6. The Professional Standards Unit shall compile all relevant information and reports necessary for the Department to determine compliance with applicable policies.
7. The completed administrative investigation shall be submitted to the Use of Deadly Force Review Board, which will restrict its findings as to whether there was compliance with the Department use of deadly force policy .
8. Any other indications of potential policy violations shall be determined in accordance with standard disciplinary procedures.

310.7.1 CIVIL LIABILITY RESPONSE

A member of this department may be assigned to work exclusively under the direction of the legal counsel for the Department to assist in the preparation of materials deemed necessary in anticipation of potential civil litigation.

All materials generated in this capacity shall be considered attorney work product and may not be used for any other purpose. The civil liability response is not intended to interfere with any other investigation, but shall be given reasonable access to all other investigations.

310.8 AUDIO AND VIDEO RECORDINGS

Any officer involved in an incident may be permitted to review available Mobile Audio Video (MAV) or other video or audio recordings prior to providing a recorded statement or completing reports.

Upon request, non-law enforcement witnesses who are able to verify their presence and their ability to contemporaneously perceive events at the scene of an incident may also be permitted to review available MAV or other video or audio recordings with approval of assigned investigators or a supervisor.

Any MAV and other known video or audio recordings of an incident should not be publicly released during an ongoing investigation without consulting the prosecuting attorney or City Attorney's Office as appropriate.

310.9 RETURN TO DUTY

An officer involved in a -use of deadly force involving a firearm may obtain from the firearms instructor up to 100 rounds of ammunition to shoot prior to or just after returning to duty. -The officer will be required to qualify with their weapon on an approved Tigard Police Department qualification course. This qualification is mandatory and is not an indication that the officer was at fault or was inadequately trained.

If the deadly force incident involves a motor vehicle, the officer will be required to participate in an Emergency Vehicle Operator's Course (EVOC) or a similar type of training. This training is mandatory and is not an indication that the officer was at fault or was inadequately trained.

Firearms and Qualification

312.1 PURPOSE AND SCOPE

This policy establishes procedures for the acquisition, use, and documentation of training in the use of firearms. The Chief of Police or designee shall approve all department firearms before they are acquired and utilized by any member of this department.

312.2 AUTHORIZED FIREARMS

No firearms will be carried on duty until they have been inspected by the Firearms Coordinator or their designee. Except in an emergency, or as directed by a supervisor, no firearm shall be carried on duty by a member who has not qualified with that firearm at an authorized department range.

Only hosters approved by the Firearms Coordinator or their designee are authorized for duty or secondary firearm use.

312.2.1 DUTY HANDGUN

The ultimate goal of the Tigard Police Department is to transition to a single caliber weapons system for primary duty handguns. This will be achieved over a period of time by issuing weapons to newly hired recruits and attrition through members voluntarily replacing their current service weapons or leaving the department over a period of time. Per the collective bargaining agreement, full-time sworn officers hired after July, 2009 will be issued a Glock model 17 handgun as their primary duty weapon. If deemed appropriate by the Firearms Coordinator, uniformed officers may be issued a Glock model 19 instead of the 17.

Officers assigned to specialty or plainclothes assignments may be issued a Glock model 19 or 26. When their assignment concludes, they may exchange that weapon for a Glock model 17. Members with a rank of lieutenant and above may also carry a Glock model 19 or 26 due to their largely administrative duties. These are the only weapons that will be issued by the department. At no time will any member be issued more than one handgun. Reserve officers will still be required to purchase their own handgun.

Officers that were hired prior to July, 2009 may continue to carry the primary duty weapon that they owned at that time until it is deemed "unfit for service" by the Firearms Coordinator. They will also be allowed to purchase, at their own expense, a compact version of their primary duty weapon if they are assigned to a plainclothes position. Priority for replacing those weapons will be at the discretion of the Firearms Coordinator with consideration given to tenure, replacing "unfit" weapons and availability of department resources.

All sworn members are required to carry a firearm while on duty, as outlined in this policy, unless expressly exempted from doing so by a supervisor.

312.2.2 AUTHORIZED SECONDARY FIREARM

Officers desiring to carry a secondary firearm are subject to the following restrictions:

- (a) The firearm shall be in good quality and workmanship as deemed by the Firearms Coordinator.
- (b) Only one secondary firearm may be carried at a time.

Tigard Police Department

Policy Manual

Firearms and Qualification

- (c) The purchase of the firearm and ammunition (if not 9mm/.40/45 ACP) shall be the responsibility of the officer.
- (d) The firearm shall be carried out of sight at all times and in such a manner as to prevent accidental cocking, discharge, or loss of physical control.
- (e) The firearm shall be subject to inspection whenever deemed necessary by a supervisor and at least annually by the Firearms Coordinator or designee.
- (f) Ammunition shall be the same as department issue. If the caliber of the firearm is other than department issue, the Firearms Coordinator shall approve the ammunition.
- (g) Personnel shall qualify with the secondary firearm under department range supervision.
- (h) Officers must demonstrate proficiency, safe handling and serviceability of the firearm to the extent required by the Firearms Coordinator or their designee at all range qualifications.
- (i) Personnel shall provide written notice in the form of a memorandum with the make, model, color, serial number, method of carry and caliber of a secondary firearm to the Firearms Coordinator prior to qualifying. This memorandum will be maintained in the officer's training file.
- (j) Officers attending court (where allowed by the court), attending training in plain clothing, or working a plain clothes detail that requires a concealed firearm, may carry the secondary firearm as their only duty firearm under the following circumstances: The secondary firearm must be a Glock in 9mm, .40 or 45 ACP. The officer must have qualified with this secondary firearm using the 25 yard HQC course of fire.

312.2.3 AMMUNITION AND MAGAZINES

Officers shall carry only department authorized ammunition and magazines while on duty. Officers shall be issued replacement duty ammunition on a schedule that is determined by the Firearms Coordinator. Duty magazines for department issued weapons will be inspected and replaced as needed. Replacements for unserviceable or depleted ammunition issued by the department shall be dispensed by the Firearms Coordinator or designee.

312.2.4 ALCOHOL AND DRUGS

Weapons shall not be carried by any officer who has consumed alcoholic beverages or taken any drugs that adversely affect the officer's sense or judgment.

312.3 SAFE HANDLING OF FIREARMS

The intent of this policy is to promote proper firearm safety on and off duty. Employees shall maintain the highest level of safety when handling firearms and shall consider the following:

- (a) Members may draw or exhibit their firearms when they feel such action is necessary for their protection or for the protection of others. Members should only point a firearm at another person when there is an immediate threat or perceived threat to the member's personal safety or the safety of others.
- (b) Officers shall be governed by all rules and regulations pertaining to the use of the range and shall obey all orders issued by the Firearms Coordinator or their designee. Officers shall not dry fire or practice drawing their firearms except under range master supervision.

Tigard Police Department

Policy Manual

Firearms and Qualification

(c) Officers shall not load or unload a firearm anywhere in the department facility, except where clearing barrels are present and after adequate steps have been taken to ensure no accidental discharges might occur.

(d) Shotguns or rifles removed from vehicles or equipment storage room shall be loaded and unloaded using designated clearing barrels.

(e) Officers shall not place or store any firearm or other weapon on department premises except where the place of storage is locked. No one shall carry firearms into the jail section or any part thereof when securing or processing a prisoner, but shall place all firearms in a secured location. It shall be the responsibility of all Tigard officers to make sure that persons from outside agencies do not enter the jail section with any firearm.

(f) Officers shall not use or be issued any automatic weapon, heavy caliber rifle, gas or other type of chemical delivery weapon (from the armory) except with approval of a supervisor.

(g) Any weapon authorized by the department to be carried on duty that is found by the officer to be malfunctioning or needing critical service shall not be carried and shall be promptly presented to the department Firearms Coordinator or their designee for inspection. Any weapon determined to be in need of service or repair during an inspection by the Firearms Coordinator or their designee, will be immediately removed from service for duty use. If the weapon is the officer's primary duty weapon, a replacement weapon will be issued until the duty weapon is again rendered serviceable.

312.3.1 STORAGE OF FIREARMS AT HOME

Officers shall ensure that all firearms and ammunition are locked and secured while in their homes in a manner that will keep them inaccessible to children and irresponsible adults. The department shall provide all sworn members with a storage safe to use for this purpose.

312.3.2 REPORT OF FIREARM DISCHARGE

Except during training or recreational use, any member who discharges a firearm intentionally or unintentionally, on-or off-duty, shall make a verbal report to his/her supervisor as soon as circumstances permit. If the discharge results in injury or death to another person, additional statements and reports shall be made in accordance with the Officer-Involved Shooting Policy. If a firearm was discharged as a use of force, the involved member shall adhere to the additional reporting requirements set forth in the Use of Force Policy.

In all other cases, written reports shall be made as follows:

- (a) If on-duty at the time of the incident, the member shall file a written report with his/her Division Commander or provide a recorded statement to investigators prior to the end of shift, unless otherwise directed.
- (b) If off-duty at the time of the incident, a written report shall be submitted or recorded statement provided no later than the end of the next regularly scheduled shift, unless otherwise directed by a supervisor.

312.4 FIREARMS QUALIFICATIONS

All sworn personnel are required to qualify twice annually with their primary and secondary duty weapons on an approved range course as indicated below. In addition to obtaining qualifying scores, officers will be required to state their understanding of the department's Use of Force policy. The Firearms Coordinator or their designee shall submit records of all

Tigard Police Department

Policy Manual

Firearms and Qualification

qualifications, repairs, maintenance and training as directed by the Training Coordinator to an established file. In addition to regular qualification schedules, the Firearms Coordinator shall be responsible for providing all sworn personnel with annual practical training designed to simulate field situations. In addition to the above mentioned training, the Firearms Coordinator may plan other training sessions that may be deemed as mandatory for all sworn members. Mandatory range qualifications for primary and secondary firearms are as follows:

(a) Members shall qualify with every firearm they carry on duty. The qualification standard shall be determined by the department training plan.

(b) A minimum of two weeks notice will typically precede the mandatory qualifications course. Members are required to be excused by their Watch Commander if unable to make a scheduled qualification.

(c) Courses of fire and targets will be determined by the Firearms Instructor and according to the training plan for the session as approved by the Firearms Coordinator. All firearms training will be conducted by qualified Firearms Instructors.

(d) Members shall qualify with their approved holsters, magazines, weapons and full duty belt. Members assigned to plainclothes duties will qualify in attire similar to that which is worn on duty. Other equipment and safety considerations may be required by the Firearms Instructors.

(e) Members of the Tactical Negotiations Team (TNT) and detached assignments such as WIN, ROCN, IGET and Transit Division may qualify with their respective units as long as they meet the timelines prescribed by the departmental qualification schedule and provide acceptable documentation of their range scores to the Tigard Police Department's Training Unit. This exemption must be approved in advance by the Firearms Coordinator.

312.4.1 NON QUALIFICATION

If any officer is unable to qualify for any reason, including injury, illness, duty status or scheduling conflict, that officer shall submit a memorandum to his or her immediate supervisor prior to the end of the required shooting period. These memorandums will be forwarded to the Training Coordinator for rescheduling.

Members who repeatedly fail to qualify will be relieved from field assignment and appropriate disciplinary action may follow.

Members who fail to qualify on their first shooting attempt (cold qualification) shall be provided remedial training. Additional range assignments may be required until consistent weapon proficiency is demonstrated and will be subject to the requirements detailed in section 312.4.2.

312.4.2 PROFICIENCY REQUIRED

Qualification with designated weapons of the department is a bona-fide job requirement for all sworn employees.

(a) To qualify with the primary duty handgun a member must attain a minimum score of 85 out of 100 on the 25 yard Handgun Qualification Course (HQC), or pass any current DPSST qualification course as selected by the Firearms Coordinator. Given the low ammunition capacity of many secondary firearms, a member will be allowed to attempt qualification with their approved secondary firearm using the Secondary Firearm Qualification Course

Tigard Police Department

Policy Manual

Firearms and Qualification

(SFQC). Members must attain a minimum score of 85 out of 100 on the approved 50 yard qualification course (MP5) to carry a MP-5 on duty. Members issued a AR-15 patrol rifle must attain a minimum score of 90 out of 100 on the approved Basic Rifle Qualification Course (BRQ). Nothing in this policy precludes the Chief of Police or designee (Firearms Coordinator) from implementing other qualification courses.

(b) If a member fails to shoot a "cold" qualifying score on the first attempt, they will receive remedial training within the same training session. Members will then be allowed two more chances at "conditional" qualification during that same training session.

(c) Members who successfully fire a qualifying score on their second or third attempts will be considered "conditionally" qualified. This condition will require remedial training as designated by the Firearms Coordinator and a successful "cold" qualification within three (3) weeks.

(d) If a member fails to shoot a qualifying score (following the conditional qualification) or cannot conditionally qualify, the range master shall notify their immediate supervisor as soon as possible; at which time the member will be immediately reassigned to administrative duties where contact with the public is unlikely. Reassignment and mandatory remedial firearms training by the Firearms Coordinator, or their designee will be arranged by the member's supervisor. The member shall not carry a firearm on duty until they have successfully completed a cold qualification attempt within the prescribed three (3) weeks.

(e) Members who fire a successful "cold" score will be officially qualified and no further remedial training will be required.

(f) If a member fails to qualify "cold" after receiving the prescribed training and qualification opportunities, the member's Watch Commander will direct a memorandum to the Division Commander. The memorandum will contain a report from the Firearms Coordinator about the officer's performance and will document the remedial training and qualification attempts. The member's Watch Commander will recommend a course of action.

Minimum proficiency is a condition of employment for sworn personnel and failure to achieve those standards is cause for termination of employment. If after remedial training, as described above, the member is still unable to achieve the minimum proficiency requirements, it may be cause for termination. If a reserve officer fails to qualify, they will immediately be suspended from the Reserve Unit until they can demonstrate the ability to achieve the minimum proficiency requirements. A reserve officer can be released from the Reserve Unit for failing to qualify.

312.5 FIREARMS COORDINATOR DUTIES

The range will be under the exclusive control of the Firearms Coordinator or their designee. Any variation from approved procedures addressed in this policy or not specifically addressed in another policy must be approved by the Chief of Police through the Firearms Coordinator. The Firearms Coordinator is a sworn member of command rank, appointed by the Chief of Police, to oversee all aspects of firearms used and training. A range master is any member who has been designated as such by the Firearms Coordinator and who has completed an approved course in firearms instruction and range safety. All members attending department firearms training or qualifications will follow the directions of the designated range master. The Firearms Coordinator or their designee will maintain a roster of all members attending all range sessions and will submit those rosters to the training unit.

Tigard Police Department

Policy Manual

Firearms and Qualification

The Firearms Coordinator or their designee has the responsibility of making periodic inspection, at least once a year, of all primary and secondary weapons carried by officers of this department to verify proper operation. The Firearms Coordinator has the authority to deem any privately owned weapon unfit for service, and that authority is delegated as well to designated range masters during training sessions. The officer will be responsible for all repairs to his or her personal weapon and it will not be returned to service until inspected by the Firearms Coordinator or their designee.

312.6 MAINTENANCE AND REPAIR

Firearms carried on duty shall be maintained in a clean, serviceable condition as determined by a supervisor. Unless otherwise issued by the department, maintenance and repair of personally owned weapons used on duty may be the responsibility of the employee.

312.6.1 REPAIR OR MODIFICATIONS OF DUTY WEAPONS

The Firearms Coordinator or their designee shall be the only person(s) authorized to repair or modify any department owned weapon. All repairs and/or modifications of department issued weapons not performed by the Firearms Coordinator or their designee must be approved in advance by the Firearms Coordinator and accomplished by a department approved gunsmith.

Any repairs or modifications to the officer's personally owned weapon shall be done at his or her expense and must be approved by the Firearms Coordinator before use on duty; those repairs or modifications will be documented in detail and retained within the officer's training file maintained by the Training Officer.

312.7 FLYING WHILE ARMED

The Transportation Security Administration (TSA) has imposed rules governing law enforcement officers flying armed on commercial aircraft. The following requirements apply to personnel who intend to be armed while flying on a commercial air carrier or flights where screening is conducted (49 CFR 1544.219):

(a) Officers wishing to fly while armed must be flying in an official capacity, not for vacation or pleasure purposes.

(b) Officers must carry their department identification card, which must contain a full-face picture and the signature of the Chief or the official seal of the department, and must present this identification to airline officials when requested. The officer should also carry the standard photo identification needed for passenger screening by airline and TSA officials (e.g. driver license, passport).

(c) In accordance with TSA procedures, the department will obtain a message containing a unique alphanumeric identifier from TSA through the National Law Enforcement Telecommunications System (NLETS) prior to the officer's travel. The officer must present the message to airport personnel as authorization to travel while armed on the day of travel.

(d) An official letter signed by the Chief of Police authorizing armed travel must accompany the officer(s). The letter must outline the officer's need to fly armed, must detail his/her itinerary, and should include that the officer has completed the mandatory TSA training for law enforcement officers flying while armed.

(e) Officers must have completed the mandated TSA security training, covering officers flying while armed. The training shall be given by the Firearms Coordinator or their designee.

Tigard Police Department

Policy Manual

Firearms and Qualification

(f) It is the officer's responsibility to notify the air carrier in advance of the intended armed travel. This notification can be accomplished by early check-in at the carrier's check-in counter. Individual carriers will have this information.

(g) Discretion must be used to avoid alarming passengers or crew by displaying a firearm. The officers must keep the firearm concealed on his/her person at all times. Firearms are not permitted in carry-on luggage and may not be stored in an overhead compartment.

(h) Officers should not surrender their firearm, but should try to resolve any problems through the flight captain, ground security manager or other management representative of the air carrier.

(i) Officers shall not consume alcoholic beverages while aboard an aircraft, or within eight hours prior to boarding an aircraft.

312.8 CARRYING FIREARMS OUT OF STATE

Pursuant to Title 18 United States Code 926.B; full-time sworn officers of this department are authorized to carry a concealed firearm in all other states subject to the following conditions:

(a) The officer shall carry their department identification whenever carrying such weapon.

(b) The officer will remain subject to this and all other department policies (including qualifying and training) and may not be the subject of any current disciplinary action.

(c) The officer may not be under the influence of alcohol or any other intoxicating or hallucinatory drug.

Officers are cautioned that individual states may still restrict or prohibit carrying firearms in certain areas such as government buildings, property and parks.

312.9 REVIEW BOARD

A review board shall be convened whenever a firearm has been discharged in the line of duty to determine the facts of the incident. Boards may be convened to review the shooting of animals.

(a) To establish the Review Board, the Chief of Police will appoint five (5) members to the board; at least one shall be from the involved employee's peer group and one a current Firearms Instructor.

(b) The involved employee has 24 hours to eliminate two names from the Board. Of the remaining members, the Chief will designate the Chairman.

(c) The Review Board shall consider all reports and Grand Jury actions concerning the incident.

(d) Hearings by the Review Board shall be informal.

(e) A hearing is an internal, administrative process held in private.

(f) Review Board decisions will be by majority vote. All findings will be signed by all members with indication of concurrence or dissent.

The Review Board shall make one of the following findings:

1. The discharge was within guidelines of the department.

Tigard Police Department

Policy Manual

2. The discharge was not within guidelines of the department.

A report of the Review Board's findings shall be sent to the Chief of Police.

Vehicle Pursuits

314.1 PURPOSE AND SCOPE

Pursuits of suspected or known violators of the law expose innocent citizens, law enforcement officers and fleeing violators to serious injury or death. The primary purpose of this policy is to provide officers guidance in balancing the safety of the public and themselves against law enforcement's duty to apprehend violators of the law. Another purpose of this policy is to reduce and minimize the potential for pursuit related accidents. Vehicular pursuits require officers to exhibit a high degree of common sense and sound judgment. Officers must not forget that the immediate apprehension of a suspect is generally not more important than the safety of the public and pursuing officers.

Deciding whether to pursue a motor vehicle is a critical decision that must be made quickly and under difficult and unpredictable circumstances. In recognizing the potential risk to public safety created by vehicular pursuits, no officer or supervisor shall be criticized or disciplined for deciding not to engage in a vehicular pursuit because of the risk involved. This includes circumstances where department policy would permit the initiation or continuation of the pursuit. It is recognized that vehicular pursuit situations are not always predictable and decisions made pursuant to this policy will be evaluated according to the totality of the circumstances reasonably available at the time of the pursuit.

Officers must remember that the most important factors to the successful conclusion of a pursuit are proper self-discipline and sound professional judgment. Officers' conduct during the course of a pursuit must be objectively reasonable; that is, what a reasonable officer would do under the circumstances. An unreasonable individual's desire to apprehend a fleeing suspect at all costs has no place in professional law enforcement.

314.1.1 POLICE PURSUIT DEFINED

A vehicle pursuit is an event involving one or more law enforcement officers attempting to apprehend a suspect who is attempting to avoid arrest while operating a motor vehicle by using high speed driving or other evasive tactics such as driving off a highway, turning suddenly, or driving in a legal manner but willfully failing to yield to an officer's signal to stop.

314.2 OFFICER RESPONSIBILITIES

While engaging in a vehicle pursuit Officers must drive with due regard for the safety of all other persons. However, while engaging in a vehicle pursuit, officers are generally not required to follow the rules of the road (Oregon Revised Statutes 820.300). This exemption only applies to emergency vehicles using emergency lights, and sirens (Oregon Revised Statutes 820.300 and Oregon Revised Statutes 820.320). This following policy is established to provide Officers with guidelines for driving with due regard and caution for the safety of all persons, as required by Oregon Revised Statutes 820.300(2).

314.2.1 WHEN TO INITIATE A PURSUIT

Officers are authorized to initiate a pursuit when it is reasonable to believe that a suspect is attempting to evade arrest or detention by fleeing in a vehicle.

The following factors individually and collectively shall be considered in deciding whether to initiate a pursuit:

Tigard Police Department

Policy Manual

Vehicle Pursuits

- (a) Seriousness of the known or reasonably suspected crime and its relationship to community safety.
- (b) The importance of protecting the public and balancing the known or reasonably suspected offense and the apparent need for immediate capture against the risks to officers, innocent motorists and others.
- (c) Apparent nature of the fleeing suspect(s) (e.g., whether the suspect(s) represent a serious threat to public safety).
- (d) The identity of the suspect(s) has been verified and there is comparatively minimal risk in allowing the suspect(s) to be apprehended at a later time.
- (e) Safety of the public in the area of the pursuit, including the type of area, time of day, the amount of vehicular and pedestrian traffic and the speed of the pursuit relative to these factors.
- (f) Pursuing officer(s) familiarity with the area of the pursuit, the quality of radio communications between the pursuing units and the dispatcher/supervisor and the driving capabilities of the pursuing officers under the conditions of the pursuit.
- (g) Weather, traffic and road conditions that substantially increase the danger of the pursuit beyond the worth of apprehending the suspect.
- (h) Performance capabilities of the vehicles used in the pursuit in relation to the speeds and other conditions of the pursuit.
- (i) The emergency equipment present on the vehicles used in the pursuit.
- (j) Vehicle speeds.
- (k) Other persons in or on the pursued vehicle (e.g., passengers, co-offenders and hostages).
- (l) Availability of other resources such as helicopter assistance.
- (m) The police unit is carrying passengers other than police officers. Pursuits should not be undertaken with a prisoner(s) in the police vehicle.

314.2.2 WHEN TO TERMINATE A PURSUIT

Pursuits should be discontinued whenever the totality of objective circumstances known or which reasonably ought to be known to the officer or supervisor during the pursuit indicates that the present risks of continuing the pursuit reasonably appear to outweigh the risks resulting from the suspect(s)' escape.

The factors listed in Policy Manual § 314.21 are expressly included herein and will apply equally to the decision to discontinue as well as the decision to initiate a pursuit. Officers and supervisors must objectively and continuously weigh the seriousness of the offense against the potential danger to innocent motorists and themselves when electing to continue a pursuit. In the context of this policy, the term "terminate" shall be construed to mean discontinue or to stop chasing the fleeing vehicle(s).

In addition to the factors listed in Policy Manual § 314.21 the following factors should also be considered in deciding whether to terminate a pursuit:

- (a) Distance between the pursuing officers and the fleeing vehicle(s) is so great that further pursuit would be futile or require the pursuit to continue for an unreasonable time and/or distance
 - (b) Pursued vehicle's location is no longer definitely known
 - (c) Officer's pursuit vehicle sustains any type of damage that renders it unsafe to drive
-

Tigard Police Department

Policy Manual

Vehicle Pursuits

- (d) Extended pursuits of violators for misdemeanors not involving violence or risk of serious harm (independent of the pursuit) are discouraged
- (e) Hazards to uninvolved bystanders or motorists
- (f) If the identity of the offender is known and it does not reasonably appear that the need for immediate capture outweighs the risks associated with continuing the pursuit, officers should strongly consider discontinuing the pursuit and apprehending the offender at a later time.
- (g) Directed by a supervisor
- (h) When motorists/pedestrians are involved in an accident as a result of the pursuit, immediate assistance must be given. If there is only the primary pursuing vehicle, then this vehicle must stop to provide immediate assistance. The officer will notify the dispatcher the pursuit is being terminated.

314.2.3 SPEED LIMITS

The speed of a pursuit is a factor that should be evaluated on a continuing basis by the officer and supervisor. Evaluation of vehicle speeds shall take into consideration public safety, officer safety and the safety of the occupants of the fleeing vehicle.

Should high vehicle speeds be reached during a pursuit, officers and supervisors shall also consider these factors when determining the reasonableness of the speed of the pursuit:

- (a) Whether the pursuit speeds are unsafe for the surrounding conditions.
- (b) Whether the speeds being reached are beyond the driving ability of the officer.
- (c) Whether the speeds are beyond the capabilities of the police vehicle thus making its operation unsafe.

314.3 PURSUIT UNITS

Pursuit units should be limited to three vehicles; however, the number of units involved will vary with the circumstances. An officer or supervisor may request additional units to join a pursuit if, after assessing the factors outlined above, it appears that the number of officers involved would be insufficient to safely arrest the suspect(s). All other officers should stay out of the pursuit, but should remain alert to its progress and location. Any officer who drops out of a pursuit may then, if necessary, proceed to the termination point at legal speeds, following the appropriate rules of the road.

314.3.1 VEHICLES WITHOUT OVERHEAD LIGHT BARS

Officers operating police motorcycles, SUV sport utility vehicles or unmarked vehicles equipped with emergency lights and siren may engage in pursuits; however, whenever marked vehicles other than SUVs become available to assume the pursuit initiated by an officer in an unmarked vehicle, SUV or motorcycle, the unmarked vehicle, SUV or motorcycle shall not continue in the pursuit.

314.3.2 PRIMARY UNIT RESPONSIBILITIES

The initial pursuing unit will be designated as the primary pursuit unit and will be responsible for the conduct of the pursuit unless it is unable to remain reasonably close enough to the violator's vehicle. The primary responsibility of the officer initiating the pursuit is the apprehension of the suspect(s) without unreasonable danger to themselves or other persons.

Tigard Police Department

Policy Manual

Vehicle Pursuits

Notify WCCCA that a vehicle pursuit has been initiated and as soon as practical provide information including, but not limited to:

- (a) Reason for the pursuit.
- (b) Location and direction of travel.
- (c) Speed of the fleeing vehicle.
- (d) Description of the fleeing vehicle and license number, if known.
- (e) Number of known occupants.
- (f) The identity or description of the known occupants.
- (g) Information concerning the use of firearms, threat of force, injuries, hostages or other unusual hazards.

In order to concentrate on pursuit driving the primary unit should relinquish the responsibility of broadcasting the progress of the pursuit as soon as practical to a secondary unit joining the pursuit, unless practical circumstances indicate otherwise.

314.3.3 SECONDARY UNIT(S) RESPONSIBILITIES

The second officer in the pursuit is responsible for the following:

- (a) Immediately notifying the dispatcher of entry into the pursuit
- (b) Remain a safe distance behind the primary unit unless directed to assume the role of primary officer, or if the primary unit is unable to continue the pursuit
- (c) Broadcasting the progress of the pursuit unless the situation indicates otherwise

314.3.4 PURSUIT DRIVING TACTICS

The decision to use or not use specific driving tactics requires the same assessment of considerations outlined in the factors to be considered concerning pursuit initiation and termination. The following are tactics for units involved in the pursuit:

- (a) Officers, considering their driving skills and vehicle performance capabilities, will space themselves from other involved vehicles such that they are able to see and avoid hazards or react safely to maneuvers by the fleeing vehicle.
- (b) Officers shall not pursue suspects the wrong way on any interstate highway, controlled access highway, or any divided roadway. When the suspect enters the wrong way on a controlled access highway, freeway or divided highway, the officer is to parallel, traveling the proper direction on the proper side of the roadway. When an officer is in pursuit of a vehicle that enters a freeway, the Oregon State Police shall be notified and requested to assist in the pursuit.
- (c) No officer shall become involved in a vehicular pursuit if an arrested person, suspect, complainant, witness, or civilian observer is in the police vehicle. The officer must let the rider out and notify the supervisor of the location before engaging in a pursuit.

314.3.5 TACTICS/PROCEDURES FOR UNITS NOT INVOLVED IN THE PURSUIT

There should be no paralleling of the pursuit route. Officers are authorized to use emergency equipment at intersections along the pursuit path to clear intersections of vehicular and pedestrian traffic to protect the public. Officers should remain in their assigned area and should not become involved, during or at the termination of the pursuit, unless directed by a supervisor.

Tigard Police Department

Policy Manual

Vehicle Pursuits

Non-pursuing personnel assigned to assist at the termination of the pursuit should respond in a non-emergency manner, observing the rules of the road, unless directed otherwise by a supervisor.

The primary and secondary units should be the only units operating under emergency conditions (emergency lights and siren) unless other units are assigned to the pursuit.

314.3.6 PURSUIT TRAILING

In the event the initiating unit from this agency either relinquishes control of the pursuit to another unit or jurisdiction, that initiating unit may, with permission of supervisor, trail the pursuit to the termination point in order to provide necessary information and assistance for the arrest of the suspect(s).

The term trail means to follow the path of the pursuit at a safe speed while obeying all traffic laws and without activating emergency equipment. If the pursuit is at a slow rate of speed, the trailing unit will maintain sufficient distance from the pursuit units so as to clearly indicate an absence of participation in the pursuit.

314.4 SUPERVISORY CONTROL AND RESPONSIBILITY

It is the policy of this department that available supervisory and management control will be exercised over all motor vehicle pursuits involving officers from this department.

The on-duty supervisor will be responsible for the following:

- (a) Upon becoming aware of a pursuit, immediately ascertaining all reasonably available information to continuously assess the situation and risk factors associated with the pursuit in order to ensure that the pursuit is conducted within established department guidelines.
- (b) Engaging in the pursuit, when appropriate, to provide on-scene supervision.
- (c) Exercising management and control of the pursuit even if not engaged in it.
- (d) Ensuring that no more than the number of required police units needed are involved in the pursuit under the guidelines set forth in this policy.
- (e) Directing that the pursuit be terminated if, in his/her judgment, it is unjustified to continue the pursuit under the guidelines of this policy
- (f) Ensuring that the proper radio channel is being used.
- (g) Ensuring the notification and/or coordination of outside agencies if the pursuit either leaves or is likely to leave the jurisdiction of this agency.
- (h) Control and manage TPD units when a pursuit enters another jurisdiction.
- (i) Oversee arrest procedure whenever possible.

314.5 COMMUNICATIONS

If the pursuit is confined within the City limits, radio communications will be conducted on the primary channel unless instructed otherwise by a supervisor or communications dispatcher. If the pursuit leaves the jurisdiction of this department or such is imminent, involved units should, whenever available, switch radio communications to an emergency channel most accessible by participating agencies and units.

Tigard Police Department

Policy Manual

Vehicle Pursuits

314.5.1 LOSS OF PURSUED VEHICLE

When the pursued vehicle is lost, the primary unit should broadcast pertinent information to assist other units in locating suspects. The primary unit will be responsible for coordinating any further search for either the pursued vehicle or suspects fleeing on foot.

314.6 INTER-JURISDICTIONAL CONSIDERATIONS

314.6.1 ASSUMPTION OF PURSUIT BY ANOTHER AGENCY

When a pursuit is initiated by any law enforcement agency, and the pursuit enters another jurisdiction, the initiating unit(s) and their jurisdiction shall notify the other agency. The agency which the pursuit has entered into will assume the primary pursuit as soon as possible. If this agency is not able to assist in the pursuit, the initiating agency will maintain the responsibility of the pursuit. Inter-agency pursuits will be conducted in accordance with the Portland Metropolitan Interagency Pursuit Agreement.

314.6.2 PURSUITS EXTENDING INTO THIS JURISDICTION

The agency that initiates a pursuit shall be responsible for conducting the pursuit. Units from this department should not join a pursuit unless specifically requested to do so by the agency whose officers are in pursuit. The exception to this is when a single unit from the initiating agency is in pursuit. Under this circumstance, a unit from this department may join the pursuit until sufficient units from the initiating agency join the pursuit.

When a request is made for this department to assist or take over a pursuit from another agency that has entered this jurisdiction, the supervisor should consider the following additional factors:

- (a) Ability to maintain the pursuit.
- (b) Circumstances serious enough to continue the pursuit.
- (c) Adequate staffing to continue the pursuit.
- (d) The public's safety within this jurisdiction.
- (e) Safety of the pursuing officers.

As soon as practical, a supervisor or the Patrol Lieutenant should review a request for assistance from another agency. The Patrol Lieutenant or supervisor, after consideration of the above factors, may decline to assist in, or assume the other agency's pursuit.

Assistance to a pursuing allied agency by officers of this department will terminate at the City limits provided that the pursuing officers have sufficient assistance from other sources. Ongoing participation from this department may continue only until sufficient assistance is present.

In the event that a pursuit from another agency terminates within this jurisdiction, officers shall provide appropriate assistance to peace officers from the allied agency including, but not limited to, scene control, coordination and completion of supplemental reports and any other assistance requested or needed.

314.7 PURSUIT INTERVENTION

Pursuit intervention is an attempt to terminate the ability of a suspect to continue to flee in a motor vehicle through tactical application of technology, road spikes, blocking, boxing, PIT (Pursuit Intervention Technique), ramming or roadblock procedures. In this context, ramming shall be construed to mean maneuvering the police unit into contact with the

Tigard Police Department

Policy Manual

Vehicle Pursuits

pursued vehicle to mechanically disable it or forcibly position it such that further flight is not possible or practical.

314.7.1 WHEN USE AUTHORIZED

Use of pursuit intervention tactics should be employed only after approval of a supervisor. In deciding whether to use intervention tactics, officers/supervisors should balance the risks of allowing the pursuit to continue with the potential hazards arising from the use of each tactic to the public, the officers and persons in or on the pursued vehicle. With these risks in mind, the decision to use any intervention tactic should be reasonable in light of the circumstances confronting the officer at the time of the decision.

It is imperative that officers act within the bounds of legality, good judgment and accepted practices.

314.7.2 DEFINITIONS

Blocking or Vehicle Intercept - A very low speed coordinated maneuver where two or more patrol vehicles simultaneously intercept and block the movement of a slow moving or stopped suspect vehicle, the driver of which may be unaware of the impending enforcement stop, with the goal of containment and preventing a pursuit. Blocking is not a moving or stationary road block.

Boxing-in - A tactic designed to stop a violator's vehicle by surrounding it with law enforcement vehicles and then slowing all vehicles to a stop.

Ramming - The deliberate act of impacting a violator's vehicle with another vehicle to functionally damage or otherwise force the violator's vehicle to stop.

Roadblocks - A tactic designed to stop a violator's vehicle by intentionally placing an emergency vehicle or other immovable object in the path of the violator's vehicle. This tactic is also often referred to as a roadblock, barricade or blockade.

Pursuit Intervention Technique (PIT) - is a maneuver designed to cause the suspect vehicle to spin out and terminate the pursuit.

Spikes or Tack Strips - A device that extends across the roadway designed to puncture the tires of the pursued vehicle.

314.7.3 USE OF FIREARMS

The use of firearms to disable a pursued vehicle is not generally an effective tactic and involves all the dangers associated with discharging firearms. Officers should not utilize firearms during an ongoing pursuit unless the conditions and circumstances dictate that such use reasonably appears necessary to protect life. Nothing in this section shall be construed to prohibit any officer from using a firearm to stop a suspect from using a vehicle as a deadly weapon.

314.7.4 INTERVENTION STANDARDS

Any pursuit intervention tactic, depending upon the conditions and circumstances under which it is used, may present dangers to the officers, the public, or anyone in or on the vehicle being pursued. Certain applications of intervention tactics may be construed to be a use of deadly force and subject to the requirements for such use. Officers who have not received certified departmental training in the application and use of any intervention

Policy Manual

Vehicle Pursuits

tactic or equipment shall consider these facts and requirements prior to deciding how, when, where, and if an intervention tactic should be employed.

- (a) Blocking or vehicle intercept should only be considered in cases involving felony suspects or impaired drivers who pose a threat to public safety when officers reasonably believe that attempting a conventional enforcement stop will likely result in the driver attempting to flee in the vehicle. Because of the potential risks involved this technique should only be employed by officers who have received training in such tactics after giving consideration to the following:
 - 1. The need to immediately stop the suspect vehicle or prevent it from leaving substantially outweighs the risks of injury or death to occupants of the suspect vehicle, officers, or other members of the public.
 - 2. All other reasonable intervention techniques have failed or reasonably appear ineffective .
 - 3. Employing the blocking maneuver does not unreasonably increase the risk to officer safety.
 - 4. The target vehicle is stopped or traveling at a low speed.
 - 5. At no time should civilian vehicles be used to deploy this technique.

- (b) Only those officers trained in the use of the Pursuit Intervention Technique (PIT) will be authorized to use this procedure upon consideration of the circumstances and conditions presented at the time, including the potential for risk of injury to officers, the public and occupants of the pursued vehicle. With time and opportunity permitting, the pursuing officer should get authorization from a supervisor to utilize PIT. PIT will not be used on two-wheeled vehicles, passenger occupied buses, and vehicles transporting hazardous material or any vehicle that would pose an unusual hazard to innocent parties.
 - 1. A pre-emptive PIT may be used when there is probable cause to arrest the driver or an occupant of a vehicle and when there is an objective reasonable belief that the vehicle may attempt to elude or the suspect has a history to elude to prevent a pursuit. The use of a pre-emptive PIT should be attempted with additional members to provide cover and to assist in the custody. When appropriate, a pre-emptive PIT should be done without the use of overhead lights and/or vehicle siren.
 - 2. The use of the PIT maneuver on a vehicle at speeds up to 45 mph may be considered a use of physical force as defined in this policy. Under the circumstances in which it is intended to be used, the PIT maneuver used on vehicles in excess of 45 mph may be considered a greater use of force, including deadly physical force. Members should take into account the location, environment, and the presence of pedestrians prior to employing the PIT technique.

- (c) Roadblocks and ramming of suspect vehicles are actions that are approved only when the use of Deadly Force is authorized. Time and opportunity permitting, the pursuing officer will get permission from a supervisor before attempting these techniques.

314.7.5 CAPTURE OF SUSPECTS

"HIGH RISK TRAFFIC STOP" procedures will be employed when the pursued vehicle is stopped.

314.7.6 USE OF SPIKE STRIPS

Use of the spike strip must be documented in the supervisor's Pursuit Review Report and should answer the following questions:

- (a) Did the spike strip successfully terminate the pursuit?
- (b) How long after the suspect vehicle ran over the spike strip did the vehicle stop?
- (c) Did the suspect retain control of the vehicle after encountering the spike strip?
- (d) How many tires on the suspect vehicle were deflated?
- (e) How many minutes were required to physically deploy the spike strip?
- (f) Was anyone injured as a result of the use of the spike strip?
 - 1. If so, who?
 - 2. nature of injuries?
- (g) Did a collision occur after the suspect ran over the strip?
- (h) What did the suspect(s) do after their vehicle stopped?
- (i) Were any arrest made?

314.8 REPORTING REQUIREMENTS

After every vehicle pursuit, all officers involved will complete a written report detailing their actions and considerations. The duty supervisor will conduct a debriefing of the incident and complete a Tigard Police Department Pursuit Review Report. Once the Pursuit Review Report is completed, it will be forwarded to the inspections officer.

314.8.1 REGULAR AND PERIODIC PURSUIT TRAINING

In addition to initial and supplementary training on pursuits, all sworn members of this department will participate in regular and periodic department training addressing this policy and the importance of vehicle safety and protecting the public at all times, including a recognition of the need to balance the known offense and the need for immediate capture against the risks to officers and others.

314.8.2 POLICY REVIEW

Each member of this department shall certify in writing that they have received, read and understand this policy initially and upon any amendments.

Spike Strip Policy

315.1 PURPOSE AND SCOPE

The hollow spike strip is a device that may be utilized in pursuit situations after the policies regarding violator pursuit have been followed and the violator/suspect has failed to stop; or in situations involving stationary vehicles where there is a likelihood of vehicle pursuit.

Spike strips are a tire deflation device used to terminate a vehicle pursuit. The device is a triangular stick, three feet in length, containing hollow spikes that get embedded in the tires of the pursued vehicle after it passes over. The embedded spikes cause a controlled deflation of the tires, which allows the driver to maintain control of the vehicle as speed is reduced. The "STOP STICK" is the only spike strip authorized for use by members of the Tigard Police Department.

315.1.1 DEPLOYMENT GUIDELINES

- (a) No officer shall deploy spike strips unless the following criteria have been met:
1. The officer has received the designated training for deployment as established by the Tigard Police Department.
 2. The deployment of the spike strip has been authorized by a supervisor.
 3. The deploying officer must advise pursuing vehicles, by radio, that spike strips will be used, where they will be used and any officer controlled lane restrictions established. Communication must be constant and continuous to ensure all pursuing patrol officers' safety.
 4. Spike strips will be used when there is no risk to anyone but the pursued vehicle occupants. Officer and citizen safety, as well as existing conditions, should be considered prior to spike strip deployment.
 5. The roadway where the spike strip will be deployed and the roadway beyond is to be straight and level whenever possible.
- (b) Spike strips (3 ft in length or smaller) may be deployed in stationary vehicle situations for the following purposes:
1. To prevent a vehicle from being moved by a suspect attempting to flee a scene; or
 2. To prevent movement of a vehicle which is, or possibly will be evidence.
- (c) When and where spike strips should NOT be deployed:
1. To terminate pursuits involving motorcycles, or other two wheel vehicles, school buses, or vehicles carrying hazardous materials.
 2. Roadways bounded by steep descending embankments.
 3. Areas of special events or activities.
 4. Curves or locations where the safety of oncoming traffic cannot be ensured.
 5. Construction zones.
- (d) Outside agency requests for spike strip deployment will be at the discretion of the supervisor and in accordance with Policy 314.
-

Tigard Police Department

Policy Manual

Spike Strip Policy

- (e) Measures should be taken to divert other traffic from the area or to prevent unnecessary damage to other vehicles.
- (f) Deploying officer should remove spike strip immediately after the suspect vehicle passes over it.
- (g) Use of the spike strip must be documented in the supervisor's Pursuit Review Report and should answer the following questions:
 - 1. Did the spike strip successfully terminate the pursuit?
 - 2. How long after the suspect vehicle ran over the spike strip did the vehicle stop?
 - 3. Did the suspect retain control of the vehicle after encountering the spike strip?
 - 4. How many tires on the suspect vehicle were deflated?
 - 5. How many minutes were required to physically deploy the spike strip?
 - 6. Did any patrol vehicle or citizen's vehicle run over the spike strip?
 - 7. Was anyone injured as a result of the use of the spike strip?
 - (a) if so, who?
 - (b) nature of injuries
 - 8. Did a collision occur after the suspect ran over the strip?
 - 9. Where any arrests made?

Officer Response to Calls

316.1 PURPOSE AND SCOPE

This policy provides for the safe and appropriate response to emergency and non-emergency situations whether dispatched or self-initiated.

316.2 RESPONSE TO CALLS

Officers responding to non-emergency calls shall observe all traffic laws and proceed without the use of emergency lights and siren.

Officers shall proceed immediately to calls that are of an emergency nature. A code 3 response should be considered when available information reasonably indicates that a person is threatened with injury or death, a felony property crime is in progress, or serious property damage is imminent and a more immediate law enforcement response is needed to mitigate injury, property loss, or to apprehend the suspect(s).

Officers responding Code 3 shall operate emergency lights and siren as is reasonably necessary pursuant to ORS 820.300 and ORS 820.320. Officers shall only use the wail and yelp function of the siren as an emergency sound. The hi-lo function of the siren is not considered an emergency sound pursuant to OAR 735-110-0000(8) and OAR 735-110-0010(1-3).

Responding with emergency light(s) and siren does not relieve the officer of the duty to continue to drive with due regard for the safety of all persons.

ORS 820.320(2) allows officers to omit the use of emergency lights and siren if it reasonably appears that the use of either or both would prevent or hamper the apprehension or detection of a violator. Except as stated in the previous sentence, Officers who fail to use appropriate warning equipment, are not exempt from following the rules of the road (ORS 820.300).

316.3 REQUESTING EMERGENCY ASSISTANCE

Requests for emergency assistance should be limited to those situations where the involved personnel reasonably believe that there is an immediate threat to the safety of officers, or assistance is needed to prevent imminent serious harm to a citizen. In any event, where a situation has stabilized and emergency response is not required, the requesting officer shall immediately notify WCCCA.

If circumstances permit, the requesting officer should give the following information:

- The unit number
- The location
- The reason for the request and type of emergency
- The number of units required

316.3.1 NUMBER OF UNITS ASSIGNED

The Patrol Lieutenant or field supervisor will adjust the number of units responding to a particular call for service if it is their judgment to do so.

Tigard Police Department

Policy Manual

Officer Response to Calls

316.4 RESPONSIBILITIES OF RESPONDING OFFICER(S)

Officers shall exercise sound judgment and care with due regard for life and property when responding to an emergency call. Officers shall reduce speed at all street intersections as may be necessary for safe operation.

The decision to continue a Code-3 response is at the discretion of the officer. If, in the officer's judgment, the roadway conditions or traffic congestion does not permit such a response without unreasonable risk, the officer may elect to respond to the call without the use of emergency lights and siren at the legal speed limit. In such an event, the officer should immediately notify WCCCA. An officer shall also discontinue the Code-3 response when directed by a supervisor.

Upon receiving authorization or determining a Code-3 response is appropriate, an officer shall immediately give the location from which he/she is responding.

316.5 COMMUNICATIONS RESPONSIBILITIES

A dispatcher shall assign a Code-3 response when an officer requests emergency assistance or available information reasonably indicates that the public is threatened with serious injury or death and immediate police response is needed. In all other circumstances, the dispatcher shall obtain authorization from the Patrol Lieutenant or a field supervisor prior to assigning units Code-3. The dispatcher shall:

- (a) Attempt to assign the closest available unit to the location requiring assistance
- (b) Immediately notify the Patrol Lieutenant
- (c) Confirm the location from which the unit is responding
- (d) Notify and coordinate allied emergency services (e.g., fire and ambulance)
- (e) Continue to obtain and broadcast information as necessary concerning the response and monitor the situation until it is stabilized or terminated
- (f) Control all radio communications during the emergency and coordinate assistance under the direction of the Patrol Lieutenant or field supervisor

316.6 SUPERVISORY RESPONSIBILITIES

Upon being notified that a Code-3 response has been initiated, the Patrol Lieutenant or the field supervisor shall verify the following:

- (a) The proper response has been initiated
- (b) No more than those units reasonably necessary under the circumstances are involved in the response
- (c) Affected outside jurisdictions are being notified as practical

The field supervisor shall monitor the response until it has been stabilized or terminated and assert control by directing units into or out of the response if necessary. If, in the supervisor's judgment, the circumstances require additional units to be assigned a Code-3 response, the supervisor may do so.

It is the supervisor's responsibility to terminate a Code-3 response that, in his/her judgment, is inappropriate due to the circumstances.

When making the decision to authorize a Code-3 response, the Patrol Lieutenant or the field supervisor should consider the following:

Tigard Police Department

Policy Manual

Officer Response to Calls

- The type of call
- The necessity of a timely response
- Traffic and roadway conditions
- The location of the responding units

316.7 FAILURE OF EMERGENCY EQUIPMENT

If the emergency equipment on the vehicle should fail to operate, the officer must terminate the Code-3 response and respond accordingly. In all cases, the officer shall notify the Patrol Lieutenant, field supervisor, or WCCCA of the equipment failure so that another unit may be assigned to the emergency response.

Canines

318.1 PURPOSE AND SCOPE

The Canine Program is established to augment police services to the community. Highly skilled and trained handlers and canines are used to supplement police operations to locate individuals, contraband and to apprehend criminal offenders.

318.2 GUIDELINES FOR THE USE OF CANINES

- (a) A canine may be used to track, watch, contain or search an area for lost or missing persons, evidence, narcotics and other contraband (if specifically trained in narcotic detection), persons of interest or suspected of minor violations or statutory offenses. During such use, the canine shall remain on a lead and shall not be allowed to apprehend or come into contact with a person or suspect unless it becomes necessary to:
 - 1. Protect the handler of the canine.
 - 2. Protect another officer.
 - 3. Protect a member of the public.

- (b) A canine may be used to locate and apprehend a suspect using mouth contact (bite) if the canine handler reasonably believes that the individual has either committed or threatened to commit any serious offense and if any of the following conditions exist:
 - 1. The individual poses an imminent threat of violence or serious harm to the public, any officer, or the handler.
 - 2. The individual is physically resisting or threatening to resist arrest and the use of a canine reasonably appears to be necessary to overcome such resistance.
 - 3. The individual(s) is/are believed to be concealed in an area where entry by other than the canine would pose a threat to the safety of officers or the public.
 - 4. The individual is continuing an attempt to escape and will not submit to apprehension.
 - 5. The individual poses an imminent threat of violence or serious harm to the public, any officer, or the handler.

- (c) It is recognized that situations may arise that do not fall within the provisions set forth in this policy. In any such case, a standard of objective reasonableness shall be used to review the decision to use a canine in view of the totality of the circumstances.
 - 1. The canine shall not be used for the following:
 - (a) To search for other animals.
 - (b) For crowd control, to include breaking up parties, family fights, or bar disturbances.
 - (c) Absent reasonable belief that an individual has committed or threatened to commit a criminal offense, mere flight from pursuing officer(s) shall not serve as cause for the use of a canine to apprehend an individual.

Tigard Police Department

Policy Manual

Canines

318.2.1 PREPARATIONS FOR UTILIZING A CANINE

Prior to the use of a canine to search for or apprehend any individual, the canine handler and/or the supervisor on scene shall carefully consider all pertinent information reasonably available at the time. The information should include, but is not limited to the following:

- (a) The individual's age or estimate thereof
- (b) The nature of the suspected offense
- (c) Any potential danger to the public and/or other officers at the scene if the canine is released
- (d) The degree of resistance or threatened resistance, if any, the subject has shown
- (e) The potential for escape or flight if the Police dog is not utilized
- (f) The potential for injury to officers or the public caused by the suspect if the Police dog is not utilized

A canine handler shall have the ultimate authority not to deploy the dog. The handler will evaluate each situation and determine if the use of a canine is technically feasible. The handler shall explain the rationale for not deploying the canine to the on-duty supervisor. The handler shall go to the scene before announcing the decision not to deploy. Generally, the decision to deploy the dog shall remain with the handler; however, a supervisor sufficiently apprised of the situation may decide not to deploy the dog.

318.2.2 WARNINGS GIVEN TO ANNOUNCE THE USE OF A CANINE

Unless it would otherwise increase the risk of injury or escape, a clearly audible warning to announce that a canine will be released if the person does not come forth or surrenders shall be made prior to releasing a canine. A reasonable amount of time shall be allowed for the suspect to respond, if feasible. The canine handler, when practical, shall first advise the supervisor of his/her decision if a verbal warning is not given prior to releasing the canine. In the case of building searches where multiple levels are present a warning shall be given on each floor. In the event of an apprehension, the handler shall document in any related report whether or not a verbal warning was given and, if none was given, the reasons why.

318.2.3 GUIDELINES FOR NON-APPREHENSION USE

Because canines have senses far superior to those of humans, they may often be effectively utilized to track or search for non-criminals (e.g., lost children, individuals who may be disoriented or in need of medical attention) or suspects wanted for minor criminal offenses. In such circumstances, it will be necessary for the handler to evaluate the conditions and ability of the canine to determine the feasibility of such an application.

- (a) Absent a change in circumstances which presents an immediate threat to officers, the canine or the public, such applications should be conducted on leash or under such conditions that the canine will not bite or otherwise injure the individual if located.
- (b) Throughout the deployment of the canine in such circumstances, the handler should give periodic verbal assurances that the canine will not bite or hurt the person.
- (c) Unless otherwise directed by a supervisor, assisting personnel should take direction from the handler in order to minimize interference with the canine.
- (d) Once the individual has been located, the canine should be placed in a down stay or otherwise secured as soon as it becomes reasonably practical.

318.2.4 REPORTING CANINE USE, BITES AND INJURIES

Whenever the canine is deployed, the Computer Aided Dispatch K9 mask will be used to record the specifics of the deployment.

After any deployment of the canine that results in an intentional use of force bite, an accidental bite or an alleged bite by the canine, an on duty supervisor shall be contacted as soon as reasonably possible. If a bite or injury results from the use of the canine, that information shall be documented in the following manner:

In the case of a use of force deployment with the canine or when a person alleges they were bitten, the procedures established under Policy 300 "Use of Force" shall be followed, including rendering first aid, photographing the injured areas, use of the Force Data Collection Report and a review by the supervisor. In the case of an accidental bite, the incident will be documented in the case report narrative. A separate memorandum will be written by the handler to the K9 Coordinator.

The following information should be recorded in the case of an accidental bite:

- (a) In all cases of bite or injury resulting from an accidental bite, photographs shall be taken of the bite or injury after first tending to the immediate needs of the injured party. If the injury requires medical attention, the subject should be transported to an appropriate medical facility. In the event an in-custody suspect requires medical attention, an officer should standby with the suspect until treatment has been rendered. Photos will be attached to the handler's memorandum and forwarded to the unit coordinator for review.
- (b) If a subject alleges an injury that is not visible, notification shall be made to a supervisor and the location of the alleged injury should be photographed.
- (c) In the case of an accidental bite, the canine handler's memorandum shall include the facts surrounding the deployment of the canine and the circumstances leading to the accidental bite. This memorandum can include the handler's recommendation as to whether the accidental bite was the result of a failure of policy, procedure or training. This memorandum shall be completed as soon as practical and forwarded to the canine unit coordinator for review.
- (d) Upon receipt of the accidental bite memorandum, the unit coordinator shall evaluate the accidental bite. This evaluation can include a review of all associated documents, photos, videos and witness statements. The purpose of the evaluation is to identify any potential problem with or failure of policy, procedure or training. The unit coordinator shall record their findings and any recommended remedy in memorandum format to be forwarded to the Patrol Operations Division Commander via the chain of command.
- (e) The Patrol Operations Division Commander has the authority to determine if this review needs to be forwarded to the City of Tigard Risk Manager or if further action is needed.
- (f) At a minimum, the finalized review shall be maintained in the working file of the canine for the service life of the dog and as long as records retention law require.
- (g) If a problem with or failure of training is specifically identified in the evaluation of the accidental bite, the unit coordinator shall liaison with the canine program training partner to establish what changes are needed to remedy the issue. The unit coordinator will document a proposed training plan and forward it to the Patrol Operations Division Commander for review.

Tigard Police Department

Policy Manual

Canines

In any case where the canine bites a person, the canine handler shall notify the local public health administrator immediately should their assigned canine develop abnormal behavior within 10 days of the biting incident (OAR 333-019-0024).

318.2.5 REPORTING CANINE INJURIES

In the event that a canine is injured, the injury will be immediately reported to the Lieutenant in charge of the Canine Unit.

Depending on the severity of the injury, the canine shall either be treated by the designated veterinarian or transported to a designated emergency medical facility for treatment. If the handler and dog are out of the area, the handler may use the nearest available veterinarian.

The injury will be documented on a Canine Use Report Form.

318.2.6 ASSIGNMENT OF CANINES

The canine teams shall be assigned to the Operations Division to supplement and assist Patrol.

The canine handler's primary duty is that of a Tigard Police officer who is responsible for calls for service and other routine patrol functions that may or may not require canine assistance. The canine is an additional patrol tool that should be implemented as needed.

The canine team may be assigned by a patrol supervisor to other functions based on the needs of the watch at that time.

318.3 REQUEST FOR USE OF CANINE TEAMS

Personnel within the Department are encouraged to freely solicit the use of the canines. Requests for a canine team from outside of Patrol shall go through the Unit Coordinator or the Patrol Lieutenant.

318.3.1 REQUEST FOR ASSISTANCE FROM OTHER AGENCIES

The Patrol Lieutenant, Unit Coordinator or on-duty supervisor must approve all requests for canine assistance from outside agencies subject to the following provisions:

- (a) Canine teams shall only be used for assignments that are consistent with this policy.
- (b) The handler has the ultimate authority to decide whether the canine should be used for any specific assignment.
- (c) Canine teams shall not be called out while off duty or used outside the boundaries of the City of Tigard unless authorized by the Patrol Lieutenant or the Unit Coordinator.
- (d) It shall be the responsibility of the canine handler to coordinate with outside agency personnel in order to minimize the risk of unintended injury.

318.3.2 REQUEST FOR PUBLIC DEMONSTRATIONS

All public requests for a canine team shall be approved by the Unit Coordinator prior to making any commitment.

Handlers shall not demonstrate any apprehension work to the public unless authorized to do so by the Unit Coordinator.

All records of medical treatment shall be maintained by the canine handler in the canine's medical file.

318.6.2 EMERGENCY MEDICAL CARE

The designated emergency medical treatment center or canine veterinarian shall render emergency medical treatment. The handler shall notify the Unit Coordinator as soon as practicable when emergency medical care is required.

318.7 TRAINING

Before assignment in the field, each canine team must have completed at least 360 hours of training in the care and use of the law enforcement animal, or must have passed the demonstration of minimum standards established by the Oregon Police Canine Association or other accredited and recognized animal handling organization (Oregon Revised Statutes 167.310). Cross trained dog teams or those dog teams trained exclusively for the detection of drugs and/or explosives shall be trained and certified to meet the standards established for such detection dogs

318.7.1 CONTINUED TRAINING

Each canine team shall thereafter be recertified to current Oregon Police Canine Association standards (as applicable) on an annual basis. Additional training considerations are as follows:

Tigard Police Department

- (b) Canine handlers are encouraged to engage in additional training with approval of the unit coordinator
- (c) In order to ensure that all training is consistent, no handler, trainer, or outside vendor is authorized to train to a standard that is contrary to the policies of the Tigard Police Department
- (d) All canine training shall be conducted while on-duty unless otherwise approved by the unit coordinator or Patrol Lieutenant

318.7.2 FAILURE TO SUCCESSFULLY COMPLETE TRAINING

Any dog team failing Oregon Police Canine Association canine certification standards (as applicable) shall not be deployed in the field until certification is achieved. When practical, pending successful certification, the canine handler shall be temporarily reassigned to regular patrol duties.

318.7.3 TRAINING RECORDS

All canine training records shall be maintained in the canine handler's training file.

Domestic Violence

320.1 PURPOSE AND SCOPE

The purpose of this policy is to provide the guidelines necessary to deter, prevent and reduce domestic violence through vigorous enforcement and to address domestic violence as a serious crime against society. The policy specifically addresses the commitment of this department to take enforcement action when appropriate, to provide assistance to victims and to guide officers in the investigation of domestic violence.

320.1.1 DEFINITIONS

Definitions related to this policy include:

Court order - All forms of orders related to domestic violence, that have been issued by a court of this state or another, whether civil or criminal, regardless of whether service has been made.

320.2 POLICY

The Tigard Police Department's response to incidents of domestic violence and violations of related court orders shall stress enforcement of the law to protect the victim and shall communicate the philosophy that domestic violence is criminal behavior. It is also the policy of this department to facilitate victims' and offenders' access to appropriate civil remedies and community resources whenever feasible.

320.2.1 INVESTIGATION PROCEDURES

Officers responding to domestic violence incidents shall conduct thorough investigations, including interviewing children, neighbors, and other potential witnesses. The same standards for probable cause apply to domestic violence offenses as for any other crime. When responding to an incident, officers are to observe the following guidelines for entry to premises:

- Officers may enter private premises with the permission of someone in lawful control of the premises, or
- Officers may enter private premises when it appears reasonably necessary to perform "community caretaking functions" as defined in O.R.S. 133.033.

In addition to a statement regarding the elements of the crime, officers must use the Domestic Violence Investigation Card to gather information for the Domestic Violence Supplemental Report. Officers should ask questions as indicated below:

- the nature of the relationship, including children;
- length of time in the relationship;
- frequency of interaction between the parties;
- if the relationship was terminated, how that happened and length of elapsed time between termination and current DV event;
- the ownership or presence of firearms;

Tigard Police Department

Policy Manual

Domestic Violence

- prior history of domestic disputes, violence or threatened violence, to include existence of restraining orders, no-contact orders or other protective orders currently in effect;
- and any other information the officer thinks of that will be of value in determining if a case of domestic violence has occurred.

320.2.2 DOMESTIC VIOLENCE RESOURCE TEAM RESPONSIBILITIES

Members of the DVRT will be responsible for conducting follow-up investigations on domestic violence incidents where additional victim contact will be beneficial. These investigations should include photographing of injuries even if they have been photographed prior. And an attempt to solicit additional information that may not have been disclosed at the time of the original incident. These investigations will include follow-up requested by the District Attorney's Office or as deemed necessary by the DVRT supervisor.

The DVRT supervisor and/or his designee will review all domestic violence reports and record them in a secure database. The supervisor and/or his designee will conduct ODARA reviews on all incidents involving male vs. female domestic violence. The supervisor will also be responsible for assigning follow-up to team members and for coordinating department domestic violence training. The supervisor will be responsible for preparing an annual report outlining the number of domestic violence cases, the number of domestic follow-ups and ODARA evaluations.

320.3 ENFORCEMENT OF DOMESTIC VIOLENCE

The department's policy with respect to domestic violence stresses the enforcement of the laws to protect the victim and is intended to communicate the attitude that violent behavior is criminal behavior and will not be tolerated.

320.3.1 MANDATORY ARRESTS

Domestic Crimes Police officers who respond to an incident of domestic violence and have probable cause to believe any of the following crimes have occurred, shall arrest and take into custody the alleged assailant or potential assailant of:

- (a) an assault that occurred between family or household members as defined in Oregon Revised Statutes 107.705
- (b) a menacing where one such person has placed the other in fear of imminent serious physical injury as described in ORS 163.190
- (c) a harassment where one such person has subjected the other to offensive physical contact considered to be harassment as described in ORS 166.065

In responding to domestic violence incidents, officers are not required to arrest both parties (ORS 133.055). Once a suspect has been arrested under the provisions of ORS 133.055, the suspect shall be taken to jail.

Police officers shall make reasonable efforts to identify who is the assailant or potential assailant in any incident. In identifying the assailant or potential assailant, an officer shall consider:

- (a) The comparative extent of the injuries inflicted or the seriousness of the threats creating a fear of imminent injury

Policy Manual

Domestic Violence

- (d) Whether any alleged crime was committed in self-defense
- (e) The potential for future assaults

Restraining Orders Officers shall arrest and take a suspect into custody when the officer has probable cause to believe that a restraining order has been issued, a copy of the order and proof of service on the suspect have been filed, and the suspect has violated the terms of the order (ORS 133.310)

320.3.2 RELEASE

Once a suspect has been arrested under the provisions of Oregon Revised Statutes 133.055 the suspect shall be taken to jail. Officers have no authority to subsequently release the arrested person and any post incarceration release decision will be the responsibility of corrections personnel.

320.3.3 PRIVATE PERSON'S ARREST

A private person cannot make an arrest of a person for violating the terms of restraining or protective orders: Pursuant to Oregon Revised Statutes 133.225, a private person may arrest another person for any other crime committed in the presence of the private person if the private person has probable cause to believe the arrested person committed the crime.

320.3.4 STAND-BY ASSISTANCE

As a condition of a restraining order to prevent abuse, the party being restrained may be required to move from the petitioner's residence, if in the sole name of the petitioner or if it is jointly owned or rented by the petitioner and the restrained party, or if the parties are married to each other. A party may also be restrained from going within a set distance of that residence, unless accompanied by a peace officer.

- (a) A peace officer who accompanies a party removing essential personal effects pursuant to a restraining order shall remain for up to 20 minutes and may temporarily interrupt the removal of property at any time. Restrained parties wishing to remove essential items from a residence only have the right to be accompanied by a peace officer one time.
- (b) When tenancy issues arise, a peace officer's duty to arrest remains unaffected.

320.3.5 ADDITIONAL CONSIDERATIONS

When responding to a domestic violence complaint involving an employee from another law enforcement agency, all responding officers, investigators and supervisors shall, as closely as possible, follow the same procedures established herein. The responding supervisor shall notify the Chief of Police, or designee, of the accused officer's jurisdiction verbally as soon as possible and in writing within 24 hours. In the event the reported incident involves a Sheriff, Chief of Police, Commissioner, or other law enforcement department head, the supervisor shall immediately notify the individual in government who has direct oversight of the individual.

320.4 COURT PROTECTIVE ORDERS

In accordance with the Family Abuse Prevention Act, courts may issue a "Restraining Order to Prevent Abuse." All valid restraining orders issued by any county in Oregon, as well as out of state and tribal court restraining and protective orders, should be enforced.

Tigard Police Department

Policy Manual

Domestic Violence

Restraining orders may order the following:

- (a) Temporary custody of the children
- (b) That the respondent be required to move from the petitioner's residence
- (c) That the respondent be restrained from entering, or attempting to enter, a reasonable area surrounding the petitioner's current or subsequent residence if the respondent is required to move from petitioner's residence
- (d) That a peace officer accompany the party who is leaving or has left the parties' residence to remove essential personal effects of the party or the party's children, or both, including but not limited to clothing, toiletries, diapers, medications, Social Security cards, birth certificates, identification and tools of the trade
- (e) That the respondent be restrained from intimidating, molesting, interfering with or menacing the petitioner, or attempting to intimidate, molest, interfere with or menace the petitioner
- (f) That the respondent be restrained from intimidating, molesting, interfering with or menacing any children in the custody of the petitioner, or attempting to intimidate, molest, interfere with or menace any children in the custody of the petitioner
- (g) That the respondent be restrained from entering, or attempting to enter, on any premises and a reasonable area surrounding the premises
- (h) Other relief that the court considers necessary to provide for the safety and welfare of the petitioner and the children in the custody of the petitioner including, but not limited to, emergency monetary assistance from the respondent
- (i) That the respondent have no contact with the petitioner in person, by telephone or by mail except as described in parenting time ordered under this section

Once a restraining order has been issued by the court, the order must be served on the party being restrained. The Order may be served by the Sheriff, a private person, or a peace officer called to the scene of a domestic disturbance. A true copy of proof of service is to be returned to the Sheriff for entry into LEDS and NCIC.

320.4.1 VERIFICATION OF RESTRAINING ORDERS

Whenever a complainant advises of the existence of a restraining order, the officer shall immediately attempt to determine the following:

- (a) Whether a restraining order is on file with LEDS or whether the complainant has a copy of the restraining order in his/her possession
- (b) Whether a restraining order is still valid as to duration/time.
- (c) Whether the proof of service or prior notice exists or that the suspect was in court when the order was made
- (d) The terms of the restraining order

In the event the suspect is no longer at the scene, officers shall document the incident for follow-up investigation.

320.4.2 ENFORCEMENT PROCEDURES

Officers shall arrest and take a suspect into custody when the officer has probable cause to believe that a restraining order has been issued, a true copy of the order and proof of service on the suspect have been filed, and the suspect has violated the terms of the order (Oregon Revised Statutes 133.310). Officers with probable cause to believe that a valid

Tigard Police Department

Policy Manual

Domestic Violence

foreign (issued by another county, state or tribal court) restraining order exists shall enforce such order as if issued in this state. Violation of a restraining order issued under the Family Abuse Prevention Act constitutes Contempt of Court. Proof of service may be established by any one of the following:

- (a) The officer has been advised by dispatch the order is listed in LEDS as valid and has been served on the suspect.
- (b) The complainant produces a valid copy of the order bearing a file stamp of a court and proof of service on the suspect.
- (c) The officer has verified the existence of the order and the order reflects that the suspect was personally present in court when the order was made which removes the proof of service requirements.
- (d) The existence of the order has been verified and there is proof that an officer has previously informed the suspect of its terms.

320.4.3 PROOF OF SERVICE NOT VERIFIED

When the officer verifies that a restraining order exists but cannot verify proof of service or prior knowledge of the order by the suspect, the officer shall perform the following:

- (a) At the request of the complainant and upon presentation of an endorsed copy of the restraining order and a proof of service form, serve a copy of the order on the suspect. Submit the completed proof of service form to the court, regardless of whether or not the suspect is taken into custody.
- (b) Immediately inform the suspect of the terms of the order and place the suspect on notice that violation of the order will result in arrest.
- (c) Obtain the suspect's address.
- (d) Enforce the order but do not make an arrest for any violation of the order occurring prior to verified proof of service or before an officer's admonition of the terms of the order. If the suspect continues to violate the order after being advised of the terms, an arrest should be made. If the suspect complies with the order the officer shall complete a report detailing the specific terms of the order and advisement, the name of the advising officer, and the date and time of the advisement.
- (e) The officer serving the order on the suspect must obtain a Proof of Service form from the Sheriff's Office, complete, sign and submit it to the issuing court.

320.4.4 WHEN ORDERS ARE NOT VERIFIABLE

If the victim is not in possession of the restraining order and/or for any reason the officer can not verify the validity of the order the following action shall be taken:

- (a) Write a report and provide the report number to the victim.
- (b) Provide the victim with contact information for the investigating officer.
- (c) Inform the victim of the right to make a private person's arrest for an appropriate criminal offense other than for violating the restraining order.

In domestic violence cases where the suspect has left the scene an investigation should be conducted to determine if a crime has been committed. A written report should be completed and the victim informed of the case number and the follow-up criminal procedure.

Tigard Police Department

Policy Manual

Domestic Violence

320.5 EVIDENCE

The following guidelines should be considered by officers investigating domestic violence cases:

320.5.1 RECORDING INJURIES AND STATEMENTS

All visible injuries should be photographed regardless of severity and all victims shall receive proper medical care prior to being photographed, if needed or desired. When permitted by law, officers may make a video recording of the injuries and victim statements.

Victims whose injuries are not visible at the time of the incident should be advised to contact the officer investigating the matter if the injuries become visible at a later time. If that officer is not available then the on-duty Watch Commander or shift supervisor shall assign another officer or investigator to photograph and document the injuries. An investigator may be assigned to ensure the injuries are photographed during the course of preparing the case for court.

320.5.2 AUDIO RECORDING STATEMENTS

When and where possible the officer should utilize an audio recording device to capture the statement of the victim, suspect and witnesses at the time of the investigation. Due to the nature of this type of incident, involved parties will later change their statements or attempt to mitigate the severity of the assault or threat to protect family members. This type of evidence provides a better understanding of the emotions and frame of mind of involved parties at the time of the investigation.

320.6 VICTIM ASSISTANCE

During the course of investigating and reporting domestic violence cases, an officer may assist a victim in many ways. Some suggested methods of assistance are:

- (a) Assist in obtaining appropriate medical attention if a complainant claims injury, whether visible or not.
- (b) Assist in arranging to transport the victim to an alternate shelter if the victim expresses a concern for their safety, or the officer determines a need exists.
- (c) Stand by for a reasonable amount of time when a complainant requests police assistance while removing essential items of personal property.
- (d) Explain legal options available to the victim including the private person's arrest process, temporary restraining or stalking orders under the Family Abuse Prevention Act, and in cases of arrest, the follow up procedures and ensuing criminal proceedings.
- (e) Advise the victim of available community resources.
- (f) The officer or on-scene supervisor should caution the victim to be alert for, and to report any future stalking or other criminal behavior by the abuser, and assist the victim in safety planning including access to shelter if necessary.

If information exists that a likelihood of continued abuse or violations may occur, officers will notify on-coming shift officers of the situation.

320.6.1 WRITTEN NOTICE TO VICTIMS

Officers must provide each person who has been a victim of domestic violence with a copy of the department Domestic Violence Information Card containing information relating to

Tigard Police Department

Policy Manual

Domestic Violence

shelters or other services available in the community and notice of the legal rights and remedies available to victims (Oregon Revised Statutes 133.055).

Reporting officers should provide the victim with the case number of the report. The case number may be placed in the space provided on the domestic violence pamphlet provided to the victim. If the case number is not immediately available, an explanation should be given about how the victim can obtain the information at a later time.

320.7 FOREIGN COURT ORDERS

Various types of orders may be issued in domestic violence cases. Any foreign court order properly issued by a court of another state, Indian tribe or territory shall be enforced by officers as if it were the order of a court in this state. An order should be considered properly issued when it reasonably appears that the issuing court has jurisdiction over the parties and reasonable notice and opportunity to respond was given to the party against whom the order was issued (18 USC § 2265). An otherwise valid out-of-state court order shall be enforced, regardless of whether the order has been properly registered with this state.

320.8 FIREARMS

Pursuant to the Federal Domestic Violence Gun Control Act (18 USC §§921(a) and 922(d)), any person who has been convicted of a misdemeanor domestic violence offense is prohibited from possessing any firearm or ammunition. Additionally, any person convicted of a felony is prohibited from possessing a firearm (Oregon Revised Statutes 166.270).

Oregon and Federal law also prohibit firearm possession by any individual who is the subject of a domestic violence restraining order (this federal restriction does not apply to temporary restraining orders) (18 USC § 922(d)(8)) and Oregon Revised Statutes 107.718).

Officers may take temporary custody, for safekeeping, of any weapons upon the request of someone in lawful possession of them.

In the event a person has been taken into custody and is found to own, have in his or her possession or under his or her control, any firearms or other deadly weapons, the weapons should be taken into temporary custody for safekeeping by the handling officer if the officer reasonably believes the weapons represent a danger to the person or others if the person is released. Any weapons seized will be transported to the property room and stored.

Whenever the handling officer or the assigned detective has cause to believe that the future return of any confiscated weapon(s) might endanger the person or others, the officer shall detail those facts and circumstances in a report and direct the Property Officer to hold the weapons pending judicial review. The officer or detective shall, within five days, prepare a petition to the Circuit Court for an order authorizing retention, or other disposition of the weapons.

The handling officer shall further advise the person of the procedure outlined in Policy Manual § 320.8.1 for the return of any firearm or other deadly weapon which has been confiscated.

320.8.1 RETURN OF FIREARMS

Weapons taken into custody for safekeeping under §320.8 will be returned to the lawful owner upon request unless the seizing officer or the assigned detective has placed a hold on the weapons pending a petition for retention. Once the petition has been ruled on by the court, the weapons will be released or disposed of in accordance with the court order.

Tigard Police Department

Policy Manual

Domestic Violence

Prior to releasing any weapon, Property personnel shall be required to ensure the person is legally eligible to possess the weapon.

In the event that no timely petition is filed with the court or the court denies such a petition, the seized weapon(s) shall be eligible for release to the lawful owner or other authorized individual unless such weapon(s) represent evidence in a criminal matter or there is other independent good cause to continue to retain custody of the weapon(s).

320.9 REPORTS AND NOTIFICATIONS

A police report shall be written on all domestic violence incidents, which are determined to be actual incidents whether they are verbal, physical, where property damage is done, or where a crime is alleged. Officers must use the *Domestic Violence Investigation card* to gather information for the *Domestic Violence Supplemental Report*.

Apprehension & Arrest

321.1 PURPOSE AND SCOPE

Apprehension and arrest of those who violate the law is one of the primary functions of law enforcement. The manner in which department members carry out their responsibilities in this area is extremely important. Officer performance affects the safety of citizens and their property. It also affects the safety of other officers. Finally, it affects the reputation and civil liability of the department and its members. This procedure provides guidelines on how to handle arrests, searches, booking, release agreements and citations.

321.2 POLICY

The administration of criminal justice consists of the identification, arrest, prosecution, punishment, and rehabilitation of those who violate the law. Once a crime has been committed, it is the duty of the department to initiate the criminal justice process by identifying and arresting the perpetrator, to obtain necessary evidence, and to cooperate in the prosecution of the case. As the certainty of swift and sure punishment serves as an effective deterrent to crime, the department must diligently strive to solve crime and to bring perpetrators to justice. Officers are expected to take appropriate action within the procedures of the department in response to violation of the law and ordinances when violations come to their attention.

321.3 DEFINITIONS

Probable Cause: Means that there is a substantial objective basis for believing that more likely than not an offense has been committed and a person to be arrested has committed it (ORS 131.005 SUB.11).

Arrest: Means to place a person under actual or constructive restraint or to take a person into custody for the purpose of charging that person with an offense. A stop as authorized by ORS 131.605 to 131.625 is not an arrest. (ORS 131.005 SUB. 11).

321.4 RESPECT FOR CONSTITUTIONAL RIGHTS

It is the fundamental duty of every department member to observe, respect, and protect the constitutional rights of every person with whom we come into contact. No person shall be subjected to any stop, detention, or search by department members when such a stop, detention or search is based solely on the race, color, religion, ethnic or national origin, sex, sexual orientation, age disability, medical condition, or inclusion in any other group or classification recognized by law. An officer who acts lawfully and within the scope of authority does not deprive persons of their civil liberties. Officers may, within their scope of authority, make reasonable inquiries, conduct investigations, and arrest on probable cause.

321.5 DISCRETION AND ALTERNATIVES TO ARREST

Police discretion exists whenever the limits of authority leave an officer free to make choices among possible courses of action or inaction. It is not physically possible to enforce all the laws all the time, nor is it possible to expect all police officers to react exactly the same under similar circumstances. This department recognizes that rarely do officers become involved in situations that can be handled with precise standards and procedures. Discretion shall be used without regard for the offender's attitude towards the police unless such conduct constitutes a separate offense.

Tigard Police Department

Policy Manual

Apprehension & Arrest

Because of discretion, procedural alternatives exist. Any alternative chosen must be positive and in the best interest of the law, the public, and the persons involved. Alternatives to physical arrest include citation, application for complaint, warning, or diversion and referral. Alternatives to lodging a person in the jail include Security Release and Recognizance agreement when allowable by law.

Alternatives to physical arrest **shall** be considered after it has been determined that the offender is of no danger to himself or another person, is not likely to continue the offense, and will be available if needed in the future.

321.5.1 DISCRETION CONCERNING ISSUANCE OF MISDEMEANOR CITATIONS

ORS 133.045 allows the use of a criminal citation for all violations, most misdemeanors and some felony charges, which may be deemed a misdemeanor after sentence is imposed. A criminal citation is authorized if the officer determines:

- (a) The arrest is made without an arrest warrant (unless the warrant specifically authorized a criminal citation) and is not an arrest under the Family Abuse Prevention Act.
- (b) The crime is a misdemeanor or non violent felony (e.g. crime against property)
- (c) The suspect does not appear to pose an immediate threat to the victim, community or self
- (d) The suspect does not appear to pose a risk of fleeing the area.
- (e) The suspect has been positively identified with in reasonable certainty.

321.5.2 RESTRICTIONS ON DISCRETION

- (a) Warrants of arrest, bench warrants, a warrant of arrest after indictment, and a governor's warrant of arrest and extradition, violation of restraining orders and domestic assault do not allow for discretion.
- (b) A police officer shall not use a criminal citation for valid arrest warrants except where specifically authorized by the issuing authority, or during domestic disturbance incidents meeting requirements of ORS 133.055.
- (c) Members are authorized to use verbal or written warnings to resolve minor traffic and criminal violations when appropriate.
- (d) Even though an officer reasonably believed probable cause to arrest existed at the time of the arrest, when an officer determines that the probably cause under which the person was arrested does not in fact or no longer exists, the officer shall immediately release the arrested person.

321.6 CRITERIA FOR ARRESTS

Officers are empowered with a great deal of discretion in dealing with matters of booking and incarceration of offenders. However, certain criteria should be adhered to in determining the disposition of enforcement action.

321.6.1 FELONY OFFENDERS

Persons arrested for felony crimes will be handled using the following criteria:

- (a) A person arrested for Murder and all Measure 11 crimes must be taken into physical custody. Only a judge may set conditions for release.

Tigard Police Department

Policy Manual

Apprehension & Arrest

- (b) In all class A and B felonies (except those listed above), and escape or bail jumping in any degree, release shall be made only upon receipt of 10 percent of the security amount plus the execution of the Security Release Agreement. If unable to meet these criteria or the factual circumstance dictates otherwise, the suspect will be transported to the appropriate jail.
- (c) In cases where a physical arrest is made, a supervisor will be advised of the circumstances regarding the arrest prior to transport.
- (d) All class C felonies may be handled by incarceration, release upon execution of a recognizance agreement or issuance of a criminal citation (with the exception of those involving domestic violence). A person who is transported to the temporary hold, and who fails to meet the criteria for a recognizance agreement must post security as described above, or be transported to the appropriate jail.

321.6.2 MISDEMEANOR OFFENDERS

Persons accused of misdemeanor offenses may be issued a criminal citation, released on a recognizance agreement or depending on the severity of the offense and with due consideration for any hazard they may pose taken into custody and lodged in the county jail.

- (a) In cases where a physical arrest is made, a supervisor will be advised of the circumstances regarding the arrest prior to transport.
- (b) In all cases where an arrest has been made or a citation to appear has been issued, the officer will obtain a case number and complete a custody report.

321.6.3 JUVENILE OFFENDERS

Refer to Policy 324 Temporary Custody of Juveniles.

Response to crimes involving juveniles will not differ from that for adult crimes. Officers may use any reasonable means to protect themselves when a juvenile is a threat to personal or public safety.

- (a) Juvenile offenders will only be lodged at the direction of the Juvenile Department. When a juvenile is lodged at the direction of the Juvenile Department, a copy of the incident and custody reports will be submitted within 24 hours of the physical arrest. Officers will make reasonable attempts to notify the parents (or guardian) any time a juvenile is taken into physical custody. The date, time, and person(s) notified will be documented in the space provided on the custody report. If the Juvenile Department chooses not to lodge the juvenile, officers will document the name of the releasing agent in the body of their report and any conditions of the release.
- (b) Officers may utilize Tigard Peer court to handle those juvenile incidents that meet the program criteria. Refer to Policy 801 - Youth Courts.

321.7 AUTHORITY TO ARREST

ORS 133.235 empowers all Oregon peace officers to make arrests for offenses, pursuant to ORS 133.310, anywhere within the boundaries of the State of Oregon. Department policy recognizes this authority, and recommends discretion on the part of each officer.

- On-Duty Arrests On duty arrests may be made outside the boundaries of the city in cases of hot and /or fresh pursuit, or while following up on crimes committed within the State of Oregon or while assisting another agency.

Tigard Police Department

Policy Manual

Apprehension & Arrest

- **Off-Duty Arrests** Officers observing criminal activity while off duty are not expected to make arrests or take action if such action would place them in danger of being harmed. It is recommended that the officer be the best witness possible as circumstance allows. If an officer feels there is a need to take action, the officer should affect an arrest only when an imminent risk to life exists, and a reasonable opportunity does not exist to contact the police agency with the primary jurisdiction. In such situations the involved officer shall clearly identify him or herself as a police officer.

321.8 TREATMENT OF INDIVIDUALS UNDER ARREST

In making arrests, officers must treat individuals with respect. Officers will not physically mistreat or verbally harass any individual. If a person is sick or injured then the following will apply:

- Prior to arrest an injured person, officers will consult with a supervisor.
- Arrested persons complaining of minor injury or illness will be transported to Meridian Park or Tuality Hospital after consulting with a supervisor.
- Medical bills for injuries incurred as a result of law enforcement activity may be paid out of the State of Oregon's Law Enforcement Liability Accident (LEMLA).
- An officer will accompany any arrested person who is transported in an ambulance.
- An officer will remain with an injured person, in custody, at a hospital, clinic, or doctor's office until relieved.
- The jail commander or designee will be informed of medical treatment provided to any prisoner prior to booking.
- Medical bills incurred after arrest on charges under the Tigard Municipal Code may be at City expense.
- Persons exhibiting or perceived to have a disability, may require special handling or accommodation in security, transport, processing and detention. However, **these special conditions will be secondary to the safety of the officer, the public and the prisoner.** Officers will use discretion and common sense in determining the appropriate handling or accommodation. Such prisoners may be afforded the protections of the American's with Disabilities Act (ADA).

321.9 ADVISING SUSPECTS OF THEIR RIGHTS

Officers are responsible for advising suspects of their constitutional rights in the proper manner. Officers must observe legal requirements and departmental procedures at all stages of an investigation and arrest. A suspect shall be advised of rights prior to custodial interrogation or the taking of any statements likely to be incriminating, oral or written, after custody or arrest. The officer shall document all admonishments of rights prior to the taking of the statements. If statements are being recorded, suspect should be advised of rights on tape before questioning begins.

321.9.1 ACCESS TO COUNSEL

Persons arrested shall be granted access to counsel, if requested, prior to any further custodial interrogation, in accordance with the Police Department advice of rights statement. Access may be by telephone or in person, depending on the existing conditions.

Tigard Police Department

Policy Manual

Apprehension & Arrest

321.9.2 VOLUNTEERED AND SPONTANEOUS STATEMENTS

These are not barred and no warning need be given preceding them. However, questioning initiated by the police officer thereafter in clarification or amplification of the volunteered or spontaneous statement, should be preceded by a Miranda warning.

321.9.3 DOCUMENTATION OF RIGHTS

The fact that a prisoner who gives a statement was so advised or admonished should be included at the beginning of any written statement or included in the police report if the statement is obtained orally.

- (a) Advice of Constitutional Rights shall be read directly from the department authorized Miranda rights card.
- (b) The officer shall document who gave the rights advisement to the suspect, the date and time of the advisement.
- (c) If an officer utilizes the Tigard Police Constitutional Rights form, then the suspect will voluntarily sign indicating they understand their rights and have no questions about their rights. If they refuse to sign, the officer will write "Refused" in the suspect's signature place. This form will be kept with the officer's report.
- (d) It may be necessary for the officer to testify in court as to the precise language used to warn the suspect of their rights and the precise language by which the suspect waived these rights.

Search & Seizure

322.1 PURPOSE AND SCOPE

Both the federal and state Constitutions provide every individual with the right to be free from unreasonable searches and seizures. This policy provides general guidelines for Tigard Police Department personnel to consider when dealing with search and seizure issues.

322.2 POLICY

It is the policy of the Tigard Police Department to respect the fundamental privacy rights of individuals. Members of this department will conduct searches in strict observance of the constitutional rights of persons being searched. All seizures by this department will comply with relevant federal and state law governing the seizure of persons and property.

In accordance with the Training Policy, the Department will provide relevant and current training to officers as guidance for the application of current law, local community standards and prosecutorial considerations regarding specific search and seizure situations, as appropriate.

322.3 SEARCHES

The U.S. Constitution generally provides that a valid warrant is required in order for a search to be valid. There are, however, several exceptions that permit a warrantless search.

Examples of law enforcement activities that are exceptions to the general warrant requirement include, but are not limited to, searches pursuant to the following:

- Valid consent
- Incident to a lawful arrest
- Legitimate community caretaking interests
- Vehicle searches under certain circumstances
- Exigent circumstances

Certain other activities are recognized by federal and state courts and by certain statutes as legitimate law enforcement activities that also do not require a warrant. Such activities may include seizure and examination of abandoned property, and observations of activities and property located on open public areas.

Because case law regarding search and seizure is constantly changing and subject to interpretation by the courts, each member of this department is expected to act in each situation according to current training and his/her familiarity with clearly established rights as determined by case law.

Whenever practicable, officers are encouraged to contact a supervisor to resolve questions regarding search and seizure issues prior to electing a course of action.

322.4 SEARCH PROTOCOL

Although conditions will vary and officer safety and other exigencies must be considered in every search situation; the following guidelines should be followed whenever circumstances permit:

Tigard Police Department

Policy Manual

Search & Seizure

- (a) Members of this department will strive to conduct searches with dignity and courtesy.
- (b) Officers should explain to the person being searched the reason for the search and how the search will be conducted.
- (c) Searches should be carried out with due regard and respect for private property interests and in a manner that minimizes damage. Property should be left in a condition as close as reasonably possible to its pre-search condition.
- (d) In order to minimize the need for forcible entry, an attempt should be made to obtain keys, combinations or access codes when a search of locked property is anticipated.
- (e) When the person to be searched is of the opposite sex as the searching officer, a reasonable effort should be made to summon an officer of the same sex as the subject to conduct the search. When it is not practicable to summon an officer of the same sex as the subject, the following guidelines should be followed:
 - 1. Another officer or a supervisor should witness the search.
 - 2. The officer should not search areas of the body covered by tight-fitting clothing, sheer clothing or clothing that could not reasonably conceal a weapon.

322.5 DOCUMENTATION

Officers are responsible to document any search and to ensure that any required reports are sufficient including, at minimum, documentation of the following:

- Reason for the search
- Any efforts used to minimize the intrusiveness of any search (e.g., asking for consent or keys)
- What, if any, injuries or damage occurred
- All steps taken to secure property
- The results of the search, including a description of any property or contraband seized
- If the person searched is the opposite sex, any efforts to summon an officer of the same sex as the person being searched and the identification of any witness officer

Supervisors shall review reports to ensure the reports are accurate, that actions are properly documented and that current legal requirements and department policy have been met.

Temporary Custody of Juveniles

324.1 PURPOSE AND SCOPE

This policy provides guidelines consistent with the Juvenile Justice and Delinquency Prevention Act for juveniles taken into temporary custody by members of the Tigard Police Department (42 USC § 5633).

Guidance regarding contacting juveniles at schools or those who may be victims is provided in the Child Abuse Policy.

324.1.1 DEFINITIONS

Definitions related to this policy include:

Juvenile non-offender - An abused, neglected, dependent or alien juvenile who may be legally held for his/her own safety or welfare. This includes a juvenile taken into protective custody when conditions or surroundings reasonably appear to jeopardize the juvenile's welfare or when it reasonably appears that the child has run away from home (ORS 419B.150). This also includes any juvenile who may have initially been contacted for an offense that would not subject an adult to arrest (e.g., fine-only offense) but was taken into custody for his/her protection or for purposes of reuniting the juvenile with a parent, guardian or other responsible person.

Juvenile offender - A juvenile under 18 years of age who is alleged to have committed an offense that would subject an adult to arrest (a non-status offense). It also includes a juvenile who possesses a handgun in violation of ORS 166.250 (28 CFR 31.303).

Non-secure custody - When a juvenile is held in the presence of an officer or other custody employee at all times and is not placed in a locked room, cell or behind any locked doors. Juveniles in non-secure custody may be handcuffed but not to a stationary or secure object. Personal supervision, through direct visual monitoring and audio two-way communication is maintained. Monitoring through electronic devices, such as video, does not replace direct visual observation.

Secure custody - When a juvenile offender is held in a locked room, a set of rooms or a cell. Secure custody also includes being physically secured to a stationary object.

Examples of secure custody include:

- (a) A juvenile left alone in an unlocked room within the secure perimeter of the adult temporary holding area.
- (b) A juvenile handcuffed to a rail.
- (c) A juvenile placed in a room that contains doors with delayed egress devices that have a delay of more than 30 seconds.

These juveniles should not be held at the Tigard Police Department unless they have been evaluated by a qualified medical and/or mental health professional.

If the officer taking custody of the juvenile believes the juvenile may be a suicide risk, the juvenile shall be under continuous direct supervision until evaluation, release or a transfer is completed.

There shall be no contact between juveniles held in temporary custody (either non-secure or secure detention) and adult prisoners.

324.4 CUSTODY OF JUVENILES

Officers should take custody of a juvenile and temporarily hold the juvenile at the Tigard Police Department when there is no other lawful and practicable alternative to temporary custody. Refer to the Child Abuse Policy for additional information regarding detaining a juvenile that is suspected of being a victim.

No juvenile should be held in temporary custody at the Tigard Police Department without authorization of the arresting officer's supervisor or the Patrol Lieutenant.

Any juvenile taken into custody shall be released to the care of the juvenile's parent or other responsible adult or transferred to a juvenile custody facility or to other authority as soon as practicable and in no event shall a juvenile be held beyond five hours from the time of his/her entry into the Tigard Police Department (ORS 419B.160; ORS 419C.130).

324.4.1 CUSTODY OF JUVENILE NON-OFFENDERS

Non-offenders taken into protective custody in compliance with the Child Abuse Policy should generally not be held at the Tigard Police Department. Custodial arrangements should be made for non-offenders as soon as reasonably possible. Juvenile non-offenders may not be held in secure custody (42 USC § 5633).

324.4.2 CUSTODY OF JUVENILE STATUS OFFENDERS

Status offenders should generally be released by citation or with a warning rather than taken into temporary custody. However, officers may take custody of a status offender if requested to do so by a parent or legal guardian in order to facilitate reunification (e.g., transported home or to the station to await a parent). Juvenile status offenders may not be held in secure custody (42 USC § 5633).

324.4.3 CUSTODY OF JUVENILE OFFENDERS

Generally, a juvenile offender may be taken into custody:

- (a) When it reasonably appears that the juvenile is a fugitive from another state (ORS 419C.145).

In most cases, juveniles are simply referred to the Washington County Juvenile Department for prosecution. The *Tigard Police Custody Report* (with all charges listed) serves as the referral document. Upon arresting a juvenile, Officers will contact the Washington County Juvenile Department; they will be provided with direction as to if the youth will be lodged; released to a responsible adult; or released upon their own recognizance. Officers should document who they spoke with at the juvenile department and write the custody decision in the body of the custody report. Those youth that **are not lodged** will receive a completed

When a juvenile is lodged (by direction of the Washington County Juvenile Department) the completed custody report must be provided within 24 hours of the arrest.

Juvenile offenders should be held in non-secure custody while at the Tigard Police Department unless another form of custody is authorized by this policy or is necessary due to exigent circumstances.

The Patrol Lieutenant shall arrange to have the juvenile evaluated by a mental health team as soon as possible if there is evidence of mental impairment. If inadvertent or accidental contact does occur, reasonable efforts shall be taken to end the contact.

324.8 TEMPORARY CUSTODY REQUIREMENTS

Members and supervisors assigned to monitor or process any juvenile at the Tigard Police Department shall ensure the following:

However, non-offenders and status offenders should not be handcuffed unless they are combative or threatening.

Other restraints shall only be used after less restrictive measures have failed and with the approval of the Patrol Lieutenant. Restraints shall only be used so long as it reasonably appears necessary for the juvenile's protection or the protection of others.

Juveniles in restraints shall be kept away from other unrestrained juveniles or monitored in such a way as to protect the juvenile from abuse.

324.10 PERSONAL PROPERTY

The officer taking custody of a juvenile offender or status offender at the Tigard Police Department shall ensure a thorough search of the juvenile's property is made and all property is removed from the juvenile, especially those items that could compromise safety, such as pens, pencils and belts.

Policy Manual

Temporary Custody of Juveniles

324.11 SECURE CUSTODY

Only juvenile offenders 14 years or older may be placed in secure custody. Patrol Lieutenant approval is required before placing a juvenile offender in secure custody.

Secure custody should only be used for juvenile offenders when there is a reasonable belief that the juvenile is a serious risk of harm to him/herself or others.

Members of this department should not use secure custody for convenience when non-secure custody is, or later becomes, a reasonable option.

When practicable, handcuffing one hand of a juvenile offender to a fixed object while otherwise maintaining the juvenile in non-secure custody should be considered as the method of secure custody, rather than the use of a locked enclosure. An employee must be present at all times to ensure the juvenile's safety while secured to a stationary object.

Generally, juveniles should not be secured to a stationary object for more than 60 minutes. Supervisor approval is required to secure a juvenile to a stationary object for longer than 60 minutes and every 30 minutes thereafter. Supervisor approval should be documented.

324.11.1 LOCKED ENCLOSURES

A thorough inspection of the area shall be conducted before placing a juvenile into the enclosure. A second inspection shall be conducted after removing the juvenile. Any damage noted to the room should be photographed and documented in the crime report.

The following requirements shall apply to a juvenile offender who is held inside a locked enclosure:

- (a) The juvenile shall constantly be monitored by an audio/video system during the entire time in custody.
- (b) Juveniles shall have constant auditory access to department members.
- (c) Initial placement into and removal from a locked enclosure shall be logged.
- (d) Random personal visual checks of the juvenile by staff member, no less than every 15 minutes, shall occur.
 1. All checks shall be logged.
 2. The check should involve questioning the juvenile as to his/her well-being (sleeping juveniles or apparently sleeping juveniles should be awakened).
 3. Requests or concerns of the juvenile should be logged.
- (e) Males and females shall not be placed in the same locked room.
- (f) Juvenile offenders should be separated according to severity of the crime (e.g., felony or misdemeanor).
- (g) Restrained juveniles shall not be mixed in a cell or room with unrestrained juveniles.

324.12 SUICIDE ATTEMPT, DEATH OR SERIOUS INJURY OF A JUVENILE

The Patrol Lieutenant will ensure procedures are in place to address the suicide attempt, death or serious injury of any juvenile held at the Tigard Police Department. The procedures will address:

- (a) Immediate notification of the on-duty supervisor, Chief of Police and Criminal Investigation Section supervisor.

Tigard Police Department

324.14 RESTRICTION ON FINGERPRINTING AND PHOTOGRAPHING

A juvenile taken into custody under ORS 419C.080 shall be photographed and fingerprinted (ORS 419A.250(2)).

324.15 RECORDS

Fingerprint and photograph files or records of juveniles must be kept separate from those of adults (ORS 419A.250).

Reports and other material relating to juveniles is generally considered privileged and may not be disclosed directly or indirectly except as provided in Records Release and Security Policy.

Elder Abuse

326.1 PURPOSE AND SCOPE

The purpose of this policy is to provide members of this department with direction and understanding of their role in the prevention, detection and intervention in incidents of elder abuse.

326.1.1 POLICY

It is the policy of the Tigard Police Department to treat reports of violence against elderly persons as a high priority criminal activity. This department will investigate all allegations of abuse of elderly persons and persons with disabilities and will work cooperatively with the appropriate agencies and resources to reduce the incidence of abuse. Each incident will be fully investigated and documented in a written report, regardless of the relationship between the victim and the suspect. All cases of suspected elder abuse reported to and/or investigated by the Tigard Police Department will follow the countywide protocol established by the District Attorney's multi-disciplinary elder abuse team, if applicable (ORS 430.731).

- (b) Neglect or failure to provide basic care which leads to physical harm through withholding of services necessary to maintain health and well being.
- (c) Abandonment, including desertion or willful forsaking of an elderly or dependent person or the withdrawal or neglect of duties and obligations owed an elderly or dependent person by a caretaker or other person.
- (d) Unlawful sexual contact.
- (e) Financial exploitation, fraud or the illegal or improper use of a resident's resources for the personal profit or gain of another person.

For purposes of Criminal Mistreatment statutes, the following definitions are provided (Oregon Revised Statutes 163.205(2)).

Tigard Police Department

Policy Manual

Elder Abuse

Dependent Person - a person who, because of age or a physical or mental disability, is dependent upon another to provide for the person's physical needs.

Elderly Person - any person 65 years of age or older.

Legal Duty- includes, but is not limited to a duty created by family relationship, court order, contractual agreement, or statutory or case law.

326.3 MANDATORY REPORTING REQUIREMENTS

Officers are required to report suspected abuse of elders and residents of long-term care facilities. With respect to elders, "any public or private official having reasonable cause to believe that any person 65 years of age or older with whom the official comes in contact, while acting in an official capacity, has suffered abuse, or that any person with whom the official comes in contact while acting in an official capacity has abused a person 65 years of age or older shall report or cause a report to be made as required in Oregon Revised Statutes 124.065 (Oregon Revised Statutes 124.060 and 441.640).

With respect to residents of long-term care facilities, the officer must also make a report as specified above (Oregon Revised Statutes 441.640).

326.4 OFFICER'S RESPONSE

All incidents involving actual or suspected elder and dependent abuse shall be fully investigated and appropriately documented.

326.4.1 INITIAL RESPONSE

Officers may be called upon to effect a forced entry as the first responder to the scene of a suspected elder abuse. Entry should be immediate when it appears reasonably necessary to protect life or property. When the need for an emergency entry is not evident, officers should seek supervisory approval. Officers must be prepared to provide emergency care pending the arrival of medical personnel, if not already present.

326.4.2 STABILIZE THE SITUATION

Officers must quickly assess the situation in an effort to ensure the immediate safety of all persons. Officers shall also consider the following:

- (a) Attempt to identify the victim, suspect and witnesses as well as the roles and relationships of all parties. Parties should be interviewed separately when possible. Frequently it is wrongfully assumed that elderly persons are incapable of accurately reporting the incident. Do not automatically discount the statement of an elderly person
- (b) Preserve the crime scene where evidence may be present. All persons should be removed from the scene until it has been photographed and processed. Any evidence such as injuries that may change in appearance should be photographed immediately
- (c) Assess and define the nature of the problem. Officers should assess the available information to determine the type(s) of abuse that may have taken place or the potential for abuse in the future that may be eliminated by our intervention

326.4.3 SUPPORT PERSONNEL

Tigard Police Department

Policy Manual

- Detective personnel
- Evidence collection personnel
- Department of Human Services, Seniors and People with Disability Division

326.4.4 ENFORCEMENT ACTION

Based on the results of the investigation and considering the safety of the abuse victim, officers may make on-scene arrests when appropriate. Immediate arrest of an abuser (especially when the abuser is a family member or caretaker) may leave the elderly victim without necessary support and could result in institutionalization. The effect of an arrest on the victim should be considered and weighed against the assessed risk and the competent victim's desires. The present and future safety of the victim is of utmost importance.

Relevant statutes may include, but are not limited to, Criminal Mistreatment 1st or 2nd Degree (Oregon Revised Statutes 163.205 and 163.200), assault, sex offenses (Oregon Revised Statutes, Chapter 163), or any statutes relating to theft or fraud (Oregon Revised Statutes Chapter 164).

- Current location of the victim
- Victim's condition/nature and extent of injuries, neglect or loss
- Names of agencies and personnel requested and on scene
- If the investigation finds reasonable cause to believe that abuse has occurred, the officer will notify the appropriate local office of the Department of Human Services and ensure a copy of the report is routed to that office.

Reporting of cases of elder/dependent abuse is confidential and will only be released as per Policy Manual § 810.

The Oregon Long-Term Care Ombudsman shall also be notified if the abuse is in a long-term care facility.

Discriminatory Harassment

328.1 PURPOSE AND SCOPE

This policy is intended to prevent department members from being subjected to discrimination or sexual harassment.

328.2 POLICY

The Tigard Police Department is an equal opportunity employer and is committed to creating and maintaining a work environment that is free of all forms of discriminatory harassment, including sexual harassment and retaliation. The Department will not tolerate discrimination against employees in hiring, promotion, discharge, compensation, fringe benefits and other privileges of employment. The Department will take preventive, corrective and disciplinary action to address any behavior that violates this policy or the rights it is designed to protect.

The non-discrimination policies of the Department may be more comprehensive than state or federal law. Conduct that violates this policy may not violate state or federal law but still could subject a member to discipline.

328.3 DISCRIMINATION PROHIBITED

328.3.1 DISCRIMINATION

The Department prohibits all forms of discrimination, including any employment-related action by an employee that adversely affects an applicant or employee and is based on race, color, religion, sex, age, national origin or ancestry, genetic information, disability, military service, sexual orientation and other classifications protected by law.

Discriminatory harassment, including sexual harassment, is verbal or physical conduct that demeans or shows hostility or aversion toward an individual based upon that individual's protected class. It has the effect of interfering with an individual's work performance or creating a hostile or abusive work environment.

Conduct that may, under certain circumstances, constitute discriminatory harassment, can include making derogatory comments, crude and offensive statements or remarks, making slurs or off-color jokes, stereotyping, engaging in threatening acts, making indecent gestures, pictures, cartoons, posters or material, making inappropriate physical contact, or using written material or department equipment and/or systems to transmit or receive offensive material, statements or pictures. Such conduct is contrary to department policy and to the department commitment to a discrimination free work environment.

328.5.2 FORMAL INVESTIGATION

If the complaint cannot be satisfactorily resolved through the process described above, a formal investigation will be conducted.

The employee assigned to investigate the complaint will have full authority to investigate all aspects of the complaint. No influence will be used to suppress any complaint and no member will be subject to retaliation or reprisal for filing a complaint, encouraging others to file a complaint or for offering testimony or evidence in any investigation (ORS 659A.199).

Formal investigation of the complaint will be confidential to the extent possible and will include, but not be limited to, details of the specific incident, frequency and dates of occurrences and names of any witnesses. Witnesses will be advised regarding the prohibition against retaliation, and that a disciplinary process, up to and including termination, may result if retaliation occurs.

Members who believe they have been discriminated against, harassed or retaliated against because of their protected status are encouraged to follow the chain of command but may also file a complaint directly with the Chief of Police, Human Resources Director or the City Manager.

328.5.3 EQUAL OPPORTUNITY EMPLOYMENT COMPLAINTS

Employees are advised that proceeding with complaints under the provisions of this policy does not in any way affect those filing requirements.

330.3 MANDATORY NOTIFICATION

Members of the Tigard Police Department shall notify DHS when a report of child abuse is received or when there is reasonable cause to believe that a child has suffered abuse (ORS 419B.010).

For purposes of notification, a child is an unmarried person under 18 years of age (ORS 419B.005(2)).

330.4 QUALIFIED INVESTIGATORS

Qualified investigators should be available for child abuse investigations. These investigators should:

- (a) Conduct interviews in child appropriate interview facilities.
- (b) Be familiar with forensic interview techniques specific to child abuse investigations.
- (c) Present all cases of alleged child abuse to the prosecutor for review.
- (d) Coordinate with other enforcement agencies, social service agencies and school administrators as needed.

- (f) Participate in or coordinate with multidisciplinary investigative teams as applicable (ORS 418.747).

330.5 INVESTIGATIONS AND REPORTING

In all reported or suspected cases of child abuse, a report will be written. Officers shall write a report even if the allegations appear unfounded or unsubstantiated.

330.5.1 KARLY'S LAW

In all cases of suspicious physical injury to a child, the investigating officer shall, in accordance with any relevant county multidisciplinary team protocols, (ORS 419B.023):

When an investigation of child abuse is conducted on public school premises, the investigating officer shall first notify the school administrator of the investigation, unless the school administrator is a subject of the investigation. Prior to any interview with the affected child, the investigating officer shall be advised of the child's disabling conditions, if any (ORS 419B.045).

330.6 PROTECTIVE CUSTODY

Before taking any child into protective custody, the officer should make reasonable attempts to contact DHS. Generally, removal of a child from his/her family, guardian or other responsible adult should be left to the child welfare authorities when they are present or have become involved in an investigation.

Generally, members of this department should remove a child from his/her parent or guardian without a court order only when no other effective alternative is reasonably available and immediate action reasonably appears necessary to protect the child. Prior to taking a child into protective custody, the officer should take reasonable steps to deliver the child to another qualified parent or legal guardian, unless it reasonably appears that the release would endanger the child or result in abduction. If this is not a reasonable option, the officer shall ensure that the child is delivered to DHS.

Tigard Police Department

Policy Manual

Child Abuse

Whenever practicable, the officer should inform a supervisor of the circumstances prior to taking a child into protective custody. If prior notification is not practicable, officers should contact a supervisor promptly after taking a child into protective custody.

Children may only be removed from a parent or guardian in the following situations (ORS 415B.150):

- (a) When the child's condition or surroundings reasonably appear to jeopardize the child's welfare.
- (b) When the juvenile court has issued a valid order that the child is to be taken into protective custody.

When an infant is surrendered to this department, members of Tigard Police Department shall follow the provisions set forth in ORS 418.017.

330.7 INTERVIEWS

330.7.1 PRELIMINARY INTERVIEWS

Absent extenuating circumstances or impracticality, officers should record the preliminary interview with suspected child abuse victims. Officers should avoid multiple interviews with a child victim and should attempt to gather only the information necessary to begin an investigation. When practicable, investigating officers should defer interviews until a person who is specially trained in such interviews is available. Generally, child victims should not be interviewed in the home or location where the alleged abuse occurred.

330.7.2 DETAINING SUSPECTED CHILD ABUSE VICTIMS FOR AN INTERVIEW

 - 2. A reasonable belief that the child is or will be in danger of harm if the interview or physical exam is not immediately completed.
 - 3. The alleged offender is the custodial parent or guardian and there is reason to believe the child may be in continued danger.

Tigard Police Department

Policy Manual

Child Abuse

The officer should also arrange for the child's transportation to the appropriate medical facility.

In cases where the alleged offender is the custodial parent or guardian and is refusing consent for the medical examination, officers should notify a supervisor before proceeding. If exigent circumstances do not exist or if state law does not provide for officers to take the child for a medical examination, the notified supervisor should consider obtaining a court order for such an examination.

330.8.1 COURT ORDERS FOR PRESERVATION OF EVIDENCE

When an officer is taking a child into protective custody and has reasonable cause to believe that the child has been affected by sexual abuse and rape, and that physical evidence of the abuse exists and is likely to disappear, the court may authorize a physical examination for the purpose of preserving evidence, if such examination is in the best interest of the child (ORS 419B.020).

330.9 DRUG-ENDANGERED CHILDREN

A coordinated response by law enforcement and social services agencies is appropriate to meet the immediate and longer-term medical and safety needs of children exposed to the manufacturing, trafficking or use of narcotics.

330.9.1 SUPERVISOR RESPONSIBILITIES

The Criminal Investigation Section Supervisor should:

- (a) Work with professionals from the appropriate agencies, including DHS, other law enforcement agencies, medical service providers and local prosecutors to develop community specific procedures for responding to situations where there are children endangered by exposure to methamphetamine labs or the manufacture and trafficking of other drugs.
- (b) Activate any available interagency response when an officer notifies the Criminal Investigation Section Supervisor that the officer has responded to a drug lab or other narcotics crime scene where a child is present or where evidence indicates that a child lives there.
- (c) Develop a report format or checklist for use when officers respond to drug labs or other narcotics crime scenes. The checklist will help officers document the environmental, medical, social and other conditions that may affect the child.

330.9.2 OFFICER RESPONSIBILITIES

Officers responding to a drug lab or other narcotics crime scene where a child is present or where there is evidence that a child lives should:

- (a) Document the environmental, medical, social and other conditions of the child using photography as appropriate and the checklist or form developed for this purpose.
- (b) Notify the Criminal Investigation Section Supervisor so an interagency response can begin.

Public Alerts

334.1 PURPOSE AND SCOPE

The purpose of this policy is to provide guidelines for alerting the public to important information and soliciting public aid when appropriate.

334.2 POLICY

Public alerts may be employed using the Emergency Alert System (EAS), local radio, television and press organizations and other groups to notify the public of incidents, or enlist the aid of the public, when the exchange of information may enhance the safety of the community. Various types of alerts may be available based upon each situation and the alert system's individual criteria.

334.3 RESPONSIBILITIES

334.3.1 EMPLOYEE RESPONSIBILITIES

Employees of the Tigard Police Department should notify their supervisor, Patrol Lieutenant or Criminal Investigation Section Supervisor as soon as practicable upon learning of a situation where public notification, a warning or enlisting the help of the media and public could assist in locating a missing person, apprehending a dangerous person or gathering information.

334.3.2 SUPERVISOR RESPONSIBILITIES

A supervisor apprised of the need for a public alert is responsible to make the appropriate notifications based upon the circumstances of each situation. The supervisor shall promptly notify the Chief of Police, the appropriate Division Commander and the Public Information Officer when any public alert is generated.

334.4.1 CRITERIA

All of the following criteria must exist before an AMBER Alert will be issued:

- (a) There is confirmation that a child abduction has occurred.

An AMBER Alert should not be used if the child is a runaway or has been abducted as a result of a child custody situation, unless the child may be in danger of serious bodily harm or death.

334.4.2 PROCEDURE

The AMBER Alert Web Portal is used to post the appropriate alert information.

Prior to posting the AMBER Alert message, consideration should be given to ensuring adequate staffing for the tip line, 9-1-1 lines and any media line. AMBER Alerts generate significant public and media interest. It is likely that a high volume of calls from the public and media will be received. Reassigning personnel from other units or requesting mutual aid from other agencies should be considered.

- (a) The Public Information Officer, Patrol Lieutenant or Support Services Supervisor should consider whether to prepare a press release that includes all available information that might aid in locating the child, such as:
 - 1. The child's identity, age, physical and clothing description, including any distinguishing characteristics.
 - 2. Photograph, if available.
 - 3. The location where the abduction occurred or where the child was last seen.

- (b) Information on the abducted child, suspect vehicle and suspect should be entered into the Law Enforcement Data System (LEDS) and NCIC as soon as feasible. The suspect's name, if known, should be entered in the AKA moniker field. The child's name and other critical data elements, including the child abduction (CA) and AMBER Alert (AA) flags, must be entered into the NCIC system in order to trigger the resources of the National Center for Missing and Exploited Children (NCMEC) and the FBI.
- (c) The Records Section will send a statewide Administrative Message (AM) via LEDS with the information. The text of the message will begin with the words, Oregon AMBER Alert.
- (d) The information in the press release should also be forwarded to the dispatch center so that general broadcasts can be made to local law enforcement agencies.
- (e) Consideration should be given to whether to utilize the following resources:
 - 1. Federal Bureau of Investigation (FBI Local Office)

Tigard Police Department

2. National Center for Missing and Exploited Children 800-843-5678

Conduct

340.1 PURPOSE AND SCOPE

This policy establishes standards of conduct that are consistent with the values and mission of this department and are expected of its members. The standards contained in this policy are not intended to be an exhaustive list of requirements and prohibitions but they do identify many of the important matters concerning member conduct. Members are also subject to provisions contained throughout this manual as well as any additional guidance on conduct that may be disseminated by the Department or the member's supervisors.

This policy applies to all employees (full- and part-time), reserve officers and volunteers.

340.1.1 LAWS, RULES AND ORDERS: OBEDIENCE TO ORDERS AND CONDUCT TOWARD SUPERVISORS

Members are required to conform to, and abide by, the rules and regulations of the Tigard Police Department, ordinances of the City and County, Federal laws and of the laws of all states. Members shall not commit any act, or fail to perform any act, that constitutes a violation of any rules, regulations, instruction, directives, or orders of the Department, whether stated in these directives or elsewhere.

Members shall acquire a thorough knowledge of State and Federal laws and City ordinances, as well as the elements that constitute criminal acts in violation of the various sections thereof, and will acquaint themselves with the fundamental rules of evidence.

The responsibility for having knowledge and comprehension of the Lexipol Manual of Policy and Procedure, all orders, bulletins, and regulations, pertinent reports and all memoranda issued by the Chief of Police or the member's Division manager, rests with the member. After an absence from duty, members shall, upon returning to duty, read all orders issued by the Chief of Police or their Division manager and all applicable bulletins, regulations or memoranda issued during their absence. Members having any question or uncertainty will immediately seek clarification via the chain of command.

Members shall promptly obey any lawful written or verbal order of a supervisor. This will include orders relayed from a supervisor by a member of the same or lesser rank.

Members, who are given an otherwise proper order that is in conflict with a previous order, rule, regulation or directive, shall respectfully inform the supervisor issuing the order of the conflict. If the supervisor issuing the order does not alter or retract the conflicting order, the order shall stand. Under these circumstances the responsibility for the conflict shall be upon the supervisor. Members shall obey the conflicting order and shall not be held responsible for disobedience of the order, rule, regulation or directive previously issued. Members shall not obey any order that would require them to commit any illegal act. If in doubt as to the legality of an order members shall request the issuing supervisor to clarify the order or to confer with higher authority.

Members shall notify a supervisor when cited or arrested for a criminal offense, drug or alcohol-related charge, or if their driver's license is suspended.

Tigard Police Department

Policy Manual

Conduct

340.1.2 DUTY TO REPORT EXCESSIVE USE OF FORCE AND MISCONDUCT

Members who witness any excessive force by another officer are required to intervene by warning, and stopping, if necessary, any other member who uses excessive force in their presence. Any member witnessing any excessive use of force by another member shall report this in writing to their immediate supervisor before the end of their shift.

Any member who is aware of misconduct that may constitute an intentional violation of the policies in this manual that may be subject to discipline shall report such violations to their supervisor who may direct them to report their information in writing. Reports of a serious nature shall be forwarded through the chain of command to determine the necessity for an investigation. Failure to comply with this policy subjects the witness member to discipline or sanction that may be similar to that imposed on the offending member.

340.2 DISCIPLINE POLICY

The continued employment of every employee of this department shall be based on conduct that reasonably conforms to the guidelines set forth herein. Failure of any employee to meet the guidelines set forth in this policy, whether on-duty or off-duty, may be cause for disciplinary action.

An employee's off-duty conduct shall be governed by this policy to the extent that it is related to act(s) that may materially affect or arise from the employee's ability to perform official duties or to the extent that it may be indicative of unfitness for his/her position.

340.2.1 DUE PROCESS

No disciplinary action shall be taken against an employee without just cause.

Prior to taking disciplinary action against an employee a supervisor shall:

- (a) Notify the employee in writing of the charges and the proposed disciplinary action; and
- (b) Provide the employee with an opportunity to respond to the charges at an informal hearing which may be recorded with the person or persons having authority to impose the proposed disciplinary action.
- (c) It is the policy of the Department that all disciplinary matters will conform to the collective bargaining agreement between the City of Tigard and the Tigard Police Officer's Association, specified in Section 27 "Discipline and Discharge."
- (d) The specific process for determining rule violations will generally follow the established procedures set out in the Police Department's Allegation/Complaint Investigation Packet.

340.2.2 PROGRESSIVE DISCIPLINE

The administration of discipline is generally expected to be progressive in nature, with relatively minor, non-repetitive violations of rules resulting in documented counseling (non-disciplinary) for first time violators. The purpose of non-disciplinary counseling is to train, coach, and monitor the employee's conduct to gain their compliance with the rules. Repetitive similar violations, or more serious violations, would generally result in progressive and more serious forms of discipline being administered.

The types of discipline that may be imposed include, but are not limited to, those mentioned in Section 27.1 of the current TPOA collective bargaining agreement or Section 16-18 of the City of Tigard personnel policies for non-represented employees.

Tigard Police Department

Policy Manual

Conduct

Nothing in this policy is intended to preclude the administration of more serious forms of discipline, including termination, for a first offense if the seriousness of the offense warrants it.

340.4.1 POLICY

Members in a uniform will carry their issued identification (I.D.) card and display their badge and issued name tag on their outermost garment. Members are relieved of the displaying requirements when wearing the badge and/or name tag is prohibited by the uniform type.

Members wearing civilian attire will carry their badge and/or Bureau I.D. on their person at all times while on duty except when such impairs their safety or impairs an investigation. Members will wear their badge or Bureau I.D. so to be clearly visible in all City facilities.

When on duty or after identifying themselves as a Tigard Police Department member, all members will identify themselves by name and I.D. number upon request (I.D. numbers will be provided when citizens request a badge number). Upon demand, I.D. will be presented in writing or through the presentation of a Department issued business card. The only exceptions to the I.D. presentation rule are when the providing of this information impairs the performance of the police duties or a supervisor has authorized the withholding of information.

Business or personal cards that refer to the Department shall be used by members only in connection with official business and will conform to the approved Bureau form.

340.4.2 MISUSE OF OFFICIAL POSITION OR IDENTIFICATION

Members shall not use their official position, official identification (I.D.) cards, DPSST certification card or badges for personal or financial gain, obtaining privileges not otherwise available to them but for their official position (except as approved by the Chief of Police), or for avoiding consequences of illegal acts (i.e., if stopped off duty for a traffic violation). Members shall not lend to another person their I.D. cards, badge or name tags, nor use another person's I.D. card or name tag. These items will not be photographed or reproduced without the approval of the Chief of Police.

Members shall not authorize the use of their names, photographs or official titles that identify them as Department members in connection with testimonials or advertisements of any commodity or commercial enterprise, without the written approval of the Chief of Police. The request should identify specifically what will be photographed or used and how it will be depicted. The purpose of the advertisement should also be described.

Members, individually or representing police organizations, shall not issue to persons other than members, any card, or other device that purports to entitle the holder thereof to any special privilege or consideration.

Members shall not use their official position with the Tigard Police Department as a means of forcing, coercing or intimidating persons with whom they are involved in any civil matters to cause those persons to take or refrain from taking, any action in that matter.

340.5 UNSATISFACTORY PERFORMANCE

Members shall maintain sufficient competency to properly perform their duties and assume the responsibilities of their positions. Members shall perform their duties in a manner that will maintain the highest standards of efficiency in carrying out the functions and objectives of the Tigard Police Department. Unsatisfactory performance may be demonstrated by a lack of knowledge of the application of laws required to be enforced; an unwillingness or inability to perform assigned tasks; the failure to conform to work standards established for the rank, grade or position; the failure to take appropriate action on the occasion of a crime, disorder, or other condition deserving police attention; or absence without leave. In addition to other indications of unsatisfactory performance, the following examples could be considered prima facie evidence of unsatisfactory performance: performance deficiencies or a written record of infractions of rules, regulations, directives or orders of the Tigard Police Department.

340.6 TOBACCO USE

Members shall not use tobacco products while inside Tigard police facilities, while within City of Tigard owned or leased vehicles, or while engaged in close contact with the public.

Data stored on, or available through department systems shall only be accessed by authorized employees who are engaged in an active investigation, assisting in an active investigation, or who otherwise have a legitimate law enforcement or department business related purpose to access such data. Certain exceptions may be permitted with the prior approval of a supervisor as a function of an assignment.

Information Services personnel shall be responsible for establishing regularly scheduled network system back-up protocols. Retention of all system back-ups should be managed in a manner consistent with applicable provisions of the Oregon Revised Statutes and Oregon Administrative Rules.

Report Preparation

344.1 PURPOSE AND SCOPE

Report preparation is a major part of each officer's job. The purpose of reports is to document sufficient information to refresh the officer's memory and to provide sufficient information for follow-up investigation and successful prosecution. Report writing is the subject of substantial formalized training and on-the-job training.

344.1.1 REPORT PREPARATION

Employees should ensure that reports are sufficiently detailed for their purpose and free from errors prior to submission. It is the responsibility of the assigned employee to complete and submit all reports taken during the shift before going off-duty unless permission to hold the report has been approved by a supervisor. Generally, reports requiring prompt follow-up action on active leads, or arrest reports where the suspect remains in custody should not be held.

Handwritten reports must be prepared legibly. If the report is not legible, the submitting employee will be required by the reviewing supervisor to promptly make corrections and resubmit the report. Employees who dictate reports shall use appropriate grammar, as content is not the responsibility of the typist. Employees who generate reports on computers are subject to all requirements of this policy.

All reports shall accurately reflect the identity of the persons involved, all pertinent information seen, heard or assimilated by any other sense, and any actions taken. Employees shall not suppress, conceal or distort the facts of any reported incident, nor shall any employee make a false report orally or in writing. Generally, the reporting employee's opinions should not be included in reports unless specifically identified as such.

344.2 REQUIRED REPORTING

Written reports are required in all of the following situations on the appropriate department approved form unless otherwise approved by a supervisor.

344.2.1 CRIMINAL ACTIVITY REPORTING

When a member who responds to a call for service, or as a result of self-initiated activity becomes aware of any activity, where a crime has occurred, the member is required to complete a written police report. The fact that a victim is not desirous of prosecution is not an exception to completing a police report.

344.2.2 NON-CRIMINAL ACTIVITY

The following incidents shall be documented using the appropriate approved report:

- (a) Any time an officer points a firearm at any person
 - (b) Any use of force against any person by a member of this department (see the Use of Force Policy)
 - (c) Any firearm discharge (see the Firearms and Qualification Policy)
-

- (e) Any found property or found evidence
- (f) Any traffic collisions above the minimum reporting level (see the Traffic Collision Reporting Policy)
- (g) Suspicious incidents that may indicate a potential for crimes against children or that a child's safety is in jeopardy
- (h) All protective custody detentions
- (i) Suspicious incidents that may place the public or others at risk
- (j) Whenever the employee believes the circumstances should be documented or at the direction of a supervisor

344.2.3 DEATH CASES

Death investigations require specific investigation methods depending on circumstances and should be handled in accordance with Policy § 360. An officer handling a death investigation should notify and apprise a supervisor of the circumstances surrounding the incident and a determination will be made on how to proceed. The following cases shall be appropriately investigated and documented using the approved report:

- (a) Sudden or accidental deaths.
- (b) Suicides
- (c) Homicide or suspected homicide.
- (d) Unattended deaths (No physician or qualified hospice care during the period immediately preceding death).
- (e) Found dead bodies or body parts.

344.2.4 MISCELLANEOUS INJURIES

Any injury that is reported to this department shall require a report when:

- (a) The injury is a result of drug overdose
- (b) Attempted suicide
- (c) The injury is major/serious, whereas death could result
- (d) The circumstances surrounding the incident are suspicious in nature and it is desirable to record the event

The above reporting requirements are not intended to be all-inclusive. A supervisor may direct an employee to document any incident he/she deems necessary.

344.3 GENERAL POLICY OF EXPEDITIOUS REPORTING

In general, all officers and supervisors shall act with promptness and efficiency in the preparation and processing of all reports. An incomplete report, unorganized reports or reports delayed without supervisory approval are not acceptable. Reports shall be processed according to established priorities or according to special priority necessary under exceptional circumstances.

Tigard Police Department

Policy Manual

Report Preparation

344.3.1 GENERAL POLICY OF HANDWRITTEN REPORTS

Any handwritten reports must be block printed. In general, the narrative portion of those reports where an arrest is made or when there is a long narrative should be typed or dictated.

Supervisors may require, with the foregoing general policy in mind, block printing or typing of reports of any nature for departmental consistency.

344.3.2 GENERAL USE OF OTHER HANDWRITTEN FORMS

Forms may be block printed as appropriate. In general, the form itself may make the requirement for typing apparent.

344.4 REPORT CORRECTIONS

Supervisors shall review reports for content and accuracy. If a correction is necessary, the reviewing supervisor should complete the Hold/Request or Additional Information form stating the reasons for rejection. The original report and the correction form should be returned to the reporting employee for correction as soon as practical. It shall be the responsibility of the originating officer to ensure that any report returned for correction is processed in a timely manner.

344.5 REPORT CHANGES OR ALTERATIONS

Reports that have been approved by a supervisor and submitted to the Records Section for filing and distribution shall not be modified or altered except by way of a supplemental report. Reviewed reports that have not yet been submitted to the Records Section may be corrected or modified by the authoring employee only with the knowledge and authorization of the reviewing supervisor.

News Media Relations

346.1 PURPOSE AND SCOPE

This policy provides guidelines for media releases and dissemination of information regarding incidents and actions involving the Police Department. It also details media access for information as well as accessibility to scenes of disasters, criminal investigations, emergencies and other law enforcement involved activities.

346.2 RESPONSIBILITIES

The ultimate authority and responsibility for the release of information to the media shall reside with the Chief of Police. However, in situations not warranting immediate notice to the Chief of Police and in situations where the Chief of Police has given prior approval, the designated Public Information Officer (PIO) or a supervisory/Command Staff member may prepare and release information to the media in accordance with this policy and the applicable law. **If someone other than the PIO (in his/her absence) issues a release, a copy of the media release will be sent to the Public Information Officer.**

Public information is to be provided to the media in an accurate, timely, and detailed manner consistent with individual rights and protections. The Public Information Officer will prepare and disseminate releases of human interest stories, awards, announcements, appeals to the public for assistance, clearance of cases, property recoveries, etc., on request. All personnel are encouraged to submit such information for release to the Public Information Officer. The Public Information Officer will be responsible for all news releases when at the scene of the occurrence and will facilitate and coordinate all media contact when major incidents occur. Because follow-up media releases may be necessary on major incidents, the Public Information Officer must be kept abreast of any new developments surrounding the incident. In the event the Public Information Officer is not available, the supervisor in charge will (following departmental guidelines) cause a written media release to be prepared for the news media, forwarding a copy of same to the Public Information Officer. The Public Information Officer should in most cases be the only source of media information. The Public Information Officer must be kept informed of contacts with the news media by other department personnel to maintain continuity of reporting. It is the responsibility of the Public Information Officer to be aware of all Tigard Police Department activity that might fall under the realm of the news media, and to keep administrative personnel abreast of all cases that draw media attention. All media releases are to follow the guidelines listed within this policy.

346.2.1 MEDIA REQUEST

Any media request for information or access to a law enforcement situation shall be referred to the designated department media representative, or if unavailable, to the first available supervisor. Prior to releasing any information to the media, employees shall consider the following:

- (a) At no time shall any employee of this department make any comment or release any official information to the media without prior approval from a supervisor or the designated department media representative
- (b) In situations involving multiple law enforcement agencies, every reasonable effort should be made to coordinate media releases with the authorized representative of each involved agency prior to the release of any information by this department

Tigard Police Department

Policy Manual

News Media Relations

- (c) Under no circumstance should any member of this department make any comment(s) to the media regarding any law enforcement incident not involving this department without prior approval from the Public Information Officer or the Chief of Police.

346.2.2 MEDIA INQUIRIES

(a) **Walk-In Inquiries**

1. Walk-in inquiries should be first directed to the Public Information Officer. If the Public Information Officer is unavailable, the shift supervisor may be contacted. Every effort should be made to accommodate the inquiry.
2. The Media Information Log is automated to generate each morning. The log will always need to be checked for information that may not be suitable for the public or media to view. Once the log is reviewed for applicability, it is faxed to the media upon request.

(b) **Telephone Inquiries**

1. If there is an issue that the media is inquiring about during normal business hours and they are not on-scene, the on-duty Records Clerk should contact (in order of availability):
 - (a) Public Information Officer.
 - (b) A patrol supervisor preferably one not involved in the incident, if available.
 - (c) Captain.
 - (d) Assistant Chief.
 - (e) Chief of Police.
2. If there is an issue that the media is calling about **after normal business hours, on weekends and holidays**, and they are not at the scene of the incident, the on-duty Records Clerk should advise as follows (in order of availability):
 - (a) Public Information Officer.
 - (b) Patrol shift supervisor. If two are working, the supervisor not involved in the incident should respond back to the media.
 - (c) Captain.
 - (d) Assistant Chief.
 - (e) Chief of Police.

(c) **On-Scene Inquiries**

1. If the media is at the scene of an incident and requesting media information, the notification should immediately be forwarded to (in order of availability):
 - (a) Public Information Officer.
 - (b) A patrol supervisor preferably one not involved in the incident, if available.
 - (c) Captain.
 - (d) Assistant Chief.
 - (e) Chief of Police.

346.3 MEDIA ACCESS

Authorized members of the media shall be provided access to scenes of disasters, criminal investigations, emergencies and other law enforcement activities subject to the following conditions:

- (a) The media representative shall produce valid press credentials that shall be prominently displayed at all times while in areas otherwise closed to the public.
- (b) Media representatives may be prevented from interfering with emergency operations and criminal investigations.
 - 1. Reasonable effort should be made to provide a safe staging area for the media that is near the incident and that will not interfere with emergency or criminal investigation operations. All information released to the media should be coordinated through the department Public Information Officer or other designated spokesperson.
 - 2. Whenever the presence of media or other aircraft poses a threat to public or officer safety or significantly hampers incident operations, the field supervisor should consider requesting a Temporary Flight Restriction (TFR). All requests for TFRs should be routed through the Patrol Lieutenant. The TFR should include specific information regarding the perimeter and altitude necessary for the incident and should be requested through the appropriate control tower. If the control tower is not known, the Federal Aviation Administration should be contacted (14 CFR § 91.137).
- (c) No member of this department who is under investigation shall be subjected to media visits or interviews without the consent of the involved employee.
- (d) Media interviews with individuals who are in custody shall not be permitted without the approval of the Chief of Police and the express consent of the person in custody.
- (e) Media representatives will not be allowed to enter the inner perimeter of a tactical situation or a crime scene while an incident or investigation is in progress.

A tactical operation should be handled in the same manner as a crime scene, except that the news media should be permitted within the outer perimeter of the scene, subject to any restrictions as set forth by the supervisor in charge. Department members shall not jeopardize a tactical operation in order to accommodate the news media. All comments to the media shall be coordinated through a supervisor or the Public Information Officer.

346.3.1 PROVIDING ADVANCE INFORMATION

To protect the safety and rights of officers and other persons, advance information about planned actions by law enforcement personnel, such as movement of persons in custody or the execution of an arrest or search warrant, should not be disclosed to the news media, nor should media representatives be invited to be present at such actions except with the prior approval of the Chief of Police.

Any exceptions to the above should only be considered for the furtherance of legitimate law enforcement purposes. Prior to approving any exception the Chief of Police will consider, at minimum, whether the release of information or presence of the media would unreasonably endanger any individual, prejudice the rights of any person or is otherwise prohibited by law.

Tigard Police Department

Policy Manual

News Media Relations

346.3.2 NEWS MEDIA ENTERING THE AREA OF A SERIOUS POLICE INCIDENT OR CRIME SCENE

Police lines may be established to prevent persons from entering the area of a serious police incident or crime scene. Dependent upon the tactical situation and the likelihood of jeopardizing police operations, members of the news media may be allowed in such areas. Authorization for entry is normally dependent upon the possession of permanent or temporary news media identification. In the event a member of the media does not have in his/her possession news media identification, and it is reasonably apparent the person is in fact a member of the media, and the operation of obtaining news coverage appears to be limited in duration, the person may be recognized as a news media member.

346.4 INFORMATION SUBJECT TO RELEASE

The Department will maintain a daily information log of significant law enforcement activities that shall be made available, upon request, to media representatives through the Public Information Officer.

Any requests for copies of related reports or additional information not contained in this log shall be referred to the designated departmental media representative, the custodian of records, or if unavailable, to the Patrol Lieutenant. Such requests will generally be processed in accordance with the provisions of this policy.

346.4.1 SCOPE OF INFORMATION SUBJECT TO RELEASE

The release and inspection of public records is controlled by Policy Manual § 810 and Oregon Revised Statutes 192.410 through 192.505.

Court Appearance and Subpoenas

348.1 PURPOSE AND SCOPE

348.1.1 DEFINITIONS

On-Call - When an employee has appeared in court, or is at the time on-duty, and has been told by a member of the court that he/she is free to leave the court or return to duty, subject to being available by phone or pager if called back.

Mandatory Appearance - Subpoenas marked as mandatory appearance require an employee's physical appearance in the specified court. Failure to timely appear in the specified court, either intentionally or by negligence, may result in disciplinary action.

348.2 COURT SUBPOENAS

Employees who receive subpoenas related to their employment with this department are subject to the provisions of this policy. Employees should be aware that their compliance is mandatory on all cases for which they have been properly subpoenaed, or properly notified. This policy applies to civil and criminal subpoenas. Employees are expected to cooperate with the prosecution to ensure the successful conclusion of a case.

The leave of absence request shall be written on a department memorandum and follow the chain of administrative command for final approval. Final approval for leaves of absence may be granted by the Chief of Police or designee and is not subject to appeal or bargaining. The leave of absence shall not exceed six months. In extreme cases, such as an involuntary military deployment, the Chief of Police may grant a waiver in individual cases. Prior to any leave approval, all Department issued equipment, including uniforms, badge(s) and identification card(s) shall be surrendered and stored by the Patrol Division Reserve Lieutenant. At the end of the granted leave period the Reserve officer shall report back to duty or separate from the Program. 350.6 GENERAL DUTIES AND RESPONSIBILITIES

Reserve program members primarily supplement the Patrol Division by performing some duties regularly carried out by Patrol Unit. Reserve members may also be used to assist the Investigations Division and Records Unit and perform other assignments at the direction of the Chief of Police or designee. When serving on active duty at the call of the Chief of Police or other authority of the City of Tigard, members of the Reserve Program shall be entitled to all the powers and privileges of salaried police officers with the City of Tigard, and are subject to all the duties, regulations, and responsibilities of salaried officers. All reserve members are subject to emergency call up. The performance of police duties may

Policy Manual

Reserve Officers

be assigned to them at the time of the call up. No reserve member shall participate in patrol duty or any special details while off work from their regular employment due to illness or injury, or if they have any condition that would prevent a salaried officer from working.

All reserve members are required to attend all scheduled training, and meetings each month. Each Reserve Officer and Reserve Recruit is required to work a minimum of 20 hours each month, of which at least 16 hours is in patrol duties. Department authorized training, and special functions designated by the department, may be used to meet the non-patrol requirement. Reserve Officers are exempt from the patrol hour requirement while they are attending the Reserve Academy.

350.6.1 ON DUTY CONSIDERATIONS

While on duty, members shall possess their badge and Department issued identification card. While on duty as a Reserve Officer, the City will defend and indemnify each member and pay the cost of defense and the amount of any judgments entered against the Reserve Officer as long as the duty of the Officer arises out of good faith performance of their duties. (See Tigard City Council Resolution #98-65 for further clarification of the City's policy regarding defense and indemnification and ORS 30.260 to 30.300, the Oregon Tort Claims Act). While on duty as a Reserve Officer, the City will provide Workers' Compensation coverage for "compensable" accidental injuries and illnesses. "Compensable" means an injury or illness arising out of and in the course of Reserve Officer duties. (See ORS 656 for further clarification of Workers Compensation rules in the State of Oregon)

350.6.2 OFF DUTY CONCEALED WEAPON CONSIDERATIONS

Reserve Recruit Officers are not authorized by their status within the Reserve Program to carry a concealed weapon off duty, except while traveling to and from their authorized duty assignment. Reserve Officers I & II shall be permitted to carry a concealed weapon while off duty as long as they are active members and are current on all matters, including required department training. Reserve Officers must be mindful of the inherent danger to themselves and the public whenever attempting to exercise any off-duty police authority. Attempting to exercise off-duty police authority is generally not encouraged and must be balanced against the seriousness of the situation and the absolute need to intervene or be a competent witness until a proper authority can arrive and deal with the situation. Reserve Officers who fail to stay current on all required training and hourly requirements are not authorized to carry a concealed weapon off duty. This does not preclude the holder of a valid concealed weapons permit issued pursuant to state law from carrying a concealed weapon. Upon separation from the Reserve Program members are not authorized under state law to carry a concealed weapon on their persons regardless of their tenure or status. Separated members must obtain a concealed weapons permit to lawfully carry a concealed firearm. TPD assumes no liability nor confers any police authority to any reserve member separated for any reason.

350.6.3 OFF DUTY CONDUCT AND EMPLOYMENT STATUS

Reserver Officers are required to follow all department policies and procedures. This includes those policies that pertain to off duty situations and notification requirements. Although Reserves are non-salaried volunteers, they must still notify the Chief of Police (via memo) concerning any changes in their employment status. This is mainly to avoid embarrassment to the department: e.g. Reserve member accepts employment in an industry or undertaking that is counter to the ethics of law enforcement or the values of this agency.

Tigard Police Department

Policy Manual

Reserve Officers

350.7 DISCIPLINE

Reserves are subject to corrective action and discipline for failing to meet expectations or for violation of any department policy. Discipline may include written reprimands, suspension or termination of the reserve commission. A Reserve may be suspended for cause by any Department Supervisor pending review by the Operations Division Commander. A Reserve Officer or Reserve Recruit may be separated from the Reserve Program without cause at any time by the Chief of Police. Reserves Program members are volunteers. Volunteers may participate, but have no right or entitlement to participate in department programs. Reserve Unit members are not "for cause" employees.

350.8 RECOGNITION OF SERVICE

The Chief of Police may choose to recognize Reserve officers in one the following manners:

- (a) An engraved plaque for more than 5 years of service.
- (b) An engraved plaque with a badge affixed or engraved after 10 years of service.
- (c) A shadow box with a badge and engraved plate after 15 years of service.
- (d) Leaves of absence shall not be counted toward total years of service.

350.9 PERFORMANCE EVALUATIONS

Reserve recruits will be evaluated through the Field Training Program as Daily Observation Reports (DOR's) will be completed each time they reach Reserve Officer II status. Reserve II Officers will ride once per month at minimum with a Field Training Officer (FTO) and be evaluated on a DOR as to their knowledge of policies and procedures. Reserve I Officers will be formally evaluated every quarter by an FTO or Patrol Sergeant which will be reported on a quarterly report form. They will be required to demonstrate their knowledge of policy and procedures during an eight hour shift. If a Reserve Officer of any level is unable to demonstrate knowledge and skills at a minimally acceptable level then they shall be required to complete remedial training before being allowed to ride at their current level. A failure to satisfactorily complete remedial training would be handled through the disciplinary process as outlined in 350.7.

Outside Agency Assistance

352.1 PURPOSE AND SCOPE

The purpose of this policy is to provide guidance to officers in the request of or answering the request for assistance involving another law enforcement agency.

It is the policy of this department to provide assistance whenever possible, consistent with the applicable laws of arrest and detention policies of this department, when another law enforcement agency requests assistance with an arrest or detention of any person. This department may also request an outside agency to provide assistance.

352.1.1 ASSISTING OUTSIDE AGENCIES

Generally, calls for assistance from other agencies are routed to a Patrol Sergeant for approval. When an authorized employee of an outside agency requests the assistance of this department in taking a person into custody, available officers shall respond and assist in making a lawful arrest. If an officer receives a request in the field for assistance, that officer shall notify a supervisor. Arrestees may be temporarily detained by our agency until arrangements for transportation are made by the outside agency. Only in exceptional circumstances will this department provide transportation of arrestees to other county facilities.

When such assistance is rendered, a case number will be issued to report action taken by Tigard Police Department Personnel.

352.1.2 REQUESTING ASSISTANCE FROM OUTSIDE AGENCIES

If assistance is needed from another agency, the employee requesting assistance shall first notify a supervisor of his/her intentions.

Registered Offender Information

356.1 PURPOSE AND SCOPE

This policy establishes guidelines by which the Tigard Police Department will address issues associated with certain offenders who are residing in the jurisdiction and how the Department will disseminate information and respond to public inquiries for information about registered sex offenders.

356.2 POLICY

It is the policy of the Tigard Police Department to identify and monitor registered offenders living within this jurisdiction and to take reasonable steps to address the risks those persons may pose.

356.3 REGISTRATION

The Criminal Investigation Section Supervisor shall establish a process to reasonably accommodate registration of certain offenders. The process should rebut any allegation on the part of the offender that the registration process was too confusing, burdensome or difficult for compliance. If it is reasonable to do so, an investigator assigned to related investigations should conduct the registration in order to best evaluate any threat the person may pose to the community. Employees assigned to register offenders should receive appropriate training regarding the registration process.

Upon conclusion of the registration process, the investigator shall ensure that the registration information is provided to the Oregon State Police in accordance with ORS 181.598.

The refusal of a registrant to provide any of the required information or complete the process should initiate a criminal investigation for failure to report.

356.3.1 CONTENTS OF REGISTRATION

Registrants shall (ORS 181.595):

- (a) Provide the information to complete the sex offender registration form and sign it.
- (b) Submit to photographs, including photographs of scars, marks or tattoos, when initially reporting and each time the registrant reports annually.
- (c) Submit to fingerprinting, if required.

356.4 MONITORING OF REGISTERED OFFENDERS

The Criminal Investigation Section Supervisor should establish a system to periodically, and at least once annually, verify that a registrant remains in compliance with his/her registration requirements after the initial registration. This verification should include:

- (a) Efforts to confirm residence using an unobtrusive method, such as an Internet search or drive-by of the declared residence.
- (b) Review of information on the [State of Oregon Sex Offender Inquiry System](#).
- (c) Contact with a registrant's parole or probation officer.

Any discrepancies should be reported to Oregon State Police.

Tigard Police Department

Policy Manual

Registered Offender Information

The Criminal Investigation Section Supervisor should also establish a procedure to routinely disseminate information regarding registered offenders to Tigard Police Department personnel, including timely updates regarding new or relocated registrants.

356.5 DISSEMINATION OF PUBLIC INFORMATION

Employees will not unilaterally make a public notification advising the community of a particular registrant's presence in the community. Employees who identify a significant risk or other public safety issue associated with a registrant should promptly advise their supervisor. The supervisor should evaluate the request and forward the information to the Chief of Police if warranted. A determination will be made by the Chief of Police, with the assistance of legal counsel as necessary, whether such a public alert should be made.

Members of the public requesting information on registrants should be provided the [Sex Offender Inquiry System](http://sexoffenders.oregon.gov/), <http://sexoffenders.oregon.gov/>, or the Tigard Police Department's website.

The Records Supervisor shall release local registered offender information to residents in accordance with state law and in compliance with Oregon Public Records Law requests (ORS 181.588; ORS 181.589; ORS 181.592; ORS 192.410 € 192.505).

356.5.1 RELEASE NOTIFICATIONS

Registrant information that is released should include notification that:

- (a) The offender registry includes only those persons who have been required by law to register, who are in compliance with the offender registration laws and who the law permits to be included.
- (b) The information is provided as a public service and may not be current or accurate.
- (c) Persons should not rely solely on the offender registry as a safeguard against offenses in their communities.
- (d) The information on this website may not reflect the entire criminal history of a registered offender.
- (e) Anyone who uses information contained in the registry to harass or discriminate against registrants or commit any crime may be subject to criminal prosecution and/or civil action.

The body, effects of the deceased, and any instruments or weapons related to the death shall not be disturbed or moved from the position or place of death without permission of the Medical Examiner or Deputy Medical Examiner, and the District Attorney.

A Medical Examiner, Deputy Medical Examiner, or District Attorney, in conjunction with the Tigard Police Department and/or the county Major Crime Team, shall take custody of, or exercise control over the body, the effects of the deceased and any weapons, instruments, vehicles, buildings or premises which the medical examiner has reason to believe were involved in the death, in order to preserve evidence related to the cause and manner of death.

The members of the Tigard Police Department will work cooperatively with both the Medical Examiner's Office and the District Attorney in all death investigations.

Policy Manual

Death Investigation

360.2.2 SEARCHING DEAD BODIES

Whenever possible, a witness, preferably a relative to the deceased or a member of the household, should be requested to remain at the scene with the officer pending the arrival of the Medical Examiner. The name and address of this person shall be included in the narrative of the death report. Whenever personal effects are removed from the body of the deceased, a receipt shall be obtained. This receipt shall be attached to the death report.

In cases where a medical examiner will not be responding and when circumstances permit, the handling officer shall ensure that a reasonable search is made of the deceased person for a driver license, identification card or other information as to whether or not the person has made an anatomical gift. In such cases the officer shall notify the Medical Examiners Office as soon as is reasonably possible of the identity of the deceased person and, if known, the identity of immediate family members or anyone having been granted power of attorney by the deceased person (Oregon Revised Statutes 97.954)

360.2.3 DEATH NOTIFICATION

When practical, and if not handled by the Medical Examiner's Office, notification to the next-of-kin of the deceased person shall be made, in person, by the officer assigned to the incident. If the next-of-kin lives in another jurisdiction, a law enforcement official from that jurisdiction shall be requested to make the personal notification. If the relatives live outside this county, the Medical Examiner may be requested to make the notification. The Medical Examiner needs to know if notification has been made. Assigned detectives may need to talk to the next-of-kin.

Upon identifying the body, investigators shall attempt to locate the next of kin or responsible friends to obtain the designation of a funeral home to which the deceased is to be taken.

360.2.4 UNIDENTIFIED DEAD BODIES

If the identity of a dead body cannot be established after the Medical Examiner arrives, the Medical Examiner's office will issue a "John Doe" or "Jane Doe" number for the report.

Identity Theft

362.1 PURPOSE AND SCOPE

Identity theft is a growing trend that frequently involves related crimes in multiple jurisdictions. A person commits the crime of identity theft if the person, with the intent to deceive or to defraud, obtains, possesses, transfers, creates, utters or converts to the person own use the personal identification of another person (Oregon Revised Statutes 165.800). This policy is intended to provide guidelines for the reporting and investigation of such crimes.

362.2 REPORTING

- (a) In an effort to maintain uniformity in reporting, officers presented with the crime of "identity theft" shall initiate a report for victims residing within the jurisdiction of this department. For incidents of identity theft occurring outside this jurisdiction, officers should observe the following:
 1. For any victim not residing within this jurisdiction, the officer may either take a courtesy report to be forwarded to the victim's residence agency or the victim should be encouraged to promptly report the identity theft to the law enforcement agency where he or she resides.
- (b) While the crime of identity theft should be reported to the law enforcement agency where the victim resides, officers of this department should investigate and report crimes occurring within this jurisdiction which have resulted from the original identity theft (e.g., the identity theft occurred elsewhere, but the credit card fraud occurred and is reported in this jurisdiction).
- (c) Officers should include all known incidents of fraudulent activity (e.g., credit card number applied for in victim's name when the victim has never made such an application).
- (d) Officers should also cross-reference all known reports made by the victim (e.g., U.S. Secret Service, credit reporting bureaus, U.S. Postal Service and DMV) with all known report numbers.
- (e) Following supervisory review and departmental processing, the initial report should be forwarded to the appropriate detective or officer for follow up investigation, coordination with other agencies and prosecution as circumstances dictate.

Private Persons Arrests

364.1 PURPOSE AND SCOPE

The purpose of this policy is to provide guidance for the handling of private person's arrests made pursuant to Oregon Revised Statutes 133.220(3).

364.2 ADVISING PRIVATE PERSONS OF THE ARREST PROCESS

Officers should use sound discretion in determining whether or not to advise an individual of the arrest process.

- (a) When advising any individual regarding the right to make a private person's arrest, officers should refrain from encouraging or dissuading any individual from making such an arrest and should instead limit advice to the legal requirements for such an arrest as listed below.
- (b) Private individuals should be discouraged from using force to affect a private person's arrest, and absent immediate threat to their own safety or the safety of others, private individuals should be encouraged to refer matters to law enforcement officials for further investigation or arrest.

364.3 ARRESTS BY PRIVATE PERSONS

A private person may arrest another person for any crime committed in the presence of the private person if the private person has probable cause to believe the arrested person committed the crime. A person making such an arrest shall, without unnecessary delay, take the arrested person before a magistrate or deliver the arrested person to a peace officer (Oregon Revised Statutes 133.225).

In making an arrest, a private person may use the amount of force they reasonably believe is necessary to make the arrest or to prevent the arrested person's escape.

364.4 OFFICER RESPONSIBILITIES

Any officer presented with a private person wishing to make an arrest must determine whether or not there is probable cause to believe that such an arrest would be lawful.

- (a) Should any officer determine that there is no probable cause to believe that a private person's arrest is lawful, the officer should take no action to further detain or restrain the individual beyond that which reasonably appears necessary to investigate the matter, determine the lawfulness of the arrest and protect the public safety.
 1. Any officer who determines that a private person's arrest appears to be unlawful should promptly release the arrested individual. The officer must include the basis of such a determination in a related report.
 2. Absent probable cause to support a private person's arrest or other lawful grounds to support an independent arrest by the officer, the officer should advise the parties that no arrest will be made and that the circumstances will be documented in a related report.
- (b) Whenever an officer determines that there is probable cause to believe that a private person's arrest is lawful, the officer may exercise any of the following options:
 1. Take the individual into physical custody for booking.

Tigard Police Department

Policy Manual

Private Persons Arrests

2. Release the individual subsequent to the issuance of a citation for the individual to appear in the appropriate court.

364.5 REPORTING REQUIREMENTS

In all circumstances in which a private person is claiming to have made an arrest, the individual must complete and sign a written statement of facts.

In addition to the written statement (and any other related documents such as citations, booking forms, etc.), officers shall complete an incident and custody report regarding the circumstances and disposition of the incident. The officer shall have the arresting private person sign the back of the incident and custody report.

Mass Arrest and Civil Unrest

365.1 PURPOSE AND SCOPE

The purpose of this policy is to establish guidelines to effectively deal with crowds engaged in or posing a significant threat of engaging in violence, property damage or breaches of the peace.

365.1.1 POLICY

The department shall be prepared to respond to any location or incident wherein mass arrest may be necessary, and will handle such arrests in a professional manner while safeguarding the constitutional rights of all citizens. The manner in which department members deal with unruly crowds and illegal gatherings has direct bearing on their ability to control and defuse the incident and contain property damage, injury or loss of life. Officers confronting civil disturbances and mass arrest situations, and those called upon to assist in these incidents shall follow the procedures of containment, evacuation, communications, use of force, and command and control as enumerated in this policy.

365.1.2 DEFINITIONS

Civil Disturbance: An unlawful assembly that constitutes a breach of the peace or any assembly of persons where there is imminent danger of collective violence, destruction of property or other unlawful acts.

Mass Arrest: Arrests in excess of five (5) persons arising out of one incident or location in a limited period of time.

Riot: (ORS 166.015) Five or more persons engaged in tumultuous and violent conduct and thereby intentionally or recklessly creating a grave risk of causing public harm.

365.1.3 GUIDELINES

Section 365.1.4 states the Department's guidelines for public assemblies. It may be given to those who plan to have an assembly and have questions about the Department's involvement. Section 365.1.5 summarizes the legal basis of authority to act in crowd situations in and around the City of Tigard.

365.1.4 TIGARD POLICE DEPARTMENT GUIDELINES FOR PUBLIC ASSEMBLIES

General Information

The Tigard Police Department recognizes the Constitutional right of individuals to peacefully assemble and redress grievances. The department will not take actions that violate these rights and will remain neutral with respect to the issues that caused the assembly. Our purpose and responsibility is only to maintain the peace and order. These guidelines are provided to you in the hopes that a police presence will not be necessary at your assembly.

Planning the Assembly

The proper conduct of people involved in an assembly is best achieved through proper planning and communication. All parties involved in the assembly are expected to obey all laws and ordinances. You are encouraged to consult with us in advance of your assembly. However, if you need legal advice about particular activities, you must consult your attorney.

Tigard Police Department

Policy Manual

Mass Arrest and Civil Unrest

We suggest that your plan include the designation of a person in charge of the assembly, a method of providing clear instructions to the people involved in the assembly about what they can and cannot do, and a periodic check of the people involved to ensure that they are not armed or under the influence of alcohol and drugs.

Obligations of Parties Involved

A person in charge of the assembly must be on the scene and be identified to the police officer upon request. The assembly cannot obstruct the access to use by the general public of sidewalks, streets, alleys, driveways and other thoroughfares. Businesses must be allowed to remain open and to conduct business. Private property rights must be observed. If you are involved in a labor dispute and the law allows you to use a portion of private or public property for the assembly, you must confine your activities to the permitted areas.

No person may use physical force against another person or damage public or private property. This includes a prohibition against throwing objects at others, displaying firearms or other dangerous weapons, damaging vehicles, setting fires and the harassment of other people.

Police Involvement

It is not necessary to deploy police personnel to a lawful assembly. Should police deployment become necessary, whenever possible in the best interest of public safety, we will request the person in charge of the assembly take action to preserve the peace. The Police Department will often videotape assemblies for the purpose of later identification and arrest of criminals and to record the activities involved in the assembly. If it becomes necessary for the police to take action at the scene of the assembly to preserve the peace, we will take whatever action is necessary including arresting or issuing citations to individuals violating the law and utilizing such force necessary to restore order. If the assembly becomes violent, it will be treated as a riot and all individuals on the scene will be ordered to disperse or be arrested. The Police Department, through mutual aid agreements with all other law enforcement agencies has sufficient resources to enforce the law at an assembly when necessary. We sincerely hope that police action is not necessary at your assembly.

Additional Information

If you wish additional information about demonstration guidelines, please call the office of the Chief of Police, Tigard Police Department, (503) 639-6168.

365.1.5 SUMMARY OF LEGAL BASIS OF AUTHORITY TO ACT IN CROWD SITUATIONS IN AND AROUND THE CITY OF TIGARD

The Oregon Supreme Court struck down the subsection of the state Disorderly Conduct statute that criminalize refusal to disperse following a lawful police order. The rest of the Disorderly Conduct statute remains in effect, including the prohibition against blocking vehicular or pedestrian traffic on a public way while recklessly causing a grave risk of public inconvenience, annoyance or alarm. The Court did not prohibit police from dispersing unlawful assemblies.

Summary of Authority

The following is a list of authority available for the policing of crowd events and an intertwined list of prosecutable crimes that may occur at crowd events.

Tigard Police Department

Policy Manual

Mass Arrest and Civil Unrest

- (a) Interfering with a Peace Officer/Refusing to Obey a Lawful Order
 1. A peace officer gives a person a lawful order to do or not to do something;
 2. The person refuses to obey that order;
 3. The order must be a lawful order which means there is a law which requires or prohibits the behavior that the person is being ordered to do or not to do;
 4. The person must actively not obey the order (passive disobedience does not violate this law).
 - (a) Practice: A recent case has caused some confusion about the definition of 'lawful order'. It remains clear that orders based on authority granted by statute or case law supports this charge. When you apply this statute, it is essential to identify the behavior which would violate the restrictions placed on time, place or manner of speech. While it is a lawful order to command a person to provide valid name for the purpose of filling out a citation; however, it is not lawful to order a person to provide their name in the absence of authority to make an arrest or issue a citation.

- (b) All police officers have the authority to place reasonable time, place and manner restrictions on speech in public places as long as the restriction squarely address a real public need and is "content-neutral." Restrictions that solve a danger or disruption problem but still allow a speaker an effective opportunity to communicate require less justification than a restriction that completely prohibits speech.
 1. Practice: When possible, give an order that reduces any danger or disruption in a situation while allowing the speaker(s) an opportunity to continue to communicate in some effective way. The courts will approve your decision if you solve the policing problem while placing the least amount of restriction on speech. If you must stop speech altogether to avoid a great harm to the community, be prepared to document significant safety, crime or disruption issues for the courts.
 2. Practice: Usually, you may not respond to the content of speech. The content of speech may not form the basis of a restriction or prohibition unless the content is "fighting words," or presents a clear and present danger which would be very rare. Practice: A reasonable time, place or manner restriction is a lawful order of a police officer, and failure to obey the order is a violation of Interfering with a Police Officer.

- (c) Authority of parade permit holder to exclude unwanted messages from the parade. Hurley v. GLIB, 515 US 557 (1995) (U.S. Supreme Court case) The holder of a parade permit has unlimited discretion to exclude people and messages from the parade.
 1. Practice: Establish communications with the permit holder or agents before the event and create a procedure for dealing with unwanted participants. Follow trespass law and procedures if permit holder decides to exclude unwanted participant.
 2. Practice: Be mindful of the geographic extent of the permit typically curb-to-curb.

- (d) Disorderly Conduct/Obstructing Vehicular Or Pedestrian Traffic - ORS 166.025(1)(d):
 1. A person obstructs vehicles or pedestrians on public streets or sidewalks;
 2. By either personally obstructing or placing objects that obstruct vehicles or pedestrians;
 3. Recklessly creating a risk of causing public inconvenience, annoyance or alarm.

Tigard Police Department

Policy Manual

Mass Arrest and Civil Unrest

- (e) Disorderly Conduct/Engaging In Fighting Or Violent Behavior - ORS 166.025(1)(a):
 - 1. A person uses physical force against another person not in self-defense, or a person engages in violent and threatening behavior;
 - 2. Recklessly creating a risk of public inconvenience, annoyance or alarm.
- (f) Riot - ORS 166.015
 - 1. Five or more individuals participate together;
 - 2. They engage in tumultuous and violent behavior that presents an imminent threat of personal injury or property damage;
 - 3. Recklessly causing public alarm.
- (g) State Vehicle Code Laws That Apply To Pedestrians Or Bicyclists:
 - 1. 811.535 - Failing to Obey Police Officer Directing Traffic B Traffic Violation;
 - 2. 814.070 - Improper Position Upon or Improperly Proceeding Along A Highway (i.e. walking in street when a sidewalk exists) D Traffic Violation
- (h) Failure To Disperse From An Unlawful Or Riotous Assemblage When Commanded - ORS 131.675 is committed when:
 - 1. An officer of the City has "gone among or as near to them as they can with safety" and order an unlawful or riotous assemblage to disperse and;
 - 2. A participant does not immediately disperse.
- (i) Unlawful Use Of A Weapon - ORS 166.220
 - 1. A person attempts to use against another, uses against another;
 - 2. A person carries or possesses with intent to use unlawfully against another;
 - 3. A dangerous or deadly weapon, as defined in ORS 161.015. Practice: Successful prosecution requires proof of an intended victim.
- (j) Obstructing Governmental Administration - TMC 7.28.040
 - 1. A person commits the crime of obstructing governmental or judicial administration if the person intentionally obstructs, impairs or hinders the administration of law or governmental or judicial function by means of intimidation, force, physical or economic interference or obstacle.
 - 2. This section shall not apply to the obstruction of unlawful governmental or judicial action or interference with the making of an arrest.
 - 3. Obstructing governmental or judicial administration is a Class A misdemeanor. (Ord. 84-65)
- (k) Threat To Health Or Safety - TMC 7.50.010 Whenever a threat to the public health or safety is created by any fire, explosion, accident, cave-in, or similar emergency, catastrophe or disaster, or by disturbance, riot, presence of an armed person hostage being held, or other disturbance, an officer of the police department may restrict or deny access to persons to the area where such threat exists, for the duration of such threat, when the presence of such persons in such area would constitute a danger to themselves, or when such officer reasonably believes that the presence of such persons would substantially interfere with the performance of the police or other emergency services. (Ord. 86-07)
- (l) Restrict Or Deny Access - TMC 7.50.030 As used in this chapter, "restrict or deny access" means that the officers of the police department have the authority to regulate

Tigard Police Department

Policy Manual

Mass Arrest and Civil Unrest

or prohibit the presence or movement of persons or vehicles to, from or within any area, to evacuate persons, and to move or remove any property therefrom, until the reason for such restriction or denial of access no longer exists. (Ord. 86-07)

- (m) Unlawful To Enter Or To Refuse To Leave - TMC 7.50.040 It is unlawful for any person to enter or to refuse to leave any area closed or restricted in access pursuant to Section 7.50.010 or Section 7.50.020 above, unless such person has specific statutory authority or the permission of the on-scene ranking officer of the police department to be within such area. (Ord. 86-07)
- (n) Conduct Restrictions - TMC 7.52.060 No one shall sleep on the seats or benches, or use loud, boisterous, threatening, abusive, insulting or indecent language, or behave in a disorderly manner, or do any act tending to a breach of the public peace. (Ord. 71-12)
- (o) Trespass ORS 164.245 (a) A person enters or remains unlawfully in or upon premises.
 - 1. Practice: This charge must be predicated on a lawful closure or exclusion. Violation of an exclusion from a parade or entry to a closed area supports prosecution under this statute.

365.1.6 INFORMATION

Members of the Police Department, who receive information concerning any demonstration or potential incident of civil unrest, shall immediately notify the Chief of Police. The Chief of Police, or designee in the Chief's absence, shall determine the department's response. Department members shall not share information gained concerning the potential unrest, unless directed by the Chief of Police. Department members shall ensure that all information they have is made available to those responsible to formulate the police response to the incident.

The department will seek to minimize criminal violations connected with public demonstrations by giving the involved parties guidelines for the conduct of the demonstration see Policy Manual§ 365.1.4. The intent of the guidelines is to seek the cooperation of all parties involved with the demonstration to maintain peace and order by proper planning and restraint. Whenever possible, these guidelines should be discussed with the organizers or officials in charge of all parties to the demonstration. At such time it should be emphasized that the public's access to and use of public sidewalks, public roadways, and public buildings must be preserved.

365.2 PROCEDURES

The first officer to arrive on the scene of a civil disturbance should do the following:

- Observe the situation from a safe distance to determine if the gathering is currently or potentially violent;
- Notify the communications center of the nature and seriousness of the disturbance, particularly the availability of weapons. Request the assistance of a supervisor and any necessary backup and advise as to the present course of action;
- If approaching the crowd would present unnecessary risk, instruct the gathering to disperse from a safe distance;
- Attempt to identify crowd leaders and any individuals personally engaged in criminal acts.

Tigard Police Department

Policy Manual

Mass Arrest and Civil Unrest

365.2.1 COMMAND RESPONSIBILITY

The ranking officer at the scene shall be the officer in charge (OIC). The OIC or other higher-ranking officer assuming command at the scene shall take the following steps:

- (a) Assess the immediate situation for seriousness and its potential for escalation. If the disturbance is minor in nature and adequate resources are available, efforts should be made to disperse the crowd;
- (b) Establish the number of personnel and the amount of equipment necessary to contain and disperse the disturbance and relay this information to the communications center;
- (c) Where necessary, ensure that appropriate notification is made to:
 1. Chief of Police or designee, and Department Command Staff;
 2. Mobile Response Team Commander
 3. Public Information Officer, who shall decide whether to be present at or respond to the scene of a mass arrest and shall act as a liaison between the incident commander and the news media;
 4. Outside agencies to include the fire department, medical agencies and rescue squads;
 5. State and local law enforcement agencies;
 6. Department legal advisor; and
 7. The local detention center.
- (d) Establish a temporary command post based on proximity to the scene, availability of communications, available space and security from crowd participants;
- (e) Establish an outer perimeter sufficient to contain the disturbance and prohibit entrance into the affected area;
- (f) Ensure that, to the degree possible, uninvolved civilians are vacated from the immediate area of the disturbance;
- (g) Ensure that, to the degree possible, surveillance points are established to identify agitators, leaders and individuals committing crimes, and to document and report on events as they occur. Photographic and videotape evidence of criminal acts and perpetrators shall be generated, whenever possible;
- (h) Ensure establishment and sufficient staffing of a press area.

365.2.2 MUTUAL AID AGREEMENTS

Any use of outside agency assistance, except those having immediate jurisdiction, will be consistent with current mutual aid agreements and shall be authorized by the Chief of Police or designee.

365.3 COMMAND OPTIONS

When adequate personnel and resources are in place, the OIC shall establish communications with the leaders of the disturbance and discuss actions necessary to disperse the crowd. Should the crowd fail to disperse in the prescribed manner, the OIC should be prepared to implement one of the following options.

365.3.1 CONTAINMENT AND DIALOGUE

The objective of containment and dialogue is merely to disperse the crowd. In so doing the OIC should:

Tigard Police Department

Policy Manual

Mass Arrest and Civil Unrest

- (a) Establish contact with crowd leaders to assess their intentions and motivation and develop a trust relationship; and
- (b) Communicate to the participants that:
 - 1. Their assembly is in violation of the law and will not be tolerated; and
 - 2. The department wishes to resolve the incident peacefully and that acts of violence will be dealt with swiftly and decisively.

365.3.2 PHYSICAL ARREST

When appropriate, the OIC will order the arrest of the crowd leaders, agitators or others engaged in unlawful conduct and will:

- (a) Ensure the appropriate use of tactical formations and availability of protective equipment for officers engaged in arrest procedures;
- (b) Ensure the availability of transportation for arrestees;
- (c) Establish a location or facility to accommodate prisoner processing; and
- (d) Ensure that a backup team of officers is readily available, should assistance be required.

365.3.3 NON-LETHAL FORCE

When physical arrest of identified leaders and agitators fails to disperse the crowd, the OIC may use non-lethal force to accomplish these ends. In so doing, the OIC shall ensure that:

- (a) A clear path of escape is available for those who wish to flee the area;
- (b) The use of tear gas, smoke or other non-lethal device is coordinated and controlled; and
- (c) Canine teams are restricted from all enforcement actions.

365.3.4 USE OF DEADLY FORCE

The use of deadly force in the control and disbursement of civil disturbances, as in other circumstances, is governed by the department's use of force policy and state law. Specifically;

- (a) Law enforcement officers are permitted to use deadly force to protect themselves or others from what is reasonably believed to be an immediate threat of death or serious physical injury;
- (b) Particular caution should be taken when using firearms during civil disturbances- the arbitrary use of return fire in crowds is prohibited; and
- (c) Where sniper fire is encountered or hostages taken, the department's policy on hostage and barricaded subjects shall be followed.

365.4 MASS ARREST

During the course of civil disturbances, it may be necessary to make arrests of numerous individuals over a relatively short period of time. In order for this process to be handled efficiently, safely and legally, the OIC should ensure that:

- (a) An arrest team is designated to process all prisoners for purposes of transportation. When possible, arrests should be made by two person teams equipped with gloves, OC and flex cuffs. Arrestees will be placed in restraints as soon as possible;

Tigard Police Department

Policy Manual

Mass Arrest and Civil Unrest

- (b) A transportation team is designated to transport prisoners to the booking facility and that an adequate number of vehicles are made available to remove the prisoners to the booking and/or the detention center;

- (h) The arresting officer/team shall deliver the secured arrestees, along with the property and relevant evidence, accompanied by a single paragraph statement of cause for arrest, and any necessary signed booking forms, describing and citing offenses, to the designated transportation team, which will then transport the prisoner to the booking facility. When required or practical the arresting officer(s) may transport the prisoner(s);
- (i) If the custody was the result of a citizen's arrest, appropriate signed documentation shall accompany the arrestee;
- (j) Upon completion of all duties in connection with the incident, the arresting officer(s) shall complete a detailed report on each arrest.

365.5 BOOKING AND LEGAL COUNSEL

Booking of arrestees is preferably done in the department's facility, but when a mass arrest occurs utilization of other booking facilities will be needed as long as they follow the guidelines set by the department. There will be a designated booking officer/ team which will work with the arresting team to provide adequate security and will advise prisoners of their constitutional rights and opportunity for legal counsel. Medical treatment will also be requested for arrestees at the booking facility.

365.5.1 BOOKING FACILITY

The preferred booking facility shall be the department's main holding rooms. In the event an incident involving mass arrest dictates the utilization of any other booking facility or site other than the departments, the location criteria shall:

- (a) Be located out of sight of the arrest scene;
- (b) Be large enough to accommodate the anticipated number of prisoners and all processing procedures;
- (c) Provide shelter, warmth, toilet facilities, and adequate security pending transport to the primary booking facility or the local detention facility.

Tigard Police Department

Policy Manual

Mass Arrest and Civil Unrest

365.5.2 BOOKING OFFICER/TEAM

The responsibilities during the booking of prisoners shall be in accordance with department policies to include the following:

- (a) The booking officer/team shall receive the prisoners from the transporting officer/team or from the arresting officer at the booking facility;

- (e) The case number- all relevant documents, prisoner property and evidence shall be checked to verify correct association to the appropriate prisoner. Upon verification that the arrestee is not wanted, meets the court requirement for release, and after OIC approval, a Release Agreement or Security Release Agreement may be completed, appropriate personal property returned and the arrestee released.

365.5.3 PRISONER TRANSPORT/SECURITY

Security of prisoners shall be the responsibility of members assigned to the arrest team, transportation team and booking team.

- (a) All prisoners in transport shall be restrained;
- (b) Transportation of prisoners from the scene of arrest shall be in secure police vehicles, a prisoner transport van, or if required, may be arranged through the public transit system by contacting a Tri-met supervisor;

365.5.4 DEFENSE COUNSEL VISITATIONS

A member of the arrest or booking team will advise all prisoners of their constitutional rights. During mass arrest incidents, a detained person shall have the opportunity to consult legal counsel only after the booking process has been completed and only if reasonable and practical.

365.5.5 COURT & PROSECUTORIAL LIAISON

When a mass arrest situation is anticipated, prior to its actual inception, the city attorney's office shall be notified.

When a mass arrest incident is spontaneous, without opportunity for prior planning, the city attorney's office shall be contacted for legal guidance, when practical and/or necessary.

365.5.6 MEDICAL TREATMENT

If necessary, the department's specified emergency medical agency shall be requested to stand-by at the scene of the disturbance and at the booking facility to screen arrested individuals for the necessity of medical treatment.

If an arrested person requires prescribed medication while being detained, and that person is in possession of the medication at the booking facility, the department's specified emergency medical agency shall be consulted prior to the dispensation of such medication.

Tigard Police Department

Policy Manual

Mass Arrest and Civil Unrest

365.6 CONTINGENCY PLANNING

It should be understood that every civil disturbance or mass arrest incident may have special requirements and that the conduct and actions of arrestees may dictate major deviation from this procedure, in which case it will be the responsibility of the Incident Commander to modify the tactics and techniques accordingly.

365.7 DEACTIVATION

When a disturbance has been brought under control the OIC shall ensure that the following measures are taken:

- All law enforcement officers engaged in the incident shall be accounted for and an assessment made of personal injuries;
- All necessary personnel shall be debriefed, as required;
- Witnesses and suspects shall be interviewed;
- All written reports shall be completed as soon as possible following the incident to include a comprehensive documentation of the basis for and the department's response to the incident.

Limited English Proficiency Services

368.1 PURPOSE AND SCOPE

This policy provides guidance to members when communicating with individuals with limited English proficiency (LEP) (42 USC § 2000d).

368.1.1 DEFINITIONS

Definitions related to this policy include:

Authorized interpreter - A person who has been screened and authorized by the Department to act as an interpreter and/or translator for others.

Interpret or interpretation - The act of listening to a communication in one language (source language) and orally converting it to another language (target language), while retaining the same meaning.

Limited English proficient (LEP) - Any individual whose primary language is not English and who has a limited ability to read, write, speak or understand English. These individuals may be competent in certain types of communication (e.g., speaking or understanding) but still be LEP for other purposes (e.g., reading or writing). Similarly, LEP designations are context-specific; an individual may possess sufficient English language skills to function in one setting but these skills may be insufficient in other situations.

Qualified bilingual member - A member of the Tigard Police Department, designated by the Department, who has the ability to communicate fluently, directly and accurately in both English and another language. Bilingual members may be fluent enough to communicate in a non-English language but may not be sufficiently fluent to interpret or translate from one language into another.

Translate or translation - The replacement of written text from one language (source language) into an equivalent written text (target language).

368.2 POLICY

It is the policy of the Tigard Police Department to reasonably ensure that LEP individuals have meaningful access to law enforcement services, programs and activities, while not imposing undue burdens on its members.

The Department will not discriminate against or deny any individual access to services, rights or programs based upon national origin or any other protected interest or right.

368.3 LEP COORDINATOR

The Chief of Police shall delegate certain responsibilities to an LEP Coordinator. The LEP Coordinator shall be appointed by, and directly responsible to, the Operations Division Commander or the authorized designee.

The responsibilities of the LEP Coordinator include, but are not limited to:

- (a) Coordinating and implementing all aspects of the Tigard Police Department's LEP services to LEP individuals.

Tigard Police Department

Policy Manual

Limited English Proficiency Services

- (b) Developing procedures that will enable members to access LEP services, including telephonic interpreters, and ensuring the procedures are available to all members.
- (c) Ensuring that a list of all qualified bilingual members and authorized interpreters is maintained and available to each Patrol Lieutenant and Operations Supervisor. The list should include information regarding the following:
 - 1. Languages spoken
 - 2. Contact information
 - 3. Availability
- (d) Ensuring signage stating that interpreters are available free of charge to LEP individuals is posted in appropriate areas and in the most commonly spoken languages.
- (e) Reviewing existing and newly developed documents to determine which are vital documents and should be translated, and into which languages the documents should be translated.
- (f) Annually assessing demographic data and other resources, including contracted language services utilization data and community-based organizations, to determine if there are additional documents or languages that are appropriate for translation.
- (g) Identifying standards and assessments to be used by the Department to qualify individuals as qualified bilingual members or authorized interpreters.
- (h) Periodically reviewing efforts of the Department in providing meaningful access to LEP individuals, and, as appropriate, developing reports, new procedures, or recommending modifications to this policy.
- (i) Receiving and responding to complaints regarding department LEP services.
- (j) Ensuring appropriate processes are in place to provide for the prompt and equitable resolution of complaints and inquiries regarding discrimination in access to department services, programs and activities.

368.3.1 FAMILY AND FRIENDS OF LEP INDIVIDUAL

While family and friends of an LEP individual may frequently offer to assist with interpretation, officers should carefully consider the circumstances before relying on such individuals. For example, children should not be relied upon except in emergency or critical situations. Further, the nature of the contact and relationship between the LEP individual and the individual offering services must be carefully considered (e.g., victim/suspect).

368.3.2 POSTING OF AVAILABLE SERVICES

Forms printed in available languages should be maintained in a conspicuous location at the front counter and other appropriate areas such as the booking area. When such forms are either unavailable or inappropriate, the Department will post a conspicuous notice that LEP services may be available.

368.4 FOUR-FACTOR ANALYSIS

Since there are many different languages that members could encounter, the Department will utilize the four-factor analysis outlined in the U.S. Department of Justice (DOJ) Guidance to Federal Financial Assistance Recipients, available at the DOJ website, to determine which measures will provide meaningful access to its services and programs. It is recognized that law enforcement contacts and circumstances will vary considerably.

Tigard Police Department

Policy Manual

Limited English Proficiency Services

This analysis, therefore, must remain flexible and will require an ongoing balance of four factors, which are:

- (a) The number or proportion of LEP individuals eligible to be served or likely to be encountered by department members, or who may benefit from programs or services within the jurisdiction of the Department or a particular geographic area.
- (b) The frequency with which LEP individuals are likely to come in contact with department members, programs or services.
- (c) The nature and importance of the contact, program, information or service provided.
- (d) The cost of providing LEP assistance and the resources available.

368.5 TYPES OF LEP ASSISTANCE AVAILABLE

Tigard Police Department members should never refuse service to an LEP individual who is requesting assistance, nor should they require an LEP individual to furnish an interpreter as a condition for receiving assistance. The Department will make every reasonable effort to provide meaningful and timely assistance to LEP individuals through a variety of services.

The Department will utilize all reasonably available tools, such as language identification cards, when attempting to determine an LEP individual's primary language.

LEP individuals may choose to accept department-provided LEP services at no cost or they may choose to provide their own.

Department-provided LEP services may include, but are not limited to, the assistance methods described in this policy.

368.6 WRITTEN FORMS AND GUIDELINES

Vital documents or those that are frequently used should be translated into languages most likely to be encountered. The LEP Coordinator will arrange to make these translated documents available to members and other appropriate individuals, as necessary.

368.7 AUDIO RECORDINGS

The Department may develop audio recordings of important or frequently requested information in a language most likely to be understood by those LEP individuals who are representative of the community being served.

368.7.1 QUALIFIED BILINGUAL MEMBERS

Bilingual members may be qualified to provide LEP services when they have demonstrated through established department procedures a sufficient level of skill and competence to fluently communicate in both English and a non-English language. Members utilized for LEP services must demonstrate knowledge of the functions of an interpreter/translator and the ethical issues involved when acting as a language conduit. Additionally, bilingual members must be able to communicate technical and law enforcement terminology, and be sufficiently proficient in the non-English language to perform complicated tasks, such as conducting interrogations, taking statements, collecting evidence or conveying rights or responsibilities.

When a qualified bilingual member from this department is not available, personnel from other City departments, who have been identified by the Department as having the requisite skills and competence, may be requested.

Tigard Police Department

Policy Manual

368.8 AUTHORIZED INTERPRETERS

Any person designated by the Department to act as an authorized interpreter and/or translator must have demonstrated competence in both English and the involved non-English language, must have an understanding of the functions of an interpreter that allows for correct and effective translation, and should not be a person with an interest in the department case or investigation involving the LEP individual. A person providing interpretation or translation services may be required to establish the accuracy and trustworthiness of the interpretation or translation in a court proceeding.

Authorized interpreters must pass a screening process established by the LEP Coordinator which demonstrates that their skills and abilities include:

- (a) The competence and ability to communicate information accurately in both English and in the target language.
- (b) Knowledge, in both languages, of any specialized terms or concepts peculiar to this department and of any particularized vocabulary or phraseology used by the LEP individual.
- (c) The ability to understand and adhere to the interpreter role without deviating into other roles, such as counselor or legal adviser.
- (d) Knowledge of the ethical issues involved when acting as a language conduit.

368.8.1 SOURCES OF AUTHORIZED INTERPRETERS

The Department may contract with authorized interpreters who are available over the telephone. Members may use these services with the approval of a supervisor and in compliance with established procedures.

Other sources may include:

- Qualified bilingual members of this department or personnel from other City departments.
- Individuals employed exclusively to perform interpretation services.
- Contracted in-person interpreters, such as state or federal court interpreters, among others.
- Interpreters from other agencies who have been qualified as interpreters by this department, and with whom the Department has a resource-sharing or other arrangement that they will interpret according to department guidelines.

368.8.2 COMMUNITY VOLUNTEERS AND OTHER SOURCES OF LANGUAGE ASSISTANCE

Language assistance may be available from community volunteers who have demonstrated competence in either monolingual (direct) communication and/or in interpretation or translation (as noted in above), and have been approved by the Department to communicate with LEP individuals.

Where qualified bilingual members or other authorized interpreters are unavailable to assist, approved community volunteers who have demonstrated competence may be called upon when appropriate. However, department members must carefully consider the nature of the contact and the relationship between the LEP individual and the volunteer to ensure that the volunteer can provide neutral and unbiased assistance.

While family or friends of an LEP individual may offer to assist with communication or interpretation, members should carefully consider the circumstances before relying on such

Tigard Police Department

Policy Manual

Limited English Proficiency Services

individuals. For example, children should not be relied upon except in exigent or very informal and non-confrontational situations.

368.9 CONTACT AND REPORTING

While all law enforcement contacts, services and individual rights are important, this department will utilize the four-factor analysis to prioritize service to LEP individuals so that such services may be targeted where they are most needed, according to the nature and importance of the particular law enforcement activity involved.

Whenever any member of this department is required to complete a report or other documentation and interpretation services are provided to any involved LEP individual, such services should be noted in the related report. Members should document the type of interpretation services utilized and whether the individual elected to use services provided by the Department or some other identified source.

368.10 RECEIVING AND RESPONDING TO REQUESTS FOR ASSISTANCE

The Tigard Police Department will take reasonable steps and will work with the Department of Human Resources to develop in-house language capacity by hiring or appointing qualified members proficient in languages representative of the community being served.

368.10.1 EMERGENCY CALLS TO 9-1-1

Department members will make every reasonable effort to promptly accommodate LEP individuals utilizing 9-1-1 lines. When a 9-1-1 call-taker receives a call and determines that the caller is an LEP individual, the call-taker shall quickly determine whether sufficient information can be obtained to initiate an appropriate emergency response. If language assistance is still needed, the language is known and a qualified bilingual member is available in WCCCA, the call shall immediately be handled by the qualified bilingual member.

If a qualified bilingual member is not available or the call-taker is unable to identify the caller's language, the call-taker will contact the contracted telephone interpretation service and establish a three-way call between the call-taker, the LEP individual and the interpreter.

Dispatchers will make every reasonable effort to dispatch a qualified bilingual member to the assignment, if available and appropriate.

While 9-1-1 calls shall receive top priority, reasonable efforts should also be made to accommodate LEP individuals seeking routine access to services and information by utilizing the resources listed in this policy.

368.11 FIELD ENFORCEMENT

Field enforcement will generally include such contacts as traffic stops, pedestrian stops, serving warrants and restraining orders, crowd/traffic control and other routine field contacts that may involve LEP individuals. The scope and nature of these activities and contacts will inevitably vary. Members and/or supervisors must assess each situation to determine the need and availability of language assistance to all involved LEP individuals and utilize the methods outlined in this policy to provide such assistance.

Although not every situation can be addressed in this policy, it is important that members are able to effectively communicate the reason for a contact, the need for information and the meaning or consequences of any enforcement action. For example, it would be

Tigard Police Department

Policy Manual

Limited English Proficiency Services

meaningless to request consent to search if the officer is unable to effectively communicate with an LEP individual.

If available, officers should obtain the assistance of a qualified bilingual member or an authorized interpreter before placing an LEP individual under arrest.

368.12 INVESTIGATIVE FIELD INTERVIEWS

In any situation where an interview may reveal information that could be used as the basis for arrest or prosecution of an LEP individual and a qualified bilingual member is unavailable or lacks the skills to directly communicate with the LEP individual, an authorized interpreter should be used. This includes interviews conducted during an investigation with victims, witnesses and suspects. In such situations, audio recordings of the interviews should be made when reasonably possible. Identification and contact information for the interpreter (e.g., name, address) should be documented so that the person can be subpoenaed for trial if necessary.

If an authorized interpreter is needed, officers should consider calling for an authorized interpreter in the following order:

- An authorized department member or allied agency interpreter
- An authorized telephone interpreter
- Any other authorized interpreter

Any *Miranda* warnings shall be provided to suspects in their primary language by an authorized interpreter or, if the suspect is literate, by providing a translated *Miranda* warning card.

The use of an LEP individual's bilingual friends, family members, children, neighbors or bystanders may be used only when a qualified bilingual member or authorized interpreter is unavailable and there is an immediate need to interview an LEP individual.

368.13 CUSTODIAL INTERROGATIONS

Miscommunication during custodial interrogations may have a substantial impact on the evidence presented in a criminal prosecution. Only qualified bilingual members or, if none is available or appropriate, authorized interpreters shall be used during custodial interrogations. *Miranda* warnings shall be provided to suspects in their primary language by the qualified bilingual member or an authorized interpreter.

In order to ensure that translations during custodial interrogations are accurately documented and are admissible as evidence, interrogations should be recorded whenever reasonably possible. See guidance on recording custodial interrogations in the Investigation and Prosecution Policy.

368.13.1 INTERPRETER REQUIRED IN ARRESTS

An officer who arrests a person who cannot readily understand or communicate the English language shall, prior to any interrogation or the taking of a statement, make available a qualified interpreter to assist throughout the interrogation or taking of the statement. Fees and expenses of the interpreter will be paid as specified by Oregon law (ORS 133.515).

368.14 BOOKINGS

When gathering information during the booking process, members should remain alert to the impediments that language barriers can create. In the interest of the arrestee's health

Tigard Police Department

Policy Manual

Limited English Proficiency Services

and welfare, the safety and security of the facility, and to protect individual rights, it is important that accurate medical screening and booking information be obtained. Members should seek the assistance of a qualified bilingual member whenever there is concern that accurate information cannot be obtained or that booking instructions may not be properly understood by an LEP individual.

368.15 COMPLAINTS

The Department shall ensure that LEP individuals who wish to file a complaint regarding members of this department are able to do so. The Department may provide an authorized interpreter or translated forms, as appropriate. Complaints will be referred to the LEP Coordinator.

Investigations into such complaints shall be handled in accordance with the Personnel Complaints Policy. Authorized interpreters used for any interview with an LEP individual during an investigation should not be members of this department.

Any notice required to be sent to an LEP individual as a complaining party pursuant to the Personnel Complaints Policy should be translated or otherwise communicated in a language-accessible manner.

368.16 COMMUNITY OUTREACH

Community outreach programs and other such services offered by this department are important to the ultimate success of more traditional law enforcement duties. This department will continue to work with community groups, local businesses and neighborhoods to provide equal access to such programs and services.

368.17 TRAINING

To ensure that all members who may have contact with LEP individuals are properly trained, the Department will provide periodic training on this policy and related procedures; including how to access department-authorized telephonic and in-person interpreters and other available resources.

The Training Coordinator shall be responsible for ensuring new members receive LEP training. Those who may have contact with LEP individuals should receive refresher training at least once every two years thereafter. The Training Coordinator shall maintain records of all LEP training provided, and will retain a copy in each member's training file in accordance with established records retention schedules.

Communications with Persons with Disabilities

370.1 PURPOSE AND SCOPE

This policy provides guidance to members when communicating with individuals with disabilities, including those who are deaf or hard of hearing, have impaired speech or vision, or are blind.

370.1.1 DEFINITIONS

Definitions related to this policy include:

Auxiliary aids - These are used to communicate with people who are deaf, hard of hearing or have impaired speech. They include, but are not limited to, the use of gestures or visual aids to supplement oral communication; use of a notepad and pen or pencil to exchange written notes; use of a computer or typewriter; use of an assistive listening system or device to amplify sound; use of a teletypewriter (TTY), videophones (video relay service or VRS); or use of a qualified interpreter.

Deaf or hard of hearing - An individual who has or is regarded as having substantially limited hearing with or without assistance.

Qualified interpreter - A person who is able to interpret effectively, accurately and impartially, both receptively and expressively, using any necessary specialized vocabulary. Qualified interpreters include oral interpreters, transliterators, sign language interpreters and intermediary interpreters.

370.2 POLICY

It is the policy of the Tigard Police Department to reasonably ensure that people with disabilities, including victims, witnesses, suspects and arrestees have equal access to law enforcement services, programs and activities. Members must make efforts to communicate effectively with individuals with disabilities.

The Department will not discriminate against or deny any individual access to services, rights or programs based upon disabilities.

370.3 AMERICANS WITH DISABILITIES (ADA) COORDINATOR

The Chief of Police shall delegate certain responsibilities to an ADA Coordinator (28 CFR 35.107). The ADA Coordinator shall be appointed by, and directly responsible, to the Operations Division Commander or the authorized designee.

The responsibilities of the ADA Coordinator shall include, but not be limited to:

- (a) Working with the City ADA coordinator regarding the Tigard Police Department's efforts to ensure equal access to services, programs and activities.
- (b) Developing reports, new procedures, or recommending modifications to this policy.
- (c) Acting as a liaison with local disability advocacy groups or other disability groups regarding access to department services, programs and activities.

Tigard Police Department

Policy Manual

Communications with Persons with Disabilities

- (d) Ensuring that a list of qualified interpreter services is maintained and available to each Patrol Lieutenant and Operations Supervisor. The list should include information regarding the following:
 - 1. Contact information
 - 2. Availability
- (e) Developing procedures that will enable members to access auxiliary aids or services, including qualified interpreters, and ensure the procedures are available to all members.
- (f) Ensuring signage is posted in appropriate areas, indicating that auxiliary aids are available free of charge to people with disabilities.
- (g) Ensuring appropriate processes are in place to provide for the prompt and equitable resolution of complaints and inquiries regarding discrimination in access to department services, programs and activities.

370.4 FACTORS TO CONSIDER

Because the nature of any law enforcement contact may vary substantially from one situation to the next, members of this department should consider all information reasonably available to them when determining how to communicate with an individual with a disability. Members should carefully balance all known factors in an effort to reasonably ensure people who are disabled have equal access to services, programs and activities. These factors may include, but are not limited to:

- (a) Members should not always assume that effective communication is being achieved. The fact that an individual appears to be nodding in agreement does not always mean he/she completely understands the message. When there is any doubt, members should ask the individual to communicate back or otherwise demonstrate their understanding.
- (b) The nature of the disability (e.g., deafness or blindness vs. hard of hearing or low vision).
- (c) The nature of the law enforcement contact (e.g., emergency vs. non-emergency, custodial vs. consensual contact).
- (d) The availability of auxiliary aids. The fact that a particular aid is not available does not eliminate the obligation to reasonably ensure access. However, in an emergency, availability may factor into the type of aid used.

370.5 INITIAL AND IMMEDIATE CONSIDERATIONS

Recognizing that various law enforcement encounters may be potentially volatile and/or emotionally charged, members should remain alert to the possibility of communication problems.

Members should exercise special care in the use of all gestures, and verbal and written communication to minimize initial confusion and misunderstanding when dealing with any individual with known or suspected disabilities.

In a non-emergency situation, when a member knows or suspects an individual requires assistance to effectively communicate, the member shall identify the individual's choice of auxiliary aid or service.

The individual's preferred communication method must be honored unless another effective method of communication exists under the circumstances (28 CFR 35.160).

Tigard Police Department

Policy Manual

Communications with Persons with Disabilities

Factors to consider when determining whether an alternative method is effective include:

- (a) The methods of communication usually used by the individual.
- (b) The nature, length and complexity of the communication involved.
- (c) The context of the communication.

In emergency situations involving an imminent threat to the safety or welfare of any person, members may use whatever auxiliary aids and services that reasonably appear effective under the circumstances. This may include, for example, exchanging written notes or using the services of a person who knows sign language but is not a qualified interpreter, even if the person who is deaf or hard of hearing would prefer a qualified sign language interpreter or another appropriate auxiliary aid or service. Once the emergency has ended, the continued method of communication should be reconsidered. The member should inquire as to the individual's preference and give primary consideration to that preference.

If an individual who is deaf, hard of hearing or has impaired speech must be handcuffed while in the custody of the Tigard Police Department, consideration should be given, safety permitting, to placing the handcuffs in the front of the body to facilitate communication using sign language or writing.

370.6 TYPES OF ASSISTANCE AVAILABLE

Tigard Police Department members shall never refuse to assist an individual with disabilities who is requesting assistance. The Department will not charge anyone to receive auxiliary aids, nor shall they require anyone to furnish their own auxiliary aid or service as a condition for receiving assistance. The Department will make every reasonable effort to provide equal access and timely assistance to individuals who are disabled through a variety of services.

A person who is disabled may choose to accept department-provided auxiliary aids or services or they may choose to provide their own.

Department-provided auxiliary aids or services may include, but are not limited to, the assistance methods described in this policy.

370.7 AUDIO RECORDINGS AND ENLARGED PRINT

The Department may develop audio recordings to assist people who are blind or have a visual impairment with accessing important information. If such a recording is not available, members may read aloud from the appropriate form, for example a personnel complaint form, or provide forms with enlarged print.

370.8 QUALIFIED INTERPRETERS

A qualified interpreter may be needed in lengthy or complex transactions (e.g., interviewing a victim, witness, suspect or arrestee), if the individual to be interviewed normally relies on sign language or speechreading (lip-reading) to understand what others are saying. The qualified interpreter should not be a person with an interest in the case or the investigation. A person providing interpretation services may be required to establish the accuracy and trustworthiness of the interpretation in a court proceeding.

Qualified interpreters should be:

- (a) Available within a reasonable amount of time but in no event longer than one hour if requested.
- (b) Experienced in providing interpretation services related to law enforcement matters.

Tigard Police Department

Policy Manual

Communications with Persons with Disabilities

- (c) Familiar with the use of VRS and/or video remote interpreting services.
- (d) Certified in either American Sign Language (ASL) or Signed English (SE).
- (e) Able to understand and adhere to the interpreter role without deviating into other roles, such as counselor or legal adviser.
- (f) Knowledgeable of the ethical issues involved when providing interpreter services.

Members should use department-approved procedures to request a qualified interpreter at the earliest reasonable opportunity, and generally not more than 15 minutes after a request for an interpreter has been made or it is reasonably apparent that an interpreter is needed. No individual who is disabled shall be required to provide his/her own interpreter (28 CFR 35.160).

370.9 TTY AND RELAY SERVICES

In situations where an individual without a disability would have access to a telephone (e.g., booking or attorney contacts), members must also provide those who are deaf, hard of hearing or have impaired speech the opportunity to place calls using an available TTY (also known as a telecommunications device for deaf people, or TDD). Members shall provide additional time, as needed, for effective communication due to the slower nature of TTY and TDD communications.

The Department will accept all TTY or TDD calls placed by those who are deaf or hard of hearing and received via a telecommunications relay service (28 CFR 35.162).

Note that relay services translate verbatim, so the conversation must be conducted as if speaking directly to the caller.

370.10 COMMUNITY VOLUNTEERS

Interpreter services may be available from community volunteers who have demonstrated competence in communication services, such as ASL or SE, and have been approved by the Department to provide interpreter services.

Where qualified interpreters are unavailable to assist, approved community volunteers who have demonstrated competence may be called upon when appropriate. However, department members must carefully consider the nature of the contact and the relationship between the individual with the disability and the volunteer to ensure that the volunteer can provide neutral and unbiased assistance.

370.11 FAMILY AND FRIENDS

While family or friends may offer to assist with interpretation, members should carefully consider the circumstances before relying on such individuals. The nature of the contact and relationship between the individual with the disability and the person offering services must be carefully considered (e.g., victim/suspect).

Children shall not be relied upon except in emergency or critical situations when there is no qualified interpreter reasonably available.

Adults may be relied upon when (28 CFR 35.160):

- (a) There is an emergency or critical situation and there is no qualified interpreter reasonably available.

Tigard Police Department

Policy Manual

Communications with Persons with Disabilities

- (b) The person with the disability requests that the adult interpret or facilitate communication and the adult agrees to provide such assistance, and reliance on that adult for such assistance is reasonable under the circumstances.

370.12 REPORTING

Whenever any member of this department is required to complete a report or other documentation, and communication assistance has been provided, such services should be noted in the related report. Members should document the type of communication services utilized and whether the individual elected to use services provided by the Department or some other identified source. If the individual's express preference is not honored, the member must document why another method of communication was used.

All written communications exchanged in a criminal case shall be attached to the report or placed into evidence.

370.13 FIELD ENFORCEMENT

Field enforcement will generally include such contacts as traffic stops, pedestrian stops, serving warrants and restraining orders, crowd/traffic control and other routine field contacts that may involve individuals with disabilities. The scope and nature of these activities and contacts will inevitably vary.

The Department recognizes that it would be virtually impossible to provide immediate access to complete communication services to every member of this department. Members and/or supervisors must assess each situation and consider the length, complexity and importance of the communication, as well as the individual's preferred method of communication, when determining the type of resources to use and whether a qualified interpreter is needed.

Although not every situation can be addressed in this policy, it is important that members are able to effectively communicate the reason for a contact, the need for information and the meaning or consequences of any enforcement action. For example, it would be meaningless to verbally request consent to search if the officer is unable to effectively communicate with an individual who is deaf or hard of hearing and requires communications assistance.

If available, officers should obtain the assistance of a qualified interpreter before placing an individual with a disability under arrest. Individuals who are arrested and are assisted by service animals should be permitted to make arrangements for the care of such animals prior to transport.

370.13.1 FIELD RESOURCES

Examples of methods that may be sufficient for transactions, such as checking a license or giving directions to a location or for urgent situations such as responding to a violent crime in progress, may, depending on the circumstances, include such simple things as:

- (a) Hand gestures or visual aids with an individual who is deaf, hard of hearing or has impaired speech.
- (b) Exchange of written notes or communications.
- (c) Verbal communication with an individual who can speechread by facing the individual and speaking slowly and clearly.
- (d) Use of computer, word processing, personal communication device or similar device to exchange texts or notes.

Tigard Police Department

Policy Manual

Communications with Persons with Disabilities

- (e) Slowly and clearly speaking or reading simple terms to individuals who have a visual or mental impairment.

Members should be aware that these techniques may not provide effective communication as required by law and this policy depending on the circumstances.

370.14 CUSTODIAL INTERROGATIONS

In an effort to ensure that the rights of individuals who are deaf, hard of hearing or have speech impairment are protected during a custodial interrogation, this department will provide interpreter services before beginning an interrogation, unless exigent circumstances exist or the individual has made a clear indication that he/she understands the process and desires to proceed without an interpreter. The use of a video remote interpreting service should be considered, where appropriate, if a live interpreter is not available. *Miranda* warnings shall be provided to suspects who are deaf or hard of hearing by a qualified interpreter or by providing a written *Miranda* warning card.

In order to ensure that communications during custodial investigations are accurately documented and are admissible as evidence, interrogations should be recorded whenever reasonably possible. See guidance on recording custodial interrogations in the Investigation and Prosecution Policy.

370.14.1 INTERPRETER REQUIRED IN ARRESTS

An officer who arrests a person who is deaf, has a physical hearing impairment or physical speaking impairment shall, prior to any interrogation or the taking of a statement, make available a qualified interpreter to assist throughout the interrogation or taking of the statement. Fees and expenses of the interpreter will be paid as specified by Oregon law (ORS 133.515).

370.15 ARRESTS AND BOOKINGS

If an individual with speech or hearing disabilities is arrested, the arresting officer shall use department-approved procedures to provide a qualified interpreter at the place of arrest or booking as soon as reasonably practicable, unless the individual indicates that he/she prefers a different auxiliary aid or service or the officer reasonably determines another effective method of communication exists under the circumstances.

When gathering information during the booking process, members should remain alert to the impediments that often exist when communicating with those who are deaf, hard of hearing, who have impaired speech or vision, are blind, or have other disabilities. In the interest of the arrestee's health and welfare, the safety and security of the facility and to protect individual rights, it is important that accurate medical screening and booking information be obtained. If necessary, members should seek the assistance of a qualified interpreter whenever there is concern that accurate information cannot be obtained or that booking instructions may not be properly understood by the individual.

Individuals who require and possess personally owned communication aids (e.g., hearing aids, cochlear processors) should be permitted to retain them while in custody.

370.16 COMPLAINTS

The Department shall ensure that individuals with disabilities who wish to file a complaint regarding members of this department are able to do so. The Department may provide a qualified interpreter or forms in enlarged print, as appropriate. Complaints will be referred to the department ADA Coordinator.

Tigard Police Department

Policy Manual

Communications with Persons with Disabilities

Investigations into such complaints shall be handled in accordance with the Personnel Complaints Policy. Qualified interpreters used during the investigation of a complaint should not be members of this Department.

370.17 COMMUNITY OUTREACH

Community outreach programs and other such services offered by this department are important to the ultimate success of more traditional law enforcement duties. This department will continue to work with community groups, local businesses and neighborhoods to provide equal access to such programs and services.

370.18 TRAINING

To ensure that all members who may have contact with individuals who are disabled are properly trained, the Department will provide periodic training that should include:

- (a) Awareness and understanding of this policy and related procedures, related forms and available resources.
- (b) Procedures for accessing qualified interpreters and other available resources.
- (c) Working with in-person and telephone interpreters and related equipment.

The Training Coordinator shall be responsible for ensuring new members receive training related to interacting with individuals who have disabilities, including individuals who are deaf, hard of hearing, who have impaired speech or vision, or are blind. Those who may have contact with such individuals should receive refresher training at least once every two years thereafter. The Training Coordinator shall maintain records of all training provided, and will retain a copy in each member's training file in accordance with established records retention schedules.

Illegal Campers Notification & Enforcement

371.1 PURPOSE AND SCOPE

It is the policy of the Tigard Police Department to assure the fair and courteous treatment of all people when handling illegal campers and campsites, as defined by Tigard Municipal Code 7.80.020. Officers will not conduct sweeps unless the camp in question is the source of illegal activities, **a complaint is received from the property owner requesting removal**, or there exists health and sanitary concerns that make the immediate clean up of the camp a necessity.

371.2 DEFINITION

Sweep: An action taken by the City to close an illegal campsite by removing shelters, persons, and/or personal property.

371.3 PROCEDURE

Officers will consider weather, the availability of shelters, and the capabilities of referral services before conducting camp sweeps.

Members of the Department will post a 24-hour notice in both English and Spanish before conducting a sweep. If possible, persons residing in the camp will be notified verbally as well. At the time that the 24-hour notice is posted, the Department member shall inform the local agency that delivers social services to homeless individuals where the notice has been posted. (Community Action Center, 503-443-6084)

Illegal Campground Notices can be obtained from the Records Section.

371.3.1 24 HOUR NOTICE EXCEPTION

There is no requirement for a 24-hour notice on private property. However, absent a specific request for immediate removal, officers should give a 24-hour notice.

If there are reasonable grounds to believe that illegal activities are occurring, such as drug use, dealing or prostitution, with the approval of the Watch Commander a 24 hour notice is not necessary.

When an emergency exists, such as contamination by hazardous materials or an immediate threat to human life or safety, the Operations Division Commander may waive the 24-hour notice. When a sweep has been conducted without the 24-hour notice, the appropriate social service shall be notified.

371.4 PERSONAL PROPERTY

Personal property (any item that is reasonably recognized as belonging to a person that has apparent use and is not in an unsanitary condition) will be stored for at least 30 days. Any item that has no apparent utility or is in unsanitary condition may be immediately discarded after removal of the individuals from the camping site.

Property taken is to be sealed in a plastic bag with a tag identifying the location of the camp. Property too large to be bagged will be tagged appropriately.

Tigard Police Department

Policy Manual

Illegal Campers Notification & Enforcement

All other property defined in (ORS 203.079(1)(d) refer to "weapons, drug paraphernalia and items that appear to be either stolen or evidence of a crime") will be handled in accordance with Policy#804 Property Procedures.

371.5 ADDITIONAL CONSIDERATIONS

Supervisors are responsible for ensuring that all personnel participating in the sweep have proper safety equipment.

Officers shall attempt to make arrangements for personnel from the local social services office to accompany them when making any camp sweep.

Stalking

376.1 PURPOSE AND SCOPE

This policy establishes procedures for the investigation and enforcement of stalking complaints (Oregon Revised Statutes 163.730 to 163.755).

376.1.1 POLICY

Stalking behavior frequently results in serious injury and emotional trauma to victims and it is the policy of the Tigard Police Department to ensure that complaints of stalking will be given high priority and that every formal stalking complaint will be thoroughly investigated and forwarded to the District Attorney's Office.

376.2 UNIFORM STALKING COMPLAINT

Persons wishing to file a stalking complaint will be provided a Uniform Stalking Complaint Form. Officers will assist petitioners in completing the form and will sign the form in addition to the petitioner.

Upon receipt of a Uniform Stalking Complaint, officers will complete a thorough investigation and submit an incident report to the District Attorney's office regardless of whether any civil or criminal action was taken. Officers should also review the case to determine if there is probable cause to arrest for ORS 163.732 at the time of the investigation and act accordingly. Regardless, the report must be submitted to the District Attorney's Office within three days (Oregon Revised Statutes 163.738(7)).

376.3 UNIFORM STALKING CITATION

The bottom half of the Uniform Stalking Complaint is a Uniform Stalking Citation. The citation is a civil summons for the respondent to appear at a hearing to determine if a Stalking Protective Order will be issued against the respondent. Officers will complete and attempt to serve a Uniform Stalking Citation, with a court date set for three judicial days (business days excluding holidays) from the date the citation was served, at 9:00 a.m., Room 120J in the Washington County Courthouse, on the respondent in every case where:

- (a) The officer has received a completed Uniform Stalking Complaint, and
- (b) The officer has probable cause to believe that the elements of Oregon Revised Statutes 163.735 are present - the elements for the issuance of the civil order are the same as for 163.732 except it includes the reckless mental state-as is explained in the applicable ORS.

376.3.1 SERVICE OF STALKING CITATIONS

- (a) If the citation is served, the officer is required to advise the respondent of the court date and time and location of appearance. Officers should advise the respondent of the following:
 - 1. Engaging in behavior that alarms or coerces the petitioner may result in their arrest; and
 - 2. The contents of the citation and the state and federal law restrictions contained on the front and back of the respondent's copy of the citation; and

Tigard Police Department

Policy Manual

Stalking

3. If they fail to appear at the hearing a warrant will be issued for their arrest, as well as a Stalking Protective Order.
- (b) If a Uniform Stalking Citation is issued, attach the top three copies to the case report. Provide the pink copy to the petitioner and goldenrod copy to the respondent. The original copy MUST make it to the calendaring office at the Washington County Courthouse more than 24 hours before the scheduled hearing in order for the hearing to get on the court docket.
- (c) If there is probable cause to issue a citation, but the citation is not served, officers should document attempts to serve the respondent and forward their reports of the investigation to the District Attorney's Office.
- (d) If the citation is served on the respondent, the District Court DA's will initiate the hearing process. The District Attorney's Office is not involved in this aspect of the case as it's a civil matter, but will review the reports to determine if criminal charges will be filed.
- (e) If the citation is served on the respondent, the petitioner should be advised that they must also appear at the hearing or the complaint will be dismissed and the Stalking Protective Order will not be issued. It is the policy of the Department to allow officers, when necessary and with approval from their supervisor, to attend these civil hearings even without the issuance of a subpoena in order to assist the victim by explaining those aspects of the investigation not known by the victim at the time of the hearing.

376.4 ARREST

Officers may arrest or cite a suspect for any criminal offense committed (including stalking) if the statutory elements have been met, as well as issue a (civil) Uniform Stalking Citation; the two actions are not mutually exclusive.

376.4.1 STALKING PROTECTIVE ORDERS

Once the court issues a Stalking Protective Order and it is served on the Respondent, officers may arrest the respondent for violating the terms of the order (Oregon Revised Statutes 163.750). However, if the crime being investigated is a violation of an existing civil stalking order and the officer has probable cause that the suspect violated the order, the arrest is mandatory pursuant to ORS 133.31(3)(a).

376.5 RESTRAINING ORDERS

Court stalking orders and restraining orders are different and are not mutually exclusive. Stalking reports may be appropriate even if a valid restraining order is in place.

Board Up Service

377.1 PURPOSE AND SCOPE

The purpose of this policy is to inform all members of the Police Department of the resources available to board up broken windows, doors, or buildings that need to be secured when no emergency party can be contacted.

377.2 PROCEDURE

In all cases, the homeowner or business owner should be contacted first for board up service authorization. If contact efforts have been unsuccessful, a TPD supervisor may make the final service request.

should verify that the person is desirous of spiritual counseling or guidance before engaging in such discussion.

Chaplains may not accept gratuities for any service or follow-up contact that was provided while functioning as a chaplain for the Tigard Police Department.

378.7 CLERGY-PENITENT CONFIDENTIALITY

No person who provides chaplain services to members of the Department may work or volunteer for the Tigard Police Department in any capacity other than that of chaplain.

Department chaplains shall be familiar with state evidentiary laws and rules pertaining to the limits of the clergy-penitent privilege and shall inform department members when it appears reasonably likely that the member is discussing matters that are not subject to the clergy-penitent privilege. In such cases, the chaplain should consider referring the member to a non-department counseling resource.

Policy Manual

Chaplains

378.10 TRAINING

The Department will establish a minimum number of training hours and standards for department chaplains. The training may include stress management, death notifications, post-traumatic stress syndrome, burnout for officers and chaplains, legal liability and confidentiality, ethics, responding to crisis situations, the law enforcement family, substance abuse, suicide, officer injury or death, and sensitivity and diversity, as approved by the Training Officer.

Child and Dependent Adult Safety

380.1 PURPOSE AND SCOPE

This policy provides guidelines to ensure that children and dependent adults are not left without appropriate care in the event their caregiver or guardian is arrested or otherwise prevented from providing care due to actions taken by members of this department.

This policy does not address the actions to be taken during the course of a child abuse or dependent adult investigation. These are covered in the Child Abuse Policy and the Elder Abuse Policy.

380.2 POLICY

It is the policy of this department to mitigate, to the extent reasonably possible, the stressful experience individuals may have when their parent or caregiver is arrested. The Tigard Police Department will endeavor to create a strong, cooperative relationship with local, state and community-based social services to ensure an effective, collaborative response that addresses the needs of those affected.

380.3 PROCEDURES DURING AN ARREST

When encountering an arrest or prolonged detention situation officers should make reasonable attempts to determine if the arrestee is responsible for children or dependent adults. In some cases this may be obvious, such as when children or dependent adults are present. However, officers should inquire if the arrestee has caregiver responsibilities for any children or dependent adults who are without appropriate supervision. The following steps should be taken:

- (a) Inquire about and confirm the location of any children or dependent adults.
- (b) Look for evidence of children and dependent adults. Officers should be mindful that some arrestees may conceal the fact that they have a dependent for fear the individual may be taken from them.
- (c) Consider inquiring of witnesses, neighbors, friends and relatives of the arrestee as to whether the person is responsible for a child or dependent adult.

Whenever reasonably possible, officers should take reasonable steps to accomplish the arrest of a parent, guardian or caregiver out of the presence of his/her child or dependent adult. Removing children or dependent adults from the scene in advance of the arrest will generally ensure the best outcome for the individual.

Whenever it is safe to do so, officers should allow the parent or caregiver to assure children or dependent adults that they will be provided care. If this is not safe or if the demeanor of the parent or caregiver suggests this conversation would be non-productive, the officer at the scene should explain the reason for the arrest in age-appropriate language and offer reassurance to the child or dependent adult that he/she will receive appropriate care.

380.3.1 AFTER AN ARREST

Whenever an arrest is made, the officer should take all reasonable steps to ensure the safety of the arrestee's disclosed or discovered children or dependent adults.

Tigard Police Department

Policy Manual

Child and Dependent Adult Safety

Officers should allow the arrestee reasonable time to arrange for care of children and dependent adults. Temporary placement with family or friends may be appropriate. However, any decision should give priority to a care solution that is in the best interest of the child or dependent adult. In such cases the following guidelines should be followed:

- (a) Allow the person reasonable time to arrange for the care of children and dependent adults with a responsible party, as appropriate.
 1. Unless there is evidence to the contrary (e.g., signs of abuse, drug use, unsafe environment), officers should respect the parent or caregiver's judgment regarding arrangements for care. It is generally best if the child or dependent adult remains with relatives or family friends that he/she knows and trusts because familiarity with surroundings and consideration for comfort, emotional state and safety are important.
 2. Except when a court order exists limiting contact, the officer should attempt to locate and place children or dependent adults with the non-arrested parent, guardian or caregiver.
- (b) Provide for the immediate supervision of children or dependent adults until an appropriate caregiver arrives.
- (c) Notify Child Protective Services, if appropriate.
- (d) Notify the field supervisor or Patrol Lieutenant of the disposition of children or dependent adults.

If children or dependent adults are at school or another known location outside the household at the time of arrest, the arresting officer should attempt to contact the school or other known location and inform the principal or appropriate responsible adult of the caregiver's arrest and of the arrangements being made for the care of the arrestee's dependent. The result of such actions should be documented in the associated report.

380.3.2 DURING THE BOOKING PROCESS

During the booking process, the arrestee shall be allowed to make additional telephone calls to relatives or other responsible individuals as is reasonably necessary to arrange for the care of any child or dependent adult. These telephone calls should be given as soon as practicable and are in addition to any other telephone calls allowed by law.

If an arrestee is unable to resolve the care of any child or dependent adult through this process, a supervisor should be contacted to determine the appropriate steps to arrange for care. These steps may include additional telephone calls or contacting a local, county or state services agency.

380.3.3 REPORTING

- (a) For all arrests where children are present or living in the household, the reporting member will document the following information:
 1. Name
 2. Sex
 3. Age
 4. How, where and with whom or which agency the child was placed
- (b) For all arrests where dependent adults are present or living in the household, the reporting member will document the following information:

Tigard Police Department

Policy Manual

Child and Dependent Adult Safety

1. Name
2. Sex
3. Age
4. Whether he/she reasonably appears able to care for him/herself
5. Disposition or placement information if he/she is unable to care for him/herself

380.3.4 SUPPORT AND COUNSELING REFERRAL

If, in the judgment of the handling officers, the child or dependent adult would benefit from additional assistance, such as counseling services, contact with a victim advocate or a crisis telephone number, the appropriate referral information may be provided.

380.4 DEPENDENT WELFARE SERVICES

Whenever an arrestee is unwilling or incapable of arranging for the appropriate care of any child or dependent adult, the handling officer should consider contacting the appropriate welfare service or other department-approved social service to determine whether protective custody is appropriate.

Only when other reasonable options are exhausted should a child or dependent adult be transported to the police facility, transported in a marked law enforcement vehicle or taken into formal protective custody.

Under no circumstances should a child or dependent adult be left unattended or without appropriate care.

380.5 TRAINING

The Training Coordinator is responsible to ensure that all members of this department who may be involved in arrests affecting children or dependent adults receive approved training on effective safety measures when a parent, guardian or caregiver is arrested.

Service Animals

382.1 PURPOSE AND SCOPE

Service animals play an important role in helping to overcome the limitations often faced by people with disabilities. The Tigard Police Department recognizes this need and is committed to making reasonable modifications to its policies, practices and procedures in accordance with Title II of the Americans with Disabilities Act of 1990 (ADA) to permit the use of service animals that are individually trained to assist a person with a disability.

382.2 SERVICE ANIMALS

The ADA defines a service animal as any dog or miniature horse that is individually trained to do work or perform tasks for the benefit of an individual with a disability, including a physical, sensory, psychiatric, intellectual or other mental disability. The work or tasks performed by a service animal must be directly related to the owner's disability (28 CFR 35.104).

382.2.1 STATE LAW

Oregon law expands the definition of a service or assistance animal to include any animal that is trained to assist a person with a physical impairment in one or more daily life activities (ORS 346.680).

382.2.2 USE OF SERVICE ANIMALS

Some service animals may be readily identifiable. However, many do not have a distinctive symbol, harness or collar. Service animals are not pets and may be trained by an individual or organization to assist people with disabilities.

The following examples are some of the ways service animals may be used to provide assistance:

- Guiding people who are blind or have low vision.
- Alerting people who are deaf or hard of hearing.
- Retrieving or picking up items, opening doors or flipping switches for people who have limited use of their hands, arms or legs.
- Pulling wheelchairs.
- Providing physical support and assisting people with stability and balance.
- Doing work or performing tasks for persons with traumatic brain injury, intellectual disabilities or psychiatric disabilities, such as reminding a person with depression to take medication.
- Alerting a person with anxiety to the onset of panic attacks, providing tactile stimulation to calm a person with post-traumatic stress disorder, assisting people with schizophrenia to distinguish between hallucinations and reality, and helping people with traumatic brain injury to locate misplaced items or follow daily routines.

382.3 MEMBER RESPONSIBILITIES

Service animals that are assisting individuals with disabilities are permitted in all public facilities and areas where the general public is allowed. Department members are expected to treat individuals with service animals with the same courtesy and respect that the Tigard Police Department affords to all members of the public.

Tigard Police Department

Policy Manual

Service Animals

If an animal exhibits vicious behavior, poses a direct threat to the health of others or unreasonably disrupts or interferes with normal business operations an officer may direct the owner to remove the animal from the premises. Barking alone is not a threat nor does a direct threat exist if the person takes prompt, effective action to control the animal. Each incident must be considered individually and past incidents alone are not cause for excluding a service animal. Removal of a service animal may not be used as a reason to refuse service to an individual with disabilities. Members of this department are expected to provide all services as are reasonably available to an individual with a disability.

If it is apparent or if an officer is aware the animal is a service animal, the owner should not be asked any questions as to the status of the animal. If it is unclear whether an animal meets the definition of a service animal, the officer should ask the individual only the following questions:

- Is the animal required because of a disability?
- What task or service has the service animal been trained to perform?

If the individual explains that the animal is required because of a disability and has been trained to work or perform at least one task the animal meets the definition of a service animal and no further question as to the animal's status should be asked. The person should not be questioned about his/her disabilities nor should the person be asked to provide any license, certification or identification card for the service animal.

Service animals are not pets. Department members should not interfere with the important work performed by a service animal by talking to, petting or otherwise initiating contact with a service animal.

When handling calls of a complaint regarding a service animal, members of this department should remain neutral and should be prepared to explain the ADA requirements concerning service animals to the concerned parties. Businesses are required to allow service animals to accompany their owner into all areas that other customers or members of the public are allowed.

Absent a violation of law independent of the ADA, officers should take no enforcement action beyond keeping the peace. Individuals who believe they have been discriminated against as the result of a disability should be referred to the Civil Rights Division of the U.S. Department of Justice.

Off-Duty Law Enforcement Actions

388.1 PURPOSE AND SCOPE

The decision to become involved in a law enforcement action when off-duty can place an officer as well as others at great risk and must be done with careful consideration. This policy is intended to provide guidelines for officers of the Tigard Police Department with respect to taking law enforcement action while off-duty.

388.2 POLICY

Initiating law enforcement action while off-duty is generally discouraged. Officers should not attempt to initiate enforcement action when witnessing minor crimes, such as suspected intoxicated drivers, reckless driving or minor property crimes. Such incidents should be promptly reported to the appropriate law enforcement agency.

Officers are not expected to place themselves in unreasonable peril. However, any sworn member of this department who becomes aware of an incident or circumstance that he/she reasonably believes poses an imminent threat of serious bodily injury or death, or significant property damage may take reasonable action to minimize the threat.

When public safety or the prevention of major property damage requires immediate action, officers should first consider reporting and monitoring the activity and only take direct action as a last resort.

388.3 FIREARMS

Officers of this department may carry firearms while off-duty in accordance with federal regulations and department policy. All firearms and ammunition must meet guidelines as described in the department Firearms and Qualification Policy. When carrying firearms while off-duty officers shall also carry their department-issued badge and identification.

Officers should refrain from carrying firearms when the consumption of alcohol is likely or when the need to carry a firearm is outweighed by safety considerations. Firearms shall not be carried by any officer who has consumed an amount of an alcoholic beverage or taken any drugs that would tend to adversely affect the officer's senses or judgment.

388.4 DECISION TO INTERVENE

There is no legal requirement for off-duty officers to take law enforcement action. However, should officers decide to intervene, they must evaluate whether the action is necessary or desirable, and should take into consideration the following:

- (a) The tactical disadvantage of being alone and the fact there may be multiple or hidden suspects.
- (b) The inability to communicate with responding units.
- (c) The lack of equipment, such as handcuffs, OC or baton.
- (d) The lack of cover.
- (e) The potential for increased risk to bystanders if the off-duty officer were to intervene.
- (f) Unfamiliarity with the surroundings.

Tigard Police Department

Policy Manual

Off-Duty Law Enforcement Actions

- (g) The potential for the off-duty officer to be misidentified by other peace officers or members of the public.

Officers should consider waiting for on-duty uniformed officers to arrive, and gather as much accurate intelligence as possible instead of immediately intervening.

388.4.1 INTERVENTION PROCEDURE

If involvement is reasonably necessary the officer should attempt to call or have someone else call 9-1-1 to request immediate assistance. The operator should be informed that an off-duty officer is on-scene and should be provided a description of the officer if possible.

Whenever practicable, the officer should loudly and repeatedly identify him/herself as an Tigard Police Department officer until acknowledged. Official identification should also be displayed.

388.4.2 INCIDENTS OF PERSONAL INTEREST

Officers should refrain from handling incidents of personal interest, (e.g., family or neighbor disputes) and should remain neutral. In such circumstances officers should call the responsible agency to handle the matter.

388.4.3 NON-SWORN RESPONSIBILITIES

Non-sworn personnel should not become involved in any law enforcement actions while off-duty except to notify the local law enforcement authority and remain at the scene, if safe and practicable.

388.4.4 OTHER CONSIDERATIONS

When encountering a non-uniformed officer in public, uniformed officers should wait for acknowledgement by the non-uniformed officer in case he/she needs to maintain an undercover capability.

388.5 REPORTING

Any off-duty officer who engages in any law enforcement activity, regardless of jurisdiction, shall notify the Patrol Lieutenant as soon as practicable. The Patrol Lieutenant shall determine whether a report should be filed by the employee.

Officers should cooperate fully with the agency having jurisdiction in providing statements or reports as requested or as appropriate.

EMERGENCY PROCEDURES FOR RADIO/MDC MALFUNCTION

389.1 PURPOSE AND SCOPE

If radio communications are disabled for any reason (i.e. equipment failure or an incident which causes WCCCA to be evacuated) the following will remain in effect until WCCCA is able to correct the problem, return to their building or until police supervisors are informed by WCCCA supervisor that alternate procedures should be followed. In the event of a partial radio system failure in which but not all of the primary talk groups are inoperable, members will move to an operable primary talk group, check in, and wait for instructions.

389.1.1 MEMBER RESPONSIBILITIES

- (a) Ascertain whether the problem is with the radio or the system.
- (b) If the problem is a system problem:
 - 1. Break contact with the public as soon as possible.
 - 2. Return to the PO or go to the nearest police facility (if out of jurisdiction) or firehouse and contact his/her supervisor or records clerk.
 - 3. Remain at or return to standby location as directed.

389.1.2 SUPERVISOR RESPONSIBILITIES

- (a) Ascertain the nature of the malfunction from WCCCA.
- (b) Initiate command notifications.
- (c) Order units to disengage from public contact, if possible, and limit discretionary traffic stops.
- (d) Instruct units to return to the PO or standby at the nearest police facility or fire station.
- (e) Conduct a roll call as soon as possible and locate missing units.
- (f) Dispatch units on Priority 1 and 2 calls only with at least one cover unit, unless the primary unit is a two member unit.
- (g) Dispatch at least four units on Code 0 calls.
- (h) Instruct units to return to standby location after their call.

Chapter 4 - Patrol Operations

Patrol Function

400.1 PURPOSE AND SCOPE

The purpose of this policy is to define the functions of the patrol unit of the department to ensure intra-department cooperation and information sharing.

400.1.1 FUNCTION

Officers will generally patrol in clearly marked vehicles, patrol assigned jurisdictional areas of Tigard, respond to citizen calls for assistance, act as a deterrent to crime, enforce local ordinances as well as state laws, and respond to emergencies 24 hours per day seven days per week.

Patrol will generally provide the following services within the limits of available resources:

- (a) Patrol that is directed at the prevention of criminal acts, traffic violations and collisions, the maintenance of public order, and the discovery of hazardous situations or conditions
- (b) Calls for service, both routine and emergency in nature
- (c) Investigation of both criminal and non-criminal acts
- (d) The apprehension of criminal offenders
- (e) Community Oriented Policing and Problem Solving activities such as citizen assists and individual citizen contacts of a positive nature
- (f) The sharing of information between the Patrol and other divisions within the department, as well as other governmental agencies both inside and outside of the City of Tigard.
- (g) The application of resources to specific problems or situations within the community, which may be improved or resolved by Community Oriented Policing and problem solving strategies
- (h) Traffic direction and control
- (i) Crime prevention activities such as residential inspections, business inspections, community presentations, etc.

400.1.2 TERRORISM

It is the goal of the Tigard Police Department to make every reasonable effort to accurately and appropriately gather and report any information that may relate to either foreign or domestic terrorism. Officers should advise a supervisor as soon as practicable of any activity believed to be terrorism related and should document such incidents with a written report or Field Interview (FI). The supervisor should ensure that all terrorism related reports and FIs are forwarded to the Criminal Investigation Section Supervisor in a timely fashion.

400.2 PATROL INFORMATION SHARING PROCEDURES

The following guidelines are intended to develop and maintain intradepartmental cooperation and information flow between the various divisions of the Tigard Police Department.

Tigard Police Department

Policy Manual

Patrol Function

400.2.1 INCIDENT REPORTS

An incident report may be completed by any patrol officer who receives criminal or other reportable information. The report will be processed and forwarded to the appropriate division for retention or follow-up investigation.

400.2.2 PATROL BRIEFINGS

Patrol supervisors, detective sergeants, and special unit sergeants are encouraged to share information as much as possible. All supervisors and/or officers will be provided an opportunity to share information at the daily patrol [briefing]s as time permits.

400.2.3 INFORMATION CLIPBOARDS

Several information clipboards will be maintained in the briefing room and will be available for review by officers from all divisions within the department. These will include, but not be limited to, the patrol district activity clipboards, the warrants clipboard, the written directive clipboard, and the briefing room clipboards. A copy of the Special Order will be placed on the briefing room clipboard. New Special Orders will be made available for patrol supervisors and will be discussed at briefings and shift meetings.

400.2.4 BULLETIN BOARDS

A bulletin board will be kept in the briefing room and the Criminal Investigation Section for display of suspect information, intelligence reports and photographs. New Special Orders will be made available for patrol supervisors and will be discussed at briefings and shift meetings. A copy of any new Special Order will be placed on the briefing room clipboard.

400.2.5 PROBLEM SOLVING PROJECTS

Patrol officers assigned to Community Policing or problem solving projects are expected to communicate with their counterparts on other shifts to ensure efficient, coordinated and consistent handling of the problem.

400.3 CROWDS, EVENTS AND GATHERINGS

Officers may encounter gatherings of people, including but not limited to, civil demonstrations, civic, social and business events, public displays, parades and sporting events. Officers should monitor such events as time permits in an effort to keep the peace and protect the safety and rights of those present. A patrol supervisor should be notified when it becomes reasonably foreseeable that such an event may require increased monitoring, contact or intervention.

Officers responding to an event or gathering that warrants law enforcement involvement should carefully balance the speech and association rights of those present with applicable public safety concerns before taking enforcement action. Officers are encouraged to contact organizers or responsible persons to seek voluntary compliance that may address relevant public safety/order concerns.

Officers should consider enforcement of applicable state and local laws, when the activity blocks the entrance or egress of a facility or location and when voluntary compliance with the law is not achieved.

Racial- or Bias-Based Profiling

402.1 PURPOSE AND SCOPE

This policy provides guidance to department members and establishes appropriate controls to ensure that employees of the Tigard Police Department do not engage in racial- or bias-based profiling or violate any related laws while serving the community.

402.1.1 DEFINITION

Definitions related to this policy include:

Racial- or bias-based profiling - An inappropriate reliance on factors such as race, ethnicity, national origin, religion, sex, sexual orientation, economic status, age, cultural group, disability or affiliation with any other similar identifiable group as a factor in deciding whether to take law enforcement action or to provide service.

402.2 POLICY

The Tigard Police Department is committed to providing law enforcement services to the community with due regard for the racial, cultural or other differences of those served. It is the policy of this department to provide law enforcement services and to enforce the law equally, fairly and without discrimination toward any individual or group.

Race, ethnicity or nationality, religion, sex, sexual orientation, economic status, age, cultural group, disability or affiliation with any other similar identifiable group shall not be used as the basis for providing differing levels of law enforcement service or the enforcement of the law.

402.3 RACIAL- OR BIAS-BASED PROFILING PROHIBITED

Racial- or bias-based profiling is strictly prohibited. However, nothing in this policy is intended to prohibit an officer from considering factors such as race or ethnicity in combination with other legitimate factors to establish reasonable suspicion or probable cause (e.g., suspect description is limited to a specific race or group).

402.4 MEMBER RESPONSIBILITY

Every member of this department shall perform his/her duties in a fair and objective manner and is responsible for promptly reporting any known instances of racial- or bias-based profiling to a supervisor.

402.4.1 REASON FOR DETENTION

Officers detaining a person shall be prepared to articulate sufficient reasonable suspicion to justify a detention, independent of the individual's membership in a protected class.

To the extent that written documentation would otherwise be completed (e.g., arrest report, Field Interview (FI) card), the involved officer should include those facts giving rise to the officer's reasonable suspicion or probable cause for the detention, as applicable.

Nothing in this policy shall require any officer to document a contact that would not otherwise require reporting.

Tigard Police Department

Policy Manual

Racial- or Bias-Based Profiling

402.5 SUPERVISOR RESPONSIBILITY

Supervisors shall monitor those individuals under their command for any behavior that may conflict with the purpose of this policy and shall handle any alleged or observed violation of this policy in accordance with the Personnel Complaints Policy.

- (a) Supervisors should discuss any issues with the involved officer and his/her supervisor in a timely manner.
- (b) Supervisors should periodically review MAV recordings, MDC data and any other available resource used to document contact between officers and the public to ensure compliance with this policy.
 - 1. Supervisors should document these periodic reviews.
 - 2. Recordings that capture a potential instance of racial- or bias-based profiling should be appropriately retained for administrative investigation purposes.
- (c) Supervisors shall initiate investigations of any actual or alleged violations of this policy.
- (d) Supervisors should ensure that no retaliatory action is taken against any member of this department who discloses information concerning racial- or bias-based profiling.

402.6 ADMINISTRATION

Each year, the Operations Division Commander shall review the efforts of the Department to prevent racial- or bias-based profiling and submit an overview, including public concerns and complaints, to the Chief of Police. This report should not contain any identifying information regarding any specific complaint, citizen or officers. It should be reviewed by the Chief of Police to identify any changes in training or operations that should be made to improve service.

Supervisors shall review the annual report and discuss the results with those they are assigned to supervise.

402.7 TRAINING

Training on racial- or bias-based profiling and review of this policy should be conducted as directed by the Training Coordinator.

Shift Briefing

404.1 PURPOSE AND SCOPE

The Shift Briefing is generally conducted before a patrol officer's assigned shift. Briefing training provides an opportunity for important exchange between employees and supervisors. A Patrol Lieutenant generally conducts Briefing training; however, the task may be delegated to a Patrol Sergeant. An officer may conduct Briefing for training purposes with supervisor approval.

The Briefing should accomplish, at a minimum, the following basic tasks:

- (a) Briefing officers with information regarding daily patrol activity, with particular attention given to unusual situations and changes in the status of wanted persons, stolen vehicles, and major investigations
- (b) Notifying officers of changes in schedules and assignments
- (c) Notifying officers of new Special Order or changes in Special Order
- (d) Reviewing recent incidents for training purposes
- (e) Providing training on a variety of subjects

404.2 PREPARATION OF MATERIALS

The Lieutenant or supervisor conducting Briefing is responsible for preparation of the materials necessary for a constructive briefing. Supervisors may delegate this responsibility to a subordinate officer in his or her absence or for training purposes.

404.3 INFORMATION SHARING

Patrol supervisors, detective sergeants, and special unit sergeants are encouraged to share information as much as possible. All supervisors and/or officers will be provided an opportunity to share information at the daily patrol briefings as time permits.

404.4 BRIEFING TRAINING

It is the responsibility of the Watch Commanders to ensure training topics are presented regularly during briefings on their watch. A schedule of topics and materials necessary to present the topic will be provided by the training officer at the beginning of each month.

Crime and Disaster Scene Integrity

406.1 PURPOSE AND SCOPE

The protection and integrity of a crime scene is of the utmost importance for the successful apprehension of criminals and successful prosecution. The integrity of a disaster scene is equally as critical for the protection of life and property and investigation by proper authorities.

406.2 CRIME SCENE RESPONSIBILITY

The first officer at the scene of a crime or major incident generally is responsible for the preservation of the scene. Officers shall also consider officer safety and public safety issues, including rendering medical aid to any injured parties. Once an officer has assumed or been assigned to maintain the integrity of the crime/disaster scene the officer shall continue until relieved by a supervisor.

406.2.1 FIRST RESPONDER CONSIDERATIONS

The following list generally describes the first responder's function at a crime or disaster scene. This list is not intended to be all-inclusive, is not necessarily in order and may be altered according to the demands of each situation:

- (a) Ensure that no suspects are still within the area.
- (b) Broadcast emergency information, including all requests for additional assistance.
- (c) Provide first aid to injured parties if it can be done safely.
- (d) Secure the inner perimeter with crime scene tape.
- (e) Protect items of apparent evidentiary value.
- (f) Start a chronological log, noting critical times and personnel allowed access.

406.2.2 MEDIA ACCESS

Authorized and bona fide members of the media shall be provided access to scenes of disasters, criminal investigations, emergencies and other law enforcement activities.

406.2.3 EXECUTION OF HEALTH ORDERS

Any sworn member of this department is authorized to execute and enforce lawful orders of the local health officer issued for the purpose of preventing the spread of any contagious, infectious or communicable disease.

406.3 SEARCHES AT CRIME OR DISASTER SCENES

Officers arriving at crime or disaster scenes are often faced with the immediate need to search for and render aid to victims and determine if suspects are present and continue to pose a threat. Once officers are satisfied that no additional suspects are present and/or there are no injured persons to be treated, those exigent circumstances will likely no longer exist. Officers should thereafter secure the scene and conduct no further search until proper authority for the search is obtained.

Tigard Police Department

Policy Manual

Crime and Disaster Scene Integrity

406.3.1 AUTHORITY TO SEARCH

In order to search, officers must have probable cause to believe that a crime has occurred and evidence of the crime will be found at the location. Absent consent, a search warrant is generally required to authorize continued search once a scene is stabilized.

406.3.2 CONSENT

Any person who has an expectation of privacy has standing to object to a search. That may include anyone with a property interest in the location, as well as any resident, tenant, or guest, depending on the circumstances. It may not be possible to identify everyone with standing to object, and from whom consent must be obtained, at the early stages of the investigation. Officers should obtain consent to search from authorized individuals where possible, but should also consider obtaining consent and a search warrant in the case of serious crimes or major investigations.

Ride-Along Policy

410.1 PURPOSE AND SCOPE

The Ride-Along Program provides an opportunity for citizens to experience the law enforcement function first hand. This policy provides the requirements, approval process and hours of operation for the Ride-Along Program.

410.1.1 ELIGIBILITY

The Tigard Police Department Ride-Along Program is offered to residents, students and those employed within the City. Every attempt will be made to accommodate interested persons however any applicant may be disqualified without cause.

The following factors may be considered in disqualifying an applicant and are not limited to:

- Being under the age of 16 years
- Immediate family members of employees over the age of 10 years old may ride 10 hours per month with their parent or spouse, with the approval of the on-duty supervisor
- Prior criminal history, including all felony and/or some misdemeanor offenses
- Pending criminal action
- Pending lawsuit against the department
- Denial by any supervisor

410.2 PROCEDURE TO REQUEST A RIDE-ALONG

Generally, ride-along requests will be received by a shift supervisor. The participant will complete a Ride-Along Release-Adult form. Required information will include a valid ID or Oregon driver's license, address, and telephone number. If the participant is under 18-years of age, a parent/guardian must be present to complete the Ride-Along Release-Under 18 Form.

The shift supervisor will ensure eligibility of the rider and then will schedule a date, based on availability.

If the ride-along is denied after the request has been made, a representative of the Department will contact the applicant and advise him/her of the denial.

410.2.1 PROGRAM REQUIREMENTS

Once approved, civilian ride-alongs will be allowed to ride no more than once every six months and the ride along will be no longer than one shift in duration. Exceptions would include the following: Cadets, Explorers, RSVP, Chaplains, Reserves, police applicants, and all others with approval of the Patrol Lieutenant.

An effort will be made to ensure that no more than one citizen will participate in a ride-along during any given time period. No more than one ride-along will be allowed in the officer's vehicle at a given time.

Ride-along requirements for police cadets are covered in Policy Manual § 1048, "Police Cadet Program."

Tigard Police Department

Policy Manual

Ride-Along Policy

410.2.2 SUITABLE ATTIRE

Any person approved to ride along is required to be suitably dressed in collared shirt, blouse or jacket, slacks and shoes. Sandals, T-shirts, tank tops, shorts and ripped or torn blue jeans are not permitted. The Patrol Lieutenant or field supervisor may refuse a ride along to anyone not properly dressed.

410.2.3 PEACE OFFICER RIDE-ALONGS

Off-duty members of this department or any other law enforcement agency will not be permitted to ride-along with on-duty officers without the expressed consent of the Patrol Lieutenant. In the event that such a ride-along is permitted, the off-duty employee shall not be considered on-duty and shall not represent themselves as a peace officer or participate in any law enforcement activity except as emergency circumstances may require. The off duty officers will not wear a uniform and only officers with DPSST certification will be allowed to carry a firearm during the ride along.

410.2.4 RIDE-ALONG CRIMINAL HISTORY CHECK

All ride-along applicants are subject to a criminal history check. The criminal history check will include a local records check, and NCIC, CCH, and DMV records checks via LEADS prior to their approval as a ride-along with a law enforcement officer (provided that the ride-along is not an employee of the Tigard Police Department). The printed inquiry responses will be attached to the request and forwarded to the on-duty Patrol Lieutenant who will approve or disapprove the ride-along and schedule the appointment.

410.3 OFFICER'S RESPONSIBILITY

The officer shall advise the dispatcher that a ride-along is present in the vehicle before going into service. Officers shall consider the safety of the ride-along at all times. Officers should use sound discretion when encountering a potentially dangerous situation, and if feasible, let the participant out of the vehicle in a well-lighted place of safety. The dispatcher will be advised of the situation and as soon as practical have another police unit respond to pick up the participant at that location. The ride-along may be continued or terminated at this time.

The completed form will be given to the officer conducting the ride along and upon completion of the ride-along, the form shall be returned to the Watch Commander with any comments which may be offered by the officer.

410.4 CONTROL OF RIDE-ALONG

The assigned employee shall maintain control over the ride-along at all times and instruct him/her in the conditions that necessarily limit their participation. These instructions should include:

- (a) The ride-along will follow the directions of the officer
- (b) The ride-along will not become involved in any investigation, handling of evidence, discussions with victims or suspects, or handling any police equipment
- (c) Keep confidential any information he/she is informed is to be kept confidential
- (d) The ride-along may terminate the ride at any time without explanation
- (e) Ride-alongs may be allowed to continue riding during the transportation and booking process provided this does not jeopardize their safety

Tigard Police Department

Policy Manual

Ride-Along Policy

- (f) Officers will not allow any ride-alongs to be present in any residences or situations that would jeopardize their safety or cause undue stress or embarrassment to a victim or any other citizen
- (g) Under no circumstance shall a civilian ride along be permitted to enter a private residence with an officer without the expressed consent of the resident or other authorized person

Hazardous Material Response

412.1 PURPOSE AND SCOPE

Hazardous materials present a potential harm to employees resulting from their exposure. The following is to be the policy of this department.

412.1.1 HAZARDOUS MATERIAL DEFINED

A hazardous material is a substance which by its nature, containment and reactivity, has the capability of inflicting harm during exposure; characterized as being toxic, corrosive, flammable, reactive, an irritant or strong sensitizer and thereby posing a threat to health when improperly managed. See Oregon Revised Statutes 453.005(7) for a complete list.

412.2 HAZARDOUS MATERIAL RESPONSE

Employees may encounter situations involving suspected hazardous materials, such as at the scene of a traffic accident, chemical spill, or fire. When employees come into contact with a suspected hazardous material, certain steps should be taken to protect themselves and citizens.

The following steps should be considered at any scene involving suspected hazardous materials:

- (a) Attempt to identify type of hazardous substance. (Identification can be determined by placard, driver's manifest or statements from person transporting).
- (b) Notify Fire Department.
- (c) Provide first-aid for injured parties if it can be done safely and without contamination.
- (d) Begin evacuation of immediate area and surrounding areas dependent on substance and the recommendation of trained Fire Department staff.

412.2.1 HAZARDOUS MATERIAL - CONVENTIONAL THREAT

Employees may encounter situations involving suspected hazardous materials, such as at the scene of a chemical spill, traffic accident, or a building fire releasing noxious gasses. When employees come into contact with a known hazardous material, certain steps should be taken to protect themselves and citizens. The following steps should be considered at any scene involving suspected hazardous materials: chemical spill, traffic accident, or a building fire releasing noxious gasses.

- (a) Attempt to identify the type of hazardous substance. Identification can be determined by placard driver's manifest, or statements from person(s) transporting or storing. This should be done from a safe location or vantage point.
- (b) Notify Fire Department.
- (c) Provide first aid for injured parties if it can be done safely and without contamination.
- (d) Begin evacuation of immediate area and surrounding areas dependent on substance and the recommendation of trained Fire Department staff. Establish a buffer zone (perimeter) based on available information. The buffer zone is subject to change and requires open communication between responding police and fire units. This should be coordinated through an established joint command center.

Tigard Police Department

Policy Manual

Hazardous Material Response

- (e) If called for, begin evacuation of the immediate area and surrounding areas. The scope of this evacuation (or to have an evacuation at all) should be dictated by the joint command center.
- (f) Emergency responders that do not have the proper personal protective equipment (PPE), and the training to use such equipment, should not approach any nearer than the established safe zone.
- (g) Contact the Oregon Department of Transportation (ODOT) if road closures will be prolonged and to report any hazardous conditions.
- (h) Maintain traffic control as needed and keep area clear for emergency responders.

412.2.2 HAZARDOUS MATERIAL - POSSIBLE TERRORIST OR BIOLOGICAL THREAT

Employees may encounter situations involving unknown threats or the intentional use of hazardous material to cause death, injury, or spread fear. In these situations, Tigard Police Officers should first seek to protect the public from further harm and then to investigate any criminal acts. This will involve the coordination of specialized resources and the likely activation of the National Incident Management System (NIMS), and Incident Command System (ICS). If improvised explosive devices (IED) have been used, or are suspected, see Policy 416 Response to Bomb Calls. Contact the Explosive Ordinance Disposal (EOD) team and provide detailed information:

- (a) Notify the fire department and request any special resources such as the hazmat team.
- (b) Establish a joint command post that is safe from possible contamination or blast radius. This is subject to change as information is gathered and threats are understood.
- (c) Do not touch, move, or open any suspicious package.
- (d) Initial hazard risk assessment should be performed by appropriate resources: i.e. hazmat or EOD.
- (e) Establish a buffer zone (perimeter) based on available information. The buffer zone is also subject to change and requires open communication between responding police and additional resources.
- (f) If called for, begin evacuation of the immediate area and surrounding areas. The scope of this evacuation (or to have an evacuation at all) should be dictated by the joint command center.
- (g) Be mindful that secondary IED's or exposure points will exist in cases of a terrorist event. These will typically be placed in areas to affect the greatest number of people, or in an anticipated location to disrupt first responders and evacuees.
- (h) If called for, notify the Federal Bureau of Investigations (FBI) Weapons of Mass Destruction (WMD) unit. If the FBI threat credibility assessment process deems the threat to be credible, the FBI will immediately notify the Centers for Disease Control (CDC); the Department of Homeland Security Operations Center (HSOC); and other appropriate federal agencies.
- (i) Emergency responders that do not have the proper personal protective equipment (PPE), and the training to use such equipment, should not approach any nearer than the established safe zone.
- (j) Any criminal investigations should be coordinated through the joint command center and will most likely involve state and federal resources.

Tigard Police Department

Policy Manual

Hazardous Material Response

- (k) The Tigard Police Department does not have the proper facilities to store evidence that is suspected (or known) to be a hazardous material.
- (l) Under no circumstances should an unprotected responder, such as a law enforcement officer, attempt to package an unknown substance.

412.3 REPORTING EXPOSURE(S)

Department personnel who believe that they have been exposed to a hazardous material shall immediately report the exposure to a supervisor. Each exposure shall be documented by the employee on a City of Tigard Exposure Report and the report shall be forwarded via chain of command to the City's Risk Manager. Should the affected employee be unable to document the exposure for any reason, it shall be the responsibility of the notified supervisor to complete the documentation.

In case of injury, or suspected injury, the employee or supervisor shall also ensure that an Incident Injury Report is completed and submitted to Risk Management.

412.3.1 SUPERVISOR RESPONSIBILITY

When a supervisor has been informed that an employee has been exposed to a hazardous material, he/she shall ensure that immediate medical treatment is obtained and appropriate action is taken to lessen the exposure. In cases of a needle stick, or possible exposure to bodily fluids, the employee's supervisor should call the exposure hotline and seek guidance from medical authority @ 503-721-0529. The supervisor shall also ensure that the required forms are completed and forwarded to Risk Management.

Hostage and Barricade Incidents

414.1 PURPOSE AND SCOPE

The purpose of this policy is to provide guidelines for situations where officers have legal cause to contact, detain or arrest a person, and the person refuses to submit to the lawful requests of the officers by remaining in a structure or vehicle and/or by taking a hostage.

The scope of this policy is not intended to address all variables that officers encounter during their initial response or when a hostage or barricade situation has developed. This policy does not require or purport to recommend specific strategies or tactics for resolution as each incident is a dynamic and rapidly evolving event.

414.1.1 DEFINITIONS

Definitions related to this policy include:

Barricade situation - An incident where a person maintains a position of cover or concealment and ignores or resists law enforcement personnel, and it is reasonable to believe the subject is armed with a dangerous or deadly weapon

Hostage situation - An incident where it is reasonable to believe a person is unlawfully held by a hostage-taker as security so that specified terms or conditions will be met

Sniper - A person(s) usually concealed, shooting or threatening to shoot others with a deadly weapon

Active Shooter - An individual or group actively engaged in killing or attempting to kill people in a confined and populated area; in most cases, active shooters use firearm(s) and there is no pattern or method to their selection of victims

414.1.2 POLICY

It is the policy of the Tigard Police Department to address hostage and barricade incidents with due regard for the preservation of life and balancing the risk of injury, while obtaining the safe release of hostages, apprehending offenders and securing available evidence.

414.2 HOSTAGE NEGOTIATIONS

Promises of immunity or leniency and payment of ransom demands are rarely effective and will generally not be offered to barricaded suspects. Trained hostage negotiators, however, will be permitted to exercise flexibility in each situation based upon the circumstances presented and consistent with their training.

Personnel involved in barricaded/hostage situations are urged to exercise patience and extreme caution. The use of deadly force against any armed suspect will be governed by Policy Manual § 300, with particular regard directed toward the safety of hostages.

Communications/negotiations should begin as soon as possible. The officer establishing communication with the suspect(s) will become the negotiator, and will remain in that position until relieved by a superior officer. Communications may be established through the use of telephone, loudspeaker, or other means.

1. The objectives of negotiations are:

Tigard Police Department

Policy Manual

Hostage and Barricade Incidents

- Protect the lives of the hostages
- Protect the lives of bystanders

2. The following are non-negotiable items:

- Weapons of any kind
- Exchanges of hostages

3. Items such as food and water may be negotiated.

4. The following may be negotiated if a significant tactical advantage may be gained. These items must be approved by the person in charge before delivery:

- A supply of drugs
- A supply of alcohol

414.3 FIRST RESPONDER RESPONSIBILITY

Until the Incident Commander has been designated, the highest ranking member on the scene of an actual or potential hostage/barricade situation who assumes control is the on-scene supervisor and has the authority and responsibility for all police actions until relieved by the Incident Commander. The on-scene supervisor shall consider the following:

- (g) Request for ambulance, rescue, fire and surveillance equipment to stage.
- (h) Pursuit/surveillance vehicles and control of travel routes.

 1. Exact location
 2. Number of hostages

Tigard Police Department

Policy Manual

Hostage and Barricade Incidents

414.3.1 EMERGENCY COMMUNICATIONS

A supervisor who has probable cause to believe that a hostage is being held may order a telephone company to cut, reroute or divert telephone lines to prevent a suspect from communicating with anyone other than officers or other designated individuals (ORS 165.549).

414.4 INCIDENT COMMANDER'S RESPONSIBILITY

The containment process is a critical element to control the situation until arrival of trained tactical and/or hostage negotiation personnel. No attempts should be made by operations personnel to initiate an offensive operation against the suspect unless extreme circumstances demand it.

The on-duty supervisor is to be advised of the situation immediately, respond to the scene, and assume the duties of Incident Commander until relieved by a superior officer.

Responsibilities will include:

- (a) Confirm and direct the establishment of central command post, out of sight and weapon range, and appropriate chain of command.
- (b) Notify WCCCA and all personnel via radio that he/she is the Incident Commander and the location of the command post.

The Incident Commander or his/her designee shall establish as soon as practical:

- an inner perimeter to contain and minimize the movement of the suspect(s)
- an outer perimeter to prevent unauthorized persons and vehicles from entering the area of operations
- a command post within the outer perimeter, but not within view of the threat; define chain of command for the incident
- a designated staging area for responders to the incident scene (such as outside agencies, TNT or negotiators within outer perimeter)
- Video documentation of the incident

Tigard Police Department

Policy Manual

Hostage and Barricade Incidents

- a media area outside the outer perimeter for authorized press personnel with proper credentials
- Be aware of media aircraft and the broadcasting of police tactical positions
- As soon as practical, the Incident Commander or his/her designee should assess call load and obtain the necessary mutual aid or consider call out of off-duty personnel to handle routine police calls.
- Consider limiting call response to Priority 1 calls for the duration of the incident.
- Consider an extended duration of the event in planning for relief of fixed posts, meal breaks and etc.

414.4.1 EVACUATION

The evacuation process should be accomplished during the establishment of the outer perimeter. The extent of the evacuation will be determined by the Incident Commander. Persons within range of immediate danger will be evacuated as soon as possible. Evacuation is voluntary and cannot be ordered.

The process includes:

- (a) The Incident Commander will designate an available person as the coordinator for all evacuation activities.
- (b) The Evacuation Coordinator should evacuate injured persons in the danger zone first. A rescue team may be necessary, if the injured are within site of the threat, or if the suspect begins to harm hostages. A rescue team should consist of TNT members if they are available.
- (c) Evacuees will be directed to the transportation area. Emergency shelter will be arranged for evacuees who have no alternative shelter. Emergency shelter can be, but is not limited to, the senior center, city hall council chambers, public works auditorium, school gymnasium, or community churches.
- (d) The evacuation coordinator will record the address of every building evacuated, will clearly mark each building with police tape, and try to ensure that doors are left unlocked to avoid damage by TNT members clearing the area.

414.5 WASHINGTON COUNTY TACTICAL NEGOTIATIONS TEAM (TNT)

If the situation dictates, the Incident Commander shall request the help of the Washington County Tactical Negotiations Team (TNT). It will be the Incident Commander's decision, with input from the TNT Team Leader, whether to deploy the TNT during a hostage or barricade incident. The Tigard Police Department Risk Analysis Form provided by TNT shall be completed to assist in the decision to call out the TNT team in any situation involving a barricaded hostage or felon with a weapon or threat to use a weapon.

The Incident Commander will notify WCCCA to call out TNT, and retains full responsibility for the control of the scene and those present until relieved by a superior of the Tigard Police Department.

The Incident Commander will designate someone to complete the TNT Intelligence Questionnaire to provide to the TNT at the Command Post during the briefing upon the team leader's arrival.

Tigard Police Department

Policy Manual

The hostage negotiators/TNT commander will recommend to the person in charge the most effective method of communication/tactical response. The person in charge shall retain the responsibility for activating or deactivating the Negotiating Team/Tactical Team. The TNT Commander will take appropriate action within its capabilities and will be responsible for the deployment of chemical agents. The person in charge will be advised of the imminent use of chemical agents or any tactical response outside the standard rules of engagement prior to initiating any action.

Additional personnel may be requested via mutual aid requests and/or by calling in off-duty Tigard officers.

A team of officers may be designated by the Incident Commander to survey possible escape routes and pursue the suspect(s) if he/she escapes.

An After Action Review will be completed when all reports have been submitted. The After Action Report will be routed through the Division Commander to the Inspections Officer.

414.6 REPORTING

Unless otherwise relieved by a supervisor or Incident Commander, the handling officer at the scene is responsible for completion and/or coordination of incident reports.

416.3 EXPLOSION/BOMBING INCIDENTS

When an explosion has occurred, there are multitudes of considerations which may confront the responding officers. As in other catastrophic incidents, a rapid response may help to minimize injury to victims, contamination of the scene by gathering crowds or additional damage by resulting fires or unstable structures. Whether the explosion was the result of an accident or a criminal act, the responding officers should consider the following actions:

Tigard Police Department

Policy Manual

Response to Bomb Calls

- Assess the scope of the incident, including the number of victims and extent of injuries.
- Assist with first aid (Fire Department has primary responsibility).
- Assist with evacuation of victims (Fire Department has primary responsibility).
- Identify and take appropriate actions to mitigate scene hazards such as collapsed structures, blood borne pathogens, hazardous materials and secondary explosive devices.
- Request additional resources as needed.
- Identify witnesses.
- Preserve evidence.

416.3.1 NOTIFICATIONS

When an explosion has occurred, the following people shall be notified as soon as practicable if their assistance is needed:

- (a) Fire Department
- (b) Emergency Medical assistance
- (c) Explosive Disposal Unit
- (d) Additional officers
- (e) Field supervisor
- (f) Patrol Lieutenant
- (g) Detectives
- (h) Forensic Science Services
- (i) Federal Agents (FBI and BATF through dispatch)

416.3.2 CROWD CONTROL

Only authorized personnel with a legitimate need shall be permitted access to the scene. Spectators and other unauthorized individuals shall be excluded to a safe distance as is reasonably practicable given the available resources and personnel.

416.3.3 SCENE OF INCIDENT

As in any other crime scene, steps should immediately be taken to preserve the scene. The scene could extend over a long distance. Evidence may be imbedded in nearby structures or hanging in trees and bushes.

416.4 BOMB THREATS RECEIVED AT POLICE FACILITY

This procedure shall be followed should a bomb threat call be received at the police facility.

416.4.1 BOMB THREATS RECEIVED BY TELEPHONE

The following questions should be asked if a bomb threat call is received at the Police Department:

- When is the bomb going to explode?

Tigard Police Department

Policy Manual

Response to Bomb Calls

- Where is the bomb?
- What kind of bomb is it?
- What does it look like?
- Why did you place the bomb?

- Who are you? (to avoid possible termination of the call this should be the last question asked)

Attempt to keep the caller on the line as long as possible and obtain expanded answers to these five basic questions.

During this time, document the following:

- Time of the call.
- Exact words of the person as accurately as possible.
- Estimated age and gender of the caller.
- Speech patterns and/or accents.
- Background noises.

If the incoming call is received at the police facility on a recorded line, steps shall be taken to ensure that the recording is preserved in accordance with current department evidence procedures.

416.4.2 RESPONSIBILITIES

The employee handling the call shall ensure that the Patrol Lieutenant is immediately advised and fully informed of the details. The Patrol Lieutenant will then direct and assign officers as required for coordinating a general building search or evacuation as he/she deems appropriate.

Mental Illness Commitments

418.1 PURPOSE AND SCOPE

This procedure describes an officer's duties when a person is to be committed to a mental health unit pursuant to Oregon Revised Statutes 426.070 to 426.228. The commitment of a person to a treatment facility or other confinement is controlled by Oregon Revised Statutes 426.070 through 426.225. Oregon Revised Statutes 426.228 authorizes peace officers to take mentally ill persons into custody on a Peace Officer's Custody.

418.2 AUTHORITY

An officer may take into custody a person who the officer has probable cause to believe is dangerous to self or to any other person and is in need of immediate care, custody or treatment for mental illness. The officer shall transport the person to Meridian Park Hospital. At the hospital, the officer shall prepare the standard report provided to the department by the Washington County Community Mental Health Director and deliver it to the treating physician. Please see attached copy of "Report of Peace Officer's Custody of an Allegedly Mentally Ill Person." The report shall state:

- (a) The reason for custody
- (b) The date, time and place the person was taken into custody
- (c) The name and phone number of the Community Mental Health Director

An officer may also be requested to take a person into custody at the direction of the community Mental Health Director who has placed a Director's Hold on that person.

If the attending physician finds the person to be in need of emergency care or treatment for mental illness, the officer may be requested to transport the person to another appropriate care facility. If the physician determines that the person is not in need of emergency care or treatment for mental illness, the person will be released from evaluation by medical staff, and the officer shall return the person to the place where the person was taken into custody unless the person declines that service.

418.3 OFFICER CONSIDERATIONS AND RESPONSIBILITIES

Any officer responding to or handling a call involving a suspected or actual mentally disabled individual, a Police Officer Hold or other mental commitment, should consider utilizing the following as time and circumstances reasonably permit:

Tigard Police Department

Policy Manual

Mental Illness Commitments

- (a) Any available information which might assist in determining the cause and nature of the mental illness or developmental disabilities, including the Law Enforcement Data System (LEDS) Medical Database.
- (b) Conflict resolution and de-escalation techniques.
- (c) Language that is appropriate for interacting with a mentally disabled person.
- (d) If circumstances permit, alternatives to deadly force.
- (e) Any available community resources that can assist in dealing with a mentally disabled individual.

418.3.1 TRANSPORTATION

When transporting any individual for a mental illness commitment, the handling officer should have WCCCA notify the receiving facility of the estimated time of arrival, the level of cooperation of the patient and whether or not any special medical care is needed.

Officers may transport patients in the patrol unit and shall secure them in accordance with the handcuffing policy. Violent patients or those that are medically unstable may be restrained and transported by ambulance and ambulance personnel.

The officer will escort the patient into the facility and place that person in a designated treatment room as directed by a staff member. As soon as a security staff member becomes available, he/she should relieve the officer and physically remain in the treatment room with the patient.

If transportation to an appropriate facility will require more than one hour to accomplish, the transporting officer must obtain, if possible, medical clearance from an attending physician who has examined the person within the last 24 hours who certifies that the person is in need of immediate care or treatment for mental illness and that travel will not be detrimental to the person's physical health (ORS 426.228(3)).

418.3.2 RESTRAINTS

If the patient is violent or potentially violent, the officer will notify the staff of this concern. The staff member in charge will have discretion as to whether soft-restraints will be used. If these restraints are desired, the officer will wait while they are being applied to help provide physical control of the patient, if needed.

418.3.3 MENTAL HEALTH DOCUMENTATION

The officer shall also provide a verbal summary to an emergency department staff member regarding the circumstances leading to the involuntary detention.

418.3.4 SECURING OF WEAPONS

If a receiving and secured facility prohibits weapons or if an extraordinary event occurs in the treatment facility and officers determine a need to secure their firearms, the firearm shall be secured in the appropriate gun locker at the facility or in the police unit.

418.4 MENTALLY ILL PERSON CHARGED WITH A CRIME

When practical, any person charged with a crime who also appears to be mentally ill shall be booked at the Tigard Police Department before being transported to the authorized facility.

Tigard Police Department

Policy Manual

Mental Illness Commitments

If the person has injuries or some other medical condition, he/she may be taken directly to the hospital with the approval of a supervisor.

418.5 SEIZING OF FIREARMS

Whenever a person has been detained or apprehended for examination pursuant to ORS 426.228 and is found to have in his/her possession or under his/her direct control, any firearm, the weapon should be taken into temporary custody for safekeeping by the handling officer. Any weapons seized shall be booked into property pending disposition.

The firearm should be seized as evidence if appropriate. Officers shall document the violation in a crime report.

This policy does not provide an officer with the authority or permission to conduct a search for weapons beyond that allowed under the law.

418.5.1 RETURN OF CONFISCATED FIREARMS

Any firearm taken into custody for safekeeping under section 418.5 will be returned to the lawful owner upon request unless the owner is prohibited from possessing firearms by court order, parole or probation terms or pursuant to ORS 166.250.

Prior to releasing any weapon, property personnel shall be required to ensure that the person is lawfully eligible to possess the weapon.

A seized weapon shall be eligible for release to the lawful owner or other authorized individual unless such weapon is evidence in a criminal matter or there is other independent lawful reason to retain custody of the weapon.

418.6 TRAINING

As a part of advanced officer training programs, this agency will endeavor to include DPSST approved training on interaction with mentally disabled persons.

Citation Releases

420.1 PURPOSE AND SCOPE

Pursuant to Oregon Revised Statutes 133.055, officers may issue a criminal citation to a person if the officer has probable cause to believe that the person has committed a misdemeanor or has committed a felony that is subject to misdemeanor treatment under Oregon Revised Statutes 161.705.

420.2 STATUTORY REQUIREMENTS

Officers will cite offenders into the court before which they would appear if arrested. The citation to appear (CTA) must specify the time, date and court of appearance, and the court date shall not be later than 30 days after the citation was issued (Oregon Revised Statutes 133.055 and 133.060).

420.2.1 DISCRETION TO ARREST

While this department recognizes the statutory power of peace officers to make arrests throughout the state, Tigard Police Officers are encouraged to use sound discretion in the enforcement of the law. On-duty arrests will generally be made outside the boundaries of the city only in cases of hot and/or fresh pursuit, or while following up on crimes committed within the city or while assisting another agency. On-duty officers who discover criminal activity outside the jurisdiction of the City should consider contacting the agency having primary jurisdiction, when circumstances permit, before attempting an apprehension. This consideration should include the officer evaluating potential cover needs, correct radio frequency for the area they are in so the jurisdictional agency is aware, and the necessity to take direct action.

Officers observing criminal activity while off duty are not expected to make arrests or take action if such action would place them in danger of being harmed. It is recommended that the officer be the best witness possible as circumstance allows. If an officer feels there is a need to take action, the officer should affect an arrest only when an imminent risk to life exists, and a reasonable opportunity does not exist to contact the police agency with the primary jurisdiction. In such situations, the involved officer shall clearly identify him or herself as a police officer.

Off-duty officers observing criminal activity should generally take enforcement action only when it reasonably appears that imminent risk to life or property exists and the reasonable opportunity does not exist to contact the law enforcement agency with primary jurisdiction. In such situations, the involved officers shall clearly identify him/herself as a peace officer.

420.3 DEPARTMENT PROCEDURE

The following procedure will be followed to comply with this law.

420.3.1 FIELD CITATIONS

Upon obtaining satisfactory identification and verifying that there are no outstanding warrants for the individual, officers may issue citations to a person upon probable cause to believe that the person has committed a misdemeanor or has committed a felony subject to misdemeanor treatment under ORS 161.705, unless there is a disqualifying reason making the person ineligible for citation (ORS 133.055).

Tigard Police Department

Policy Manual

Citation Releases

420.3.2 FINGERPRINTS AND PHOTOGRAPHS

In certain cases, it may appropriate to fingerprint and photograph persons prior to citing and releasing them. Field photographing and/or securing a thumb print on a CTA will suffice in these cases when physical custody is not otherwise recommended as in 420.33.

420.3.3 DISQUALIFYING CIRCUMSTANCES

In certain circumstances, cite and release may not be appropriate. Those situations include:

- (a) Oregon Revised Statutes 133.055 specifically exempts persons arrested for assault or menacing at the scene of a domestic violence complaint. Those persons must be physically taken into custody and shall be transported and lodged at the jail
- (b) The person has outstanding warrants for his or her arrest
- (c) The person cannot satisfactorily identify themselves. Officers must exercise discretion when a violator cannot or will not provide satisfactory identification. If a criminal citation is issued, the officer should identify the suspect to within a reasonable certainty. Also, the officer should, to the extent possible, obtain information for execution of an arrest warrant should the violator ultimately fail to appear for arraignment.
- (d) The investigation or prosecution of the offense or offenses for which the person was arrested, or the investigation or prosecution of any other offense or offenses, would be jeopardized by the immediate release of the person arrested
- (e) There is a reasonable likelihood that the offense or offenses would continue or resume, or that the safety of persons or property would be imminently endangered by the release of the person arrested
- (f) The person has indicated they will not appear or there is other reason to believe that the person would not appear at the time and place specified in the citation. The basis for this determination shall be specifically stated such as:
 - 1. Previous history of failure to appear is on record
 - 2. the person lacks ties to the area, such as a residence, job, or family or is a resident of another state
 - 3. The person initially provided a false name or identification or has previously used false names to avoid prosecution
- (g) The person arrested is so intoxicated that he/she could be a danger to himself/herself or to others. (Release may occur as soon as this condition no longer exists)
- (h) Unusual circumstances lead the officer to conclude that the suspect should be held for further investigation

420.3.4 INSTRUCTIONS TO CITED PERSON

The citing officer shall call attention to the time and place for appearance and take any other steps he/she deems necessary to ensure that the defendant understands his/her written obligation to appear.

420.4 CITIZEN'S ARREST (WARRANT RELEASE REMOVED FROM POLICY)

In the event of a citizen's arrest, the citizen's responsibility is to surrender the arrestee without delay to a peace officer. The officer must independently review the circumstances surrounding the arrest. Custody of the arrestee should be maintained only after the officer has determined that the arrest is valid. The citizen making the arrest shall inform the

Tigard Police Department

Policy Manual

Citation Releases

arrestee that he/she is under arrest and state the charge. If the arrest is valid and the arrestee is taken into custody, the matter will be processed as would any other arrest report. The report shall state that a citizen initiated the arrest, and set forth the relevant facts and circumstances. The officer shall obtain the arresting citizen's signature on the Custody Report. If the arrest is not accepted because of a question over probable cause, the officer shall release the arrested person immediately, and document the incident in his/her report.

420.5 JUVENILE CITATIONS

When arresting juvenile subjects, officers will follow Tigard Police Policies 324 (Temporary Custody of Juveniles), and 321 (Apprehension and Arrest). In most cases, juveniles are simply referred to the Washington County Juvenile Department for prosecution. The *Tigard Police Custody Report* (with all charges listed) serves as the referral document.

Upon arresting a juvenile, Officers will contact the Washington County Juvenile Department; they will be provided with direction as to if the youth will be lodged; released to a responsible adult; or released upon their own recognizance. Officers should document who they spoke with at the juvenile department and write the custody decision in the body of the custody report. If an officer is able to contact a responsible adult, that adult's name will be recorded on the custody report, along with the time of notification. It is also important that the responsible adult's contact information be recorded on the custody sheet.

The Tigard Police Youth Services Program Specialist (YSPS) may need to contact the responsible adult in order to proceed with a Peer Court option. Those youth that are not lodged will receive a completed *Tigard Police Youth Referral Information form*. This form provides the juvenile offender with detailed information about what a referral is and how it will be handled going forward. Court appearance dates will be determined at a later time and the custody report should reflect a date to be determined (TBD).

These are the only exceptions when a uniform complaint/citation will be issued to a juvenile:

- All traffic violations
- All traffic crimes
- Violations of Washington County codes/ordinances
- Violations of City of Tigard codes/ordinances

(a) Officers should check the **Municipal Court** box on the uniform complaint/citation when citing a juvenile for any traffic infraction or code/ordinance violation. No criminal traffic cases may be heard in Municipal Court. The citation must include a current Municipal Court appearance date and time.

(b) Officers should check the **Peer Court** box on the uniform complaint/citation when they feel that Peer Court would be a good fit to hear a minor traffic infraction case. No criminal traffic cases may be referred to Peer Court. Court appearance dates will be determined at a later time and the citation should reflect a date to be determined (TBD).

(c) Officers should check the **Circuit Court and Juvenile** box on the uniform complaint/citation when citing a juvenile for any traffic crime. All traffic crimes also require a custody/incident report. The District Attorney's Office does not prosecute juveniles charged with traffic crimes in Juvenile Court, but instead the cases are processed by the misdemeanor unit of the District Attorney's Office. These cases must be cited with a specific date, time and location to appear. They must be cited to appear in Washington

Tigard Police Department

Policy Manual

Citation Releases

County Circuit Court, LEC, 215 SW Adams, Hillsboro, at 8:30 AM. This is the same appearance location and time for adults charged with traffic crimes.

(d) When there are cases where a juvenile is arrested for a traffic crime, and they are also cited for a traffic violation or local code violation, officers should check the **Circuit Court and Juvenile** box on the uniform complaint/citation. This is so that all of the charges stay together and are referred to the same court. They must be cited to appear in Washington County Circuit Court, LEC, 215 SW Adams, Hillsboro, at 8:30 AM. This is the same appearance location and time for adults charged with traffic crimes.

420.6 REQUESTING CASE NUMBERS

Traffic infractions may be issued without case numbers and the necessary information can be documented on the reverse side of the Uniform Traffic Citation. For traffic crimes, local ordinance violations, state misdemeanors and qualified felonies, and all citations subsequent to the service of an arrest warrant, case numbers will be drawn. If the incident involves a citation issued subsequent to the service of a local arrest warrant where a Tigard Police Department case number already exists, that case number shall be used.

Arrest or Detention of Foreign Nationals

422.1 PURPOSE AND SCOPE

Article 36 of the Vienna Convention on Consular Relations, sets forth certain rights of foreign nationals from member countries when arrested, detained or imprisoned by law enforcement officials in this country. This section provides direction to officers when considering a physical arrest or detention of a foreign national. All foreign service personnel shall be treated with respect and courtesy, regardless of the level of established immunity. As noted herein, the United States is a party to several bilateral agreements that obligate our authorities to notify the consulate upon the person's detention, regardless of whether the detained person(s) request that his or her consulate be notified. The list of specific countries that the United States is obligated to notify is listed on the US Department of State [Website](#).

422.1.1 DEFINITIONS

Foreign National - Anyone who is not a citizen of the United States (U.S.). A person with dual-citizenship, U.S. and foreign, is not a foreign national.

Immunity - Refers to various protections and privileges extended to the employees of foreign governments who are present in the U.S. as official representatives of their home governments. These privileges are embodied in international law and are intended to ensure the efficient and effective performance of their official "missions" (i.e., embassies, consulates, etc.) in foreign countries. Proper respect for the immunity to which an individual is entitled is necessary to ensure that U.S. diplomatic relations are not jeopardized and to maintain reciprocal treatment of U.S. personnel abroad. Although immunity may preclude U.S. courts from exercising jurisdiction, it is not intended to excuse unlawful activity. It is the policy of the U.S. Department of State's Office of Foreign Missions (OFM) that illegal acts by Foreign Service personnel should always be pursued through proper channels. Additionally, the host country's right to protect its citizens supersedes immunity privileges. Peace officers may intervene to the extent necessary to prevent the endangerment of public safety or the commission of a serious crime, regardless of immunity claims.

422.2 ARREST OR DETENTION OF FOREIGN NATIONALS

Officers should take appropriate enforcement action for all violations observed, regardless of claims of diplomatic or consular immunity received from violators. A person shall not, however, be subjected to in-custody arrest when diplomatic or consular immunity is claimed by the individual or suspected by the officer, and the officer has verified or reasonably suspects that the claim of immunity is valid.

422.3 LEVELS OF IMMUNITY

The specific degree of immunity afforded to foreign service personnel within the U.S. is directly related to their function and position in this country.

422.3.1 DIPLOMATIC AGENTS

Diplomatic agents (e.g., ambassadors and United Nations representatives) are afforded the highest levels of immunity. They are exempt from arrest or detention and are immune from all criminal (and most civil) prosecution by the host state. The family members of diplomatic agents enjoy these same immunities.

Tigard Police Department

Policy Manual

Arrest or Detention of Foreign Nationals

422.3.2 CONSULAR OFFICERS

Consular officers are the ranking members of consular posts who perform various formal functions on behalf of their own governments. Typical titles include Consul General, Consul, and Vice Consul. Consular officers can be prosecuted or arrested unless it was in the course of an official act. They are only immune from criminal and civil prosecution arising from official acts. This official acts immunity must be raised as an affirmative defense in the court jurisdiction, and its validity is determined by the court. Under this defense, the prohibited act itself must have been performed as an official function. It is not sufficient that the consular agent was on-duty or in an official capacity at the time of the violation. The family members of consular officers generally enjoy no immunity, however, any family member who enjoys a higher level of immunity is issued an identification card by the Department of State (DOS) enumerating any privileges or immunities on the back of the card. Examples are consular officers and family members from Russia or China.

422.3.3 HONORARY CONSULS

Honorary consuls are part-time employees of the country they represent and are either permanent residents of the U.S. or U.S. nationals (unlike career consular officers, who are foreign nationals on temporary assignment to the U.S.). Honorary consuls may be arrested and detained; limited immunity for official acts may be available as a subsequent defense. Family members have no immunity.

422.4 IDENTIFICATION

All diplomatic and consular personnel who are entitled to immunity are registered with the Department of State and are issued distinctive identification cards by the Department of State Protocol Office. These cards are the best means of identifying Foreign Service personnel. They include a photograph, identifying information, and, on the reverse side, a brief description of the bearer's immunity status. Unfortunately, these identification cards are not always promptly issued by the Department of State. In addition to the Department of State identification card, Foreign Service personnel should also have a driver license issued by the Department of State Diplomatic Motor Vehicle Office (DMVO), which in most circumstances replaces the operator's license issued by the state.

422.4.1 VEHICLE REGISTRATION

Vehicles that are owned by foreign missions or Foreign Service personnel and their dependents are registered with the Department of State OFM and display distinctive red, white, and blue license plates. Vehicles assigned to diplomatic or consular officers will generally have license plates labels with the words "diplomat" or "consul." Vehicles owned by honorary consuls are not issued OFM license plates; but may have Oregon license plates with an "honorary consul" label. Driver's identity or immunity status should not be presumed from the type of license plates displayed on the vehicle. The status of an OFM license plate should be run via the National Law Enforcement Telecommunications System (NLETS), designating "US" as the state, if the officer has reason to question the legitimate possession of the license plate.

422.5 ENFORCEMENT PROCEDURES

The following procedures provide a guideline for handling enforcement of foreign nationals:

422.5.1 CITABLE OFFENSES

An enforcement document shall be issued at the scene for all violations warranting such action, regardless of the violator's immunity status. The issuance of a citation is not

Tigard Police Department

Policy Manual

Arrest or Detention of Foreign Nationals

considered an arrest or detention under current Department of State guidelines. Whenever the equivalent of a notice to appear is issued to an immunity claimant, the following additional procedures shall be followed by the arresting officer:

- (a) Identification documents are to be requested of the claimant
- (b) The title and country represented by the claimant are to be recorded on the back of the officer's copy of the Notice to Appear for later reference. Do not include on the face of the notice to appear
- (c) The violator shall be provided with the appropriate copy of the notice to appear

422.5.2 IN-CUSTODY ARRESTS

Diplomatic agents and consular officers are immune from arrest or detention (unless they have no identification and the detention is to verify their diplomatic status). Proper identification of immunity claimants is imperative in potential in-custody situations. Claimants who are not entitled to immunity shall be placed in custody in accordance with the provisions outlined in Policy Manual § 422.6 of this policy.

A subject who is placed under arrest and claims diplomatic or consular immunity shall not be physically restrained before verification of the claim (unless restraint is necessary for the protection of the officer or others.)

A supervisor shall be promptly notified and should respond to the scene when possible.

Field verification of the claimant's identity is to be attempted as follows:

- (a) Identification cards issued by the Department of State, Protocol Office, are the only valid evidence of diplomatic or consular immunity. The following types of identification cards are issued: Diplomatic (blue bordered), Consular (red bordered), and Official (green bordered), The Department of State identification cards are 3-3/4 inch by 1-1/2 inch and contain a photograph of the bearer.
- (b) Initiate telephone verification with the Department of State. Newly arrived members of diplomatic or consular missions may not yet have official Department of State identity documents. Verify immunity by telephone with the Department of State any time an individual claims immunity and cannot present satisfactory identification, the officer has reason to doubt the claim of immunity, or there is a possibility of physical arrest. Law enforcement personnel should use the following numbers in order of preference:

Office of Foreign Missions San Francisco, CA (415) 744-2910, Ext.. 22 or 23 (415) 744-2913 FAX (0800-1700 PST)	Diplomatic Security Service 915 Second Avenue, Room 3410 Seattle, WA 98174 (206) 220-7721 (206) 220-7723 FAX

Tigard Police Department

Policy Manual

Arrest or Detention of Foreign Nationals

Members of diplomatic or consular missions also may have other forms of identification. These include identification cards issued by Office of Emergency Services, local law enforcement agencies, the foreign embassy, or consulate; driver licenses issued by Department of State; and, Department of State license on the vehicle. All these items are only an indication that the bearer may have some form of immunity.

Subjects verified through the above procedures as being officials entitled to immunity (diplomatic agent, consular officers and consular staff and family members from countries with which the U.S. has special agreements) may not be arrested. The procedures below shall be followed. These procedures should also be used in the event immunity cannot be verified, but another form of identification indicates that immunity is probable.

If the release of the violator will not create an additional hazard, adequate information to properly identify the violator shall be obtained then the official shall be released. A supervisor's approval for the release shall be obtained whenever possible. The necessary release documents and/or a Certificate of Release form should only be issued under the proper conditions.

If the violator appears to have been driving while under the influence, field sobriety tests, including Preliminary Alcohol Screening (PAS) device tests and chemical tests should be offered and obtained whenever possible, however, these tests cannot be compelled. The subject shall not be permitted to drive. A supervisor's approval for release shall be obtained whenever possible and alternative transportation should be arranged.

All facts of the incident shall be documented in accordance with this policy in a Driving Under the Influence (DUI) Arrest-Investigation Report, Arrest-Investigation Report and/or any other relevant Report form. Notwithstanding the field release of the subject, prosecution is still appropriate and should be pursued by the command concerned. The Department of State will take appropriate sanctions against errant foreign service personnel, even where prosecution is not undertaken by the agency.

422.6 TRAFFIC COLLISIONS

Persons involved in traffic collisions who possess a Department of State OFM Diplomatic Driver License, issued by the DMVO, shall have "D" coded in the license "class" box of the Traffic Collision Report. If subsequent prosecution of the claimant is anticipated, the claimant's title, country, and type of identification presented should be recorded for future reference. Issuance of a citation to, or arrest of, an immunity claimant at the accident scene should be handled in accordance with the procedures specified in Policy Manual § 422.5 of this chapter.

422.6.1 VEHICLES

Vehicles, which are owned by subjects with full immunity, may not be searched, stored, or impounded without the owner's permission. (Such permission may be assumed if the vehicle has been stolen.) These vehicles may, however, be towed the necessary distance to remove them from obstructing traffic or creating any other hazard.

422.6.2 REPORTS

A photocopy of each traffic collision report involving an identified diplomat and/or immunity claimant shall be forwarded to the office of the Chief of Police within 48 hours whether or not the claim is verified. The words "Immunity Claim" shall be marked on the photocopy, together with a notation of the claimant's title, country, and type of identification presented (if applicable). In addition to the report, a follow-up cover memorandum should be submitted

Tigard Police Department

Policy Manual

Arrest or Detention of Foreign Nationals

if the violation was flagrant, if the claimant was uncooperative, or if there were any other unusual aspects of the enforcement contact that should be reported to the Department of State for further action. The Patrol Lieutenant/Supervisor apprised of the incident/accident shall also send a copy of all documents and reports submitted by the investigating officer along with any supervisor's notes, materials and/or logs to the Chief of Police's office within 48 hours of the incident. The Chief of Police's office will check to ensure that notification of Department of State and all necessary follow-up occur.

422.7 FOREIGN NATIONALS WHO DO NOT CLAIM IMMUNITY

Officers may only arrest foreign nationals not claiming diplomatic or consular immunity under the following circumstances:

- (a) There is a valid warrant issued for the person's arrest
- (b) There is probable cause to believe that the foreign national has violated a federal criminal law, a state law, or a local ordinance
- (c) Officers shall not arrest foreign nationals solely for alleged undocumented entry into the United States.

Because undocumented presence is strictly a federal civil violation, it is only enforceable by federal officers therefore officers of this department shall not arrest foreign nationals solely for undocumented presence. Officers shall not stop or detain persons solely for determining immigration status.

422.7.1 ARREST PROCEDURE

Whenever an officer physically arrests or detains an individual for criminal investigation and the officer reasonably believes the person to be a foreign national, the officer shall inquire to determine the person's citizenship.

This procedure applies to detentions of more than two hours. An inquiry is not required if the individual is detained less than two hours for criminal investigation.

If the individual indicates that he/she is other than a U.S. citizen, the officer shall advise the individual that he/she has a right to have the nearest appropriate embassy or consulate notified of the arrest/detention (Vienna Convention on Consular Relations, Art. 36, (1969)).

If the individual requests such notification, the officer shall contact WCCCA as soon as practical and request the appropriate embassy/consulate be notified. Officers shall provide WCCCA with the following information concerning the individual:

- Country of citizenship
- Full name of individual, including paternal and maternal surname, if used
- Date of birth or age
- Current residence
- Time, date, place, location of incarceration/detention and the 24-hour telephone number of the place of detention if different from the Department itself

If the foreign national claims citizenship of one of the countries listed by the US Department of State as requiring mandatory consular notification, officers shall provide WCCCA with the information above as soon as practical whether or not the individual desires the

embassy/consulate to be notified. This procedure is critical because of treaty obligations with the particular countries. The list of mandatory notification countries and jurisdictions can be found on the US Department of State website.

422.7.2 DOCUMENTATION

Officers shall document on the face page and in the narrative of the appropriate Arrest-Investigation Report the date and time WCCCA was notified of the foreign national's arrest/detention and his/her claimed nationality.

Rapid Response And Deployment Policy

424.1 PURPOSE AND SCOPE

Violence in schools, workplaces and other locations by any individual or group of individuals presents a difficult situation for law enforcement. The purpose of this policy is to identify guidelines and factors that will assist responding officers as they make decisions in these rapidly unfolding and tense situations.

424.2 POLICY

The policy of this department in dealing with the crisis situation shall be:

- (a) To obtain and maintain complete operative control of the incident.
- (b) To explore every reasonably available source of intelligence regarding the circumstances, location, and suspect(s) in the incident.
- (c) To attempt, by every means available, to attain any tactical advantage over the responsible individual(s).
- (d) To attempt, whenever feasible, a negotiated surrender of the suspect(s) and release of the hostages through the expertise of the members of this department and others.
- (e) When an emergency situation exists, neutralize the threat as rapidly as reasonably possible to minimize injury and loss of life.

Nothing in this policy shall preclude the use of necessary force, deadly or otherwise, by members of this department in protecting themselves or others from death or serious injury.

424.3 PROCEDURE

If there is a reasonable belief that acts or threats by a suspect are placing lives in imminent danger, first responding officers should consider reasonable options to immediately eliminate the threat. Officers must decide, often under a multitude of difficult and rapidly evolving circumstances, whether to advance on the suspect, take other actions to deal with the threat or wait for additional resources.

When deciding on a course of action officers should consider the following:

- (a) Whether sufficient personnel are available on-scene to advance on the suspect. Any advance on a suspect should be made using teams of two or more officers whenever reasonably possible.
- (b) Whether individuals who are under imminent threat can be moved out of danger with reasonable safety.
- (c) Whether the officers have the ability to effectively communicate with others in the field.
- (d) Whether planned tactics can be effectively deployed.
- (e) The availability of rifles, shotguns, shields, control devices and any other appropriate tools, and whether the deployment of these tools will provide tactical advantage.

Tigard Police Department

Policy Manual

Rapid Response And Deployment Policy

- (f) In a case of a barricaded suspect with no hostages and no immediate threat to others, officers should consider summoning and waiting for additional assistance (special tactics and/or hostage negotiation team response).
- (g) If a suspect is actively engaged in the infliction of serious bodily harm or other life-threatening activity toward others, the officer should take immediate action, if reasonably possible, to stop the threat presented by the suspect while calling for additional assistance.

Reporting Police Activity Outside of Jurisdiction

426.1 PURPOSE AND SCOPE

This policy provides general guidelines for reporting police activity while on or off-duty and occurring outside the jurisdiction of Tigard Police Department.

426.1.1 ASSISTANCE TO AGENCIES OUTSIDE THE CITY

When an officer is on-duty and is not assigned to a multi-agency task force (examples: WIN, ROCN or TriMet) and is requested by an allied agency to participate in law enforcement activity in another jurisdiction, he/she shall obtain prior approval from the immediate supervisor or the Patrol Lieutenant. If the request is of an emergency nature, the officer shall notify WCCCA before responding and will notify a supervisor as soon as practical.

426.1.2 LAW ENFORCEMENT ACTIVITY OUTSIDE THE CITY

Any on-duty officer, who engages in law enforcement activities of any type outside the immediate jurisdiction of Tigard Police Department, and the enforcement action is not within the scope of a multi-agency assignment such as TriMet, WIN, IGET, ROCN, etc., shall notify his or her supervisor or the Patrol Lieutenant at the earliest possible opportunity. Any off-duty officer who engages in any law enforcement activities, regardless of jurisdiction shall notify the Patrol Lieutenant as soon as practical.

The supervisor shall determine if a case report or other documentation of the officer's activity is required. The report or other documentation shall be forwarded to the officer's Division Commander.

Immigration Violations

428.1 PURPOSE AND SCOPE

The immigration status of individuals alone is generally not a matter for police action. It is incumbent upon all employees of this department to make a personal commitment to equal enforcement of the law and equal service to the public regardless of immigration status. Confidence in this commitment will increase the effectiveness of the Department in protecting and serving the entire community.

428.2 DEPARTMENT POLICY

The U.S. Immigration and Customs Enforcement (ICE) has primary jurisdiction for enforcement of the provisions of Title 8, United States Code dealing with illegal entry. This department does not participate in routine immigration investigation and enforcement activities (Oregon Revised Statutes 181.850).

Should activities of ICE generate circumstances that result in officer safety or community safety matters, or when suspected criminal violations are discovered beyond immigration violations, this department may assist ICE only as necessary to protect lives and property, or to enforce criminal laws other than immigration violations.

428.3 PROCEDURES FOR IMMIGRATION COMPLAINTS

Persons wishing to report immigration violations should be referred to the local office of the U.S. Immigration and Customs Enforcement (ICE). The Employer Sanction Unit of ICE has primary jurisdiction for enforcement of Title 8, United States Code.

428.3.1 BASIS FOR CONTACT

Unless immigration status is relevant to another criminal offense or investigation (e.g., harboring, smuggling, terrorism), the fact that an individual is suspected of being an undocumented alien shall not be the sole basis for contact, detention, or arrest (Oregon Revised Statutes 181.850).

428.3.2 SWEEPS

The Tigard Police Department does not conduct sweeps or other concentrated efforts to detain suspected undocumented aliens.

When enforcement efforts are increased in a particular area, equal consideration should be given to all suspected violations and not just those affecting a particular race, ethnicity, age, gender, sexual orientation, religion, socioeconomic status or other group.

The disposition of each contact (e.g., warning, citation, arrest), while discretionary in each case, should not be affected by such factors as race, ethnicity, age, gender, sexual orientation, religion or socioeconomic status.

428.3.3 ICE REQUEST FOR ASSISTANCE

If a specific request is made by ICE, this department will provide available support services, such as traffic control or peacekeeping efforts, during the federal operation only as necessary to provide for the safety of persons and property if not adequately provided by ICE .

Tigard Police Department

Policy Manual

Immigration Violations

Members of this department should not participate in such federal operations as part of any detention team unless it is in direct response to a request for assistance on a temporary basis or for officer safety. Any detention by a member of this department should be based upon the reasonable belief that an individual is involved in criminal activity.

428.3.4 IDENTIFICATION

Whenever any individual is reasonably suspected of an offense (infraction, violation, misdemeanor or felony), the investigating officer should take reasonable steps to establish the person's identity by way of valid identification or other reliable sources.

If an individual would have otherwise been released on a citation for a crime, the person should be taken to the station and given a reasonable opportunity to verify his/her true identity (e.g., telephone calls). If the person's identity is thereafter reasonably established, the original citation release should be completed without consideration of immigration status.

428.3.5 ARREST

Pursuant to Oregon Revised Statutes 181.850, no law enforcement agency of the State of Oregon or of any political subdivision of the state shall use agency moneys, equipment, or personnel for the purpose of detecting or apprehending persons whose only violation of law is that they are persons of foreign citizenship present in the United States in violation of federal immigration laws. However, a law enforcement agency may arrest any person who:

- (a) Is charged by the United States with a criminal violation of federal immigration laws under Title II of the Immigration and Nationality Act or 18 United States Code 1015, 1422 to 1429, or 1505; and,
- (b) Is subject to arrest for the crime pursuant to a warrant of arrest issued by a federal magistrate

If an officer intends to take enforcement action for any other crime and the individual is unable to reasonably establish his or her true identity, the officer may take the person into custody on the suspected criminal violation (Oregon Revised Statutes 807.570, 133.235, and 133.310), if pertinent to the circumstances). A field supervisor shall approve all such arrests.

428.3.6 BOOKING

If the officer is unable to reasonably establish an arrestee's identity, the individual may, upon approval of a supervisor, be booked into jail for the suspected criminal violation and held for bail.

If a person is detained pursuant to the authority of Oregon Revised Statutes 807.570, that person may be detained for such time as is reasonably necessary to investigate and verify the person's identity.

428.3.7 NOTIFICATION OF IMMIGRATION AND CUSTOMS ENFORCEMENT

If an officer believes that an individual taken into custody for an offense other than a felony is also an undocumented alien and there is no intention to transport the person to the county jail after he/she is formally booked, ICE may be notified for consideration of an immigration hold. In making the determination whether to notify ICE in such circumstances, the officer should, in consultation with a supervisor, consider the totality of circumstances of each case, including, but not limited to:

Tigard Police Department

Policy Manual

Immigration Violations

- (a) Seriousness of the offense
- (b) Community safety
- (c) Potential burden on ICE
- (d) Impact on the immigrant community

Generally, officers will not need to notify ICE when booking arrestees at the county jail. Immigration officials routinely interview suspected undocumented aliens who are booked into the county jail on criminal charges and notification will be handled according to jail operation procedures.

428.4 CONSIDERATIONS PRIOR TO REPORTING TO ICE

The Tigard Police Department is concerned for the safety of local citizens and thus detection of criminal behavior is of primary interest in dealing with any person. The decision to arrest shall be based upon those factors which establish probable cause and not on arbitrary aspects. Race, ethnicity, age, gender, sexual orientation, religion, and socioeconomic status alone are of no bearing on the decision to arrest.

All individuals, regardless of their immigration status, must feel secure that contacting law enforcement will not make them vulnerable to deportation. Members should not attempt to determine the immigration status of crime victims and witnesses or take enforcement action against them absent exigent circumstances or reasonable cause to believe that a crime victim or witness is involved in violating criminal laws. Generally, if an officer suspects that a victim or witness is an undocumented immigrant, the officer need not report the person to ICE unless circumstances indicate such reporting is reasonably necessary.

Nothing in this policy is intended to restrict officers from exchanging legitimate law enforcement information with any other federal, state or local government entity (Title 8 U.S.C. §1373 and U.S.C. § 1644).

428.4.1 U-VISA/T-VISA NONIMMIGRANT STATUS

Under certain circumstances, federal law allows temporary immigration benefits to victims and witnesses of certain qualifying crimes (8 USC § 1101(a)(15)(U and T). A declaration/certification for a U-Visa/T-Visa from the U.S. Citizenship and Immigration Services may be completed on U.S. DHS Form I-918 or I-914 by law enforcement and must include information on how the individual can assist in a criminal investigation or prosecution in order for a U-Visa/T-Visa to be issued.

Any request for assistance in applying for U-Visa/T-Visa status should be forwarded in a timely manner to the Criminal Investigation Section Sergeant assigned to supervise the handling of any related case. The Criminal Investigation Section Sergeant should do the following:

- (a) Consult with the assigned detective to determine the current status of any related case and whether further documentation is warranted.
- (b) Review the instructions for completing the declaration/certification if necessary. Instructions for completing Forms I-918/I-914 can be found on the U.S. DHS website at www.uscis.gov/portal/site/uscis.
- (c) Contact the appropriate prosecutor assigned to the case, if applicable, to ensure the declaration/certification has not already been completed and whether a declaration/certification is warranted.

Tigard Police Department

Policy Manual

Immigration Violations

- (d) Address the request and complete the declaration/certification, if appropriate, in a timely manner.
- (e) Ensure that any decision to complete or not complete the form is documented in the case file and forwarded to the appropriate prosecutor. Include a copy of any completed declaration/certification in the case file.

Emergency Utility Service

430.1 PURPOSE AND SCOPE

The City Public Works Department has personnel available to handle emergency calls 24 hours per day. Calls for service during non-business hours are frequently directed to the Police Department. Requests for such service received by this department should be handled in the following manner.

430.1.1 BROKEN WATER LINES

The City's responsibility ends at the water meter; any break or malfunction in the water system from the water meter to the citizen's residence or business is the customer's responsibility. Public Works can only turn off the valve at the meter. The citizen can normally accomplish this.

If a break occurs on the City side of the meter, emergency personnel should be called as soon as practical by Washington County Communications Center Agency (WCCCA).

430.1.2 ELECTRICAL LINES

City Public Works does not maintain electrical lines to street light poles. When a power line poses a hazard, an officer should be dispatched to protect against personal injury or property damage that might be caused by power lines. WCCCA should be promptly notified, as appropriate.

430.1.3 RESERVOIRS, PUMPS, WELLS, ETC.

Public Works maintains the reservoirs and public water equipment, as well as several underpass and other street drainage pumps. In the event of flooding or equipment malfunctions, emergency personnel should be contacted as soon as possible.

430.1.4 EMERGENCY NUMBERS

A current list of emergency personnel who are to be called for utility emergencies is maintained by WCCCA.

430.2 TRAFFIC SIGNAL MAINTENANCE

The City of Tigard contracts with a private maintenance company to furnish maintenance for all traffic signals within the City, other than those maintained by the State of Oregon.

430.2.1 OFFICER'S RESPONSIBILITY

Upon observing a damaged or malfunctioning signal, the officer will advise WCCCA of the location and problem with the signal. The dispatcher should make the necessary notification to the proper maintenance agency.

Officers have the responsibility to address any hazard caused by malfunction of any inoperative or malfunctioning signal.

Carbines

432.1 PURPOSE AND SCOPE

In order to more effectively and accurately address the increasing level of fire power and body armor utilized by criminal suspects, the Tigard Police Department will make carbines available to qualified patrol officers as an additional and more immediate tactical resource.

432.2 CARBINES

432.2.1 DEFINITION

A carbine is an authorized weapon which is owned by the department and which is made available to properly trained and qualified officers as a supplemental resource to their duty handgun. No personally owned rifles may be carried on-duty unless pre-approved in writing by the Chief of Police and the department Firearms Coordinator.

432.3 SPECIFICATIONS

Only weapons and ammunition that meet agency authorized specifications, approved by the Chief of Police, and issued by the department may be used by officers in their law enforcement responsibilities. The authorized carbines issued by the department are the Colt AR-15, H & K MP-5 and UMP.

432.3.1 CARBINE AMMUNITION

The only ammunition authorized for the carbines is that which has been issued by the department.

432.4 CARBINE MAINTENANCE

- (c) Each carbine shall be subject to inspection by a supervisor, the Firearms Coordinator and/or the department Armorers at any time
- (d) No modification shall be made to any carbine without prior written authorization from the Firearms Coordinator

432.5 TRAINING

Officers shall not carry or utilize the carbines unless they have successfully completed the department initial operators training. Officers shall thereafter be required to successfully complete annual training and qualification conducted by a designated carbine instructors.

Any officer who fails to successfully complete department sanctioned training/qualification sessions as specified in Policy 312 (Section 2) will no longer be authorized to carry the carbine until reauthorized by the Firearms Coordinator and/or his designee.

432.6 DEPLOYMENT OF THE CARBINE

Officers may deploy the patrol rifle in any circumstance where the officer can articulate a reasonable expectation that the rifle may be needed. Examples of some general guidelines for deploying the patrol rifle may include, but are not limited to:

- (a) Situations where the officer reasonably anticipates an armed encounter.
- (b) When an officer is faced with a situation that may require the delivery of accurate and effective fire at long range.
- (c) Situations where an officer reasonably expects the need to meet or exceed a suspect's firepower.
- (d) When an officer reasonably believes that there may be a need to deliver fire on a barricaded suspect or a suspect with a hostage.
- (e) When an officer reasonably believes that a suspect may be wearing body armor.
- (f) When authorized or requested by a supervisor.
- (g) When needed to euthanize an animal.
- (h) The carbine to officer "ratio" should not exceed 50% during a tactical situation. This provides carbine security during the a rest process and permits freedom of movement for officers required to perform manual tasks.

432.7 DISCHARGE OF THE CARBINE

The discharge of the carbine shall be governed by the Department's Deadly Force Policy, Policy Manual § 300.

432.8 PATROL READY

Any qualified officer carrying a carbine in the field shall maintain the weapon in a patrol ready condition until deployed. A carbine is considered patrol ready when it has been inspected by the assigned officer and meets the following conditions:

432.9 CARBINE STORAGE

- (a) When not in use, carbines will be stored in the department armory in their designated racks.
- (b) At the start of each assigned shift, any qualified, on-duty officer will contact the patrol supervisor for access to the department armory, and shall carry their designated carbine as directed.
- (c) At the end of the assigned officer's shift, the carbine will be returned and secured in the department armory.
- (d) When not deployed, in-service carbines should be secured in the patrol vehicle's locked gun rack.

Tigard Police Department

- (b) The carbine assigned will be kept inside a safe that is permanently secured to the building inside the SRO office at Tigard High School. The office will always be locked when it is not occupied. The SRO(s) assigned to Tigard High School and the SRO supervisor will be the only persons who know the code to the safe.
- (c) The carbine will be stored in patrol ready condition as previously described in this policy.
- (d) The carbine will only be removed from the school for deployment, training, or maintenance. The carbine will always be transported for non-deployment purposes inside a case.

Aircraft Accidents

434.1 PURPOSE AND SCOPE

This policy describes situations involving aircraft accidents including responsibilities of personnel, making proper notification and documentation.

434.2 RESPONSIBILITIES

In the event of an aircraft crash the employee responsibilities are as follows:

434.2.1 OFFICER RESPONSIBILITY

Officers should treat an aircraft crash site as a crime scene until it is determined that such is not the case. If a military aircraft is involved, additional dangers, such as live ordnance or hazardous materials, may be present. The scene may require additional security due to the potential presence of confidential equipment or information.

The duties of the field officer at the scene of an aircraft accident include the following:

- (a) Determine the nature and extent of the accident.
- (b) Request additional personnel and other resources to respond as needed.
- (c) Provide assistance for the injured parties until the arrival of fire department personnel and/or other emergency personnel.
- (d) Cordon off and contain the area to exclude unauthorized individuals as soon as practicable.
- (e) Provide crowd control and other assistance until directed otherwise by a supervisor.
- (f) Ensure that the medical examiner's office is notified if a death occurs.
- (g) If there appears to be a large number of fatalities, consider contacting the County Health Department for mass casualty assistance, establish a command post and employ unified command structure. Consider activating the City's Emergency Operation Center (EOC) in the event of a major airline crash.

Entering an aircraft or tampering with parts or debris is only permissible for the purpose of removing injured or trapped occupants, protecting the wreckage from further damage or protecting the public from danger. If possible, the investigating authority should first be consulted before entering or moving any aircraft or any crash debris. Photographs or sketches of the original positions should be made whenever feasible.

The fire department will be responsible for control of the accident scene until the injured parties are cared for and the accident scene has been rendered safe for containment. Thereafter, police personnel will be responsible for preserving the scene until relieved by the investigating authority.

Once the scene is relinquished to the investigating authority, personnel from this agency may assist in containment of the scene until the investigation is completed or assistance is no longer needed.

An airport service worker or the airport manager may respond to the scene to assist the on-scene commander with technical expertise, should it be needed during the operation.

Tigard Police Department

Policy Manual

Aircraft Accidents

434.2.2 NATIONAL TRANSPORTATION SAFETY BOARD (NTSB)

The NTSB has the ultimate authority for the scene of an aircraft crash. The NTSB is concerned with several aspects of a crash as described in this section.

Every effort should be made by officers at the scene of an injury or fatality to preserve all crash debris in its original condition and location until examined by personnel charged with determining the cause of the accident. Officers present at the location of such crash should treat the situation as a crime scene until it is determined that such is not the case. Once the injured parties are removed from danger, control of the crash scene is the responsibility of the Police Department until the arrival of NTSB personnel who will conduct the investigation into the cause of the crash.

Entering an aircraft or tampering with parts or debris is only permissible for the purpose of removing injured or trapped occupants and protecting the public from further danger. If possible, any intentions to tamper with or move an aircraft involved in an accident should be cleared with the NTSB investigator in advance.

Military personnel will respond to take charge of any military aircraft involved, whether or not injuries or deaths have occurred.

If no injury or death results and the NTSB elects not to respond, the pilot or owner may assume control of the aircraft.

Removal of the wreckage shall be done under the guidance of the NTSB or military authorities, or at the discretion of the pilot or the owner, if the NTSB is not responding for an on-site investigation.

434.2.3 WCCCA RESPONSIBILITIES

Dispatchers are responsible to make notifications as directed once an aircraft crash has been reported. The notifications will vary depending on the type of crash, extent of injuries or damage, and the type of aircraft involved. Generally, the dispatcher will need to notify the following agencies or individuals when an aircraft crash has occurred.

- (a) Tualatin Valley Fire & Rescue
- (b) The affected airport tower
- (c) Closest military base if a military aircraft is involved
- (d) Ambulances or other assistance as required

When an aircraft crash is reported to the Police Department by the airport tower personnel the dispatcher receiving such information should verify that the tower personnel will contact the Federal Aviation Administration (FAA) Flight Standards District Office and the National Transportation Safety Board (NTSB). In the event that airport personnel are not involved, the dispatcher should notify the FAA and the NTSB.

434.2.4 RECORDS SUPERVISOR RESPONSIBILITIES

The Records Supervisor is responsible for the following:

- (a) Forward and maintain an approved copy of the crash report to the Oregon Department of Aviation
- (b) Forward a copy of the report to the Operations Division Commander and the manager of the affected airport

Tigard Police Department

Policy Manual

Aircraft Accidents

434.2.5 PUBLIC INFORMATION OFFICER RESPONSIBILITIES

The Department Public Information Officer is responsible for the following:

- (a) Obtain information for a press release from the on-scene commander or his or her designee
- (b) When practical, the Department Public Information Officer should coordinate with the FAA Press Information Officer to prepare a press release for distribution to the Media

Information released to the press regarding any aircraft crash should be handled by the Department Public Information Officer or in accordance with existing policy.

434.3 DOCUMENTATION

Any aircraft accident (crash) within the City, regardless of whether injuries or deaths occur, shall be documented in a police report.

Obtaining Air Support

438.1 PURPOSE AND SCOPE

The use of a police air support can be invaluable in certain situations. This policy specifies potential situations where the use of air support may be requested and the responsibilities for making a request.

438.2 REQUEST FOR AIR SUPPORT

If a supervisor or officer in charge of an incident determines that the use of air support would be beneficial, a request to obtain air support may be made.

438.2.1 REQUEST FOR ASSISTANCE FROM ANOTHER AGENCY

After consideration and approval of the request for air support, the Patrol Lieutenant, or his/her designee, will call the closest agency having air support available. The Patrol Lieutenant on duty will apprise that agency of the specific details of the incident prompting the request.

Police air support may be requested under any of the following conditions:

- (a) When air support is activated under existing mutual aid agreements

- (c) When the use of air support will aid in the capture of a suspected fleeing felon whose continued freedom represents an ongoing threat to the community
- (d) When air support is needed to locate a person who has strayed or is lost and whose continued absence constitutes a serious health or safety hazard
- (e) Vehicle pursuits

While it is recognized that the availability of air support will generally provide valuable assistance to ground personnel, the presence of air support will rarely replace the need for officers on the ground.

Field Interviews and Photographing Detainees

440.1 PURPOSE AND SCOPE

The purpose of this policy is to establish guidelines for conducting field interviews (FI) and pat-down searches and the taking and retention of photographs of persons detained in the field but not arrested. Due to a variety of situations confronting the officer, the decision to FI or photograph a field detainee shall be left to the discretion of the involved officer based on the totality of the circumstances available to them at the time of the detention.

440.2 DEFINITIONS

Detention - Occurs when an officer intentionally, through words, actions or physical force causes an individual to reasonably believe he/she is being required to restrict his/her movement. Detentions also occur when an officer actually restrains a person's freedom of movement.

Consensual Encounter - Occurs when an officer contacts an individual but does not create a detention through words, actions or other means. In other words, a reasonable individual would believe that his/her contact with the officer is voluntary.

Field Interview (FI) - The brief detainment of an individual, whether on foot or in a vehicle, based on reasonable suspicion for the purposes of determining the individual's identity and resolving the officer's suspicions.

Field Photographs - Field photographs are defined as posed photographs taken of a person during a contact, detention, or arrest in the field. Undercover surveillance photographs of an individual and recordings captured by the normal operation of a Mobile Audio Video (MAV) system when persons are not posed for the purpose of photographing considered field photographs.

Frisk or Pat-Down Search - This is the normal type of search used by officers in the field to check an individual for weapons. It involves a thorough patting down of clothing to locate any weapons or dangerous items that could pose a danger to the officer, the detainee or others (Oregon Revised Statutes 131.625).

Reasonable Suspicion - Occurs when, under the totality of the circumstances, an officer has articulable facts that criminal activity may be afoot and a particular person is connected with that possible criminal activity.

Stop - The brief detainment of an individual, whether on foot or in a vehicle, based on reasonable suspicion that the person has committed, or is about to commit a crime. (Oregon Revised Statutes 131.615).

440.3 FIELD INTERVIEWS

Officers may stop individuals for the purpose of conducting an FI where reasonable suspicion is present. In justifying the stop, the officer should be able to point to specific facts which, when taken together with rational inferences, reasonably warrant the stop. Such facts include, but are not limited to, the following:

Tigard Police Department

Policy Manual

Field Interviews and Photographing Detainees

- (a) The appearance or demeanor of an individual suggests that he/she is part of a criminal enterprise or is engaged in a criminal act.
- (b) The actions of the suspect suggest that he/she is engaged in a criminal activity.
- (c) The hour of day or night is inappropriate for the suspect's presence in the area.
- (d) The suspect's presence in the particular area is suspicious.
- (e) The suspect is carrying a suspicious object.
- (f) The suspect's clothing bulges in a manner that suggests he/she is carrying a weapon.
- (g) The suspect is located in proximate time and place to an alleged crime.
- (h) The officer has knowledge of the suspect's prior criminal record or involvement in criminal activity.

440.3.1 INITIATING A FIELD INTERVIEW

An officer may initiate the stop of a person when there is articulable, reasonable suspicion to do so. A person, however, should not be detained longer than is reasonably necessary to resolve the officer's suspicions.

Nothing in this policy is intended to discourage consensual contacts. Frequent and random casual contacts with consenting individuals are encouraged by the Tigard Police Department to strengthen our community involvement, community awareness and problem identification.

440.3.2 WITNESS IDENTIFICATION AND INTERVIEWS

Because potential witnesses to an incident may be lost or the integrity of their statements compromised with the passage of time, officers should, when warranted by the seriousness of the case, take reasonable steps to promptly coordinate with an on-scene supervisor and/or criminal investigators to utilize available personnel for the following:

- (a) Identify all persons present at the scene and in the immediate area.
 - 1. When feasible, a recorded statement should be obtained from those persons who claim not to have witnessed the incident but who were present at the time it occurred.
 - 2. Any potential witness who is unwilling or unable to remain available for a formal interview should not be detained absent reasonable suspicion to detain or probable cause to arrest. Without detaining the individual for the sole purpose of identification, officers should attempt to identify the witness prior to his/her departure.
- (b) Witnesses who are willing to provide a formal interview should be asked to meet at a suitable location where criminal investigators may obtain a recorded statement. Such witnesses, if willing, may be transported by department personnel.
 - 1. A written, verbal or recorded statement of consent should be obtained prior to transporting a witness in a department vehicle. When the witness is a minor, consent should be obtained from the parent or guardian, if available, prior to transportation.

440.4 FRISK OR PAT-DOWN SEARCHES

A frisk or pat-down search of a detained subject may be conducted whenever an officer reasonably believes that the person may possess a dangerous or deadly weapon and

Tigard Police Department

Policy Manual

Field Interviews and Photographing Detainees

presents a danger to the officer or other persons present (Oregon Revised Statutes 131.625). Circumstances that may establish justification for performing a pat-down search include, but are not limited to the following:

- (a) The type of crime suspected, particularly in crimes of violence where the use or threat of weapons is involved.
- (b) Prior knowledge of the suspect's use of force and/or propensity to carry deadly weapons.
- (c) The appearance and demeanor of the suspect.
- (d) Visual indications which suggest that the suspect is carrying a firearm or other weapon.
- (e) Statements made by the suspect, witnesses or other persons.

440.5 FIELD PHOTOGRAPHS

Before photographing any field detainee, the officer shall carefully consider, among other things, the factors listed below.

440.5.1 FIELD PHOTOGRAPHS TAKEN WITH CONSENT

Field photographs may be taken when the subject of the photograph knowingly and voluntarily gives consent.

440.5.2 FIELD PHOTOGRAPHS TAKEN WITHOUT CONSENT

Field photographs may be taken without consent only if they are taken during a detention that is based on reasonable suspicion of criminal activity, and the photograph serves a legitimate law enforcement purpose related to the detention. Mere knowledge or suspicion of gang membership or affiliation is not a sufficient justification for taking a photograph without consent. The officer must be able to articulate facts that reasonably indicate that the subject was involved in, or was about to become involved in, criminal conduct.

If, prior to taking a photograph, the officer's reasonable suspicion of criminal activity has been dispelled, the detention must cease and the photograph should not be taken.

All field photographs and related reports shall be submitted to a supervisor and retained in compliance with this policy.

440.6 SUPERVISOR RESPONSIBILITY

While it is recognized that field photographs often become valuable investigative tools, supervisors should monitor such practices in view of the above listed considerations. This is not to imply that supervisor approval is required before each photograph. Access to field photographs shall be strictly limited to law enforcement purposes.

440.7 DISPOSITION OF PHOTOGRAPHS

All detainee photographs must be adequately labeled and submitted to the Patrol Lieutenant with either an associated FI card, incident report, or other memorandum explaining the nature of the contact. If an individual is photographed as a suspect in a particular crime, any associated report numbers should be noted on the photograph.

After reviewing the photograph and related material, the Patrol Lieutenant shall forward it to the Records Section or, when appropriate, directly to the case detective for further processing.

Tigard Police Department

Policy Manual

Field Interviews and Photographing Detainees

When a photograph is taken in association with a particular case, the detective may use such photograph in a photo lineup. Thereafter, the individual photograph should be retained as a part of the case file. All other photographs will be kept in the Records Section in a separate non-booking photograph file in alphabetical order.

440.7.1 PURGING THE FIELD PHOTO FILE

The Records Supervisor will be responsible for periodically purging and destroying all such photographs more than one year old. Photographs that continue to serve a legitimate law enforcement purpose may be retained longer than one year provided that a notation of that fact is added to the file for each additional year that they are retained. Access to the FI photo file shall be strictly limited to law enforcement purposes.

440.8 PHOTO REVIEW POLICY

Any person who has been the subject of a field photograph or an FI by this agency during other than an arrest may file a written request within 30 days of the contact. The request to review the status of the photograph/FI shall be directed to the office of the Chief of Police. Upon a verbal request, the Department shall send a request form to the requesting party along with a copy of this policy.

440.8.1 REVIEW PROCESS

Upon receipt of such a written request, the Chief of Police or his or her designee will permit the individual to appear in person (any minor must be accompanied by their parent or legal guardian) for a review of the status of the photograph/FI.

Such a meeting will generally be scheduled during regular business hours within 30 days of the receipt of the written request. An extension of the 30-day limit may be made either upon the mutual convenience of the parties or if, at the discretion of the Chief of Police, there appears to be an ongoing legitimate law enforcement interest which warrants a delay. If the delay could jeopardize an ongoing investigation, nothing in this policy shall require the Chief of Police to disclose the reason(s) for the delay.

A meeting for the review of the status of any non-arrest photograph/FI is not intended to be a formal hearing, but simply an informal opportunity for the individual to meet with the Chief of Police or his/her to discuss the matter.

After carefully considering the information available, the Chief of Police or his/her designee will determine, generally within 30 days of the original meeting, whether the photograph/FI was obtained in accordance with existing law and Tigard Police Department policy and, even if properly obtained, then whether there is any ongoing legitimate law enforcement interest in retaining the photograph/FI.

If the Chief of Police or his/her designee determines that the photograph/FI was obtained in accordance with existing law and department policy and that there is an ongoing legitimate law enforcement interest in retaining the non-arrest photograph, the photograph/FI shall be retained according to this policy and applicable law.

If the Chief of Police or his/her designee determines that the original legitimate law enforcement interest in retaining a non-arrest photograph no longer exists or that it was obtained in violation of existing law or policy, the original photograph will be destroyed or returned to the person photographed, if requested. All other associated reports or documents, however, will be retained according to department policy and applicable law.

Tigard Police Department

Policy Manual

Field Interviews and Photographing Detainees

If the Chief of Police or his/her designee determines that the original legitimate law enforcement interest in retaining a non-arrest FI no longer exists or that the original F/I was not obtained in accordance with established law or department policy, the original FI may only be destroyed upon the execution of a full and complete waiver of liability by the individual (and guardian if a minor) arising out of that field contact.

If the Chief of Police or his/her designee determines that any involved Tigard Police Department personnel violated existing law or department policy, the Chief of Police or designee shall initiate a separate internal investigation which may result in additional training, discipline or other appropriate action for the involved employees.

Within 30 days of the Chief of Police's determination the person photographed/FI'd will be notified in writing whether or not the photograph/FI will be retained. This does not entitle any person to any discovery or access to any law enforcement records not otherwise authorized by law.

Criminal Street Gangs

442.1 PURPOSE AND SCOPE

The Tigard Police Department must ensure that organized criminal activity does not victimize our citizens or diminish the quality of life in our communities.

Tigard Police Department

Policy Manual

Criminal Street Gangs

- (e) Combined with any other element from the above categories, documented reasonable suspicion based on the training and experience of the officer can be used to designate a subject as a gang member.

442.4 DOCUMENTATION PROCEDURE

Gang affiliates who fit the Oregon DOJ criteria will be documented in the Law Enforcement Data System (LEDS) for officer safety purposes.

- (a) When officers have contact with any person who fits DOJ criteria, the Gang Information Officer will submit Gang Submission Forms to DOJ for the purpose of documentation in LEDS.
- (b) Oregon Revised Statute 181.575 prohibits the retention of information except when that information directly relates to a criminal investigation and there are reasonable grounds to suspect the subject of the information is or may be involved in criminal conduct. Information that is not directly associated with the investigation of a crime will not be retained in the Gang Information Officer's files. Investigative reports may be stored in the normal department records system if the information otherwise meets normal department reporting and records retention criteria.

442.5 GANG INCIDENT INVESTIGATION

The Department will assign investigations in the most effective manner; utilizing the Gang Information Officer(s) where needed to quickly and efficiently investigate gang incidents. 442.5.1 SHARING OF INFORMATION

Officers who develop or learn information about documented criminal gangs or gang associates related to potential criminal activity should share the information with other officers.

442.6 CRIMINAL GANG INTELLIGENCE DATABASES

While this policy does not establish a criminal gang intelligence database or permanent file, as described in OAR 137-090-0080, the Chief of Police may approve one or more criminal gang intelligence databases, such as a statewide repository, for use by members of the gang unit. Any such database should be compliant with 28 CFR 23.20 and OAR 137-090-0000 et seq., regulating criminal intelligence systems. Employees must obtain the requisite training before accessing any such database.

It is the gang unit supervisor's responsibility to determine whether a report or Field Interview (FI) contains information that would qualify for entry into a department approved criminal gang intelligence database. The gang unit supervisor should forward any such reports or FIs to the Records Section after appropriate database entries are made. The submitting gang unit supervisor should clearly mark the report/FI as gang intelligence information.

It is the responsibility of the Records Section supervisor to retain reports and FIs in compliance with the procedures of the department-approved criminal gang intelligence

database (28 CFR 23.20 and OAR 137-090-0000 et seq.). The Records Section supervisor may not purge these reports or FIs without the approval of the gang unit supervisor.

Validation and purging of the criminal gang intelligence database is the responsibility of the gang unit supervisor.

442.6.1 CRIMINAL STREET GANG TEMPORARY FILE

The gang unit supervisor may maintain a temporary file of reports and FIs that is separate from any criminal gang intelligence database when an individual or group has been identified as a suspected street gang participant or a suspected street gang but does not meet the criteria necessary for entry into a criminal gang intelligence database.

Inclusion in a temporary file may be done only if there is a reasonable likelihood that, within one year of the contact, the individual or group will meet the criteria for entry into a department-approved criminal gang intelligence database. Reports and FIs will only be included in a temporary gang file with the written authorization of the gang unit supervisor. A temporary file of street gang participants shall include the following:

- Names, aliases, monikers, addresses and other relevant identifying information
- Gang name
- Justification used to identify an individual as a criminal street gang participant
- Vehicles known to be used
- Cross references to other identified gangs or gang members

Individuals, groups, and organizations may be given temporary file status only in the following situations:

- (a) The subject is unidentifiable because there are no physical descriptors, identification numbers or distinguishing characteristics available; and
- (b) The subject's involvement in criminal or gang activities is questionable; and
- (c) The subject has a history of criminal or gang conduct, and the circumstances afford him/her an opportunity to again become active; and/or
- (d) The reliability of the information source and/or the validity of the information content cannot be determined at the time of receipt; and
- (e) The information appears to be significant and merits temporary storage.

442.6.2 REVIEW AND PURGING OF TEMPORARY CRIMINAL GANG PARTICIPANT FILE

Temporary files shall not be retained longer than one year. At the end of one year, temporary files must be purged if the information does not qualify for entry into a department-approved criminal gang intelligence database.

The gang unit supervisor shall periodically review temporary files to verify that the information was properly obtained and meets the criteria for retention. Validation and purging of temporary criminal gang files is the responsibility of the gang unit supervisor. Retention and purging shall correspond to the department's established records retention guidelines.

The gang unit supervisor should otherwise ensure that temporary criminal gang participant files and working files are maintained under the model of OAR 137-090-0080.

Tigard Police Department

Policy Manual

Criminal Street Gangs

442.7 FIELD CONTACTS

Officers who contact individuals who are or may be participants in criminal street gang activity should complete an FI card and document the reasonable suspicion underlying the contact and the exact circumstances leading to the suspicion that the individual is a criminal street gang participant (e.g., subject states he/she is a member of XYZ gang, has XYZ tattoo on right hand near thumb, is wearing a ball cap with the gang name printed in blue or red ink).

Photographing known or suspected criminal street gang participants shall be done in accordance with the provisions of the Detentions, Contacts and Photographing Detainees Policy.

442.8 INQUIRY BY PARENT OR GUARDIAN

When an inquiry is made by a parent or guardian as to whether a juvenile's name is in the temporary criminal street gang participant's file, such information shall be provided by the unit supervisor unless there is good cause to believe that the release of such information may jeopardize an ongoing criminal investigation.

Employees must observe strict compliance with the rules of a department-approved gang intelligence database regarding release of information from that database.

442.9 DISSEMINATIONS OF THE FILE INFORMATION

Information from the temporary criminal street gang participant files may only be furnished to department personnel and other public law enforcement agencies on a need-to-know basis. This means information that may be of use in the prevention of gang-related criminal activity or information concerning the investigation of gang-related crimes shall only be released to members of this department and other law enforcement agencies.

Information from any department-approved gang intelligence file must only be released in compliance with the rules for that particular database.

Tigard Police Department

Policy Manual

In-Car Digital Video System

- (b) Activate the wireless transmitter during the incidents listed above in order to provide narration with all video recording.
- (c) Deactivate the recording equipment when the officer is reasonably certain nothing of significance would be recorded.
 - An example of a deactivation might be, a code run to a domestic disturbance, but the officer parks at such a distance from the incident that the remote microphone will be inoperable and no evidence of pertinent activity within recording distance exists. The officer may choose to deactivate at the conclusion of the code run when parked rather than at the conclusion of the entire call.
- (d) Upon a deactivation of the recording equipment, the officer will reactivate the equipment either manually or by using the remote microphone if the situation changes and evidence might be captured on video.
- (e) Video or audio record other types of incidents at their discretion. However it is recommended that officers activate the recording equipment and wireless transmitter during any public or officer contacts in order in order to capture potential evidence for court and to protect themselves from false allegations. - (h) Notify personnel assisting from outside agencies whenever either video or audio recording is in use.
- (i) Wear the wireless transmitter with the lapel microphone on their person at all times, positioned to obtain the best audio possible. Officers may choose to set the wireless transmitter to either auto or transmit at his/her discretion. In auto mode, the wireless transmitter recording begins approximately five seconds after the video activation; in transmit mode the officer must manually activate the wireless transmitter.
- (j) Not compromise their safety in order to provide notification, but shall provide notification once it is safe to do so.

- All other requests for copies, such as those from the media, attorneys, and citizens shall be processed by TPD Records Unit personnel, or the Public Information Officer.
- Copies are not considered evidence.

447.7 TRAINING

Video files that contain material deemed beneficial for training purposes, with Patrol Supervisors approval, may be utilized for training purposes. Officers may notify supervisors of video that may be appropriate for training; supervisors review and submit videos to the Training Coordinator at their discretion.

Mobile Digital Computer Use

448.1 PURPOSE AND SCOPE

The Mobile Digital Computer (MDC) accesses confidential records from the Oregon State Police and Department of Motor Vehicles databases. Employees using the MDC shall comply with all appropriate federal and state rules and regulations.

448.2 MDC USE

The MDC shall be used for official police communications only. Messages that are of a sexual, racist, or offensive nature, or otherwise critical of any member of the department are strictly forbidden.

Messages may be reviewed by supervisors at anytime without prior notification. Employees generating or transmitting messages not in compliance with this policy are subject to discipline.

All calls dispatched to patrol units should be communicated by voice and MDC unless otherwise authorized by the Patrol Lieutenant.

Any agency using a terminal to access the Law Enforcement Data System (LEDS), whether directly or through another agency, is responsible for adhering to all applicable LEDS Rules & Policies and must ensure that unauthorized persons are not given access or allowed to view LEDS information.

448.2.1 USE WHILE DRIVING

Use of the MDC by the vehicle operator should generally be limited to times when the vehicle is stopped. When the vehicle is in motion, the operator should only attempt to read messages that are likely to contain information that is required for immediate enforcement, investigative or safety needs.

Short transmissions, such as a license plate check, are permitted if it reasonably appears that it can be done safely. In no case shall an operator attempt to send or review lengthy messages while the vehicle is in motion.

448.2.2 DOCUMENTATION OF ACTIVITY

MDC's and voice transmissions are used to record the officer's daily activity. To ensure the most accurate recording of these activities, the following are required:

- (a) All contacts or activity shall be documented at the time of the contact
- (b) Whenever the activity or contact is initiated by voice, it shall be entered into the Computer Aided Dispatch (CAD) system by a dispatcher
- (c) Whenever the activity or contact is not initiated by voice, the officer shall record it on the MDC

448.2.3 STATUS CHANGES

All changes in status (e.g., arrival at scene, meal periods, in service) will be transmitted either verbally over the police radio or through the MDC system.

Tigard Police Department

Policy Manual

Mobile Digital Computer Use

Officers responding to in-progress calls shall advise changes in status verbally over the radio to assist other officers responding to the same incident.

Other changes in status may be entered by depressing the appropriate keys on the MDC's.

448.2.4 EMERGENCY ACTIVATION OF MDC

If the emergency button is depressed on the MDC, the dispatcher will call the unit and ask if Code- 4. If there is no emergency, then he/she should answer "Code-4" and all units will resume their normal activity. If there is no response or the officer answers in some other way, the dispatcher shall proceed as follows:

- (a) If the unit is not on a call, send available units to assist in locating the unit transmitting the emergency. Whenever a location is known, immediately dispatch the nearest available unit Code-3.
- (b) Notify the field sergeant and Patrol Lieutenant of the incident without delay.

Units not responding to the emergency shall refrain from transmitting on the radio until there is a Code-4, unless they are themselves handling an emergency.

448.3 MDC CONSIDERATIONS

448.3.1 NON-FUNCTIONING MDC

Whenever possible, officers will not use units with malfunctioning MDC's. Whenever officers must drive a unit in which the MDC is not working, they shall notify WCCCA. It shall be responsibility of WCCCA to record all information that will then be transmitted verbally over the police radio.

448.3.2 BOMB CALLS

When investigating reports of possible bombs, officers will turn off their MDC's. Operating the MDC may cause some devices to detonate.

Use of Audio/Video Recorders

450.1 PURPOSE AND SCOPE

This policy provides guidelines for the use of portable audio/video recording devices by members of this department while in the performance of their duties.

This policy does not apply to surreptitious interception of electronic communications for lawful authorized investigative purposes or to mobile audio video recordings (see the Mobile Audio Video Policy).

450.2 POLICY

The Tigard Police Department may provide members with access to portable recorders, either audio or video or both, for use during the performance of their duties. The use of recorders is intended to enhance the mission of the Department by accurately capturing contacts between members of the Department and the public.

450.3 PRIVACY

All recordings made by personnel acting in their official capacity as members of this department shall remain the property of the Department and should not be considered private, regardless of whether those recordings were made with department-issued or personally owned recorders.

450.4 MEMBER RESPONSIBILITIES

Prior to going into service, each uniformed member should be equipped with a portable recorder, issued by the Department, and should make sure the recorder is in good working order. Uniformed members should wear the recorder in a conspicuous manner.

Any member assigned to a non-uniformed position may carry an approved portable recorder at any time the member believes that such a device may be useful.

When using a recorder, the assigned member shall record his/her name, employee number and the current date and time at the beginning and the end of the shift or other period of use, regardless of whether any activity was recorded. This procedure is not required when the recording device and related software captures the user's unique identification and the date and time of each recording.

450.5 ACTIVATION OF THE AUDIO RECORDER

Members should activate the recorder during all enforcement stops and field interrogation situations and any other time the member reasonably believes that a recording of an on-duty contact may be useful. Once started, recordings should continue without interruption until the contact ends, if feasible.

Oregon law requires members to notify all parties to the conversation that are a recording is being made (ORS 165.543).

At no time is a member expected to jeopardize his/her safety in order to activate a recorder or change the recording media. However, the recorder should be activated in required situations as soon as practicable.

Tigard Police Department

Policy Manual

Use of Audio/Video Recorders

450.5.1 SURREPTITIOUS USE OF THE AUDIO RECORDER

Oregon law generally prohibits any individual from surreptitiously recording any conversation, except as provided in ORS 165.540 and ORS 165.543.

Members shall not surreptitiously record another department member without a court order or unless lawfully authorized by the Chief of Police or the authorized designee.

450.6 PROHIBITED USE OF PORTABLE RECORDERS

Members are prohibited from using department-issued portable recorders and recording media for personal use and are prohibited from making personal copies of recordings created while on-duty or while acting in their official capacity.

Members are also prohibited from retaining recordings of activities or information obtained while on-duty, whether the recording was created with department-issued or personally owned recorders. Members shall not duplicate or distribute such recordings, except for authorized legitimate department business purposes. All such recordings shall be retained at the Department.

Members are prohibited from using personally owned recording devices while on-duty without the express consent of the Patrol Lieutenant. Any member who uses a personally owned recorder for department-related activities shall comply with the provisions of this policy, including retention and release requirements.

Recordings shall not be used by any member for the purpose of embarrassment or ridicule.

Any member who may have questions regarding the application of this policy is encouraged to seek clarification from supervisory personnel.

450.7 RETENTION OF RECORDINGS

Any time a member records any portion of a contact that the member reasonably believes constitutes evidence in a criminal case, the member shall record the related case number and download the file in accordance with the Computers and Digital Evidence Policy and document the existence of the recording in the related case report.

Any time a member reasonably believes a recorded contact may be beneficial in a non-criminal matter (e.g., a hostile contact), the member should promptly notify a supervisor of the existence of the recording.

Members should upload the file, in accordance with current procedure for storing digital files, at the end of their shift and any time the storage capacity is nearing its limit.

450.7.1 RETENTION REQUIREMENTS

All recordings shall be retained for a period consistent with the requirements of the organization's records retention schedule but in no event for a period less than 180 days.

450.8 RELEASE OF RECORDINGS

Recordings made using portable recording devices pursuant to this policy are department records and may only be released as provided in the Records Release and Security Policy or for other authorized legitimate department business purposes.

Tigard Police Department

Policy Manual

Use of Audio/Video Recorders

450.9 REVIEW OF RECORDED MEDIA FILES

When preparing written reports, members should review their recordings as a resource. However, members should not use the fact that a recording was made as a reason to write a less detailed report.

Supervisors are authorized to review relevant recordings any time they are investigating alleged misconduct, reports of meritorious conduct or whenever such recordings would be beneficial in reviewing the member's performance.

Recorded files may also be reviewed:

- (a) Upon approval by a supervisor, by any member of the Department who is participating in an official investigation, such as a personnel complaint, administrative investigation or criminal investigation.
- (b) Pursuant to lawful process or by court personnel who are otherwise authorized to review evidence in a related case.
- (c) By media personnel with permission of the Chief of Police or the authorized designee.
- (d) In compliance with a public records request, if permitted, and in accordance with the Records Release and Security Policy.

Medical Marijuana

452.1 PURPOSE AND SCOPE

The purpose of this policy is to provide members of this department with guidelines for investigating the acquisition, possession, transportation, delivery, production or use of marijuana under Oregon's medical marijuana laws (Oregon Medical Marijuana Act, ORS 475.300 et seq.).

452.1.1 DEFINITIONS

Definitions related to this policy include:

Cardholder - Any patient or caregiver who has been issued a valid Registry Identification Card (RIC).

Caregiver (or designated primary caregiver) - An individual 18 years of age or older who has significant responsibility for managing the well-being of a person who has been diagnosed with a debilitating medical condition and who is designated as such on either that person's application for a RIC or in other written notification to the Oregon Health Authority. Caregiver does not include the person's attending physician (ORS 475.302).

Grower - A person responsible for a marijuana grow site, who has been selected to produce medical marijuana for a patient and has been registered by the Oregon Health Authority for this purpose (OAR 333-008-0010).

Mature marijuana plant - A marijuana plant that has flowers, is 12 or more inches tall or 12 inches or more in diameter (OAR 333-008-0010).

Medical use of marijuana - The production, possession, delivery or administration of marijuana, or paraphernalia used to administer marijuana, as necessary for the exclusive benefit of a person to mitigate the symptoms or effects of the person's debilitating medical condition (ORS 475.302).

Patient - A person who has been diagnosed with a debilitating medical condition within the previous 12 months and been advised by his/her attending physician that the medical use of marijuana may mitigate the symptoms or effects of that debilitating medical condition (ORS 475.319). This includes a person who has been issued a valid RIC for his/her medical condition (ORS 475.309).

Registry Identification Card (RIC) - A document issued by the Oregon Health Authority that identifies a person authorized to engage in the medical use of marijuana and the person's designated primary caregiver, if any (ORS 475.302).

Statutory possession amounts - Up to six mature marijuana plants and 24 ounces of usable marijuana. The amount is limited to one ounce if the person has a qualifying felony-controlled substance conviction in the past five years (ORS 475.320).

Statutory grow site amounts - Grow site amounts, per patient, are generally limited to both of the following (ORS 475.320):

- (a) Up to six mature plants and up to 24 ounces of usable marijuana.

Tigard Police Department

Policy Manual

Medical Marijuana

- (b) Up to 18 marijuana seedlings or starts (a marijuana plant that has no flowers, is less than 12 inches in height and less than 12 inches in diameter) (OAR 333-008-0010).

Usable marijuana - The dried leaves and flowers of the plant Cannabis family Moraceae, and any mixture or preparation thereof, that are appropriate for medical use. Usable marijuana does not include the seeds, stalks and roots of the plant (ORS 475.302).

452.2 POLICY

It is the policy of the Tigard Police Department to prioritize resources to avoid making arrests related to marijuana that the arresting officer reasonably believes would not be prosecuted by state or federal authorities.

Oregon medical marijuana laws are intended to protect patients and their doctors from criminal and civil penalties that may deter the use of small amounts of marijuana by those suffering from debilitating medical conditions (ORS 475.300). However, Oregon's medical marijuana laws do not affect federal laws and there is no medical exception under federal law for the possession or distribution of marijuana. The Tigard Police Department will exercise discretion to ensure laws are appropriately enforced without unreasonably burdening both those individuals protected under Oregon law and the resources of the Department.

452.3 INVESTIGATION

Investigations involving the possession, delivery, production or use of marijuana generally fall into one of several categories:

- (a) Investigations when no person makes a medicinal claim.
- (b) Investigations related to patient cardholders.
- (c) Investigations related to patient non-cardholders.

452.3.1 INVESTIGATIONS WITH NO MEDICINAL CLAIM

In any investigation involving the possession, delivery, production or use of marijuana or drug paraphernalia where no person claims that the marijuana is used for medicinal purposes, the officer should proceed with a criminal investigation. A medicinal defense may be raised at any time, so officers should document any statements and observations that may be relevant to whether the marijuana was possessed or produced for medicinal purposes.

452.3.2 INVESTIGATIONS RELATED TO PATIENT CARDHOLDERS

Officers shall not arrest a cardholder for engaging in the medical use of marijuana with amounts at or below statutory possession amounts or statutory grow site amounts (ORS 475.306). Officers shall not arrest a caregiver for assisting a patient cardholder in the medical use of marijuana with amounts at or below statutory possession amounts or statutory grow site amounts (ORS 475.306).

Cardholders are required to possess a RIC when using or transporting marijuana at a location other than the cardholder's residence. However, officers should treat a person without a RIC in his/her possession as if it were in his/her possession if the RIC can be verified through an Oregon State Police Law Enforcement Data Systems (LEDS) query or other sources.

Tigard Police Department

Policy Manual

Medical Marijuana

452.3.3 INVESTIGATIONS RELATED TO PATIENT NON-CARDHOLDERS

Officers should not arrest a patient who does not have a RIC for possession or production of marijuana, or any other criminal offense in which possession or production of marijuana is an element, if the patient (ORS 475.319):

- (a) Is engaged in the medical use of marijuana.
- (b) Possesses an amount at or below statutory possession amounts or the amount cultivated is at or below statutory grow site amounts.

Officers should not arrest a person who does not meet the definition of a patient if the person is taking steps to obtain a RIC, possesses at or below statutory possession amounts or below statutory grow site amounts, and the person's medical use claim appears genuine under the circumstances (ORS 475.319).

452.3.4 ADDITIONAL CONSIDERATIONS

Officers should consider the following when investigating an incident involving marijuana possession, delivery, production or use:

- (a) Grow sites are regulated in the following manners (ORS 475.304):
 - 1. The Oregon Health Authority must have issued a marijuana grow site registration card for a site to be valid.
 - 2. The grow site registration card must be posted for each RIC holder for whom marijuana is being produced at a marijuana grow site.
- (b) Officers confiscating excess amounts of marijuana may not confiscate from a RIC holder usable marijuana or plants at or less than the statutory possession amounts that are allowed under the law (ORS 475.324).
- (c) Because enforcement of medical marijuana laws can be complex, time consuming and call for resources unavailable at the time of initial investigation, officers may consider submitting a report to the prosecutor for review, in lieu of making an arrest. This can be particularly appropriate when:
 - 1. The suspect has been identified and can be easily located at another time.
 - 2. The case would benefit from review by a person with expertise in medical marijuana investigations.
 - 3. Sufficient evidence, such as photographs or samples, has been lawfully obtained.
 - 4. Any other relevant factors, such as available department resources and time constraints.
- (d) Before proceeding with enforcement related to grow sites, officers should consider conferring with appropriate legal counsel.
- (e) Possession of a RIC pursuant to ORS 475.309 does not alone constitute probable cause to search the person or property of the cardholder or otherwise subject the person or property of the cardholder to inspection (ORS 475.323).
- (f) Medicinal marijuana investigations may lead to separate issues related to industrial hemp. Persons or entities who operate under the industrial hemp laws of Oregon must have the required industrial hemp license or agricultural hemp seed production permit issued by the Oregon Department of Agriculture (ORS 571.305). Officers may contact the Department of Agriculture's Commodity Inspection Division for information about industrial hemp sites and licensing compliance.

Tigard Police Department

Policy Manual

Medical Marijuana

452.3.5 EXCEPTIONS

Medical marijuana users are generally not exempt from other criminal laws and officers should enforce criminal laws not specifically covered by the Medical Marijuana Act appropriately. Officers may take enforcement action if the person (ORS 475.316):

- (a) Drives under the influence of marijuana as provided in ORS 813.010.
- (b) Engages in the medical use of marijuana in a place where the general public has access (ORS 161.015), in public view or in a correctional facility (ORS 162.135(2)), or in a youth correction facility (ORS 162.135(6)).
- (c) Delivers marijuana to any individual who the person knows is not in possession of a RIC.
- (d) Delivers marijuana for consideration to any individual, even if the individual is in possession of a RIC.
- (e) Manufactures or produces marijuana at a place other than a marijuana grow site authorized under ORS 475.304.

452.4 FEDERAL LAW ENFORCEMENT

Officers should provide information regarding a marijuana investigation to federal law enforcement authorities when it is requested by federal law enforcement authorities or whenever the officer believes those authorities would have a particular interest in the information.

452.5 SEIZURE AND DISPOSITION

The Property and Evidence Unit Supervisor shall ensure that marijuana, drug paraphernalia or other related property seized from a person engaged or assisting in the use of medical marijuana is not destroyed, harmed, neglected or injured while in the custody of the Property and Evidence Unit. The Property and Evidence Unit is not responsible for caring for live marijuana plants (ORS 475.323).

452.5.1 FINAL DISPOSITION

Upon authorization or disposition of the case, including all appeals, the Property and Evidence Unit shall hold medical marijuana and/or drug paraphernalia for thirty (30) days pending a possible court order to return such items. At the conclusion of the thirty (30) days, destruction of such items shall be completed in accordance with established procedures in policy 804.7 of this manual.

452.5.2 RETURN OF ITEMS SEIZED

Medical marijuana and drug paraphernalia in the custody of the Property and Evidence Unit shall not be returned to any person unless the department is served with a valid State or Federal court order. All court orders served on this department with respect to the return of items seized will be reviewed by the City Attorney before any actions are taken. Following the advice of the City Attorney's review, the Investigations Lieutenant will notify the Property and Evidence Unit to release items as specifically appropriate.

The Property and Evidence Supervisor may release marijuana and/or related drug paraphernalia to federal law enforcement authorities pursuant to valid court orders or written directives from the Investigations Lieutenant.

Foot Pursuit Policy

458.1 PURPOSE AND SCOPE

Foot pursuits are inherently dangerous and require common sense, sound tactics and heightened officer safety awareness. This policy sets forth guidelines to assist officers in making the decision to initiate or continue the pursuit of suspects on foot by balancing the objective of apprehending the suspect with the risk of potential injury to the officer, the public or the suspect.

458.1.1 POLICY

It is the policy of this department when deciding to initiate or continue a foot pursuit that officers must continuously balance the objective of apprehending the suspect with the risk and potential for injury to department personnel, the public or the suspect.

Officers are expected to act reasonably, based on the totality of the circumstances. Absent exigent circumstances, the safety of department personnel and the public should be the primary consideration when determining whether a foot pursuit should be initiated or continued. Officers must be mindful that immediate apprehension of a suspect is rarely more important than the safety of the public and department personnel.

458.1.2 DEFINITIONS

- (a) Foot pursuit: A pursuit on foot by a sworn member(s) where visual contact is maintained, and the suspect is readily capable of being apprehended by the pursuing sworn member(s).
 - 1. A foot pursuit should end when the sworn member(s) loses visual contact with the suspect for more than a brief period of time (1-2 seconds), and a tactical apprehension should begin.
 - 2. Sworn members can re-engage in a foot pursuit when he/she regains visual contact of the suspect and the suspect is readily capable of being apprehended.
- (b) Tactical apprehension strategies for the search and apprehension of the suspect could be accomplished by:
 - 1. Sworn member follows and maintains constant visual contact while waiting for additional resources for apprehension.
 - 2. Perimeter search
 - 3. Block search
 - 4. Cover/contact search
 - 5. K-9 track
 - 6. Activation of TNT
 - 7. Consider air support from Portland Police Bureau, if available

458.2 DECISION TO PURSUE

Officers may be justified in initiating a foot pursuit of any individual who the officer reasonably believes is about to engage in, is engaging in or has engaged in criminal activity. The decision to initiate or continue such a foot pursuit, however, must be continuously re-evaluated in light of the circumstances presented at the time.

Tigard Police Department

Policy Manual

Foot Pursuit Policy

Mere flight by a person who is not suspected of criminal activity shall not serve as the sole justification for engaging in an extended foot pursuit without the development of reasonable suspicion of the individual's involvement in criminal activity.

Deciding to initiate or continue a foot pursuit is a decision that an officer must make quickly and under unpredictable and dynamic circumstances. It is recognized that foot pursuits potentially place department personnel and the public at significant risk. Therefore, no officer or supervisor shall be criticized or disciplined for deciding not to engage in a foot pursuit because of the perceived risk involved.

If circumstances permit, surveillance and containment are generally the safest tactics for apprehending fleeing persons. In deciding whether to initiate or continue a foot pursuit, officers should continuously consider reasonable alternatives to pursuit based upon the circumstances and resources available, such as the following:

- (a) Containment of the area
- (b) Canine search
- (c) Saturation of the area with patrol personnel
- (d) Aerial support
- (e) Apprehension at another time when the identity of the suspect is known or there is information available that would likely allow for later apprehension, and the need to immediately apprehend the suspect does not reasonably appear to outweigh the risk of continuing the pursuit.

458.3 GUIDELINES FOR FOOT PURSUIT

Unless the officer reasonably believes that exigent circumstances exist (e.g., a serious threat to the safety of personnel or members of the public), Officers should consider alternatives to engaging in or continuing a foot pursuit under the following conditions:

- (a) When directed by a supervisor to terminate the foot pursuit. Such an order shall be considered mandatory.
- (b) When the officer is acting alone.
- (c) When two or more officers become separated, lose visual contact with one another, or obstacles separate them to the degree that they cannot immediately assist each other should a confrontation take place. In such circumstances, it is generally recommended that a single officer keep the suspect in sight from a safe distance and coordinate the containment effort.
- (d) The officer is unsure of his or her location and direction of travel.
- (e) When pursuing multiple suspects and the pursuing officers do not reasonably believe that they would be able to control the suspect should a confrontation occur.
- (f) When the physical condition of the officers renders them incapable of controlling the suspect if apprehended.
- (g) When the officer loses radio contact with WCCCA or with backup officers.
- (h) The suspect enters a building, structure, confined space or a wooded or otherwise isolated area and there are insufficient officers to provide backup and containment. The primary officer should consider discontinuing the pursuit and coordinating containment pending the arrival of sufficient officers.
- (i) The officer becomes aware of unanticipated or unforeseen circumstances that unreasonably increases the risk to the officer or the public.

Tigard Police Department

Policy Manual

Foot Pursuit Policy

- (j) The officer reasonably believes that the danger to the pursuing officer or public outweighs the objective of immediate apprehension.
- (k) The officer loses possession or function of his/her firearm or other essential equipment.
- (l) The officer or a third party is injured during the pursuit, requiring immediate assistance, and there are no other emergency personnel available to render assistance.
- (m) The suspect's location is no longer definitely known.
- (n) The identity of the suspect is established or other information exists that will allow for the suspect's apprehension at a later time, and it reasonably appears that there is no immediate threat to department personnel or the public if the suspect is not immediately apprehended.
- (o) The officer's ability to safely continue the pursuit is impaired by inclement weather, darkness or other conditions.

458.4 RESPONSIBILITIES IN FOOT PURSUITS

458.4.1 INITIATING OFFICER RESPONSIBILITIES

- (a) Once the foot pursuit has been initiated, the pursuing sworn member should notify WCCCA and attempt to broadcast the following information:
 - 1. The suspect's direction of travel.
 - 2. Whether the suspect is armed, if known.
 - 3. Number of fleeing suspects.
 - 4. The reason for the pursuit.
 - 5. If know, the identification of the suspect, or a physical description.
- (b) Generally, the pursuing sworn member should not attempt to overtake the fleeing suspect but keep the suspect in sight until sufficient cover is available to take him/her into custody. The following are techniques to consider:
 - 1. Following and maintaining a safe distance.
 - 2. Paralleling the suspect.
 - 3. Cover/contact pursuits (two sworn members).
 - 4. Following a different route than the suspect (i.e., wide corners).
 - 5. Using available cover (i.e., parked cars).
- (c) The primary sworn member should attempt to immediately coordinate with secondary sworn members to establish a perimeter in the area to contain the suspect. Secondary sworn members may assist with the coordination if the primary sworn member is unable to do so.
- (d) Complete all applicable reports needed to document the incident.

458.4.2 FOOT PURSUIT RESTRICTIONS

- (a) The pursuing sworn member, if appropriate, will attempt tactical apprehension strategies. Sworn members will not engage in or continue in a foot pursuit when instructed not to by a supervisor. Sworn members should not engage in or continue foot pursuits in the following circumstances:

Tigard Police Department

Policy Manual

Foot Pursuit Policy

1. Armed suspects unless, in extreme circumstances, no other alternative strategy is feasible and a delay in the apprehension of the suspect would present a threat of death or serious physical injury to others.
2. In the event that a suspect enters a building, structure, wooded area or otherwise isolated area sworn members, unless in extreme circumstances, will not pursue suspects into these areas without sufficient cover present.
3. If the sworn member believes that the danger to the pursuing sworn member or the public outweighs the necessity for immediate apprehension.
4. If the sworn member is disarmed.
5. If the sworn member loses contact with WCCCA and no other means of communication exists.
6. If the sworn member loses visual contact of the suspect(s) for more than a brief period of time (1-2 seconds).
7. The sworn member is not familiar with and is unable to communicate the direction of travel or location sufficient enough for other sworn members to assist.
8. The sworn member is unsure of his/her location.
9. If instructed to do so by a supervisor.

458.4.3 SUPERVISOR RESPONSIBILITY

- (a) Respond to the location and continually manage the pursuit.
- (b) Ensure the perimeter is set up appropriately.
- (c) Consider the tactical apprehension strategies.
- (d) Terminate pursuits that are not in compliance with this policy.
- (e) Following each incident, debrief with the sworn members involved and, if feasible, his/her shifts.

458.4.4 WCCCA RESPONSIBILITIES

Upon being notified or becoming aware that a foot pursuit is in progress, communication personnel shall, as soon as practical, notify the field supervisor and provide available information. Communication personnel are also responsible for the following:

- (a) Clear the radio channel of non-emergency traffic.
- (b) Repeat the transmissions of the pursuing officers as needed.
- (c) Ensure that a field supervisor is notified of the pursuit.
- (d) Relay all pertinent information to responding personnel.
- (e) Contact additional resources as directed by a supervisor.
- (f) Coordinate response of additional resources to assist with the foot pursuit.

458.5 REPORTING

The initiating officers shall complete the appropriate crime/arrest reports documenting, at minimum, the following:

- (a) The reason for initiating the foot pursuit.
- (b) The identity of involved personnel.
- (c) The course and approximate distance of the pursuit.

Tigard Police Department

Policy Manual

Foot Pursuit Policy

- (d) Whether a suspect was apprehended as well as the means and methods used.
 - 1. Any use of force shall be reported and documented in compliance with the Department Use of Force Policy.
- (e) Any injuries or property damage.

Assisting officers taking an active role in the apprehension of the suspect shall complete supplemental reports as necessary or as directed.

In any case in which a suspect is not apprehended and there is insufficient information to warrant further investigation, a supervisor may authorize that the initiating officers need not complete a formal report.

Chapter 5 - Traffic Operations

Traffic Function and Responsibility

500.1 PURPOSE AND SCOPE

The ultimate goal of traffic law enforcement is to reduce traffic collisions. This may be achieved through the application of such techniques as geographic/temporal assignment of personnel and equipment and the establishment of preventive patrols to deal with specific categories of unlawful driving behavior. Traffic enforcement techniques are based on accident data, enforcement activity records, traffic volume, and traffic conditions. This department provides enforcement efforts toward violations, not only in proportion to the frequency of their occurrence in accident situations, but also in terms of traffic-related needs.

500.2 TRAFFIC OFFICER DEPLOYMENT

Several factors are considered in the development of deployment schedules for officers of the Tigard Police Department. Information provided by the Department of Motor Vehicles and Oregon Department of Transportation is a valuable resource for traffic accident occurrences and therefore officer deployment. Some of the factors for analysis include:

- Location
- Time
- Day
- Violation factors

All officers assigned to patrol or traffic enforcement functions will emphasize enforcement of accident causing violations during high accident hours and at locations of occurrence. All officers will take directed enforcement action on request, and random enforcement action when appropriate against violators as a matter of routine. All officers shall maintain high visibility while working general enforcement, especially at high accident locations.

Other factors to be considered for deployment are citizen requests, construction zones or special events.

500.3 ENFORCEMENT

Enforcement actions are commensurate with applicable laws and take into account the degree and severity of the violation committed. This department does not establish ticket quotas and the number of arrests or citations issued by any officer shall not be used as the sole criterion for evaluating an officer's overall performance. The visibility and quality of an officer's work effort will be commensurate with the philosophy of this policy. Officers attempting to enforce traffic laws shall be in Tigard Police Department uniform or shall conspicuously display an official identification card showing the officer's lawful authority (ORS 810.400). Several methods are effective in the reduction of collisions:

500.3.1 WARNINGS

Warnings or other non-punitive enforcement actions may be considered in each situation and substituted for arrests or citations when circumstances warrant, especially in the case of inadvertent violations.

Tigard Police Department

Policy Manual

Traffic Function and Responsibility

500.3.2 CITATIONS

Citations should be issued when an officer believes it is appropriate. It is essential that officers fully explain the rights and requirements imposed on motorists upon issuance of a citation for a traffic violation. Officers should provide the following information at a minimum:

- (a) Explanation of the violation or charge.
- (b) Court appearance procedure including the optional or mandatory appearance by the motorist.
- (c) Notice of whether the motorist can enter a plea and pay the fine by mail or at the court.

Officers at the scene of a traffic accident and, based upon the officer's personal investigation, having reasonable grounds to believe that a person involved in the accident has committed a traffic offense in connection with the accident, shall issue the person a citation for that offense (Oregon Revised Statutes 810.410(4)).

500.3.3 PHYSICAL ARREST

Officer may arrest or issue a citation to a person for a traffic crime at any place within the state. Generally, physical arrests are limited to major traffic offenses such as:

- (a) Driving Under the Influence of Intoxicants.
- (b) Hit and Run.
- (c) Attempting to Elude.
- (d) Reckless Driving with extenuating circumstances.
- (e) Situations where a violator refuses or cannot satisfactorily identify him/herself and therefore cannot be issued a citation.

500.4 SUSPENDED OR REVOKED DRIVERS LICENSES

If an officer contacts a traffic violator for driving on a suspended or revoked license, the officer may issue a traffic citation pursuant to Oregon Revised Statutes 810.410.

Officers should attempt to interview the violator to obtain evidence that the violator knew their license was suspended. Ask if the violator is still living at the address on file with DMV and if not, how long since they moved and why they haven't notified DMV of their new address.

If a computer check of a traffic violator's license status reveals a suspended or revoked drivers license and the traffic violator still has his or her license in possession, the license shall be seized by the officer and the violator may also be cited for Failure to Return a Suspended License if evidence shows they knew they were suspended (Oregon Revised Statutes 809.500).

500.5 REFLECTORIZED VESTS

In order to reduce the danger to employees exposed to the hazards of approaching traffic, reflectORIZED vests are provided to increase the visibility of employees. Although intended primarily for traffic-related use, reflectORIZED vests should be worn at any time increased visibility would improve the safety and/or efficiency of the employee.

500.5.1 CARE AND STORAGE OF REFLECTORIZED VESTS

A supply of reflectORIZED vests will be maintained for replacement of damaged or unserviceable vests. When a need exists to replenish the equipment room supply,

Tigard Police Department

Policy Manual

Traffic Function and Responsibility

notification should be made to the Training Officer. Additional vests will then be obtained for this purpose.

500.5.2 GUIDELINES FOR USE OF REFLECTORIZED VESTS

It is intended that reflectorized vests be worn at any time an officer anticipates prolonged exposure to the hazards of approaching traffic created by assignment to duties such as traffic control and accident investigation. Officers may use their discretion regarding the wearing of vests during traffic stops based on the duration and hazards. Use is mandatory while directing traffic, during accident investigations or other non-emergency activities in or adjacent to the roadway; and when directed to do so by a supervisor. Vests maintained in the investigation units may be used any time a plain-clothes officer might benefit from being easily identified as a police officer.

Traffic Collision Reporting

502.1 PURPOSE AND SCOPE

The Tigard Police Department prepares traffic collision reports in compliance with Oregon Revised Statutes 810.460 relating to reports of traffic accidents to the Oregon Department of Transportation and, as a public service makes traffic collision reports available to the community with some exceptions.

502.2 RESPONSIBILITY

The Traffic Sergeant will be responsible for proper investigation and reporting of motor vehicle collisions. Traffic collisions will be documented using the Oregon Police Traffic Crash Report. The Traffic Sergeant will receive all changes in the state manual and ensure conformity with this policy.

502.3 TRAFFIC COLLISION REPORTING

All traffic collision reports taken by members of this department shall be forwarded to the shift Sergeant for approval and data entry into the Records Management System. The Traffic Sergeant will be responsible for monthly and quarterly reports on traffic collision statistics to be forwarded to the Operations Division Commander, or other persons as required. The Records Section will be responsible for monthly reports on traffic collision statistics to be forwarded to the Operations Division Commander and the Oregon Traffic Safety Commission.

502.4 REPORTING SITUATIONS

502.4.1 TRAFFIC COLLISIONS INVOLVING DEPARTMENT EMPLOYEES

When an employee of this department, either on-duty or off-duty, is involved in a traffic collision within the City limits of Tigard resulting in a serious injury or fatality, the Traffic Sergeant or the Patrol Lieutenant may notify the Oregon State Police for assistance.

502.4.2 TRAFFIC COLLISIONS ON PRIVATE PROPERTY

Oregon Police Traffic Crash Reports shall be taken for collisions occurring on private property when there is a death or injury to any person involved or a hit and run that meets the threshold for State reporting requirements. All other hit and run offenses shall be documented on an Incident Report. This policy does not prohibit any supervisor from directing an officer to complete an Oregon Police Traffic Crash Report at their discretion. Officers are always encouraged to investigate all collisions when time and circumstances permit.

502.4.3 TRAFFIC COLLISIONS ON ROADWAYS OR HIGHWAYS

The Oregon Police Traffic Crash Reports shall be taken when a collision occurs on a roadway or highway within the City limits of this jurisdiction in the following cases:

- (a) There is a death, or injury to any person involved in the collision.
- (b) The collision is initially reported by a garage operator who has received a vehicle involved in a serious collision or exhibiting evidence of having been struck by a bullet (Oregon Revised Statutes 822.600).

Tigard Police Department

Policy Manual

Traffic Collision Reporting

- (c) The collision meets the criteria for operators to submit an Oregon Traffic Accident and Insurance Report to the Department of Motor Vehicles.
- (d) Any vehicle involved in the crash is disabled so that it cannot be driven or must be removed by a tow truck.

502.4.4 TOWING VEHICLES INVOLVED IN TRAFFIC COLLISIONS

A collision report will be required if a vehicle is damaged in a collision and a tow truck is necessary. Towing of a vehicle from a collision scene at the request of the driver when the vehicle would not otherwise be in need of towing, does not require a traffic collision report under this policy unless the incident meets the criteria in Policy Manual § 502.4.3

502.5 NOTIFICATION OF TRAFFIC DIVISION SUPERVISION

In the event of a serious injury or death related traffic collision that does not involve a criminal act (such as a single occupant collision), the on-duty supervisor shall notify the Traffic Sergeant and request a Major Collision Investigator to investigate the traffic collision. The OSP Crime Lab may also be requested to assist with a fatal accident.

502.6 CRASH INVESTIGATION PROCEDURES

Any City of Tigard police employee involved in a crash with a departmental owned or leased vehicle will leave all involved vehicles in place unless such action creates an unwarranted hazard. If vehicles must be moved, their positions shall be marked on the pavement first.

Employees involved in crashes shall immediately notify dispatch and the on-duty supervisor. The on-duty supervisor shall conduct a preliminary investigation into the circumstances surrounding the incident and then determine an appropriate course of action. The supervisor who is investigating the crash or damage must complete an RFA with all pertinent information before leaving for the day. On the RFA email, you shall also courtesy copy #Risk, the Lieutenant, and Sergeant. If the officer involved crash is severe enough, i.e. injuries, death or of a high high dollar loss, Risk Management shall be notified by phone. Do not close down the scene until it is been determined that an insurance adjuster will arrive. That will notify everyone of the impending vehicle actions each agency must accomplish. Please include a note to let them know if the case is part of a felony crime and it is anticipated that a grand jury will be hearing the case. Photographs of the scene and vehicles involved shall be taken and copies shall be submitted to the Risk Manager with any reports or memos.

A Tigard Police supervisor shall investigate crashes involving Tigard police vehicles. If the crash results in injuries that require any hospital emergency room treatment to any person, the Division Commander will be notified. If the crash results in a fatality, the Division Commander, the Chief of Police, and the Washington County District Attorney will be notified. The Crash Analysis Reconstruction Team (CART) will also be called out.

In the event the crash does not meet the State reporting criteria and it does not involve damage to a second party, it will still be investigated by the duty supervisor and documented using a City of Tigard Vehicle Incident Report and memorandum to the Division Commander determining whether the crash was "preventable" or "not preventable". Once completed and reviewed by the Division Commander, all reports will be distributed to Risk Management for insurance purposes. The involved employee and any passengers in the department vehicle will prepare complete written reports or memoranda at the direction of their supervisor concerning the crash. If a prisoner is being transported when the crash occurs, they will be interviewed and their statements recorded by the supervisor investigating the crash, to include documentation of any injuries or the lack thereof.

Tigard Police Department

Policy Manual

Traffic Collision Reporting

All reports will be submitted to the Watch Commander prior to the end of the shift or as soon as practical in the event of hospitalization.

If the crash involves a vehicle owned by the City, the appropriate department will be promptly advised through inter-departmental City distribution.

Damage to vehicles, caused by other than a crash, is to be brought to the immediate attention of the shift supervisor. This includes, but is not limited to, damage may be caused by a prisoner, by an officer running over something, or when an officer uses the PIT maneuver to terminate a pursuit. A memorandum to the Division Commander detailing the damage shall be written by the employee involved, attached to any other related police reports from the incident. It will be forwarded to the Watch Commander and Division Commander for repair purposes. Damage as described above does not fall under the procedures outlined in Section V., "Crash Review Board." Negligence may be cause for disciplinary action.

502.7 CRASH REVIEW BOARD

The following procedures apply when department vehicles are damaged or cause other vehicles to be damaged.

502.7.1 DEFINITIONS

Crash - Any incident involving a departmental vehicle resulting in property damage, injury or death

502.7.2 REVIEW BOARD

To establish the Review Board, the Watch Commander will appoint five members to the Board; at least one shall be of the involved employee's peer group. The involved employee has 24 hours to eliminate two names from the Board. Of the remaining members, the Watch Commander will designate the chairperson.

Hearings by the Crash Review Board shall be informal. The involved employee may testify in his/her own behalf and may call witnesses. Hearings shall be conducted privately. Crash Review Board decisions will be by majority vote. All findings will be signed by all members with indication of concurrence or dissent.

The Crash Review Board shall make one of the following findings:

- (a) The crash was preventable
- (b) The crash was non preventable

A report of the Crash Review Board shall be sent to the Division Commander.

Personnel may request to waive the Crash Review Board process and have the matter heard by the Division Commander; however, the Division Commander has the authority to refer any crash to a Crash Review Board.

Vehicle Towing

510.1 PURPOSE AND SCOPE

This policy provides the procedures for towing a vehicle by or at the direction of the Tigard Police Department. The authority to tow is vested in Oregon Revised Statutes 809.720.

510.1.1 VEHICLE IMPOUND REQUIREMENTS

Officers may tow vehicles as a result of the following circumstances:

- (a) Abandoned vehicles.
- (b) Vehicles left standing in or partially blocking the roadway and constituting a hazard.
- (c) For safekeeping in the event the owner is arrested, cannot be located, or is incapable of caring for the vehicle.
- (d) As a recovered stolen vehicle.
- (e) A vehicle disabled in a collision.
- (f) As evidence pursuant to a criminal investigation.
- (g) When probable cause exists to believe the vehicle is subject to forfeiture under the Oregon Criminal Forfeiture Law, HB 3457, 2005.

Officers shall tow vehicles when the operator is cited for one of the following traffic crimes/violations and a public safety or community caretaking risk would result if the vehicle were left at the scene (Oregon Revised Statutes 809.720 (Community caretaking exceptions following this section)):

- (a) Driving while suspended or revoked (Oregon Revised Statutes 811.175; 811.182).
- (b) Operating without driving privileges, or in violation of license restrictions (Oregon Revised Statutes 807.010).
- (c) Driving while under the influence of intoxicants (Oregon Revised Statutes 813.010).
- (d) Driving uninsured (Oregon Revised Statutes 806.010).

510.1.2 COMMUNITY CARETAKING STANDARD

Vehicles shall not be towed and/or impounded under the authority of ORS 809.720 under any of the following circumstances:

- The vehicle is parked on private property on which the registered owner or operator is legally residing.
- The registered owner is present in the vehicle at the time of the stop and can lawfully remove the vehicle or allow a passenger to do so with a valid driver's license and proof of liability insurance.
- The vehicle is legally parked at a time and place where the likelihood of it being subject to theft and/or vandalism is remote and traffic or public safety is not affected. The registered owner must be present and make this request, absolving the City of any consequences for leaving the vehicle unattended. Except the vehicle may be towed for community caretaking purposes if the officer has reason to believe that the person cited will remain or return to drive the car unlawfully if it is not impounded. Articulate

Tigard Police Department

Policy Manual

Vehicle Towing

facts to support this decision such as statements from the operator or a history of similar violations must be included in the tow report.

Note: The community caretaking concerns shall be thoroughly documented in a report. In all cases where a vehicle is impounded or towed, the officer shall make every effort to ensure the safety of all of the vehicle occupants by providing transportation or communication necessary to avoid stranding any occupant where their safety or security may be in question.

510.2 RESPONSIBILITIES

The responsibilities of those officers impounding a vehicle are as follows.

510.2.1 ABANDONED VEHICLES OR VEHICLES CONSTITUTING A HAZARD

Vehicles may be considered abandoned only after following the procedures in Policy Manual § 524 and finding the vehicle to be parked in violation of those provisions.

Vehicles constituting a hazard may be impounded if the owner cannot be located.

Officers impounding a vehicle shall complete a report and have it signed by the tow truck operator. The report shall be submitted to the Records Section as soon as practical after the vehicle is towed.

Records Section personnel shall promptly enter pertinent data from the completed report into LEDS.

Once the report is approved and forwarded to the Records Section, it shall be placed into the case file immediately to be available for release or for information should inquiries be made.

510.2.2 REMOVAL OF VEHICLE DISABLED IN A TRAFFIC COLLISION

When a vehicle has been involved in a traffic collision and must be removed from the scene, the officer shall have the driver select a towing company, if possible, and shall relay the request for the specified towing company to the dispatcher. When there is no preferred company requested, a company will be selected from the no preference towing company list in WCCCA.

If the owner is incapacitated, or for any reason it is necessary for the department to assume responsibility for a vehicle involved in a collision, the officer shall request the dispatcher to call a no preference towing company. The officer will then have the vehicle towed to the tow company's storage lot for safekeeping.

510.2.3 DRIVING A NON-CITY VEHICLE

Vehicles which have been towed by or at the direction of the Police Department should not be driven by police personnel unless it is necessary to move the vehicle a short distance to eliminate a hazard, to prevent the obstruction of a fire hydrant, or to comply with posted signs.

510.2.4 DISPATCHER'S RESPONSIBILITIES

Upon receiving a request for towing, the dispatcher shall promptly contact the Tow Desk. The officer shall be advised when the request has been made and the towing service has been dispatched.

Tigard Police Department

Policy Manual

Vehicle Towing

510.3 TOWING SERVICES

The City of Tigard uses the towing services as contracted by the Washington County Tow Desk. These services will be used in the following situations:

- (a) When a vehicle is being held as evidence in connection with an investigation
- (b) Under those circumstances, when applicable, listed in Section 510.1.1.

Any complaint alleging a violation of the agreement or other misconduct by a tow operator shall be referred to the police department for investigation. The department may periodically review the performance of each authorized tow operator.

510.3.1 NO PREFERENCE TOW SERVICES

The department will assist citizens by calling any towing company desired. If the citizen has no preference and requests towing service, the department will contact the Washington County Tow Desk.

All officers are specifically prohibited from directly or indirectly soliciting for or recommending any garage or tow service.

510.4 IMPOUND AT ARREST SCENES

Whenever a person in charge or in control of a vehicle is arrested, it is the policy of this department to provide reasonable safekeeping by storing the arrestee's vehicle subject to the exceptions described below. However, the vehicle shall be stored whenever it is needed for the furtherance of an investigation or prosecution of the case or when the community caretaker doctrine would reasonably suggest that the vehicle should be stored, for example, the vehicle would present a traffic hazard if not removed or, due to a high crime area, the vehicle would be in jeopardy of theft or damage if left at the scene.

- Traffic related warrant arrest
- Situations where the vehicle was not used to further the offense for which the driver was arrested
- Whenever the licensed owner of the vehicle is present, willing and able to take control of any vehicle not involved in criminal activity.
- Whenever the vehicle otherwise does not need to be stored and the owner requests that it be left at the scene.

In such cases, the handling employee shall note in the report that the owner was informed that the department will not be responsible for theft or damages.

510.5 VEHICLE INVENTORIES

The contents of all impounded vehicles shall be inventoried in accordance with the following procedure:

- (a) An inventory of personal property and the contents of open containers will be conducted throughout the passenger and engine compartments of the vehicle including, but not limited to, the glove box, other accessible areas under or within the dashboard area, any pockets in the doors or in the back of the front seat, in any console between the seats, under any floor mats and under the seats.

Tigard Police Department

Policy Manual

Vehicle Towing

- (b) In addition to the passenger and engine compartments as described above, an inventory of personal property and the contents of open containers will also be conducted in the following locations:
 - 1. Any other type of unlocked compartments that are a part of the vehicle including, but not limited to, unlocked glove compartments, unlocked vehicle trunks and unlocked car top containers; and
 - 2. Any locked compartments including, but not limited to, locked glove compartments, locked vehicle trunks, locked hatchbacks and locked car-top containers, provided the keys are available and are to be released with the vehicle to the third-party towing company or an unlocking mechanism for such compartment is available within the vehicle.
- (c) Closed containers located either within the vehicle or any of the vehicle's compartments will not be opened for inventory purposes except for the following, which shall be opened for inventory: wallets, purses, coin purses, fanny packs, personal organizers, briefcases or other closed containers designed for carrying money or small valuables, or closed containers which are designed for hazardous materials.
- (d) Other closed containers shall be opened and inventoried if the owner acknowledges they contain cash in excess of \$10, valuables or a hazardous material.
- (e) Any valuables, to include cash in excess of \$10 or property valued at more than \$200, located during the inventory process will be listed on a property receipt and stored in this agency's property/evidence room. A copy of the property receipt will either be left in the vehicle or tendered to the person in control of the vehicle if such person is present.
- (f) The inventory is not a search for evidence of a crime, however, officers shall seize evidence or contraband located during the inventory. Items should be scrutinized to the extent necessary to complete the inventory.

These inventory procedures are for the purpose of protecting an owner's property while in police custody, to provide for the safety of officers, and to protect the department against fraudulent claims of lost, stolen, or damaged property.

510.6 RELEASE CRITERIA

A vehicle impounded under this section shall be released to a person entitled to lawful possession of the vehicle upon compliance with the following:

- (a) Proof that a person with valid driving privileges will be operating the vehicle.
- (b) Proof of compliance with financial responsibility requirements for the vehicle.
- (c) Payment of the Tigard Police Department administrative fee and any towing and storage charges.
- (d) A security interest holder in the vehicle is not required to comply with (a) and (b) and may obtain release by paying the administrative fee, towing and storage fees.

510.7 SECURITY OF VEHICLES AND PROPERTY

Unless it would cause an unreasonable delay in the completion of a vehicle impound/storage or create an issue of officer safety, officers should make reasonable accommodations to permit a driver/owner to retrieve small items of value or personal need (e.g. cash, jewelry, cell phone, prescriptions) which are not considered evidence or contraband.

Tigard Police Department

Policy Manual

Vehicle Towing

If a search of a vehicle leaves the vehicle or any property contained therein vulnerable to unauthorized entry, theft or damage, search personnel shall take such steps as are reasonably necessary to secure and/or preserve the vehicle or property from such hazards.

510.8 VEHICLE SEARCHES

Vehicles may be searched when one or more of the following conditions are met:

- (a) When probable cause to search the vehicle exists.
- (b) With consent of the operator.
- (c) Incident to an arrest of the occupants of the vehicle.
- (d) To search for weapons.
- (e) When necessary to examine the vehicle identification number or to determine the ownership of the vehicle.
- (f) Under emergency circumstances not otherwise enumerated above.
- (g) Pursuant to a valid search warrant.

510.9 NOTICE TO OWNERS

Once the vehicle is impounded, Records personnel shall send a certified letter to the legal and registered owners, as required by Oregon Revised Statutes 819.180 and Tigard Municipal Code 7.60.

Vehicle Impound Hearings

512.1 PURPOSE AND SCOPE

This policy establishes a procedure for the requirement to provide vehicle storage or impound hearings.

512.2 IMPOUND HEARING

When a vehicle is impounded by any member of the Tigard Police Department, a hearing will be conducted upon the request of the registered or legal owner of the vehicle or their agent to contest the validity of the impoundment. A request must be made within five calendar days of the impoundment. The request must be made in writing. The request must be made to the Tigard Municipal Court, 13125 SW Hall Blvd., Tigard, Oregon 97223.

512.3 VEHICLE IMPOUNDMENT INSTRUCTIONS

Please see Attachment 1, [Vehicle Impoundment Instructions](#).

Impaired Driving and Evidence Collection

514.1 PURPOSE AND SCOPE

This policy explains the procedures to be followed while collecting evidence to establish the blood alcohol level of drivers arrested for driving while intoxicated and unconscious drivers involved in traffic collisions who are suspected of driving while intoxicated.

514.2 CHEMICAL TESTING

Most blood, breath, and urine tests will be administered within the Police Department or the jail. If a suspect is hospitalized, a blood sample may be taken at the hospital. A suspect who is unable to submit to a chemical test because of any of the following shall not be considered as refusing to comply with the provisions of Oregon Revised Statutes 813.100:

- Because of the inability of the Department to furnish a selected test
- If there are verifiable medical reasons for non-compliance
- If an attending physician refuses to allow it

514.2.1 TESTING OF CONSCIOUS SUSPECT AT A HOSPITAL

Based on probable cause, the officer should place the hospitalized but conscious suspect under arrest in the presence of hospital personnel and advise the attending physician of the intention to administer a chemical test to the suspect. Unless the attending physician objects for medical reasons, the blood or urine samples will be collected in the prescribed manner. If the only charge against the person is DUI, the Implied consent law does not authorize the taking of blood without the person's consent

If the officer has probable cause to believe the person has committed some other felony such as negligent homicide, manslaughter or vehicular assault and the person's blood alcohol level is relevant to the offense, the officer may take a blood sample without consent, based on probable cause and exigent circumstances.

514.2.2 TESTING OF UNCONSCIOUS DRIVER AT A HOSPITAL

When there is probable cause to believe that an unconscious driver is under the influence, there is no method of informing the individual of the arrest; nor can there be any verbal consent on the part of the suspect to allow one of the two possible chemical tests at the hospital to determine his/her blood alcohol level. As the person is incapable of expressly consenting the officer may obtain a chemical test without the requirement of consent. The officer shall advise the attending physician of the intention to collect a sample of the suspect's blood as evidence. If the physician does not object based on medical reasons, the blood will be collected in the prescribed manner (Oregon Revised Statutes 813.140(2)).

514.2.3 EXIGENT CIRCUMSTANCES

Under the emergency doctrine, the level of influence of an intoxicant can be important evidence. Since it is not of a permanent nature, it will be lost if not seized immediately. Policy Manual §§ 514.21 and 514.22 of this chapter come within the guidelines of exigent circumstances. If a second sample of blood, taken at a later time, is required to demonstrate

Tigard Police Department

Policy Manual

Impaired Driving and Evidence Collection

whether the level of intoxicants is increasing or decreasing over time, a search warrant will most likely be required.

514.2.4 URINE TESTS

Oregon's Implied Consent Law also provides that drivers have similarly consented to a chemical test of their urine for the purposes of determining the presence of controlled substances or an inhalant, if the person is arrested for Driving Under the Influence of Intoxicants and:

- (a) A person takes a breath test and discloses a blood alcohol content of less than .08%,
or
- (b) The person is involved in an accident resulting in injury or property damage. Under this paragraph, an officer may request a urine test regardless of whether a breath test was offered or taken.

The officer may not request the urine test unless certified as having taken the eight (8) hour class: Recognition of Drug Impaired Driving.

514.2.5 COLLECTING BLOOD EVIDENCE

Only a certified phlebotomy technician, licensed physician, or nurse may withdraw a blood sample. Whether such evidence is collected at the department or the jail, the withdrawal of the blood sample shall be witnessed by the assigned officer. On rare occasions a situation might arise where a medical doctor or registered nurse would be asked to obtain blood samples from a suspect.

514.2.6 COLLECTING BREATH AS EVIDENCE

If the arrested person chooses a breath test and it can be accomplished without undue delay, the arrested person shall first be transported to the nearest location where the intoxilyzer can be administered. An officer certified in the use of the intoxilyzer will record the blood alcohol level by obtaining samples of the suspect's breath.

514.2.7 COLLECTING URINE AS EVIDENCE

If the arrested person's urine is necessarily collected as evidence, the procedure will be as follows:

- (a) The specimen container shall be marked accordingly with the suspect's name, case number, and the name of the witnessing officer.
- (b) The urine kit shall then be placed in the evidence refrigerator to await transportation to the crime laboratory.
- (c) The person shall be given privacy and may not be observed by an officer when producing the sample (ORS 813.131(3)).

514.2.8 IMPLIED CONSENT

Oregon Revised Statutes 813.100 provides that licensed drivers have agreed as a condition of receiving a license to drive that, based on probable cause that they were driving while under the influence of intoxicants, they will consent to a chemical test of their breath, or of their blood if they are receiving medical care at a medical facility immediately after a motor vehicle accident. Normally the test will be a breath test conducted at the department or at the jail.

Tigard Police Department

Policy Manual

Impaired Driving and Evidence Collection

If an arrested person refuses a breath test after being informed of the consequences and rights pertaining to the test, no other test will be given. If the arrested person takes a breath test, they may request to have an additional chemical test at their own expense. The department will make a reasonable attempt to accommodate that request if made.

If the suspected intoxicated person has been involved in an accident and is at the hospital receiving treatment, and therefore unable to take a breath test, an officer may obtain a chemical test of the blood to determine the amount of alcohol in any person's blood or a test of the person's blood or urine, or both, to determine the presence of a controlled substance or an inhalant in the person as provided in the following:

- (a) If, when requested by an officer, the person expressly consents to such a test
- (b) From a person without the person's consent if:
 - 1. The officer has probable cause to believe that the person was driving while under the influence of intoxicants and that evidence of the offense will be found in the person's blood or urine; and
 - 2. The person is unconscious or otherwise rendering the person incapable of expressly consenting to the test or the test requested (Oregon Revised Statutes 813.140)

Traffic Citations

516.1 PURPOSE AND SCOPE

This policy outlines the responsibility for traffic citations, the procedure for dismissal, correction, and voiding of traffic citations.

516.2 RESPONSIBILITIES

The Traffic Sergeant shall be responsible for the development and design of all Department traffic citations in compliance with state law and the Judicial Council.

The Records Section shall be responsible for the supply and accounting of all traffic citations issued to employees of this department.

516.3 DISMISSAL OF TRAFFIC CITATIONS

Employees of this department do not have the authority to dismiss a citation once it has been issued. Only the court has the authority to dismiss a citation that has been issued. Any request from a recipient to dismiss a citation shall be referred to the Traffic Unit Manager. Upon a review of the circumstances involving the issuance of the traffic citation, the Traffic Unit Manager may request the Operations Division Commander to recommend dismissal of the traffic citation. If approved, the citation will be forwarded to the appropriate court with a request for dismissal. All recipients of traffic citations whose request for the dismissal of a traffic citation has been denied shall be referred to the appropriate court.

Should an officer determine during a court proceeding that a traffic citation should be dismissed in the interest of justice or where prosecution is deemed inappropriate the officer may request the court to dismiss the citation. Upon dismissal of the traffic citation by the court, the officer shall notify his/her immediate supervisor of the circumstances surrounding the dismissal and shall complete any paperwork as directed or required. The citation dismissal shall then be forwarded to the Operations Division Commander for review.

516.4 VOIDING TRAFFIC CITATIONS

Voiding a traffic citation may occur when a traffic citation has not been completed or where it is completed, but not issued. All copies of the citation shall be presented to a supervisor, with a memo of explanation, to approve the voiding of the citation. The citation and copies of the memo shall then be forwarded to the employee's Division Commander.

516.5 CORRECTION OF TRAFFIC CITATIONS

When a traffic citation is issued and in need of correction, the officer issuing the citation shall submit a letter of amendment to the Records Section to be sent to the recipient of the citation and a letter requesting a specific correction to his/her immediate supervisor.

516.6 DISPOSITION OF TRAFFIC CITATIONS

The court and file copies of all traffic citations issued by members of this department shall be forwarded to the employee's immediate supervisor for review. The citation copies shall then be filed with the Records Section.

Upon separation from employment with the this department, all employees issued traffic citation books shall return any unused citations to the Records Section.

Tigard Police Department

Policy Manual

Traffic Citations

516.7 JUVENILE CITATIONS

Completion of traffic citation forms for juveniles may vary slightly from the procedure for adults. The juvenile's age, place of residency, and the type of offense should be considered before issuing the juvenile a citation.

Disabled Vehicles

520.1 PURPOSE AND SCOPE

Public safety, and the Tigard Police Department's commitment to service, requires that officers place a high priority on assisting disabled motorists. This policy provides guidelines for achieving that objective.

520.2 OFFICER RESPONSIBILITY

When an on-duty officer observes a disabled vehicle on the roadway, the officer should make a reasonable effort to provide assistance. If that officer is assigned to a call of higher priority, the dispatcher should be advised of the location of the disabled vehicle and the need for assistance. The dispatcher should then assign another available officer to respond for assistance as soon as practical.

520.3 EXTENT OF ASSISTANCE

In most cases, a disabled motorist will require assistance. After arrangements for assistance are made, continued involvement by department personnel will be contingent on the time of day, the location, the availability of departmental resources, and the vulnerability of the disabled motorist.

520.3.1 MECHANICAL REPAIRS

Department personnel shall not make mechanical repairs to a disabled vehicle. The use of push bumpers to relocate vehicles to a position of safety is not considered a mechanical repair.

Due to the likelihood of damage to the PIT bars, patrol vehicles will not be used to push vehicles other than in emergencies.

Abandoned Vehicles

524.1 PURPOSE AND SCOPE

This policy provides procedures for the marking, recording, and storage of vehicles parked in violation of Tigard City Ordinance regulating abandoned vehicles under the authority of Tigard Municipal Code Chapter 7.60.

524.2 MARKING VEHICLES

Vehicles suspected of being in violation of Chapter 7.60 shall be marked and noted on either a special report or by entering remarks into the CAD call.

- (a) A visible chalk mark should be placed on one of the tires and tread if possible. If the vehicle violates Chapter 7.60, an abandoned tow sticker shall be prominently attached to a window in a manner that does not block a driver's visibility.
- (b) When an abandoned tow sticker is attached to a vehicle, the information will be documented on a special report and submitted to the Records Section for data entry. The Records Section shall mail a certified letter stating the vehicle is in violation of Chapter 7.60 and as a result, is subject to being towed and impounded if not removed, the vehicle will be subject to towing charges and costs, and the owner's right to a hearing, to the owner or lawful possessor of the stored vehicle at least five (5) business days prior to the towing of the vehicle.
- (c) If a marked vehicle which had an abandoned tow sticker attached to it has moved, the information will be documented on a special report and submitted to the Records Section for data entry.
- (d) If a marked vehicle which had an abandoned tow sticker attached to it has not moved, it shall be cited for violation of Chapter 7.60 and a request for a tow request shall be made.

Asset Forfeiture Policy

606.1 PURPOSE AND SCOPE

This policy describes the authority and procedure for the seizure and liquidation of assets associated with specified controlled substances. This policy applies to forfeited or seized assets in the form of currency, real estate, automobiles, boats, aircraft, or any other items of value.

606.2 ASSET SEIZURE AUTHORITY

Oregon Revised Statutes 133.535 specifies that any peace officer having probable cause, may seize all evidence or other information concerning the commission of the criminal offense; contraband, the fruits of the crime, or things otherwise criminally possessed; property that has been used, or is possessed for the purpose of being used to commit or conceal the commission of an offense.

In addition to seizures authorized by Oregon Revised Statutes 133.535, an officer may seize property without a court order if the officer has probable cause to believe that the property is subject to criminal forfeiture (Oregon Revised Statutes 131.561(2)).

An officer may also seize property pursuant to an order of the court. Forfeiture Counsel or a seizing agency may apply to the court for an ex-parte order directing seizure of specific property (Oregon Revised Statutes 131.561(3)).

Oregon Revised Statutes 131.558 identifies those items which are subject to criminal forfeiture, including currency, real and/or personal property which represents proceeds or was used to facilitate certain specific criminal activity.

Due to the strong benefits associated with federal equitable sharing, particularly with regards to U.S. Treasury and Department of Justice forfeitures, the Tigard Police Department will adhere to the federal authority and policy when federal forfeiture is applicable. Authority for federal agencies to adopt cases involving asset forfeiture specifically; 21 U.S.C. § 881(e)(1)(3), 18 U.S.C. § 981 (e)(2), 19 U.S.C. § 1616a, and 31 U.S.C. §§ 9703(a)(1)(G) and 9703(h) provide authority for federal agencies to adopt cases involving forfeiture under certain conditions set forth under current federal policy.

The following are subject to criminal forfeiture:

- (a) All controlled substances that have been manufactured, distributed, dispensed, possessed or acquired in the course of prohibited conduct

Every receipt shall contain, in addition to the inventory:
 - 1. The identity of the seizing agency

Currency seized subject to forfeiture will be counted by the seizing officer and a supervisor. The currency will be placed in a money envelope with the denomination of the currency, totals of each denomination and total amount of currency enclosed noted on the money envelope. The officer counting and supervisor verifying money will initial and sign the envelope when sealed. If the currency will not fit into a standard money envelope, place the currency in a larger envelope or bag, sealing and affixing a completed money envelope to the outside of the larger envelope or bag which contains the currency.

Except where currency has apparent or known intrinsic collector value, all cash seized for criminal forfeiture must be immediately deposited in an insured, interest-bearing forfeiture trust account maintained by the seizing agency exclusively for this purpose. Cash may be retained as evidence in a criminal proceeding but must be deposited immediately when the need to retain it as evidence is discharged.

Subject to any court order, any interest earned upon cash deposited into a forfeiture trust account must be disbursed as follows:

- (a) If the criminal forfeiture proceeding is abandoned, or denied by the court, any interest earned, together with the cash initially seized, shall be returned to the person from whom it was seized

Confidential Informants

608.1 PURPOSE AND SCOPE

In many instances, a successful investigation cannot be conducted without the use of confidential informants. To protect the integrity of the Tigard Police Department and the officers using informants, it shall be the policy of this department to take appropriate precautions by developing sound informant policies.

incidents that could be used to question the integrity of detectives or the reliability of the confidential informant.

Access to the informant files shall be restricted to the Chief of Police, a Division Commander, the Criminal Investigations Unit Sergeant, or their designees.

608.3 USE OF INFORMANTS

Before using an individual as a confidential informant, an officer must receive approval from the Criminal Investigations Unit Sergeant. The officer shall compile sufficient information through a background investigation in order to determine the reliability and credibility of the individual.

608.3.1 JUVENILE INFORMANTS

The use of juvenile confidential informants is discouraged due to a number of risks. They will only be used when the investigation is of such a nature as to justify the risks. The district attorney shall be consulted and a parent or legal guardian's written consent shall be secured. Final approval to use a juvenile confidential informant must be obtained from the Chief of Police.

608.4 GUIDELINES FOR HANDLING CONFIDENTIAL INFORMANTS

All confidential informants are required to sign and abide by the provisions of the departmental Informant Agreement. The officer using the confidential informant shall discuss each of the provisions of the agreement with the confidential informant.

Details of the agreement are to be approved in writing by the unit supervisor before being finalized with the confidential informant.

608.4.1 RELATIONSHIPS WITH CONFIDENTIAL INFORMANTS

The voucher shall be signed by the informant using either their true name or a pseudonym registered with a signature in the informant packet. The voucher will also include the case number associated with the expenditure and a description of the benefit obtained (search warrant, arrest, recovered property, etc.)

608.5 NARCOTICS INFORMANT PAYMENT PROCEDURES

The potential payment of large sums of money to any confidential informant must be done in a manner respecting public opinion and scrutiny. Additionally, to maintain a good accounting of such funds requires a strict procedure for disbursements.

608.5.1 PAYMENT PROCEDURE

The amount of funds to be paid to any confidential informant will be evaluated against the following criteria:

- The extent of the informant's personal involvement in the case
- Significance of the violator arrested in terms of criminal activity
- The amount of assets seized
- The quantity of the drugs seized
- The informant's previous criminal activity
- The level of risk taken by the informant

The Criminal Investigations Unit Sergeant will discuss the above factors with the Services Division Commander and arrive at a recommended level of payment that will be subject to the approval of the Chief of Police.

608.5.2 CASH DISBURSEMENT POLICY

The following establishes a cash disbursement policy for confidential informants. No informant will be told in advance or given an exact amount or percentage for services rendered.

- (a) When both assets and drugs have been seized, the confidential informant shall receive payment based upon overall value and the purchase price of the drugs seized.
- (b) A confidential informant may receive a cash amount for each quantity of drugs seized whether or not assets are also seized.

608.5.3 PAYMENT PROCESS

A check shall be requested, payable to the case agent. The case number shall be recorded justifying the payment. The signature of the Chief of Police is required for disbursements over \$500. Payments \$500 and under may be paid in cash out of the Criminal Investigations Unit Buy/Expense Fund. The Criminal Investigations Unit Sergeant will be required to sign the cash transfer form for amounts under \$200. The Chief of Police must sign transfer amounts over \$200.

To complete the transaction with the confidential informant the case agent shall have the confidential informant initial the cash transfer form. The confidential informant will sign the form indicating the amount received, the date, and that the confidential informant is receiving funds in payment for information voluntarily rendered in the case. If the payment amount exceeds \$500, a complete written statement of the confidential informant's involvement in the case shall be placed in the confidential informant's file. This statement shall be signed by the confidential informant verifying the statement as a true summary of his/her actions in the case(s).

Each confidential informant receiving a cash payment shall be informed of his or her responsibility to report the cash to the Internal Revenue Service (IRS) as income.

608.5.4 REPORTING OF PAYMENTS

Each confidential informant receiving a cash payment shall be informed of his/her responsibility to report the cash to the Internal Revenue Service (IRS) as income. If funds distributed exceed \$600 in any reporting year, the confidential informant should be provided IRS Form 1099 (26 CFR 1.6041-1). If such documentation or reporting may reveal the identity of the confidential informant and by doing so jeopardize any investigation, the safety of peace officers or the safety of the confidential informant (26 CFR 1.6041-3), then IRS Form 1099 should not be issued.

In such cases, the confidential informant shall be provided a letter from the Criminal Investigations Unit Sergeant identifying the amount he/she must report on a tax return as "other income" and shall be required to provide a signed acknowledgement of receipt of the letter. The completed acknowledgement form and a copy of the letter shall be retained in the confidential informant's file.

Eyewitness Identification

610.1 PURPOSE AND SCOPE

This policy sets forth guidelines to be used when members of this department employ eyewitness identification techniques.

610.1.1 DEFINITIONS

Definitions related to the policy include:

Eyewitness identification process - Any field identification, live lineup or photographic identification.

Field identification - A live presentation of a single individual to a witness following the commission of a criminal offense for the purpose of identifying or eliminating the person as the suspect.

Live lineup - A live presentation of individuals to a witness for the purpose of identifying or eliminating an individual as the suspect.

Photographic lineup - Presentation of photographs to a witness for the purpose of identifying or eliminating an individual as the suspect.

610.2 POLICY

This department will strive to use eyewitness identification techniques, when appropriate, to enhance the investigative process and will emphasize identifying persons responsible for crime and exonerating the innocent.

610.3 INTERPRETIVE SERVICES

Officers should make a reasonable effort to arrange for an interpreter before proceeding with eyewitness identification if communication with a witness is impeded due to language or hearing barriers.

Before the interpreter is permitted to discuss any matter with the witness, the investigating officer should explain the identification process to the interpreter. Once it is determined that the interpreter comprehends the process and can explain it to the witness, the eyewitness identification may proceed as provided for within this policy.

610.4 EYEWITNESS IDENTIFICATION FORM

The Support Services supervisor shall be responsible for the development and maintenance of an eyewitness identification process for use by members when they are conducting eyewitness identifications.

The process and any related forms or reports should provide:

- (a) The date, time and location of the eyewitness identification procedure.
- (b) The name and identifying information of the witness.
- (c) The name of the person administering the identification procedure.
- (d) If applicable, the names of all of the individuals present during the identification procedure.

Tigard Police Department

Policy Manual

Eyewitness Identification

- (e) An admonishment that the suspect's photograph may or may not be among those presented and that the witness is not obligated to make an identification.
- (f) An admonishment to the witness that the investigation will continue regardless of whether an identification is made by the witness.
- (g) A signature line where the witness acknowledges that he/she understands the identification procedures and instructions.

The process and related forms should be reviewed at least annually and modified when necessary.

610.5 EYEWITNESS IDENTIFICATION

Officers are cautioned not to, in any way, influence a witness as to whether any subject or photo presented in a lineup is in any way connected to the case. Officers should avoid mentioning that:

- The individual was apprehended near the crime scene.
- The evidence points to the individual as the suspect.
- Other witnesses have identified, or failed to identify, the individual as the suspect.

In order to avoid undue influence, witnesses should view suspects or a lineup individually and outside the presence of other witnesses. Witnesses should be instructed to avoid discussing details of the incident or of the identification process with other witnesses.

Whenever feasible, the eyewitness identification procedure should be audio and/or video recorded and the recording should be retained according to current evidence procedures.

610.5.1 PHOTOGRAPHIC LINEUP AND LIVE LINEUP CONSIDERATIONS

When practicable, the person composing the lineup and the person presenting the lineup should not be directly involved in the investigation of the case. When this is not possible, the member presenting the lineup must take the utmost care not to communicate the identity of the suspect in any way.

When practicable, the employee presenting a lineup to a witness should not know which photograph or person is the suspect.

Other persons or photos used in any lineup should bear similar characteristics to the suspect to avoid causing him/her to unreasonably stand out. In cases involving multiple suspects, a separate lineup should be conducted for each suspect. The suspects should be placed in a different order within each lineup.

The employee presenting the lineup to a witness should do so sequentially and not simultaneously (i.e., show the witness one person at a time). The witness should view all persons in the lineup.

The order of the suspect or the photos and the fillers should be randomized before being presented to each witness.

A live lineup should only be used before criminal proceedings have been initiated against the suspect. If there is any question as to whether any criminal proceedings have begun, the investigating officer should contact the appropriate prosecuting attorney before proceeding.

Tigard Police Department

Policy Manual

Eyewitness Identification

610.5.2 FIELD IDENTIFICATION CONSIDERATIONS

Field identifications, also known as field elimination show-ups or one-on-one identifications, may be helpful in certain cases, where exigent circumstances make it impracticable to conduct a photo or live lineup identifications. A field elimination or show-up identification should not be used when independent probable cause exists to arrest a suspect. In such cases a live or photo lineup is the preferred course of action if eyewitness identification is contemplated.

When initiating a field identification, the officer should observe the following guidelines:

- (a) Obtain a complete description of the suspect from the witness.
- (b) Assess whether a witness should be included in a field identification process by considering:
 - 1. The length of time the witness observed the suspect.
 - 2. The distance between the witness and the suspect.
 - 3. Whether the witness could view the suspect's face.
 - 4. The quality of the lighting when the suspect was observed by the witness.
 - 5. Whether there were distracting noises or activity during the observation.
 - 6. Any other circumstances affecting the witness's opportunity to observe the suspect.
 - 7. The length of time that has elapsed since the witness observed the suspect.
- (c) If safe and practicable, the person who is the subject of the show-up should not be handcuffed or in a patrol vehicle.
- (d) When feasible, officers should bring the witness to the location of the suspect, rather than bring the suspect to the witness.
- (e) A person should not be shown to the same witness more than once.
- (f) In cases involving multiple suspects, witnesses should only be permitted to view the suspects one at a time.
- (g) A person in a field identification should not be required to put on clothing worn by the suspect, to speak words uttered by the suspect or to perform other actions mimicking those of the suspect.
- (h) If a witness positively identifies an individual as the perpetrator, officers should not conduct any further field identifications with other witnesses for that suspect. In such instances officers should document the contact information for any additional witnesses for follow up, if necessary.

610.6 DOCUMENTATION

A thorough description of the eyewitness process and the results of any eyewitness identification should be documented in the case report. Witness comments of how certain he/she is of the identification or non-identification should be quoted in the report.

If a photographic lineup is utilized, a copy of the photographic lineup presented to the witness should be included in the case report. In addition, the order in which the photographs were presented to the witness should be documented in the case report.

***Brady* Material Disclosure**

612.1 PURPOSE AND SCOPE

This policy establishes guidelines for identifying and releasing potentially exculpatory or impeachment information (so-called *Brady* information) to a prosecuting attorney.

612.1.1 DEFINITIONS

Definitions related to this policy include:

***Brady* information** - Information known or possessed by the Tigard Police Department that is both favorable and material to the current prosecution or defense of a criminal defendant.

612.2 POLICY

The Tigard Police Department will conduct fair and impartial criminal investigations and will provide the prosecution with both incriminating and exculpatory evidence, as well as information that may adversely affect the credibility of a witness. In addition to reporting all evidence of guilt, the Tigard Police Department will assist the prosecution by complying with its obligation to disclose information that is both favorable and material to the defense. The Department will identify and disclose to the prosecution potentially exculpatory information, as provided in this policy.

612.3 DISCLOSURE OF INVESTIGATIVE INFORMATION

Officers must include in their investigative reports adequate investigative information and reference to all material evidence and facts that are reasonably believed to be either incriminating or exculpatory to any individual in the case. If an officer learns of potentially incriminating or exculpatory information any time after submission of a case, the officer or the handling investigator must prepare and submit a supplemental report documenting such information as soon as practicable. Supplemental reports shall be promptly processed and transmitted to the prosecutor's office.

If information is believed to be privileged or confidential (e.g., confidential informant or protected personnel files); the officer should discuss the matter with a supervisor and/or prosecutor to determine the appropriate manner in which to proceed.

Evidence or facts are considered material if there is a reasonable probability that they would affect the outcome of a criminal proceeding or trial. Determining whether evidence or facts are material often requires legal or even judicial review. If an officer is unsure whether evidence or facts are material, the officer should address the issue with a supervisor.

Supervisors who are uncertain about whether evidence or facts are material should address the issue in a written memo to an appropriate prosecutor. A copy of the memo should be retained in the Department case file.

612.4 DISCLOSURE OF PERSONAL INFORMATION

If a member of this department is a material witness in a criminal case, a person or persons designated by the Chief of Police shall examine the personnel file and/or internal affairs file of the officer to determine whether they contain *Brady* information. If *Brady* information is located, the following procedure shall apply:

Tigard Police Department

Policy Manual

Brady Material Disclosure

- (a) In the event that a motion has not already been filed by the criminal defendant or other party, the prosecuting attorney and department member shall be notified of the potential presence of *Brady* material in the member's personnel file.
- (b) The prosecuting attorney or department counsel should be requested to file a motion in order to initiate an in camera review by the court.
 - 1. If no motion is filed, the supervisor should work with counsel to determine whether the records should be disclosed to the prosecutor.
- (c) The Custodian of Records shall accompany all relevant personnel files during any in camera inspection to address any issues or questions raised by the court.
- (d) If the court determines that there is relevant *Brady* material contained in the files, only that material ordered released will be copied and released to the parties filing the motion.
 - 1. Prior to the release of any materials pursuant to this process, the Custodian of Records should request a protective order from the court limiting the use of such materials to the involved case and requiring the return of all copies upon completion of the case.
- (e) If a court has determined that relevant *Brady* information is contained in the member's file in any case, the prosecutor should be notified of that fact in all future cases involving that member.

The person or persons designated by the Chief of Police should periodically examine the personnel files and/or internal affairs files of all officers who may be material witnesses in criminal cases to determine whether they contain *Brady* information. The obligation to provide *Brady* information is ongoing. If any new *Brady* information is identified, the prosecuting attorney should be notified.

612.5 INVESTIGATING BRADY ISSUES

If the Department receives information from any source that a member may have issues of credibility, dishonesty or has been engaged in an act of moral turpitude or criminal conduct, the information shall be investigated and processed in accordance with the Personnel Complaints Policy.

612.6 TRAINING

Department personnel should receive periodic training on the requirements of this policy.

Handheld Metal Detector

701.1 PURPOSE AND SCOPE

The purpose of this policy is to inform department personnel of the procedures for use of the handheld metal detector.

701.2 POLICY

It is the policy of the Tigard Police Department to ensure the safety of it's employees by making available a handheld metal detector. The use of this metal detector may be used by an officer when he or she feels the need to verify persons entering the building are not carrying concealed weapons. The detector will be located near the front entrance to the Police Department (inside Lobby door).

701.3 DEFINITION

The Garrett Superwand metal detector allows detection of all metals (ferrous and non-ferrous) no matter how small. The wand has 360 degree coverage even at the tip. It operates in two modes, one with an audible tone and the other in vibrate mode. The detector operates using a 9 volt battery.

701.4 PROCEDURES

701.4.1 USE OF DETECTOR

When the metal detector is in operation, it will only detect metal while detector is moving. Scan within two (2) inches of the person (object) being inspected (it is not necessary to touch the detector to the person (object)). Sound will be heard or vibration felt and the red light will illuminate when metal is detected anywhere around or at the tip of the detection area.

The battery cover will not close if the battery is improperly installed. Do not force the cover, check the battery alignment and retry.

Personal Communication Devices

702.1 PURPOSE AND SCOPE

The purpose of this policy is to establish guidelines for the use of departmentally issued mobile phones and personal communication devices and the on-duty use of such devices personally owned by Tigard Police Department personnel.

Because of technical advances and varying manufacturer nomenclature, this policy will generically refer to all Personal Communication Devices (PCDs) as such, but is intended to include all mobile phones, PDAs, and other such wireless two way communication and/or portable internet access devices.

702.1.1 PRIVACY POLICY

Any employee utilizing any computer, internet service, phone service or other wireless service provided by or funded by the department expressly acknowledges and agrees that the use of such service, whether for business or personal use, shall remove any expectation of privacy the employee, sender and recipient of any communication utilizing such service might otherwise have, including as to the content of any such communication. The Department also expressly reserves the right to access and audit any and all communications, including content sent, received and/or stored through the use of such service.

702.2 DEPARTMENTALLY ISSUED PCD

Depending on an employee's assignment and needs of the position, the department may, at its discretion, issue a PCD. Such devices shall remain the sole property of the department and shall be subject to inspection or monitoring, including all related records and content, at any time without notice and without reason.

702.2.1 INDIVIDUALLY OWNED PCD

Employees may carry their own individually owned PCD while on duty subject to the following conditions:

Employees may use a PCD to communicate with other personnel in those situations where the use of the radio is either impractical or not feasible. PCDs however, should not be used to replace regular radio communications.

- (a) PCDs shall not be carried in a manner that allows them to be generally visible while in uniform.
- (b) PCDs may not be used to conduct personal business while on duty except when brief personal communications may be warranted by the circumstances (e.g., inform family of extended hours). While employees may use personally owned PCDs for personal business during authorized breaks, such usage should be limited as much

Tigard Police Department

Policy Manual

as practical to areas where the communication will not be seen or heard by members of the general public.

- (c) Extended or frequent use of departmentally issued PCDs or personally owned PCDs while on duty for personal use is prohibited and may be subject to discipline. Employees may be responsible for reimbursing the department for any charges incurred as a result of personal use.

702.2.3 USE WHILE DRIVING

The use of a PCD while driving can cause unnecessary distractions and presents a negative image to the public. Officers operating emergency vehicles should restrict the use of these devices while driving to matters of an urgent nature and should, where practical, stop the vehicle at an appropriate location to complete their communication (ORS 811.507).

Except in the case of an emergency, employees who are operating non-emergency vehicles shall not use cellular phones or other personal communication devices while driving unless the telephone is specifically designed and configured to allow hands-free listening and talking. Such use should be restricted to business related calls or calls of an urgent nature.

702.2.4 OFFICIAL USE

The use of personal communication devices may be appropriate during the following situations:

704.6.3 COLLISION INVESTIGATION PROCEDURES

- (a) Collisions involving departmental vehicles or rented/leased vehicles driven by a staff member will be investigated by a Tigard supervisor. The supervisor may designate a traffic or patrol unit, or request other resources such as an outside agency to investigate the crash if the collision occurs in another jurisdiction.  - 1. If the damage is criminal mischief caused by a prisoner or citizen, the appropriate investigation will be documented on an incident report and charges filed.
 - 2. Damage caused by a Pursuit Intervention Technique (PIT) maneuver will be documented but will not be investigated or reported as a collision.
- (e) Division Commander Responsibility
 - 1. Review investigation to ensure investigation is complete and proper notifications have been made.
 - 2. If the recommended finding for the collision is non-preventable or not a collision and the Division Commander concurs, notify the employee of the finding and document in the collision database.
 - 3. If the Division Commander or the supervisor recommends a preventable finding, notify the affected employee of the recommendation and his/her rights under the Collision Review Board.

704.6.4 COLLISION REVIEW BOARD

Collisions are any incident or event involving departmental owned or leased vehicles resulting in property damage, injury or death. Collisions involving vehicles owned or leased by the Tigard Police Department will be investigated by a supervisor or designee and reviewed by the Division Commander. Members involved in collisions may request to have the matter heard by a Collision Review Board (CRB) or waive this right and have the Division Commander review the incident and make a finding. The Division Commander reserves the right to convene a CRB to make a recommendation as to finding.

The CRB serves two main functions in the review of Departmental vehicle collisions.

- (a) Procedure
 - 1. To establish the CRB, the Division Commander will appoint five members to the Board. One member shall be of the involved member's peer group and one member may be appointed from Risk Management.
 - 2. The involved member has 24 hours to eliminate two names from the Board. Of the remaining members, the Division Commander will designate a Chairperson.
 - 3. Hearings by the CRB will be informal. The involved member may testify on their behalf, present evidence or witness.
 - 4. Hearings shall be conducted in private.
 - 5. CRB decisions will be by a majority vote. All findings will be signed by all members with an indication of concurrence or dissent.
 - 6. Copies of all reports that are generated from a vehicle collision are to be sent to each selected CRB member. These include, but are not limited to, crash reports, special reports, after action reports. If these reports are not received in their entirety, the CRB may elect to send the case back for further investigation before proceeding with a hearing.
 - 7. The CRB will consider only the facts and circumstances of each individual case. A member's past driving history will have no bearing on the recommendation given. The Chairperson will notify the member of the time and place for the

Tigard Police Department

Policy Manual

Vehicle Maintenance

hearing. Upon completion of each case, the CRB will make a recommendation for the finding to the Division Commander. If the CRB finds that an investigation is incomplete, they may refer the case back to the investigator for follow up.

8. The CRB's recommendation for finding will be based on criteria established by the National Traffic Safety Council (i.e., did the driver do everything reasonable to avoid the collision?). The recommendation categories include:
 - (a) Preventable - The driver failed to recognize a hazardous condition or circumstance and failed to take appropriate action to maintain control of the vehicle and avoid a collision.
 - (b) Non-Preventable - The driver did recognize a hazardous condition or circumstances and took appropriate action to maintain control of the vehicle and avoid a collision.
 - (c) Not a Collision - When the investigation concludes there was a deliberate action taken by a driver which resulted in damage or injury or that a non-deliberate action had occurred, but it was later determined that there was no damage or no injury.
9. Members will not be notified at the time of the meeting of the CRB's recommendation for a finding. The Division Commander will give notice to the member of the final determination.
10. Should the recommendation of the CRB be in conflict with the initial supervisory recommendations, the CRB will submit an additional memorandum to the Division Commander explaining the CRB's rationale.
11. Should the Division Commander's final decision be in conflict with the CRB's recommendation, a memo explaining this decision will be sent to the Assistant Chief, who may modify or concur with the final decision.
12. The CRB will not make any recommendation for the specific discipline and will not track this process.
13. Cases involving minor non-repetitive preventable collision (those collisions that do not meet the reporting criteria of ORS 811.720), the collision outcome will be treated as non-disciplinary investigations. Repetitive minor or collisions meeting the reporting requirements of ORS 811.720 may result in disciplinary action.
14. Nothing in the above guidelines prohibits greater consequences for first or second minor preventable collisions if the circumstances so warrant (such as carelessness or negligence).
15. A finding of preventable in reportable collisions are subject to non-disciplinary and disciplinary actions up to and including termination, based on the progressive discipline concept.

(b) Appeals

The employee may appeal any decision as outlined in state law, ordinances, collective bargaining agreement or departmental procedures. Employees represented by the Tigard Police Association may protest any suspension or discharge through the regular contract grievance procedure.

This response is utilized to facilitate the safe passage of the police vehicle through traffic. This type of response is only authorized in those types of situations when it reasonably appears to the operator that the use of either or both would prevent or hamper the apprehension or detection of a violator of a statute, ordinance, or regulation, as authorized by ORS 820.320.
 - 3. Emergency Response (**Code Three**): Critical situations demanding emergency response necessitating the use of emergency lights and siren. The criteria for responding code three shall be as follows:
 - (a) A critical situation when an officer's life or safety is in peril and immediate assistance is required.
 - (b) When a situation involves an imminent potential for serious injury to person(s).
 - (c) The prevention of a crime of violence or a crime of violence in progress.
 - (d) A serious public hazard.
 - (e) When a felony has reportedly occurred and the perpetrator is fleeing the scene and a Code Three response will enhance the likelihood of apprehension.
 - (f) When an officer needs immediate assistance for safety reasons.

704.6.6 RESPONSIBILITIES

- (a) Emergency Vehicle Operator Responsibilities:
 - 1. All personnel have a responsibility to obey the law as it applies to emergency vehicles.
 - 2. ORS 820.300 and 820.320 establish conditions, limitations, prohibitions, penalties, and operating procedures for emergency vehicle operators.
 - 3. Department personnel are to familiarize themselves with these statutes and to comply with them.
 - 4. The provisions of these statutes shall not relieve the operator of an emergency vehicle from the duty to drive with due regard for the safety of all other persons, nor are they a defense to the operator in an action brought for criminal negligence or reckless conduct.

Tigard Police Department

Policy Manual

- (b) All command and supervisory officers are charged with giving particular and continuing attention to the driving behavior of subordinates to ensure that they adhere to safe and reasonable driving standards, and adhere to the guidelines in this policy.

Special Purpose Vehicles

705.1 PURPOSE AND SCOPE

The purpose of this policy is to establish procedures for the authorization, use, and maintenance of the Tigard Police Department's special purpose vehicles.

705.2 POLICY

Special purpose vehicles may be assigned at the discretion of the Chief of Police, and will be of a design, modification and/or configuration to best accomplish its designated purpose.

The department's special purpose vehicles are to be maintained and operated in accordance with Policy 704 Vehicle Maintenance. Only those members of the department who have been assigned a specialty vehicle, or who have received prior approval from a supervisor, and have valid driving privileges will be authorized to operate listed vehicles.

705.3 DEFINITIONS

DARE vehicle - Assigned to the School Resource Officer responsible for maintaining the DARE program.

GREAT vehicle - Assigned to the Youth Program Manager.

TPD Golf Cart - For use by department members as authorized by a special event supervisor.

ATV - All-terrain vehicle assigned to the ATV Unit as an extension of the patrol function.

705.4 STATEMENT OF USE

The department's special purpose vehicles listed above provide a positive image for the police department within the community. The DARE and GREAT vehicles are used primarily as on-duty vehicles for their assigned officers. All of the specialty vehicles to include the golf cart may be used during special events, displays, and parades with prior authorization from the Chief of Police or designee.

While these vehicles are equipped with emergency lighting and logos, they are not intended for use during standard police patrol and/or operations. The GREAT vehicle is not equipped with authorized police lighting and sirens and therefore can not be used for emergency response or traffic enforcement. If these vehicles are needed during an emergency, their use may be authorized by an on-duty supervisor. None of the listed specialty vehicles shall be used during police pursuits.

705.5 EQUIPMENT - GENERAL

All special purpose vehicles detailed in this policy are equipped with emergency light packages. With the exception of the golf cart, the specialty vehicles additionally carry police radios and PA systems. The DARE, GREAT, and PIO vehicles shall be equipped with a basic first-aid kit.

705.6 MOTORCYCLES

705.6.1 OBJECTIVE

Motorcycle officers are utilized for traffic enforcement purposes however they are not limited to that function. They are assigned to special details such as parades, funeral escorts and others as needed. Motorcycles have the unique ability to get through heavy traffic to an accident; to drive the various paved bicycle paths and for display purposes at various law enforcement functions.

705.6.2 INSTRUCTIONS, CONDITIONS AND LIMITATIONS OF USAGE

Motor officers are required to complete an 80 hour DPSST certified motorcycle training class. Although their riding skills are somewhat limited for off road riding, they have the capability when necessary. Motor officers have the discretion to ride during inclement weather except during icy or snowing conditions.

There are no specific limitation placed on the Tigard Police Department motor officers with the exception of daily maintenance and upkeep on their assigned motor, as allowed by TPOA contract. Limitations placed on the use of motorcycles would be the individual officer's inability to ride during certain situations, (such as inclement weather, ice, strong winds, high water, etc.).

705.6.3 AUTHORIZATION FOR USE IN VARIOUS SITUATIONS

A Tigard Police Department motor officer has been authorized, once he/she has completed the basic (80 hour) motor training class, to ride their motorcycle whenever and wherever they deem necessary.

705.6.4 QUALIFICATIONS AND TRAINING

Only officers within the Tigard Police Department who have successfully completed the DPSST approved Basic Motor Officers course (80 hrs) are authorized to ride the motorcycle. In addition they are required to have an Oregon Motorcycle endorsement on their driver's license. After the Basic course a motor officer must ride with another certified motor officer for additional training on conducting traffic stops, officer safety on the highway, etc. for a minimum of 40 hours before being assigned the full time duties of a motor officer.

Officers are encouraged to attend monthly in-service training whenever it is offered, although it is not a specific requirement that they do so. If monthly in-service training is not attended, the officers are encouraged to attend quarterly in-service training and/or other DPSST approved training when it is offered. Every effort will be made to ensure that the motor officers have the opportunity to improve their riding skills as frequently as possible. Riding skills that are taught and learned at the Basic Motorcycle class diminish in time if no refresher training is attended. These are learned skills and with enough training and practice become instinctive under certain conditions.

An annual training conference sponsored by the North American Motor Officer's Association provides a minimum of 16 hours additional training and motor officers are allowed to attend on duty time when scheduling permits.

705.6.5 CONDITION AND MAINTENANCE

Motorcycles are individually assigned to the officers who ride them. It is their responsibility to ensure that the motorcycle is inspected on a daily basis and that maintenance is done in accordance with the manufacturer's specifications. The motor officer may, in accordance

Tigard Police Department

Policy Manual

Special Purpose Vehicles

with the TPOA contract, change the motor oil and filter, air cleaner and spark plugs. They are required to repair/replace miscellaneous bulbs and fuses when necessary. A vehicle inventory list is provided to the motor officer and must be completed prior to the start of each shift unless on a specific assignment. (i.e. parade detail, etc.)

The Traffic Sergeant is responsible to ensure that assigned motorcycles are maintained in accordance with department policy and the manufacturer's specifications. The Traffic Sergeant reports to the Day Shift Watch Commander (Lieutenant).

705.6.6 EQUIPMENT

Emergency lighting equipment and radio are provided on each motorcycle and no changes are allowed unless specific authorization has been received by the Traffic Sergeant. Changes to the emergency lighting equipment will be made to improve officer safety when a better product is provided. All of the department's motorcycles are set up identical to one another so that if an officer is required to ride a different motorcycle, all the equipment operates the same and the switches are in the same location.

Issued equipment for each motorcycle:

- Flash light
- Digital Camera
- Metal clipboard and report forms
- Video system
- Tool kit (supplied by manufacturer)
- 2 sets of keys
- Laser and moving radar units when available

Officers who have received certification but are no longer assigned a motor as part of their duties may ride a department motorcycle in an emergency.

705.7 BICYCLE PATROL

705.7.1 OBJECTIVE

Bicycle patrols are utilized for various patrol functions, the purpose of which necessitates the advantages of slow speed, increased observability, and overall mobility.

705.7.2 OPERATIONS

Bicycle patrols primary responsibilities will be:

- Enhance citizen/police interaction
- High visibility patrol
- Apprehension of criminals
- Patrolling areas not accessible to vehicles

Tigard Police Department

Bicycle patrols will be assigned on an as-needed basis. When assigned to calls, bicycle officers will complete all necessary reports and appropriate follow-up investigations. As manpower permits, bicycle officers may be assigned to the following activities:

- Patrol of the above listed areas
- Patrol of Transit Centers, and enforcement of Tri-Met rules and regulations at these centers located within the City of Tigard
- Enforcing parking ordinances
- Enforcement of camping ordinances in the City parks
- Enforcement of camping and public drinking ordinances in the Main Street business district

705.7.4 AUTHORIZATION, TRAINING AND GENERAL MAINTENANCE

Only personnel who have completed a department approved training course are authorized to use police bicycles. Officers assigned to bicycle patrol will receive a minimum of 32 hours of approved police bicycle training (recommended length of basic training by the International Police Mountain Bike Association).

Tigard Police Department

Policy Manual

Special Purpose Vehicles

Bicycle officers will report to the on-duty supervisor for assignments.

The operator of the bicycle will be responsible for the general maintenance of the bicycle. Minor repairs to the bicycle should be done by the operator, if possible. If this is not possible, the bicycle will be taken to a bicycle shop for professional repair.

When not in use, the patrol bicycles will be stored in a secure Police Department storage facility.

705.8 ATV UNIT

Police ATV patrol is an extension of the patrol function and as such officers will perform the duties of regularly assigned patrol officers, with the exception of prisoner transports. Officers assigned to ATV Patrol can provide mobility and accessibility not available in automobile patrol.

These vehicles have the operational parameters similar to those utilized in bicycle type patrols, however only department personnel who have completed an approved ATV operator or instructor training may operate the vehicles.

The objectives for the use and operation of the ATVs include, but are not limited to:

- Provide park patrols for crime suppression and prevention.
- Patrol other areas inaccessible to vehicles.
- Encourage closer community contact, interaction, coordination, and integration into the agency's community-oriented policing philosophy.
- Provide an alternate means of police service delivery to the community.
- Promote safe riding practices for ATV riders, and generally educate the public about ATV use.

Only officers and employees who have successfully completed the ATV safety and operation course approved by the Chief of Police may operate the department ATVs. There is no requirement for additional training on the use of this vehicle.

705.8.1 SCHEDULED ATV PATROL DEPLOYMENT

The Watch Commanders may assign a Patrol Officer (trained and certified as a ATV Patrol Officer) to ATV Patrol Duty, subject to the directions of the Patrol Division Commander and the daily manpower resources. All deployment of these vehicles shall be in pairs whenever manpower allows.

705.8.2 NON-SCHEDULED ATV PATROL DEPLOYMENT

Watch Commanders may at any time deploy ATV patrol beats in the downtown, the parks, or other areas of the City, as the need exists; call load, and available manpower permits. Watch Commanders, at their discretion, will have authority to utilize and schedule ATV patrol within the following guidelines:

On any shift, under any light conditions, during any season of the year. Generally, outside temperatures should be above 50 degrees.

The ATV patrol officer may be assigned a portion of a patrol beat, or otherwise assigned to a special detail. The officer will be responsible for handling calls for service in his/her assigned portion of a patrol beat. An exception may be made for emergency calls occurring while the officer is on an ATV. If staffing permits, ATV patrol may be specially detailed to operate in

Tigard Police Department

Policy Manual

Special Purpose Vehicles

targeted crime areas; business/apartment areas; special events such as parades, carnivals, sporting events, etc.

Prior to such deployment and assignment, the Watch Commander shall examine the need for such deployment and consider whether such factors as:

- The existence of a number of separate locations, each of which could logically be patrolled on foot but would be too small to justify a foot beat.
- The need for patrol of parks, trails, or other terrain not suited for conventional patrol cars.
- Requirements for parking enforcement, control of loitering in off road locations, or fast response time.
- Available staffing.

705.8.3 ATV PATROL OPERATIONS GENERAL GUIDELINES

The ATV Patrol officer will be assigned a shift and beat as described unless otherwise given a special assignment. ATV Patrol officers are responsible to respond for all calls for service in the assigned beat. They shall carry on the ATV; a minimum of a flashlight, a citation book, report forms, an AED device and other equipment necessary to properly conduct normal duties.

The ATV is to be utilized in a manner to promote community-oriented policing. It is designed to patrol areas inaccessible by motor vehicles, such as parks and/or trails. Further, it may be used to patrol apartment complexes, business areas, and other places conducive to ATV Patrol. The Watch Commander may also utilize the ATV Patrol officer to operate in high crime areas or those locations requiring constant but mobile attention (sporting events, parades, festivals or carnivals etc.).

ATV Patrol Officers may be deployed on the vehicles from the Police Station to the field. While city code authorizes the use of ATV's on the roadway, this shall be kept to a minimum and ATV's shall be transported by trailer whenever practical. When operated off-road, operators must use groomed trails and bike paths whenever possible. Operators are always to be mindful of any environmental damage which may be done in the course of police operations. Any damage that occurs shall be reported to the Parks Dept. for whatever remediation is deemed necessary. If an Officer must leave an ATV unattended, he/she shall secure the ATV. Traffic stops will not typically be made using the ATV. The ATV will not be involved in pursuits of motor vehicles, and will not be used for the transportation of subjects to include arrested violators. The ATV patrol can be both an enforcement tool and an effective method of reflecting the Community Oriented Philosophy of the Department.

Only those officers assigned to ATV patrol will be authorized to use the police ATV. Officers normally will not be assigned to conduct ATV patrol during inclement weather such as freezing rain/fog, or other conditions that are not safe for the officers. If weather conditions improve, the officers may resume ATV patrol with the approval of the Watch Commander. In special operations, the ATVs may be used in inclement weather as directed by the Watch Commander based on needs of the department.

The operation of the ATV shall be in accordance with all applicable State of Oregon laws and City of Tigard ordinances.

The designated ATV unit sergeant will be responsible for the condition and maintenance of the ATV units.

Tigard Police Department

Policy Manual

Special Purpose Vehicles

705.8.4 ATV PATROL UNIFORM POLICY

Officers performing ATV patrol duties in any capacity shall wear the designated ATV uniform and will always wear the department issued ATV helmet and eye protection at all times when actively engaged in ATV patrol. If the ATV officers are on the roadway directing traffic or performing other related duties, issued safety vests are to be worn.

705.8.5 REPORTING REQUIREMENTS

Every malfunction or mechanical failure must immediately be reported to the on-duty supervisor. If the malfunction or failure affects the vehicle's ability to perform at any level, it must be taken out of service for repair. The on-duty supervisor shall make notification to the ATV sergeant and the vehicle shall be prominently marked that it may not be used until repaired.

At the end of each shift, every operator shall complete a data sheet that will include the scope of the assignment, the area and times of patrol, and all relevant police contact information including any police action taken while utilizing these vehicles. These data sheets will be turned into the ATV sergeant who will maintain them in a file and prepare a monthly summary report, through channels, to the operations captain.

The employee shall sign an agreement setting the standard for how the vehicle shall be used and where it shall be parked when the employee is not on duty.

The agreement states that the vehicle shall only be used for work-related purposes and shall not be used for personal errands, or transports, unless special circumstances exist and the shift sergeant gives authorization. The agreement also requires the employee to be responsible for the vehicle's care and maintenance (The department will provide necessary care/maintenance supplies).

The assignment of vehicles is at the discretion of the Chief of Police. Assigned vehicles may be changed at any time and/or permission to take home a vehicle may be withdrawn at any time.

When a collision involves a department vehicle or when a member of this department is an involved driver in a collision that occurs in this jurisdiction, and the collision results in serious injury or death, the Chief of Police or his/her designee shall make a determination on who will handle the investigation.

The employee involved in the collision shall complete the City's vehicle accident form. If the employee is incapable, the supervisor shall complete the form.

Any damage to a vehicle that was not caused by a traffic collision shall be immediately, reported during the shift in which the damage was discovered, documented in memorandum format and forwarded to the shift sergeant.

An administrative investigation will be conducted to determine indications of vehicle abuse and misuse. If it is determined that misuse or abuse was a result of negligent conduct or operation, appropriate disciplinary action may result.

Bait Car Policy

707.1 PURPOSE AND SCOPE

The purpose is to establish guidelines for the proper setup, deployment and maintenance of the department's bait car program and any criminal investigation that may result from a bait car activation.

The Tigard Police bait car program is designed to provide a method for the successful apprehension of suspects relating to theft from vehicles. A special vehicle, specifically equipped to detect entry, will be placed in designated areas experiencing high levels of these crimes. A silent alarm is broadcast on police communications channels to provide a rapid response. A specific item will be placed in the vehicle to provide the bait for the theft. This item will be equipped with a special electronic tracking device that can be followed by responding patrol units, possibly leading to the suspect and increasing the chances of a successful arrest.

All requests for deployment and all actual deployments of this vehicle will be recorded in a database or related information to include but not limited to:

- Location
- Time period deployed
- Bait item used
- Time of activation
- If activation was valid
- Arrival time of first unit
- Suspect information

707.2 DEFINITIONS

Supervisor - The Commercial Crimes Unit Sergeant is assigned to supervise the electronic surveillance equipment. Together with CCU team members, they will manage all aspects of the electronic surveillance technology including the bait car program.

Bait Car - A vehicle designated by department to be placed in high vehicle property crime area for the purpose of apprehending criminals responsible for theft from vehicles. Vehicle will be equipped with special electronic theft detection systems.

Radio Alarm - An alarm system that detects the doors or trunk opening and plays a prerecorded message indicating activation on the primary dispatch channel. Commonly referred to as a Sentinel, Varda or PAT alarm.

TAG/ETS - Electronic Tracking System or "ProNet." Refers to the electronic tag placed in a bait item and the vehicle and hand held systems used to track the tag. Primarily used in a bank robbery, however it is movable and can be deployed in almost any piece of equipment or vehicle.

Yankee Unit - Radio term to describe a patrol vehicle equipped with an ETS tracking system.

Tigard Police Department

Policy Manual

Bait Car Policy

35B "Baker" - WCCCA radio code used to describe or refer to a "Bait Car" or bait car activation.

Digital Video Recorder (DVR) - An electronic device that records video onto a hard drive or media card. This video is then transferred via a network cable connected to another computer equipped with a CD or DVD burner. Related video files can then be burned to this media as evidence.

Supervisor Packet - When the bait car is deployed a packet will be prepared for each shift to be carried by the on-duty supervisor. This packet will contain the operational guide, alarm deactivation and reset instructions, and a list of all bait items with photographs.

707.3 DEPLOYMENT

A target location will be determined by one of several ways. A patrol officer may request bait car deployment in writing to their supervisor, who will forward the request to the CCU Sergeant; any member of the Department recognizes a need for placement in a target area; Command staff requests deployment in target area; or an area is identified via crime mapping. Final determination will be made by the CCU Sergeant.

Any requests for deployment will be reviewed and logged by the CCU Sergeant. The CCU Sergeant will make a recommendation to deploy or not deploy the bait car. The original requester will be notified of the result.

Once a target location is determined, the vehicle will be prepared for deployment by the CCU team members. The CCU Sergeant will prepare required notifications and distribute them to area agencies and dispatch and within the Department as required. Three supervisor packets will be prepared and marked for each shift. The vehicle will be covertly deployed and left unlocked with bait items set and in view. The radio alarm will be activated and all team members will leave the area. The vehicle will remain deployed until a successful activation or the end of the preset deployment period, not to exceed seven days in one location due to battery limitations.

Each shift supervisor will ensure that the maximum number of cars with tracking systems are in service for the duration of the deployment.

If there is a successful activation, the on-duty supervisor will notify the CCU Sergeant or designated team member so the vehicle can be transported back to the Police Department or City shops where it will be secured. Depending on the urgency of the activation the CCU Sergeant or designated team member will process for any evidence removal (i.e. video files from DVR). The vehicle will be prepared for the next deployment as designated by the CCU Sergeant.

At the end of the preset deployment period with no successful activations, the CCU Sergeant or designated team member will arrange to deactivate the radio alarm and move the bait car back to the Tigard Police Department for preparation for redeployment.

707.4 ACTIVATION

In the event of a radio alarm activation, patrol officers and dispatch will hear a prerecorded message indicating if the activation is vehicle doors or trunk. The message will be played twice and then the system will reset/rearm itself.

If the activation is a door, officers should respond as if the call was an alarm on a theft in progress, responding officers should be prepared for an ETS tag activation. Any available

Tigard Police Department

Policy Manual

Bait Car Policy

patrol cars equipped with ETS tracking equipment should respond to the area and prepare to track any signals that are available.

If the alarm indicates trunk activation, then the vehicle trunk has been opened and the electronic systems are vulnerable to theft. To minimize theft of departmental equipment, responding officers should respond to the scene quickly and safely as possible. The VARDA alarm is stored in the trunk under the spare tire cover and not secure once the trunk has been opened. The remainder of the call should be handled as a normal bait car activation.

If there is no broken glass, the primary officer shall notify the CCU Sergeant in writing of the failed door alarm with a copy to that officer's supervisor. If there is glass broken, the on-duty shift supervisor shall notify the CCU Sergeant or designated team member who will then make arrangements for the vehicle to be returned to the station or shops. An attempt to provide weather protection should be made.

The radio alarm may broadcast a low battery message when the system's internal battery is almost depleted. The on-duty shift supervisor shall contact the CCU Sergeant or designated team member so the vehicle can be removed from the area.

707.5 RESPONSIBILITIES

Patrol Officer

The primary dispatched officer is responsible for the call and the resulting investigations. It is the responsibility of the primary officer to respond directly to the bait car and provide crime scene security. The primary officer shall immediately determine what if any crime has been committed (UEMV, criminal mischief or theft) and notify other units. The primary officer shall immediately determine if the bait items have been taken and will notify other responding officers.

During City Net hours, patrol officers are encouraged to "scan" the South City 1 for any radio alarms.

In the event of an ETS signal or "hot tower" but no radio alarm, officers shall track the signal as outlined in the ETS policy. An officer not equipped with ETS tracking equipment should respond to the bait car location to verify if there has been a malfunction with the radio alarm. If this is the case, the CCU Sergeant or designated team member shall be notified so the vehicle can be removed from the area.

Cover officers will respond to the area and assist with containment. A cover officer may handle containment deployment. Any ETS equipped vehicles will prepare for and handle all ETS tracks per ETS policies. Once the bait item is recovered, the tag shall be disabled according to provided instructions. Cover officers will assist in the investigation as required.

If the ETS track leads to the bait car and the bait items are still in the car, the officer should consider that they may have been moved within the car by the suspect and that this a valid activation. Refer to the operation guide for photos of the exact deployed locations. The tagged item or items need to be disabled or reset per the operation instructions.

Shift Supervisor

The VARDA alarm is designated to reset itself after a short period of time once it's been activated. The vehicle needs to be checked for glass breakage and to determine if the tagged items have been removed. The on-duty shift supervisor is responsible for coordinating securing the resetting the vehicle if a false alarm occurs. The shift supervisor

Tigard Police Department

Policy Manual

Bait Car Policy

if responsible for coordinating the removal of the vehicle from the scene and securing it at the station or shops in the event of an activation or damage. The shift supervisor should consider using covert options while moving the vehicle to avoid revealing the identity of the bait car.

The on-duty shift supervisor shall ensure that at least two ETS equipped vehicles are in service at all times when the bait car is deployed. This may require officers using vehicles other than the one specifically assigned. This may also require transferring to another vehicle at the end of the day shift or swing shift. In the event that there are no ETS equipped vehicles available for in field use, the shift supervisor shall immediately notify the CCU Sergeant or team member designated and make arrangements to remove the bait car from service.

The on-duty shift supervisor shall request that dispatch monitor South City 1 for the radio alarm during hours of City net use. The shift supervisor may also consider carrying a second radio set to South City 1 to ensure monitoring during the hours City Net is in use.

The shift supervisor shall notify the CCU Sergeant or designated team member when there are any activations or malfunctions with the bait car.

Equipment, planning and vehicle preparations:

The CCU Sergeant is responsible for all pre-deployment planning and vehicle preparation; maintenance of equipment; all notifications; logging of requests, deployment, activations and arrests; training to officers and supervisors; and to provide expert testimony relating to the any alarm and tracking systems installed in the vehicle or bait items.

707.6 CONFIDENTIALITY

The bait car program is considered an undercover operation. Accordingly, all personnel shall exercise caution in order to protect its confidentiality.

Employees shall not reveal the vehicle's description, number of vehicles, deployment locations, and/or other information that may compromise the vehicle's undercover status or enable a suspect to neutralize its alarm and disablement features.

Particular care should be exercised when discussing the vehicle's capabilities with suspects who have been arrested during an activation. Except where necessary to process an arrest and initiate prosecution, disclosure of operational information to defendants and/or defense attorneys shall occur only through the formal discovery process administered by the District Attorney's Office.

Use of the term "bait car" on the police radio or in any conversation that may be overheard by the public is prohibited. The radio code 35B (35 Baker) shall be used in its place per current WCCCA policy.

707.7 TRAINING

Because the bait vehicle is a standard automobile with no unique driving features, special training is not required to transport the vehicle from one location to another. Any employee with a valid driver's license and authority to operate a police vehicle may drive the bait vehicle with prior approval from any supervisor with notification made to the CCU Sergeant as applicable.

No employee may set or adjust the vehicle's sensors, cameras, alarm systems or bait items unless specifically trained to and directed to do so by the CCU Sergeant.

Tigard Police Department

Policy Manual

Bait Car Policy

General training on how to reset the alarm and tags and how to disable the alarm and tag after a valid activation will be provided by the CCU Sergeant or designated team members to all supervisors and any others that may be involved in an activation.

Chapter 8 - Support Services

Crime Analysis

800.1 PURPOSE AND SCOPE

Crime analysis should provide currently useful information to aid operational personnel in meeting their tactical crime control and prevention objectives by identifying and analyzing methods of operation of individual criminals, providing crime pattern recognition, and providing analysis of data from field interrogations and arrests. Crime analysis can be useful to the department's long range planning efforts by providing estimates of future crime trends and assisting in the identification of enforcement priorities.

800.1.1 CRIME ANALYSIS UNIT

The Crime Analysis Unit (CAU) will be the central unit for information exchange. Criminal information and intelligence reports can be submitted to the Records Section for distribution to all divisions within the department through daily and special bulletins.

800.2 DATA SOURCES

Crime analysis data is extracted from many sources including, but not limited to:

- Crime reports
- Field Interview cards
- Parole and Probation records
- Computer Aided Dispatch data
- Portland Police data system (PPDS)
- Uniform Crime Reporting (UCR) data
- Oregon Department of Transportation
- Oregon Traffic Safety Commission
- LINX

800.3 CRIME ANALYSIS FACTORS

The following minimum criteria should be used in collecting data for Crime Analysis:

- Frequency by type of crime
- Geographic factors
- Temporal factors
- Victim and target descriptors
- Suspect descriptors
- Suspect vehicle descriptors
- Modus operandi factors
- Physical evidence information

800.4 CRIME ANALYSIS DISSEMINATION

For a crime analysis system to function effectively, information should be disseminated to the appropriate units or persons on a timely basis. Information that is relevant to

Tigard Police Department

Policy Manual

Crime Analysis

the operational and tactical plans of specific line units should be sent directly to them. Information relevant to the development of the department's strategic plans should be provided to the appropriate staff units. When information pertains to tactical and strategic plans, it should be provided to all affected units.

Youth Courts

801.1 PURPOSE AND SCOPE

The purpose of this policy is to establish the procedures that will be utilized in the handling and processing of juvenile custody reports and referrals. Additionally, it outlines the specific responsibilities of Police Officers, the Youth Services Programs Specialist (YSPS), and the Records Section when dealing with all juvenile cases.

801.2 POLICY OF DEPARTMENTS

There are two entities that delegate juvenile cases to the Tigard Peer Court. Those entities are the Washington County Juvenile Department and the Tigard Municipal Court. The Washington County Juvenile Department has ultimate authority over what venue may hear a juvenile case and what type of cases may be deferred or allowed to proceed in a diversion program.

801.2.1 WASHINGTON COUNTY JUVENILE DEPARTMENT

The Juvenile Department maintains overall responsibility for all juvenile cases and will specifically authorize what cases may be heard by the Tigard Municipal Court and by the Tigard Peer Court. Copies of all juvenile related cases are sent to the Washington County Juvenile Department. Coordinators for the Tigard Municipal Court and the Tigard Peer Court must contact the Washington County Juvenile Department and seek permission to hear cases in their venue. Although there is an established list of crimes and status offenses that are typically deferred, permission must be obtained for each individual case.

All juvenile cases involving lodged custodies, or when directed by the juvenile authority, will be directly referred to the Washington County Juvenile Department.

801.2.2 TIGARD MUNICIPAL COURT

The Washington County Juvenile Department has authorized the Tigard Municipal Court to hear approved juvenile cases. This allows the local community the opportunity to work with its juvenile offenders. Tigard Municipal Court is authorized to handle all juvenile misdemeanor crimes; except for reckless burning, and drug and alcohol cases. Tigard Municipal Court may also handle traffic and non-traffic infractions, as well as status offences. To be referred to the Tigard Municipal Court the offender must be 14 to 17 years of age, a first time offender, and reside within Washington County. In most cases, the Tigard Municipal Court will receive referrals from the Youth Services Program Specialist (YSPS). These referrals will typically be overflow cases from the Tigard Peer Court or cases that do not qualify for the Tigard Peer Court diversion program.

801.2.3 TIGARD PEER COURT

The Tigard Peer Court is a diversion program whereby youth that have committed first time misdemeanors, violations, status offences, and some traffic infractions are judged through a court system of their peers. Peer Court is not a court where youth offenders are found innocent or guilty. Instead, Peer Court is a diversion program for youth offenders to receive sanctions from their peers after admitting culpable responsibility for their offenses. Juveniles that wish to challenge their involvement are not eligible for Tigard Peer Court. Those contested cases will be referred to the Tigard Municipal Court or to the Washington County Juvenile Department where they have that option.

Tigard Police Department

Policy Manual

Youth Courts

The advantage of going to Tigard Peer Court is that a juvenile's criminal record (for that particular offence) will be expunged upon successful completion of the Tigard Peer Court program. Juveniles that fail to comply with the Peer Court program, or fail to complete all aspects of their sentence, will be referred to the Washington County Juvenile Department or to the Tigard Municipal Court for prosecution.

The ultimate goal of the Tigard Peer Court is to deter youth from committing additional offenses through education and accepting responsibility for their actions. The criteria for a juvenile to be referred to Peer Court are as follows:

- (a) Offender is 12 to 17 years of age
- (b) First time offender
- (c) Has committed a misdemeanor, violation, status offense or minor traffic infraction
- (d) Admission of guilt
- (e) Positive attitude
- (f) Voluntary agreement to take part in the Peer Court process

Offenses heard in Peer Court are:

- (a) Minor traffic infractions

801.3 PROCEDURE

Officers Juvenile incidents resulting in an arrest will be handled in accordance with Tigard Police Policies: 321.6.4 (Juvenile Offenders) and 324 (Temporary Custody of Juveniles). In cases where the juvenile offender is not lodged (by direction of the Washington County Juvenile Department), and the offense is not traffic related, Officers will complete a Tigard Police Custody report and provide the juvenile offender with a completed Tigard

Tigard Police Department

Policy Manual

Youth Courts

Youth Referral Information form. The juvenile offender will be released to a responsible adult unless otherwise directed by the Washington County Juvenile Department. The custody report will serve as an official referral from the Tigard Police Department and the appropriated venue will be determined by the Tigard Police Youth Services Program Specialist (YSPS). The juvenile offender (and responsible adult) will be contacted at a later date with instructions/requirements on how to proceed with their case.

All traffic related offenses require a written citation as the charging instrument. No custody report is needed unless the traffic offense rises to the level of a crime. See Tigard Police Policy 420.5 (Juvenile Citations).

Youth Services Program Specialist (YSPS) The YSPS acts as the youth court coordinator for the Tigard Police Department and is responsible for the screening and venue recommendation for cases involving juvenile arrests. The YSPS (or designee) may conduct an initial records check to determine if a juvenile offender is eligible for diversion. The next step in the diversion process is to contact the Washington County Juvenile Department and determine which of the three mentioned juvenile courts will handle the case in question. If Tigard Youth Courts are granted permission to proceed with the case, the YSPS will coordinate the referral and the Washington County Juvenile Department will receive a copy.

Records Once a case involving the arrest of a juvenile is received by the Records Unit, the case will be handled in accordance with Tigard Police Policies: 806 (Records Section Procedures), and 810 (Records Release and Security). The YSPS will be given a copy of all cases involving the arrest of a juvenile. The YSPS will then make a determination (in conjunction with permission from the Washington County Juvenile Department) as to where the case will be heard. The YSPS will then attach a venue decision and forward the case back to the Records Unit where all necessary data entry and dissemination will occur. Once the venue decision is made, the Washington County Juvenile Department will receive a copy of each juvenile arrest case € regardless of which court will be hearing the case.

All cases involving juveniles that are lodged, or as directed by juvenile authority, (indicated in the custody report) will be forwarded directly to the Washington County Juvenile Department. These cases may not be considered for diversion and the Washington County Juvenile Department requires a copy of all reports within 24 hours of the juvenile's incarceration.

Peer Court Process If a case meets the criteria to be heard in Peer Court, the YSPS will be responsible for contacting the defendant's parents (or responsible adult) to explain the Peer Court process. It is the discretion of the YSPS to determine if the case will be heard in Peer Court. For those going on to Peer Court, a date will be set for the hearing and an information packet will be provided. The YSPS will schedule all Peer Court cases and ensure the participation of all volunteer youth (Peer Court Body) and volunteer adults (Judges and Supporting Staff). When possible, a uniformed police officer (typically a School Resource Officer) will be present to provide court security and to assist as needed.

For all Tigard Peer Court cases the YSPS will keep records of each individual Peer Court case and report each outcome to the Washington County Juvenile Department. If the offending youth successfully completes all aspects of the Peer Court program, the YSPS will notify the Washington County Juvenile Department, along with the Tigard Police Records Unit, and request expungement of the criminal record. If the offending youth does not complete the Peer Court process, the YSPS will forward the case to the Washington County Juvenile Department or to the Tigard Municipal Court for prosecution.

801.4 MEMORANDUM OF UNDERSTANDING

The memorandum of understanding (MOU) between the Washington County Juvenile Department and the Tigard Peer Court will be reviewed annually to ensure compliance and to make any required changes. The YSPS will prepare an annual memorandum (to be submitted with the MOU) to the Services Division Commander that includes the following:

- The number of Tigard Peer Court cases heard
- A tally of the specific offenses
- Number of successful completions
- Number of cases (unsuccessful) sent back to the Washington County Juvenile Department for prosecution
- a tally of the sentences that were imposed.

Property and Evidence

804.1 PURPOSE AND SCOPE

This policy provides for the proper collection, storage, and security of evidence and other property. The Property/Evidence Section is responsible for intake, storage and disposal of all property received. The Property/Evidence Section will maintain an accurate and complete record of all property that comes into its custody.

804.2 DEFINITIONS

Property - Includes all items of evidence, items taken for safekeeping and found property.

Evidence - Includes items taken or recovered in the course of an investigation that may be used in the prosecution of a case. This includes photographs and latent fingerprints.

Safekeeping - Includes the following types of property:

- Property obtained by the Department for safekeeping such as a firearm
- Personal property of an arrestee not taken as evidence
- Property taken for safekeeping under authority of a law

Found Property - Includes property found by an employee or citizen that has no apparent evidentiary value and where the owner cannot be readily identified or contacted.

804.3 PROPERTY HANDLING

The employee who recovers evidence or finds property is responsible for transporting and booking, except when that responsibility is assumed by or assigned to another employee. Care should be taken to maintain the Chain of Custody of all evidence. When not specifically addressed by this manual, collection and handling of all property and evidence should follow the guidelines established by the *State of Oregon Physical Evidence Manual*. All items to be submitted into Property/Evidence must be listed on a property receipt prior to acceptance.

Employees will provide a receipt (yellow copy of property/evidence receipt) for all items of property or evidence that are received or taken from any person. If no person is present, and the property or evidence is removed from private property or a vehicle, the employee will leave a receipt prominently placed on the private property or the vehicle.

Where ownership can be established as to found property with no apparent evidentiary value, such property may be released to the owner without the need for booking into evidence. The property evidence receipt must be completed to document the release of property not booked and the owner shall sign the form acknowledging receipt of the item(s).

804.3.1 PROPERTY BOOKING PROCEDURE

All property must be booked prior to the employee going off-duty unless otherwise approved by a supervisor. Employees booking property shall observe the following guidelines:

- (a) Complete the property evidence receipt describing each item of property separately, listing all serial numbers, owner's name, finder's name, and other identifying information or markings.
 - (b) Properly package or tag the property as indicated in this policy below.
-

Tigard Police Department

Policy Manual

Property and Evidence

- (c) Once items are booked on a property evidence receipt and properly packaged, place all packages in the temporary evidence lockers found in the evidence processing room and secure with a lock or, for smaller packages, place in the evidence door locker "D".
- (d) When the property is too large to be placed in a locker, the item may be taken to the off-site evidence storage (Burnham Storage Units, F28 or F29). Indicate on the completed property evidence receipt the off-site location in which the property was placed and place the key in locker "D".
- (e) The original property evidence receipt (white copy) shall be submitted with the case report. The pink copy shall be placed with the property in a temporary evidence locker or with the property if property is stored some where other than an evidence locker. The manila copy shall be placed in the property/evidence mailbox.

804.3.2 NARCOTICS AND DANGEROUS DRUGS

All narcotics and dangerous drugs (including paraphernalia as defined by Oregon Revised Statutes 475.525(2)) shall be booked separately using a separate property evidence receipt.

The officer seizing the narcotics and dangerous drugs shall place them in the designated locker.

804.3.3 EXPLOSIVES/HAZARDOUS SUBSTANCES

Explosives that are known or suspected to be armed or live, other than fixed ammunition, should not be retained in the police facility. All fireworks, railroad flares, or fuses that are considered safe will be transported to the Fire Department.

Officers who encounter an explosive device shall immediately notify their immediate supervisor and/or Patrol Lieutenant. The Oregon State Police Explosives Unit will be called to handle situations involving explosive devices and all such devices will be released to them for disposal. In the event of military ordnance, the closest military unit shall be notified and they will be responsible for removal of the device.

Flammable liquids, corrosive or caustic chemicals or other potentially hazardous materials (i.e. clanlab equipment, car batteries, propane tanks, etc.) may not be stored in the property room. In most cases, they should not be taken into custody. Disposal is the responsibility of the owner.

804.3.4 EXCEPTIONAL HANDLING

Certain property items require a separate process. The following items shall be processed in the described manner:

- (a) Bodily fluids such as blood or semen stains shall be air dried prior to booking and packages should be labeled with a biohazard sticker
- (b) License plates found not to be stolen or connected with a known crime, require a property evidence receipt. Once submitted, the Property/Evidence Specialist will make arrangements to return the plates to the Department of Motor Vehicles.
- (c) All bicycles and bicycle frames require a property evidence receipt. Completed property tags will be securely attached to each bicycle or bicycle frame. The property will be placed in the off-site evidence storage unit F29.
- (d) All cash shall be counted in the presence of a supervisor and the currency pouch initialed by the booking officer and the supervisor. The Patrol Lieutenant shall be contacted for cash in excess of \$1,000.

Tigard Police Department

Policy Manual

Property and Evidence

- (e) Officers shall use the bill counter located in the evidence processing room to accurately count all bills and to detect any counterfeit bills. If counterfeit bills are found, these shall be packaged and listed separately on the property and evidence report with the indication that they were detected as being counterfeit. The property and evidence report with the counterfeit bills should state in the narrative if the bills can be immediately released to the U.S. Secret Service or clarify the need to retain for other follow-up.

City property, unless connected to a known criminal case, shall be booked on a property evidence receipt prior to being released directly to the appropriate City department. In cases where no responsible person can be located, the property should be booked for safekeeping in the normal manner.

804.3.5 COLLECTION AND PRESERVATION OF DNA EVIDENCE

Because DNA evidence can play a key role in establishing guilt or innocence it is important that such evidence be collected, handled and preserved in a manner that will maintain its integrity for future testing. Unless impracticable to do so, officers should collect samples of all biological evidence that may reasonably be used to incriminate or exculpate any person as part of any criminal death investigation or a sex crime listed in ORS 181.594. The Property and Evidence Specialist will be responsible to ensure that biological evidence is preserved in an amount and manner that is sufficient to develop a DNA profile.

Collection and preservation should follow established protocols as outlined in the Oregon Physical Evidence Manual.

804.3.6 COLLECTION AND PRESERVATION OF SAFE KITS

Under current law, victims of sexual assault may seek medical assessment and choose not to make a report to law enforcement, yet still have evidence collected and preserved. The Tigard Police Department will collect and maintain the chain of evidence for all Oregon State Police Sexual Assault Forensic Evidence Kits (SAFE Kits) and any associated evidence collected by medical facilities in this jurisdiction for victims of sexual assault, regardless of where the assault may have occurred. Victims who choose to remain anonymous and not make a report shall not be required to do so (ORS 147.397).

The collection and preservation of SAFE Kits from anonymous victims shall be handled by the Support Services Division, which shall assign a detective to ensure their proper collection and preservation. When a medical facility notifies this department that evidence of a sexual assault has been collected and a SAFE Kit is available, the assigned detective shall be responsible for the following:

- (a) Respond promptly to the medical facility to retrieve the evidence.
- (b) Provide a unique case number to a responsible representative of the medical facility, which will be provided to the victim. The case number will be used to identify all associated evidence so that a chain of evidence can be maintained in the event the victim later decides to report the assault.
- (c) Ensure that no identifying information regarding the victim, other than the case number, is visible on the evidence packaging.
- (d) Prepare and submit an evidence report and book the evidence in accordance with current evidence procedures.

SAFE Kits collected for victims whose identity is not disclosed should be maintained in the same manner as other SAFE Kits, but should not be opened until or unless the victim reports

Tigard Police Department

Policy Manual

Property and Evidence

the assault. Opening SAFE Kits may compromise the admissibility of evidence in the event of a prosecution.

Where the identity of the sexual assault victim is not disclosed, a SAFE Kit and related evidence should be retained for 25 years, unless directed otherwise by a Support Services Division supervisor. However, in all cases such evidence shall be retained for a minimum of 180 days (ORS 147.397).

804.4 PACKAGING OF PROPERTY

Certain items require special consideration and shall be booked separately as follows:

- (a) Narcotics and dangerous drugs
- (b) Firearms (ensure they are unloaded and booked separately from ammunition). A flex cuff or similar device should be inserted through the chamber, barrel, or cylinder whenever possible.
- (c) Property with more than one known owner
- (d) Paraphernalia as described in Oregon Revised Statutes 475.525(2)
- (e) Fireworks and other hazardous materials
- (f) Contraband
- (g) Currency

804.4.1 PACKAGING CONTAINER

Employees shall package all property in a suitable container available for its size and type. Knife boxes should be used to package knives. All packages containing evidence must be sealed with evidence tape, initialed, and dated across the seal. The case number, property evidence receipt number, contents, date and time of recovery, location of recovery, recoverer's name, type of crime, and suspect, victim or owner's name (if known) shall be written on the outside of the packaging.

Needles or syringes will normally be disposed of in a sharps container and will not be submitted into property evidence; however when required for evidence in a serious crime or in a major investigation, a syringe tube should be used for packaging.

804.4.2 PACKAGING NARCOTICS

The officer seizing narcotics and dangerous drugs shall retain such property in their possession until it is properly weighed, packaged, tagged, and placed in the designated narcotics locker. Prior to packaging, and if the quantity allows, a presumptive test should be made on all suspected narcotics. If conducted, the results of this test shall be included in the officer's report.

Narcotics and dangerous drugs shall be packaged for submittal in an envelope or package of appropriate size available in the evidence processing room and sealed with evidence tape. The booking officer shall initial and date across the seal. Narcotics and dangerous drugs shall not be packaged with other property or associated paraphernalia, these items must be packaged and labeled separately for processing.

Prior to packaging for submittal, all narcotics and dangerous drugs shall be weighed using the scale located in the evidence processing room. Weights may be measured in grams or ounces depending on the substance being weighed. Indication of the weight shall be clearly

Tigard Police Department

Policy Manual

Property and Evidence

made on packaging for submittal and noted correspondingly on the property and evidence report. This indication shall include:

- (a) Whether the weight includes the packaging or not (gross or net weight).
- (b) A description of the packaging if it is included in the indicated gross weight (for example. "3.2 grams of green leafy vegetable matter, suspected marijuana w/Altoids box")

804.4.3 TESTING, WEIGHING AND PACKAGING OF METHAMPHETAMINE CONCEALED IN LIQUID

Special attention shall be given to the testing, weighing and packaging of methamphetamine concealed in liquid. Gloves shall be used at all times when handling this substance.

To test suspected methamphetamine concealed in liquid, the following steps must be followed:

- (a) Put on a set of new gloves
- (b) Mix liquid if possible
- (c) Using a long sterile cotton swab, dip tip 1/4" into the liquid and remove
- (d) Let the swab used air dry for at least 30 seconds
- (e) Using a set of scissors, clip the dried tip off the swab into a field test kit marked "15 Methamphetamine/MDMA Reagent"
- (f) Follow instructions on the field test kit to determine presumptive results
- (g) Once the test results have been determined, the field test kit will be discarded
- (h) Note the results and mention the method in your report

The liquid remaining shall then be weighed in its original container using the scale located in the evidence processing room (making an indication of the gross weight and the container weighed on the property and evidence report).

Using appropriately sized green lidded glass containers located in the property and evidence room, weigh the container and the lid while they are empty and record the weight. After transferring the liquid from the original container into the glass container and sealing with the green lid, then re-weigh and process this item indicating the final weight on the packaging and the property and evidence report. Keep the original container the liquid was seized in and package it separately from the glass containing the liquid.

804.4.4 RIGHT OF REFUSAL

Any item submitted to the Property and Evidence Unit that is not properly packaged and/or documented as specified in this policy shall be returned to the submitting employee's direct supervisor or lieutenant for correction. If an item is refused, the Property and Evidence Specialist shall place the item into the smallest safe locker available and attempt to notify the supervisor immediately if possible. If the supervisor is not on duty or otherwise determined to be unavailable, the Property and Evidence Specialist will put the key to that locker in the supervisor's mailbox with the "Right of Refusal" form indicating what corrective action is necessary before the evidence will be accepted.

804.6 PROPERTY ROOM SECURITY

Access to the Property and Evidence storage areas is limited to Property and Evidence Specialists and the Property Evidence Supervisor unless visitors are logged in and out; including the time, date and purpose of entry. All personnel entering the Property and Evidence storage areas must be accompanied at all times by a Property and Evidence Specialist.

Annual audits will be completed of the Property and Evidence Storage areas and functions with an audit report given to the Chief of Police.

804.6.1 RESPONSIBILITY OF OTHER PERSONNEL

Every time property is released, transferred or received, an appropriate entry on the property evidence receipt or in the property evidence database shall be completed to maintain the chain of possession. If an officer wants any evidence taken to the crime lab he/she must complete an Oregon State Police Forensic Services Request form. The completed 3-part form shall be given to the property custodian, usually at the time of submitting the property evidence receipt and packaged evidence, for delivery to the crime lab.

The transporting employee will check the evidence out of property and evidence, indicating the date and time on the property evidence receipt or in the property and evidence database and the request for laboratory analysis.

The Property and Evidence Specialist releasing the evidence must complete the required information on the property evidence receipt or in the property evidence database and the evidence. Upon delivering the item involved, the employee will receive a receipt indicating the date and time and the employee to whom it was delivered.

804.6.3 STATUS OF PROPERTY

Each person receiving property will make the appropriate entry to document the chain of evidence. Temporary release of property to officers for investigative purposes, or for court, shall be noted in the property and evidence database, stating the date, time and to whom released.

The Property and Evidence Specialist shall obtain the signature of the person to whom property is released, and the reason for release. Any employee receiving property shall be responsible for such property until it is properly returned to Property and Evidence or properly released to another authorized person or entity.

The return of the property will be recorded in the property and evidence database, indicating date, time, and the person who returned the property.

804.6.4 RELEASE OF PROPERTY

Property may be released to a verified owner at the discretion of the Property and Evidence Specialist without further authorization. A Property and Evidence Specialist shall release the property upon proper identification being presented by the owner for which an authorized release has been received. A signature of the person receiving the property shall be recorded on the original property evidence receipt or in the property and evidence database. After release of all property entered on the property evidence receipt The property evidence receipt shall be forwarded to the Records Section for filing with the case. If some items of property have not been released the property evidence receipt will remain with the Property and Evidence section. Upon release, the proper entry shall be documented in the property and evidence database.

Records Section Procedures

806.1 PURPOSE AND SCOPE

The Records Supervisor shall maintain the current Department Records Section Procedures Manual to reflect the procedures being followed within the Records Section. Policies and procedures that apply to all employees of this Department are contained in this chapter.

806.1.1 NUMERICAL FILING SYSTEM

Case reports are filed numerically within the Records Section by Records Section personnel.

Reports are numbered commencing with the last two digits of the current year followed by our agency's numeric station identification followed by a sequential number beginning with 00001 starting at midnight on the first day of January of each year. As an example, case number 09-200001 would be the first new case beginning January 1, 2009. The use of the number 2 at the beginning of each case number designates Tigard Police Department within the WCCCA dispatch system.

Officers shall request case numbers through dispatch prior to clearing an incident to ensure that a case number is linked to the CAD incident.

806.1.2 RECORDS RETENTION

All Department records shall be retained and purged in a manner consistent with applicable provisions of the Oregon Revised Statutes and Oregon Administrative Rules.

806.2 FILE ACCESS AND SECURITY

All reports including, but not limited to, initial, supplemental, follow-up, evidence, and all reports critical to a case shall be maintained in a secure area within the Records Section accessible only to authorized Records Section personnel. Access to report files after hours or when Records Section personnel are otherwise not available may be obtained through the Patrol Lieutenant.

Should an original report be needed for any reason, the requesting employee shall first obtain authorization from the Records Supervisor. All original reports removed from the Records Section shall be recorded on the Report Check-Out Log which shall constitute the only authorized manner by which an original report may be removed from the Records Section.

806.3 ORIGINAL FILES

Original reports shall not be removed from the Records Section without supervisory permission. Photo copies of original reports maintained in the Records Section will only be

If the reports also relate to the investigation or arrest of other persons not described in the court order, any mention of the subject of the court order will be completely removed from the report and replaced with "expunged". 806.6 REPORTING CRIME STATISTICS

Uniform Crime Reporting (UCR) codes shall be assigned to all crime reports in accordance with the Federal Bureau of Investigation's Uniform Crime Reporting Program. It is the responsibility of Records Section personnel to enter such information into the Tigard Police Department data system and ensure that such information is transmitted on a monthly basis to the Oregon State Police Law Enforcement Data System (LEDS) (Oregon Revised Statutes 181.550).

806.7 RECORDS RETENTION

Police records shall be maintained and retained in accordance with Oregon Administrative Rules 166-200-0005 through 166-200-0145; in which OAR 166-200.100 is specific to the retention of police records, and any other applicable public records law or administrative rule, including the most current edition of the Oregon State Archives Records Retention Schedule which has been adopted by the Tigard City Council.

All evidence seized and/or processed pursuant to this policy shall be done so in compliance with clearly established Fourth Amendment and search and seizure provisions.

Any digital information, whether obtained in the line of duty, training events, or under any other circumstance, using a digital camera, computer, personal communications device, recorders, and any other electronic device is the property of the City and not be used for personal reasons or for other outside purposes.

Computer equipment requires specialized training and handling to preserve its value as evidence. Officers should be aware of the potential to destroy information through careless or improper handling, and utilize the most knowledgeable available resources. When seizing a computer and accessories the following steps should be taken:

- (a) Photograph each item, front and back, specifically including cable connections to other items. Look for a phone line or cable to a modem for Internet access.
- (b) Do not overlook the possibility of the presence of physical evidence on and around the hardware relevant to the particular investigation such as fingerprints, biological or trace evidence, and/or documents.
- (c) If the computer is off, do not turn it on.
- (d) If the computer is on, do not shut it down normally and do not click on anything or examine any files.
 1. Photograph the screen, if possible, and note any programs or windows that appear to be open and running.
 2. Disconnect the power cable from the back of the computer box. For laptops, disconnect any power cable from the case and remove the battery.

- (h) At minimum, officers should document the following in related reports:
 1. Where the computer was located and whether or not it was in operation.

 3. Who claimed ownership.
 4. If it can be determined, how it was being used.

Tigard Police Department

Policy Manual

Officers should contact a certified forensic computer examiner for instructions or a response to the scene. It may be possible to perform an on-site inspection, or to image the hard drive only of the involved computer. This should only be done by someone specifically trained in processing computers for evidence. Cases involving networks require specialized training which is available through the Northwest Regional Computer Forensic Lab, the Oregon State Police or another agency having certified examiners.

814.4 SEIZING PERSONAL COMMUNICATION DEVICES

Personal communication devices such as cell phones, PDAs or other hand-held devices connected to any communication network must be handled with care to preserve evidence that may be on the device including messages, stored data and/or images.

- (a) Officers should not attempt to access, review or search the contents of such devices prior to examination by a forensic expert. Unsent messages can be lost, data can be inadvertently deleted and incoming messages can override stored messages.
- (b) Do not turn the device on or off. The device should be placed in a solid metal container such as a paint can or in a faraday bag, to prevent the device from sending or receiving information from its host network.
- (c) When seizing the devices, also seize the charging units and keep them plugged in to the chargers until they can be examined. If the batteries go dead all the data may be lost.

814.5 DIGITAL EVIDENCE RECORDED BY OFFICERS

Officers handling and submitting evidence recorded by officers and stored digitally using digital cameras, audio or video recorders will comply with these procedures to ensure the integrity and admissibility of such evidence.

814.5.1 COLLECTION OF DIGITAL EVIDENCE

Officer shall tape, seal, and initial the back of the envelope prior to placing in evidence boor "D".
- (d) The Property and Evidence Specialist will make a copy of the memory card using appropriate storage media. Once it is verified that the images are properly transferred to the storage media, the Property and Evidence Specialist will erase the memory card for re-use. The storage media will be marked as the original.

Traumatic Incident Policy

821.1 PURPOSE AND SCOPE

The purpose of this policy and procedure is to provide for assistance to members involved in any type of traumatic incident as defined within.

821.2 DEFINITIONS

Traumatic Incident - A situation faced by personnel, which causes them to experience unusually strong emotional reactions that have the potential to interfere with the ability to function either at the scene or at a later time. A situation does not have to be a major disaster to be classified as a traumatic incident.

Directly Involved - Those personnel who were immediately present and in a position to observe the traumatic incident.

Administrative Reassignment - A five-calendar day period in which the department member is relieved of their regular duties. During this time the department member shall remain available for interviews, appointments or other administrative assignments related to the incident for which they were placed on administrative reassignment. If the five day period encompasses the members regular days off, any interviews done with TPOA members on the member's days off will be subject to the overtime provisions of the TPOA contract. Interviews done on the days off of non-TPOA members will be subject to the respective rules for their employment classification.

The following are examples of traumatic incidents:

- The serious injury or death of any Tigard Police personnel in the line of duty
- The serious injury or death of a suspect or any civilian bystander resulting from police operations
- A case which is charged with profound emotion, such as the sudden death of an infant under particularly tragic circumstances
- A case involving a Department member(s) which attracts extremely unusual attention from the news media
- Loss of life which follows extraordinary and prolonged expenditures of physical and emotional energy in a rescue attempt
- An incident in which the circumstances are so unusual or the sights and sounds are so distressing as to produce a high level of immediate or delayed emotional reaction which surpasses normal coping mechanisms

821.3 ADMINISTRATIVE REASSIGNMENT

- Any officer(s) whose actions or use of force results in a death or serious physical injury shall be released from the scene in accordance with Policy 300. They will then be placed on mandatory administrative reassignment with pay for the duration of the officer's shift and for a minimum of five days.

Administrative reassignment is in the interest of the officer(s) and the department and shall not be waived. The assignment shall not be interpreted to imply or indicate that the officer

Tigard Police Department

Policy Manual

Traumatic Incident Policy

has acted improperly. If the officer(s) is in need of additional administrative time off, sufficient time shall be granted without penalty.

- Counseling services shall be made available for the officers and their families/significant others through the Chief of Police. Contacts between involved officers and the counseling service will be confidential.
- Any witness officer who was directly involved may be placed on administrative reassignment at the discretion of the Chief of Police.

In all cases where serious injury or death results from a use of deadly force, the involved officer(s) shall meet with a Department and Association approved psychologist or psychiatrist experienced in assisting law enforcement personnel and their families to recognize and cope with the natural responses to a traumatic incident. The meeting is mandatory and cannot be waived. A list of at least three professionals specializing in this field will be established and kept current. The officer will have the choice in determining which counselor he/she visits.

All conversations between the officer, their families/significant others, and the debriefing psychologist or psychiatrist are considered confidential and subject to the doctor-patient privilege. This meeting will take place while the officer is on administrative reassignment.

- Mandatory follow-up meetings will take place with the psychologist/psychiatrist at the one (1) month, six (6) month and one (1) year periods after the traumatic incident. They should occur on the anniversary or as close to the anniversary of the incident as possible.
- Officers involved in traumatic incidents where deadly force is used will have available the services of the department's chaplain/Critical Incident Stress Debriefing (CISD), Washington County S.T.I.C. team or the Portland Police T. I. C. team.
- The effects of a traumatic incident can affect the officer's mental well being as well as their ability to perform their job. If an employee is involved in a "non deadly force" traumatic incident, their supervisor should be made aware of the incident. The supervisor will be required to monitor the employee for signs of unexpected changes in work behavior and/or performance. If the supervisor determines that the employee is showing behavioral changes that are adversely affecting the employee's work performance, the Division Commander may place the employee on Administrative Leave, with pay, and refer the employee to the Employee Assistance Program.

821.4 SPIRITUAL SUPPORT

All cases involving traumatic incidents, the involved member and their family/significant other will have available to them the services of a chaplain. The purpose is to provide the member and/or their family/significant other with a source of professional consultation and aid them in dealing with the potential moral and ethical after effects of a traumatic incident.

821.5 RETURN TO DUTY

- In determining the appropriate administrative action to take in ending the officer(s) administrative reassignment and returning the officer to regular duty, the Chief of Police may seek and consider the professional opinion of any psychologist/psychiatrist and/or treating physician as to:
 - (a) Whether the officer should be expected to report to full duty in his/her regular assignment or whether the officer needs additional recuperation time and, if so, how much additional time is recommended.

Tigard Police Department

Policy Manual

Traumatic Incident Policy

- (b) Whether any modifications of the officer's regularly assigned duties should be considered by the department in order to facilitate the officer's speedy return to full productivity and, if so, the nature and duration of the recommended modifications.
 - (c) Additional psychological evaluation, assistance, and counseling will be made available if it is deemed necessary and will result in the employee's ability to return to or continue active duty.
- The Department will be sensitive to the personal needs of the member and the member's family, and furnish all possible support and assistance.
 - If an officer involved in a use of deadly force has returned to work prior to the Grand Jury hearing, the officer will have the option of taking the day prior to and the day of the Grand Jury hearing as administrative leave days, work the desk or work as a two person vehicle.

821.6 CASUALTY ASSISTANCE PLAN

The Department has developed a Casualty Assistance Plan that establishes a best practices program and identifies an operational framework in the event of a serious injury or death of a Department employee or volunteer. The response to a casualty will be based on the circumstances of the incident and reviewed on a case-by-case basis. The beginning of the plan addresses "line-of-duty" death incidents and other operational protocol in cases of on-duty serious injury and other death related events. The plan may be enacted in whole or in part at the discretion of the Chief of Police or the appointed designee. The plan may be used to assist of "non-duty" related deaths of current or retired employees. The Department's role is to provide all necessary support and emotional care for the affected employee's family during and after the traumatic period. Core responsibilities include, but are not limited to the following:

- Notifying the family of the casualty and the circumstances known at the time.
- Assisting the family at the hospital.
- Assisting the family with funeral and burial arrangements.
- Assisting the family with legal and benefit matters.
- Assisting the family during criminal proceedings.
- Providing long-term support and keeping apprised of family needs.

The plan should be referenced and followed in the event of a casualty. A copy of the plan can be located at I:PD/Casualty Assistance Plan/Tigard PD 2011 Casualty Assistance Plan.doc.

Police Officer - A sworn member of a law enforcement agency not intended to include non-sworn members of an agency, reserve officers, cadets, record clerks or similar individuals.

823.3 AUTHORITY

Every police officer of every participating law enforcement agency in Washington County has the authority to request mutual aid, to grant or refuse a request for mutual aid, and to terminate the provision of mutual aid once granted.

823.4 PROCEDURE

823.4.1 REQUESTING AID

Tigard Police Department

Policy Manual

Washington County Mutual Aid Agreement

823.4.4 CONTROL & DIRECTION OF PERSONNEL & EQUIPMENT

Once the responding agency decides to supply aid to a requesting agency, and the aid is delivered to the requesting agency in that the aid is physically present within the requesting agency's jurisdictional boundaries, the requesting agency is fully responsible for the supervision and control of the aid provided. This responsibility shall continue until the requesting agency terminates its request for aid or until the responding agency recalls the aid to the responding agency.

When the responding agency arrives on the scene within the jurisdiction of the agency requesting the aid, they will immediately report to the On-Scene Incident Commander, who is the highest ranking member at the scene. Depending on the timing of the arrival of aid, the On-Scene Incident Commander could be the original police officer dispatched to the call unit until such time that he/she is replaced by an arriving supervisor.

823.4.5 LIABILITY & RESPONSIBILITY

A responding agency's refusal to provide mutual aid to a requesting agency, or a responding agency's recall of mutual aid already provided to a requesting agency, shall not be a basis upon which the requesting agency may impose liability for damages upon the responding agency.

Each agency shall remain responsible for the acts or omissions of its respective employees, notwithstanding that the employee acted under the supervision and control of the requesting agency.

Each agency shall remain responsible for the ordinary wear and tear and routine maintenance of its respective equipment, notwithstanding that the equipment is used under the supervision and control of the requesting agency.

Temporary Holding Facility

Only after the safety and security of the prisoners is assured will personnel, not detailed to prisoner security, participate in fire suppression or other emergency activities.

The Watch Commander will ensure that any emergency evacuation of the Temporary Holding Facility is documented and that copies of those reports be forwarded to the Chief of Police with a copy to the Inspections Lieutenant.

900.7 PRISONER TELEPHONE CALLS

Every prisoner, whether adult or juvenile, detained in the Temporary Holding Facility shall be entitled to the use of a telephone.

There is no obligation for the officer to make a call on a prisoner's behalf - for example in the case of a person that is so intoxicated that he or she cannot make a call. An officer is not required to wake an intoxicated person three hours after booking so that they may complete a call.

There is also no limitation on the amount of time a prisoner's phone call must last. A prisoner should be given sufficient time on the phone to contact whomever he/she desires and to arrange for necessary items because of his/her arrest. The phone calls are not intended to be lengthy conversations and the officer may use his or judgment in determining the duration of the calls.

900.7.1 TELEPHONE CALL PROCEDURES

All calls must be made collect, unless specifically authorized by the Watch Commander or designee. Charges cannot be made to third-party numbers, motels, hotels, places of business or to credit cards. Inmates may not participate in three-way or conference calls.

Directory assistance will be limited only by the limitations imposed by the telephone company (Oregon Administrative Rules 291-130-0006). If a call cannot be completed because there is no answer or a line is busy, the inmate must hang up and try again later. Loitering near the telephones is prohibited.

As set out in Oregon Administrative Rules 291-130-0020, calls may be monitored for security purposes. Directly above each group of monitored telephones, a sign shall be posted stating in English and Spanish "Phone calls are subject to being monitored and recorded".

Calls between an inmate and an attorney, court or court official, legal aid bureau or other agency providing legal services to inmates, or any elected or appointed government official will be made on a legal telephone and will not be monitored. Designated staff will schedule

Tigard Police Department

Policy Manual

Temporary Holding Facility

and place the telephone call and verify the identity of the person called. The staff person placing the call shall leave the immediate area where the call is being placed; however, the inmate may be kept under visual supervision by staff throughout the duration of the call.

Calls normally should not be terminated before the specified time limit, except when the nature of the conversation or the conduct of the inmate:

- (c) Disrupts the operation of the facility

900.7.2 ON-GOING TELEPHONE ACCESS

Once a prisoner has completed telephone calls provided under § 900.7 and it appears that the individual is not going to be released or transferred to another custodial facility, reasonable efforts should be made to provide the prisoner with access to a telephone, as practical. In providing further access to a telephone, legitimate law enforcement interests such as officer safety, effect on ongoing criminal investigations and logistics should be balanced against the prisoner's desire for further phone access.

900.8 HANDLING OF PRISONER'S PROPERTY

Officers shall take care in the handling of prisoner's property to avoid discrepancies or losses.

Custody Searches

902.1 PURPOSE AND SCOPE

The purpose of this policy is to establish consistent department procedures which conform to Oregon Revised Statutes 131.605 to 131.625 and Oregon Revised Statutes 133.525 to 133.537, regarding lawful searches.

902.2 DEFINITIONS OF SEARCHES

Frisk or Pat-Down Search - This is the type of search used by officers in the field to check an individual for weapons. It involves a thorough patting down of clothing to locate any weapons or dangerous items that could pose a danger to the officer, the prisoner, or other prisoners (Oregon Revised Statutes 131.605).

Booking Search - This search is used in the jail and again involves a thorough patting down of an individual's clothing. All pockets, cuffs, etc., on the clothing are checked to locate all personal property, contraband, or weapons. The prisoner's personal property is taken and inventoried.

Strip Search or Visual Body Cavity Search - This is a search that requires a person to remove or rearrange some or all of his/her clothing to permit a visual inspection of the underclothing, breasts, buttocks or genitalia of such person.

Physical Body Cavity Search - This is a search that includes physical intrusion into a body cavity. Body cavity means the stomach or rectal cavity of a person, and the vagina of a female person.

902.3 PAT DOWN SEARCHES

- (a) When any officer has reasonable suspicion to believe that a person being lawfully detained may possess weapons or other dangerous items, or in such circumstances the officer reasonably believes that the individual may present a threat to officer safety, that officer may conduct a normal pat-down search of that individual (Oregon Revised Statutes 131.625)
- (b) Once placed into restraints and prior to detaining any individual in any police vehicle, an officer shall conduct a normal pat-down search of that individual. If the individual is to be arrested and transported, all weapons, contraband, and personal items will be removed from the individual and will be thoroughly inspected. Personal items will be placed in a clear plastic bag and made visible in the front seat of the patrol vehicle and will be inventoried at the holding facility. All other items will be appropriately packaged and placed into evidence.
- (c) Whenever practical, a pat-down search of an individual should be conducted by an officer of the same sex as the person being searched. Absent the availability of a same sex officer, it is recommended that a witness officer be present during any pat-down search of an individual of opposite sex as the searching officer.

902.4 BOOKING SEARCHES

Any person taken into custody may be subjected to pat-down searches, metal detector searches, and thorough clothing searches in order to discover and retrieve concealed weapons and contraband prior to being placed in a booking cell.

Tigard Police Department

Policy Manual

Custody Searches

902.5 STRIP SEARCHES

No person held at any Tigard Police Department facility shall be subjected to a strip search unless there is reasonable suspicion based upon specific and articulable facts to believe the person has a health condition requiring immediate medical attention or is concealing a weapon or contraband. Factors to be considered in determining reasonable suspicion include, but are not limited to:

- (a) The detection of an object during a pat-down search that may be a weapon or contraband and cannot be safely retrieved without a modified strip search or strip search.
- (b) Circumstances of a current arrest that specifically indicate the person may be concealing a weapon or contraband. A felony arrest charge or being under the influence of a controlled substance should not suffice as reasonable suspicion absent other facts.
- (c) Custody history (past possession of contraband while in custody, assaults on staff, escape attempts).
- (d) The person's actions or demeanor.
- (e) Criminal history (level of experience in a custody setting).

No transgender or intersex prisoner shall be searched or examined for the sole purpose of determining the prisoner's genital status. If the prisoner's genital status is unknown, it may be determined during conversations with the prisoner, by reviewing medical records, or, if necessary, as part of a broader medical examination conducted in private by a medical practitioner (28 CFR 115.115).

902.5.1 STRIP SEARCH PROCEDURES

Strip searches at Tigard Police Department facilities shall be conducted as follows:

- (a) Written authorization from the Patrol Lieutenant shall be obtained prior to the strip search.
- (b) All employees involved with the strip search shall be of the same sex as the person being searched, unless the search is conducted by authorized medical personnel (28 CFR 115.115).
- (c) All strip searches shall be conducted in a professional manner under sanitary conditions and in a secure area of privacy so that the search cannot be observed by persons not participating in the search. The search shall not be reproduced through a visual or sound recording.
- (d) Whenever possible, a second officer of the same sex should be present during the search for security and as a witness to the finding of evidence.
- (e) Employees conducting a strip search shall not touch the breasts, buttocks or genitalia of the person being searched.
- (f) The primary employee conducting the search shall prepare a written report to include:
 - 1. The facts that led to the decision to perform a strip search.
 - 2. The reasons less intrusive methods of searching were not used or were insufficient.
 - 3. The written authorization for the search, obtained from the Patrol Lieutenant.
 - 4. The name of the person who was searched.
 - 5. The name and sex of the persons who conducted the search.
 - 6. The name, sex and role of any person present during the search.

- (g) A copy of the written authorization shall be retained and made available upon request to the prisoner or the prisoner's authorized representative.
- (h) No employee should view a prisoner's private underclothing, buttocks, genitalia or female breasts while that person is showering, performing bodily functions or changing clothes unless the prisoner otherwise qualifies for a strip search. However, if serious hygiene or health issues make it reasonably necessary to assist the prisoner with a shower or a change of clothes, a supervisor should be contacted to ensure reasonable steps are taken to obtain the prisoner's consent and/or otherwise protect the prisoner's privacy and dignity.

902.6 PHYSICAL BODY CAVITY SEARCH

Should visual examination of a suspect during a strip search and/or other information lead an officer to believe that the suspect is concealing a weapon, evidence or contraband within a body cavity, the following procedures shall be followed:

- (a) No person arrested on a misdemeanor shall be subjected to a body cavity search without a search warrant
- (b) The suspect shall be kept under constant visual surveillance until a body cavity search is conducted or an alternative course of action taken
- (c) The officer shall consult with his immediate supervisor to determine whether probable cause exists to seek a search warrant for a body cavity search. The decision to seek a search warrant shall recognize that a body cavity search is highly invasive of personal privacy and is reasonable only where the suspected offense is of a serious nature and/or poses a threat to the safety of officers or others, and/or the security of the Tigard Police Department's detention operations
- (d) If probable cause exists for a body cavity search, an affidavit for search warrant shall be prepared that clearly defines the nature of the alleged offense and the basis for the officer's probable cause
- (e) On the basis of a search warrant, a body cavity search shall be performed only by an authorized agency physician or by other medically trained personnel at the physician's direction
- (f) For safety and security reasons, the search shall be conducted at the Tigard Police Department's detention facility or other authorized facility and in the room designated for this purpose
- (g) Body cavity searches shall be performed with due recognition of privacy and hygienic concerns previously addressed in this policy
- (h) The authorized individual conducting the search shall file a report with the requesting law enforcement agency. The witnessing officer shall co-sign that report

Evaluation of Employees

1002.1 PURPOSE AND SCOPE

The purpose of the evaluation system and performance summary is to:

- Communicate performance goals, standards and expectations.
- Evaluate employee performance against job standards and expectations including the relationship of the employee's position to the City's Core Values.
- Provide written documentation of employee performance.
- Assist with the development and training of employees.
- Creates a dialogue between supervisors and employees regarding job performance matters.

1002.2 POLICY

Employee performance summaries will be written based on job related factors specific to the position occupied by the employee without regard to sex, race, color, or creed. Each summary will cover a specific period and should be based on performance during that period. The employee's immediate supervisor will complete each summary. Other supervisors directly familiar with the employee's performance during the rating period should be consulted by the immediate supervisor for their input.

Performance summaries need to be completed on time, and in accordance with City policy and collective bargaining agreements. Performance summaries are to be completed on the form(s) prescribed by Human Resources.

All sworn supervisory personnel shall be sent to a DPSST approved supervisory course that includes training on the completion of performance evaluations within one year of the supervisory appointment.

Each supervisor should discuss the tasks of the position, standards of performance expected, and the evaluation rating criteria with each employee at the beginning of the rating period. When a non-probationary employee's job performance falls below the established standards of the job, the supervisor should, as soon as practical, but at least 90 days prior to the end of the annual evaluation period, advise the employee in writing in order to provide an opportunity for the employee to improve performance. The involved employee will be provided the opportunity to initial any such writing and respond in writing within 30 days, if desired. Failure to meet established performance standards is justification for a development needed rating. Rating factors that are not observed are assumed to be performed at a standard level.

1002.3 EVALUATION FREQUENCY

Employees are evaluated based on the following chart:

Tigard Police Department

Policy Manual

Evaluation of Employees

POSITION	EVALUATED EVERY	LENGTH OF PROBATION
Probationary Sworn Employees (Less than 24 months experience)	Day, Week, and Month	18 Months
Probationary Sworn Employees (At least 24 months experience)		12 Months
Non-Probationary Sworn Employees	1 Year	
Probationary Non-sworn Employees	1 Month	6 Months
Non-Probationary, Non-sworn Employees	1 Year	

1002.3.1 RESERVE OFFICER EVALUATIONS

Reserve officer evaluations are covered under Policy Manual § 350.

1002.4 MEMBER PROBATIONARY PERIOD

Non-sworn personnel are on probation for six months before being eligible for certification as permanent employees. For new employees, a goal setting is completed by the employee and supervisor within one month of hire. Sworn personnel are on probation for 18 months before being eligible for certification as permanent employees. Probationary officers are evaluated daily, weekly and monthly during their probationary period.

1002.5 PERMANENT EMPLOYEES

Permanent employees are subject to three (3) types of performance evaluations:

Regular - An Employee Performance Summary shall be completed no less than once per year for all employees. It must be completed on or before their anniversary date as provided by Human Resources.

Transfer - If an employee is transferred from one assignment to another, a goal setting form shall be completed by the new immediate supervisor within 30 days after the transfer is made.

Special - A special evaluation, commonly referred to as a Performance Improvement Plan, may be completed any time the employee's supervisor believes one is necessary due to employee performance that is deemed less than satisfactory. Generally, the Performance Improvement Plan will be the tool used to demonstrate those areas of performance deemed less than satisfactory when follow up action is planned (work plan, remedial training, retraining, etc.). The form and attached documentation shall be submitted as one package through the chain of command.

1002.5.1 RATING DEFINITIONS

When completing the Employee Performance Summary, the rater will place a check mark in the box that best describes the employee's performance. The definition of each rating category is as follows:

Exceptional Performance - Performance significantly exceeds the requirements of the job among the best in the work unit. Consistently achieves objectives at a superior level and demonstrates exceptional skills and innovation in work performance.

The city reserves the right to change any of these policies and procedures at any time. The city also has a separate set of management personnel policies for non-represented personnel and those policies prevail where appropriate over these policies. Nothing in these policies shall be interpreted as restricting or prohibiting an employee's performance of the employee's official duties.

Any prohibition stated in these policies does not apply if the employee is performing a legitimate work task as a city official or employee. Policy Manual

Communicable Diseases

1016.2.2 UNIVERSAL PRECAUTIONS

All human blood and body fluids such as saliva, urine, semen, and vaginal secretions are to be treated as if they are known to be infectious. Where it is not possible to distinguish between body fluid types, all body fluids are to be assumed potentially infectious.

1016.2.3 PERSONAL PROTECTIVE EQUIPMENT

Personal protective equipment is the last line of defense against communicable disease. Therefore, the following equipment is provided for all personnel to assist in the protection against such exposures:

- Not less than two pair disposable latex gloves (Keeping a box in the car recommended)
- Safety glasses or goggles.
- Rescue mask with a one-way valve.
- Alcohol (or similar substance) to flush skin at emergency site. (Keeping several alcohol hand wipes in the car recommend).

The protective equipment is to be kept in each police vehicle; inspected at the start of each shift and replaced immediately upon returning to the station if used or damaged during the shift, or as otherwise needed.

1016.2.4 IMMUNIZATIONS

All department personnel who, in the line of duty, may be exposed to or have contact with a communicable disease shall be offered immunization, if a vaccine for the specific disease exposure is available and medically appropriate. Such preventive immunization shall be offered at no cost to the employee (ORS 433.407 and ORS 433.416).

Coordination and approval of immunizations under this policy shall be the responsibility of the Exposure Control Officer or his/her designee.

1016.2.5 WORK PRACTICES

All personnel shall use the appropriate barrier precautions to prevent skin and mucous membrane exposure whenever contact with blood or body fluid is anticipated.

Disposable gloves shall be worn on all medical emergency responses. Disposable gloves shall be worn before making physical contact with any patient and/or when handling items (e.g., evidence, transportation vehicle) soiled with blood or other body fluids. Should one's disposable gloves become contaminated with blood or other body fluids, the gloves shall be disposed of as contaminated waste. Care should be taken to avoid touching other items (e.g., pens, books, and personal items in general) while wearing the disposable gloves in a potentially contaminated environment.

All procedures involving blood or other potentially infectious materials shall be done in a way to minimize splashing, spraying, or otherwise generating droplets of those materials.

Eating, drinking, smoking, applying lip balm, and handling contact lenses shall be prohibited in areas where a potential for an exposure exists.

1016.3 DISPOSAL AND DECONTAMINATION

The following procedures will apply to the disposal and decontamination after responding to an event that involved contact with a person's blood or body fluids:

Tigard Police Department

Policy Manual

Communicable Diseases

1016.3.1 USE OF WASTE CONTAINERS

Officers shall dispose of biohazard with the on-scene fire response vehicle, or at the attending clinic/hospital with their approval, or in an appropriately marked biohazard waste container at the station immediately upon arrival.

The biohazard waste container located at the station shall be collapsible, leakproof, red in color or appropriately labeled with a biohazard warning and routinely emptied.

1016.3.2 DECONTAMINATION OF SKIN AND MUCOUS MEMBRANES

Personnel shall wash their hands immediately (on-scene if possible), or as soon as possible following the removal of potentially contaminated gloves. Antibacterial soap and warm water or an approved disinfectant shall be used to wash one's hands, paying particular attention to the fingernails.

If an employee's intact skin contacts someone else's blood or bodily fluids or other potentially infectious materials, the employee shall immediately wash the exposed part of his/her body with soap and warm water and/or an approved disinfectant, as soon as possible. If the skin becomes grossly contaminated, body washing shall be followed by an approved hospital strength disinfectant. If large areas of the employee's skin are contaminated, the employee shall shower as soon as possible, using warm water and soap and/or an approved disinfectant. Medical treatment should be obtained.

Contaminated non-intact skin (e.g., injured skin, open wound) shall be cleaned using an approved disinfectant and then dressed or bandaged as required. Medical treatment is required.

All hand, skin, and mucous membrane washing that takes place in the station shall be done in the designated cleaning or decontamination area. Cleaning shall not be done in the kitchen, bathrooms, or other locations not designated as the cleaning or decontamination area.

1016.3.3 SHARPS AND ITEMS THAT CUT OR PUNCTURE

All personnel shall avoid using or holding sharps (needles) unless needed to do so while assisting a paramedic, or collecting them for evidence. Unless required for evidentiary reasons related to evidence preservation, employees are not to recap sharps. If recapping is necessary, a one-handed method shall be employed to avoid a finger prick. Disposal, when possible, shall be into a puncture proof biohazard container.

All sharps and items that cut or puncture (e.g., broken glass, razors, and knives) shall be treated cautiously to avoid cutting, stabbing, or puncturing one's self or any other person. In addition, if a sharp object contains known or suspected blood or other bodily fluids, that item is to be treated as a contaminated item. If the item is not evidence, touching it with the hands shall be avoided. Rather, use a device such as tongs, or a broom and a dustpan to cleanup debris. If the material must be hand held, protective gloves must be worn.

1016.3.4 DISPOSABLE PROTECTIVE EQUIPMENT

Contaminated disposable supplies (gloves, dressings, CPR mask) shall be transported with the patient or suspect in the ambulance or police vehicle. The waste material shall then be disposed of in a biohazard waste container at the hospital or police station. Disposable gloves are to be worn while placing the waste into the waste biohazard container, placing the gloves in with the waste when through.

Tigard Police Department

Policy Manual

Communicable Diseases

1016.3.5 DECONTAMINATION OF PERSONAL PROTECTIVE EQUIPMENT

After using any reusable personal protective equipment, it shall be washed or disinfected and stored appropriately. If the personal protective equipment is non-reusable (e.g., disposable gloves), it shall be discarded in a biohazard waste container as described in Policy Manual § 1016.3.4.

Any personal protective equipment that becomes punctured, torn, or loses its integrity, shall be removed as soon as feasible. The employee shall wash up and replace the personal protective equipment if the job has not been terminated. If this situation resulted in a contaminated non-intact skin event, Policy Manual § 1016.3.2 shall be implemented.

Contaminated reusable personal protective equipment that must be transported prior to cleaning it shall be placed into a biohazard waste bag and transported in the ambulance, paramedic truck or police vehicle. Gloves shall be worn while handling the biohazard waste bag and during placement into the biohazard waste container, and then included in with the waste.

1016.3.6 DECONTAMINATION OF NON-DISPOSABLE EQUIPMENT

Contaminated non-disposable equipment (e.g., flashlight, gun, baton, clothing, portable radio) shall be decontaminated as soon as possible. If it is to be transported, it shall be done by first placing it into a biohazard waste bag.

Grossly contaminated non-disposable equipment items shall be transported to a hospital, fire station, or police station for proper cleaning and disinfecting. Porous surfaces such as nylon bags and straps shall be brushed and scrubbed with a detergent and hot water, laundered and allowed to dry. Non-porous surfaces (e.g., plastic or metal) shall be brushed and scrubbed with detergent and hot water, sprayed with a bleach solution, rinsed, and allowed to dry. Delicate equipment (e.g., radios) should be brushed and scrubbed very carefully using a minimal amount of a type of germicide that is approved by Environmental Protection Agency (EPA) .

While cleaning equipment, pay close attention to handles, controls, portable radios, and corners (tight spots). Equipment cleaning shall not be done in the kitchen, bathrooms, or other areas not designated as the cleaning/decontamination area.

Contaminated equipment should be cleaned using an approved EPA germicide or a 1:100 solution of chlorine bleach (one-quarter-cup of bleach per one gallon of water) while wearing disposable gloves and goggles. Large particles of contaminants such as, vomit, feces, blood clots, etc. should first be removed (using a disposable towel or other means to prevent direct contact) and properly disposed of.

1016.3.7 DECONTAMINATION OF CLOTHING

Contaminated clothing such as uniforms and undergarments shall be removed as soon as feasible and rinsed in cold water to prevent the setting of bloodstains. If the clothing may be washed in soap and hot water, do so as soon as possible. If the clothing must be dry cleaned, place it into a biohazard waste bag and give it to the Training Officer. The Training Officer will secure a dry cleaner that is capable of cleaning contaminated clothing, and inform them of the potential contamination. This dry cleaning will be done at the Department's expense.

Contaminated leather boots shall be brushed and scrubbed with detergent and hot water. If the contaminant soaked through the boot, the boot shall be discarded.

Policy Manual

Communicable Diseases

1016.3.8 DECONTAMINATION OF VEHICLES

Contaminated vehicles and components such as the seats, radios, and doors shall be washed with soap and warm water and disinfected with an approved germicide as soon as feasible.

1016.3.9 DECONTAMINATION OF STATION AND CLEANING AREA

The Training Officer shall designate a location at the station that will serve as the area for cleaning/decontamination. This area is to be used to keep equipment clean and sanitary and for the employees to wash any potential contamination from their bodies. This area is to be thoroughly cleaned after each use and to be maintained in a clean and sanitary order at all times between each use. The application of cosmetics, smoking cigarettes, food and drink are prohibited in this designated area at all times.

1016.4 POST-EXPOSURE REPORTING AND FOLLOW-UP REQUIREMENTS

In actual or suspected exposure incidents, proper documentation and follow-up action must occur to limit potential liabilities and ensure the best protection and care for the employee(s).

1016.4.1 EMPLOYEE RESPONSIBILITY TO REPORT EXPOSURE

In order to provide appropriate and timely treatment should exposure occur, all employees should verbally report the exposure to their immediate supervisor and complete a written exposure report as soon as possible following the exposure or suspected exposure. That report shall be submitted to the employee's immediate supervisor. Additionally, employees should document in the exposure report whether they would like the person who was the source of the exposure to be tested for communicable diseases.

1016.4.2 SUPERVISOR REQUIREMENTS

The supervisor shall investigate every exposure that occurs as soon as reasonably practicable following the incident, while gathering the following information:

- (a) Name of the exposed employee.
- (b) Date and time of incident.
- (c) Location of incident.
- (d) Potentially infectious materials involved.
- (e) Source of material or person.
- (f) Current location of material or person.
- (g) Work being done during exposure.
- (h) How the incident occurred or was caused.
- (i) PPE in use at the time of the incident.
- (j) Actions taken post-event (clean-up, notifications).

The supervisor shall use the above information to prepare a written summary of the incident, its causes and recommendations for avoiding similar events. This report, in addition to any workers' compensation report or reports required by the City, will be provided to the ECO, the consulting physician and to the City's Risk Manager.

The supervisor should advise the employee of the laws and regulations concerning disclosure of the identity and the infectious status of a source.

Tigard Police Department

Policy Manual

Communicable Diseases

1016.4.3 MEDICAL CONSULTATION, EVALUATION AND TREATMENT

Any employee who received exposure or suspected exposure should be seen by a physician (or qualified health care provider) as soon as possible. The doctor (or qualified health care provider) should review the supervisor's report, the Communicable Disease Notification Report and the employee's medical records relevant to the visit and examination.

When an officer in the performance of his/her official duties sustains a substantial BBP exposure, the ECO will seek to have the source person tested for HIV and Hepatitis B or C by causing the circuit court to be petitioned for an order compelling the testing. The petition must set forth the facts and circumstances of the contact and the reasons the officer and a medically trained person representing the officer, if available, believe the exposure was substantial and the testing would be appropriate. The officer should provide information sufficient to identify and locate, if possible, the alleged source (ORS 433.085(1)(2)).

If the ECO is unavailable to assist the officer with the completion of the petition and with follow-up attempts to seek testing of the person who was the source of the exposure, it is the responsibility of the exposed employee's supervisor to provide such assistance.

If the testing is ordered by the court, the results shall be made available to those persons authorized under ORS 433.045(4) and to the officer, the physician designated by the officer to receive the results, the Oregon Health Authority (OHA), the subject person and any physician designated by the subject person to receive the results (ORS 433.085(4)).

The health care professional should provide the ECO and/or the City's Risk Manager with a written opinion/evaluation of the exposed employee's situation. This opinion should only contain the following information:

- If an HBV is indicated for the employee.
- If the employee received an HBV.
- Confirmation that the employee received the evaluation results.
- Confirmation that the employee was informed of any medical condition resulting from the exposure incident that will require further treatment or evaluation.
- Whether communicable disease testing of the person who was the source of the exposure is warranted, and, if so, what diseases should be included in testing.

All other findings or diagnosis shall remain confidential and are not to be included in the written report.

1016.4.4 COUNSELING

The Department will make counseling and consultation available to the exposed employee (and his/her family if necessary).

1016.4.5 CONFIDENTIALITY OF REPORTS

Most of the information involved in the process must remain confidential. The ECO shall ensure that all records and reports are kept in the strictest confidence.

The ECO shall be responsible for maintaining records containing the employee's HBV status and the results of examinations, medical testing and follow-up procedures that took place as a result of an exposure.

Tigard Police Department

Policy Manual

Communicable Diseases

The Risk Manager shall be responsible for maintaining the name and social security number of the employee and copies of any information provided to the consulting health care professional as a result of an exposure.

This information is confidential and shall not be disclosed to anyone without the employee's written consent (except as required by law). Test results from persons who may have been the source of an exposure are to be kept confidential as well.

1016.5 POST-EXPOSURE CONFIRMATION PROCEDURES

Members who have been exposed to or contract a disease as a result of a duty-related event shall be treated according to existing health benefits, insurance coverage, and collective bargaining provisions. (OAR 839-006-0200 and ORS 659A.112).

Members who test positive for HIV or HBV may continue working as long as they maintain acceptable performance and do not pose a safety and health threat to themselves, the public or other members of the Department.

- (a) The Tigard Police Department shall make all decisions concerning the member's work status solely on the medical opinions and advice of the agency's health care officials.
- (b) The Tigard Police Department may require a member to be examined by the department health care officials to determine if he/she is able to perform his/her duties without hazard to him/herself or others.
- (c) All members of the Tigard Police Department agency shall treat employees who have contracted a communicable disease fairly, courteously and with dignity.

If the complainant fails to attend scheduled mediation, the process will be considered concluded. If a department member fails to attend, the case will be handled either as a non-disciplinary investigation or a disciplinary investigation.

The member shall be advised in writing prior to the interview that it will not be used against him or her for disciplinary purposes.

If at any time during the course of an investigation the investigator believes the complaint is more serious than first reported, the supervisor shall immediately stop the current investigation.  - If the member is advised in writing that the interview will not be used against him or her for disciplinary purposes, then the 24 hour notice will not be required. A member may voluntarily waive the above twenty-four hour (24-hour) notice.
- (c) The notice shall include the specific reasons for the interview, a statement of whether the member is a witness or a suspect, and any other information necessary to reasonably inform him/her of the nature of the complaint. The member shall be notified of the right to and afforded an opportunity and facilities, subject only to scheduling limitation, to contact and consult privately with an attorney and/or a representative of the Association, and to have that representative and/or attorney present at any interview.

Seat Belts

1022.1 PURPOSE AND SCOPE

The use of seat belts and other safety restraints significantly reduces the chance of death or injury in case of a traffic collision. This policy establishes guidelines for seat belt and child safety seat use to assure maximum operator and passenger safety, thus minimizing the possibility of death or injury as the result of a motor vehicle crash. This policy will apply to all employees operating or riding in department vehicles.

1022.2 WEARING OF SAFETY RESTRAINTS

All members shall wear properly adjusted safety restraints when operating or riding in a seat equipped with restraints, in any vehicle owned, leased or rented by this department, while on- or off-duty, or in any privately owned vehicle while on-duty. The member driving such a vehicle shall ensure that all other occupants, including non-members, are also properly restrained.

Exceptions to the requirement to wear safety restraints may be made only in exceptional situations where, due to unusual circumstances, wearing a seat belt would endanger the member or the public. Members must be prepared to justify any deviation from this requirement.

1022.2.1 TRANSPORTING CHILDREN

A properly installed, approved child restraint system should be used for all children of an age, height or weight for which such restraints are required by law (ORS 811.210).

Children under the age of 13 should be transported in the rear seat. In the event that the appropriate restraints are unavailable, officers should arrange for alternate transportation.

1022.3 TRANSPORTING PRISONERS

Whenever possible, prisoners should be secured in the prisoner restraint system in the rear seat of the patrol vehicle or, when a prisoner restraint system is not available, by seat belts. The prisoner should be in a seating position for which seat belts have been provided by the vehicle manufacturer. In unusual circumstances where it is unsafe or impractical to do so, prisoners may be transported without the use of seat belts (Oregon Revised Statutes 811.215 (6)). The prisoner restraint system is not intended to be a substitute for handcuffs or other appendage restraints.

1022.4 INOPERABLE SEAT BELTS

No person shall operate a department vehicle in which the seat belt in the driver's position is inoperable. No person shall be transported in a seating position in which the seat belt is inoperable.

No person shall modify, remove, deactivate or otherwise tamper with the vehicle safety belts, except for vehicle maintenance and repair staff who shall do so only with the express authorization of the Chief of Police.

Employees who discover an inoperable restraint system shall report the defect to the appropriate supervisor. Prompt action will be taken to replace or repair the system.

Body Armor

1024.1 PURPOSE AND SCOPE

The purpose of this policy is to provide law enforcement officers with guidelines for the proper use of body armor.

1024.2 POLICY

It is the policy of the Tigard Police Department to maximize officer safety through the use of body armor in combination with prescribed safety procedures. While body armor provides a significant level of protection, it is not a substitute for the observance of officer safety procedures.

1024.2.1 USE OF SOFT BODY ARMOR

Members in a uniform assignment are required to wear body armor. Body armor is not required when members are assigned to duties where they are not in direct contact with the public, or when they are wearing their Class A uniform at a special occasion (see 1046.3), or when authorized by the Chief of Police.

When sworn members are assigned to a TNT operation, stakeout, service of felony arrest warrant(s), or, are serving a search warrant at a location where there is reason to believe a felony suspect may be present, the wearing of body armor is mandatory.

Body armor must be either department-issued or department-approved.

A stakeout, for purposes of this section, is a pre-planned event where time and practicality allow officers to put on body armor in anticipation of encountering armed or dangerous suspects or circumstances.

1024.3 ISSUANCE OF BODY ARMOR

The Administration supervisor shall ensure that body armor is issued to all officers when the officer begins service at the Tigard Police Department and that, when issued, the body armor meets or exceeds the standards of the National Institute of Justice.

The Administration supervisor shall establish a body armor replacement schedule and ensure that replacement body armor is issued pursuant to the schedule or whenever the body armor becomes worn or damaged to the point that its effectiveness or functionality has been compromised.

1024.3.1 USE OF SOFT BODY ARMOR

Generally, the use of body armor is required subject to the following:

- (a) Officers shall only wear agency-approved body armor.
- (b) Officers shall wear body armor anytime they are in a situation where they could reasonably be expected to take enforcement action.
- (c) Officers may be excused from wearing body armor when they are functioning primarily in an administrative or support capacity and could not reasonably be expected to take enforcement action.

Tigard Police Department

Policy Manual

Body Armor

- (d) Body armor shall be worn when an officer is working in uniform or taking part in Department range training.
- (e) An officer may be excused from wearing body armor when he/she is involved in undercover or plainclothes work that his/her supervisor determines could be compromised by wearing body armor, or when a supervisor determines that other circumstances make it inappropriate to mandate wearing body armor.

1024.3.2 INSPECTIONS OF BODY ARMOR

Supervisors should ensure that body armor is worn and maintained in accordance with this policy through routine observation and periodic documented inspections. Annual inspections of body armor should be conducted by an authorized designee for fit, cleanliness and signs of damage, abuse and wear.

1024.3.3 CARE AND MAINTENANCE OF SOFT BODY ARMOR

Soft body armor should never be stored for any period of time in an area where environmental conditions (e.g., temperature, light, humidity) are not reasonably controlled (e.g., normal ambient room temperature/humidity conditions), such as in automobiles or automobile trunks.

Soft body armor should be cared for and cleaned pursuant to the manufacturer's care instructions provided with the soft body armor. The instructions can be found on labels located on the external surface of each ballistic panel. The carrier should also have a label that contains care instructions. Failure to follow these instructions may damage the ballistic performance capabilities of the armor. If care instructions for the soft body armor cannot be located, contact the manufacturer to request care instructions.

Soft body armor should not be exposed to any cleaning agents or methods not specifically recommended by the manufacturer, as noted on the armor panel label.

Soft body armor should be replaced in accordance with the manufacturer's recommended replacement schedule.

1024.4 FIREARMS COORDINATOR RESPONSIBILITIES

The Firearms Coordinator should:

- (a) Monitor technological advances in the body armor industry for any appropriate changes to Department approved body armor.
- (b) Assess weapons and ammunition currently in use and the suitability of approved body armor to protect against those threats.
- (c) Provide training that educates officers about the safety benefits of wearing body armor.

1034.1.1 MEAL PERIODS

All TPOA and other sworn employees shall remain on duty subject to call during meal breaks. All other employees are not on call during meal breaks unless directed otherwise by a supervisor.

Uniformed officers shall take their breaks within the City limits unless on assignment outside of the City.

The time spent for the meal period shall not exceed the authorized time allowed.

1034.1.2 15 MINUTE BREAKS

Each employee is entitled to a 15 minute break, near the mid point, for each four-hour work period. Only one 15 minute break shall be taken during each four hours of duty. No breaks shall be taken during the first or last hour of an employee's shift unless approved by a supervisor.

Employees normally assigned to the police facility shall remain in the police facility for their breaks. This would not prohibit them from taking a break outside the facility if on official business.

Field officers will take their breaks in their assigned areas, subject to call and shall monitor their radios. When field officers take their breaks away from their vehicles, they shall do so only with the knowledge and clearance of WCCCA.

Lactation Break Policy

1035.1 PURPOSE AND SCOPE

The purpose of this policy is to provide reasonable accommodations to employees desiring to express breast milk for the employee's infant child.

1035.2 POLICY

It is the policy of this department to provide reasonable break time and appropriate facilities to accommodate any employee desiring to express breast milk for her nursing child 18 months or younger in compliance with state law and the Fair Labor Standards Act (29 USC § 207 and ORS 653.077).

1035.3 LACTATION BREAK TIME

A rest period should be permitted each time the employee has the need to express breast milk (29 USC § 207). In general, lactation breaks that cumulatively total 30 minutes or less during any four-hour work period or major portion of a four-hour work period would be considered reasonable. However, individual circumstances may require more or less time.

Lactation breaks, if feasible, should be taken at the same time as the employee's regularly scheduled rest or meal periods.

Employees desiring to take a lactation break shall notify communications or a supervisor prior to taking such a break and such breaks may be reasonably delayed if they would seriously disrupt department operations.

Once a lactation break has been approved, the break should not be interrupted except in emergency or exigent circumstances.

1035.4 PRIVATE LOCATION

The Department will make reasonable efforts to provide lactating employees with the use of an appropriate room or other location to express milk in private. Such room or place should be in close proximity to the employee's work area and shall be other than a bathroom or toilet stall. The location must be shielded from view and free from intrusion from co-workers and the public (29 USC § 207).

Employees occupying such private areas shall either secure the door or otherwise make it clear that the area is occupied with a need for privacy. All other employees should avoid interrupting a lactating employee during an authorized break, except to announce an emergency or other urgent circumstance.

Authorized lactation breaks for employees assigned to the field may be taken at the nearest appropriate private area.

1035.5 STORAGE OF EXPRESSED MILK

Any employee storing expressed milk in any authorized refrigerated area within the department shall clearly label it as such and shall remove it when the employee ends her shift. Alternatively the Department will make reasonable provisions to provide a place for the employee to store her own cooler for the purpose of storing expressed milk.

Scheduling and Time Statements

1038.1 PURPOSE AND SCOPE

To outline the use of INTIME as our scheduling and time statement program to ensure the maintenance of work schedules and the production of accurate paperless time statements.

1038.1.1 DEPARTMENT POLICY

It is the policy of the Tigard Police Department to use the Intime Scheduling Engine (ISE) to create, maintain and update daily schedules for all units within the department. ISE will be utilized to approve and/or reject time statements, requests for activity approval such as overtime or extra assignments, and will be used to post overtime opportunities. All department employees will utilize the Employee Self-Service (ESS) portal to access their schedules, submit time statements, request overtime and leave and to have overtime time and other activities approved by a supervisor. Time Statements created in ISE will be electronically submitted to the City's financial software during payroll weeks, and accruals will be updated by that system in ISE at the beginning of each payroll cycle.

1038.1.2 DEFINITIONS

ISE (Intime Scheduling Engine) This refers to the online database where scheduling and approvals take place.

ESS (Employee Self Service) This is the online self-service portal where all employees will access their schedule, requests for leave and Overtime and view posted overtime and assignment opportunities.

1038.2 ISE DATABASE STRUCTURE

The ISE database is maintained by department members designated as Administrators who have the highest level of security clearance within the program to allow access, by other members and to make significant structural changes within the ISE program as it pertains to Tigard Police Department scheduling and financial information. The administrators shall be designated by the Chief of Police or his designee. Master Schedulers are responsible for the creation of worked schedules and Daily Schedulers are those supervisory staff who will be updating the schedules and approving leave, overtime and time statements. It will be the responsibility of a system administrator to ensure a new user is entered into the system properly and to schedule training of that individual before actual use begins.

1038.2.1 EMPLOYEES RESPONSIBILITY

Employees shall enter the ESS portal at the beginning of their shift or as soon as possible once the shift has begun. When an employee enters the ESS portal for the first time they will be required to enter and verify their user information and create a new password.

Employees will use the ESS to request leave, to submit activities and overtime, and to submit their time statements. Employees should enter the ESS and submit overtime activities immediately after working the overtime. Time statements shall be submitted no later than 8:00 AM on the Monday morning following a pay period's end. Notifications from INTIME called "*postings*" will let members know of certain overtime opportunities, other activities they may be eligible to sign up for remotely, as well as notification when leave requests, overtime and time statements are approved. These notifications are

Tigard Police Department

Policy Manual

Scheduling and Time Statements

made through an e-mail service. Members who wish to be notified of these opportunities and approvals outside of their work e-mail account must provide the department with a personal e-mail address that is kept up to date.

There is no requirement for an employee to view or use the ESS portal while off-duty, however doing so is not prohibited by the department when viewing and using the portal for less than seven-and-a-half (7 ½) minutes. Seven-and-a-half (7 1/2) minutes shall be considered de-minimus and will not be compensated by the department as referenced in TPOA Article 13.5. Should a member believe they will need more time to view the ESS portal while off duty, they are required to contact a supervisor before doing so for authorization of overtime.

It is the employee's responsibility to obtain approval from a supervisor in advance before working any overtime assignment, detail or duty.

1038.2.2 SUPERVISORS RESPONSIBILITY

Supervisory staff shall enter the ISE database and review the pending requests from their workgroup on a daily basis during their work week. The supervisor shall ensure the employees' shift start and end times are correct. The supervisor is responsible to keep the schedule up to date as necessary by entering blocks of activity or leave if an employee is unable to do so via the ESS portal.

An attempt shall be made to review and approve or reject requests on a daily basis. If the system is not working as designed, for any reason, the supervisor will immediately contact the INTIME help service and make other notifications to the chain of command as necessary.

Before approval of any activity request, leave request or time statement, the supervisor shall check the schedule to verify the accuracy of the request or time statement. If a supervisor will be gone, arrangements must be made to ensure another supervisor takes on the responsibility of review and approval for that workgroup. This "*continuity of approval*" is an expectation of all supervisors within their work groups.

Outside Employment

1040.1 PURPOSE AND SCOPE

In order to avoid actual or perceived conflicts of interest for departmental employees engaging in outside employment, all employees shall obtain written approval from the Chief of Police prior to engaging in any outside employment. 1040.2.2 REVOCATION/SUSPENSION OF OUTSIDE EMPLOYMENT

Any outside employment memorandum may be revoked or suspended under the following circumstances:

- (a) Should an employee's performance at this department decline to a point where it is evaluated by a supervisor as needing improvement to reach an overall level of competency, the Chief of Police may, at his or her discretion, revoke any previously approved outside employment memorandum. That revocation will stand until the employee's performance has been reestablished at a satisfactory level and his/her supervisor recommends reinstatement of the outside employment memorandum.
- (b) Suspension or revocation of a previously approved outside employment memorandum may be included as a term or condition of sustained discipline

- (a) Involves the employee's use of departmental time, facilities, equipment or supplies, the use of the Department badge, uniform, prestige or influence for private gain or advantage
- (b) Involves the employee's receipt or acceptance of any money or other consideration from anyone other than this department for the performance of an act which the employee, if not performing such act, would be required or expected to render in the regular course or hours of employment or as a part of the employee's duties as a member of this department
- (c) Involves the performance of an act in other than the employee's capacity as a member of this department that may later be subject directly or indirectly to the control, inspection, review, audit or enforcement of any other employee of this department
- (d) Involves time demands that would render performance of the employee's duties for this department less efficient

1040.3.1 OUTSIDE SECURITY EMPLOYMENT

No member of this department may engage in any outside employment as a private security guard, private investigator or other similar private security position.

Any private organization, entity or individual seeking outside security services from members of this department must submit a written application to the Chief of Police in advance of the desired service.

1040.3.2 OUTSIDE OVERTIME ARREST AND REPORTING PROCEDURE

Any employee making an arrest or taking other official police action while working in an approved outside overtime assignment shall be required to complete all related reports in a timely manner pursuant to department policy. Time spent on the completion of such reports shall be considered incidental to the outside overtime assignment.

1040.4 DEPARTMENT RESOURCES

Employees are prohibited from using any department equipment or resources in the course of or for the benefit of any **outside employment**. This shall include the prohibition of access to official records or databases of this department or other agencies through the use of the employee's position with this department.

Outside overtime (approved and scheduled by the department), may entail the use of municipal resources.

1040.4.1 REVIEW OF FINANCIAL RECORDS

1040.5 MATERIAL CHANGES TO OUTSIDE EMPLOYMENT

If an employee terminates his or her outside employment during the period of a valid memorandum, the employee shall promptly submit written notification of such termination to the Chief of Police through channels. Any subsequent request for renewal or continued outside employment must thereafter be processed and approved through normal procedures set forth in this policy.

Outside Employment

1040.6 OUTSIDE EMPLOYMENT WHILE ON DISABILITY

Department members engaged in outside employment who are placed on disability leave or modified/light-duty shall inform their immediate supervisor in writing within five days whether or not they intend to continue to engage in such outside employment while on such leave or light-duty status. The immediate supervisor shall review the duties of the outside employment along with any related doctor's orders, and make a recommendation to the Chief of Police whether such outside employment should continue.

In the event the Chief of Police determines that the outside employment should be discontinued or if the employee fails to promptly notify his/her supervisor of his/her intentions regarding their work memorandum, a notice of revocation of the member's memorandum will be forwarded to the involved employee, and a copy attached to the original work memorandum.

Criteria for revoking the outside employment memorandum include, but are not limited to, the following:

- (a) The outside employment is medically detrimental to the total recovery of the disabled member, as indicated by the City's professional medical advisors.
- (b) The outside employment performed requires the same or similar physical ability, as would be required of an on-duty member.

When the disabled member returns to full duty with the Tigard Police Department, a request (in writing) may be made to the Chief of Police to restore the memorandum.

Respiratory Protection Program

1041.1 PURPOSE AND SCOPE

To establish a respirator program to protect personnel that may be exposed to respiratory hazards during emergency operations. These hazards include hazardous material incidents, and possible terrorist actions. The purpose of this program is to ensure that all employees are protected from exposure to these respiratory hazards.

1041.1.1 SCOPE AND APPLICATION

This program applies to all employees who are required to wear respirators during some routine or emergency operations such as a spill of a hazardous substance. All department employees required to work in/under hazardous conditions must be enrolled in the Respiratory Protection Program.

If an employee believes respiratory protection is needed during a particular activity, he/she is to contact the supervisor or the Program Administrator. The Program Administrator will evaluate the potential hazard, arranging for outside assistance as necessary. The Program Administrator will then communicate the results of that assessment back to the employees. If it is determined that respiratory protection is necessary, all other elements of this program will be in effect for those tasks/responses and this program will be updated accordingly.

4. Employees will be provided with several models and sizes of respirators so that they may find an optimal fit.

1041.8 RESPIRATOR USE AND MAINTENANCE

(a) General Use Procedures:

1. Employees will use their respirators under conditions specified by this program, and in accordance with the training they receive on the use of each particular model. In addition, the respirator shall not be used in a manner for which it is not certified by the National Institute of Occupational Safety and Health (NIOSH) or by the respirator manufacturer.
2. All employees shall conduct user seal checks each time they wear their respirator. Employees shall use either positive or negative pressure check (depending on which test works best for them) specified in Appendix B-1 of the Respiratory Protection Standard.
3. Employees are not permitted to wear tight-fitting respirators if they have any condition, such as facial scars, facial hair, or missing dentures, that prevents them from achieving a good seal. Employees are not permitted to wear headphones, jewelry, or other articles that may interfere with the face piece-to-face seal.

(b) Respirator Malfunction:

Respiratory Protection Program

- (d) Maintenance Respirators are to be properly maintained at all times in order to ensure that they function properly and adequately protect the employee. Maintenance involves a thorough visual inspection for cleanliness and defects. Worn or deteriorated parts will be replaced prior to use. No components will be replaced or repairs made beyond those recommended by the manufacturer. The following checklist will be used when inspecting respirators:

 - 3. Each employee will have his/her name on the bag and that bag will only be used to store that employee's respirator.
 - 4. The Program Administrator will store the Department's supply of non-issued respirators and respirator components in their original manufacturer's packaging in the designated storage room/area.
- (f) Defective Respirators: Respirators that are defective or have defective parts shall be taken out of service immediately.

 - 1. Temporarily take the respirator out of service until it can be repaired.
 - 2. Perform a simple fix on the spot such as replacing a head strap.
 - 3. Dispose of the respirator due to an irreparable problem or defect.
- (h) When a respirator is taken out of service for an extended period of time, the respirator will be tagged out of service, and the employee will be given a replacement of similar make, model, and size. All tagged out respirators will be kept in the storage cabinet inside the Program Administrator's office.

1041.9 RESPIRATOR TRAINING

- (a) The Program Administrator and the department Training Coordinator will provide and/or coordinate training to respirator users and their supervisors on the contents of the Respiratory Protection Program, employee and supervisor responsibilities under the program, and on the Occupational Safety and Health Administration (OSHA) Respiratory Protection Standards.
 - 1. Workers will be trained prior to using a respirator in the workplace.

Tigard Police Department

On Duty Injuries

Any employee sustaining a work-related injury or illness that requires relief from duty is also required to comply with departmental policies and directives relating to the duty to periodically call in during absences, as well as the duty to notify the Department of any change in condition or anticipated duration of the absence.

When appropriate, an employee being treated for an on-duty injury should inform the attending physician that a modified duty assignment may be available at the Department. Limited-service duty may be available for the employees whose injuries prevent resumption of regular duties.

An injured employee or employee who has suffered a work-related injury or illness shall report as soon as practical to his/her immediate supervisor the medical findings concerning the injury and the extent and duration of any work restrictions if they are known. In addition, such employees are required to promptly submit all medical releases, whether partial or full releases, to their supervisor.

1042.2.4 SUPERVISOR'S RESPONSIBILITY

A supervisor learning of any work-related injury, illness or accident shall promptly prepare the appropriate forms as outlined under Policy Manual § 1042.2. Updated copies of forms with instructions for completion provided by Risk Management are kept in the Sergeant's office.

For work-related accidents, illness or injuries not requiring professional medical care, a Supervisor's Report of Injury form shall be completed in triplicate. All copies of the completed form shall be forwarded to the supervisor's Division Commander, through the chain of command.

When an accident, illness or injury is reported initially on the "Supervisor's Report of Injury" form and the employee subsequently requires professional medical care, the State of Oregon report of job injury or illness form 801 shall then be completed. The injured employee shall also sign the form in the appropriate location.

Every injured employee must be provided with a "report of job illness or injury" form 801, immediately upon request of the worker (OAR 436-060-0010 (1)).

Copies of any reports documenting the accident or injury should be forwarded to the Division Commander as soon as they are completed.

1042.2.5 DIVISION COMMANDER RESPONSIBILITY

The Division Commander receiving a report of a work-related accident or injury or injury should review the report for accuracy and determine what additional action should be taken. The report shall then be forwarded to the Chief of Police.

1042.2.6 CHIEF OF POLICE RESPONSIBILITY

The Chief of Police shall review and forward copies of the report to the Department of Human Resources. Any copies of the report and any related documents retained by the Department shall be filed in the employee's confidential medical file and not in the employee's personnel file (see Policy Manual 1026).

1042.3 INJURY OR ILLNESS NOT REQUIRING MEDICAL ATTENTION

Those injuries and illnesses not requiring medical attention shall be recorded on a Supervisor's Report of Injury form. This form shall be completed and signed by a supervisor.

This form shall be signed by the affected employee, indicating that he/she desired no medical attention at the time of the report. By signing this form, the employee will not preclude his/her ability to seek medical attention later.

1042.4 SETTLEMENT OF INJURY CLAIMS

Occasionally, an employee's work-related injury results from the negligent or wrongful acts of another, for which the employee, the City, and/or other insurers are entitled to recover civilly. To ensure that the City's interests are protected and that the employee has the benefit of the City's experience in these matters, the following procedure is to be followed:

1042.4.1 EMPLOYEE TO REPORT INITIAL CONTACTS

When an employee sustains work-related injuries caused by another person and is then approached by such person or an agent, insurance company, or attorney and offered a settlement of claims, that employee shall take no action other than to make a written report of this contact to his/her supervisor as soon as possible.

1042.4.2 NO SETTLEMENT WITHOUT PRIOR NOTICE

No less than ten (10) days prior to accepting and finalizing the settlement of any third party claim arising out of or related to an on duty injury, the employee shall provide the Chief of Police with written notice of the proposed terms of such settlement. In no case shall the employee accept a settlement without first providing such written notice to the Chief of Police. The purpose of such notice to permit the City to determine whether or not the offered settlement will affect any claim the City may have regarding payment for damage(s) to equipment or reimbursement for wages against the person who caused the accident or injury and to protect the City's right of subrogation, while ensuring that the employee's rights to receive compensation for injuries are not affected.
