

HANAN YADIN

Hanan Yadin is the founder of ISI, Inc., a full service tactical training and counter-terror consulting company established in 1993. In addition to having trained thousands of police officers and military operators, Hanan has also provided specialized training for F.B.I., Department of Justice and Treasury agents as well as the U.S. Army and Navy Seals. He has trained numerous SWAT teams and helped the Houston Metropolitan Transit Authority establish and certify their SWAT team. Houston METRO is currently ranked 3rd in the world.

In the pre-9/11 environment, Hanan focused on innovative training that helped police officers boost their shooting and tactical skill sets in response to an increasingly violent criminal element. He has trained thousands of officers in instinctive shooting methods that allow operators to hit a target within 1 second without the use of a gun sight.

Hanan was a former Israeli government employee who also served 11 years in the military, three mandatory and eight in the reserves. Hanan received advanced training at the Israeli Anti-Terror Academy and served as an instructor at the Israeli Military Intelligence Academy. As part of a Special Ops unit in the General Security Service (GSS) he executed high-risk missions against terrorist's cells. Hanan is an expert marksman and has completed advanced training in crisis response, Krav Maga (the Israeli unarmed fighting system), urban warfare and high-risk covert operations.

After 9/11, Hanan was able to bring to bear all of his expertise and experience to work with American agencies in gaining a deeper understanding of radical Islam and provide proven tactical techniques to improve counter-terror operations.

In the aftermath of Hurricane Katrina, Hanan was called upon to use his skills to head a rapid deployment to protect private assets. Within 24 hours Hanan and his team were in the disaster zone and operated in the hostile environment for 60 days with no incidents or incursions.

Hanan's mission is to work with American agencies in a spirit of cooperation and offer the latest Israeli techniques, best practices and lessons learned from real world incidents to set unmatched new standards of excellence in the counter-terrorism and tactical training industries.
