"Messrs. Field and Bunney's book demonstrates how rich England is in dignified small houses. . . . The book is one a young architect should have. It would prove a good influence and prevent his running riot."—*Manchester Guardian*.

Composed largely of antiseptic materials which possess the same germicidal properties as common disinfectants, but are without their disagreeable characters of smell and corrosive qualities, RONUK is an excellent floor polish, preserving a sanitary condition of the floor, sealing up all germ harbours, and presenting a surface which pleasingly evidences an appreciation of sanitary principles.

FREDK. JONES & CO., PERRIN ST., KENTISH TOWN, N.W.

Works also at **BURTON, MANCHESTER and MIDDLESBRO'.**

THE "PAN" FIRE (TAYLOR'S PATENT)

No. 6 "Pan" Fire. 17 in. fire with canopy, etc., all as illustrated, in armour bright, **£4 10 0**
 Tiles for cheeks and hearth extra.

IS our latest patent and is designed to meet the demand for a fire with the greatest possible projection into the hearth, and a correspondingly shallow back to enable a greater depth of glazed tiles to be fixed at the sides upon which the light and heat from the fire can be thrown and radiated into the room as in the old fashioned dog-grate, but without its attendant smoky chimney owing to the divergent side flues.

The pan containing the fuel can be sunk level with the hearth or raised as shown.

All parts are exceedingly strong and effective. The ashes are easily removed.
