**GREETINGS**

---

EMBASSY OF THE UNITED STATES OF AMERICA

Rome, January 20, 1922.

Dear Mrs. Brebner:

From over the sea I send to you and to the readers of your proposed book, my hearty greetings.

Sincerely yours,

RICHARD WASHBURN CHILD.

## FOREWORD

The object of the "All-American Cook Book" is to assist, through its sale, the wounded, the unemployed and needy ex-service men, especially those with dependent families.

All profits accruing to the publishers from the sale of this book will be under the careful supervision of a committee of prominent citizens of Chicago, and receipts and expenditures subject to audit. This money will be given from time to time to the needy and dependent families of ex-service men, which are brought to the attention of the committee by the American Legion Association of Cook County, Illinois.

It is intended particularly to relieve suffering and distress in a class of cases somewhat overlooked, namely, the destitute families of ex-service men who are in hospitals, but who have not yet received compensation from the Government.

It is sincerely hoped that every American Legion Post, wherever located, will sell this book to carry out in its particular locality the object mentioned, and to this end a special price will be named to the Post upon application to the publishers. Profits secured by a Post from such sales are to be distributed to dependent families in its locality, according to the best judgment of the Post.

Only through the courtesy of the wives, mothers, daughters, sisters and friends of the men whose names appear within this book have I been able to compile it, for so great was the response that I am encouraged to compile an annual edition. From every country in the world I have received recipes from famous Americans who wished to assist me in this undertaking. The letters and excerpts are placed in the book to show the spirit of co-operation and the personal interest of the donors. The message from General Diaz is one intended by him to be sent to the wounded boys in the U. S. P. Hospitals throughout the United States, to be placed in the All-American Cook Book.

The All-American Cook Book has taken one year to compile. There were twenty-five hundred letters written in order to receive these recipes. Needless to say, it was only a labor of love, inspired by the beautiful messages and thoughts

of the friends who have made this book possible.

This book has been realized financially through the kindness of Mr. W. J. Klingenberg, president of the Sheridan Trust and Savings Bank of Chicago. I am deeply indebted to him, for, through his doing so, we hope to be able to relieve many cases of suffering and destitution throughout the United States. Also to Mr. James L. Crowder and Mrs. William G. Zetsche I owe a great deal of thanks as interested friends and advisers.

May the American people enjoy reading the All-American Cook Book as much as I have enjoyed compiling it.

GERTRUDE FRELOVE BREBNER.

Very truly yours,

## CHAPTER II.

# BREADS

If you can't get cream you might as well learn to love your sasser of skim milk.—J. C. Lincoln.

**HONORABLE THOMAS R. MARSHALL**  
Former Vice-President of the United States

“You can furnish a recipe for me, only remember—don't make it too rich for a poor Hoosier.

“That you know I approve of you and your work, I enclose my check with this to buy as many books as it will, when issued, and give with your compliments to some poor soldiers' wives.” Excerpt from letter, February 3, 1922. The Editor selected the following recipe, in accordance with the request:

### **Hoosier Salt Rising Bread**

In a deep vessel make a sponge by mixing 3 cups of warm water or new milk, 1 teaspoon of salt and soda and enough flour (about 2 tablespoons) to make a batter, cover closely and set in a pot of warm water in a warm place. After 6 hours (or less), add 1 qt. of flour and enough boiling water or scalded milk (or half and half) to make a smooth elastic dough, working it about ½ hour. Form loaves, put into buttered baking pans, filling them half full, let rise until the pans are nearly full, and then bake in moderate oven from 30 to 40 minutes, according to the size of the loaves. To keep, wrap in cloth or place in stone jars. As milk bread doesn't keep well in hot weather, a teaspoon of butter or lard may be substituted for the milk. This bread may be eaten as soon as baked.

**U. S. SENATOR J. E. RANSDELL**, the State of Louisiana  
Through courtesy of Mrs. Borah of New Orleans

### **French Loaves**

Make a sponge of 1 cup of compressed yeast and 1 tablespoon of sugar dissolved in  $\frac{1}{2}$  cup of lukewarm water. To 1 cup of scalded milk add 1 cup of hot water and when lukewarm add to yeast and 2 cups of flour. Beat 5 minutes. Let rise until very light (takes about 1 hour), add 3 tablespoons of melted shortening and  $1\frac{1}{2}$  teaspoons of salt. Stir in 5 cups of flour; knead until dough is smooth and elastic, using more flour if necessary. Cover to let rise and when light (double its bulk) mold into French Loaves. Divide the dough in half and each half into twelve, making 24 loaves. Roll each 5 inches long, taper each end. Lay on greased pan sufficient distance apart not to touch each other, cover to let rise an hour in warm place. Bake real brown.

**U. S. SENATOR GEORGE W. NORRIS**, of Nebraska  
Chairman, Committee on Agriculture and Forestry

### **Bran Bread**

Two cups of bread flour, 2 cups of bran,  $\frac{2}{3}$  cup of granulated sugar, 1 cup of raisins or  $\frac{3}{4}$  cup of chopped nut meats,  $\frac{1}{2}$  teaspoon of salt, 2 cups of buttermilk, and 1 level teaspoon of soda. Dry ingredients in order given. Stir buttermilk and soda until foamy. Add to above ingredients and mix thoroughly. Let rise 30 minutes in warm place. Bake in a very slow oven.

**MAJOR GENERAL GEORGE O. SQUIRES**  
Chief Signal Officer, U. S. Army, Washington, D. C.

### **Gluten Bread**

Two cups of boiling water, 2 cups of scalded milk, 2 teaspoons of butter, 2 teaspoons of salt, 1 egg,  $\frac{1}{4}$  yeast cake,  $\frac{1}{4}$  cup of warm water and 3 cups of gluten. Mix water, milk, salt and butter. When lukewarm, add dissolved yeast cake, egg, well beaten and gluten. Let rise, when spongy beat well, add enough more gluten to shape. Knead, let rise, shape in loaves, let rise and bake 1 hour.

**H. F. BAIN**

Director of Bureau of Mines (Interior Department),  
Washington, D. C.

**Nut Bread**

Three eggs, beaten well, 2 teaspoons of sugar, 1 teaspoon of salt, 1 tablespoon of melted butter,  $1\frac{1}{2}$  cups of sweet or sour milk, 2 teaspoons of baking powder (or soda with sour milk), about 2 cups of flour, or enough to make a soft dough, about  $\frac{3}{4}$  cup of walnut meats (broken).

**MAJOR GENERAL C. J. BAILEY,**

U. S. Army, Ft. Howard, Maryland

**Graham Bread**

One qt. each of graham and white flour, 1 tablespoon of sugar, 1 cup of black molasses, 1 teaspoon of salt, 1 qt. of tepid water in which 1 yeast cake has been dissolved. Beat well together, set to rise over night; in the morning pour off into 2 well-greased bread tins, let rise again for  $\frac{3}{4}$  of an hour, then bake 40 minutes.

**GOVERNOR E. F. MORGAN, State of West Virginia**

Note: A recipe for bread by Mrs. Meig's (Daphne Squires), whose husband was twice governor of West Virginia in 1830. Written as it was made in 1830 when the brick oven was used.

**"Mrs. Governor Meig's Bread"**

Sift about 4 qts. of flour in a bread bowl, add 2 teaspoons of salt,  $\frac{1}{2}$  pt. of "Daphne's" yeast (which today would be the same as any home-made yeast), 1 qt. of lukewarm milk; stir in just enough flour to make a thin batter (do this the night before); let this stand in brick oven (in winter time) to raise until morning, then add to it  $\frac{1}{2}$  pt. of warm milk, stirring in gradually the warmed flour, until the batter is nearly thick enough to knead; then put in a warm place for about  $1\frac{1}{2}$  hours, then knead it a long while; then put it again in

a warm place to raise again. . Then bake it. In summer use warm water instead of milk. It is well to add a little saleratus (dissolved in water) just before set to raise the last time. A little piece of butter makes bread more tender.

### **REAR ADMIRAL H. S. KNAPP**

Through courtesy of Miss Knapp (Admiral Knapp's sister)

#### **Coffee Bread**

Dissolve yeast cake and 1 tablespoon of corn syrup in lukewarm water; add 1 cup of flour and milk, potatoes, shortening and corn syrup well creamed. Cover and set in a warm place to rise. **How to Cook a Ham**

Soak the ham in cold water 24 hours then wash thoroughly. Put it in a boiler with skin side up and cover it with cold water. Put it on slow fire, so that the water will come to a boil very gradually. Once the water has come to a boil, it should be allowed to simmer slowly for about 2 hours, after which it should boil more quickly for 2 or 3 hours, according to size of the ham. In any case, whenever a fork can be stuck in readily to the bone, in any place, or when the hough comes loose, remove the boiler from the fire, and let the ham cool in its own water. When cool, remove, and take off skin carefully. Prepare the following basting: 1 cup of sherry substitute and  $\frac{1}{2}$  cup of brown sugar. Cover the ham with stale bread crumbs, stick in cloves all over ham. Put in moderate oven and baste with the mixture until a brown crust is formed. Serve hot or cold.

Note: The method above is used in Virginia and Maryland, and while primarily intended for Virginia ham, it may successfully be used with any other variety.

The meat and suet should first be cleaned thoroughly of all tough pieces and skin, after which it should be put through the meat grinder 6 or 7 times. Now work in sweet milk, adding a little at a time, until mixture is quite soft. Form in soft balls and boil in slightly salted water. Serve in a brown gravy made of 2 tablespoons of butter well browned into which has been stirred enough flour to thicken the quantity of gravy desired, adding from the stock or water in which the balls were cooked until the right consistency is reached. The meat should not be too fresh, as one often finds freshly butchered meat wet, which will not mix well with the suet.

Cover the pot again and simmer for at least an hour longer. Just before serving rub 3 tablespoons butter into 2 of flour and add to the stew; cook gently a few minutes and serve hot.

## CHAPTER VIII.

# SALADS

If any would not work, neither should he eat.  
—Old Proverb.

### A TALK ON SALADS

By Lady Polly

(Editor's Note: L. P. is none other than Mrs. Lewis Clarke Lucas of Washington, D. C., author of the fine little book "All About Salads." The reprint here is with her kind permission.)

There are salads galore. Meat, fowl and fish salads; egg, cheese and vegetable salads; nut and fruit salads. Combined with lettuce, cress, endive, celery; with a dressing of salt, pepper, oil and acids, many varied dishes may be made which are pleasing to the eye and delicious to the taste.

The salad dressings mostly used are the French and the mayonnaise. The first is made by placing salt and pepper in a bowl and adding oil gradually until the salt is dissolved, then vinegar, stirring so that the oil may be thoroughly incorporated.

The mayonnaise is made by adding oil slowly, drop by drop, to the yolks of eggs until you have a mixture about the consistency of custard and with no sign of oil or vinegar. It is essential that the best Italian oil be used.

Condensed cream may be used in dressings requiring cream, although the fresh is to be preferred. The dressing

must not be mixed with the salad until immediately before serving, and both the salad bowl and the ingredients must be as cold as possible. The rule with few exceptions is, that all meat and fish salads should be served with mayonnaise, and all vegetables with French dressing.

Many salads are improved by marinating. The marinade should be mixed with the ingredients and set on the ice for awhile before serving. For instance, in making chicken salad, the chicken should be diced, mixed with the marinade and chilled. Celery, or any vegetable that should be crisp, must not be added until the salad is ready to be served, as the marinade would wither it. All fish and meat salads, without exception, should be marinated, and all vegetables that are not to be served crisp. Tomatoes are so much improved by this process that there is no comparison. When tomatoes are to be served whole they should stand in the marinade at least one hour.

Lettuce or endive, with French dressing, is an everyday, simple salad; those composed of meats mixed with green vegetables, such as lettuce with mayonnaise, are supper and luncheon salads and should never follow a heavy dinner. When served with roast, green salads are greatly improved by compounding mint or farragon vinegar with the French dressing.

For those who are unable to use oil there are many dressings which may be prepared without it. My advice, however, to such persons would be that they cultivate a taste for the oil.

In many homes salad is always a part of the luncheon and dinner menu. Very little time is required in their preparation and they are inexpensive. All classes of French serve salads daily and they are presumed to be most economical in matters pertaining to the table.

On a hot summer day, instead of eating a heavy dinner, let the meal consist of a light soup, a vegetable or fish salad, and iced cocoa, and see how much better you feel. Go into a café on a hot day, observe the American who rushes in mopping his brow with his already saturated handkerchief, makes loud complaints of the heat, orders a heavy dinner, and bolts it while fanning himself vigorously.

Our grandmothers gave much thought to the medicinal properties of the "greens" served at heir tables. Parsley, mustard, cowslip, horse radish, dock, dandelion and beet tops clear the blood and regulate the system. Why not make use of the remedies that nature supplies so lavishly, and lessen our druggist bills?

Lettuce is a well-known nerve food, and should be seen on our tables more frequently. There is such a variety of ways in which to serve it that one is not likely to tire of it.

Always be especially careful in preparing greens for salads that they are thoroughly washed, and have no gritty substance clinging to the leaves. I have often known very attractive-looking salads to be spoiled completely by carelessness in this particular.

Cucumbers are very delicious and may be served raw in various ways. They are considered unhealthy by many, but unless they are old and withered they are very digestible. There is a prevalent superstition that cucumbers must be sliced and laid in salt water for hours before serving. They are simply ruined by this process. Keep them cool, on the ice if possible, and peel and slice them just before serving, when they will be crisp and delightful.

String beans supply iron. One of our most valuable vegetables, spinach, may be boiled and served cold with French dressing. It contains iron. Cabbage, cauliflower and spinach are all good for impoverished blood, and may be served as salads. Celery finds a place in many salads. It is a nerve food and overcomes rheumatic and neuralgic tendencies.

The tomato is not only a delicious vegetable, but a valuable one. Health authorities tell us that tomatoes stimulate the healthy action of the liver.

Carrots form blood, improve the complexion, and boiled in salted water and cut into dice blend very well with other vegetables in a salad. Carrots and beets may be grated and sprinkled over many salads to advantage, adding a touch of color.

Asparagus benefits the kidneys, and may also be served in various salads.

Fruit salads are very good on hot days. They are palatable and are very easily made from any fruits in season.

Nuts may be added to any salad. They are nourishing, tissue building, and by many are preferred to meat as a food.

Pretty effects are gained by hollowing out one vegetable and using another as stuffing.

"Left overs" come in very nicely for a hastily gotten up salad. A spoonful of cold peas, a chopped carrot, a few string beans and a bit of cauliflower may be mixed, a French dressing poured over it, and prove a very delightful, as well as economical, addition to the menu.

CHAPTER X.

VEGETABLES

Winter has found out what summer has laid up.  
—Old Proverb.

VILLA SERENA  
Miami, Florida

June 17, 1921.

My dear Mrs. Brebner:

Your favor at hand. I was strongly tempted to give you as my recipe directions for eating radishes, of which I am very fond. I eat them with salt and butter and prefer the White Icicle variety above all others. But lest this might not be regarded as a full compliance to your request, I beg to add the recipe for another of my favorite dishes, viz: French Fried Onions.

I first ate these at the famous Grove Park Inn, Asheville, N. C., and since that time have passed the recipe on to a number of friends as well as to dining car stewards. If you will take the large onion and cut it cross-wise, so that each slice will be made up of a number of rings, and then drop the rings separately into a thin flour batter and fry them as you would sliced potatoes, you will find them very palatable.

I hope you may deem the humble onion worthy of a place in the book you are preparing.

Very truly yours,

W. J. BRYAN,

**A. W. WEDDELL**

American Consul-General to Calcutta, India

**Stuffed Cauliflower**

Use a medium sized cauliflower, a teaspoon of capers, 1 oz. of bread crumbs, 2 medium sized fresh mushrooms, grated cheese, 1 gill of white sauce, pepper and salt. Boil the cauliflower in salted water still nearly cooked; then drain carefully. Place in a baking-dish, in which it may be served. Remove thick stalk, and fill hole made with a mixture of the bread crumbs, chopped capers, and mushrooms, cheese, salt and pepper well blended. Press into as compact a shape as possible. Have white sauce ready, pour over, and then scatter grated cheese on top. Place in oven for 15 or 20 minutes.

**H. SHARP**

American Consul to Edinburgh, Scotland

**Sweet Potato Fritters**

To 2 cups of cooked sweet potatoes rubbed through a colander allow 3 eggs beaten light, 2 tablespoons of cream, 1 of melted butter and 2 of flour. Beat the eggs into the potatoes, then add butter, cream and flour. Drop by the spoonful into boiling fat and fry to a golden brown. Drain on paper and serve with lemon sauce.

**J. B. STEWART**

American Consul to Chihuahua, Mexico

**Frizoles**

Soak desired amount of beans over night and in the morning start to cooking. Chop 1 onion very fine with bacon and let simmer with beans, which should be soft and mealy. A bit of garlic adds flavor to this and is liked by many.

**REAR ADMIRAL BENSON, U. S. Navy****Baked Tomatoes**

Fill a baking dish with ripe tomatoes cut in small pieces (skin removed), canned ones will do, but keep all the juice; into it put about 2 slices of bread, add 1 level tablespoon of

salt, 1 tablespoon good shortening,  $\frac{1}{2}$  cup of sugar and dash of pepper. Cook a long time (about 2 hours slowly, being careful not to scorch, as it will spoil them). Serve in dish in which it was baked.

JOHN PHILIP SOUSA

Sands Point

Port Washington, Long Island

October 31, 1921.

My dear Mrs. Brebner:

Owing to my slow convalescence from a serious horseback accident, I am only able now to send you my favorite recipe. It is as follows:

#### **Pelotas á la Portugaise**

One quart can of tomatoes. Put in kettle on top of stove. Simmer or let boil slowly for  $1\frac{1}{2}$  hours. Add pepper, salt, 2 onions cut in fine slices, 4 allspice and 4 cloves. The cloves and allspice to be added after it starts to boil. After  $1\frac{1}{2}$  hours add: To 2 lbs. chopped beef add 1 onion chopped fine, 2 cups bread crumbs, a little parsley, salt and pepper. Make into meat balls about the size of a plum. Put into sauce and boil  $1\frac{1}{2}$  hours slowly. This makes fully 3 hours slow boiling for the sauce. Use a package or a pound of spaghetti, not macaroni. Have a large pot of boiling water with about 1 tablespoon of salt. Slide the spaghetti into the water. Do not break it. Boil exactly 20 minutes. Must be tender, not tough, nor doughy. To sauce add 3 bay leaves 1 hour before taking off the stove. Serve spaghetti on large platter, pouring tomato sauce over it. Serve pelotas on smaller platter, allowing a small quantity of sauce to remain on them. Serve grated Parmesan cheese on side. Use the piece of cheese to grate, not bottled cheese. This serves from 6 to 8 persons.

Wishing you every success in your enterprise,

Very sincerely yours,

John Philip Sousa.

**E. L. HARRIS**

### **Stuffed Tomatoes**

Select firm, solid tomatoes of similar size, cut a round place in the top of each and scrape out the soft part. Mix with stale bread crumbs, a little parsley, and, if you like, a suspicion of onion and chop very fine. Season with salt, pepper and butter, fill the tomatoes with the mixture, scatter bits of butter over them and bake in a moderate oven, basting occasionally with butter. Variation in seasoning may be made by using buttered bread crumbs with fine chopped ham seasoned with cayenne pepper and a dusting of Parmesan cheese, or minced meat, buttered bread crumbs, fine herbs to season, and a beaten egg. Another stuffing liked by many is made with rice.

## DEPARTMENT OF STATE

Washington

February 11, 1922.

Dear Mrs. Brebner:

Both my wife and I are only too glad to aid our ex-service men in any way we can. Neither of us, however, is very much of a cook, and I am afraid our recipes would not go very much further than the following: First take a potato, bake it, eat it. So I expect you will have to assign some delectable recipe to us and let us get by somewhat in the fashion of a camouflaged ship.

With best wishes for the success of your book, which will earn, I hope, a great deal of money for the unemployed ex-service boys, I am,

Yours very sincerely,

FRED M. DEERING,

The Assistant Secretary of State.

## AMERICAN CONSULAR SERVICE

Hull, England

**JOHN H. GROUT**

American Consul to Hull, England

April 11, 1922.

**Baked Beans**

I received your letter of March 28th this morning and am somewhat surprised that out of all the recipes that you have received none speaking of baked beans. How strange! Well, there are lots of things I do not know, but I do at least know "beans." I was born in Beverley, Mass., and people from there are called "Beverley Beaners," because it is supposed that that was where baked beans were discovered. Much is heard of "Boston beans," but that is due to the fact that beans were first canned in Boston. They had to go to Beverley to learn how to bake them, however, before doing so. My old grandmother, who taught me how to bake beans, used to execute the process in the following way: Select a quart of white pea beans. Sort them well over and clear them of all foreign substance. Then, supposing it is Friday night, place them in a basin of hot water, the water barely covering. Leave them there until the next morning. Then take an earthenware pot, preferably one of those enameled inside, but the then parboiled beans in the above pot, place a half pound piece of salt pork over. Through the top of the pork cut diagonal lines, just cutting through the rind. Next pour in water until it barely covers the pork, then place in a slow oven at say 8 o'clock in the morning and allow to remain there until about 5 in the afternoon. Stand guard over the door of the oven and shoot anybody who attempts to open the oven door for the purpose of pouring in water or other objects. When the beans are removed they will be found to be just what our old grandmothers used to bake and take pride in, and they knew better before or since what beans were, including your humble servant.

Cordially yours,

**JOHN H. GROUT,**

**WM. HOWARD TAFT**

Ex-President of the United States of America

**MAJ. BENJAMIN CROUCH****Sauce Tartare**

To 1 cup of mayonnaise dressing add 1 tablespoon each of finely chopped parsley, olives, pickles and chives. Excellent for fried oysters.

#### Sopa Forte (A Native Azorean Dish)

Make a soup of 2 lbs. of beef; add 1 lb. ham, cabbage, turnips, carrots, peas, and season well with salt; also add a green pepper. When cooked, remove the vegetables and ham. Line a deep roasting pan with slices of bread, cover with a layer of the well chopped vegetables, then add a layer of ham finely chopped, and over that sprinkle a layer of grated cheese. Continue these alternate layers till the dish is full, taking care that the last layer is of bread, and cover with grated cheese. Then ladle most of the soup—or stock—over these layers and place in a hot oven for 10 minutes. To serve, ladle into soup plates and pour over some of the remaining broth with each helping.

Add these ingredients after milk is cold. Cream, 1 cup sugar,  $\frac{1}{2}$  cup of finely chopped suet. Beat whites of eggs and yolks separately, adding beaten yolks to creamed butter, sugar and suet. Add this to the boiled milk and crackers, and add raisins, citron, and nuts. **Jellied Apples**

Pare, core and quarter tart apples; cut the quarters into 2 or 3 pieces, depending upon the size of the apple. Put these into an earthen dish—a new bean pot or casserole is suitable—with layers of sugar between, using about  $1\frac{1}{2}$  cups of sugar for about 1 qt. of apples. Add  $\frac{1}{4}$  of a cup of water, cover and cook in a very slow oven for 3 or more hours. When tender and very red and juicy add to the hot juice drained from the apples a scant quarter of a package of gelatine, softened in cold water, also a little lemon juice if desired. Carefully lift a few pieces of apples at a time and lay in the earthen bowl, adding 1 teaspoon of the liquid, until all is used. Let stand until cold and set, then turn out from the mold and ornament with a piping of thick cream beaten solid or surround with thin cream beaten with a whip churn and drained. Syrup from a jar of preserved ginger may be added to the cream before whipping. The apples are also particularly good served hot, without gelatine, with cream and preserved ginger.

**BRIG.-GENERAL LOGAN FELAND, U. S. Army****Mock Plum Pudding**

One pound of finely chopped cooked carrots,  $\frac{1}{2}$  lb. chopped suet, 4 tablespoons of sugar, 6 tablespoons of flour, 1 teaspoon each of salt, cinnamon, and nutmeg,  $\frac{1}{2}$  teaspoon ground cloves, and  $\frac{3}{4}$  lb. currants or mixed fruit. Boil  $\frac{1}{4}$  of an hour in a pudding mold. Serve hot or cold with hard sauce.

American Consul to Bluefields, Nicaragua

**Baked Bananas and Cocomnut Cream**

Take 6 bananas or more, place in a baking dish and dot with butter and brown sugar thickly. Bake until nearly candied. Serve with the cocomnut cream sauce. Sauce: Take 3 large cocomnuts, remove the meat from the shell and grate it into a cheesecloth. Squeeze cream from cocomnut into a small jug and set on ice until ready to serve.

**U. S. SENATOR I. L. LENROOT, State of Wisconsin****Graham Pudding**

Two cups of graham flour, 1 cup of molasses, 1 cup of sweet milk, 1 cup of chopped raisins, 1 cup chopped walnuts, 1 teaspoon of cloves and 1 of cinnamon, 2 teaspoons of soda dissolved in the molasses, pinch of salt, and dessert spoon of vanilla. Steam 3 hours.

Sauce: Beat 1 cup of sugar and  $\frac{1}{2}$  cup of butter to a cream; add the well beaten yolks of 3 eggs, then the beaten whites of 3 eggs. Keep it cool; add vanilla just before serving and beat again.

**COL. F. J. MORROW, U. S. Army****Peach Marvels**

These peaches, to be served with the turkey, are marvels of luscious goodness. Place the halves of perfect canned peaches in a baking dish, and pour over them the syrup from the can. Fill each cavity with pecans, place a marshmallow on each piece of fruit, and run in the stove to season and brown a tiny bit.

**ARTHUR COOKE**

American Consul to Swansea, Wales, B. I.

**Baked Bananas**

Peel and slice 6 bananas lengthwise; line a baking dish with them; dot with butter and cover with brown sugar; continue until dish is filled. Bake until candied. A few drops of lemon juice improves the taste. Serve with whipped cream.

**REAR ADMIRAL S. S. WOOD, U. S. Navy****Poor Man's Rice Pudding**

One quart of milk, 3 tablespoons of rice, 4 tablespoons of sugar, a few drops of vanilla (when pudding is nearly done), and raisins, if desired. Wash the rice well, then add the sugar and raisins and stir into the cold milk. Put in a moderate oven and let cook slowly until the rice is thoroughly cooked (at least  $1\frac{1}{2}$  hours, and probably more, depending upon the heat of the oven). The pudding should be stirred every 15 minutes to prevent skin forming over the top and keeping the

rice and raisins well mixed in the mixture. When rice is well cooked or nearly done allow the skin to form and brown without stirring it for the last half hour. Much depends upon the regular stirring.

### **REAR ADMIRAL D. W. TAYLOR**

Chief, Bureau of Construction and Repair, U. S. Navy

#### **Virginia Tyler Pudding**

Line 3 pie plates with a rich pie pastry and bake until a light brown; then heat the yolks of 4 fresh eggs very light. Cream 2 cups of sugar and  $\frac{3}{4}$  cup of best butter. Add the yolks to this and beat well. Then stir in by degrees 2 cups of cream, and 1 teaspoon of vanilla. Mix thoroughly, put into the pie crusts and bake slowly until done.

### **REAR ADMIRAL J. L. JAYNE, U. S. Navy**

#### **Thummery**

Bake 4 medium sized apples, but do not remove the skins, or sweeten. When cold remove skins and scrape from core, removing all lumps. Beat whites of 2 eggs thoroughly (not with a Dover beater, but a whip), then add apple pulp gradually. Add confectioner's sugar to taste and enough to smooth mixture. Flavor with lemon. Serve with cream.

### **U. S. SENATOR T. H. CARAWAY, State of Arkansas**

#### **Queen's Basket**

Cook  $\frac{1}{2}$  cup of sugar and enough water to dissolve until it spins a thread when dropped from a spoon. Set the dish in boiling water to keep the syrup from hardening. Butter an inverted bowl, dip macaroons in the syrup and arrange edge to edge over the bowl. Bend a stiff piece of cardboard, buttered, in the form of a handle and set on the bowl, then lay on it, edge to edge, macaroons dipped in the syrup. When firm, remove the pasteboard and place the macaroon handle on the basket by dipping each end into the syrup. Just before serving fill with chestnut cream, which is made as follows: Shell and remove by boiling the dark skins from 1 lb. Italian chestnuts and boil again until tender. Mash and press through a sieve, sweeten, flavor with  $\frac{1}{2}$  teaspoon vanilla extract and fold in 1 pt. of stiffly whipped cream. Decorate with boiled chestnuts, candied by dipping them into a hard syrup.

**CHARLES S. WILSON**

American Ambassador to Bulgaria

**Fruit Cup**

Arrange a box of hulled strawberries in a glass dish; boil 1 cup of sugar, and  $\frac{1}{2}$  cup of water 5 minutes, then pour in a fine stream onto the yolks of 3 eggs, which should be beaten until thick. Cook over hot water, stirring constantly until thickened. Cool, add the juice of 2 lemons and pour over the fruit. Mix strawberries alternately with pitted cherries and shredded pineapple. Chill thoroughly before serving. Chopped nuts and marshmallows may top the dish.

**GOVERNOR O. H. SHOUP, State of Colorado****Pineapple Delight**

One cup of chopped pineapple, 1 tablespoon of gelatine, 2 tablespoons of rice,  $\frac{3}{4}$  cup of sugar, 1 cup of whipping cream, 2 cups of boiling water or pineapple juice, pinch of salt, a few preserved cherries. Boil rice until soft, then drain it. Dissolve the gelatine in the boiling water, add sugar and rice, cool slightly, then add the salt, pineapple and whipped cream. Cool and serve in dainty glasses with a cherry on top of each portion.

**REAR ADMIRAL HUGH RODMAN, U. S. Navy****Prune Honey Pudding**

Wash  $1\frac{1}{2}$  cups of prunes; then let them stand just covered with warm water for 20 minutes. Drain, remove the pits and chop the pulp. To this add  $\frac{1}{2}$  pt. of sweet milk, 1 cup of bread crumbs, the grated rind of  $\frac{1}{2}$  a lemon, 3 tablespoons of honey and 3 tablespoons of melted shortening. Then sift 1 cup of flour, 2 teaspoons of baking powder and 1 teaspoon of salt together and add last. Place the mixture in a greased covered mold (1 lb. coffee can is excellent), and set, weighted, in a kettle of boiling water that will come  $\frac{2}{3}$  to the top of the mold. Cook in this way or in a steamer for  $2\frac{1}{2}$  hours. Serve with a sauce made of 1 beaten egg, 1 cup of honey and 2 teaspoons of lemon juice, boiled together. Add hot water if a thinner sauce is desired.

CHAPTER XIII.

**PIES**

You never can tell what's in a pie until it is opened.  
—Old Saying.

AMERICAN CONSULAR SERVICE

Florence, Italy

May 4, 1922.

Madam:

There is no Mrs. Dorsey, except my mother, Mrs. Ann Elizabeth Dorsey, who is 92—almost 100 years American.

I don't know much about cooking, but I happen to have with me a recipe for Lemon Meringue Pie such as I have eaten in my Maryland home ever since I can remember. It's 100 per cent American, alright, and mighty good.

If this will be of use for your "100% American Recipes" you are quite welcome to it (as well as to the Pumpkin Pie one which happens to be on the same sheet, and that I therefore enclose), especially if it can help a deserving ex-service man or his family.

Very respectfully yours,  
W. RODERICK DORSEY,  
American Consul.

**Lemon Pie**

Juice of 2 lemons, rind of 1 grated, 2½ cups sugar, 2 of milk, yolks of 6 eggs, 2 tablespoons of flour, 2 of butter. Beat sugar and yolks of eggs together until very light, then stir

in the butter melted, next the flour and milk. This makes 2 nice thick pies. Put in single crust in pie pans and bake in a moderate oven until filling is thick. Beat the whites of the eggs with about 2 tablespoons of sugar until very stiff. When the pies are sufficiently baked spread the whites as meringue on top, sift granulated sugar over to make crisp and set in oven just long enough to brown the meringue.

### Pumpkin Pie

Two teacups stewed pumpkin, dry and mash fine, a heavy  $\frac{1}{4}$  lb. (say 5 ozs.) butter, juice and grated rind of 2 lemons, 1 wine glass of brady substitute, sugar to taste (say 2 teacups), 5 eggs. Beat yolks and whites separately, add yolks to ingredients, and stir in well beaten whites separately just before baking. Put in single crust in pie tins and grate nutmeg on top of each pie. This makes 2 pies.

## GOVERNOR C. H. COX, State of Massachusetts

### Lemon Pie

Mix one cup of sugar with 1 tablespoon of cornstarch, add 2 eggs, 2 lemons, grated rind of 1 lemon, 1 cup of boiling water and 1 tablespoon of butter. Cook above ingredients until thick and bake in 1 crust.

## F. W. GODING

American Consul-General, Guayaquil, Ecuador

"However, I am enclosing copy of a recipe which she brought from Montevideo, her home, that was a great favorite with her and with me. When properly made it is one of the most wholesome and agreeable pies ever placed upon my table and will be appreciated by everyone who prepares it."—F. W. G. (speaking of his wife's recipe).

### Spinach Pie

Clean the spinach well and separate the leaves from the stems, boiling them in plenty of water to which a little salt has been added; then drain through a strainer, and cut into fine pieces, squeezing until the juice is well out, then add  $\frac{1}{2}$  cup of bread crumbs which have been soaked in milk. Beat slightly 3 eggs and mix with a small cup of grated cheese, 2 tablespoons of butter, and seasoned with salt and pepper to taste. Place the mixture in pie tin 2 or 3 inches deep, greased

with butter, the bottom of which has been covered with dough, for the under crust; then place the dough for the upper crust on the top (the mixture nearly filling the tin). Bake  $\frac{3}{4}$  of an hour when it is ready to be served. May be eaten hot or cold.

#### **Orange Pie**

Three large oranges, 1 lemon,  $\frac{3}{4}$  cup sugar, 3 eggs,  $\frac{1}{2}$  cup water. Take juice of oranges and  $\frac{1}{2}$  lemon, grated rind of 1 whole lemon and boil on stove, add the beaten yolks (3) and whites of 2 eggs, 1 small tablespoon of cornstarch and boil until thick. Take from stove and pour into a rich pie crust which has been previously baked. Beat the remaining white until stiff, add 1 tablespoon granulated sugar, put on top and brown slowly for 12 minutes in oven. Then you have a fine pie.

### **GOVERNOR S. BONE, Territory of Alaska**

#### **"My Mother's Cream Pie"**

One-half pint of milk, 1 egg, 1 tablespoon of cornstarch. Sweeten and flavor. Stir sugar and cornstarch with a little of the cold milk, add to the other milk when it comes to a boil. Beat the yolk into the mixture while hot. When thick remove from stove. Beat white of egg stiff, adding a little sugar, and stir into cream mixture. Bake crusts separately. While cooking, dissolve 1 heaping teaspoon of powdered gelatine in a little cold water, and add to the hot cream when it is thick. Add  $\frac{1}{2}$  teaspoon

of lemon extract last. Beat the whites of eggs stiff and add to the mixture. Let cook  $\frac{1}{2}$  hour and spread between the layers of puff paste. Sprinkle with sugar and cut into small cakes.

**GOVERNOR PAT M. NEFF, State of Texas**

"The enclosed directions for making Pecan Pie I hope will prove of service in the compilation of your book. M. N.

**REAR ADMIRAL H. A. WILEY, U. S. Navy**

**Rich Lemon Pie**

Six eggs, 3 lemons, 3 cups granulated sugar,  $\frac{1}{2}$  cup rich milk or cream and 1 large tablespoon of butter. Cream the butter and sugar together. Scald the milk, separate the eggs and to the yolks add the sugar and beat well; add to the scalded milk slowly, stirring all the while. Place in a double boiler and cook 10 minutes. Add the cornstarch and flour, which has been dissolved in a little cold water. Stir constantly to prevent scorch-

ing, cooking until thick, then add vanilla.

**Crust:** Two cups of flour,  $\frac{1}{2}$  cup of shortening,  $\frac{1}{2}$  teaspoon each, salt and baking powder, enough cold water to mak a stiff dough. Roll out on a floured board, line the pie plates, and bake in a quick oven until a light brown. Fill with the cream filling.

"My wedding cakes were made from this unfailing recipe."—Mrs. Scott C. Bone, Juneau, Alaska.

**PAUL H. CRAM**

American Consul to Nancy, France

NOTE: This is the only cake ever been known to be made without baking.

**Uncooked Fruit Cake**

One and  $\frac{1}{2}$  lbs. of seeded raisins,  $\frac{1}{2}$  lb. of dried currants,  $\frac{3}{4}$  lb. of dates,  $\frac{1}{2}$  lb. of figs,  $\frac{1}{2}$  lb. of candied cherries,  $\frac{1}{2}$  lb. of crystallized pineapple,  $\frac{1}{4}$  lb. of citron,  $\frac{3}{4}$  lb. of shelled pecans, 2 cups of oatmeal,  $1\frac{1}{2}$  cups of wheat biscuit, 1 cup of grape juice, 1 cup of thick blackberry juice,  $\frac{3}{4}$  cup of strained honey, 4 tablespoons of olive oil, spices to flavor well.

Combine the fruit juices and drop into them a few pieces of cinnamon bark, a few whole cloves, allspice, and about an eighth of a teaspoon of nutmeg. Place the mixture over a slow fire and allow it to simmer until it is well flavored with the spices. Do not let it boil rapidly at all, and, when flavored, remove it from the fire and strain through cheesecloth.

Run the oatmeal and wheat biscuit through a meat chopper before measuring. Reheat the fruit juice to the boiling point, and pour it over the cereals; then cover it closely and set it away overnight.

Prepare the fruit and the nuts as for the usual fruit cake. The currants will need washing through half a dozen waters and must dry overnight. If one prefers they may be left out and the same amount of some other fruit used instead; but the flavor of the currant will repay one for the extra trouble of cleansing. The nuts are best broken into small pieces; the raisins, dates, figs, pineapple and citron cut into bits, and the cherries left whole. When ready to mix measure the honey and olive oil, and stir them into the cereals and fruit juice. Combine the nuts and fruits and work them into this, using the hands. The mixing must be done in a large pan so as to blend everything thoroughly.

Line a pan with white paper brushed over with olive oil. Pack the mixture in this, a little at a time, pressing it down until it is perfectly solid. Decorate the top with nuts and cherries, and cover it with a paper brushed in oil.

Put the cake in a covered bread tin and set it in a cool place for several weeks or longer. Several days before cutting it wrap it in a cloth wet with grape juice.

UNITED STATES SENATE  
Committee on the Library

March 20, 1922.

My dear Madam:

I received your letter of March 10th. I would be very glad to help you, but I don't know how to cook anything in the world except hard-boiled eggs, and I imagine everybody knows that. I can also make a cup of coffee, but when I do, I make it so strong that the dregs have to be drained out of it with cheesecloth. One good cup of it, though, threatens a man with **delirium tremens**. I don't think any of my recipes would help your book. My recipe for cooking hard-boiled eggs is to "put them in boiling water and then forget it." If you forget them long enough, they are hard-boiled.

Very truly yours,

JOHN SHARP WILLIAMS

# JAMS AND PICKLES

It has been observed that "Change is the sauce that sharpens appetite."—An Ancient Saying.

### **FREDRICK M. RYDER**

American Consul-General to Vancouver, B. C., Canada

#### **Apple Ginger**

Four pounds of sour apples, 4 lemons, 2 lbs. of sugar and 1 oz. of ginger root. Pare, core and chop apples; wash, remove seeds and chop lemons; add sugar and ginger root, and cook very slowly 6 hours. Pour into glasses and seal.

### **GOVERNOR M. C. MECHEM, State of New Mexico**

#### **Preserved Quince**

This is different from the kind that our mothers used to make, but is very palatable. The quince flourishes in New Mexico to an unusual degree, and the quality of the fruit is the finest of any on the market. In preparing this preserve always ask for New Mexico quinces.

Take 12 large, ripe quinces and peel and quarter them, leaving the seeds and core, and boil in clear water slowly until tender. While hot, press them through a colander, or remove the seeds and cores and run the fruit through a meat grinder.

To 1 cup of quince take 1 cup of sugar and mix in a graniteware kettle, and cook slowly about  $\frac{1}{2}$  an hour, or until you are able to see the bottom of the kettle through the liquid, and if none of the mixture sticks to the pan it has cooked enough. Take it from the stove and beat it as you would beat

an egg, continually, until it becomes cold, when it should be put in small molds, just large enough for serving 1 person. As soon as it has hardened it is ready to use.

It is difficult to give exact directions for making this preserve, but if one acquires the art of it they will find it well worth the effort.

**U. S. SENATOR MILES POINDEXTER, State of Washington**  
Chairman, Committee on Mines and Mining

### Orange Marmalade

One grapefruit, 1 orange and 1 lemon. Slice the fruit peel and all; to 1 cup of fruit add 3 cups of cold water, letting it stand over night; next day boil until the rind is tender, letting it again stand over night. To 1 cup of fruit add 1 cup of sugar. Let juice come to a boil and add sugar, letting it boil until it jellies.

### FRANK W. MAHIN

American Consul to Amsterdam, Netherlands

### Raspberry Jam

One and  $\frac{1}{4}$  lbs. of sugar to 1 lb. of fruit. Put the sugar in preserving kettle and allow to melt slowly on the back of the stove, being careful it does not burn; it will take several hours for the sugar to melt. When very hot add the raspberries and boil very fast 3 minutes, when it will be clear and ready to put in glasses. Currants or strawberries may be treated in the same way.

Note: This method of making jam gives all the flavor of fresh fruit and beautiful color.

**U. S. SENATOR D. W. FLETCHER, State of Florida**

### Orange Marmalade

One orange, 1 lemon, and 1 grapefruit (thick skinned is best). Remove skins in quarters. Boil  $\frac{3}{4}$  of an hour; change water and boil  $\frac{3}{4}$  of an hour; repeat and drain;  $\frac{1}{4}$  of peel strip in fine pieces and  $\frac{3}{4}$  of peel grind coarsely in meat chopper. Slice the fruit, remove seeds, core; mix with the peel and cover with 3 times its weight in water. Boil 1 hour. Add equal weight in sugar and boil 1 hour, or until the syrup is the color of amber and as thick as honey. Put into glasses; cover with melted paraffine when cold.

Put through food chopper 1½ lbs. of raisins (seeded), 2½ lbs. pitted cherries, 4½ large oranges, pulp and rind, and 5 lbs. of sugar. Boil very slowly 1 hour. Seal while hot.

“My dear Mrs. Brebner:

“Please pardon by long delay in answering your letter of March 15, 1922. I have been waiting for my property to arrive from Camp Dix, N. J., in which I have many valuable recipes gathered during my long service in the army, but, at the present time, this property is still somewhere en route. Hence, I will consider it a favor if you will put my name to one or more recipes that you may furnish to put in your book.

“I heartily indorse your work, and I believe a book of this kind will bring in a good revenue to the dependent families and wounded of our late war. No doubt it will be both valuable to the people who buy such a book for the many valuable recipes contained therein, but, in addition, it will be a souvenir of this generation to the generations to come in that it contains the names of the distinguished men of this time. I assure you that you have my hearty support, and you are at liberty to associate my name with one or more recipes that you may select.

“I deem it an honor to be asked to contribute this mite to such a worthy cause. I trust my tardiness in writing may not have held up your publication.

“Sincerely yours,  
“WILLIAM WIEGEL,

Mrs. Gertruble Stafford Brebner,  
Chicago, Illinois.

“I congratulate you on your very laudable ‘double-barreled’ ambition. It is certainly a fine and noble idea to aim for such beneficial and material assistance for the Disabled Veterans, and it is almost equally praiseworthy to teach the people of this country how to cook. I am only sorry that I can’t write you out a recipe, but you are quite at liberty to tag any dish south of the Mason and Dixon Line with my mark. I make this condition, as I was bred in ‘Old Kentucky,’ and my tastes sorter run to Southern dishes.”—General Radford.

# CONFECTIONERY

There is a best way to do everything, even if it be but to boil an egg.—R. W. Emerson.

### **BRIG.-GENERAL J. W. RUCKMAN**

(Placed in memory of General Ruckman by his daughter, Marjorie Campbell Ruckman.)

#### **Fudge**

### USES OF LEMONS

The lemon is not sufficiently appreciated from a hygienic standpoint; for instance:

Lemon juice removes stains from the hands.

A dash of lemon juice in plain water is an excellent tooth wash; it not only removes the tartar, but sweetens the breath.

Lemon juice applications will allay irritation caused by the bites of insects.

The juice of a lemon taken in hot water on awakening is an excellent liver corrective, and for stout people is better than any "anti-fat" medicine ever invented.

Glycerine and lemon juice, half and half, on a bit of absorbent cotton is the best thing in the world wherewith to moisten the lips of a fever-parched patient.

Lemon juice and salt will remove rust stains.

For a manicure aid lemon juice is all that is necessary for loosening the cuticle and for brightening and cleansing the nails.

Save your lemon rinds and dry them for kindling; a handful will revive a dying fire.

# HELPFUL HINTS

## COMMON WAYS OF COOKING FOOD

**Baking** is cooking in confined heat in the oven. Examples: Bread, cake, meat. This method when applied to meat is commonly called roasting. Before baking, see that the oven is clean and heated to the desired temperature.

**Boiling** is cooking by immersion in water at 212°. F. Examples: Potatoes, cabbage, macaroni.

**Braising** is a combination of stewing on the top of the range, and baking in the oven, with or without vegetables. Examples: Tough meats, fowl, whole liver.

**Broiling or Grilling** is cooking over or under direct heat, as over glowing coals or under a gas flame. Examples: Steaks, chops.

**Fricasseeing** is commonly a combination of stewing and sautéing. Examples: Fowl, forequarter of lamb or veal.

**Frying** is cooking by immersion in hot, deep fat. Examples: Doughnuts, croquettes.

**Pan-baking or Pan-broiling** is cooking in a lightly greased or ungreased hot frying pan or griddle. Examples: Steak, English muffins, griddle cakes.

**Pot Roasting** is cooking in an iron kettle or earthen pot in a small amount of water, after meat has been quickly browned in a small amount of fat in the frying pan or kettle. Cook slowly until very tender with or without vegetables.

**Roasting** is cooking before an open fire. This method is seldom used in small households, although the baking of meats is commonly called roasting.

**Sautéing** is cooking in a small amount of fat in a shallow pan on top of range. Examples: Sliced fish, meat, potatoes, eggs.

**Simmering** is cooking in liquid at 185° F. The bubbles should always be below the surface. Examples: Ham, corned beef, soups.

**Steaming.** Dry Steaming is cooking by heat or steam, as in double boiler or tin, over or surrounded by boiling water. Examples: Rice, brown bread.

**Moist Steaming** is cooking by direct contact with steam, as in a steamer or colander, over boiling water, closely covered. Examples: Fowl, puddings, dumplings.

**Stewing** is cooking slowly in a small amount of water (about 160° F.) until food is very tender. Examples: Beef, lamb, vegetables.

### WHEN COOKING OYSTERS

Never salt soups or stews until just before removing from the fire.

In frying oysters a little baking powder added to the cracker crumbs will greatly improve them.

Escalloped oysters retain their flavor better if covered while cooking.

Half the liquor, heated, or hot milk, may be poured over escalloped oysters when half baked.

It is always better to handle oysters with a fork, as contact with the hands may make them tough.

### DIGESTIBLE CABBAGE

Cabbage is made digestible by first slicing and then putting in boiling water with a pinch of soda and some salt, and boiling just 15 minutes.

### PRUNE DESSERT

Soak prunes over night. Boil slowly until very tender. Sweeten to taste. When they have cooled in their own liquor, pierce one side with a pointed knife, remove the stone and fill with chopped nuts and raisins, mixed. Serve with whipped cream.

### TENDER PINEAPPLES

The toughness of pineapples is almost entirely eliminated by slicing the fruit up and down, from stem to blossom end, instead of through the core as is usually done. Thrust a fork into the blossom end to hold the apple steady and slice until you come to the hard, pithy core, which can then be discarded. This trick was taught me by an old pineapple grower and makes all the difference in the world in the tenderness of this fruit, which is usually hard and chippy when sliced with instead of against the grain.

## POULTRY

For market, dry picking is the best way—that is, pulling out the feathers immediately after killing, while the poultry is still warm, but for home consumption, the scalding method is quicker and easier. After killing dip in scalding hot water and move about for a few minutes, then pick as quickly as possible. Ducks should be scalded a little longer and then wrapped in canvas or any close cloth, to steam about 5 to 10 minutes, after which the feathers can be easily pulled. The hairs should be singed off by holding and turning the poultry in the flames of a lighted twist of paper, or some burning alcohol. Wash thoroughly and dry, and then lay on several folds of paper, and clean at once. The quicker poultry is cleaned, the better, but it is best not to cook it until 24 hours after killing.

After singeing, and before drawing, pull out all pin feathers, then cut off the head, and next cut through the skin around each leg, about  $1\frac{1}{2}$  inches below the first leg, being careful not to cut tendons. Place the leg with the cut over the edge of a table, press downward to snap the bone, then take the foot in the right hand, holding the bird firmly in the left hand, and pull off the foot, and with it the tendons. Make a lengthwise cut through the skin just below the breast bone, large enough to admit the hand, and remove the entrails entire, by first carefully loosening them all around, and then bringing the hand forward, grasping the entrails firmly, and with one pull drawing them out. The lungs and kidneys, on either side of the backbone, should next be removed, and then the wind-pipe and crop, close to the skin of the breast, by inserting two fingers under the neck skin. Draw down the skin and cut the neck off close to the body, leaving on enough skin to close up the opening after the crop is partly filled with a little dressing. The giblets (gizzard, heart and liver) should next be carefully separated from the entrails, being careful not to break the gall bag attached to the liver, the bile from which would impart an extremely bitter flavor to any parts it came in contact with. Then wash the bird thoroughly in and outside, rub with salt, and let hang in a cool place over night.

### **CANNING PIE PLANT**

Pick when it is long and good, cut up and put in glass fruit cans, press down, cover with cold water, seal and put away. It will keep fresh until the new crop comes. In sections where the fruit is scarce, it can be easily raised, and is easily kept as described.

### **PICNIC SANDWICHES**

Bake the bread in quart cans and press the chopped meat or chicken in cans of the same size. When both are cold put very thin slices of meat between two buttered slices of the bread. If your bread and meat are good, you will be proud of your sandwiches.

### **WHEN BAKING**

If a handful of salt is put on bottom of oven under pans when baking ginger-bread or any cake easily burned, it will prevent burning.

Putting a pinch of salt in the coffee improves the flavor.

### **TO BOIL VEGETABLES**

When cooking lima beans, rice, etc., it is very provoking to have them foam and sputter from the kettle onto one's clean stove. Drop into the kettle a small lump of butter and there will be no "boiling over."

### **OLIVE OIL IN BAKED BEANS**

Use 5 full tablespoons of olive oil to 1 qt. of dry beans. They are delicious and more easily digested than when pork is used.

### OATMEAL PIE CRUST

Scald 2 parts of fine oatmeal with 1 part of hot water; mix well and roll thin. As this bakes very quickly, fruit which requires much cooking must be cooked first before making the pies. This crust is very tender, possessing all the desirable qualities of shortened pie crusts without their injurious effects.

### SAVE DRY BREAD

If your bread becomes dry, do not throw it away; it is a part of Darby's hard earnings. Dip the dry loaf quickly into water, put in pan, place in oven and leave until crust is dry. The steam from the external moisture will enter the loaf, leaving it fresh as when newly-baked.

### TO KEEP TINS FROM RUSTING

Tin vessels used in water often rust. This can be prevented by greasing well and heating in oven. They will not rust then, no matter how much used in water. Care should be taken not to burn the vessel.

### SEASONING A FOWL

To improve the flavor of fowl, when seasoning it, add ginger to the salt and pepper, and rub this into flesh well. For a change, try putting an onion and an apple in ducks in place of the usual bread-crumbs dressing.

### KEEPING POTATOES IN WINTER

To keep sweet potatoes through the winter perfectly, line a barrel with warm dry newspapers, side and bottom, then wrap each potato in paper and pack into it, till full, cover well and keep in warm, dry kitchen or any warm, dry room. A smaller quantity may be packed in a box in the same way, and

kept in warm, dry atmosphere. To keep Irish potatoes in the cellar, sprinkle air-slacked lime among them; it seems to keep them dry and healthy. (As they are sorted, sprinkle a little in every layer.)

### VINEGAR IN DOUGHNUTS

For doughnuts made with sour milk or cream, add a generous half-teaspoonful of vinegar to the batter before adding the full amount of flour.

### BOILED LEMONADE

In making lemonade, boil the desired quantity of sugar and lemon juice together, cool and add as much cold water as needed — a great improvement on the old way.

### SUBSTITUTES FOR ALCOHOL IN MINCE PIE

Instead of cider and other alcoholic liquors, use fruit juices for mince pies. The juice left from canning strawberries, sour cherries, plums, etc., if sweetened, boiled down and canned, makes a rich, delicious moistening for mince meat. If raisins and suet in plenty are added to the mixture, it will be rich enough to please the most fastidious appetite.

### A COOKING HINT

Turn the colander upside down over the fish or meat sautéing in an iron spider; the small holes allow the steam to escape and still prevent the grease from spattering.

### BAKING DAY

After taking bread from the oven, do not wrap tightly in cloth as many do; but rub the top of loaves with a little lard

or butter, tip on edge on your kneading board so that all possible crust is exposed to the air and if possible place outdoors or in the wind to cool quickly a few minutes, then remove to convenient place and let stand until thoroughly cold before putting away in box or can, and you will have delicious, tender crust.

### PREVENTS SOGGY PIE-CRUST

Pie-crust will not be soggy if brushed over with the white of an egg before the fruit is put in.

### CARE OF WOODEN BOWLS

To prevent wooden bowls from splitting, take them when new, before they have been touched with water, applying boiling hot linseed oil over the outside and top edge, all that will penetrate.

### FRIED SQUASH

Cut a fine-grained, dry, sweet squash into thin slices, pare and fry in plenty of butter and season well. This dish will be found an excellent substitute for sweet potatoes.

### TO SAVE PLANTS

To prevent bugs from eating your cucumber vines, plant one stalk of garlic in each cucumber hill; nothing will then bother the plant.

### TESTING FLOUR

There are several methods of testing flour, which should be known to every purchaser. If flour is white with a yellowish straw tinge, it is good, while if it has a bluish cast, or has

black specks in it, it is inferior.

Wet and knead a little of it between the fingers; if it works soft and sticky, it is poor; if elastic and firm, it is good. If a little flour is thrown against a dry, smooth surface and it falls like powder, it is not of the best quality. If flour squeezed in the hand retains the shape given it when released, it is of good quality.

### USES OF BUTTERMILK

Should you be so unfortunate as to be poisoned by poison ivy, bathe the affected parts in buttermilk every 10 or 15 minutes until the poison is counteracted. Should the case be a severe one, poultice the blisters with bread and buttermilk poultice. It will give relief very soon and will cure the most severe cases.

Buttermilk will remove mildew from cloth, white or colored. Soak the garment over night, then lay it on the grass in the sunlight. If the stain is set, soak the cloth for two or three days and lay it in the sun.

Buttermilk is excellent for freshening salt pork for frying. Slice the pork and soak over night, or set on stove and let it come to a boil, dip in flour and fry.

**Irish Stew**

“Dear Madame:

“Referring to your letter of August 1st, which reached me but a day or so ago, I am sorry to say that I am not able to comply with your request to furnish you my favorite recipe, because I pay so little attention to the question of food that I eat what comes to me and ask no questions.

“If there is any one dish that I would specially desire above all others, it would be an Irish stew.”

LEGATION OF THE  
UNITED STATES OF AMERICA

Berne, Switzerland

March 7, 1922.

Dear Mrs. Brebner:

In reply to your letter of January 27th, I beg to say that while Mrs. Grew and I have no recipe available for your cook book, we shall be glad to be numbered among the "100% Americans" and to be credited with some recipe which you may furnish.

Respectfully yours,

J. C. Grew.  
American Minister.

**Consommé**

Eight lbs. of beef, 2 lbs. knuckle of veal, 1 small fowl,  $\frac{1}{4}$  cup of carrot,  $\frac{1}{4}$  cup of turnip, 1 tablespoon of salt, 1 sprig of majoram, 1 sprig of thyme, 1 bay leaf, 1 sprig of parsley, and 6 qts. of cold water. Simmer beef, fowl and veal in water 4 hours; add vegetables, salt, and herbs tied in a bag; cook slowly 1 hour. Strain, cool, remove fat, and serve.

Note: Consommé is the foundation for all clear soups, each soup taking its name from the garnishing used.

AMERICAN CONSULATE  
Dairen, Manchuria

March 3, 1922.

My dear Mrs. Brebner:

I have to acknowledge the receipt of your letter of January 12, and hasten to send a recipe of Mrs. Kirjassoff's, which is one of my favorites.

**Chicken Pilau**

This is an Indian dish, often mentioned in Thackeray's novels (Thackeray was born in Calcutta), which is very popular with all Americans and Europeans who visit India.

I trust that the book you contemplate will have great success. My wife and I thank you for this opportunity to have even a small share therein.

Very sincerely yours,  
Max D. Kirjassoff.

**Chicken Pilau**

One medium sized chicken,  $\frac{1}{4}$  cup concentrated pan gravy,  $1\frac{1}{2}$  cups rice, 5 cloves, 1 stick cinnamon, butter size of an egg,  $\frac{1}{2}$  cup seedless raisins (boiled for 5 minutes and with water drained off),  $\frac{1}{2}$  cup almonds (blanched and browned), 1 onion cut in strips and fried in butter until crisp and brown, 2 hard-boiled eggs. Bake the chicken until tender, preserving the gravy. Boil rice in salted water together with the cloves and the stick of cinnamon. When half cooked, remove spices, drain off water, and complete cooking by steaming. When finished the rice must be dry with each kernel separate. Mix butter with the rice, together with the pan gravy and raisins. Make a mound of the rice in the center of a platter. Sprinkle with almonds and the fried onion and garnish with the hard-boiled eggs cut in halves. Cut the chicken for serving and arrange the pieces around the mound of rice.

This is a most delicious dish, and the rice prepared in this way has a very rich, exotic flavor.

**MAJOR GENERAL J. A. LEJEUNE**  
Commandant U. S. Marine Corps

**“Pain Perdue” (Lost Bread)**

“This is a favorite dish in Louisiana where Gen. Lejeune was born and reared.”—Mrs. J. A. Lejeune.

One loaf of bread (a day or two old), and in slices  $\frac{1}{4}$  inch thick, 3 eggs, 3 tablespoons of sugar stirred together, and 1 or 2 tablespoons of lard. Have the lard very hot; dip slices of bread in the egg mixture and fry brown on each side.

**WILLIAM HOWARD TAFT**

Chief Justice, Supreme Court, former President of the  
United States

**Rolled Chops**

Cut egg plant into rounds, roll them in egg and bread crumbs, and fry. Take loin chops, cut thick, and roll them into rounds, putting a tooth pick into them. Broil them and put them on the egg plant and pour truffle sauce over them. (See sauces.)

### 1923 IS COMING

This years' book of 1922 is closed and sealed at last  
Nor would I alter what is past.  
My work, my pleasures, thoughts and acts,  
Are all on record as plain facts.  
But here before me pure and white,  
Are pages for recipes of 1923 to write.  
More recipes from these same donors will I borrow,  
And start the "All-American Cook Book" of tomorrow.
