

Yamaha Ultimate Piano Collection

Special Promotional Flash Memory Content for Yamaha MOTIF XF

This library requires
MOTIF XF OS V1.50 or later.

This library contains the piano samples that are installed on the CP1, flagship stage piano, S90ES, the best-seller piano Synth, MOTIF ES and MOTIF. The samples are specially adjusted for the MOTIF XF with deep sound in the mid to lower registers and pure and gorgeous sound in the high registers. The 32 Voices give a good example on how to use this great sample library. Find your piano sound for your musical style.

Voice No.	Voice Name

USR2:A16	[CP1] Old Century	USR2:B16	Reverb Piano

Important note:

By loading the All-file all current USER data in the MOTIF XF are overwritten.

User Waveforms and Samples already stored in the Flash Memory are not overwritten.

If you haven't backed up your USER data yet, you should do so now (File Type „all“ -SAVE).
