Rioteer is the brainchild of Bas Welling and hails from Tilburg Crackcity. Rioteer created quite a storm in the international world of Free Electronics, Fragmented Media and styles like Breakcore, Noise, Industrial, 8bit lo-fi, and Deviant Hardcore.

For over a decade he is responsible for promoting the ruff uncompromising edge of sound in Holland and abroad and is one of the most booked artist in this area of sound. Rioteer takes inspiration from different blends of music and played in several bands like African percussion groups and experimental Noise Bands. Collaborations include stage performances with The Haters, Otto Von Schirach & Doormouse.

The result of this project was performed on the 2008 edition of the ZXZW Festival as part of "The Shape of Breakcore to Cum". A second private jam was held a few months later at Ruimte X in Tilburg with Otto Von Schirach, Jason Forrest, Duranduranduran, Nero's day at Disneyland and Rioteer.
