THE WORLD'S LARGEST SELECTION OF SAMPLED SOUNDS ON CD & CD-ROM

EAST★WEST/SOUNDWAREHOUSE

WELCOME TO THE WORLD OF SAMPLING

You now have access to the hottest and largest selection of sampled sounds on the planet.

The sampling world is exploding. Just as computers revolutionized the business world and continue to do so; musicians, producers, engineers and D.J.'s now realize the incredible power samplers can provide in their musical work environment. Apart from the unparalleled ability to turn any audible sound into a musical composition, samplers have reached a stage of technical sophistication that eliminates obsolescence. Instead of buying new equipment every year to get all the latest sounds, you can now add all the latest sounds to your existing sampler for a fraction of the cost; or add another sampler for the same money. With the addition of a compatible CD-ROM drive, you literally have access to hundreds of thousand of fully programmed sounds that load into your sampler and are 'READY-TO-PLAY'. Of course we also supply hundreds of regular CDs loaded with sounds that you can sample yourself into any sampler.

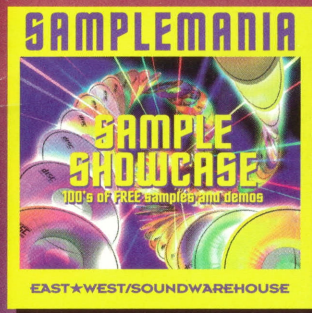

Over four hundred products for music samplers are included in this catalog including over one hundred new products listed for the first time - the world's largest selection. The catalog is divided into two sections; samples on regular CDs appear first (listed by developer), followed by CD-ROMs (listed by sampler). Refer to page 32 for specific ordering information.

We know our reputation is on the line every time you make a purchase, so we carry only the highest quality products available from the world's best developers. All of these products can be delivered to you as fast as you need them - the next morning if necessary (overnight service is available within the USA and Canada and some international cities). At East-West/SoundWarehouse we will always strive to assist you in your quest for effective and inspiring sounds to suit your particular musical preferences. Our sales team are both friendly and knowledgeable. New products are being added all the time, so if you can't find what you're looking for here, please call us to find out about any new and exciting sounds that were released too late to be included in this catalog. At the same time, ask about any monthly specials or CD-ROM bundles that are available.

Classic Producer Series Sample CDs from AMG

Volume 10 - Megabass REMIX! Sample CD

This CD from leading mixers Megabass, is specially designed for professional remixing, megamixing, and DJs in addition to anyone making dance music with samplers. Megabass have mixed Madonna, C&C Music Factory, 49ers, Altern 8, The Shamen, Black Box, 2 Unlimited, and many more in addition to their own hits and exclusive mixes for Radio 1, Kiss FM, Capital and the Mastermix DJ service. ■ "...If you're looking for instant loop gratification, stop here...this CD is faultless...It's another dance workstation, but fresher than most, and offers a generous helping of relevant dance/pop/rave crossover ingredients...I enjoyed it immensely, and so will you." - SOS, April 93. ■ "...perfect for the most vicious dance track...there are enough useable samples included on this CD to fit into any kind of track...9/10." - Future Music, April 93. ■ "...it takes something special to stand out...Remix! is something special...inherent versatility which makes Remix! an essential studio accessory...just too funky to ignore...a rhythm track programmers dream...for anyone who adds more than a quick fix." - H&SR, April 93. It features Impossible to get ■ Bangs & Whooshes ■ Rave & Techno Samples ■ Massive collection of Vocal Hooks ■ MC Samples & Shouts ■ in-demand techno and rave breakbeat loops to funky and weird loops ■ Plus loads more.

Volume 7 - Neil Conti's Funky Drums from Hell

Prefab Sprout's Neil Conti has provided the groove for such diverse artists as David Bowie, Annie Lennox, Primal Scream, and Thomas Dolby. The combination of funky drummer, top engineer, Daniel Lazerus, and Metropolis' mega-bucks studio has resulted in the most funky, stylized, classy loops ever recorded. ■ "...the playing is immaculate...a controlled looseness in the playing...the snare drum sounds like a snare drum should...Definitely the best live drumming CD." - SOS, Feb 93. ■ "...this compilation represents the coming together of everything that has been learnt about drumming in the last thirty years - taut performances, impeccable recordings, skilful tuning and above all, the value of the groove...I can recommend this CD wholeheartedly...If these funky drums are from hell, the Devil still seems to have all the best music." - MT, Mar 93. ■ drums breaks with real attitude sure to become classics. ■ specially extracted single hits to customize breaks plus a selection of much sought after hi-hat patterns.

THE CRITICS ALL AGREED

"It's a collection of beautifully sampled drum sounds" - MIX "This CD is a treasure-house of great drums suitable for a variety of styles, the mixing is superb. These drum hits are extremely crisp and realistic" - KEYBOARD "He's given us as near to a definitive breakdown of the drumkit as is currently possible. The recording standard is immaculate - it simply couldn't be bettered with any of today's technology" - MUSIC TECHNOLOGY (UK) "Consider that a great-sounding sounding sampler doesn't have much value without great sounds to play on it. Fortunately, ProSamples sounds like a million bucks" - ELECTRONIC MUSICIAN "There's just one more thing I'd like to say about having the opportunity to experience such a variety of sounds and excellent quality of recording - thanks Bob!" - SOUND ON SOUND (UK) "Drums II is the top of the heap" - KEYBOARD

SIX TIMES TEC AWARD WINNER

Voted Recording Engineer of the Year, Live Recording of the Year, and Les Paul Hall of Fame

Over the years Clearmountain has mixed hit albums for such artists as Bryan Adams, Bruce Springsteen, David Bowie, INXS, The Rolling Stones, Paul McCartney, The Who, Tina Turner, Tracy Chapman, Tears For Fears, Simple Minds, Pretenders, Crowded House, Hall & Oates, Roxy Music etc. etc. This sample collection represents the ultimate achievement in sampled Drum, Percussion and Bass Guitar sounds. Certainly this library has set new standards of fidelity in the sampling world. The realism and ambient quality that has been captured with these samples can only be achieved with the expertise of a producer/engineer such as Bob Clearmountain, combined with the acoustics and equipment found only in the finest recording studios in the world. Now you too can share in his experience and understanding of what really works in a track. The collection includes over 2000 individual samples recorded by Clearmountain specifically for this collection. The collection is available on audio CDs and CD-ROMS.

TIME+SPACE (UK) DIDN'T GET SAMPLE-CD REVIEWERS THIS EXCITED WITHOUT THEIR ZERO-G CDs BEING: 1. **INSPIRING**, 2. **WELL-TARGETED**, and 3. **DOWNRIGHT USABLE!**

CUSTOMER SATISFACTION - ALWAYS THE NUMBER ONE PRIORITY.

NOW READ THE EVIDENCE YOURSELF, FROM THE WORLD'S PRESS....

ZERO-G DATAFILES: "A REFERENCE AGAINST WHICH ALL SIMILAR SAMPLE-CDs MUST BE JUDGED...UNRESERVEDLY EXCELLENT...THE MOST COMPREHENSIVE DANCE SAMPLE RESOURCE IN CIRCULATION...AMMUNITION FROM THE FRONT LINE...UNBELIEVABLY VALUABLE..." (Music Technology, UK). "THE GREATEST SAMPLING TOOL EVER RELEASED TO THE PUBLIC!" (DMR Dance Music Report, USA). "AS A SOURCE OF SOUNDS AND INSPIRATION, ZERO-G REALLY WORKS" (Home & Studio Recording, UK).

ZERO-G FUNK GUITAR: "Zero-G's Funk Guitar is, with distinction, the best sampling CD at the moment" (Keyboards, Germany). "Meticulously prepared & presented... virtually noiseless... engineering & playing first class... cool, fresh & funky... a definitive collection... the best I've heard... light years ahead of the previous competition" (Sound on Sound, UK). "Irresistibly catchy stuff... pulsating riffs just begging to be put over a thumping dance beat... will crop up on countless chart & club hits." (CU Amiga, UK). "Lively & authentic. If you're a wah-wah fiend, this is the disk for you. Every imaginable wah sound is here, from warm & mellow to hard & heavy. Also a fine selection of whammy bar swoops & dives, vocoder & Talk-Box, & a huge selection of VERY USABLE funky grooves" (Melody Maker, UK).

ZERO-G FUNKY ELEMENT: "Fat with feel, this disc is guaranteed to serve up that ol' funk sound. Bags of loops, a huge range of snares, really great & groovy sax riffs & squeals, and-guitar chops to die for. Essential for all retro-funksters" (Melody Maker, UK). "Loops sound like extremely rare grooves... Best collection of its type I've come across. Mean sax notes, howls & squeals... guitar licks sound authentically 70s... no passengers here. A well-targeted, well-played, well programmed collection of funk elements." (Sound on Sound, UK). "For authentic funk feel you're spoilt for choice. Straight-from-the-flare-era feel... So fresh, so eminently usable, so FUNKY, 9 out of 10" (Future Music, UK). "For hiphop & funk it's all here." (ST Format, UK).

ZERO-G AMBIENT: "Bound to appeal... Textures abound: some windy, some watery, some just plain wacky... An army

of whooshy, metallic, analogue, and other textures... It's the mark squarely" (Sound on Sound, UK). "Perfect for making Orb-style trance records... Creating those ever-evolving trance-dance singles should be a doddle" (Future Music, UK). "Well recorded... Language is inadequate to describe these sounds... if you are looking for effects to add to your sci-fi movie, or new age atmospherics, start here." (ST Format, UK). "As the cover says, this is a goldmine of analog sounds & techniques from the early days of the synthesizer - whatever type of music you're making, there's a place for this disc in your collection. The sound quality & indexing is excellent throughout" (Melody Maker, UK).

ZERO-G ETHNIC: "Essential for the clued-up dance sampler... Vital & fresh samples... diverse, original & well-recorded... Go out and buy this. If you are subsequently disappointed, get out of the dance scene, you philistine!" (Sound on Sound, UK). "This disc is a real corker, stacked high with every dreamed-of kind of ethnic, woody, organic, earthy, tribal, trance dance stuff. If you're into techno or ethno or some new hybrid, there's got to be something on this disc for you... unusually spirited & vital" (Melody Maker, UK). **ZERO-G PAUL HARDCASTLE:** "Very handy all-rounder... bags of potential for catchy hooks & fills... full of bread and butter samples, with plenty of jam dolloped on top... you'll be sampling this for many months to come". (CU Amiga, UK). "A veritable cornucopia... everything you need to create a convincing rave / techno / house track... quality is excellent". (Melody Maker, UK).

ZERO-G GROOVE CONSTRUCTION: "Well organized, superbly documented... well up to T+S's usual standard... helps promote individuality... if you're looking for a set of loops with which you can mess around and leave something of your own identity, this is definitely the CD for you." (Music Technology, UK). "Exciting / very well organized... loops which are totally editable by your sequencer - here you have that flexibility... The drum loops of the future will be presented this way." (Sound on Sound, UK). "An excellent idea... more freedom than single drum loop samples give you... improves your groove-creation skills." (CU Amiga, UK).

NATURAL STEREO SAMPLES ACOUSTIC DRUMS, CYMBALS & HI-HATS

ITEM CODE: BB-9201

ITEM CODE: BB-9202

Two audio CDs featuring realistic natural sounding drums, cymbals and hi-hats (perfect for Jazz, Dance, New Age or any music requiring a completely natural drum sound). The collection was recorded in Germany by Claudius and Carsten Bruse using only the finest equipment - All sounds were recorded directly to disk-based systems (AMS Audiofile and Akai DD1000) and edited in the digital domain. Neumann, AKG, and AMS microphones were used; stereo recordings were mostly done with the AMS Soundfield stereo microphone (formally Calrec). Custom pre-amps and the Studer mixing desk were used to minimize noise and preserve transients. In general all recordings were left as natural as possible, minimal EQ and compression was employed where appropriate. Majority of sounds are performed four times to mimic the natural sound of repeatedly hitting a drum, cymbal or hi-hat - brilliant sound quality. Get each CD for \$99 or the 2-CD collection for \$169.

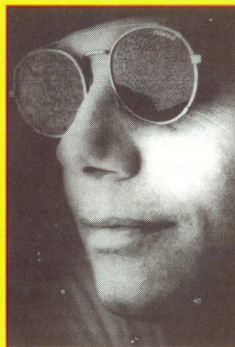

The new breed of Producer Series Sample CDs from AMG

Volume 11 - Vince Clarke, Lucky Bastard

This collection features new sounds created especially by Vince using the mountain of classic analogue synths in his Amsterdam Studio. A founder member of **Depeche Mode**, **Yazoo**, **The Assembly**, and now **Erasure** who better to produce the **ULTIMATE ANALOG SAMPLE CD**? Synths featured include Roland System 100m, System 700, ARP 2600, Moogs, SCI Pro One, Korg Polyfusion, VCS3, Serge, Obie 2 Voice, Xpander, and more. It features hundreds of constantly evolving synth sequences so you can either grab chunks or extract single sounds for the ultimate in user-defined creative sampling. There's a selection of multisamples along with many samples from Erasure's last 'Phantasmagorical' World Tour. Perhaps one of the most unique features of this CD are the drum loops. Vince has created these using only synthetic analog sounds, all the loops are broken down for ultimate flexibility so you

can easily create your own custom loops using these unique sounds. Just about every record he's ever done has been a hit, and this is no exception. This is hot! so avoid disappointment and place your order now and get this CD before everyone else has it!

Volume 12 - Keith Le Blanc's Kickin' Lunatic Beats

This volume sets new standards for drum sample CDs. Although Keith is widely acknowledged as virtually inventing Hip Hop, his work, and this CD, covers a far wider scope. After starting his career as in-house drummer with **Sugarhill** records, working on such classics as **Grandmaster Flash & Melle Mel's 'The Message'**, Keith has gone on to lay down the beat for **James Brown**, **REM**, **The Rolling Stones**, **Annie Lennox**, **Seal**, **808 State**, **Malcolm McLaren**, **Bomb The Bass**, **ABC** and many more. He has also moved into writing, production and remixing, working with such artists as **Charles & Eddie**, **Malcolm X**, **Living Color**, **The Cure**, **NIN**, and many more. He also found time create the unique sound of **Tackhead** with **Doug Wimbush** and **Adrian Sherwood**. The superb performances featured on this CD were recorded at **Orinoco** and Steve Lipson's new personal studio, **The Aquarium**. So, as you can imagine, the recording quality is absolutely state-of-the-art. Aside from tons of choice grooves (all bpm-ed as always), we've included a comprehensive set of matching single hits so you can create your own. Not that there's much chance of you doing that for a while, because after you hear these Kickin' Lunatic Beats you're going to be using them for years to come. Killer Drummer, Killer Studios, and Killer Production. This CD kicks like a mule!

Many more new titles are coming soon

The long awaited follow-up to **The Rhythm of Life** - a new ethnic percussion CD by **Talvin Singh** featuring a mind-bending range of Asian and African percussion!

CD-ROM Versions of many titles - **Rhythm of Life**, **Conti**, **Ruffy**, **Coldcut**, **Megabass**, **Cook**, etc.

Many more new projects are scheduled, many will be revealed in AMG's new catalog.

Please request a copy from our exclusive distributor **East-West/SoundWarehouse**.

DANCE+ INDUSTRIAL

by top programmers
David Frangioni & Rich Mendelson

"THIS IS ONE MOTHER OF A SAMPLE CD, GO OUT AND BUY IT NOW!"

(Review - Music Technology, UK).

- ALL NEW AND ORIGINAL LOOPS
- OPTIONAL MIDI-FILE FLOPPY DISK OF SEQUENCES
- ALL STEREO
- INDEX POINTS FOR ALL SAMPLES
- OVER 550 INDIVIDUAL SAMPLES

Available on audio CD or CD-ROM

Special features include the ability to load many of the loops into any sequencer from an optional midfile disk so you can change individual samples in a loop; change the tempo without changing the pitch; cut and paste loops together etc. Some loops were even created by heavy industrial machinery!

MORE REVIEWS: "The definitive collection of "original" dance and industrial loops" (KEYBOARD). "Get hold of this CD - If your music will stand up to the weight these breaks will bring to it, you really do owe it to yourself." (Music Technology, UK). "An education in itself... a hands-on insight into how the pros do it... lives up to expectations... pristine quality... a chance not to be missed." (Sound-on-Sound, UK). "A hard fist-full of deadly loops & hard-edged percussion to give your tracks attitude" (Future Music Magazine, UK)

The reaction from top USA users is equally ecstatic...

"These sounds are great! They will save people a lot of time... an indispensable library of sounds for anybody serious about dance music" - **JEFF LORBER** (Karyn White, Paula Abdul, M.C. Hammer, U2 etc.) "Crisp, Hard Hitting, Punchy, Great Variety, always something appropriate, I love the stuff!" - **FRED ZARR** (Madonna, Whitney Houston, Samantha Fox etc.)

BEAT BLOCKS
Groove Construction Kit

Clyde Stubblefield - The Funky Drummer on James Brown's biggest hits!

"This is *the* definitive funky drum disc to date. Clyde Stubblefield (arguably the most sampled drummer in history) lays down the real, unadulterated funk; in fact, he reprises a few JB classics, including "Funky Drummer" and "Cold Sweat". He's squeaky tight at times, and sloppily groovacious at others, but always in the pocket. This disc is an absolute must for the funk-minded sampler Jockey" **KEYBOARD REVIEW**. **INCLUDES FREE MIDIFILE DISK**

IF YOU THINK CLYDE WAS HOT BACK IN '69, HANG ONTO YOUR HATS - HE'S EVEN HOTTER NOW!
(please specify ATARI, MAC, or IBM PC format).

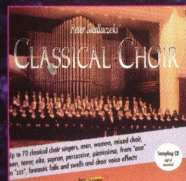

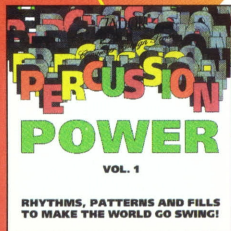

PERCUSSION INCOGNITO

Another new release in the Beat Blocks series will be immensely successful since it fills a big gap in the average producer's sample repertoire. Key features are - Incredible musical versatility, very large percussion selection, masterful playing, over 500 percussion loops, with tempos ranging from 50 to 170 bpm!! Armando Borg is a master percussionist of the highest order. Armando plays stylish impossible-to-program patterns with Agogos, Bongos, Cabasa, Congas, Clave, Cowbells, Guiros, Maracas, Pandieros, Rain Sticks, Shaker, Shakerays, Tambourine, Timbale, Triangle, Woodblocks, + other misc. instruments. Patterns offer a wide variety of styles & tempos, & offer a much greater degree of versatility than drum grooves. For example, often the same pattern can be used in House, Reggae, Soca, Techno, Calypso, Latin, Jazz, Soul Ballad, Rap or Fusion .. this is a CD for everyone.

PERCUSSION POWER!!!

Always wanted to know how the mambo is played? Fed up with programming your rhythm machine, that keeps sounding programmed, whatever you do? Wanna have real spices in your song or (DJ) performance. Well here it is - **PERCUSSION POWER** - lots of official latin rhythms, patterns and fills for every kind of use you can think of. Loops and complete percussion sections are included - BPM's are listed for every loop or rhythm section. For jingle producers, over 30 basic rhythm tracks are included, each approximately one minute long - **SUPERB QUALITY**

THREE CD-ROM MASTERPIECES

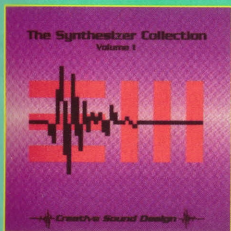

"The Denny Jaeger Master Violin Library is the absolute ultimate string library" **DOMINIC MILANO** (Editor - **KEYBOARD MAGAZINE**). A unique collection of violin samples that can create a very large variety of different emotions and section sizes, as well as control over tuning and individual attack articulations. There are different samples for different purposes, yet every sample in this library goes together with every other sample. If you've got a violin passage that goes from a soft sustain to tremolos to a loud sustain and then to pizzes, it all sounds like the same violin section. Continuity of sound is maintained throughout. Almost 70% of the banks fit into 8Mb or less. Exquisite banks are also included which utilize up to 16Mb. Separate attack samples are available on each half step up the range of the violin, and over 95% of the sustain samples are never transposed more than a half step above and below the original sound file.

Peter Siedlaczek's 'ORCHESTRA' All the sounds on the disc are carefully recorded from a full, real orchestra, to bring you the true essence of the strings and horns. They were originally compiled for use on the top-spec SynClavier, so you can get some idea of what quality to expect. The first section features straight hits played in a number of ways: there are straight major chord hits played by the full orchestra at a number of pitches, followed by similar performances in minor and diminished keys. The hits also include a number of long, sustained strikes, ranging from bottom C through another five octaves. Later there are glissando hits for more feel, arpeggiated chords and some eerie-sounding "cluster" notes. Many sounds have been played in two ways, with a strong attack or in a muted, passive form, enabling you to get just the right feel in your string section. This wide range of expressions, notes and chords makes this just about one of the most comprehensive collections of orchestra sounds you're ever likely to find. (reprinted from 'Future Music' Dec-92)

The Synthesizer Collection The best and most comprehensive synthesizer collection available today on CD-ROM! Volume 1 contains over 500 megabytes of fully engineered sounds, including 2000 presets and 800 samples of the individual synthesizers, custom digital stacks and effects skillfully crafted by Frank Bry of Creative Sound Design and programmed by East-West. These sounds are engineered for maximum playability and creativity. The disc contains a broad range of synthesizer material including: pop MIDI-stacks (digitally mixed and processed for outstanding audio quality), atmospheric textures, radical film textures, ethereal washes, strings, pads, bells, vocal, bass and soundtrack effects. Instruments include: Xpander, Jupiter-6, Jupiter-8, MKS-70, Super Jupiter, Prophet-5, MiniMoog, MicroWave, DX-7II, TX-802, TX-816, SY-77, TG-77, SY-99, VFX, JD-800, D-50, D-70, 0/1 W and T1 - THE ULTIMATE SYNTHS.

KURZWEIL K2000 CD-ROMS

SOFTWARE UPDATE

Most AKAI CD-ROMS can now be read by the K2000 with the version 2 software update. (PLEASE NOTE - the K2000 reads the mapping of the samples but not the filters. You should check with customer service whether this is a problem with the title you are interested in.) **NEW!** In addition, many of our suppliers have K2000 CD-ROMS in development - call for release details.

Introduces the Hottest New sounds on Audio CD's!

Killer Loops - Volume 1 - All of the Killer Loops you've been waiting for. From Producer/Engineer/Songwriter Chris Lang, comes his second Audio CD of loops & rhythms. Over 150 loops & over 170 individual samples used in creating the loops, including DJ FX and record noise and 5 DAT-RAM banks for S1000/1100. (The AKAI Digital Interface board is also required for the DAT RAM Banks). Additional programming and sound design by Giorgio Bertucelli, and live drumming by David Roberti.

Marco's Loop-D-Loops - Over 170 of the hottest House, Acid House, R&B Dance, Ambient, Tribal, Techno & stark Raving loops, as well as dozens of FX straight from the Underground. Including modular synths, vocal fx, sound fx, hits, tape stops, record scratches, TB 303 baseline loops, and 10 DAT-RAM banks for S1000/1100. (The AKAI Digital Interface board is also required for the DAT RAM Banks).

Doug Scott's Sound Flippers 102 & John Wilmer's Live Loops - Over 200 House, Rap & Dance loops from Producer/Programmer Doug Scott. All of Doug's loops are at 102 BPM. Create amazing polyrhythms by combining two or more of the Sound Flipper 102 loops. Also, 150 live drum loops from Producer/Programmer/Drummer John Wilmer, and 10 DAT-RAM banks for S1000/1100. (The AKAI Digital Interface board is also required for the DAT RAM Banks).

Classic Keyboards & Vintage Synths Volume 1 - With the help of Producer/Programmer/Songwriter Dave Kerzner and Sound Gallery we've come up with the first in a series of Classic Keyboards & Vintage Synths sampling CD's. Volume 1 includes: Hammond B3 Organs with & without Leslie, Korg CX-3, Vox Continental, Arp String Ensemble, Roland Vocoder+, Mellotron Choir & Strings, Chamberlin Flutes, Wurlitzer, Fender Rhodes & Key Bass, Hohner Clavinet, Moog Taurus Pedals, Minimoog, Arp 2600, Oberheim SEM, Oberheim 8-voice, OB-8, Jupiter 8, Juno 60, Prophet 5, and Prophet 10. 50 minutes of sampling, and 10 DAT-RAM banks for S1000/1100. (The AKAI Digital Interface board is required for the DAT RAM Banks).

For years Ross Garfield's world renowned Drum Doctors has been getting sounds for drummers like Jeff Porcaro, Terry Bozio and Lars Ulrich as well as lending his expertise to sessions with Bob Clearmountain, Alesis and Ensoniq. Ross has created the new standard in modern drum sounds. These CD-ROMs consist of over 1,200 samples- kits, cymbals, percussion and monster stacked sounds. These CD-ROMs are intelligently organized and a breeze to use. The best drum sounds money can buy!

"Every Time I bring samples to a session, my reputation's on the line... These are the best drums I've heard and believe me, I've heard them all!"

Kevin Maloney,
Programmer Michael Jackson

Over 500 Loops, Samples
and DJ FX on Audio CD!

Akai, EIII, Roland, Synclav,
SampleCell, Audio CD

CHRIS LANG has done it again! Joining forces with some of the newest names in dance music, Chris has created Drum Loops Vol. 2, the most diverse, best sounding dance music construction kit available. This disc

contains over 300 loops, including funky live grooves, Acid House, Rap, Hip Hop- in all the stylistic variations you need, as well as over 200 samples of Boomin' kicks, Poppin' snares, blazing DJ scratch work, 808 samples, loopable orchestral effects and much more. All the loops on Volume 2 are edited to provide exactly 2 or 4 bars, to be sampled and looped with ease. Documentation includes precise tempos for each loop. This disc is the perfect compliment to Drum Loops Volume 1.
